# The Editor's Notebook

In order to clear up some doubts which are apparent in the minds of some shooters, it is mentioned that all competition events, including championships, are now required to be shot under points scoring system. It has been noted that one or two clubs have been shooting their major events and championships under points system and then reverting to the old style of double-barrel shooting, both barrels equal value, for minor events. This is not in order. As already explained, all competitions must now be shot points system. This applies to all club shooting and open shooting.

The referee examination papers recently submitted by candidates during the recent series have now been corrected and checked by the examiners. The examiners report that it appeared to be an obvious general attitude that most papers were completed in a hurry and little time and thought was given to many of the answers. Question No. 4, i.e., "A competitor must stand within the prescribed limits of his shooting mark: he prefers to stand off the 20-inch concrete track. How far away from the concrete must his nearest foot be to be within the prescribed limits? The correct answer is "18 inches from the centre of the concrete track." Many candidates answered this incorrectly. Some stated merely "18 inches", which gave no explanation whatever. Others went into fairly long detail and then did not arrive at the correct answer. A shooter's correct mark is "the centre of the concrete track" and he should not shoot further away than 18 inches on either side of the centre of the track. Official referees are requested to take particular note of this point. It has been noted many referees are not aware of this ruling, even some who are fully qualified.

With the institution of the new shooting rules, i.e., 16-yard minimum,

and also the points scoring system, quite a number of queries have been received at the Association office seeking advice on both sections. Among the many received were (1) "At a club shoot can the double-barrel events be shot kills to count, not points?" Answer is definitely NO. All competitive shooting throughout the Commonwealth must be decided under points system. (2) "In a shoot-off, points scoring, between A and B, each shooter has first-barrel kills for three birds. A has a first-barrel kill on his 4th bird, but B has a second-barrel kill. Should A be declared the winner?" Here again the points scoring system comes very much into force. Usually tie shoots are decided best of five rounds. If one shooter has more points than the other at the end of five rounds, he is the winner. In miss-out conditions, the first shooter to use his second barrel would drop out.

An official referee writing to the Association recently complained that his rulings were disobeyed by another official referee, who was in charge of the club. This is indeed a curly one. If two official referees cannot decide between themselves which is correct, according to the rules, then their best plan is to write immediately to the Association for an official ruling. The writer of the complaint sought information on "the rights and privileges of referees". This is a strange request. The rights to which an official referee is entitled are no more than any other

shooter on the ground. The important feature about an official referee is for him to ensure that the rules are observed, more especially when he is in charge of the shoot.

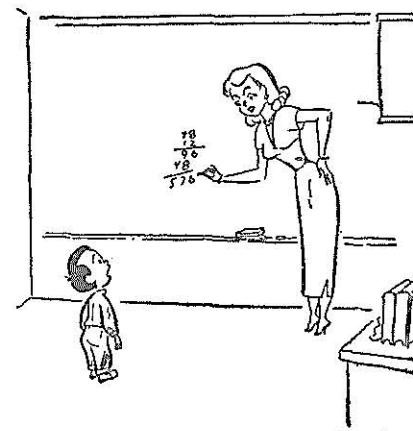

Recently in a northern centre, actually during a Christmas shoot, it was a club ruling at the outset of the fixture that no shooter could take more than one first prize. Two club members, one of whom had already secured his first prize, were left in a tie shoot with several others. The shooter who had not previously won a first prize was declared the winner and the competition thus ended. However, to the dismay of several other club members, the two shooters continued shooting "in an endeavour to secure a break badge". As it turned out, neither gained a recognisable break. But the point is, neither should have continued shooting. The competition had ended, and their shooting on was merely exhibition shooting, for which break badges are not given.

A club in Tasmania recently wrote to the Association commending the introduction of points system scoring for all shooting. The club mentioned that everyone was against it at first. But, after trial, it was found to work most satisfactorily. The club stated that it was able to get through an eight-event programme between 10 a.m. and 6 p.m., most of the time being saved by the absence of lengthy tie shoots. It will be found the same with most clubs. There have been very few objections throughout the Commonwealth. One club informed the Association that it would shoot under the old system for club events and members who wished to visit other clubs could use the new system. Such action is a departure from the rules of shooting and cannot be allowed. It might be mentioned that the club concerned did not eventually try the new system, but merely decided it was against it.

In connection with handicapping it was originally stated when the new rules came into force on January 1, that five and ten birders would not

be taken into account for handicapping purposes. The Handicapping Panel has now decided to alter this ruling. The chief reason for the alteration being that it has been found that quite a number of clubs have been putting on £50 events at 10 targets to avoid handicapping. In future the Handicapping Panel will take into account five and ten-bird events as well as looking into the value of the winnings. Also in regard to handicapping, it has been noted recently that shooters' cards have been amended by club officials and others and no advice of any adjustment has been forwarded to the Association. It is pointed out that an amendment to a shooter's card can only be made by the club President and secretary/handicapper, and any amendment must be notified to the Association within three days and a reason given. Failing observance of this instruction, all clubs are reminded that the "News" should be taken as the official Association handicap.

A list of affiliated clubs and secretaries are included in this issue. The list contains the names of clubs who were affiliated as at December 31, 1955.

## "Tips" and "Tails"

Lou Bourbaud, President of the Sale Gun Club, won the club's high-gun figures for the 1954/55 season with a total of 490/515 birds. H. Guyatt was runner-up, 458/515, and Perce Rowley third with 455/515. This is a regular competi-

tion at Sale and attracts considerable interest.

Fred Burns, one of Australia's back-markers and 1955 International high-gun for Australia, has recently been the fortunate recipient of a magnificent presentation Browning gun. The donors, the makers of the gun, have advised that the award is in recognition of Burns' many great efforts on Australian shooting tracks. It is understood that the gun is the only one ever presented to an Australian trapshot. The gun is most elaborate in every detail. It carries much gold engraving, such as bouquets of roses, gold trigger, birds and writing, all prepared in the finest material procurable. Also the workings of the gun are the last word in craftsmanship. Burns was unaware that the presentation was to be made and he was somewhat astounded when the manager of the Victorian agents turned up, along with a number of prominent shooters, to hand over the award. It is not often that an Australian is on the receiving end of such a commendable award from one of the world's largest gun manufacturers, and it must be looked upon as an honour indeed.

Narrandera Gun Club in the southern Riverina area of New South Wales will hold a two-day fixture extending over March 23 and March 24. The Hudson Shield competition, a £40 and £60 Handicap, plus the premier N.S.W. title, the double-barrel event, and the Riverina single-barrel championship, are among the

chief attractions. Shooting will start at 1 p.m. on Friday, March 23, and at 9.30 a.m. on March 24. The N.S.W. double-barrel title is listed for March 24. Full information on the entire programme is as advertised. Enquiries to J. R. (Bob) Bushby, Box 102, Narrandera, N.S.W.

A report from the Perth Club, Western Australia, advises that the club's annual meeting was held on January 16. The following office-bearers were appointed: Patron, Rupert Monger; President, Colin Ferguson; Vice - President, Roy Meade; Captain, Harold Colliver; Vice-Captain, Ed. Metcalf; Hon. Secretary, Ken Gouldham; Hon. Treasurer, Ray Millard; Handicapper, W. Hewitt; Committee, Messrs. A. Cooke and W. Sharpe. Two well-known members of the Perth Club, in Frank Bailey and Spencer Colliver (known locally as "Sir George"), are shortly leaving for an overseas tour which will include the United Kingdom and the Continent. Messrs. G. Davies, K. Petterson and C. H. Miller have been lost to the club during the past year through their demise.

An affiliated club, not given to exaggeration in advertising, has issued the following notice to shooters: It is entitled Club Rules. The epistle is, "All sweeps, handicap and championship nominations, after deducting for birds, trophies and sashes, go back to the shooter. This club is not run for a profit, and it is not run at a loss, to be in debt. You get what you put in, no more, no less. So if you are not satisfied, don't put in your dough." That's telling 'em!

On a recent visit to the New South Wales Gun Club at Terrey Hills the writer enjoyed a pleasant evening, except for the fact that it commenced raining soon after arrival and was still raining with unceasing severity on departure. On March 24 a 20 birder under Olympic conditions from 16 metres, with six attached trophies, will engage the interest of shooters. Programmes are advertised. Enquiries to C. J. Colledge (secretary), 12 Adler Grove, Merlynston, N.14.

Shoalhaven Club also reports with considerable regret that its club President, Lt. Commander J. Collins, of H.M.A.S. Albatross, is returning to England. Lt. Cdr. Collins has worked untiringly for the club and, due to his hard work and enthusiasm, the club has developed far beyond early expectations. Ray Orford is the new President.

The Condah Club in western Victoria has changed its name from Condah to Myamyn Gun Club. The club has been shooting on the Myamyn sports ground for some years and recently acquired a permanent site there. A new clubhouse has been built and the club has a good following of district shooters and sportsmen. Secretary, A. O'Connell, concluding his report, mentions, "Thanks for your excellent magazine. All very interested."

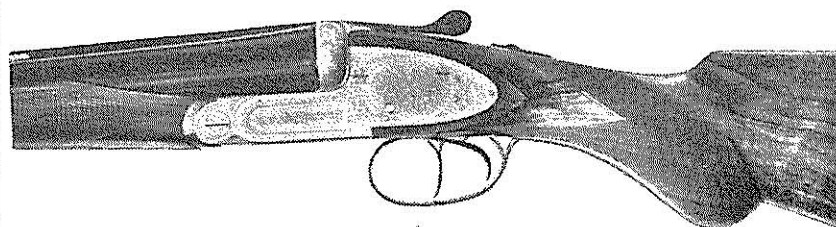

The following little story appears in the autumn issue of "Ducks Unlimited", the official publication of Ducks Unlimited, Inc., of America.—Editor.

In the realm of youthful observations on waterfowl, consider this recent "essay" turned in to a teacher by a teen-age naturalist. . . . He titled it, "And this is what a geese is."

"Geese is a low, heavy-set bird which is mostly meat and feathers. His head sits on one side and he sits on the other. Geese can't sing much on account of dampness of the moisture. He ain't got no between-the-toes and he's got a little baloon in his stummick to keep from sinking."

"Some geese when they get big has curls on their tails and is called ganders. Ganders don't haff to sit and hatch just eat and loaf and go swimming. If I was a goose I'd rather be a gander."

A number of newly affiliated clubs have been registered during the past month. These include the Pittsworth Club (Q.). The secretary at Pittsworth is Cliff Burns, Pittsworth, who has been registered for some time through the South Coast Club. Another new affiliation is the Wodonga Athletic Club Gun Club. The Wodonga secretary is J. R. Neilsen, Wodonga (V.). Stamford Club on the Winton Line in Queensland is also another new affiliation. Secretary at Stamford is J. D. Doherty, "Mugwee", Stamford, Qld.

Mr. A. Peter Page has been appointed joint secretary of the English Clay Pigeon Shooting Asso-

ciation. He will pair with veteran secretary and A.C.P.T.S.A. Hon. Vice-President, Mr. Harry Rogers.

According to "Ducks Unlimited", published in U.S.A., surface-feeding duck breed before they are one year old. Most deep-water duck do likewise, except the golden-eye, bufflehead, old-squaw and harlequin, which breed after reaching two years of age. Eiders and scoters frequently do not breed until their third year, as do geese. Swans almost invariably do not breed before their fourth year.

A gun bore is a name given to shooters by their wives!

## **CARE OF GUNS**

By PETREL

The ancient who catches rabbits professionally turned up the other day carrying a gun which should not be in the hands of a rabbit-catcher, or, for that matter, anybody else. The weapon in question is a converted pinfire hammer gun, and two-thirds of the way up its thirty-inch barrels, the damascene glows a dull yellow, giving the right-hand tube the appearance of wearing a wedding ring. Closer inspection and question elicited the reason for this unusual adornment.

The gun belonged formerly to the carter's father, and as the carter has now been retired some twelve years, its age can be approximately gauged. Belonging to such an owner, what more natural place for it to rest, when not in use, than in the dark corner of the cart-shed, and from this cobwebbed obscurity it was eventually rescued by its present handler.

### **Worse than Before.**

Had it not been of such excellent, hand-made vintage, the weapon might have fared worse for its neglect and ill-treatment, and the loving care lavished upon it by the new owner had restored much of the pristine glory, but there was, seemingly, nothing to be done about the small hole, its diameter that of a pin, which rust had eaten in the right barrel.

However, an engineer from the local garage was consulted, who proclaimed it an easy task, slightly to enlarge and thread the hole, wherein could then be screwed a small brass tap.

It is not clear whether this artificer's enthusiasm, or his oxy-acetylene jet, ran away with him, but the net result was a hole in the barrel, now enlarged sufficiently to allow the thick end of a pencil to be inserted. Accordingly, after flatly refusing to pay for such workmanship, the trapper finally sought out an "expert" in such matters, who bronze-welded the cavity and pro-

nounced the tube tighter than ever before.

Since then I dread to think how many charges this makeshift patch has withstood, and shudder each time the gun is fired. "Of course, if the hole had been nearer the breech, I doubt if I should risk it," said my friend, inserting a Maximum case in the unproved chamber.

Now this may be an extreme case, and most of us would never dream of using any gun unless it were safe to fire with equanimity, but there are a great many weapons still in commission which, even if they are still sound, have lost much of their normal expectation of life, and this due to one factor alone — neglect.

With the present prices of new and second-hand shotguns prevailing, every weapon, be it ancient or modern, deserves the utmost care, and even the proverbial farmer's gun is receiving more merited attention.

### **Points to Note.**

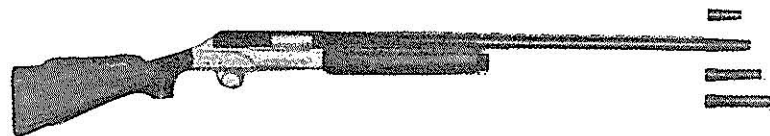

It is not my intention to indulge in a treatise on gun-cleaning, for this subject has been exhaustively and far more worthily covered by countless writers, but the few points mentioned may be of some value to others. The latest "utility" product, I.C.I. powder No. 52, undoubtedly leaves gun barrels dirtier than did its predecessors, and many have emphasised the need for cleaning immediately on return from the shooting field. With this opinion I concur, and although I have heard it said that barrels may sweat more after the use of this charge, will only concede that the superficial powder deposit, in this case, gives a dirtier appearance.

### **To Remove Fouling.**

Personally, I always use a 2½-in. chambered 12-bore, and whether firing long or short cases, am a confirmed advocate of the brass wire brush. Gone are the days when many of us were invectively admonished against using the gauze on

the pull-through without permission of a senior N.C.O. and if liberally anointed with oil, and moderately applied, the brush can do no harm. In cases where barrels may be superficially marked, or slightly pitted, it is especially to be recommended.

Tow and flannel patches on a slotted jag have long since become too "fiddly" in my estimation. A wool mop reserved for the purpose, and covered with a square of flannel — cast-off pyjamas are excellent material — admirably serves the purpose, and saves expense. A clean mop, well oiled, is used to apply a final preservative film to the bore.

The channels on either side of the rib are particularly conducive to unobserved rust, if neglected. When thoroughly dry and clean, these should be oiled by means of a feather or toothbrush. Some oil cans are fitted with a brass spout, and invite application by running the spout

down the sides of the rib, but this method in time will scratch the browning.

If a gun is used for duck shooting, it should receive extra attention, and ought, in addition, to be inspected two or three days after the first cleaning, for signs of sweating or rust. Where it is possible to keep a separate weapon for use on the coast, the extra initial expenditure will be amply repaid by the saving of wear and tear on the game gun. Moreover, the fear of spoiling the latter will not detract from the enjoyment. Such a fowling piece should, nevertheless, receive the same attention as its inland counterpart.

Never use anything but very fine emery paper to remove ingrained rust from the external parts of a gun, and then only if the abrasive is thoroughly soaked in oil. This, however, is a last resort, necessitated by neglect, and should — it goes without saying — never be necessary.

Finally, once the weapon is thoroughly dry-cleaned, do not be too parsimonious with the oil. I am sure that I err on the generous side in this respect, but am equally certain that the extravagance has saved me a great deal of time, trouble and expense.

# BIRD BANDING

A Hobby that will help C.S.I.R.O.

By ALLAN BELL

What birds are "good" and what birds "bad"? To the man who studies birds for themselves, as a specially attractive group of the world's animals, as living creatures with a right to exist, there are no bad birds. (He tends to grow like the enthusiast who said there was no bad beer.) But to the agriculturist, some birds are "bad"—the birds which he thinks are undoing his work and losing him money by eating or destroying some part of what he has grown; and bad birds that threaten his stock or poultry. It is not much use telling him that if all birds were wiped out, the world would starve and agriculture come to a dead stop in the brief space, it has been calculated, of nine years—the arable and pasture and orchards overwhelmed by the pests and diseases the birds kept in check. He still goes and fetches a gun. But often he shoots his best friends on the farm. The seeds or fruit the land-holder sees being taken for a week or two often are only a small commission for the months of unnoticed labour the culprits put in to enable the seeds to be sown and the fruit ripened.

Argument, often embittered, has gone on for generations between those who want to preserve birds as a national asset, as part of Nature's great scheme, and those who treat birds as a bit of private property, or trespassers to be executed at will on half-understood evidence. To give the argument a better basis than mutual indignation, countries like Britain, Germany and the United States have enlisted their biologists, amateur and professional, to ascertain the economic importance of different species—to find out whether they are "good" or "bad". That, of course, does not cover the aesthetics of the argument. But at least it brings it down to a solid utilitarian basis. Now the process of examination is under way here. A recent article sought the help of South Australians in a starling investigation

which is being scientifically directed from Adelaide. As "part of C.S.I.R.O.'s long-range programme for the study and assessment of Australia's wild life, to conserve those species which are beneficial to the nation's economy, and to restrict the depredations of those which are injurious to agriculture," we welcome the start of a bird banding scheme. The C.S.I.R.O., announcing it, says:

The C.S.I.R.O. Wildlife Survey Section in Canberra has organised an Australia-wide bird banding scheme, based on centres at Canberra and Perth, to study the habits and migrations of Australia's bird life. Several State Departments have been banding ducks for some years, and this work is being continued in Victoria and Western Australia.

Bird banding means the marking of birds by means of numbered metal bands attached to the bare part of one leg. This permanent labelling of individual birds enables the collection of information on the migration, life history, distribution, habits and relative year-by-year abundance of wild birds, which cannot be obtained in any other way. Migration of birds has aroused man's curiosity since Biblical times, but the true causes of migration and the means by which birds make their global journeys year after year with unerring accuracy are still unknown. Comprehensive bird-banding schemes, which began in Europe fifty years ago, are conducted by Governments in a number of countries, including the United Kingdom, U.S.A., Germany, Japan and New Zealand. The work is carried on throughout the world almost entirely by the mass observation of amateur biologists, and serves very appreciably to fill the gaps in our knowledge of the distribution and abundance of bird life. Sometimes co-operation with another country or groups of countries is required. For example, many waders inhabiting Port Phillip Bay, Victoria, migrate to Northern Siberia

for the nesting season; the Tasmanian mutton bird does the opposite, for it breeds in Victoria, South Australia and Tasmania, but makes a round tour of the Pacific Ocean between each nesting season.

Giant petrels banded by biologists on Heard and Macquarie Islands in the Antarctic have subsequently been found in South Africa, South Georgia, Chile and the Argentine. Giant petrel chicks banded on Heard Island have been found in the Argentine, 9,000 miles from their birth-place, in less than two months from the time they were known to be able to fly. The C.S.I.R.O. has been banding mutton birds in Bass Strait for over six years, and this has led to a fascinating study of the life cycle of this member of the petrel family. Mutton birds have been shown to migrate in a long and regular cycle, spending the majority of their time in the Northern Pacific and returning each year, often to the same nesting burrow on one of the Bass Strait islands.

Numbered bands are made of aluminium and in special studies, when the observer wishes to recognise individual birds through binoculars, coloured celluloid bands are used. Bird-banding properly done is neither cruel nor in any way harmful. The weight of the bands does not burden the birds and they cause no other danger. Indeed, any interference with the bird's normal activities would defeat the whole object of the scheme. Each band bears the inscription, "Write Wildlife, C.S.I.R.O., Canberra, Australia" and a serial number. Anyone finding a band on a dead bird should return it to the Wildlife Survey Section, Canberra, with details of time and place of the find. If a banded bird is captured alive, the band should not be removed, and details of band, bird and circumstances should be reported to the Wildlife Survey Section, C.S.I.R.O., Box 109, Canberra. The C.S.I.R.O., in co-operation with State Departments, which are each responsible for fauna protection in their own State, desires to enlist the help of all bird enthusiasts throughout Australia in cataloguing the migrations of our bird life. A full range of standard metal bands is

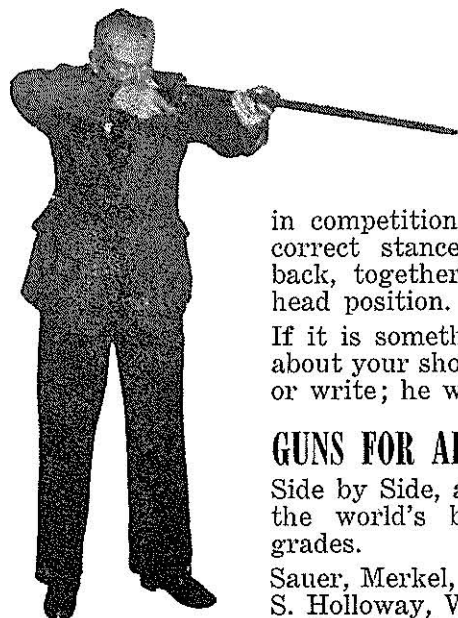

available and will be supplied to approved persons or societies wishing to carry out studies of birds in Australia.

The C.S.I.R.O. mentions that comprehensive bird banding programmes began in Europe fifty years ago. The first isolated experiment is a good deal older; it was undertaken by one Blackwall (though spiders were his hobby) in about 1822. He marked the martins nesting under the eaves of his house near Manchester, and learnt that they returned to the same nests each spring. Also English was the first systematic scheme, when Lord Percy marked woodcocks on his Northumberland properties in 1890. About ten years later Denmark began bird ringing on a large scale: Germany and Hungary soon followed. On the classic migration highways in Britain and Europe there are today quite elaborate trapping stations where migrants are marked and released—and so little do the birds mind the treatment that they trap themselves over and over again, well aware that the confinement is only for a short time and

carries a good feed! A mass of information on bird movement, habits and psychology has been obtained. Sometimes it is reflected in agreements between countries; in North America, for example, the protection of migratory birds is the subject of a well-respected treaty with Canada, wild fowl considered valuable as game having a special clause. There is no reason why Australia should not become as knowledgeable about the hosts of migrants she receives, mainly from the north, as Britain about her migrant myriads, mostly from the south. With this proviso—that something resembling Britain's popular interest in and appreciation of birds springs up here.

At the moment—if two conversations I have not enjoyed within the past month are typical—there is some distance to go. The first was

while chatting to a carpenter building a house. A red lory settled on the grass not far off—"She's as red as a signal lamp," I said. "They're beaut," agreed the builder, "I've shot hundreds of 'em." Only four days later, when I was buying a loaf at the baker's, the branch of a big gum over-shadowing the house was grating and creaking with parrot calls. "Gang-gangs," said I. The baker looked up. "We used to get hundreds about this time, but there's not nearly so many now. I brought six down from that very branch with a single shot." "Why?" I said. "Thought they might do well in a pie, but nothing on them—not worth eating." In most countries the sentiment towards birds has advanced too far for anyone to blaze into the heart of a flock, but—here is the

A good muster of shooters attended the night's shoot. Weather conditions were ideal. This was the night of the initial shoot for a handsome crystal cabinet donated by the club. The winners of three main events at night shooting (not necessarily in succession) will collect this trophy. R. Krentzlin secured first leg-in.

Quite a good shoot, with shooters finding the new handicap conditions a little different; however, they soon became accustomed to them and settled down to some very good shooting. R. Grinter, taking the Main Trophy event, was a popular win, as Dick has been knocking on the door for some time now. Very pleasing to see two of our old faithfuls in Roy Stagg and Roy Adams lining up under the new conditions.

As this was the first shoot conducted by our newly formed club and an attendance of 47 shooters rolled up, it would seem that this club is all set for a successful future. Lights will be installed in the near future and our trap lowered a couple of feet. Fine shooting by Dave Gittings. Our thanks to all who helped, with special mention to Bob

The main event of the day was the Hudson Shield, and we offer our sincere congratulations to Narrandera on their fine performance. Six teams were entered and only 5 birds divided the 1st and 6th teams, which speaks well of the high standard. Arch Rowe (Bathurst) shot well to defeat J. Chambers (Cowra) in a shoot-off for the radio. Cowra club wishes to thank the visiting shooters for their support. Thirty-nine shooters. (L. F. Bird, Hon. Sec.)

TOTTENHAM (N.S.W.), 28/1/56. — Monthly club shoot held by the Tottenham Gun Club. Weather conditions: fine and hot. No. 1, 5-bird E/O.: 3 div., 15/15, M. Holmes, S. Fitzalan, H. Litchurst. COBURG (V.). — Our first meeting of the year on January 14 attracted quite a good muster.

As each event that day was for a cash sweepstake, the new points decision rule worked admirably, and few complaints were heard.

There was an interstate flavour at the meeting, the visitors being E. A. Collins (Sth. Aust.), J. Jillett (Qld.) and Don Anderson (Hay, N.S.W.). They all expressed appreciation of the welcome extended to them.

The first 10-birder was div. Les Murphy, Bob Williams, Ray Hering, E. Collins (S.A.), L. Coombes and Tup Pedersen, with 30 pts. There were other possibilities, but that second barrel or two proved their undoing.

Bob Reid, Ray Hering, Bob Williams and Don Anderson (Hay) cut No. 2 10 birds, while in the No. 3, Ray Hering won outright with 30/30 from E. Collins and W. Le Strange, 29/30.

No. 4 10 birds was div. Bob Layton, Bob Reid and Tom Spall with 30/30.

Having decided to extend the prize distribution in points scoring events, we ran two 20-birders on January 28, with trophies in each down to sixth place.

In the first 20-birder the winner was R. Headon (Hay) with 56/60, followed by Mick Dawson (55/60), Les Murphy (54/60), Ray Garonne (53/60) and Sel Power and Fred Byers, each scoring 54/63.

The next event went to Terry Wilkinson (Wangaratta) with a very well-shot 59/60. Others were Kel Lowry and Ray Garonne (54/60), Roy Fallshaw and R. Headon (53/60) and Sel Power (52/60).

Our future programmes are advertised elsewhere in this issue. We emphasise that there will be NO SHOOT on February 25 (duck opening day). Incidentally, we seem to clash with the ducks every year.

For March 10 you will notice that we have listed a 30-bird event. There will be plenty of trophies for this. In addition to first, second and third, the best in each of the following yardages will be entered for — 16, 17, 18, 19, 20, 21, 22, 23 and beyond.

The entry will be £3, and that will enable us to give really good trophies for each division. We extend a hearty invitation to all visitors.

We've told you before that big things are promised in the way of improvements to our ground. This matter is now being seriously dealt with and I may be able to give you some worth-while information in the near future. The proposals are rather staggering — and costly.

LEARMONTH (V.), 11/1/56 (Night). — Weather conditions: good, warm. Results: No. 1, 5-bird Points (comp. div.): I. Grundell, M. Luhrs, E. Bevan, G. Kirkpatrick, F. Walters, R. Eason. No. 2, 10-bird Points: M. Luhrs, R. Lemke, equal 1st: A. J. Thomson, 3rd; best 16 yd., G. Kirkpatrick. No. 3, 10-bird Points: I. Grundell, K. Severino, equal 1st: C. D. Keith, 3rd. No. 4, 5-bird: div. I. Grundell and M. Luhrs. No. 5, 5-bird: div. E. Bevan and I. Grundell. No. 6, 5-bird: N. Paterson.

The usual good number of shooters came to our night shoot. I. Grundell shot very well and tried to get his 50 break, but he missed his 43rd bird straight away.

(4 Trophies): 3 equal, A. Finlayson, R. H. Bath, G. Walter, 24/24; 16/17 yds., R. Thompson, 11/12; Ladies' Trophy, Mrs. Dean.

A good number of shooters, 29 in all, came to our day shoot from Portland, Harcourt, Willaura, Camberwell, Ballarat, and local. The rain in the afternoon would keep a few away, but some good shooting was seen.

26/12/55 (Night). — Weather conditions: showers often. Results: No. 1, 5-bird D.B. (comp. div.): R. Rehfsch, B. Cook, G. Bantz, K. Sharrock, R. Hering, G. Kirkpatrick, M. Luhrs, H. Smith, A. Finlayson. No. 2, 10-bird D.B. (4 Trophies): 2 equal, R. Hering, E. Smith, 27/27; 3rd, J. Carland, 26/27; 12 yds., B. McDonald, 9/10. No. 3, 10-bird D.B. (3 Trophies): M. Luhrs, 16/16, 1st; M. Troup, 15/16, 2nd; F. Walters, 13/14, 3rd.

The smallest number of shooters ever to come to a night shoot here—26, because the weather was so wet, but they came from Geelong, Beaufort, Ballarat, Harcourt. This was our last D.B. shooting.

(A. E. Smith, Hon. Sec.)

SWAN HILL (V.), 21/1/56. — Weather conditions: cool, with south-westerly breeze. Results: No. 1, Hay Shield Shoot Squads (15 birds): 1st, Hay Gun Club No. 1, 205 pts.; runner-up, Swan Hill No. 1, 201 pts. No. 2, 450 H'cap: div. S. Booth, W. Wilson, T. Holschier, G. Mitchell.

Eighty-five shooters took part—a record for Swan Hill. Shooters from Hay, Ouyen, Nyah, Berriwilllock, Birchip, Barham, Cohuna, Kerang, Rainbow and Deniliquin, and many other places. From all shooters their comments were that it was a great day for the shooters and onlookers.

(W. Mertz, Hon. Sec.)

TOWNSVILLE (Qld.), 22/1/56. — Heavy showers fell throughout the afternoon; they did not dampen the enthusiasm of clay pigeon shooters who turned out in force and revelled in the conditions. A programme of five events was shot off. The principal event was the final round of the McKimmin Trophy, which resulted in an outright win for J. Maguire, who shot well throughout and deserved his win. K. Miskin shot splendidly and did not miss a bird during the day.

5-bird S.B.: div. D. Peberdy, A. Edwards, T. Comerford, W. Hanran, K. Miskin and S. Horton. 5-bird S.B.: div. R. Griggs, G. Jaques, D. Peberdy, R. McLennan, A. Edwards, T. Clay, K. Miskin and K. Crowther. 25 H'cap (5-bird S.B.): div. R. McLennan, J. Maguire, W. Hanran, K. Miskin and J. Carrington. Final Round McKimmin Trophy (10-bird S.B.): J. Maguire, outright; S'takes, J. Carrington and K. Miskin, div. 1st and 2nd; J. Maguire and K. Griggs, div. 3rd. Final (5-bird S.B.): div. T. Comerford, D. Peberdy, G. Valentia, J. Burry, A. Poletti, K. Miskin, T. Clay, J. Carrington and E. West.

(F. Blackman, Hon. Sec.)

BATHURST (N.S.W.), 21/1/56. — Weather conditions: extra good. Results: No. 1, 5-bird: div. Arch Rowe, L. Healey, A. Rae, 15/15 pts. No. 2, 5-bird: K. Soames Jnr., J. Ryan, W. Byers, 15/15 pts. No. 3, Trophy Shoot: R. J. Connor, 1st; A. Rosconi, 2nd; B. Edwards, 3rd. No. 4, 5-bird: K. Soames Snr., A. Owens, E. Ferguson, J. Ryan, H. Jaques, W. Byers, B. Edwards. No. 5, 5-bird: div. 15/15 pts., J. Farimond, C. Hall, J. Toole, A. Mason.

This was the first shoot of 1956 and was a very pleasant afternoon. The point scoring system was popular and a very good distribution of winners resulted. The club provided afternoon tea, and supper, and a night shoot followed.

21/1/56 (Night Shoot). — Weather conditions: extra good. Results: No. 1, 5-bird: div., 15/15 pts., H. Jaques, K. Soames Snr., W. Byers, J. Toole, E. Ferguson. No. 2, Trophy: 1st, R. Weinert; 2nd, H. Jaques. No. 3, Pairs Shoot (Sweep): Arch Mason and W. Weinert outright, 26/26.

The night shoot was very pleasant, the weather good. The pairs shoot was popular. The club handicappers pairing a strong shooter with a beginner, this gave the new shooter a good incentive to shoot well and furthered the club's ambition to divide the sweeps. It seems the point-score system will cause quite a reshuffle in handicaps within the next few months.

(Keith Soames, President.)

WERRIBEE (V.), 14/1/56. — Weather conditions: fine. Results: No. 1, 5-bird D.B. Points: T. Toohey, R. Krentzlin, div., 15/15. No. 2, 10-bird D.B.: 1st, R. Towers, 43/45; 2nd, R. Sadler, 41/45; 3rd, L. Adams, 53/60; Front Marker, W. Abbott. No. 3, Burns Trophy (10 sparrows): 1st, W. Abbott, 23/30; 2nd, J. Ford (Geelong), 22/30. No. 4, 5-bird Walk-up: R. Krentzlin, 14/15; T. Powell, 13/15.

A very successful shoot with a good attendance and keen competition for the two trophy events listed. A gusty north-west wind made the sparrows very elusive in the Fred Burns Trophy event; however, congratulations go to Asst. Secretary W. Abbott on his winning the much coveted trophy.

(T. H. Powell, Hon. Sec.)

COHUNA (V.), 17/1/56. — Weather conditions: fine. Results: No. 1, 5-bird P.D. (comp. div.): div. P. Masters, D. Carroll, C. Pettigrove. No. 2, 10-bird P.D.: Trophy, J. Pettigrove, 12/12/35, 1st; W. This being our first night shoot at clays for 1956, and under good weather conditions, 26 shooters took part. Visiting shooters were present from Pyramid Hill, Kerang and Koondrook-Barham clubs. Best score of the night was W. F. Wilson with 34/37/93 pts.

(C. J. McLoughlan, Hon. Sec.)

Light rain began falling early in the evening, getting heavier as the night progressed, which prevented the programme being completed. The main event, won by I. Schubert, completed the shooting. For our opening shoot we were fortunate to have visitors from Dimboola, Alexandra, Wangaratta, Yea, Seymour, and many Melbourne clubs, and thank Luke Doyle, G. Sim and Horrie James for their help during the day. Unfortunately, the programme wasn't completed owing to a few minor trap worries. However, judging from comments, everyone enjoyed the opening, which was ably carried out by Luke Doyle, "Doch an Doris" being up to his usual form in placing a tartan jack-in-a-box inside the first clay. In the Championship N. Tie shot very well to win outright. Many thanks to the ladies for the excellent job they did on the afternoon tea. (H. A. Peters, Hon. Sec.)

Weather perfect, and attendance of shooters from all over N.S.W., also Victoria and Queensland, far exceeded our expectations. Catering arrangements by wives and club members were praised by all. Sixty-two shooters.

The club held its first Championship, H. Martin Jr. winning trophy donated by I.C.I. The scoring was not as high as usual: the wind made the birds very difficult. The ladies supplied the luncheon and afternoon tea, which was very favourably commented on. The club wishes to extend thanks to those who so kindly donated the Trophies.

The day was in favour of the shooters, and some good scores were recorded. H. Pearson and E. Rowlands had a hard tussle for the S.B., H. Pearson winning after the 32nd round. K. Patterson, a new shooter, also recorded a good performance. The ladies, as usual, supplied the afternoon tea, which was appreciated. (C. G. Steele, Hon. Sec.)

This shoot set an all-time record even for Camberwell club, which is noted for its Xmas "do". No one went home empty-handed. The children had their fill of lollies, ice-cream, and soft drinks, while the male supporters made the amber fluid vanish. The evening was spent in pleasant surroundings with music and a barbecue repast. The club committee and other willing helpers were responsible for the usual unseen work that is so necessary in making the day the outstanding success it was. Record attendance of 107 competitors.

14/1/56. — Weather conditions: fine and windy. Results: No. 1, 5-bird S.B.: 1st, Col. C. Anderson, 12/12; 2nd, A. Hopkins, 11/12. No. 2, 10-bird Points Dec.: 1st, J. H. Izatt (Cairns), 36/36; 2nd, B. Bond, 35/36; 3rd, V. Dudley, 50/51; 16 yd. Trophy, Col. C. Anderson, 49/51; 17 yd. Trophy, J. Stevens, 28/30.

Fortune again favoured Camberwell in regard to the weather, which, although windy stayed fine. Remarkably good shooting ushered in the new points-decision rules. J. H. Izatt, a visitor from Cairns, showed the local boys how to break them cleanly. Col. C. Anderson, a new-comer to competitive shooting, also shot well.

Allwood and H. M. Eddington, 1st. No. 8, 5 pr. 18 yds. D. Rise: S. Marshall and T. Marshall, div.

The 1956 shooting year got away to a good start in Tasmania. With our Club D.B. Championship, which was won outright by H. M. Eddington, who returned to brilliant form to score 44/45 points, with P. Marshall, 2nd, 42/45.

It was noticeable, under the point-scoring system, that in the eight shoots there were no shoot-offs, which made it possible to get through the eight events in four hours with a field of 25 shooters.

COFF'S HARBOUR (N.S.W.).—On Saturday, 14/1/56, the club held its first shoot for 1956. A fine bright day, but with a half-gale from the nor-east. It was a real beauty and tested all shooters. The clays

did everything in and out of the book. The "Bill Golden" Trophy (15-bird Points) was won by Cliff Bowden and his 37/45 was a grand effort under the difficult conditions. Keith Secombe's High Gun was also an example of good form. Members from Grafton and St. George (Qld.) contested with local shooters for the afternoon's programme, and while the younger brigade seemed to handle the birds O.K., most of the veterans were astray in their judgment on the day. Programmes for the club's shoots for 1956 have been distributed to members and the attractive trophies will cause great competition. A Browning Under and Over Gun is up for competition among club members. The conditions call for the best score (kills) in six out of nine shoots during the year. After last Saturday's shoot the points allotted showed that shooting for this valuable trophy will be very keen. Only a few points separated most of the shooters' scores.

Results: 5-bird Eye-opener Points: W. Golden, Tom Secombe, div. 1st and 2nd, 14/15; Dick Secombe, 3rd, 13/15. Bill Golden Trophy (15-bird Points): C. Bowden, 1st, 37/45; K. Secombe, A. Herdegen, div. 2nd, 36/45; S. Godwin, 3rd, 35/45. 5-bird Points: A. Herdegen, 1st, 14/15; S. Godwin, G. D. T. Secombe, Tom Siddons, Ken Northcott, Tom Secombe, div. 2nd and 3rd, 13/15. 5-bird No. 1 Sweep: E. Wedgwood, S. Godwin, div. 1st and 2nd, 15/15; A. Herdegen, 3rd, 14/15. Xmas Shoot. One 20-bird event. All competitors received a trophy. Xmas tree for children preceded the shoot. Presentations made to ladies who had worked so willingly during the year, and to Secretary. Large crowd of onlookers.

14/1/56. — Weather conditions: fine. A pleasant night's shooting was enjoyed by members who attended the Colac Gun Club's shoot. New member, Ray Parker, was the most outstanding competitor, sharing in the first three events and finding the new handicap of 16 yards no burden. No. 1, 5-bird Points: div. R. Parker and W. Shooters from Canberra, Captain's Flat, Crookwell, Young, Nowra, Sydney, Gunning and Newcastle attended the annual Double Championship shoot. A tricky wind prevented high scores. The S.B. Championship went to C. Michael—a photo finish, with Alan Bradley, L. Engel, chalked up 20/20 to take the D.B. Championship, and J. Storrier, with 20/20, won the Championship. Congratulations to all winners and many thanks to referees and scorers, etc.

HAY (N.S.W.), 14/1/56 (Night).—Weather conditions: perfect. Results: No. 1, 10-bird D.B. (Club Mks.): Ron Heaton, 29/30. No. 2, 10-bird D.B. off 16 yds.: E. V. Cox and Max Gibson, 29/30, div. No. 5, 10 prs. D'ville Doubles: Max Gibson and A. W. Heaton, 15/15 prs.

A very pleasant night for shooting and a good roll-up of members considering such a number away enjoying the seaside. The first of the altered conditions as regards scores and everyone seemed pleased with the altered conditions. For shooters it saves a lot of cartridges, and for the club a lot of clays, therefore, everyone is happy. The main event, the Club Night D.B. Championship, saw veteran shooter in E. V. Cox much too good for his younger participants, shooting the 20 birds with the first barrel and notching a score of 60/60, with J. Heaton, 59/60, 2nd, and J. Houston, 57/60, 3rd. The "Zephyr Motor Car Shoot" at Easter, which embraces just on £1400 in prize money, is proving popular with shooters, and at this date, 17/1/56, the club has in hand 45 nominations.

(Les McKinney, Hon. Sec.)

SEBASTOPOL (V.).—I.C.I. Trophy Shoot 14/1/56, under lights, the weather was very

fine and a good muster of shooters from Melbourne and other places faced the trap. This event was shot on points decision. The 5-bird Eye-opener was won by Ron Ellis (Rokewood), who shot very well to win outright. Ron, by the way, is a lad 12 years how it was done. Good luck, Ron.

I.C.I. Trophy Results: I. Grundell, 1st, 44/45; A. Finlayson, 2nd, 43/45; Vic Harrison, 3rd, 42/45. G. Walter (Camberwell) won the Thomas Trophy after a shoot-off with I. Grundell, 2nd; T. Hart, 3rd. Good luck to "News", a wonderful magazine. (Vic Harrison, Hon. Sec.)

WINCHELSEA (V.), 31/12/55.—Weather conditions: very gusty. Results: No. 1, 5-bird: 5 div., N. Westward, A. Walsh, J. Ford, I. Taylor, E. Osborne. No. 2, Club D. Rise C'ship: I. Taylor, 1st; G. Taylor, 2nd; R. Jorgenson, 3rd. No. 3, 10-bird D.B.: D. Krentzlin, 1st; R. Jorgenson, 2nd; S. Black, 3rd. No. 4, 5-bird P.D.: J. Ford.

Under very gusty conditions, 22 shooters faced extremely hard targets and few shooters gained possibilities. The club would like to thank all visiting shooters for their support. I. Taylor won the Club D. Rise Championship for second year in succession; he was hotly pursued by his son Gary; this shooter looks like becoming one of the club champions. Good luck to him in the future. Owing to the harvest many local shooters are in temporary retirement. We are hoping to see them back soon.

# A Message to all Trapshooters wanting a Quality Cartridge . . . . .

We have received the following letter from champion trapshooter  
Sperry Marshall of Tasmania:—

Kenneth H. Brock & Son Pty. Ltd., Venice Street,  
191 Queen Street, Howrah,  
Tasmania,  
30/11/55.  
MELBOURNE.

Dear Sirs,  
I thank you very much for giving me the opportunity and the honour of being the first Tasmanian to test your new **Cooppal Trapload**, which I received about a fortnight ago. After attending two shoots which I have spread my tests over, and with two extremes of weather, one rain, hail and almost snow with freezing temperatures, the other a real summer's day, I am happy to say that this is easily the best 1½ oz. load I have ever used.

The cartridge has everything the trap shooter desires; it is as fast as a 2½ in. load, or if not faster, it has well balanced recoil (which is essential for use in Automatics) and does not leave a gun as dirty after use as most cartridges. With these, as well as other features in appearance, it would be, in my opinion, a great asset to shooters for much better scoring.

At a shoot last week-end at the Hobart Gun Club I shot the box of 6 Shot from my handicap of 23 yards, and had a 24/25 score, which proves they have something.

Trusting my advice will be of some help and service, I remain,  
Yours sincerely,  
(Signed) SPERRY MARSHALL.

Portion of a further letter dated  
10th January, 1956, from Mr. Marshall,  
reads as follows:—

"I have no objection to your company using my letter in advertising and would be only too happy to recommend such a grand little cartridge to any shooter."

It was pleasing to see all places in the main event filled by three of our country members. Naturally, we see little of them except at Xmas and Carnival, but when they are here they make their presence felt. A performance well worthy of mention was that of our President's son, 14-year-old Allan Mace. Shooting from the new 16-yd. front mark, he returned a total of 45/55 over the night. The way this lad is shaping, Dad will have to watch out if he wants to remain top shooter in the Mace family. (R. Graham, Hon. Sec.)

**BIRD BANDING (continued)**  
moral for Australia—that feeling did not take root until several magnificent species had been wiped out; lost, irreplaceable forever.

As the modern big-game hunter puts a high-speed camera into his kit instead of an express rifle, so anyone who tries trapping and ringing instead of shooting birds will find that adding to knowledge and handling living beings is more fun than slaughtering and picking up corpses. There is just a point or two to be noticed about the game. The

aluminium ring should be as small as possible, but large enough for the number and address to be readable—no doubt the standard metal bands the C.S.I.R.O. intend to supply cover those details. Then the ring must be just loose enough to fit on the tarsus—that is the section between the leg-joint and the toes—without slipping over the toes; and it must allow for growth. No projecting

overlap must be left when the band is clipped on, else the bird may become trapped by a twig or among foliage.

If people can be induced to “play”, the next thing is to hope that the facts accumulated by the C.S.I.R.O. for the “assessment of Australia’s wild life”, while it is still there to assess, will be made widely known and become as widely accepted.
