Dear shooters, as a candidate for the Australian Clay Target Association Board I want to introduce myself first.

I am an avid shotgun shooter of all disciplines including trap, sporting, skeet and trench/UT. I enjoy traveling around the country shooting clays. Having been a part of running shoots from the age of 12 I have committed to taking on roles within my clubs to help them continue and get better. I was the president of my home club Callawadda at the age of 21, to zone committees, state representative and current Victorian state vice president and Callawadda SCTC secretary/Treasurer.

Outside shooting I am qualified in engineering – mechanical trade, fitting and turning, which I currently use in my role as a service technician on a large windfarm. My partner and I also own and operate a rural supply and hardware store.

My aim for joining the Australian Clay Target Association Board is to have a positive impact for the future of the sport. I see this through some key things such as;

MCMS Grading and Shoot

- To work with MCMS to fix the inconsistency with grading, having shoot off scores to count in large shoots over 25tgs
- To make it easier to run a shoot with more accounting in the system like having the ability to put in price of clay and costing for the shoot with prizes paid out and sash's cost so then clubs know shoot costings on the shoot day
- The ability to calculate cash divide/ Lewis to make it easier for the whole shooting member running local and state shoots

ACTA grounds

To look at the improvement at the Wagga Wagga grounds to include; better integration of the range event Centre to the existing grounds, connected through new concrete footpaths around the garden bed areas and down towards the bottom end traps, infrastructure upgrades like traps. My main objective is to make nationals more enjoyable and hassle free for all who come to our premier clay target facility.

I respectfully ask for your support and your vote, so that we can continue to adapt, change and improve areas in the sport. Ensuring that we have a successful, enjoyable and inviting future of clay target shooting in Australia.
