President's Notes

It gives me great pleasure on behalf of the Executive, as the President of the Australian Clay Target Association (ACTA) to report on the Association affairs for the 12 month period ending the 31st December 2017.

MEMBERSHIP

Membership for the period has decreased from 14,359 to 14,126, down 233 members. Almost all this decline was in NSW with a fall of 220 members. Small decreases were also seen in Victoria, Northern Territory and West Australia with small increases in Queensland, South Australia and Tasmania.

Almost 2600 new members were signed up during the period. However, until the drift away, which continues at about 20% per annum is stopped, it will remain impossible to grow the membership significantly. The continuing problem of clubs that do not ensure that all their shooting members are registered with the ACTA as required by the Constitution, is also negatively affecting growth in membership and the risk of exposure to uninsured legal claims continues. All clubs have now been provided with a copy of the current ACTA Constitution and officially advised that it is a clear breach of the ACTA Constitution to retain shooting members that are not registered with the ACTA.

The Recreational category of membership has now been extended at the request of clubs to allow members to shoot practice and targets only in any ACTA discipline and at any ACTA club. Target only shooting is important as it allows the Recreational member to take part in and be exposed to the competition shoot and environment which could encourage them to become full competition members.

The Recreational category also provides all the insurance covers, including personal firearms insurance cover and provides genuine reason for the holding of a firearms licence.

INSURANCE

The Executive has insured the Association, its member clubs, and registered shooters as comprehensively and economically as possible. During the period, the brokerage firm Pollards continued to source most of our insurance from underwriters, the Australis Group – Lloyds of London.

The Protection Package provided cover for Public Liability, Accident, Death, Loss of Income, Officers and Directors Indemnity Insurance for Committee Members at all levels in our Association, Travel Insurance and the personal Firearms cover. Details of all covers are available on the website.

There are two outstanding liability claims currently in the hands of the insurer. One is for approximately \$50,000 and the other for an estimated \$300,000. Both originated at club level and as can be seen by the amounts involved, they would be devastating to these clubs without the protection provided by the ACTA insurance package. Liability insurance is a specialist field and the ACTA strive to provide the best to protect members. Premiums are assessed on membership numbers and some clubs are jeopardising this cover by not joining all shooting members with the ACTA and thus under-disclosing the numbers actually able to attend ACTA affiliated grounds on a regular basis. These numbers are used to assess premiums. The ACTA relies on the support of all member clubs to provide this important service which for most small clubs would be unaffordable otherwise.

The actions of these few non compliant clubs will inevitably negatively impact all ACTA clubs.

The personal Firearms insurance provided within the membership cost has now passed its first anniversary with all claims settled except one made by a shooter who was unfinancial at the time of the loss. Some claims were paid up to the maximum of \$12,000 less the \$50 excess. It is important to note that cover can be increased to \$25,000 for a payment of \$10 per annum, this is currently the best package available to registered members of any firearm organisation in Australia. This policy covers all firearms registered to the member. The cover applies anywhere within Australia (including in the field) and 21 days per annum overseas. This cover was brokered by Marsh Insurance and details are on the website.

FINANCIAL

The Association once again traded well during the year showing a profit of \$4,359,192 in the audited accounts. After removal of an extraordinary figure of \$4,086,795 attributable to a portion of the NSW State Government Grant, a profit of \$272,397 is more appropriate for comparison with previous years.

This compares very favourably with the 2016 result of \$250,806, and was achieved without any increase in membership costs.

Payments of the Wagga Wagga City Council Loan to purchase the Ground have all been met when due and the loan now has only approximately 3 years left of the original 10 year term. Profits have also allowed a secured loan to the VCTA to assist completion of their State Ground at Echuca. It is also great to see that Wangaratta Club, the recipient of previous ACTA and VCTA support has now reopened their grounds.

Riverina Water made a fantastic gesture to the ACTA by refunding the majority of fees involved with the connection and provision of water mains for the new development and associated fire-fighting services. This was an amount in excess of \$50,000 and is greatly appreciated. Thank you Riverina Water.

GROUND DEVELOPMENT

Reasonable profits have again allowed continual development at the National Ground, including raising and refitting traps 17, 18 and 19, and the installation of trap 20. All are now equipped with a full set of handicap marks. The Clubhouse/Conference Centre was at about 60% completion at the close of this reporting period. The development is expected to be completed in time for the Trap Nationals and the World DTL. This project with a budget of \$6.7 million will change the face of the National Ground forever and provide a spacious, comfortable area during ACTA competitions and for ACTA major functions and use by the wider community.

This project, from the persistence shown in continually applying for funds over a period of over 4 years after repeated rejections, through the design and planning process and then through the tendering and construction phase, is a credit to all involved and especially a testament to the commitment and effort put in by ACTA Executive Officer, Tony Turner. He received valuable assistance from building committee members Terry Morony, and Don Power who also acted as project manager during construction (at no cost to the ACTA). I cannot thank these three people enough.

With tight timeframes from the announcement of the grant to

completion of the building it was important that decisions were made quickly and for allowing this small group to do so without much interference I thank the Executive Committee members who rarely interfered or held up the process. Their support during this period was critical and greatly appreciated.

Our thanks must also go to our chosen builder Mr. Kerry Pascoe who has gone well above and beyond the requirements of his contract with the ACTA. Thank you Kerry.

Finally we must recognise the efforts of Daryl Maguire the local State LNP member without whom the project would never have been possible.

WEAPONS LICENSING

The ACTA Arms Fair permit application continues to come under closer scrutiny. One of the benefits from the building project has been the need for the builder to lay concrete slabs for the purpose of pouring the tilt up wall slabs. Some of these slabs are now car parks but a large slab remains at the southern side of the workshop shed. It is proposed this slab will form the base of a new traders area. This proposal will be considered at the next Executive meeting and if adopted will free up the existing carpark and do away with the necessity of a security fence around the traders. All firearms and ammunition traders would then be in a secure building with direct access to the strong room.

NATIONAL CHAMPIONSHIPS

During the period, National Championships were conducted in all disciplines. All were well attended with most showing an increased attendance over last year. The trap saw a large increase which was pleasing.

The **National ISSF Championships** were hosted by the West Australian Gun Club and our thanks go to them for the effort they put into the facility prior and during the event. Venues of this size in the ISSF disciplines require a lot of maintenance and therefore expense to remain operational. Total entries over the eight main events were 288, a decrease of 5 over the previous event. Thanks must go to the volunteer ISSF accredited officials without whom these types of events could not be hosted.

The ISSF fraternity need to start encouraging suitable persons from amongst their ranks to get qualified to manage and adjudicate at these events. Current officials are all nearing the end of their volunteering days and the ACTA need more people to step into these inevitable vacancies as they occur.

The **National Trap Championships** were conducted at the National Ground. The attendance over the six main events was 3004 as opposed to 2737 in 2016 an increase of 267.

The **National Skeet Championships** were conducted at the National Ground with entries of 912 over the 8 main events against 901 last year. This was again almost a full field.

The **National Sporting Clays Championships** were conducted at the National Ground with entries of 216 in total over the two events, up 8 on the previous event. This event is conducted by the Wagga Gun Club on behalf of the ACTA and I thank them for its preparation and conduct.

ADMINISTRATION

The National Office was very stable over the period with no staff changes. Our thanks go to Executive officer Tony Turner, and staff members Maureen, Sue, Judy, Jenny, and Dave for the effort they have made during the period. Fred Rapley has continued to maintain the trap machinery as required and we thank Fred for that also. Fred is also training Barry Hall as his assistant and eventual replacement.

EXECUTIVE CHANGES

Mr. Barry Bosworth joined the executive at the 2017 AGM replacing Mr. Geoff Moore – Queensland.

I extend the Association's thanks to the retiring member and welcome his replacement.

The Executive again supported the election of a Board being Mr. Robert Nugent (Chairman), Vice Presidents Mr. Rob Fox and Mr. Mal Dyson, Treasurer Mr. Alan Styles and Mr. Bronte Evans.

The age of Executive members is becoming a real issue. States should consider this carefully when selecting new delegates as it is somewhat counter-productive to appoint 60 to 70 year old delegates to these positions on their first appointment. Surely we can find some younger energetic nominees?

MEDIA

The CTSN continues as one of our largest cost areas, and its future is under constant review. Electronic media is playing an ever increasing role in society and will no doubt overtake the print media long term. I remind members that all back copies are available on the website for viewing, downloading and research projects. Our thanks to Jim and Judy Shepherd for their efforts in this area.

ELECTRONIC MEDIA

The Association now has a large presence in the electronic media area. The ACTA website is a valuable resource for members and clubs alike. The ability for members and club secretaries to renew online is of great benefit. The Facebook post only page also allows the ACTA to keep in contact with members quickly and economically.

The new conference hall overlooks 3 DTL layouts and is being equipped with the technology and infrastructure to live stream events and particularly shoot offs to the world. This is an exciting prospect and the installers will be working hard to have this in place for the 2018 World DTL.

Unfortunately there continues to be a huge down side to the advent of Facebook, Twitter etc. Negative comment, often misinformed, does untold damage to the sport's image. "Keyboard warriors" taking cheap shots at volunteer officials bring nothing to this sport.

AFFILIATIONS

Shooting Australia (SA)

As reported last year, our belief was that SA was continuing to part fund a coaching position within ACTA to fill the gap between the High Performance coaches and our coaches ie: the position of our Coaching Director. Suzy Corry fills this position and it continues to be a beneficial arrangement for ACTA.

However, after requests for payment to ACTA not being met by SA over the last 12 months and much procrastination and avoidance of the issue on their part we have finally been advised they are no longer funding the position. This shortfall has been recognised in the 2018 budget and the position may now require a full review.

The new selection processes adopted by SA have provided some improvement with a sliding scale of benchmark scores over the quadrennial being adopted. The lowering of scores in the early part of the program is appropriate. As we get further into the cycle and selection processes tighten it will be interesting to see whether the current level of acceptance of the program continues.

As detailed last year, the Whole of Sport Governance review and the

Continued next page

President's Notes

Continued from page 3

release of the Suiko report clarified the long term ambitions of Shooting Australia. The future will be challenging with the intent of SA to cannibalise its own member bodies being in total conflict with the Aims and Objects of the Constitution of the ACTA and we believe the interests of its members.

With the removal of shooting from events like the 2022 Commonwealth Games the relevance of SA itself may well be questioned in the future. SA is doing what it can to try and have the shooting sports reintroduced into the games and this has ACTA's full support.

SA President Cath Fettell was recently appointed to the Australian Olympic Committee and it is great to see shooting represented at this level, Congratulations Cath.

International Clay Target Shooting Federation (ICTSF)

This body of which I am currently President met in England in August at the World English Sporting Championships. As has been reported elsewhere the Australian team had some success at this event and represented their country honourably.

The ICTSF is conducting the World DTL at the ACTA National Grounds immediately after the 2018 DTL Nationals. The General Assembly will be held at this event and in accordance with the ICTSF Constitution I will be retiring from the position of President which will then rotate to a representative from a northern hemisphere member body. The new appointment takes effect at the conclusion of the World DTL. The 2018 World event will be the largest ever conducted by the ACTA with the field full at 800 competitors and the only vacancies will be late withdrawals. The response to the request for helpers for the event was gratifying and we now have a full field of qualified referees.

COACHING

Many States have excellent programs in place and a large body of willing coaches travelling large distances to make our sport more satisfying to our members.

I congratulate these volunteers on their efforts.

The Academy programs run under the eye of Suzy Cory continue to prosper with good attendances and performances.

SPONSORS

Association sponsors have again provided exceptional support. Support was received during the period from Riverina Water, Casella Wines, Bronzewing, Beretta Australia, Perazzi Australia, Winchester Australia, Clay and Hunt, Bang on Target, Hunts Shooting Supplies, The Lawson Motel, Mialls Gunshop, Power Ammo, Outdoor Sporting Agencies and PCM Enviro. The Association thanks these sponsors and looks forward to their ongoing support.

CONSTITUTIONAL CHANGE

The Executive in June 2015 voted to support a change of registration from an Incorporated Association to a Company Limited by Guarantee. The ACTA spent a great deal of time in consultation with the Association lawyers to provide a document that complies with the law and meets the Association's needs. The proposal was put to the 2017 AGM but unfortunately for the Association it was not accepted. This was despite changes as suggested from Australia wide consultations and input received and amendments made at the request of various stakeholders. At this moment in time there is no plan to resubmit a Constitution for consideration of the members.

MEMBERSHIP VALUE

The Association continues to add value to the membership. Initiatives like the introduction of the Personal Firearms Cover within the cost of membership and the introduction of SportsPass have been provided at no extra cost to the member. Early in the new year clubs can expect to see the introduction of a NAB sponsored scheme providing valuable dollars to ACTA clubs. Some of the many benefits of membership are shown below.

Personal Accident Insurance – Death and Income, Directors and Officers Insurance, Club Public Liability, Firearms Insurance.

Competitions in disciplines: ACTA Trap, ACTA Skeet, ACTA ISSF, ACTA 5 Stand Sporting, ACTA English Sporting, ACTA Sportrap.

Competition: Competition at Club, Zone, State, National and International level representation (Sporting, Trap, Skeet, ISSF), International affiliation with the ICTSF.

Affiliations: International Affiliation with Shooting Australia., International Affiliation with National Skeet Shooters Association (NSSA), International Affiliation with National Sporting Clays Association (NSCA)

Members services: Individual my-page details are available to every member. Membership renewals online by individuals and Clubs, access to personal data such as address and phone, Club, State, Zone access at different levels. National access (Club secretary through to State secretary) to all shooters through player directory including details: Name, Club, Grade, Handicap, Financial status.

Plus more: see the website for details.

ACTA INTO THE FUTURE

Looking forward, the Association retains a firm financial base to work from, its assets and members are properly protected with adequate insurance, and we have a stable membership. The National Ground facility is almost complete and the National Office well maintained. We continue to be successful on the world stage.

We are however continually threatened by the Anti-Gun lobby, possible oppressive legislation and poor press following any firearm related incident. More problems are being encountered with the use of lead shot, pitch clays and plastic wads.

The Association needs to work closer with other national shooting bodies regarding these and other common issues. The ACTA has taken the initiative in approaching other similar bodies but to date has only received guarded response.

The need to be a united organisation has never been stronger and I encourage stakeholders to work with your Association to make it more proactive and resilient.

We continue to have a lot of passionate and energetic people in the Association at all levels, but unfortunately only a few are able to be at the helm at any one time. If we can all work together I am confident the ACTA will have a great future.

I take this opportunity to thank our staff, my fellow Executive members, Board members, and Committee Chairpersons for the support, time and effort they have given so freely during the period.

A special thanks to my two Vice-Presidents, Rob Fox and Mal Dyson.

In closing I would like to thank the thousands of volunteers without whom the efforts of your Executive would be futile, that is the volunteers at Club, Zone and State level. I am sure they would also appreciate your personal thanks as well.

Executive Officer's Report

The program for March is very hectic for the National body, staff and the National Executive, as well as the participants in the National and World DTL Championships. The staff and typesetters Jim & Judy Shepherd have worked with Bush and Campbell (our new Auditors) to produce the financial reports and the Annual Report as required under the Incorporations Act. The Annual Report is a "selling tool" for the Association, projecting the professionalism of the Association to our members and stakeholders including the State and Federal Governments. The ACTA AGM will be on Sunday 18th March during the Nationals followed by the Hall of Fame presentation evening on Tuesday 20th March.

As usual there will be 12 lucky draws for all entrants in the Nationals of \$500.00 each (usually two per night) following presentations. Any draws not claimed will be drawn on the last night until a winner is present. (Conditions apply: winners must be present to claim the draw, they have one minute to claim the prize, if not won it gets relegated to the next draw.)

The World DTL Championships is an opportunity to showcase the sport internationally, nationally and regionally. The ACTA have engaged 30 referees for the event to ensure we have a level of professionalism that would be expected at a World event. There has been a great deal of preparation for the event with all traps serviced, the ground has been maintained to a professional level, a big job considering it has had a construction zone in the middle for the past eight months. Our office staff for the event is the usual team. We have the National Rules Supervisor Jim Shepherd and National Handicapper Ray Peatling on site for both events, as well as Past ACTA President Glenn Woodhatch and ACTA office staff along with Mal and Helen Dyson and Anne Peatling assisting with the handicapping.

Frank Audiore will officiate at his last National Trap event, having decided to hang up his retirement shingle in the office. We have Janenne Kidd assisting Frank in the scoring and scoreboard area. All of these people will make the office function efficiently for the events.

This year we again have Sue Pim heading the shoot as Shoot Marshall, ably assisted by Janene Schiller, the event continues to run smoothly under the guidance of two of the best in the business. Terry Marsden has assumed the role of Tournament Director working closely with the two Shoot Marshalls. As the event is now full, it is imperative that all shooters are punctual and arrive at their appointed layouts to commence on time for all events.

During the World DTL Championships there will be signage on the back of referees chairs indicating squad times for each day. We have trappers working in pairs to ensure the traps are kept moving with limited down time.

Fred Rapley and Barry Hall will ensure that all aspects of the traps are taken care of and that shooters enjoy their 10 days at the Nationals and the Worlds.

The National Executive is the governing body for the Championships and all decisions that require adjudication will be dealt with by them.

As this is the biggest event in our history it is important all competitors work with us to ensure the event is a success. We look forward to seeing competitors and visitors at the event, come along and watch our world class teams and individuals take on the rest of the ICTSF members, and take home the major prizes.

Federal Ministerial Support for Clay Target Shooting

As the Federal Sports Minister and a keen shooter myself, I am very much looking forward to watching our 28 athletes representing shooting sports at the upcoming Commonwealth Games on the Gold Coast. There has never been a more important time to draw attention to our sport, and to support our athletes loudly and proudly.

We have four defending Commonwealth Games champions to cheer on in our shooting team. With ages of the team ranging from 15 to 58, our team takes in not only up and comers, but also maturity and experience. There aren't many international sports comprising such a wide spectrum of ages – proof that anyone can enjoy and excel at shooting when given the right opportunities.

As we all know, shooting is an enjoyable, family friendly sport – which is why there are almost one million licenced sporting shooters in this country. It is a sport that requires intense concentration, steady nerves

Federal Sports Minister Bridget McKenzie with Catherine Skinner and James Willett, both on the 2018 Commonwealth Games shooting team, at the launch of the Parliamentary Friends of Shooting for the 45th Parliament.

and absolute precision.

We are at a cross-roads in Australia when it comes to the future of sports shooting. Too many Australians aren't aware that the changes being demanded to firearms laws also impact our internationally competitive athletes. There is an unfortunate separation between how many Australians see our sports shooting stars on the television screen, and how they see the average licensed firearms owner.

The Commonwealth Games is an enormous opportunity to change those attitudes and promote the environmental, economic and social benefits of shooting to the wider community.

We all know televised sport is a ratings winner in Australia, and millions of everyday Australians will tune in this year to see our athletes compete on the Gold Coast. I firmly believe we should be drawing more attention to the achievements of our Commonwealth Games shooting team. By encouraging more Australians to watch and cheer on our shooters, we can begin to address the perceptions around our sport and show the community what we know it is to be – a gripping and highly disciplined competition.

And if we are to remain competitive on the international stage, we must promote our shooters as representatives of who we are and what we do. In my capacity as the Federal Sports Minister, I want to ensure there is a pipeline towards elite participation at local shooting clubs across Australia.

Three years ago, I began the Parliamentary Friends of Shooting group to promote shooting sports to politicians and the media in Canberra. Our group holds regular events that showcase what an enjoyable and safe sport shooting is.

We've taken polities to shoot pistols, rifles and shotguns at various ranges – and no one has ever left without enjoying themselves.

It is small steps like this that help broaden community perceptions of shooting, and the Commonwealth Games can continue that journey.

Financial Statements For the Year Ended 31 December 2017

COMMITTEE REPORT

The Committee present their report together with the accounts of Australian Clay Target Association Inc ('the Association') for the year ended 31 December 2017 and the auditors' report thereon.

COMMITTEE

The Committee members of the Association in office at the date of this report are:-

Robert Nugent	President	Colin Kneebone	New South Wales
Brian Muirson	Queensland	Don Johnson	New South Wales
Barry Bosworth	Queensland	Alan Styles	Tasmania
David Howe	Northern Territory	Fiona Atkins	Tasmania
Robert Fox	Northern Territory	Gary Hayden	Victoria
Terry Marsden	Western Australia	Mal Dyson	Victoria
Elaine Forward	Western Australia	Garry Read	South Australia
		Bronte Evans	South Australia

PRINCIPAL ACTIVITIES

The principal activity of the Association during the 2017 financial year was to administer, promote and develop the sport of clay target shooting.

STATE OF AFFAIRS AND SIGNIFICANT EVENTS

In 2017 the Association partnered with Infrastructure NSW to commence construction of a multipurpose convention centre at the ACTA headquarters in Wagga Wagga. The centre will double the current capacity of the ACTA and will provide first class administration and clubhouse facilities to its members and the surrounding community. Construction will be completed in early 2018.

RESULT

The net operating surplus of the Association for the year ended 31 December 2017 was \$4,359,192, which includes one-off capital funding of \$4,086,795. This compares to a net operating surplus in 2016 of \$250,806.

Signed at Wagga Wagga this 24th day of January 2018 in accordance with a resolution of the Committee:

NOTES TO AND FORMING PART OF THE ACCOUNTS

For the Year Ended 31 December 2017

NOTE 1 – STATEMENT OF ACCOUNTING POLICIES

The financial report includes the financial statements and notes of the Australian Clay Target Association Inc as an individual entity. The Australian Clay target Association is a not for profit entity incorporated and domiciled in Australia.

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the financial reporting requirements of the Associations Incorporation Reform Act 2012.

The following is a summary of the material accounting policies adopted by the entity in the preparation of the financial statements:

(a) *Income Tax*

No provision for income tax has been raised as the entity is exempt from income tax under Division 50 of the Income Tax Assessment Act 1997.

(b) *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

(c) *Receivables*

Accounts receivable include amounts due from members. Accounts receivables are recognised at the amounts as they are due for settlement. Accounts receivables do not carry any interest and are stated at their nominal value.

(d) *Inventories*

Inventories comprises goods for resale and goods for distribution and use at no or nominal consideration as part of the Association's ongoing activities.

Inventory held for sale is measured at the lower of cost and net realisable value.

(e) *Trade creditors and other payables*

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the Association during the reporting period, which remain unpaid. The balance is recognised as a current liability with the amounts normally paid within 30 days on recognition of the liability.

(f) *Property, plant and equipment*

Each class of property, plant and equipment is carried at cost less, where applicable, any accumulated depreciation and impairment.

Where the cost model is used, the asset is carried at its cost less any accumulated depreciation and any impairment losses. Costs include the initial purchase price and other directly attributable costs.

Land

Land held for use is stated at re-valued amounts. Revalued amounts are fair market values based on appraisals prepared by external professional valuers once every three to five years or more frequently if market factors indicate a material change in fair value.

Increases in the carrying amount arising on revaluation of land and buildings are recognised in other comprehensive income and accumulated in the revaluation surplus in equity. Revaluation decreases that offset previous increases of the same class of assets shall be recognised in other comprehensive income under the heading of revaluation surplus. All other decreases are recognised in profit or loss.

Buildings, plant and equipment

Buildings, plant and other equipment (comprising fittings and furniture) are initially recognised at acquisition cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management.

Buildings, plant and other equipment are subsequently measured using the cost model, cost less subsequent depreciation and impairment losses.

Depreciation is recognised on a straight-line basis to write down the cost less estimated residual value of buildings, plant and other equipment. The following useful lives are applied:

- | | | | |
|-----------------------|-----------|---------------------|-----|
| • Buildings | 2.5% | • Office equipment | 20% |
| • Plant and equipment | 10% - 20% | • Computer software | 33% |
| • Motor vehicles | 20% | | |

At the end of each annual reporting period, the depreciation method, useful life and residual value of each asset is reviewed. Any revisions are accounted for prospectively as a change in estimate.

(g) Revenue

Revenue is recognised when the amount of the revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the Association and specific criteria relating to the type of revenue as noted below, has been satisfied.

Revenue is measured by reference to the fair value of consideration received or receivable, excluding sales taxes, rebates or discounts.

Rendering of services to members

Revenue in relation to rendering of services is recognised depending on whether the outcome of the services can be estimated reliably. If the outcome can be estimated reliably then the stage of completion of the services is used to determine the appropriate level of revenue to be recognised in the period.

If the outcome cannot be reliably estimated then revenue is recognised to the extent of expenses recognised that are recoverable.

Government grants

The Association has received significant financial support from the NSW State Government during the financial year.

Where conditions are attached to a grant which must be satisfied before the Association is eligible to receive the contribution, recognition of the grant as revenue is deferred until those conditions are satisfied.

Where a grant is received on the condition that specified services are delivered, to the grantor, this is considered a reciprocal transaction. Revenue is recognised as services are performed and at year-end until the service is delivered.

Revenue from a non-reciprocal grant that is not subject to conditions is recognised when the Association obtains control of the funds, economic benefits are probable and the amount can be measured reliably. Where a grant may be required to be repaid if certain conditions are not satisfied, a liability is recognised at year end to the extent that conditions remain unsatisfied.

Sale of goods

Revenue from the sale of goods comprises revenue earned from the sale of goods donated and purchased for resale. Sales revenue is recognised when the control of goods passes to the customer.

Interest revenue

Interest income is recognised on an accrual basis using the effective interest method.

(h) Deferred income

The liability for deferred income represents the unutilised amounts received from members of the Association on the condition that specified services are delivered or conditions are fulfilled. The services are usually provided or the conditions usually fulfilled within 12 months of receipt of the contribution.

(i) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of an asset or as part of an item of expense. Receivables and payables are stated inclusive of GST.

(j) Employee benefits

A provision is made for the Association's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be wholly settled within one year have been measured at the amounts expected to be paid when the liability is settled.

The Association's liabilities for other employee obligations are included in other long-term benefits as they are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service.

(k) Capital expenditure

Capital commitments represent assets still under construction at year-end. These assets often require extensive installation work or integration with other assets, and contrast with simpler assets that are ready for use when acquired, such as motor vehicles and equipment.

Capital works in progress are not depreciated as the Association is not currently deriving any economic benefits from them.

(l) Reserves

Asset revaluation reserve comprises gains and losses from the revaluation of land.

All other reserves comprise surplus funds that have been designated to be spent for a specific purpose in the future to which the individual reserve relates.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AUSTRALIAN CLAY TARGET ASSOCIATION INC

Opinion

We have audited the accompanying financial report, being a general purpose finance report, of Australian Clay Target Association Inc, which comprises the statement of financial position as at 31 December 2017, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date, notes comprising a summary of significant accounting policies and other explanatory notes and the Committee's declaration.

In our opinion, the financial report of Australian Clay Target Association Inc has been prepared in accordance with the Associations Incorporation Reform Act 2012, including:

- (i) giving a true and fair view of the registered entity's financial position as at 31 December 2017 and of its financial performance and cash flows for the year ended on that date; and
- (ii) complying with relevant Australian Accounting Standards – Reduced Disclosure Regime and Associations Incorporation Reform Act 2012.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities section of our report. We are independent of the Association in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Report and Auditor's Report Thereon

The committee are responsible for the other information. The other information comprises the information included in the Association's annual report for the year ended 31 December 2017, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Committees' Responsibility for the Financial Report

The committee is responsible for the preparation of the financial report in accordance with the financial reporting requirements of the Associations Incorporation Reform Act 2012 and for such internal control as the committee determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the committee is responsible for assessing the Association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Association or to cease operations, or has no realistic alternative but to do so. The committee is responsible for overseeing the Association's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: <http://www.auasb.gov.au/Home.aspx>. This description forms part of our auditor's report.

2018 ACTA ISSF Championships

VCTA State Ground – Echuca, Victoria
January 15 – 20 2018

The 2018 ACTA ISSF Championships were conducted for the first time at the new VCTA/Echuca Gun Club ground by the VCTA.

The VCTA received funding to upgrade and extend ISSF facilities at Echuca from the Victorian Government, the result is a great facility for members and the State of Victoria and the ACTA.

The VCTA took on the role of supporting the event with a number of Executive of the State filling the many and varied roles required.

The weather was typical of this time of year, hot and dry. However the air-conditioned clubhouse and large verandah catered for the event with ease.

The event is the pinnacle of the ISSF domestic calendar with the best of the best attending. There were some outstanding performances as you will see from the following results.

The ground was presented in great condition and the new shooting facilities provided a great ISSF venue.

The ACTA takes the opportunity to thank the judges, referee's, volunteers and VCTA members for their support of the event.

I take the opportunity to thank the office staff and particularly Frank Auditore who has run the scoring and scoreboard system for many years.

This was Frank's last ISSF Championship event. This year will also be Frank's last Trap and Skeet Nationals. Finding a replacement will be big task.

A special thank you to Anna Shedrina who commentated the finals for the ISSF Championships.

Also Brenda Moroney for providing the music required under the new rule. The new rules require a commentator and music and Brendan and Anna helped us enormously.

Casella Wines also provided a bottle of bubbly for the winner of each event.

Jack Stockdale ice cool in the heat at Albury 2 day skeet shoot

Despite the predicted hot weather there was a very good turnout of shooters for the annual two days of skeet.

51 shooters nipped up for Saturday starting with 25 pair of skeet doubles, there was no possibles recorded but both Jack Stockdale and Shane Bennett each shot 49/50 the shoot off resulted in Jack finishing on top with 57/58 and Shane taking 1st in AA with 56/58 and Sam Agostini getting 2nd in AA with 48/50, 1st in A grade went to Doug Alcock 56/58 and 2nd in A to Charlie Cook 55/58, B grade 1st was Katie Hoskins 48/54, 2nd in B Reg Petts 47/54, C grade 1st Ben Kuschert 40/52, 2nd C Trina Adams 39/52, Veterans Laurie Chelepy 47/50, Ladies Sarah Bennett 45/50, and Juniors Jack Stockdale 49/50.

Event 2 was The 50 target City of Albury Skeet Championship clean scores were recorded by Jack Stockdale, Barry Moss, Laurie Chelepy and John Rodden, Jack went on to win overall with 59/59, Barry was 1st in AA with 60/61 and Laurie 2nd AA 59/61, John Rodden took out A grade with 53/54 and 2nd in A was Tim Stockdale 49/50, Will Holloway came 1st in B grade with 61/64 and Garry Martin 2nd with 60/64, C grade winner was up and coming junior from Corowa Ben Kuschert with an excellent 47/50 and Trina Adams taking 2nd with 44/50, Vets went to Laurie Chelepy, Ladies to Sarah Bennett and Junior Jack Stockdale 50/50.

Sunday turned out to be identical weather wise to the previous day although a bit of a breeze helped to make it more bearable.

The 100 target Calcutta event got under way bright and early to try to beat the heat with 55 shooters attacking the targets, when the last squad walked off the grounds there was three possible recorded those being Jack Stockdale, Mark Rosenboom and Hayden Mountjoy, it was great to see Mark notch up his first 100/100 on his birthday, Jack went on to win overall with 114/114, Mark was 1st in AA on 113/114 and Hayden 2nd with 107/108, Tim Stockdale showed he is also a fine skeet shooter by winning A grade with an excellent 108/109 and junior Charlie Cook was hot on his heels with 107/109, B grade was won by Reg Petts 106/112 with Royce Wojtowycz 2nd 105/111, Royce was a bit stiff having to wait for the high house to be replenished with targets, while he waited patiently to shoot

at high four after Reg had already shot station four it surely would have affected his concentration as he then missed his high four target, C grade again went to that little junior hot shot from Corowa Ben Kuschert with 88/100 and again Trina Adams was runner up with 85/100, Laurie Chelepy again cleaned up in Veterans 112/115, Sarah Bennett was best lady with 98/100 and naturally Jack Stockdale was the best junior with his perfect score of 100/100.

Overall High Gun for the two days was Jack Stockdale 199/200, AA High Gun was won by Sam Agostini 197/200, A grade High Gun went to Charlie Cook 195/200, B grade was Reg Petts 187/200 and C grade was Ben Kuschert 173/200, Vets Laurie Chelepy 194/200, Ladies Sarah Bennett 192/200, Junior Jack Stockdale 199/200.

All in all it was a great weekend and what a pleasure it was to see young Jack Stockdale in action, it is hard to believe that he is still a junior and attending school such is his maturity and shooting ability he is a fine young man and a credit to himself and his dad Tim.

Our sincere thanks to Gerry Lafferty for again cooking the variety of meats for our meal on Saturday night and to Sharon along with Norma and Grace for slaving away in the canteen all weekend as well as doing the salads and sweets for our meal, considering it was Sharon's birthday on Saturday it was a stirring effort, and to Bocky for looking after the office all weekend on his own, thanks mate.

Even though numbers were down at the Calcutta draw the auctioneer in Laurie Durham managed to extract \$3700.00 from the punters which equated to \$675.00 being paid out to the owners of each grade winner so there were some very happy people Sunday afternoon.

We thank all you people who attended and especially those that travelled long distances we hope to see you all again next year.

Our sincere thanks to our sponsors, Mialls Gun Shop, Elks Hunting and Fishing, Ian Mcgeoch Gunsmith, Pinders Refrigeration and Air Conditioning.

NEW SOUTH WALES REGULATIONS

No smoking in spectator areas at public sports grounds

THE FACTS

Section 6A of the *Smoke-free Environment Act 2000* makes a number of outdoor public places smoke-free.

Smoking is banned in spectator areas at public sports grounds and other recreational areas in NSW. However, smoking is only banned when an organised sporting event is being held.

Major sporting facilities are included under the definition of a public sports ground and are required to comply with the law. Other outdoor sporting facilities, such as Local Council playing fields, are also covered by the law.

Is smoking banned only in spectator areas which are covered?

No. The smoking ban applies to all spectator areas at sports grounds and other recreational areas when they are being used for an organised sporting event. The law applies to both **covered and uncovered** spectator areas and whether seating is provided or not.

Does the ban only cover the time that the players are competing?

No. The smoking ban applies for the entire duration of the organised sporting event. This includes pre match and half time games and entertainment that form part of the sporting event.

Is a sport practice session regarded as an organised sporting event?

Yes. A practice session at a sports ground is regarded as an organised sporting event for the purposes of the Act.

Will there be signage to indicate where smoking is not permitted?

Due to the vast array of different sports grounds and recreational areas, the law does not require signs to be displayed to indicate that smoking is not permitted.

However, 'No-Smoking' signage is strongly encouraged. Signage may be required in the future if regulations are made requiring a class of sports grounds or other recreational area to display signs. .

What is a spectator area?

A spectator area is an area set aside for or being used by spectators to watch an organised sporting event at a sports ground or other recreational area, but only when an organised sporting event is being held there.

LADIES CLUB COACH ACCREDITATION COURSE

2nd-3rd June 2018

Sydney International Shooting Centre,
Cecil Park

With all the wonderful success from our elite female shooters over the last few years (Catherine Skinner, Laura Woolley, Penny Smith, Emma Cox, Laura Coles, Laetisha Scanlan, Renae Birgan, Anna Shedrina . . . just to name a few) there has been a rise in females taking up shooting sports in Australia . . . or maybe its because there are just lots of proud Dad's getting their girls into their sport !

However we currently don't have many female coaches out there at Club Coach level. For some of these new female shooters having a female coach may help them enjoy their shooting and ultimately retain them in the sport. To try and increase the female coach numbers the ACTA National Coaching Director will be holding a Club Coach Accreditation Course for any female ACTA members out there who would like to get into coaching – experienced or not.

This is a 2 day Club Coach Accreditation course being run at the Sydney International Shooting Centre, Cecil Park NSW June 2nd to 3rd 2018. Accommodation will be available at the on site Cottage. There is no course fee.

Topics covered:

- Role of the coach
- Communication
- Shooting techniques
- Assessing athletes
- Developing athletes
- Practical coaching
- Gun maintenance
- Range and Firearm safety
- Coaching Technology

If you are a female ACTA member interested in formalising the coaching you already do or would like to add to your skills on how to coach juniors, ladies, males, the elderly and those with disabilities or simply just learn coaching basics please register your interest with:

GUN SAFETY

There are a number of consequences of not looking after your firearm in line with regulations:

Firstly it will void coverage of your Firearm Insurance, this insurance is provided through the ACTA and members must adhere to the Laws of the State they are in for this cover to be valid.

The other critical consequence is loss of license if found to be not storing your Gun in line with legislation.

With the upcoming Nationals and World titles NSW Firearms Senior Officers will be in attendance at official openings and during the event.

We are praised through the NSW Branch for the co-operation of our clubs and individual members in the State.

We need to ensure all members abide by the law.

If you see someone who needs guidance, have a word to them on the quiet and explain the law if someone is acting outside your State Laws.

It is imperative we ensure compliance and safety within the sport, one slip-up gives anti-gun groups the opportunity to further attack the sport and firearms ownership.

Psychological Skills for Shooting

MICHAEL KRUGER-DAVIS

Coaching for Change

During the next school holidays, the SSAA will be running a junior development camp in Griffith, NSW. I have been asked to present a workshop on the psychological skills necessary in shooting for these juniors, some of whom will be complete novices. This will be a totally different audience from the ACTA Junior Development

Squads, which are all accomplished shooters in their own right. For coaching like teaching, it is about meeting the needs of the group and helping them learn techniques to facilitate ongoing improvement.

Over the past few weeks I have also been reflecting on the coaching session I had in London with Nathan Dudley from Holland and Holland. At the time I didn't think there was a problem and just wanted to see what they had to offer. Having an experienced and accomplished coach watching my every move with the gun was an invaluable experience. He was able to point out subtle faults and inconsistencies and then suggested ways to remediate these.

Coaching is the one topic that will fuel a great deal of discussion and debate. I do not want to say what system should be used or what programs should be adopted but there are a few essential features of coaching that I wish to examine.

Firstly, I think coaching is vital. The problem is when a new shooter arrives at a local club, there is not always a formal process in place that can assist the shooter to learn the basics properly. Usually, they have a few attempts, hit a number of targets, think the sport is great and start competing. What happens is that the new shooter usually learns to compete before he/she learns to shoot properly. If he/she stays in the sport long enough, then they start to look beyond the fundamentals of turning up to a shoot with a gun and some shells; they get a gun that fits, ammunition that is appropriate for the task and get some help usually from someone they recognize as a "good shot". Whilst this is a start, effective coaching is much more.

Secondly, I believe we all have a responsibility to improve so we can enjoy our sport more. That's the reason why these articles have appeared each month since September 1999, to help shooters improve their shooting through an awareness of the psychological aspects of the sport.

The coach faces two main problems: firstly, the adult learner, and secondly, the persons reaction to change. On a one to one coaching session, adults are more responsive but when part of a group, adults are more likely to sit back and observe rather than ask questions, explore new ways and take risks. Group coaching sessions need to be structured in a way that participants have the opportunity to take risks in a safe learning environment that does not challenge their dignity. Adult learners need to take the learning at their own pace. Trying to rush or get through too much without the skills or concepts being generalised may lead to participants saying they know or understand when really they don't. This creates anxiety and interferes with further learning.

Humans don't like change. Changes in the workplace, health, relationships, family, finances, ability, etc all have the ability of developing anxiety. Yet some people do not develop anxiety, they take the changes in their stride, see them as an opportunity and move on.

In my practice; teaching, coaching and therapy are often one and the same thing.

For most part I use a solution focused brief therapy approach as taught by Michael Durrant from the Brief Therapy Institute of Sydney. The principles of a solution focus approach are as follows:

a. **Focus on what's working.** I am often heard to say at shoots, "yes you missed one, but what did you do right the other 49 times". Look for differences that are positive. Don't dwell on the missed target but try to be

mindful of what you were thinking, feeling, smelling, hearing, etc when you shot the other targets well.

b. **Focus on future success.** Ask yourself questions, "How do you want things to be?, How will you know when you are a confident trap or skeet shot?", "If your world were perfect what would be different to tell you that everything was going well?"

Let's imagine that this difficulty is solved . . . what will be happening? How will you know? It is important here to develop a PICTURE in detail of what it will be like.

c. **Assume movement and change.** On a scale of zero to ten, where 0 is "I can't do this" and 10 is "I'm on top . . ." Where are you now?

What will be happening when you are one or two steps higher up the scale? Who will notice? What will they notice?

In a solution focused approach there are some basic assumptions about change.

1. There is not necessarily a logical relationship between the problem and the solution. This is important because you don't have to know what is wrong in order to fix it. If you can see a better way of doing it then do it differently, and enjoy the success.
2. The client, who is the shooter in this case should define the goals of the coaching session. Coaching is about helping the shooter get to where they want to go, not knowing what is best for them.
3. People have within their experience a wealth of skills, resources and strengths, both known and unknown to them, the coaches job is to get the shooter to recognize these skills and strengths and how they can be used to facilitate improvement.
4. Problems are a way of describing things, they do not define you.
5. Look at solving the problem rather than working out why the problem exists. Knowing why you've got a problem doesn't help you solve it.
6. Change is inevitable. You cannot stop change but you can act to increase your number of choices.
7. Change happens by people experiencing themselves as competent and successful. We often get stuck, and coaching can help us see ourselves, or the solution, differently. We then maximize opportunities for experiencing or noticing success.
8. Motivation is more likely when we view ourselves as competent. If we view people as competent they are more likely to behave that way. People cooperate when they believe they have a say in the change process.
9. If it work's: don't fix it . . . If it doesn't, do something different. Encourage others to do more of what is working and less of what is not. This is very important with respect to practice. Only perfect practice makes perfect. Practice should always have a goal and a planned approach to meeting that goal.
10. A focus on the possible and changeable is more helpful than a focus on the overwhelming and intractable. Don't focus on the past (problem), look at what is happening in the present (exceptions) and focus on future for what can be different.
11. Complex problems do not necessarily require complex or lengthy solutions. Look at changing a small portion of what is happening, examine what is different and move towards further change.
12. Focus on the future without a problem is more helpful than a focus on the past with the problem.

If these assumptions are part of the learning process in coaching then the shooter being coached may feel more empowered and motivated to change and embrace new skills and knowledge with the goal to seeing an improvement or some difference in his/her performance.

Australia Day and the day after TWO DAYS OF SHOOTING – BENDIGO, MARYBOROUGH

January 26 – 27 2018

This year the Bendigo and Maryborough Clubs combined to make a two day shoot over the Australia Day long weekend. Over the two consecutive days, both Clubs promoted a joint High Gun which totalled over \$1000.

BENDIGO: Australia Day was celebrated by many at Bendigo in the normal way, by competing at the Bendigo Clay Target annual Australia Day shoot. As the temperature at the start of the day was 34 degrees by 9 o'clock everyone was expecting hot conditions. Not disappointing anyone the temperature soon climbed above 40 degrees in the club rooms to set up what was going to be a trying but enjoyable day. Not to be intimidated by these conditions we soon had 101 dedicated competitors nominating for most of the events.

The shoot started just after 9 am, with the pressure on the office staff, the shoot marshal, the trappers and the many helpers to provide as good a shooting experience as possible. With the traps having been tuned to perfection by our trap mechanics Trev Dehne and Mark Vistarini and targets performing perfectly, the first event got underway. The 30 target Australia Day Double Barrel Championship saw 33 possible scores achieved and the long process of a shoot off got underway. This continued across the 5 layouts until 6 competitors remained. The 6 were then moved to the number 1 layout to continue and the next event

started on the other 4 layouts. After 225 targets and with 5 still remaining, it was decided to go to Points and quickly it was down to two. They decided to toss of a coin which resulted in overall and 1st AA

After a great days shooting Overall High Gun went to Fred Heinze on 155/155. Fred also took the Veterans High Gun not missing a target in competition all day, shooting 130/130. Ladies High Gun went to Lisa Hawker on 127/130 and Junior High Gun winner T Grimes was not far off the pace with a 129/130. The lucky door prize of 500 shells went to Leigh Fitzgerald.

Our thanks and gratitude to our major sponsors OSA and GFD Guns and Ammo Kyabram, for their generous and continuing support and sponsorship for event one. Thank you also to Outdoor Trading Company OTC for your continuing support for event 3. To all those who helped in so many ways under very trying conditions to make the day the success it was, thank you. We hope

all enjoyed the day and you will have it marked on your calendar to come and see us again on next year's Australia Day.

MARYBOROUGH: Saturday 27th saw the continuance of the two-day joint Club shoot. Unfortunately only 22 shooters nominated for the full two days of competition, and the attendance at Maryborough dropped to only 41. The weather may have played a great part in the non-participation over both days, as Saturday's temperature soared even higher and shooting, was to say the least, very trying if not unpleasant.

DB grade winners Neil Ham, Gary Cassells & John Dohnt

The first event, a 25 target Double Barrel was won by Travis Gull 102/102 from Sebastopol after a shoot-off that saw Fred Heinze representing Bendigo take second place in AA. A grade was won by Gary Cassells 56/57, Jim Shepherd placed second. In B grade John Dohnt from Geraldton WA, took home first place with a 24/25 from Murray Schaper, Sebastopol, whilst C grade went to Neil Ham from Echuca shooting 23/25 relegating Doug Harris from the

Central Wimmera Club to second. Event 2, 50 targets Continental went to local, Nathan Cassells, who managed to shoot the only possible in the trying conditions. State Rules Supervisor Peter Beaman from Bendigo took out second place in AA with a 54/55. A grade went to Russell Black from Warracknabeal 49/50, Maryborough President Gary Cassells placed second. B grade was won by Sam Francis from

Mornington 48/50 with Murray Schaper running into second and C grade was again won by Neil Ham with a 47/50, Andrew Parfitt, Mornington came second. The final event, a 25 target Points Score went to Travis Gull 81/81 with Daniel Cleary from Mornington second. Maryborough Club member Len Johnson, who was only moved from B grade at

Bendigo the day before won A grade on 74/75 with Troy Loveridge from Mornington second. B grade saw Sam Francis win with a 72/75 and Chris Climas from Mt Bogong took second. Neil Ham again won C grade, "I think the handicappers will be looking at his card" shooting 68/75 from Maryborough shooter Matt Raats.

TWO DAY HIGH GUNS:

Although a disaster financially for both clubs, who had put in over \$1000, there is no doubt that these shooters who did attend and shoot both days, especially those good

enough to take home High Gun prizes were very appreciative.

Both Fred Heinze and Daniel Cleary finished with an equal score and a long shoot-off ensued. The eventual Overall High Gun winner was Fred Heinze, Daniel won AA grade, A grade went to Troy Loveridge, B grade to Len Johnson and there was never a doubt as to who would win C grade, Neil Ham. The Veteran and Junior High Guns both went to Maryborough members, Peter Tate and Rieley Fitzgibbon respectively. Unfortunately no ladies attended on both days.

Continental and Ball Trap at Bega

Two events formed the program at the Bega Gun Club for the February shoot. Fifty targets of Continental, was followed by fifty targets of ball trap. Thirty shooters turned up to enjoy great weather, fine company, good food and one hundred challenging targets. All in all, a great way to spend Sunday.

A cheerful Tony Gray A Grade Cont, B Grade BT & shoot HG

The morning's proceedings began with the 50T Continental, shot in two sessions of 25, set across two layouts. In AA Grade, Phil Body showed great form to take out first place with a score of 47/50. Jason Peters and Alf Niesar took an extra 9 targets to sort out second place with Jason being victorious. In A Grade, Tony Gray began the day brilliantly, dropping only

one target for a winning 49/50. Having dropped three targets early in the first set, Craig Field cleaned up all his second 25 to finish second on 47/50.

In B Grade, Simon Buckley did the honours, collecting 46 of his 50 targets. Brian Smith finished second with a score of 44/50. Once again, in C Grade, George Toyne collected the winnings with a score of 44/50. Visiting junior, Chris Peters shot 38/50 for second.

A short break for lunch and to allow the ball trap to be brought into action and the 50T ball trap began. Bega doesn't shoot a lot of ball trap so some variations in grades were evident. Squads went to the layout twice, shooting 25 targets at each visit. To add a little further interest, the breeze began to gust intermittently.

Alf Niesar led the A Grade field with a winning score of 44/50, with Phil Body one target back on 43/50, taking second. Once again, Tony Gray showed how it should be done with a score of 46/50 to take B Grade. Second went to our super vet, John Siede, who gathered in 38 of the fast flying clays. Peter Engelbrecht shot very well to win C Grade with a score of 42/50, while Simon Buckley took out second with a score of 38/50

A Grader, Tony Gray happily took out the High Gun for the day, dropping only five targets across two relatively difficult events. The handicapper is watching closely! George Toyne added to his efforts for the day by collecting all five targets in the shoot raffle, thus adding \$200+ the meat tray to his haul for the day.

Presentations were concluded by Shane and Phil who thanked Pauline and Brian in the kitchen, Tracy and Phil office; Shane and Phil BBQ; George for the grounds and all the refs and helpers who ensured things ran smoothly. A special presentation was made to Simon Buckley, by Shane, as sponsor of the Fimac Engineering Handicap Shield, for his win in 2017.

CESSNOCK OPEN SHOOT

**Cessnock Clay Target Club
November 2017**

The arriving shooters were greeted by the sight of the shooting grounds looking a picture and the aroma of the barbeque as Mainey and Shadey cooked the welcoming breakfast. We were going to need an early start to get through the program. The weather forecast was for warm and sunny conditions for both days and they got it right on this occasion. Ruth was busy in the office taking nominations and getting the squad sheets ready for the start that occurred after a brief welcome.

The first event, the Peden's Hotel 25 target Points Score Championship saw 15 squads line up in 3 waves over the 5 trap layout. When all the score sheets were in and the results confirmed, a shoot off between the possibles resulted in Kevin Thompson taking the sash with Mal Stephens 1st in AA followed by Josh Radford in 2nd place. Greg Oehm with the only possible walked away with A grade and Mark Attard took 2nd place. B grade was taken out by the old club stalwart Kevin Pearce with Greg Collins 2nd. C grade saw Ollie in 1st place with Andrew Cochrane taking 2nd prize.

The second event was the Well's Ventilation 25 target Single Barrel Championship with A grader Mark Attard taking the sash and overall honours. AA 1st was Brad McCudden with Peter Boland 2nd, A grade 1st was Romano Bacci and Darren Whipps 2nd. B Grade winner was Phil Main with Kevin Pearce runner up. C grade 1st was Stephen Longbottom and Kahleb Radford 2nd.

The third and final event for the day was the Bronze Wing 50 target Double Barrel Championship shot in 2 visits of 25 targets, it was starting to heat up. The results were in and the stage was set for a very competitive shoot off with half a dozen possibles but after only 8 targets we were down to 3, John Maxwell, Brad McCudden and Ron Wakem. Brad let his 40th target be a pick up and Ron followed suit with his 41st leaving John Maxwell to take the overall winner's sash. This left the trophy winners as AA 1st Brad McCudden, AA 2nd Josh Radford, A 1st Ron Wakem, A 2nd Lorenzo Baratto, B 1st Nicholas Snow, B 2nd Mark Meredith, C 1st Adam Bartholomew C 2nd Rod Williams.

The serious stuff out of the way for the day it was time for the Bronze Wing Challenge with shooters competing for a range of Bronze Wing merchandise over a modified handicap format, there were no winners or losers.

High Gun winners

Greg Oehm with his new Miroku

The shooting done with for the day the campers retired for a hot shower, the ladies in the kitchen made final preparations for dinner, the office staff re-squaded the shooters into handicap marks for Sunday and everyone else sat at the bar and thought about form for the Calcutta later that night.

After seafood entrée and roast meat dinner plus dessert that was without par the auctioneers were ready to roll, or was that roar. The Calcutta was in full swing and one had to

be careful else a slight twitch or a nod was taken as a bid.

Sunday morning dawned bright and low and behold, *deja vu*, Mainey and Shadey are cooking breakfast on the BBQ, the ladies are in the kitchen serving Mainey's big breakfast and Ruth is in the office getting the squad sheets ready, the re-squading has gone well because all the new squads are on the board. The 8:30am start is on time and everyone is ready to go, well almost everyone, a few have Calcutta'd a bit hard.

Event 4 on the program the Sight Savers and Pilla 30 Target Points Score

Championship saw David Perri shooting off with a couple of A graders for overall. Cesar Diaz and Helen Overton. The AA grade prevailed and David took the overall sash with Cesar beating out Helen for 1st in A grade. Meanwhile Peter McDonald and Peter Boland were shooting off for 1st and 2nd in AA grade, Peter McDonald taking out 1st prize. B grade 1st was Rob Carmichael with Rod Beswick 2nd and C grade won by Tim Kosmeier with Adam Bartholomew 2nd.

Event 5 the big one, the 30 target Ces Barnard Memorial Handicap sponsored by Beyond Ballooning, Pilla and Safari Firearms with a Miroku Trap O/U up as first prize, we won't mention the Calcutta. The scores are in and there are only two possibles, the old fella Greg Oehm and the young gun Jason Hancock. The shoot off was over quickly with Jason letting his 4th target go to mate with its friends, Greg was the proud owner of a brand new Miroku. That being decided the shoot off for the minor placings got underway, Phil Main first up let nerves get the better of him and let his first one go, Mal Stephens and Stuart Foate went a couple more before Stuart shot air instead of target.

Event 6 the Catalyst Legal 30 target Champion of Champions from 18m resulted in Shane Pinkerton taking overall with John Maxwell AA 1st and Ross Morris 2nd, Mark Attard A 1st and Cesar Diaz A 2nd, in B grade 1st was Phil Main with Anthony Azzopardi 2nd, C Grade saw Adam Bartholomew 1st and Corey Riches-Causley 2nd.

The events all finished it was time to sort out the High Guns: OA Sponsored by Cessnock Mitsubishi John Maxwell, AA Sponsored by Cessnock Mitsubishi Josh Radford, A Sponsored by Cessnock Mitsubishi Greg Oehm, B Sponsored by Cessnock Mitsubishi Matthew Knight, C Sponsored by Cessnock Mitsubishi Adam Bartholomew, Veterans Sponsored by LJ Hooker Mal Stephens, Ladies Sponsored by the Munro Family Helen Overton, Juniors Sponsored by the Main family Doug Thistleton

The presentations all done we bade farewell to our many visitors from all parts of the state, see you next year.

Note we are changing the date to one week earlier next year to avoid clashes with a few other major events.

CLASSIFIEDS

Rates and Conditions

This section is for the exclusive use of ACTA members, and has been introduced for the purchase, sale and exchange of personal equipment.

PLEASE NOTE: Due to Gun Laws, all classified ads submitted must include the serial number of all guns advertised, and also the shooter licence number. We are no longer allowed to advertise the sale of any pump-action or semi-auto shotguns or the parts thereof.

Rates (inc GST) are as follows:
 \$12.00 — 0-60 words,
 \$24.00 — 60-100 words max.

Advertisers must comply with the copy deadlines as detailed on page 2 of this issue, and your name, address and telephone number must be supplied. Copy should be typed or carefully hand-written.

Payment must accompany advertisement.

NSW Members and Dealers:

As stated in Firearms Act 1996, Section 54 "A person must not cause an advertisement for the sale of a firearm or firearm part to be published unless:

- the person is a licensed firearm dealer, or
- the proposed sale is to be arranged by or through a licensed firearm

dealer and the advertisement contains such particulars as may be prescribed by the Regulations".

The Regulation states, "For the purposes of section 54(b) of the Act, the following particulars are prescribed in relation to an advertisement for the sale of a firearm that is arranged by or through a licensed firearms dealer:

- the licence or permit number of the seller,
- the name and address of the dealer concerned."

The Firearms Act 1996 applies to both the Publisher and the individual placing the advertisement. Failing to abide by this Section attracts a maximum fine of \$5,500.
