A.C.T.A. NATIONAL CHAMPIONSHIPS AND INTERNATIONAL. Intending competitors in the A.C.T.A. National Championship shooting series, arranged to be held at Bankstown Aerodrome, the headquarters of the Royal Aero Gun Club, are reminded that competition will start sharp at 9.30 a.m. on Friday, March 9, with the 50-target Australian National Single-barrel Championship. At the conclusion of this match the new competition, to be known as the Australia-New Zealand Points Trophy Match, will be decided. This event, also at 50 targets, has the added attraction of bringing about the selection of the Australian Team to shoot against New Zealand later in the programme (actually on the following day). The six highest Australian scorers in the match will become the Australian Team, and will shoot against a similarly complemented team of New Zealanders for the Tom Glenn Cup—this will be decided on Saturday, March 10, following the Australian National Double-barrel Championship, which will commence at 9.0 a.m. on Saturday, March 10. If time permits, a £100 Handicap will be staged following the two events mentioned. The A.C.T.A. Annual Meeting of affiliated club delegates will be held at the Royal Aero Club Rooms at Bankstown on Sunday, March 11, commencing at 9.30 a.m. On Monday, March 12 (9.0 a.m. start), the popular A.C.T.A. Champion of Champions Cup, at 60 targets from 20 yards—the blue riband individual event of the series—will be shot, followed by

the Australian National Double-rise Championship and the A.C.T.A. Intermediate Championship and another £100 Handicap (if time permits). The Sixteenth International Match (Australian section) will be shot at 100 targets per man, on Tuesday, March 13. The Australian team will be automatically selected from the highest scorers in the Australian National Single and Double-barrel Championships and the Australia-New Zealand Trophy match—the latter event being shot under points scoring system the same as the International Match. The Australian scores in the International Match are sealed and forwarded to London for checking and comparison with the opposing teams, England, Ireland, New Zealand, Scotland, Wales, South Africa, Central Africa, and Canada. Final results should be known late in June, 1962. The 13th Grand Australian Handicap at 45 targets will complete the listed events on the programme, and another £100 Handicap will be included, should time permit.

The Association is likely to have its shoot patronised in a truly International status for the 1962 series, for in addition to the New Zealanders, another overseas visitor expected is Mr. Nelson Dance of Hampshire (England). Mr. Dance will arrive in Sydney early in March and intends competing in all events open to him. He is a Vice-President of the English Clay Pigeon Association and a shooter of some renown. He will be a welcome addition to the overseas complement.

INTERSTATE TEAMS' MATCH.

Clubs which have been allocated the 1962 Interstate Teams' Match are advised of the conditions governing this competition. The directions for conducting the match are as laid down by the Executive Committee. The main points are outlined. Teams shall be of 15 men a side, with the best 10 scores to count. Teams members must have resided in the State for which they will shoot for at least the preceding three (3) months. Team members shoot their way into each State Team—that is, the State Team representing the State in which they reside. An elimination shoot is required, in all States, to decide the team complement. This elimination match is to be shot at not less than 30 birds per man from 18 yards, double-barrel, both barrels equal value, and nomination is to be not more than 30/-. The squad system of shooting (five tracks) is to be observed. In the event of ties to decide places, a shoot-off at a further five rounds shall be held until the place is decided. On completion of the elimination event the top 15 shooters automatically become the State Team, which will then shoot at 50 targets per man from 18 yards, using only special International load cartridges (1½ oz. of shot), double-barrel, both barrels equal value. In the event of ties for State High-gun, to be shot off at a further five rounds until finality. Only automatic angle traps may be used. Two check scorers are required and they must sign score sheet of each State Team result. The competitions may be fired at any period of the year convenient to the club conducting the series, provided the competition is completed and results are in the hands of the A.C.T.A. Secretary not later than October 7. Programme for day of the holding of the State

Teams' Match and Elimination shoot is required to be first approved by the A.C.T.A. and then advertised, at least one month prior to the holding of the competition, in the A.C.T.A. "News". No travelling expenses are allowable to any team member or member of the Executive Committee.

The A.C.T.A. will finance the actual Teams' Match to the extent of 950 clay targets and 750 cartridges in each State. Claims should be lodged for the value of the quantities stated immediately following the holding of the competition.

Clubs are instructed that souvenir trophies are required to be presented to each member of every State Team.

The winning Team will be announced following review of the score sheets from each State immediately following the October Executive Committee meeting of the A.C.T.A., and the successful Team will hold "The Great Britain & Ireland Trophy" for 12 months or until the next competition.

Clubs conducting the competition are reminded that all taking part, both in the elimination contest and the actual Teams' shoot, must be registered with the A.C.T.A. Fees are required to be paid prior to the start of the competition. Registration cards must be produced.

INCORPORATION OF A.C.T.A.

Several clubs have queried the conditions as enumerated in the Articles of Association of the A.C.T.A. as published in the October issue of "News". It is desired to point out that the Articles of Association are almost identical with the same Constitutional Rules of the A.C.T.A. as clubs have been shooting under for the past 25 years. One or two clubs have hesitated to complete the forms

of membership of the Association on account of the inclusion of Article 34. Here again it is mentioned that Article 34 is no different to what has been in existence in the Association Rules always, with the possible exception of Clause (C) of Article 34, which has been slightly re-written — practically the whole of Article 34 was included in Rule 15 of the previous A.C.T.A. Constitutional Rules.

HOLIDAY SHOTS. Despite many intimations through these columns, some clubs still do not realise that "all holidays" are under the Association jurisdiction and no club should attempt to conduct a holiday shoot

without first applying to the Association. The recent Australia Day holiday brought to light several complaints from clubs finding that they had listed a holiday shoot and then found that a nearby club was also holding a shoot on the same day. One club went so far as to state that had the nearby club not held a shoot, then it would have had a successful meeting. As it turned out, neither club had really satisfactory attendances, the one more than the other. Clubs are again reminded that no holiday shoot may be advertised or held without the approval of the A.C.T.A. The fixing of holiday shoot dates is one of the most important functions of the Association.

"Tips and Tails"

The 38th World Championship shooting series will be held in Cairo (Egypt) by the Federation de Tir de la Republique Arabe Unie, under the auspices of the International Shooting Union, from October 11 to October 20, 1962.

The programme will include clay pigeon shooting (Olympic Trench and Skeet). As in Moscow in 1958, the number of entries from each nation for each event will be strictly limited. According to the provisional programme, practice shooting will start on October 6, the opening ceremony being on October 11 and the closing ceremony on October 20. The competitions listed are: October 13-15, Olympic Trench, 300 birds for individual Championship of the World (first 200 to count for the Team Championship, for teams of four; also ladies' individual championship. October 18-19, Skeet: 200 birds for the Individual Championship of the World (first 100 to count for Team Championship for teams of four; also ladies' individual championship. Maximum number of competitors for the two events (Olympic Trench and Skeet) — between 7 and 9 per nation, plus two ladies (numbers subject to confirmation by the I.S.U.). Contrary to arrangements made in Moscow, accommodation in Cairo will have to be paid for — in Moscow, competitors were accommodated without charge.

Townsville Club (Q.) has relinquished its entitlement to the Commonwealth Double-rise Sparrow and the State (Queensland) Double-rise Sparrow title. These two titles are, therefore, now open and available to be allocated to other clubs by the A.C.T.A. Any club desirous of conducting one or both of these events should make written application to the Secretary, A.C.T.A., Box 2038 S, G.P.O., Melbourne, C.I. A Townsville report indicates that the area has

had good rains recently and all swamps are now holding water, although good follow-up rain will be required to make the season a good one. Magpie geese are appearing in appreciable numbers again around the Townsville area and all sportsmen in the district are hopeful that the geese will continue to re-establish themselves.

Eric Howarth, who has been Secretary of the local club at Yass (N.S.W.) has been transferred to Canberra, A.C.T., in his duties with the Education Department. Yass Club is without a secretary temporarily. Gordon Reed, the Yass President, has taken over the position of acting secretary until such time as a new secretary is appointed. Reed's address is, Gordon Reed Motors, Comur Street, Yass, N.S.W. (Phone Yass 158).

The definite date of the holding of 1962 New Zealand Championships has been fixed for April 4 to April 11, both dates inclusive. The Championships will, this year, be conducted under the supervision of the Timaru Gun Club on its grounds at Levels Airport, where there is a five-trap down-the-line lay-out and two skeet fields. Intending competitors are reminded that block booking has been arranged by the Timaru Gun Club and accommodation can be provided in hotel, motel or camp site. Any shooter requiring accommodation is advised to contact A. Houstoun, Secretary, Timaru Gun Club, Box 313, Timaru, N.Z., as soon as possible. Australian visitors are assured of a very warm welcome.

An operation which has been mentioned in these columns previously is the operation of "mining" the Vandalia (U.S.A.) shooting field for leaden shot. It is now five years since the last mining was undertaken. The A.T.A. of America expects to retrieve between 400 and 500 tons of shot this year when the mining is completed. It will be readily observed that they "sure shoot some shot" at Vandalia. Each shell fired by a trapshooter there holds 1½ oz. of pellets, so it will be appreciated the number of shots disposed of during a year!

Writing from Silkwood in North Queensland, J. Galletta says, "Keep up the good work, the 'News' is always looked forward to and is

certainly read from cover to cover by the whole family."

What style of shooting will be best for the average shooter? Answer to this question is dependent upon several factors. If the shooter has the type of temperament that does everything swiftly, a combination of pointing and snapping will work out well for him. However, this doesn't always hold true. Arnold Reigger, probably the greatest handicap shooter known of today (he is the well-known American trapshot who has often been referred to in these columns), is one of the fastest shooters in the States, yet he has a comparatively slow, very easy-going type of temperament. Each shooter should develop his own style, but before he becomes too set in his ways, it may be that the advice of a competent instructor or more experienced shooter may help him to decide what style of shooting will break the maximum number of targets for him. It could be said that "pointing" pays, to some shooters at least. The pointer — the shooter who gets on his target, "rides" it along and then pulls out in front to achieve his lead — will break most targets on a calm day when the flight path of the target is even, but he is apt to be thrown off by windy conditions when targets are ducking and climbing erratically. To a pointer the targets in the late afternoon, or in a lengthy tie shoot, in calm conditions, eventually look like "saucepans" and his type is then very hard to beat. Every type of shooting has its place. The snap shooter shines when weather conditions are adverse and targets jumping around. The snap shooter is apt to break them under all conditions — the only governing factor is how he is tuned up for a particular day and whether his timing and reflexes will stand up to the test. If they are working properly, then whether the conditions are windy or easy, he will break them.

The Mersey Gun Club in the Mersey Valley of Tasmania has become an affiliated unit of the A.C.T.A. The club's first official shoot for the new season was held on February 17. Club members will give an exhibition of clay target shooting during the forthcoming Mersey Valley Apple

Festival in northern Tasmania. Before the club was actually in operation last year, some present members of the club staged an exhibition shoot for the Mersey Valley Apple Festival and it was so interesting to spectators that a repeat performance has been asked for by the officials. Secretary of the Mersey Club is D. A. Brett of 192 William Street, Devonport, Tasmania. (Devonport is the arrival and departure port for the Bass Strait Ferry steamer, "Princess of Tasmania.")

Writing from Seven Hills (N.S.W.) where he is holidaying from Coff's Harbour, the Coff's Harbour Club publicity officer, Ted Wedgwood, is keen to ensure that his "News" reaches him safely and on time. Ted reckons "News" is a "must for any shooter". A great gun enthusiast, now in the veteran class, Ted will be at Bankstown during the A.C.T.A. National Championships and International in March, and hopes to make the acquaintance of many of his old shooting friends and many of those whose names only record to him per medium of "News".

The annual general meeting of the Perth Gun Club was held on January 18. The following office-bearers for 1962 were elected: President, A. J. Anderson; Vice-President, J. Philpott; Captain, J. A. G. Hodgson; Vice-Captain, G. Bailey; Secretary, J. G. Spark, G.P.O. Box 488G, G.P.O., Perth, W.A.; Handicapper, J. H. Webster; other members of the club committee are, Messrs. A. N. Smith, Eddie Metcalf and R. C. Witcombe. The first shoot of the 1962 season was held on February 18, when the open event, "I.C.I. Trans-continental Handicap", was shot. The winner of the last-mentioned event gained a return air-fare ticket to Sydney for the National Championships and International at Bankstown, N.S.W.

In connection with the pre-International shoot being arranged by the Royal Aero Club at Bankstown, it is of interest to note that Messrs. Kawaguchiya Firearms Coy. Ltd., of No. 3-4 Chome, Muromachi, Nihonbashi, Chuo-ku, Tokyo, Japan, has donated a K.F.C. over and under shotgun as the major trophy at the shoot. The Australian-New Zealand

agent for these weapons is J. H. Curtis, 75 King St., Sydney, N.S.W. (BX 5464).

Sunday shooting in New South Wales is a fairly live subject among trapshooting enthusiasts. The Dorrigo Club Secretary has written the Association requesting that club secretaries be requested to contact their State members and seek their cooperation and influence if the question is raised in Parliament. The Dorrigo Secretary states that he has already been in touch with the members for Clarence and Armidale, and both have indicated that they are prepared to support the gun clubs' pleas for Sunday trapshooting. Concerted action by gun club officials might swing the proposal of open shooting at gun clubs on Sundays.

Despite the smallness of area of England, the poacher is still a problem to police and land-holders. Special police patrols are in operation along flat and fairly long highways. In Lincolnshire the poacher menace is a real problem. To beat the patrols the poachers are now reported to be wearing their best suits and goloshes. This type of dress is adopted, so it is reported, to give support to the excuse, when stopped, that they are "just returning from a late dance".

The Queensland Branch of the Sporting Shooters' Association of Australia has become an affiliated unit of the A.C.T.A. Secretary of the branch is R. J. McDonald, whose address is Box 2050X, G.P.O., Brisbane, Q. The clay target shooting section of the branch is known as the "Sporting Shooters' Gun Club" and it has a very modern lay-out incorporated in its Belmont range.

Officials elected for the 1962 season for the South-West Gun Club (Western Australia) are: President, N. Wells (who is also the West Australian member of the A.C.T.A. Executive Committee); Vice-Presidents, Messrs. T. H. Turner and P. Hough; Captain, C. B. Wells; Vice-Captain, J. Perkins; Hon. Secretary-Treasurer, R. B. Yates, 55 Austral Parade, Bunbury; Handicapper, E. R. Pearce; Committee, Messrs. B. Drevitz, N. Keddie and D. Dunkley.

STRANGE COMPANIONS.

It can be said that people do the oddest things. It is on record that a lion-tamer in New York decided to go and have some lunch. He left his lion, or one of his lions, in the back of his car. A crowd collected, not unnaturally, and eventually the police arrived and decided that something had to be done about the lion. Oddly enough, the police did not open the car and drive it away!

Is there any law to prevent a driver of a car from carrying round with him any animal he cares to cherish? A lion or a tiger would not only dissuade police, but might stop anyone from stealing a car. A lion may be safer in some ways, because they can become very docile after years of handling, and nobody in his right senses would wish to encounter a lion in a car, whilst over-taking motorists might make doubly sure to keep a safe distance and avoid an accident.

"A 'Scope"

(Report by COLIN SHADBOLT)

The Nikko Rifle telescopes are not markedly different from the normal rifle sight. They are solid and well made and have been designed by someone who knows a lot more than the abstract fact that a 'scope sight on a rifle aids the shooting.

Little things, unimpressive in themselves, finally build up a composite picture that shows this line has had a fair bit of attention paid to it. I have had my part in producing this telescope, as it has been in the process of adaptation to the Australian market for almost a year.

From time to time I have looked at the new samples and ventured an opinion, but the actual design has been largely the business of the importer, Malcolm Fuller, and the Japanese firm that was handling the design. All I have done was to check the sample 'scopes and see that the quality was up to the standards that Mal Fuller was demanding of the manufacturer.

In view of the very low price of the 'scope, having due regard to others on the market of the same quality, I was surprised at the final pricing of the 'scope when it reached the retail market. The 'scope is certainly cheap, but this is due to Fuller's merchandising methods and not to any inferior work in the 'scope.

Fuller is not a babe from the sticks. He can handle a shotgun, as his clean-up in Commonwealth titles and the sashes in his office show. Now let's look at the Nikko rifle 'scope. Actually, there are two, although the only difference the public can see is the stamping on the ocular piece. One is the 4X, while the second is a 6X, with the same basic appearance as the 4X. I have only range tested the 6X, but the 4X has had a long trip to the Moree area and showed no signs of changing its zero, and this is a very fair criterion of the quality.

The 4X Nikko, she sat on the rack in an old utility, bounced about, and still put them where she was pointed.

This is as much as anyone can ask. I normally check the zero on a 'scope before starting serious shooting, and even with the best 'scopes we cannot assume that a very savage bashing about will not have affected the zero to some degree.

This may not be enough to show up at relatively short ranges, but when you draw trigger for a head shot, and miss, it can cause quite a bit of heart-burning and some very pointed remarks. Reticules at the moment are standardised on the medium cross-wire type, which is the most generally useful variety for ordinary work.

The 4X 'scope is 11.4 inches long, while the 6X is slightly shorter at 11.15 inches. This added length comes from a slightly longer ocular piece. The adjustments are mounted on a short enlargement fastened to the body piece with two Phillips screws. Its short length means that the 'scope can be easily mounted on virtually any type of rifle, since there is 1.7 inches of uncluttered inch tube ahead of the turret and almost 2.7 inches at the ocular piece.

The ocular piece is held locked when the telescope is focused by a short collar of half-inch length, which has an enlarged grooved ring to make locking up a simple and secure job. In an abnormal mounting job the forward section of this locking collar could be removed and give another three-tenths of added length to the rear section of the body.

The objective piece of dural, like the rest of the 'scope, is 1.5 inches in diameter and has a very short sunshade of 0.3 inches in length, which has concentric rings run into it to stop glare from the sides of the tube interfering with the view, and houses a coated lens of 32 mm. in both cases.

In the case of the four power this gives an exit pupil of virtually 8 mms., and since there does not appear to be any internal stop operating, the power is as claimed, being 4X, with a relative luminosity of 64.

The maker's claim for the exit pupil is 7.75 mms. and, should this be correct, then the luminosity would be 60. In either case this is adequate for all normal work and should make the telescope well suited for permanent use on any rifle which is used late in the evening or early morning.

The field of view is about the 29 ft. mark, and this, with the relatively large exit pupil, should fit the 'scope for use in timbered country, but not heavy brush, as a 'roo would move across the field in a single hop at 50 yards.

Summary — A pair of reasonably priced 'scopes, of sound design and optics, which will suit the Australian shooter who is eager to buy a serviceable and compact telescope.

However, our conditions being what they are, the 4X is the most generally useful power and the four should suit the needs of any shooter wanting a 'scope for a range of conditions, with a good clear field of view and an eye-relief of a full three inches.

This eye-relief is desirable, as it is very easy to get belted with a rifle of reasonably heavy recoil if a quick shot is taken and the rifle is relatively light.

The 6X sells at the same price as the 4X, and as such represents a new approach completely. Accordingly, I have been over it with peculiar care since I suspected a very fuzzy picture, but the scene through the telescope is very reasonable and, furthermore, the picture is reasonably sharp even at 20 yards. I do not suggest this 'scope for the .22,

as the 4X is the correct power, or I should say the maximum power that can be used successfully on a .22 rifle of rimfire type. I would include the .22 Winchester Magnum in this group.

The place of this small and compact 6X is on the Single-shot .218 Bee rifles, which are intended for precision work on small targets and have the range and accuracy to give a fox a very nasty poke at 200 yards. I think the .222 does better with a 4X, as it often doubles for a pig rifle, and so a larger field of view is very useful, as well as the larger exit pupil which makes aiming faster.

The field of view is 22-23 feet, and this is adequate for this power, being about a foot or two bigger than most American 'scopes of this power. The power was checked with care, since the lenses are not over-large, and the

exit pupil measured out at a full 6 mm., give or take a fraction.

I make the power to be a true 5.4X, which is a little less than claimed, but not far enough off to cause undue comment, as very few telescopes are correctly labelled, especially the so-called variables. The 'scope has a luminosity of 36, and this would fit it for most shooting, except under the abnormal conditions which I mention for the 4X.

Under the circumstances this makes the 6X a very good buy if the rifle has the power to carry it. It would be a very sensible choice for a small precision single-shot outfit. It is in keeping with the outline and size of the light rifle and with sufficient power and a good field of view to make it most suitable for the taking of rabbit, fox and similar pests, including dingoes and wild dogs. It has too high a power to be held steadily off-hand, and where the rifle is intended for off-hand work, then this is the province of the 4X.

By and large these are two telescopes which it will pay the shooter

to look at with care if he does not propose to buy a Continental 'scope, as they represent very good value for the money. The optics are reasonably good, the adjustments are covered with flat, metal-lined, strong caps, and the flat black dials are plainly marked and graduated, and when the pointer says up, it means the strike of the bullet, and anybody used to ordinary aperture sights would not find themselves in grief with the adjustments going the wrong way.

The dial plates can be set to the individual zero of the rifle by slackening the centre screws and turning the dial around so the zero mark matches the mark on the body of the turret.

I feel the quality offered in these 'scopes fully vindicates Fuller Firearms' approach to the marketing problem, and by their elimination of the wholesaler, for whom the need has largely disappeared in the present market, they will make it possible for many of us to enjoy a standard of equipment that was previously out of our reach.

OUT OF THE PAST

Ten Years Ago

L. McKinnon of Cobarr (N.S.W.), who is not now a frequent shooter, with the moderate score of 38/40, won the Grand Australian Handicap at the 1952 A.C.T.A. National Championships fixture at East Burwood (V.). Second placing went to G. Patterson of Young (N.S.W.), 41/45, with A. Hinneberg of Walpeup (V.) third, 39/44. It was McKinnon's first major success. Fred Burns (Footscray) won his fourth Champion of Champions Cup at the A.C.T.A. National Championships meeting of 1952. Burns was in splendid form and returned the only possible of the match, using only one second barrel in his last thirty releases. T. R. Dancy of Hay (N.S.W.), and former Olympian, John Bryant Junr., tied in second placing. Each broke 59/60. After 85 rounds the runner-up

placing went to Dancy—82/85, with Bryant showing 81/85. Ivor Wilson of Derrinallum (V.) and Ted Matthews of Bowna (N.S.W.) (still a prominent trapshot) then staged another marathon tie shoot to decide third placing. Ultimately Wilson gained the honour at 92/95 to Matthews 91/95. Others close up, following the major placings, were Don Cameron (St. George, Q.), T. Akers (Charleville, Q.), H. Rothwell (Roma, Q.) and J. M. Tyquin (then of Hobart, but now of Sydney, and President of the A.C.T.A.), each 67/70. W. MacCubbin of Trafalgar (V.) was next, 66/70.

The Intermediate Championship in 1952 went to prominent Melbourne G.C. committeeman, Fred Olver 25/25 from L. Mitchell (Trafalgar) 24/25 and P. Duchatel (Griffith 23/25).

ALEXANDRA (V.), New Year Shoot, Dec. 29 and 30, Jan 1. — The New Year Shoot was again very successful socially, but attendance was not quite as good as last year. Shooters came from Queensland, New South Wales, South Australia, and many parts of Victoria.

The weather was fine and warm, but not too hot. The club members put a lot of work into making the grounds attractive; they also erected extra temporary shade which made it much more pleasant for shooters and spectators. With the addition of gun-repair tents of Melbourne Firearms and Evans & Balfour, as well as a publican's booth and a soft-drink stall, everybody was well catered for whatever their needs.

The main event of the programme, with

a Holden Special Sedan as first trophy: this was div. four shooters, J. Dixon (Qld.), Col. Smith (Qld.), L. Pitcher (Geelong) and K. McDowell, a 14-year-old boy from Shepparton. Sixteen shooters scored the possible 30/30 and the shoot-off went 12 rounds before dividing.

On Saturday the North Central District D.B. Ch'ship produced 18 possibles, 20/20. After a long shoot-off it was won by W. Henwood (Croydon) with an excellent score of 105/105; Peter Wray (Melb.), 2nd, 104/105; J. Thompson, 3rd, 74/75.

On Saturday night the Goulburn Valley S.B. Ch'ship was won by Charlie Harries of Crookwell, N.S.W.; 2nd, Bob Layton (Melb.); 3rd, Stan Rentsch (Penshurst, V.).

High Gun Trophy for the best score over the whole shoot was a Browning Auto. Gun and Sash. Don Anderson and Barry Doyle tied for this with a score of 96/100. They decided to dispose of the trophy and divide the money. The tie shoot for the sash was won by Don Anderson, 112/116.

Results: Friday Night, Dec. 29. — 10-bird: div. S. Walker (Colac), W. McKenzie (Bourke), L. Dunn (Mildura), J. Thompson (Bright), A. Martin, G. Wilson (Parkes), R. Wainwright (Adelaide), K. A cold, windy, showery night, resulting in a low attendance of shooters. Shooting conditions were bad and Peter Cleggett was the only shooter to break the possible in the main event. Congratulations, Peter. Many thanks, ladies, for the usual excellent supper. (H. A. Miller, Hon. Sec.)

AUSTRALIAN (V.), 13/1/62. — A number of members away still on holidays and attendance therefore a little below average at 35; however, those present had plenty of shooting which, after a couple of weeks without handling a gun, was what the doctor ordered. No. 1, 10-bird D.B.: div. B. Bond, H. Ross, R. Harrison, 10/10. No. 2, 15-bird Points: R. Jennings, H. Weitzel, div. 1st and 2nd, 45/45; P. Thatcher, 3rd, 43/45. No. 3, 10-bird D.B.: div. A. Brown, M. Mott, H. Ross, B. Poynton, A. Buskauskas, D. O'Callaghan, 10/10. Nos. 4 and 5, Two 25-bird Skeet events were held, but as everyone seemed to be shooting above form, about half the shooters, with the help of their handicaps, had scores of 25, though mention must be made of Brian Bond with a straight 25 off the gun. These handicaps are a bit of a problem, and if anyone has any brilliant ideas, the club

would like to hear of them, as it is obvious that our present system is too generous.

27/1/62. — About 35 shooters present, which was quite good considering the number away for the holiday week-end. No. 1, 10-bird Pts.: div. D. Clay, J. Poynton, F. Johnson, L. Swain, 27/30. No. 2, 20-bird D.B. Trophy: F. Johnson was one of the early shooters in this event and put a possible on the board, and the main interest was whether anyone would catch him: they didn't, but F. Thatcher, 25/27, and R. Jenkins, 24/27, were the nearest; R. Jennings took the F.M. trophy, 17/20. No. 3, 10-bird D.B.: div. L. Swain, F. Bendle, R. Jennings, 10/10. Considerable interest was aroused in the Skeet events, as Evans & Balfour sent along a 25-break badge to be presented to the first competitor (not being a star shooter) making a clean score; F. Bendle, 24/25, came close, and R. Burrill, D. O'Callaghan and F. Thatcher, 23/25, received an honourable mention, but the badge is still to be won. Nos. 4 and 5: eight shooters div. each of 2 Skeet events, which are rather many for naming; however, R. Burrill took the Skeet high-gun trophy, his first, 46/50.

Ron Seide and Dudley Egerton are at present in N.Z. on a combined Skeet and deer shooting trip. Ron tells me he shot 49/50 at skeet and was, his hosts informed him, the first overseas shooter to do so. (Roy Fallshaw.)

BARWON HEADS (V.), 20/1/62. — Weather conditions: strong, gusty wind. Attendance: 21. Results: No. 1, 5-bird Pts. Dec.: R. Eason, R. Rankin, L. Forster, R. Hoath, L. Pitcher, 14/15, div. No. 2, 10-bird S.B.: I. Richmond, C. Richmond, 10/10, div. 1st and 2nd; R. Hayward, L. Le Maitre, 9/10, div. 3rd. No. 3, 30-bird D.B.: H. Edwards, J. Ford, R. Eason, 27/30, div.

Barwon Heads Gun Club held its first shoot for 1962 on Saturday, Jan. 20, when 20 shooters attended. First event, 5-bird Pts., was div. by the following with 14/15 each: R. Eason, R. Rankin, L. Forster, R. Hoath and L. Pitcher. Second event, 10-bird S.B., saw I. Richmond and C. Richmond dividing 1st and 2nd money with 10/10 each; R. Hayward and L. Le Maitre div. 3rd with 9/10 each. The main event, 30-bird D.B., with prize money of £20, resulted in H. Edwards, J. Ford and R. Eason dividing, with 27/30. Conditions were very bad for this shoot. Strong winds, which were gusty, prevailing all the afternoon, visitors attended from Geelong, Coburg and other clubs, and the President thanked all shooters for their attendance. Congratulations to all prize winners. (E. M. Pilkington, Hon. Sec.)

Allen (Charleville, Q.), 15/20). No. 2, 15-bird Trophy (1st prize, .22 Remington Nylon Rifle): 1st, K. Soames Snr. (Bath.), 38/38; 2nd, G. Bell (Young), 37/38; 3rd, P. Moodie (Bathurst), 29/30; 12/13 yds., E. Pike (Hawkesbury), 20/21.

A good roll-up of 16 teams contested for the Mick Smith Shield, with first and second honours going to Bathurst No. 4 and Bathurst No. 1 teams with 274/300 points, and Bathurst No. 2 and Newcastle No. 1 tying for third place with 264/300. Bob Campbell of Bathurst shot well to win the high-gun trophy over the Shield with 84/84 pts. after a shoot-off with H. McDiarmid. Harry Jaques of Bathurst was first in £25 Handicap with 60/60 points, and equal second going to J. Murphy (Hawkesbury), D. Mott (Newcastle) and K. Simpson (Parkes), 59/60 pts.

The Central Western District S.B. Night Ch'ship was won by Bathurst member, Merv. Williams of Orange, 35/35, and with second going to Rick Tonkin (Lithgow) and Bill Burrows (Bathurst). The 12/13 yd. trophy run in conjunction with was won by Queensland visitor, Brian Allen, of Charleville Diggers' Gun Club, and a cordial welcome was extended to this shooter. The shoot for the .22 Remington Nylon Rifle was stood over from the day programme owing to lack of time until the night shoot. Keith Soames was in top form again to win the rifle, 38/38, closely followed by Geo. Bell (Young), second, 37/38; P. Moodie (Bathurst), third, 29/30; E. Pike (Hawkesbury) won the 12/13 yd. trophy.

The Mick Smith Shield will be held for competition again on April 7, and a programme for same appears in this issue. The shoot for the .22 Remington Nylon Rifle proved so popular that it was decided to hold another for competition on April 7.

Many thanks go to the ladies who assisted with the catering; trappers, pullers, referees and secretaries, and to all those who assisted and so made the shoot such a success.

Despite the strong wind blowing into the traps, we enjoyed a good afternoon's shooting; however, Kev Fanning was the only full score in the trophy event — nice work, Kev. However, the shoot-off for the placings went to the 25th round before a decision was

reached, and was Johnny Condos pleased when he won the front markers' after a shoot-off with Robin Godfrey. Thanks to the ladies for the nice "cuppa", also the very many who helped to make the shoot tick, not forgetting the ice man, Frank Doyle. Hard to believe, I know, but after about two years' negotiating and much frustration, we HOPE to have the lights on in February this year. (E. I. Whytcross, Hon. Sec.)

To eliminate shoot-offs, all shooters who obtained possibles decided to divide sweepstake. In event No. 2 Mick Huggins obtained the only possible. Nine shooters scored 9/10, and as sweepstake was too small, they decided Mick was entitled to the lot. The half round of skeet proved interesting and popular, with Jim Patterson and myself taking the sweepstake. (R. Bird, Hon. Sec.)

CAMBERWELL (V.), 13/1/62. — Weather conditions: fine and mild. Attendance: 32. Results: No. 1, 5-bird D.B.: div. G. Jackson, E. Carlon, G. J. Jones, L. McGown, W. Hailes Jr., F. Phelan, J. A very pleasant day and some very good shooting. The President welcomed Colin Smith of Stanthorpe (Qld.), who shot very well throughout the day. Les Brown shot very well and deserved his win. Les Schilling was another who is slowly regaining his old form. It was very gratifying to see the number of young shooters on the tracks—the result of Jim McInnes' efforts in running the I.C.I. school. Thanks, Jim. Thanks, ladies for that "cuppa".

Henwood, 30/30; 2nd, R. Henwood, 29/30; 3rd, P. Dally, 28/30.

A light breeze often made the sparrows very difficult to hit, thereby making the scores look a bit low. Brian Bond deserved his win. It was very pleasing to see young Jack Henwood shooting so well again, having

COBURG (V.). — Our first shoot for 1962 took place on Saturday, January 6. We usually open around this time of the year, and it is more or less a token shoot to cater for those who have either finished their holiays or can't afford to have any.

Thirteen such people attended, and it was decided to make it a novelty afternoon. All events were for cash and practically everybody got something.

A start was made with a 20 birds D.B. Nothing very exciting in this, but the birds were a mixture of pigeons and sparrows. No shooter knew when he was going to get a little 'un. To show how "fairly" this worked out, in the first 15 releases, Alan Craig got one sparrow and 14 pigeons, while George Copeland had to put up with 11 sparrows and four pigeons.

The event was won by Frank Phelan, who grassed 19/20; Jack Phalp and Don Nicholls, 18/20.

Another mixed event followed. This time it was 5 birds Walk-up and 5 birds Silent Rise. Our referee, Peter Hanrahan, decided to throw off his responsibilities and compete. His judgment was pretty sound, for he ran out a good winner, 10/10, beating Ray Hering by one bird. Seven shooters tied for third place, and their cut provided the highlight of the day.

It was a "record" pay-out so far as this club is concerned, and each participant (who shall remain anonymous in case it becomes embarrassing for taxation purposes) received the princely sum of one shilling.

One shooter then became very reckless and challenged me to toss for double or quits. I regret to report that the club finances have suffered a loss in its first moment of gambling fever.

The afternoon concluded with a 10 pair Double Rise. It was easy to cut the spoils in this, for three shooters (all committee-men) finished equal with the score of 5/10. They were Ray Hering, Alan Harrod, Henry Weitzel.

It was a most enjoyable afternoon, and those present unanimously voted that there should be more of them.

We got back into our stride on Saturday, January 20, when the attendance more than doubled, even though it was still an off day. A start was made with a 10 birds Points which was cut by Max Day and Gordon Lear, 30/30; Doug Clay, third, 29/30.

A 20 birds D.B. followed, and here again Max Day showed he was at the top of his form by winning 19/20. Murray Talbot was second, 18/20, and Ray Burrell third, 18/21. The 12/16 yds. trophy went to George Copeland, 17/21.

The concluding event was originally a 20 birds D.B., but by popular demand, it

was changed to 10 birds D.B. and 10 birds Tower.

Our medico friend, Frank Lyons, showed the opposition a clear pair of heels to win outright with 18/20, and so received his first trophy at our club. Congratulations.

Bill Deverall (20/23), Gordon Lear (19/23), Max Day, who was having a day out, took the 12/16 yds. trophy with 16/21.

Our programmes for March are published in this issue. (C. J. Colledge, Sec.)

GEELONG (V.), 26/1/62. — Weather conditions: gale-force winds. Attendance: 44. Results: No. 1, 10 birds: div. N. Carrol, T. Vandenberg, R. Bath, 10/10. No. 2, Geelong Grand Prix: E. Rankin, 28/30; Bill Branagh, 2nd, 32/30; W. Pascoe, 3rd.

The Geelong Grand Prix for 1962 was shot

in the worst conditions that could be encountered. As one big cloud of dust blew by, over-heard a shooter say it is blowing dust from the bottom of the Bay. On one trap we had to rig a shelter to stop the targets from blowing off the trap. Saw Ian Holt duck a couple of clays as they landed back behind 25 yards. Our puller had to leave his shed as a couple landed in there, while a few hit the clubhouse roof. We were happy to see the shooters take the conditions in such a sporting manner and not one complaint was heard. Most said they had never seen such practice for duck opening. The Geelong Club thanks all shooters for coming from Sebastopol, Colac, Cobden, Werribee, Altona, and wishes them very good shooting for 1962.

Ron Rankin has been shooting for only a short while, and full credit must go to Ron for his effort on Friday night. To shoot 28/30 in those conditions was no mean feat. Congratulations, Ron. Congratulations must go to Bill Branagh for his performance to come second. Won't be long before Bill wins something big. W. Pascoe (Sebastopol) shot very well for third, 30/36. Front-marker trophy went to V. Patterson; middle marker went to Bob Harty, also of Sebastopol. Back marker was won by Ian Holt (Colac). As usual, our ladies turned on an excellent supper to warm nearly frozen shooters. Many thanks to them. (P. J. Roberts, President.)

The Ch'ship was won by Warren Charlton after a shoot-off with Arthur Robotham, Nick Rogley and M. Quirk, with George Cook the best 12/15 yd. score. Arthur is in very good form at present and was unfortunate in freezing on the trigger to miss his first bird in the Ch'ship. New member Ted Pike is shooting well and should make a good shot.

HOBART (Tas.), 16/12/61.—Weather conditions: warm, clear day. Attendance: 38. Results: No. 1, 15-bird S.B. Trophy: 1st, R. Monks, 14/14; 2nd, D. Gray, 16/17; 3rd, K. Woodward, 15/17; F.M., Dr. M. Sweet, 9/10. No. 2, £30 H'cap: 1st, J. Monks, 31/31; 2nd, R. Monks, 30/31; 3rd, A. Brown, 28/29; F.M., R. Bennett. No. 3, 10 pair D'ville Doubles Trophy: 1st, R. Powell - G. Roberts; 2nd, R. Morgan - A. Self; 3rd, B. Schott - G. Genders; 4th, E. Nelson - A. Adams.

For our Xmas (Day) shoot we had a good turn-up, and as the trophies were of exceptional value, keen shooting was the order of the day. We again saw veteran R. Monks to the fore, winning the S.B. Trophy event and pushing son John in the £30 H'cap. John shot brilliantly to score 31/31 to take

out the money. In the D'ville Doubles we saw R. Powell - G. Roberts shooting perfectly to win from R. Morgan - A. Self. Other shooters to shoot well on the day were D. Gray, K. Woodward and A. Brown. Congratulations to all winners.

16/12/61 (Night). — Weather conditions: cool, still night. Attendance: 42. Results: No. 1, 10-bird D.B. (comp. div.): div. 10 shooters. No. 2, Nikko U/O H'cap: 1st, R. Luck, 32/32; 12/15 yd. trophy, A. Adams, 24/25; 16/18 yd. trophy: E. Harbeck, 22/23; 19 yds. and over trophy, R. Ward, 31/32.

With a good roll-up of 42 shooters and a late start owing to summer conditions, the eye-opener went later than anticipated; 10 shooters shot the possible in this event, which was divided. The big Xmas trophy shoot got under way, and it was then the committee realised that we wouldn't have enough time to shoot a 30 birder, and this had to be reduced to 20 birds. Six shooters shot the possible, and then it was on; the first to go was E. Harbeck and R. Wighton, 22/23, and then D. Gray and A. Adams, leaving R. Luck and R. Ward, but after 31 birds we saw Ward heavily dust his bird, both barrels, but not a chip would fall for him; then Ron Luck shot his bird dead centre, single barrel, to make him the winner to collect the Nikko U/O and a few yards as well.

(Geoff Smith, Hon. Sec.)

NEWCASTLE (N.S.W.), Sat. Night, 6/1/62 — Weather: ideal. Attendance: 34. 5-bird D.B.: A. Ward, C. Bentley, R. Morton, R. Hall, R. Kimble, D. Mott, J. Tarrant, 5/5, div. 20-bird D.B. Trophy: 1st, R. Kimble,

A well-attended shoot considering some were holidaying. Ross Kimble shot very well to take out the club trophy with a fine effort of 57 straight, Keith Robertson dropping a bird to finish ahead of Rex Hall, 25/26.

The Stewart Mordue Trophy has aroused keen interest amongst club shooters, the first round going to K. Robertson, with a very fine effort from front marker Frank Baldwin, followed by veteran Bill Collis.

We were very unlucky in arranging our Perpetual Cup D'ville Doubles and Club Ch'ship day on the same day as our shooting friends at Boort had arranged their big day. However, those in attendance voted the day a successful one, and at least we had plenty of shooting. Very pleasing to see Terry

These boys are our shooters of the future and deserve all the encouragement that they can get.

SEBASTOPOL (V.), 12/1/62 (Night) — The first shoot held at Sebastopol for the new season resulted in quite a large crowd of shooters being on the tracks. After two weeks of almost continuous rain and thunder storms, we were delighted when the weather decided to fine up the day before the shoot was scheduled to start. The first week-end was fine and very hot.

In the event for the coveted Bauman Gold Cup, tension was high when 18 shooters scored the possible, and a long shoot-off resulted. Last year's winner was amongst those contesting the struggle, and spectators were tense and silent. Local shooter, Arthur Griffiths, finally carried the day from Merv. Champney and Warren Charlton, who had brought the Cup from Sydney with the hope of taking it back again. Since this event was inaugurated it has not been won twice by the same shooter. Congratulations, Arthur. In the same event two breaks over 100 were made by A. A. Griffiths and Merv. Champney, making the total number of 100 breaks made on this ground over the years to approximately six.

In the next event, the J. A. McGregor Memorial Trophy, Ladies' Bracelet, Jack McLean (Moree) again made history by taking out the trophy for the second time, winning outright with the excellent score of 89/90.

Arthur Griffiths again showed his skill by winning the Commonwealth D.B. Ch'ship outright, 40/40, on Sunday, 21st. Again he was closely followed by Warren Charlton and

Rod Middleton. Doug. Makin, in his second year at this carnival, showed that the confidence placed in him was warranted by winning the 12/14 ydr.

The Gaven Shield was closely contested, but N.S.W.G.C. had too many good starters and took it away. This trophy was a new one this year, as the old Shield had been completely covered, and the Club Patron presented this to take its place. Again a long shoot-off for High Gun, with Harold Nasser (Atherton) coming out on top.

The 30-bird S.B. Trophy Shoot was interesting, with young Garry Webster (Cunnamulla) having to stand the strain of a shoot-off with three very seasoned shooters. He proved he could do it and carried off the honours.

The State Double Rise Night Ch'ship was shot under incredibly hard conditions. Violent rain and wind stopped shooting, and the committee discussed the possibility of postponing the event. However, after some time the rain eased and the event progressed. Under the conditions the scores of 14/15 pairs by Mal Fuller, 13/15 Warren Charlton, and 12/15 Bruce O'Neill were indeed most creditable.

At this stage the Overall High Gun became most interesting, with Warren standing on 192, closely followed by Arthur Griffiths and Don Scowcroft with 191. Mal Fuller also had 191, but unfortunately had to leave that night. With another 75 to score on the last day, anything could happen.

The weather was kind on the last day, Sunday, 28th, and conditions were good. The young shooters again came into the picture, which is a good thing.

Finally Warren Charlton wrested the High Gun away from his rivals, and a happier man I have never seen. Arthur Griffiths had presented an Intermediate High Gun (12/16),

and this was won by Bill Ridge after a close week-long struggle with Doug. Makin.

One shooter whom everyone was delighted to see "in the money" was our old friend Don Fletcher, who left this State some years ago to live in Victoria, but has now returned to live here on the Coast, and who is a staunch supporter of the club.

At the conclusion of the shoot, President Cliff Whitney said all the appropriate things and introduced the Club Patron, Mr. E. J. Gaven, M.L.A., who, as capably as always, presented the trophies.

Very pleasing to have three Western Australians over, and we hope they enjoyed it all.

The average attendance throughout the week was 66 4/5ths shooters, which is better than the last few years. Highest number in any one event was 85.

We thank everyone for coming and hope to see you all next year, at about the same time.

(Mrs. G. O. Martin, Sec.)

Pacific S.B. and D.B. Ch'ships. J. O. Cox from Mangoplah, with a nice, easy manner, presented the trophies and assured all present he would be back again next year. Everyone was pleased to see Alf Elliott, shooting from a wheel chair, win the front markers' trophy in the D.B. Ch'ship.

TATURA (V.), 20/1/62.—Weather conditions: hot and gusty winds. Attendance: 24. Results: No. 1, 5-bird: J. Hickford, E. Baldwin, R. Baer, M. McLeod, A. Hitchcock, J. Bosco, B. Mathewson. No. 2, 10-bird Trophy: G. Coombs. No. 3, 5-bird: G. Coombs, F. Crawford, F. McMeekan, V. Lawford.

Very fair attendance of shooters, but the weather conditions not conducive to good shooting, as wind gusts at times created a lot of dust.

(G. J. Doherty, Hon. Sec.)

TOWNSVILLE (Qld.), 14/1/62.—A strong, gusty wind made shooting conditions difficult at the club's clay pigeon shoot on Sunday afternoon at Garbutt. The scoring generally was below average; however, D. McDermott, R. Lovelady, W. Horwood, E. McKimmin and K. Lowrie struck form and recorded consistently good scores throughout.

Lengthy shoot-offs were necessary to decide the two trophy events on the programme, the first of which was won by D. McDermott, with K. Lowrie taking runner-up trophy. The second trophy event was won by R. Lovelady after a keen shoot-off with G. Timms, who secured the runner-up trophy.

A very successful shoot held under perfect conditions. The club is shooting every night throughout January, and to date this is proving very popular. The lighting is of a high standard and much credit goes to our Secretary for an excellent job setting it up. Our Treasurer Les Jacobs' win tonight was a popular one. Many thanks to our ladies for their efforts once again.

(R. C. Kenneally, Hon. Sec.)

WINGADEE (N.S.W.), 7/1/62.—Weather conditions: excellent. Attendance: 25. Results: No. 1, 5-bird D.B.: K. Constable, J. Wild, T. Boyland, 5/5. No. 2, 5-bird D.B.: E. Brown, I. Constable, R. Weber, K. Weber, E. Kennedy, R. Bellamy, T. Boyland, 10/10.

This shoot was held under ideal conditions, cloudy at times, but very calm. The Club Ch'ships attracted nearly all the members, and in the D.B., 14/15 was the highest score and div. by six shooters. In the shoot-off E. Brown won from I. Constable, with K. Constable in third place. The S.B. went to B. Fagan with the only possible, the minor placings being once again filled by I. Constable and K. Constable. Failing light prevented the last event from being shot off, and in a draw for the trophy, T. Boyland was the lucky one.

(W. J. L. Skuthorp, Hon. Sec.)

Fred: Art and business have nothing in common.

Gladys: Oh, I don't know about that. The value of a painting, like the value of a cheque, depends a great deal on whose name is at the bottom of it.

SHOOTING FROM No. 5 TRACK

Well-known American professional, Dick Miller, in a bright article in American "Trap and Field", hands out some advice to those who have difficulty in shooting their targets from No. 5 track, particularly the acute right swinger. Miller advises that extreme right-angle targets for beginners. He instances his own experience. In one of his early Grand American Handicap efforts he had shot all targets from tracks one to four, but had fallen away in his scoring from No. 5, shooting only two from this track out of about 20 releases. Miller, in his own words, explains "how he licked post five". He states that he pointed his left foot (being a right-shoulder shooter)

at the spot where the most extreme right-angle target would fly, then holding the muzzle of the gun about three feet to the left of the trap-house, he was able to "clobber" the elusive target most of the time. He considers any shooter can do likewise.

Continuing, Miller explains that no amount of shooting advice, no matter from what source, can be expected to change scores significantly overnight. A shooter must practice his technique before it will bear fruit, and shooters uncertain of this should experiment in practice events.

Mentioning doubles (double-rise), Miller explains that the shooter can hurt his chances of success in picking up the right-angle target if the body is angled towards the traphouse. Leaning towards the traphouse tends to place the shooter off balance for the second target and the shooter must "shove" the gun at the right-hand target instead of swinging on to the target. Miller states that most American shooters accept the left-hand as a straight-away, then swing right. He advises to position yourself to swing right, and little trouble should be experienced.

"Now, look here—about this duck call!"

- Single Selective Trigger • Raised Ventilated Rib
- Anson & Deeley Action • Automatic Ejectors
- SPECIAL NICKEL-CHROME STEEL BARRELS

K.F.C. gives you more value for your money because:

- I. The action is case-hardened and adjusted by hand after the process. This is a difficult and costly method, and consequently is seldom found in other high-quality firearms throughout the world.
- II. K.F.C. use "V" springs, which ensure equal pressure on both firing pins and prevent misfiring.
- III. The engraving is very fine and artistic Arabesque.
- IV. Both full pistol-grip stock and Greener-type fore-end are of selected walnut and are carefully hand checked.
- V. Model "OS" is the result of more than 80 separate manufacturing operations.
- VI. Twenty inspections ensure the consistent high quality for which K.F.C. is world famous.
