

THE one GUN FOR all seasons

There's no need to adjust to many guns, when one Browning Automatic Shotgun will give you a whole package of versatility.

This Aristocrat of Automatic Shotguns is built to give and take it like no other, today!

Extra barrels may be added as you wish, so one Browning Automatic Shotgun perfectly takes the place of two, three or more shotguns. No fitting is required and interchange takes but seconds.

The Editor's Notebook

A.C.T.A. 1969 NATIONAL CHAMPIONSHIPS AND INTERNATIONAL TEAMS' MATCH will be conducted over five traps at the grounds of the Geelong Clay Target Club (one mile from the centre of the City of Geelong, facing Corio Bay) from 8.00 a.m. daily over six days — Friday, March 7, until p.m. Wednesday, March 12, inclusive.

The programme has one major title event each day, with, in addition where possible, a D.B. Handicap event.

On the first day, Friday, March 7, will be the coveted **Champion of Champions Cup** event (1968 winner was P. Marshall of Hobart, Tas.), to be followed by a \$300 value D.B. Handicap.

On the second day, Saturday, March 8, the **Australian National Intermediate Double-barrel Championship** (1968 winner was J. Brook of Roma, Queensland) shall be conducted in conjunction with the **Australian National Double-barrel Championship** (1968 winner was M. Burgess of Cobar, N.S.W.).

On the third day, Sunday, March 9, shooting shall be within the hours of 12.00 noon until 6.00 p.m., as prescribed under the Victorian State Firearms Act. The sole event for this day shall be the **Australian National Double Rise Championship** (1968 winner was W. Rae of Warren, N.S.W.).

The fourth day, Monday, March 10, shall commence at 8.00 a.m. with the **Australian National Single-barrel Championship** (1968 winner was J. Hutchings of the S.A.G.C., South Aust.), thence shall be two \$300 value D.B. Handicaps.

The fifth day, Tuesday, March 11, will be a full and interesting day with the **Australia-New Zealand Champion-**

ship (1968 winner was T. Catling of Katanning, West. Aust.) and a \$300 value D.B. Handicap.

The sixth and final day, Wednesday, March 12, will see the Australian Team shoot the **Australian Section of the Twenty-third International Teams' Match** for the Mackintosh Trophy, of which the scores shall be sealed until July 18, when the final section will be contested in Edinburgh, Scotland, by the Clay Pigeon Shooting Association. Competing countries will then receive the results by cable. The Australian High Gun scorer in the 1968 International Team was M. Burgess of Cobar, N.S.W.

[NOTE: This event commenced in 1939 with the cup being presented, for competition in perpetuity, by the late Donald Mackintosh of Melbourne, Victoria. Competing countries are England, Scotland, Wales, Ireland, Rhodesia, South Africa, Canada, New Zealand, Australia. Australia has won this event eight times in the last eleven years, and although varying methods of scoring have been used over the years, the 7355/7500 total score recorded by Australia in both 1966 and 1968 years has established the highest total to date and all contestants can be justly proud of their contributions. A double perfect score of 300/300 each was registered in 1967 by J. N. Thomas (Melbourne) and M. Burgess (Cobar), then again in 1968 by M. Burgess (Cobar) and S. Marshall (Hobart).]

The **Twentieth Grand Australian Handicap** event shall then be contested (1968 winner was E. Johnson of La-trobe, Tas.) and, subject to time available, a further \$300 value D.B. Handicap shall complete the programme.

For the information of all concerned, the accommodation agents have ample accommodation of 500 beds available for all fastidious tastes, plus 150 caravan sites. Agents are Dalgety & Co. of Geelong. Travel agents are Patrick Travel Service of Melbourne. (See advertisements — the early use of the self-explanatory tear-out forms is recommended.)

Cartridges to be used in the 1969 National Clay Target Championships and in the Twenty-third International Teams' Match shall be of the same load and specifications, contained in a plastic shell with appropriate markings, as for the 1968 National Championships. Competitors may use any cartridges of their choice in the respective handicap events.

A "Browning" under-and-over shotgun shall be presented to the **highest-gun-scorer over the six main events**, viz. Champion of Champions, Double Barrel, Double Rise, Single Barrel, Australia/New Zealand and the Grand Australian, with the provision that each shooter can gain this award only once. If a shoot-off is necessary to determine the High-Gun winner, then the shoot-off shall be shot under handicap conditions. The Association is very grateful and records its compliments to the makers of this fine trophy, Messrs. F. N. Browning & Co. of Belgium, and to their agents, Messrs. Gollin & Co. of Sydney, for this fine gesture annually since 1966.

The Association also appreciates the offer of Fuller Firearms of Sydney, who will present a Stirling Broadrib Trophy Gun to the first New Zealand shooter who wins "any of the five Australian championships held annually".

All empty shells on the ground during the period of the 1969 National Championships shall be the property of the Geelong Clay Target Club. (NOTE: An empty cartridge outer case — with flaps excluded — can contain 350 empty shells. The marketable price of such quantities of empty shells is a club affair. One well-known club imposes a penalty of \$5.00 on any person who picks up empty shells before completion of the whole programme.)

On the night of Monday, March 10 at 8.00 p.m. at the Geelong Clay Target Club shall be an open invitation to all A.C.T.A. Referees as guests of the Association for an open discussion on rules interpretations.

The 33rd Annual General Meeting of the Australian Clay Target Association shall be held at the Carlton Hotel, Geelong at 8.00 p.m. on Sunday, March 9, 1969.

The 1969 New Zealand National Championships will be conducted at Hamilton (North Island) from March 23 to March 29 inclusive.

The Clay Pigeon Shooting Association cordially invite any Australian shooters to the final section of the 1969 International Teams' Match to be conducted at Edinburgh, Scotland, on July 18.

The 1970 National Championships shall be conducted at Perth, Western Australia, dates yet to be confirmed.

Club Secretaries are advised:

1. And all shooters are reminded that **CURRENT HANDICAP CARDS MUST BE PRESENTED AT ALL SHOOT.**

2. Annual shooter registration fee of \$4.00 for the year commencing January 1, 1969, must be forwarded through a club Secretary. No pro-rata rates are accepted.

3. The POSTCODE reference is vital for all "News" addressees — otherwise the publication will be rejected by the postal authorities.

4. March 1969 "News" will be mailed only to shooters financial (actually received by the A.C.T.A.) as of February 17, 1969.

5. The handicapping formula is calculated on the retail value of trophies.

6. Enamelled metal championship badges are struck by the makers only against firm orders by A.C.T.A. office. Club Secretaries only may request these badges, using the prescribed form. The badges will be of the standard A.C.T.A. insignia with the surround, containing the year, the championship title, the winner's initials and name. Such lettering on the surround will be in the following colours:—

Commonwealth Championships —		
State	"	Blue
District	"	Red
Club	"	White
	"	Green

Clubs are charged for each badge ordered.

7. Championship SASHES only may be ordered direct from the makers by club Secretaries. Recommended and official makers are W. FLATELY & SON, 11 ORR STREET, CARLTON, 3053. Colours for the respective gradings of championships are AS FOR BADGES as shown above.

8. Break badges in cloth form are available for \$1.00, but only where score sheets, as submitted by the club Secretary on the prescribed form, clearly show the shooter has earned this right. Break badges are for 50, 75, 100, 150, 200, 250 and 300 breaks (see Rule Number 80).

14. Available on request by club Secretaries at nominal prices are:—

- (a) A.C.T.A. pocket insignia on navy cloth background;
- (b) A.C.T.A. ties with embroidered insignia on navy background;
- (c) A.C.T.A. tie bars;
- (d) A.C.T.A. metal car badges;
- (e) club shoot record books;
- (f) club shoot report forms (padded) for "News";
- (g) trap (D.T.L.) score sheets (padded);
- (h) skeet score sheets (padded);
- (i) A.C.T.A. trap (D.T.L.) and skeet shooting rules.

15. A.C.T.A. Rules require that all Commonwealth, State and District Titles, plus any event exceeding \$100 value, must be applied for on the prescribed form. The lodging of only a proposed advertisement merely holds up the procedure and involves return mails.

16. The A.C.T.A. Rules, having been clarified and regrouped, are shown in full elsewhere in this publication and are effective as from January 1, 1969. These rules supersede any previous such publications. As space in this (December 1968) publication does not permit any interpretations of these rules, Feb. "News" should contain an "Interpretations of A.C.T.A. Rules". "A.C.T.A. Rules" and "Interpretations of these Rules" shall be available to clubs in brochure form (price \$1.00) in February, 1969.

17. At its October 1 and 2 meeting the Executive Committee decided:—

(a) that a charge of \$1.00 be made by clubs for all break badges required. Payment to be made with applications on the prescribed form.

(b) that an "Amateur Shooters' Union" be set up as a division of the

Australian Clay Target Association: The Executive announce to all financial registered shooters of the A.C.T.A. that they may wish to make sure of preserving their amateur status by joining a division of the Association to be known as the Amateur Shooters' Union, at a cost of \$1.00 per annum.

The shooter must pledge in his application that he will abide by the cash trophy rules of the Olympic Federation and that he is an amateur under the definition of those rules.

Signature of application:

Registered through.....Gun Club.
Subscription paid.....1969.

Enclosed herewith \$1.00 annual subscription to the Union, which is only available to financial registered shooters of the A.C.T.A.

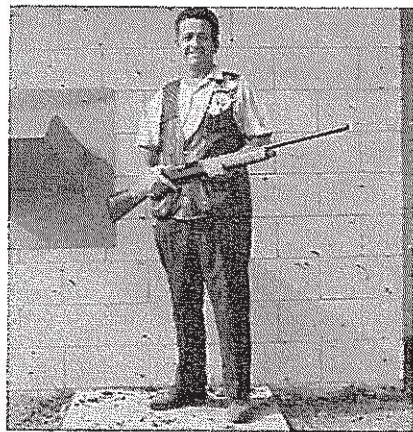

(All subscriptions will be applied to a separate fund and may be paid up to 5 years in advance (quoted as submitted).

(c) that compulsory division be by the majority in all events so programmed.

(d) that in graded shoots the handicapping will be double the handicapping formula values.

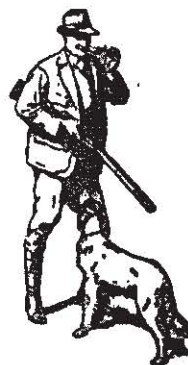

(e) no shooter can come forward more than ONE yard in any SIX-MONTH period.

The President, Executive Committee and Officers of the A.C.T.A. extend Seasonal Greetings to all affiliated member clubs and registered shooters throughout the Commonwealth and Mandated Territories.

1968 Champion, Mr. D. Clarke, who shot a 600 break at Brisbane to win Australia-wide Skeet Competition of the Winchester Tournament.

"TIPS AND TAILS"

wick, W. Maddocks, G. Warwick.

QUEANBEYAN - CANBERRA (N.S.W. and A.C.T.) are making preparations as hosts-elect for the N.S.W. Division of the 1969 Interstate Teams' Match. They shall have a septic toilet system operating in November, 1968, and by April, 1969, shall be fitted for night shooting.

MOUNT ISA (Qld.) at 15/10/68 annual general meeting elected as office-bearers for 1969: President, C. J. Willis; Vice-President, H. Linton; Secretary, H. J. Smith; Asst. Sec., G. Buerchler;

Treasurer, T. Chisari; Captain, C. Selke; Purchasing Officer, G. Buerchler.

WANGARATTA (V.) — On Saturday, October 26, the Wangaratta Gun Club staged the North Eastern District Schoolboys' Championship with a field of 24 entries for a sash and trophies. The event was sponsored by the Wangaratta Technical School (Organiser, Mr. L. Simpson). In low temperature, poor weather conditions, rain showers and very rough cross winds, the outright winner was 13-year-old Rutherglen High School student, R. Renshaw, who shot 14 out of a possible 15 on single barrel. For several years schoolboy trapshooting has been fostered by the Wangaratta Technical School, with emphasis on safe gun handling, sportsmanship and the adaptation of sporting skills. This shoot has now become a keenly contested annual shoot in the area.

Skeet Shooting — In the words of an eminent skeet shooter, to have more than six shooters to a squad is dangerous and is prohibited, for safety reasons, throughout the world. The safe working of a squad is the best preparation for better skeet scoring.

1968 WINCHESTER TOURNAMENT

The 1968 Winchester Tournament was shot on the common date of Oct. 26 in all States for the Trap Event, and over October 26/27 (dependent upon the respective host clubs) for the Skeet Event.

There were no geographical boundaries for the shooters, who could shoot at their nearest host club within the States concerned.

In the Trap event each State Team evolved from competition within handicap groups through a 100-target qualifying round. Then these respective finalist State teams shot a further 100 targets, consisting of five targets off each track, before changing, in two visits of fifty targets each, all off the 16-yard mark.

A separate, but optional, 25-target Skeet event was also contested, using

the "speed-up" method. From this event the State Skeet finalists each shot successive rounds of skeet, from normal stations, to establish as large a break as possible, taking handicaps into account. The break terminated during a round when one more target was lost off the gun than the shooter's handicap allowed.

The final results of this most successful 1968 Winchester Clay Target Tournament were:—

Trap	Score
Tasmania	495/500
Weather: Heavy rain.	
Western Australia	494/500
Weather: Perfect.	
Queensland	492/500
Weather: Gusty winds.	
New South Wales	488/500

The Tasmanian Trapshooting Team — winners of the 1968 Winchester Clay Target Tournament. Left to right are: L. Witzerman, K. Lawry, J. Blake, C. Conlan, E. Crosswell.

Victoria	482/500
Weather: Rain, strong winds.	
South Australia	463/500
Weather: Windy.	

The respective successful trap finalists from Tasmania were:— Class 1 (24-27 yds.), K. Lowry of Mersey, 100/100; Class 2 (20-23 yds.), J. Blake of Cressy, 100/100; Class 3 (17-19 yds.), L. Witzerman of Hobart, 99/100; Class 4 (15-16 yds.), C. Conlon of Bothwell, 98/100; Class 5 (12-14 yds.), G. Crosswell of Mersey, 98/100.

The successful skeet shooter was Don Clarke of Brisbane, 600/600. These six outright winners, in addition to their State awards of a Winchester Model 66 Centennial Rifle, are to enjoy a conducted shooting tour of the South Island of New Zealand during mid-December, 1968. This tour shall include a shoot at Christchurch and a coach tour of the South Island, with all transportation, accommodation and meals provided by Winchester.

The runners-up in each yardage group in the trap event, and the runner-up in the skeet event each received a free carton of 500 Winchester shot-shells.

Brilliant new centre fire rifle made in Finland is the result of years of research and testing, by the famous Tikka factory, arms makers for the Finnish Army for 40 years. We knew a better high power rifle could be made and we knew the Finns would make it. This Stirling centre fire rifle is technically superior to any yet produced and in addition has every worthwhile feature including — A fully free-floating barrel — Detachable box-type magazine — Mauser type action of extremely tough chrome molybdenum steel (R0952) with exclusive guide bar for smoothest, quietest operation — Fully adjustable single stage trigger — Barrels are of the famous Boefors steel and each rifle is inspected and tested for accuracy by a current world champion of target shooting. Most Finnish marksmen who have won world championships used Tikka rifles or barrels.

If you take pride in the accuracy of your rifle you'll get far more pleasure from a Tikka Stirling. Buy now! Don't miss out on the special introductory price — \$119 or with Nikko 1" Special with factory mounts — \$139.

LETTER TO THE EDITOR—LETTER TO THE EDITOR

Letter to the Editor . . .

October 10, 1968.

Dear Mr. Berry,

Someone finally broke Kevin Heywood's record! Austin Dorr of New Jersey ran 730 straight in one day during a 1,000-bird marathon in September. Isn't that a fantastic feat? He ended with 995 x 1000.

Thanks for your letter. Glad to hear our organizations are so alike.

Sincerely,

B. A. FOXWORTHY,

Editor,

1969 A.C.T.A. CHAMPIONSHIP ALLOCATION

The official allocation of championships for 1969 within the Australian Clay Target Association is as follows and is to be acted upon by all concerned.

Applications must be lodged on the prescribed form for consideration and approval of shooting dates.

The host clubs of the Interstate Teams' Matches both Trap and Skeet should give two months' notice to all shooters within their advertisements in A.C.T.A. Shooting News and such matches should be completed by 1st September.

A.C.T.A. NATIONAL CHAMPIONSHIPS AND THE INTERNATIONAL TEAMS' MATCH will be conducted at the Geelong Clay Target Club, Geelong, Victoria over the six days March 7 to 12 inclusive.

The Executive Committee are grateful to Messrs I.C.I.A.N.Z. Ltd. and Winchester Western (Australia) Pty. Ltd. for their offers of assistance towards the 1969 Interstate Teams' Match.

TRAP SHOOTING RULES

1. TRAP LAYOUT

A standard trap lay-out shall consist of five firing points arranged on the arc of a circle of radius 16 yards and whose centre is the trap, firing points to be 3 yards apart, numbered 1-5 from left to right when viewed from the firing points and facing the trap, with No. 3 firing point directly behind the trap.

A horizontal line joining No. 3 firing point and the trap and prolonged indefinitely will be known as the "Centre Line".

2. FIRING POINTS FOR HANDICAPS.

These firing points are situated at intervals of 1 yard from 12 to 27 yards behind the trap on lines from the trap extended through the firing points for standard trap lay-out. These firing points may be referred to as "Handicap Marks".

3. SHOOTING TRACKS.

This collection of firing points, forming a fan-shaped pattern, shall be known as the "Shooting Tracks" and on these, distances should be clearly marked to signify the forward limit of each firing point.

4. SHOOTING SQUARE.

When firing, the competitor's feet must be behind the firing mark assigned to him, and he must stand with both feet completely within a 3 ft. square; this square shall extend 18" either side of the centre of the shooting lane and shall extend backward 3 ft. from the assigned handicap mark.

5. TRAP HOUSES.

Trap houses shall be used to give full protection to the trappers. These houses shall be 3'3" high in front, tapering or sloping to 2'9" at the back, and shall be 6'0" from front to back, 8'0" wide. A tolerance of 3" either way is permissible on these dimensions. All height measurements shall be taken from the level of the centre line. The trap shall be mounted in a manner which will bring the top centre oscillation of the throwing arm 14" above the

level of the centre line. A tolerance of 1" either side of this dimension is permissible.

6. LEGAL TARGETS.

Targets, to be legal, whether single or doubles, shall be thrown out not less than 45 yards nor more than 55 yards (measured horizontally at trap level) with a flight of 9 feet above the centre line at a point 10 yards from the trap, with a margin of tolerance of not more than 18" above or below. Except in double target shooting, the flight of targets shall be at unknown angles, thrown within an area subtending an angle at the trap of 45 deg. right and left of the centre line.

7. As an aid in determining the legality of targets, where possible three pegs at least 3 ft. high are to be placed on the arc of a circle (known as the "Distance circle") of radius 50 yards and whose centre is the trap; one on the centre line—"the Central Peg"—and one other each 45 deg. to right and left of the centre line respectively. These two pegs will be known as the "Lateral Limit Pegs". Concrete blocks and measuring sticks for measuring target heights are to be standard equipment at all clubs.

8. LEGAL TARGETS — DOUBLE.

Each double shall be thrown as a right and left quarterer respectively into an area subtending an angle of 25 deg. at the trap; each area having as one boundary a line to the Lateral Limit Peg as defined, and as its other a line drawn 20 deg. to the right or left respectively of the centre line.

9. SERGEANT SYSTEM.

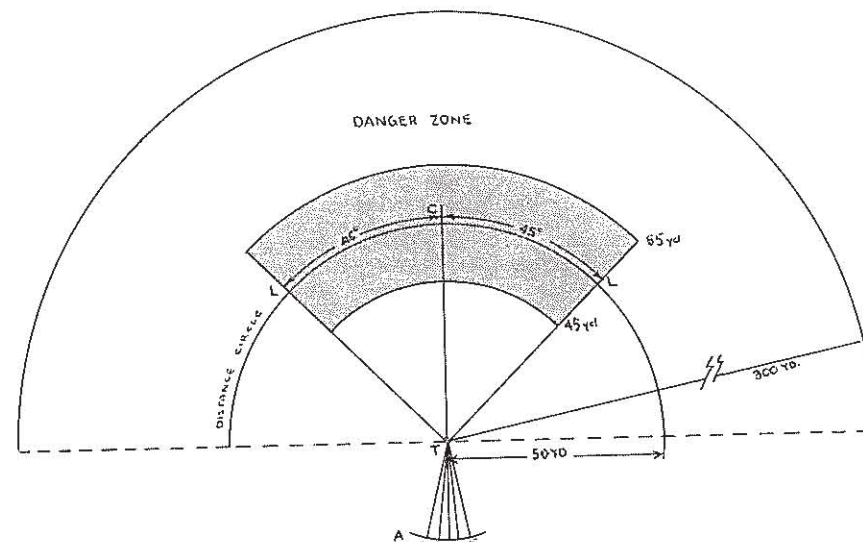

Five single traps, 5 yards apart, constitute the Sergeant System. The targets are thrown from unknown traps at unknown angles. Maximum throw of traps to be 55 yards, minimum 30 yards. Limit mark to be 16 yards, shot from centre track. In this and any multi-trap lay-out, the centre trap must be on the "Centre Line".

10. TARGETS.

No target shall measure more than four and five-sixteenths inches in diam., nor more than one and one-eighth (1½) inches in height.

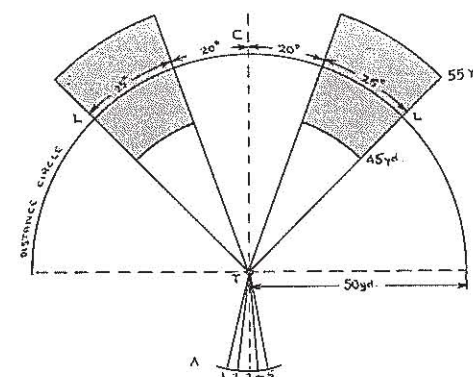

LEGAL TARGETS — SINGLE

TO BE THROWN IN SHADED AREAS

GUNS AND LOADS

11. MAGAZINE GUN.

The term "Magazine gun" applies alike to automatic guns, pump guns (so called) and other guns not directly dependent on hand loading and are permissible for clay target shooting.

12. No gun whose gauge is larger than 12 gauge is permitted.

13. For Championship events (Commonwealth, State, District) the load is limited to 1½ ounces struck measure or equivalent, shot size not larger than No. 6. Re-loads are permitted in all events except National Championships.

14. For Handicap events, load is restricted to 1½ ounces struck measure or equivalent, shot size not larger than No. 6.

15. CHALLENGE.

A competitor may challenge the load of any other competitor. On receipt of a written challenge, with \$2 forfeit, the Management shall obtain a cartridge from the challengee, and if after public

examination of it the Management finds the challengee has violated requirements, he may be disqualified or not accordingly as the offence was wilfully committed or otherwise. In case the challengee is wholly innocent the forfeit shall be paid to him, otherwise it shall be returned to the challenger. The Management of any club, or of any tournament has the power to examine any competitors' cartridges at their discretion, without involving themselves in any penalty.

OTHER SHOOTING

16. The Management of any Club holding a tournament or competition under these rules has the authority to reject any entry in the said tournament, or other competition without giving any reason, therefore, and to disqualify in whole or in part any competitor who acts in an ungentlemanly or disorderly manner, or who handles his gun dangerously.

COMPETITOR AND COMPETITION

17. Wheresoever the word "Competition" may be used in the following

rules, it is to be understood to refer to each particular event, and must at all times be construed by the Management in whose charge the carrying out of such "Competition" has been entrusted.

18. A competitor is one who has nominated for a particular event, and whose name appears on the official score sheets or score board. A competitor can compete only once in each event. Each competitor shall carry his Handicap and Registration Card at all shoots.

19. Every competitor entering competitions agrees to accept all official decisions, and to abide by the rules controlling the competition.

20. All competitors must be registered by the A.C.T.A. before taking part in competition. Unregistered competitors are not permitted to compete at any time. (Registered competitors who shoot at unregistered or unaffiliated Clubs render themselves liable to disqualification.)

21. Competitors must at all times use their correct names when entering a competition. Shooting nom-de-plumes are not permitted.

22. If a competitor withdraws or is disqualified from a competition, he forfeits all rights to resume.

23. The No. 1 shooter may request a target be thrown at his first and subsequent visit to each trap.

24. All clay targets — broken or otherwise — at all times remain the property of the club and not the competitor. The competitor only pays for the privilege of shooting.

25. Should darkness, bad weather, or other cause interfere with the competition the Management shall have the right to decide when and how the competition shall be continued, provided that this is not postponed longer than 14 days. Any competitor who defaults in respect of such postponed competition forfeits all his rights and standing therein.

26. Shooting for targets only, is a term which shall be held to define the status of a competitor in any given event, or events, or in an entire tournament programme, and shall signify that a competitor is "shooting for targets only"

and has no interest in any trophy or trophies, nor any interest in money or monies in any specific event or events or in the entire programme. The competitor's name shall be placed on the squad board, signifying that he is shooting for targets only. "Shooting for targets only" shall not be allowed at open shoots. Shooting for targets shall be permitted at normal Club shoots only, and then at the discretion of the Club.

27. Open shoots, that is Commonwealth, State and District Championships and open competitions (cases where more than \$100 is allotted for distribution in any one event), must have the approval of the A.C.T.A. before being advertised or conducted. (This rule applies both to the actual event and the proposed date of holding.)

28. A manual automatic or electric oscillating trap must be used at all open shoots.

SAFETY

29. A competitor shall hold his gun in a position of safety, with breech open at all times.

30. Shooting on the grounds at any place other than the firing point at legitimate targets only is prohibited except where a pattern plate is installed.

31. Holding the gun "Pistol" fashion, using one hand only, is barred. Any competitor acting in this way is to be warned against continuance — if continued, the competitor is to be disqualified from competition forthwith and the matter reported to the Executive Committee (Penalty, fine \$10).

32. When it is his turn to shoot, a competitor shall close his gun only when at the firing point and facing the traps. He must remove the cartridge or cartridges from his gun before turning from the firing point on No. 5 track and proceeding to No. 1 track. The cartridge or cartridges must be removed from any magazine gun between each track and not replaced until the competitors turn to shoot.

PROCEDURE

33. A competitor must be at the firing point within two minutes after having been called by the official referee, scorer or a member of the Club Man-

agement. Failing therein, he may be disqualified or penalised with loss of targets or may be re-squadded in the last squad at the discretion of the Club.

34. A competitor is duly notified to compete when his name is called out by the referee, scorer or other person authorised to do so by the management or when his name appears on the score board. If a "Squad hustler" is furnished it is a matter of courtesy only and does not in the least relieve the competitor from responsibility. It is the duty of each and every competitor to be promptly on hand to compete when called upon to do so.

35. When firing, the competitor's feet must be wholly within the limit of the correct Firing Square.

36. When at the firing point ready for competition, the competitor shall distinctly give the command "pull" to the puller and thereafter the competitor is in the competition.

37. Unless, in the opinion of the referee, it is contrary to the equity of the competition, a competitor taking part in a competition may shoot at pieces of his own target, if he so wishes.

38. No competitor shall make, negotiate, or discuss any bet (either on his own shooting or that of any competitor) while he is at the firing point or shooting tracks, nor shall he leave the firing point or the shooting tracks for the purpose of making, negotiating or discussing any bet. If any competitor infringes this rule, he may be disqualified by the referee.

HANDICAP SHOOTING

39. No competitor is permitted to shoot from other than his A.C.T.A. handicap except in graded shoots, which may be shot from 16 or 18 yards or a mark designated by the Club conducting the event. Trophies of equal value must be provided for place-getters in each handicap yardage group.

Other exceptions are Novelty events and Championships, and eye-openers preceding Championships, which may be shot from the same yardage as the Championships. Eye-openers are restricted to five targets per trap or ten targets when only one trap is used. All clubs are permitted to run one Pre-International shoot per annum, when Clubs at their discretion may shoot any

event from 16 yards. Such shoots must be held within 30 days prior to the advertised date of the commencement of the International programme. Prizes or trophies must not exceed \$200.00 value on any one event.

40. Club handicaps must not be less than Association Handicaps.

SQUADS

41. Competitors shall be in squads with a maximum of 6; where there are withdrawals from a squad or squads after the competition has begun, squads will be closed up before each run over any track. No. 1 competitor in each squad shall always start the shooting. The Club, at its discretion, may require competitors to change starting lanes on each trap as follows:— No. 1 Competitor shall commence shooting from Lane 1 on Trap No. 1, Lane 2 on Trap No. 2, Lane No. 3 on Trap No. 3, and so forth over all the traps. Preserving the continuity of lane changing on each visit to the traps. This rule shall also apply to Double-rise.

42. Managements have the right to divide the number of targets by the number of traps available, shooting 6, 7 and 8 targets per visit per trap. Illustration No. 1: 15 targets, 2 traps, 1 visit. No. 1 competitor shoots 8 targets on Trap No. 1, finishing on Lane 3. No. 1 competitor now starts on Lane No. 4 on Trap No. 2, and shoots 7 targets, finishing on Lane No. 5. Illustration No. 2: 30 targets, 5 traps. 6 targets per trap, one visit. Clubs must preserve equality by lane changing between traps.

43. All competitors in a squad automatically change lanes as soon as the next competitor has shot, and not wait until all competitors have shot. All members of a squad shall remain at the firing track until the last shot of the squad is fired.

SHOOTING UP

44. "Shooting up" after the first round of a competition is not permitted in any circumstances, except in the instance of competitors taking part in the Annual International Match.

REFEREE

45. To become a registered referee, a candidate shall approach his Club

Secretary and President, who (when they consider that the Candidate has achieved a satisfactory standard) shall recommend to the nearest REGISTERED REFEREE EXAMINER that the candidate be given a practical and oral examination. When the candidate has passed this examination to the Examiner's entire satisfaction the Examiner will then notify the A.C.T.A. Secretary, who will issue the official A.C.T.A. Referee Badge to the candidate and place his name on the official list of referees.

On receipt of a complaint from any affiliated club or Registered Referee Examiner, the members of the Executive of the State concerned shall investigate the complaint and if substantiated, the A.C.T.A. Secretary shall immediately recall the badge of the referee concerned and remove his name from the list of Registered referees. The same penalty may apply to any Registered referee who refuses to take his turn at refereeing at any shoot or is considered in any way to be incompetent.

46. The Referee's decision in all cases coming under his jurisdiction as set forth in these rules, shall be final. Referees should wear their official badges at all shoots.

47. The Referee, besides attending to special duties set forth in these rules, shall adjudicate the competition, he shall distinctly and loudly announce the result of each shot by calling out "Kill" when the target is broken, and "Lost" when the target is unbroken, except in Double Rise shooting and point scoring. He shall decide all other issues which arise in relation to the direct competition.

48. An assistant referee for Deauville Doubles and Double Rise competition is permitted and recommended. The Chief Referee to give his decision following the call of the assistant referee.

49. If the Referee is negligent, or inefficient, impairing thereby the equity of the competition, the Management may forthwith remove him. This rule applies also to scorers, pullers, trappers and any other of the staff.

50. The referee is empowered to challenge the ammunition used by any competitor.

51. The referee has power to alter his decision. If altering his decision on "Lost target" or "No target", "Baulk", etc., during a competition, this must be done within the period of the following 5 targets, or before the squad leaves the tracks.

52. The officiating referee, Executive member or the Management MUST adjust the trap immediately it is not throwing regulation targets. Immediately following such alteration a target must be thrown and the competition continued.

SCORER AND PULLER

53. The Scorer shall keep an accurate record of each shot. According to the referee's call "Kill" or "Lost". He shall mark the figure 1 for "Kill" or 0 for "Lost", for either single-barrel or double-barrel shooting. Double barrel denotes that 2 shots are allowed per target, each shot equal scoring value. Double barrel "points" denotes 3 points for a "Kill" on the first barrel, 2 points for a "Kill" on the second barrel, and no points for "Lost". These points scores will be called by the referee and scored by the scorer accordingly.

For Double-rise scoring, see rule No. 79.

54. The official score must be kept on a score sheet and be available for inspection by the competitor.

55. It shall be the responsibility of the competitor to check his score with the score sheet before leaving the shooting track. Any protest on his score must be lodged with the referee immediately, i.e. before leaving the shooting track. Such protest can only be made against incorrect score.

56. The Puller shall pull the trap, or traps, instantly in response to the competitor's call of "Pull".

57. The Puller shall have an uninterrupted view of the competitors at the firing points.

BROKEN TARGET

58. A "broken target" (kill) is one which has at least a visible piece or pieces, or the centre section broken from it, or which is completely reduced to dust, or which has a visible section from it, even when such section is

broken into dust by the competitor's shot while in the air.

59. A "dusted" target is one from which more or less dust is detached by the competitor's shot, but which shows no visible diminution in size therefrom. A dusted target is not a broken target and is a "Lost target".

NO TARGET

60. After "No target" has been called by the referee under any of the following conditions it thereafter plays no part in the competition and is irrelevant to it.

61. "No target" shall be called when a target is released without the call of "Pull" or at a material interval before or after the call of "Pull".

62. "No target" shall be declared when a broken target is released.

63. "No target" shall be called when, in single target shooting, two targets are released at the same time.

64. "No target" shall be called when a target does not conform to the definition of legal target as regards height, distance, or angle thrown (see Rules, 6, 8).

65. "No target" shall be called when a competitor shoots out of turn, or from the wrong track.

66. "No target" shall be called when two competitors, or a competitor and non-competitor shoot at the same time, at the same target.

67. "No target" shall be called when a misfire or malfunction in either barrel caused by the competitor's gun or misfire of the cartridge due to no neglect on the competitor's part. In the event of misfire of the second barrel the competitor must fire a live cartridge in the general direction of the target, and is permitted to score with the second barrel only. If the competitor accidentally breaks this target with the first barrel, "no target" shall be called and another thrown. If he again breaks this with the first barrel, "Lost target" shall be scored.

68. "No target" shall be called when a simultaneous or near simultaneous discharge occurs, i.e.: from any cause both barrels are discharged together or nearly together; after the second occurrence "Lost target" shall be declared.

69. "No target" shall be called when a round fired is sufficiently faulty as to leave an obstruction in the barrel or the cartridge is faulty in the opinion of the referee.

BAULK

70. Any extraneous occurrence which, in the opinion of the referee, materially interferes with the equity of the competitor after he calls "Pull" constitutes a baulk.

Under no circumstances will a baulk be granted unless claimed by the competitor immediately it occurs, or if, in the opinion of the referee, a baulk has occurred, he may restore the competitor's target.

LOST TARGET

71. "Lost target" shall be called when the competitor fails to break the target.

72. "Lost target" shall be called when the competitor fails to shoot because his gun is unloaded, or uncocked, or because the safety was faultily adjusted or jarred back whether from his own oversight or not, or because of any other cause chargeable to his own oversight or neglect.

73. A competitor having an apparent misfire or malfunction will forthwith call the referee for his decision, otherwise the referee shall declare it a "Lost target". The competitor must not turn around, must not open his gun and must keep his gun pointing in the direction of the traps until the referee has given his decision.

74. "Lost target" shall be called if in single-barrel shooting the competitor loads two cartridges into the gun. A competitor is allowed to load one cartridge only and is not permitted to load an empty shell or dummy cartridge.

75. "Lost target" shall be declared if a competitor shoots from his wrong handicap mark, or the competitor's stance violates Rule No. 35.

76. "Lost target" shall be declared on the third and subsequent misfire or malfunction of a gun in any one event.

77. "Lost target" shall be declared when over any one trap the competitor has a second or subsequent misfire with a cartridge which has already misfired once in the competition, or is using

reloaded cartridges which have misfired once in the competition.

78. "Lost target" shall be declared when a target is "dusted" (see Rule 59).

ABIDE BY RESULT

79. Should a gun misfire in the first barrel and the competitor fire the second barrel in such guns where this is physically possible, the competitor shall abide by the result. (Also see rules 90-91.)

BREAK RECOGNITION

80. The A.C.T.A. will recognise breaks in sequences of 50, 75, 100, 150, 200, and 250, and so on, providing same are shot over an automatic trap under double or single-barrel conditions and in regular competition on one day only excepting over two or more successive days. No practice between events is permitted and breaks must be continuous. To shoot in other than double or single-barrel events immediately concludes the break. Actual score sheets, clearly marked, showing where break occurred, must be produced to the A.C.T.A., together with the prescribed form and \$1.00 per badge, before recognition can be granted. Break badges, once they have been obtained, will not be repeated. "27 yard" badges will be available to those attaining this as their registered handicap.

OTHER TYPES OF SHOOTING

81. DOUBLE TARGETS.

Double-rise shooting may be off handicap marks or such marks as the Club may decide, except in the case of championships, and shall be scored and called by the referee, 1-1 or 0-1 or 0-0, whichever the case may be, each target to count as 1 point. In the event of a tie to be shot off, squad system first miss-out, best of each pair until finality.

82. The competitor must shoot at a complete pair of targets on every occasion, each "Kill" shall score (1) one point. Two barrels must not be fired at one target.

In the event of a misfire or malfunction on the first barrel the referee shall declare "no targets" and another pair thrown.

In the event of a misfire or malfunction on the second barrel the referee shall declare "No targets"; the result of the first shot shall be scored "1" or "0" as the case may be and another pair of targets thrown; the competitor must shoot at both targets and the result of his second shot shall be added to the score.

83. "No target" shall be declared when only one target is thrown.

84. "No target" shall be declared when both targets are not released simultaneously.

85. "No target" shall be declared when either or both targets do not conform to the definition of legal targets (see Rules 6 and 8).

86. "No target" shall be declared when a target is released without the call "Pull" or a material interval of time before or after the call of "Pull".

87. "No target" shall be called when a broken target is released.

88. "No target" shall be called when a simultaneous or near simultaneous discharge occurs, i.e.: when from any cause both barrels are discharged together or nearly together. (Refer Rule No. 68.)

89. "No target" shall be called when a round fired is sufficiently faulty as to leave an obstruction in the barrel—or the cartridge is faulty in the opinion of the referee (see Rule 69).

90. DEAUVILLE DOUBLES.

Deauville Doubles shall be shot with four competitors on the ground at one time, the first pair using tracks 1 and 5 and the second pair using tracks 2 and 4. After shooting first round of 5 pairs, competitors then change tracks, first pair taking tracks 2 and 4 and second pair taking tracks 1 and 5. Tie shoots shall be conducted first miss-out from tracks 2 and 4, one team at a time. The competitors may arrange between themselves which track they will take, and who will call for the release of the clay targets, which will be released on the call of "Pull". In the event of a false call by either competitor they must abide by the result. Only pairs will count, and 1 point. Either competitor can help his partner.

91. Any misfire or mechanical failure in Deauville Doubles does not entitle the competitors to another pair of targets and they must abide by the result.

92. WALK-UP.

Walk-up events shall be shot double barrel from No. 3 track, squad system. The competitor shall load his gun at the 22-yard mark; when ready in this position he commences to walk at a normal walking pace, holding his gun at any position of safety. The puller shall release the target between the 20-yard and 15-yard marks inclusive, the mark being unknown to the competitor, having previously been determined by an indicator or dice. No. 1 competitor shoots at one target, he then returns to the rear of the squad, each competitor doing the same in turn.

93. WALK-UP POSITION OF SAFETY.

A loaded gun shall be deemed to be in a position of safety when it is the competitor's turn to shoot and he faces and points the gun in the general direction of the trap house, having the gun either mounted on the shoulder or in the gun-down position.

94. TOWER.

Tower events shall be shot double barrel, both barrels equal value, 5 to 10 targets per competitor per visit to the tracks, squad system, competitors in a straight line left to right, with centre (No. 3) competitor standing 5 ft. in front on the centre of the tower. Whilst at the firing point the competitor must not turn towards the tower, but must face directly to the front throughout the competition.

The trap shall be 35'0" above the ground, plus or minus 30" either way, mounted on a tower. Targets shall be thrown at standard angles, i.e.: 45 deg. either side of the centre line. Targets shall be thrown a minimum of 45 yards and maximum of 65 yards.

SWEEPSTAKE DEDUCTION AND CASH DISTRIBUTION

95. Possible deduction from sweepstakes by clubs, in club contests, shall not be more than 50 per cent. (inclusive of targets).

96. No deduction is permitted by clubs in optional sweepstakes.

97. In all cash distribution handicaps or sweepstakes, the distribution shall be on the basis of 60% (1st), 30% (2nd) and 10% (3rd). A competitor scoring the only possible on an event wins only 60% first place. In these events division shall be compulsory unless the majority concerned agree otherwise.

TIES

98. Commonwealth, State and District Championships shall be shot off squad system, first miss-out. All competitors to commence on the same trap, competitors shall be squadded in the order they qualified. Competitors shall close up after each five targets per shooter, and be re-squadded as soon as it is practicable, i.e.: at the commencement of each run.

Double Rise. Squad system, first miss-out, best of each pair until finality as per rule No. 79.

Deauville Doubles. First miss-out shot from tracks 2 and 4 as per Rule 89.

Walk-up. To be shot squad system as per Rule 91, best of five targets until finality.

Mixed Birds. To be shot from No. 3 Lane, 2 double barrel, 2 single barrel, 2 walk-up, 2 pair double-rise. Total 10 points until finality.

HIGH GUN

99. The high gun for a shoot shall be over the advertised programme or such events as the club, at its discretion, has advertised. In the event of a tie for High Gun, where such programme includes both championship and handicap events, it shall be shot off squad system, first miss-out from handicap marks "double barrel". International Teams and State Teams High Gun excepted.

DUTIES OF OFFICIAL REFEREES AT ALL TOURNAMENTS

1. He must have complete knowledge of the Rules of the A.C.T.A. and shall adjudicate the competition at all times as set out by the management.
2. It is his responsibility to announce the conditions as set out in the Rules

for each event before the competition commences, also to displace shooters to their correct firing lanes.

3. As shooting proceeds he must observe that shooters are standing on their correct yardage, not shooting out of turn, handling their guns with safety, and using the correct shells as laid down for each individual event.
4. He must at all times observe that the trap is releasing regulation targets and may at any time challenge the heights or angles thrown.
5. The referee must distinctly and loudly announce the result of each shot and shall decide all other issues which arise in relation to the direct competition.
6. The referee must be efficient and alert at all times and it is most important that he should gain the confidence and respect of each and every competitor.

DUTIES OF A SHOOT MARSHAL ARE:

1. He must observe all the duties of the official referee.
2. He must be present at all shoot-offs.
3. He must see that all traps are checked for correct height and angles prior to shoot-off.
4. The shoot marshal shall be in charge of all operations and personnel including referees relating to the shoot and may be responsible only to the management.
5. He must instruct and roster the duties of all personnel prior to the commencement of each day's shooting.
6. At International Teams events he shall announce that teams photos be taken as instructed by the Executive Committee.

COMMONWEALTH WALK-UP CHAMPIONSHIP

The Championship shall be shot at 25 clay targets, double barrel, either barrel to be of equal scoring value and count as one point. The competitor shall load his gun on the 22 yard mark. When ready in this position he commences and continues to walk at a normal walking pace. To walk slow or shuffle constitutes a "no target". The puller will release the target between the 20 and 15 yards mark inclusive, the mark to be unknown to the competitor, being predetermined by an indicator or dice arrangement. The competitor will shoot at five or ten targets at each visit, in the order laid down in Rule 96. Each competitor shoots from centre track. Maximum Entrance fee to Championship \$5, opt. sweepstakes, to be divided, first 60 per cent., second 30 per cent., third 10 per cent. of sweep money received, without deduction, are permissible. The manage-

ment shall provide three trophies — 1st, 2nd and 3rd. In the event of ties, to be shot off in lots of five clay targets until finality. The management shall clearly indicate on the official score sheets and score board those who have entered for the optional sweep.

COMMONWEALTH DOUBLE-RISE CHAMPIONSHIP

The Championship shall be shot at 20 pairs of clay targets from 16 yards. Each competitor to shoot at five pairs at each visit, five tracks squad system, and score each kill as one point. In the event of ties, to be shot off squad system, first miss-out, best of each pair until finality. The management of club conducting Championship shall provide three trophies—1st, 2nd and 3rd. Maximum Entrance fee for Championship \$5, opt. sweepstakes, to be divided, first 60 per cent., second 30 per cent., third 10 per cent. of sweep money received, without deduction, are permissible. The management shall clearly indicate on the official score sheets and score board those who have entered for the optional sweep of five pairs.

COMMONWEALTH DEAUVILLE DOUBLES CHAMPIONSHIP

The Championship shall be shot from 24 yards at 20 pairs of doubles. The competitors will stand with four shooters on the ground at one time, the first pair of shooters using tracks one and five for the first round, changing over to tracks two and four for the second round. The second pair of shooters to alternate with first pair. The competitors can arrange between themselves which track they will take and who shall call for the release of the clay targets, which will be released on the call of Pull. In the event of a false call by either competitor they must abide by the result. Only pairs shall count, and as one point. Either shooter can help his partner after he has broken his own target. In the event of a misfire by either gun, another clay target or targets will not be given that competitor, and he is required to abide by the result. Each two competitors will shoot at five pairs at each visit. In the event of ties, to be shot off first

miss-out tracks 2 and 4. Maximum Entrance fee for Championship \$5 for each competitor, opt. sweepstakes, to be divided, 60 per cent. first pair, 30 per cent. second pair, 10 per cent. third pair from money received, without deduction, are permissible. The management shall clearly indicate on the official score sheets each pair that have entered the optional sweep. The management shall provide four trophies — two for 1st and two for 2nd.

A.C.T.A. HANDICAPPING FORMULA

As from January 1, 1969, the following Handicapping Formula, approved by the A.C.T.A. Executive Committee, is effective.

CASH OR TROPHY VALUE WINS and DIVISIONS (Obtained in ONE (1) Day)

- 12 yarder. Immediate movement of 1 yard back on receipt of a win of \$2, or division, or equivalent trophy value. (A 12 yarder once having left the mark mentioned cannot be returned to that mark.)
- 13 yarder. 1 yard back on winning \$4 or equivalent trophy value.
- 14 yarder. 1 yard back on winning \$7 or equivalent trophy value.
- 15 yarder. 1 yard back on winning \$10 or equivalent trophy value.
- 16 yarder. 1 yard back on winning \$13 or equivalent trophy value.
- 17 yarder. 1 yard back on winning \$15 or equivalent trophy value.
- 18 yarder. 1 yard back on winning \$17 or equivalent trophy value.
- 19 yarder. 1 yard back on winning \$19 or equivalent trophy value.
- 20 yarder. 1 yard back on winning \$20 or equivalent trophy value.
- 21 yarder. 1 yard back on winning \$22 or equivalent trophy value.
- 22 yarder. 1 yard back on winning \$24 or equivalent trophy value.
- 23 yarder. 1 yard back on winning \$26 or equivalent trophy value.
- 24 yarder. 1 yard back on winning \$28 or equivalent trophy value.
- 25 yarder. 1 yard back on winning \$30 or equivalent trophy value.
- 26 yarder. 1 yard back on winning \$32 or equivalent trophy value.

The following will apply to all yardages:

A win or division or equivalent trophy value of \$101 to \$300, 2 yards back.

A win or division or equivalent trophy value of \$301 to \$400, 3 yards back.

A win or division or equivalent trophy value of \$401 or more, 4 yards back.

In graded shoots the handicapping will be double the handicapping formula values. (Examples: 12 yarder—1 yard back on winning \$4 or equivalent trophy value; 16 yarder—1 yard back on winning \$26 or equivalent trophy value.)

OPTIONAL SWEEPSTAKE winnings and High-gun trophies should NOT be included.

Winners of championships or other events gained behind their A.C.T.A. Handicap automatically go back to the mark from which the win or division was obtained.

No shooter can be handicapped on a win or division gained in front of his A.C.T.A. handicap mark.

A shooter, once having attained the mark of 16 yards, on merit, cannot be handicapped in front of that mark again.

INWARD MOVEMENT

Shooters who compete and shoot right through four consecutive FULL DAILY PROGRAMMES, and receive no trophy or division of any description, may receive inward movement from Club Secretaries (except in case where the shooter concerned is the Secretary, then the President or Club handicapper) ONLY, for inward movement, if proof can be provided that the shooter is over-handicapped. Such recommendations must be accompanied by fullest details on the Official Handicap Return Form. No recommendations of more than one (1) yard on each recommendation, unless the shooter is suffering from some physical disability, will be accepted.

No shooter can come forward more than one yard in any six month period.

Recommendations from individuals or personal requests will not be entertained — by order of the Executive Committee.

GENERAL

Club Presidents and Secretaries are instructed that during any shoot, the management must immediately re-handicap each and every shooter who, for any of the reasons prescribed in the A.C.T.A. Handicapping Formula,

qualifies for backward movement off his handicap. Such adjustments are to strictly comply with the Formula. No shooter is to be permitted to compete in another event should he refuse to accept his new mark. Handicap cards and relevant details concerning on-the-spot adjustments are to be forwarded, within two days, to the A.C.T.A. official Handicapper for ratification. Should the shooter ignore his latest handicap, irrespective of mark shown in "News", he will be penalised a further yard if he shoots inside his latest handicap.

Only the Association Handicapper has authority to amend shooters' Handicap Cards. Cards should be posted direct to the Association for handicap amendment immediately such amendment is recommended (or notification appears in "News"), together with Handicap Return Form, clearly outlining the reason for the amendment of Handicap. Club managements will NOT alter a shooter's card.

Club managements have the right to re-handicap any obviously under-handicapped shooter immediately, providing the Association is notified within TWO DAYS and the reason given on a Handicap Return Form.

If these details are not completed, such handicap movement cannot be ratified.

Handicap Cards and all relevant details concerning on-the-spot adjustments, to be collected by the club Secretaries, are to be forwarded, within (2) days, to the Official Handicapper at the A.C.T.A. office for confirmation and notation.

Clubs when registering a shooter for the first time must clearly indicate whether the shooters is a complete novice gun handler, or has had field or other experience, before a 12-yard mark can be approved. Failure to provide this information will result in the shooter being placed on 16 yards.

No handicaps are assessed on Tower, Deauville Doubles, Double-Rise, Walk-Up and Mixed Birds. All other novelty contests to be handicapped in accordance with this Formula.

Club managements are informed that a Handicap Return must accompany every result sheet forwarded to the A.C.T.A. office within SEVEN DAYS of each shoot being held. (Handicap Return Forms are available on application to the A.C.T.A., Box 2038 S, G.P.O., Melbourne, 3001.)

A.C.T.A. Skeet Shooting Rules and Regulations

APPLICABLE AS FROM 1st JANUARY, 1969

SECTION I

FIELD LAYOUT—TARGETS

1. A Skeet field shall consist of eight shooting stations arranged on a segment of a circle of twenty-one (21) yards radius, with a base chord (exactly one hundred twenty (120) feet, nine (9) inches long), drawn six (6) yards from the centre of the circle. The centre of the circle is known as the target-crossing point and is marked by a stake.

Station 1 is located at the left end of the base chord, and Station 7 at the right end when facing the centre while standing on the periphery of the segment. Stations 2 to 6, inclusive, are located on the periphery at points equidistant from each other (the exact distance between Stations 1 and 2, 2 and 3, etc., is twenty-six (26) feet, eight and three-eighths (8 $\frac{3}{8}$) inches. Station 8 is located at the centre of the base chord.

Shooting Stations 1 to 7, inclusive, are a square area, 3 feet on a side, with two sides parallel to a radius of the circle drawn through the station marker. Shooting Station 8 is a rectangular area 3 feet wide by 6 feet long, with the long sides parallel to the base chord. The location of each shooting station shall be accurately designated by a suitable marker, not easily removable, not more than 30 inches high and so constructed as not to interfere with the free swing of a shooter standing on the shooting station. The marker for Shooting Stations 1 to 7, inclusive, is on the centre of the side nearest the target crossing point. The marker for Shooting Station 8 is on the centre point of the base chord.

A shield should be installed at the target opening of each traphouse so that the trap operator is not visible to the shooter when he is firing at Station 8. This precaution is desirable as a safety factor for the pro-

tection of the trap boy from possible injury from direct or ricocheting shot.

As a safety precaution there should be a barrier (wire or rope) located 7 to 10 yards behind the shooting stations 1 to 7, and roughly following the course of the semi-circle on which these stations are located. No spectators should be allowed within this barrier and the referee should be responsible for the enforcement of this rule.

One target should emerge from a traphouse (called High House) at a point three (3) feet beyond Station Marker 1 (measured along the base chord extended), and ten (10) feet above the ground level. The other should emerge from a traphouse (called Low House) at a point three (3) feet beyond the Station Marker 7 (measured along the base chord extended), and two and one-half (2 $\frac{1}{2}$) feet from the base chord extended (measured on side of target-crossing point), and three and one-half (3 $\frac{1}{2}$) feet above the ground.

Suitable markers shall be placed at points forty-four (44) yards and fifty-five (55) yards from both the High House and the Low House, to indicate the shooting boundary limit (44 yards). These distances shall be measured along a line and the flight of a regular target (55 yards) from the opening (where target emerges) in traphouse through the target-crossing point.

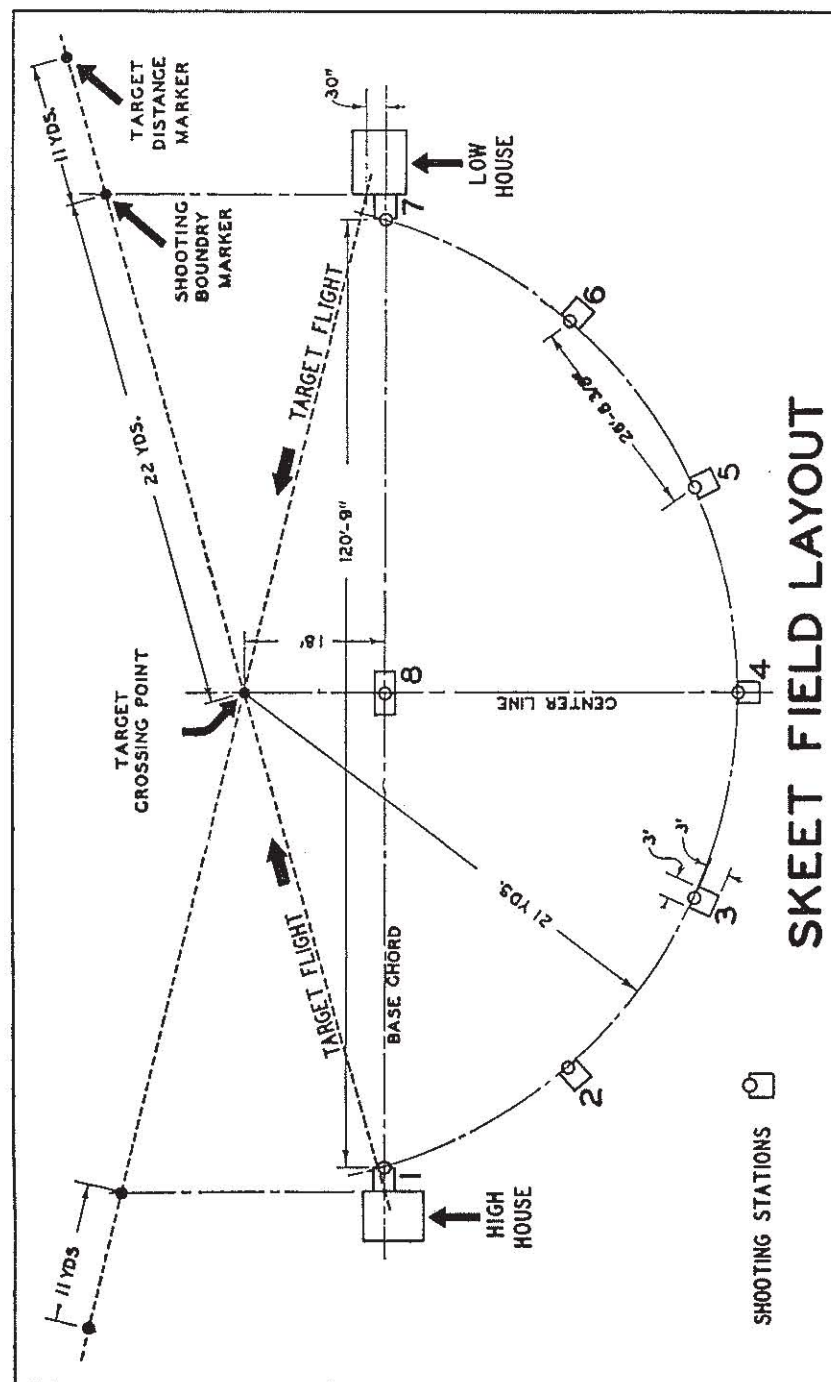

SECTION II

SHOOTING PROCEDURE

1. Definition of Terms.

(a) Shooting Position.

Standing with both feet entirely within the boundary of the shooting station.

(b) Gun Position.

Any position which is comfortable or satisfactory to the shooter and is consistent with safety.

(c) No Target.

(i) A No Target shall be called in the event of a mal-function or misfire at the second target when double loading.

(ii) Any target thrown for which no score is recorded, or failure of a target to be thrown within the prescribed time limit of one second. This permits the throwing of "instant" targets, but gives a short time period in order to prevent a contestant from refusing a target which does not appear immediately after his call. If a shooter fires upon a target which appears after one second has elapsed between his call and the emergence of the target, and also before the referee calls, "No Target", the result of his shot shall be scored. If he withholds his shot after such an alleged "slow pull," the referee may declare the target, "No Target", provided he, in his sole judgment, decides that the delay exceeded the one second time allowance. The pull is not required to be "instantaneous."

(d) Interference.

Any circumstance beyond the shooter's control which unduly affects his opportunity to break any particular target. The appearance of a target, or a piece of a target, from an adjoining field shall not be ruled as interference, unless such target, or piece of target, strikes or threatens to strike, the shooter or his gun, and provided that such interference occurs after the shooter has called for his target and before he fires upon it.

(e) Regular Target.

A regular target is one that appears after the shooter's call and within a period not to exceed one (1) second, and which passes within three (3) feet, horizontally or vertically, of a point fifteen (15) feet above the target-crossing point. This target, in still air, must carry to a distance equivalent, on level ground, to fifty-five (55) yards from the trap-house, but under no conditions exceed sixty-five (65) yards.

(f) Irregular Target.

(1) An unbroken target that has

not conformed to the definition of a regular target.

(2) Two targets thrown simultaneously in singles.

(3) Target thrown broken. Under no circumstances shall the result of firing upon a broken target be scored.

(g) Regular Double.

A regular target thrown from each traphouse simultaneously.

(h) Irregular Double.

Either or both targets of a double thrown as irregular targets. Only one target is thrown.

(i) Proof Double.

A repeat of a double.

(j) Shooting Bounds.

For Stations 1 to 7, inclusive, an area forty-four (44) yards in front of the traphouse from which the target is thrown. For Station 8, the distance from the traphouse to a point directly over a line with Stations 4, 8, and the target-crossing point.

(k) Baulk.

Failure to shoot at a regular target or double.

(l) Malfunction of Gun.

Failure of gun to operate or function through no fault of the shooter.

A gun doubling shall be considered a malfunction for the second shot.

The "fan-firing" of the second shell in doubles, caused by a shooter holding back the trigger after the firing of the first shot, shall be considered as the fault of the shooter and is not an allowable malfunction.

(m) Defective Ammunition.

Failure of ammunition to fire or function due to structural deficiency.

(n) Dead Target.

A target from which a visible piece is broken as a result of having been fired upon and seen by the referee.

(o) Lost Target.

A target from which no visible piece is broken as a result of having been fired upon.

(p) Doubles, First and Second Shot.

The first shot shall be the first shot fired. The second shot shall be the second shot fired.

(q) Optional Shot.

The shot fired after the first twenty-four targets have been scored dead in any one round.

(r) Shooting Procedure.

In shooting single Targets, except from No. 8 Station, a competitor may load two cartridges if he so desires, using one cartridge for each target.

2. General.

A normal skeet squad is composed of five shooters. The squad shall start shooting singles at Station 1 in the order in which the names appear on the score sheet, and shall proceed through the singles at stations as numbered, shooting the high-house target first and the low-house target second. Each shooter shall shoot at both targets before leaving the shooting station, except at Station 8, where each shooter shall shoot at a target from high traphouse before any member of the squad shoots at a target from low traphouse.

Doubles shall be fired upon at Stations 1, 2, 6, and 7 in that order, shooting the first shot at the target emerging from the nearest traphouse and the second shot at the target from the farthest traphouse. However, the shooter shall have the option of reversing the order of the first and second shot, in which case the referee must be notified before shooting. If a double is not completed before any reason beyond the control of the shooter, another double shall be fired upon, and is known as a proof double; except, however, if a shooter fires upon the first target of a regular double and fails to fire upon the second target because of the fault of the shooter, the result of the firing upon the first target shall be scored and the second target shall be scored "lost."

A round of Skeet for one person consists of twenty-five (25) shots, the object being to score the greatest number of dead targets. Twenty-four shots are fired as stated above. The first shot scored lost in any round shall be repeated immediately and the result scored as the twenty-fifth shot. Should the first shot lost occur in a double, the lost target shall be repeated as a single with the result of this shot scored as the twenty-fifth shot. If the first shot scored

"lost" should be the first target of an irregular double, then a proof regular double shall first be fired upon to determine the result of the second shot, and then the first target scored "lost" shall be repeated as a single and scored as the twenty-fifth shot.

Should the first twenty-four targets of a round be scored "dead," the shooter shall have the choice ("optional") of trap and station for this twenty-fifth shot.

In the interest of conserving time, the shoot management may elect to have shooters fire upon their doubles at Station 1 immediately following the shooting of singles at that post and follow the same procedure at Stations 2, 6 and 7. When this policy is adopted, shooters who have not missed a target after having fired upon doubles at Station 7 shall then take their optional shots at that station (7). The squad will finish out the round by shooting singles in the usual manner at Station 8. Taking the "optional" shot by all "straight" shooters while they are at Station 7 is intended to prevent confusion and cross traffic that would result in taking the twenty-fifth shot after finishing at Station 8. Clubs adopting this speed-up policy, in the interests of uniformity, require all squads to follow the same procedure.

All rounds shall be shot in a regular sequence of stations as follows:—

(Singles and doubles to be shot from one visit to the appropriate stations to speed things up.)

Station 1 = Singles, then Doubles
i.e. one single from High House = 1
followed by
one single from Low House = 1
THEN, without moving from the station, a target from each house is released simultaneously, constituting a pair — (these are the doubles, of which the HIGH HOUSE target must be shot first, unless otherwise requested by the shooter). = 2
= 4

Station 2 = Singles, then Doubles
= 1
(as for Station No. 1) = 1
= 2
= 4

Station 3 = a Single from the High House = 1
followed by
a Single from the Low House = 1
= 2

Station 4 = Singles as for Station No. 3 = 1
= 2

Station 5 = Singles as for Stations 3 and 4 = 1
= 1
= 2

Station 6 = Singles, then Doubles i.e. one single from High House followed by one single from Low House = 1
THEN, without moving from the station, a target from each house, constituting a pair, released simultaneously — (these are the doubles, of which the LOW HOUSE target must be shot first, unless otherwise requested by the shooter. NOTE: The target coming from behind the shooter in the pairs is shot first) = 2
= 4

Station 7 = Singles, then Doubles = 1
(as for Station No. 6) = 1
= 2
= 4

(Note: So far, shooters have had 22 targets, and if any shooter has not yet missed a target in this round (i.e. he has a clean score), he must now take his optional shot). = 1
(Note: All shooters have now had 23 targets.)

Station 8 = a Single from the High House = 1
(NOTE: At station 8, each shooter shall shoot at a target from the High House before any member of the squad shoots at a target from the Low House — this sequence is observed as a safety precaution.)
followed by
a Single from the Low House = 1
= 2
TOTAL TARGETS = 25

The first target missed during the round must be repeated immediately — (this counter-balances a clean scorer's optional shot on Station No. 7).

At the beginning of each round, when the squad is assembled at Station 1, the squad shall be entitled to observe one (1) regular target from each traphouse and shall have the option of observing one regular target after each irregular target, except where said irregular target was fired upon.

No member of a squad shall advance to the shooting station until it is his turn to shoot, and until the previous shooter has left the shooting station. No shooter shall order any target or shoot at any target except when it is his turn. The penalty for shooting out of turn without permission of the referee shall be to score all targets so fired upon as "lost."

No member of a squad, having shot from one station, shall proceed toward the next station in such a way as to interfere with another shooter. The penalty for wilful interference in this manner shall be disqualification from the event.

No shooter shall unduly delay a squad without good and sufficient reason in the judgment of the referee in charge of his squad. A shooter who persists in deliberately causing inexcusable delays after receiving a first warning from the referee shall be subject to disqualification from the event.

Broken Gun. When a gun breaks in such a manner so as to render it unusable, the shooter has the option of using another gun if such gun can be secured without delay, or dropping out of the squad until the gun is repaired and finishing the event at a later time when a vacancy occurs or after all other contestants have finished the event. Nothing shall prohibit the shooter from missing one round because of a broken gun, having the gun repaired and then rejoining the squad for all later rounds that the squad have not started. In that case the shooter will finish any or all rounds, starting with the shot where the breakdown occurred, that were not shot because of a broken gun, on the proper fields and in the first vacancy that may occur, or after the event has been finished by all other contestants.

Shooting Up. Where a shooter has entered but does not show up to start

an event with his squad, he will not be permitted to shoot up after the first man in the squad has fired the first shot at Station 2. He may join the squad for all later rounds, but the round missed because of lateness must be shot on the proper field in the first vacancy, or after all other contestants have finished.

3. Scoring.

(a) The score in any one round shall be the total number of "dead" targets.

(b) Targets declared "no target" shall not be scored.

(c) One "lost" target shall be scored on:

(1) A baulk or failure of gun to fire due to fault of shooter. Should this include both targets of a regular double, it shall be scored as first target lost, and a proof double shall be thrown to determine the result of the second shot only.

If a baulk should occur, or his gun fail to fire because of the shooter's fault, when a proof double is thrown and the result of the first shot has already been scored, the second target shall be scored as "lost".

(2) Each excessive malfunction or malfunctions of the gun.

(3) Doubles fired upon in reverse order without notifying referee of intention.

(4) Target broken after it is outside the shooting bounds.

(5) Each target fired at when shooter fires out of turn without permission of referee.

(6) Each target fired upon and allegedly missed because the shooter's gun had a bent barrel, or a bent compensator, or any other bent tube or accessory.

(d) No claim of irregularity shall be allowed, either on singles or doubles, where the target or targets were actually fired upon and the alleged irregularity consists of deviation from the prescribed line of flight, or because of an alleged "quick pull" or "slow pull", unless the referee has distinctly called "no target" prior to the firing of the shot in the event of the "quick pull", or prior to the emergence of the target from the trap-house in the event of a "slow pull". Otherwise, if the shooter fires, the result shall be scored.

4. Repeat of Target for Malfunction of Gun or Defective Ammunition.

Only two malfunctions of any one gun in the same round shall be allowable.

The third and all subsequent malfunctions of the same gun shall be excessive. Provided, however, that when more than one person is using the same gun in the same round, this rule shall apply to each of said persons separately.

A shot shall be repeated for each instance of defective ammunition. If a shell having once misfired is used again, and fails to fire, the result shall be considered a fault on the part of the shooter and scored "lost".

5. Double or Proof Double.

(a) (1) If the first target of a double is thrown irregular as deviation from the prescribed line of flight and is NOT shot at, a proof double shall determine the score for both shots whether the second target is fired upon or not. The score for both shots, whether the referee shall be the sole judge of irregularity.

(2) If the first target emerges broken, the double shall, in all cases, be declared "no bird" and a proof double shall be thrown to determine the result of both shots.

(3) If the shooter fires at the irregular target described in (1) above, then the result shall be scored for the first shot and the following rules pertaining to the second shall apply:

(b) In shooting doubles, if the shooter is deprived of a normal second shot because (1) the second target is thrown broken, or (2) the second target is thrown irregular as to deviation from the prescribed line of flight and is not shot at, or (3) the second target is not thrown at all, or (4) the second target is not thrown simultaneously, the result of the first shot shall be scored, and the second target only shall be declared "no bird" and a proof double shall be fired to determine the result of the second shot. If the shooter fires at the irregular target described in

(2) above the result shall be scored.

(c) If a double is thrown but the targets collide, before the result of the first target is determined, it shall be declared "no target", and the result of a proof double shall determine the score of both shots.

(d) If a double be thrown but the shooter is deprived of a normal second shot for any of the following reasons, the result of the first shot shall be scored, and the second target

only shall be declared "no target", and a proof double shall be fired to determine the result of the second shot only.

(1) Both targets are broken with the first shot.

(2) The wrong target is broken with first shot. (For proof double ruling, see par. F. below.)

(3) The first shot is lost and a collision occurs before the result of the second shot is determined.

(4) The second target collides with fragments of the first target, properly broken, before the result of the second target is determined.

(5) The result of the first shot is determined, and interference occurs before the second shot is fired.

(6) An allowable malfunction occurs on the second shot. If such malfunction is excessive, not allowable, the second target shall be scored "lost."

(e) If a double is thrown and an allowable malfunction occurs on the first shot, it shall be declared "no target", and the result of a proof double shall determine the score of both shots. If such malfunction is excessive, not allowable, the proof double shall be thrown to determine the result of the second shot only.

(f) There shall be no penalty for withholding the first shot when either target of a double is irregular. A proof double shall determine the score of both shots thereafter.

(g) In shooting a proof double after the first target (of a double) is "lost," if the shooter fires at, or breaks the wrong target first, said proof double shall be declared "no target"; but, if this same procedure is repeated at the same station by the same shooter, it shall be scored as both targets "lost." If, in such a proof double and the first target (of a double) is "dead," the shooter fires at, or breaks, the wrong target first, said proof double shall also be declared "no target"; but if the same procedure is repeated at the same station by the same shooter, it shall be scored as target; but if this same procedure is "lost."

SKEET CHAMPIONSHIPS. Conditions for all open skeet championships: Commonwealth, two rounds of 25 targets (= 50); State and District are one round of 25 targets. Maximum nomination in each event \$5, \$4, and \$3 respectively.

Skeet Tie Shoot Rules — Skeet Tie shoots shall be shot squad system, miss-out.

SKEET HANDICAPPING FORMULA

Skeet Shooting is single-barrel shooting and all consequent handicapping is defined as a method whereby each competitor has an equal chance of reaching the possible with his allotted handicap.

A skeet shooter with no past performance or handicap rating shoots for targets to acquire a handicap. He shoots at 25 targets which comprise a round of skeet.

On his first performance he shoots with no handicap at 25 targets and, say, breaks 18 targets — this 18 is now his basis for handicapping until

further scores are available. To ensure that he improves, THE KEY FIGURE OF 24 TARGETS (not the possible 25) is noted and the handicap allotted is the difference between this figure (24) and his average of 18 (i.e. 24 less 18 = 6). Thus handicap rating is now 6 whilst he is shooting the next event.

After he shoots his second skeet round both his first performance (18 targets) and his second performance (say he breaks 20 of 25 targets) are added together (18 + 20 = 38, resulting in an average of 19 targets). The difference between this average

of 19 and the KEY FIGURE OF 24 TARGETS gives his handicap for his next round of skeet as being 5.

After the third round of skeet an average is taken of the three performances of the shooter as described above and a handicap is awarded accordingly. The difference between this average and the KEY FIGURE OF 24 is now his handicap.

After four rounds of skeet have been shot (e.g. 18, 20, 17, 22), even if over a several-year period, during which the club keeps such records, discard the lowest of these four rounds (e.g. 17) and average the remaining 3 rounds to the nearest number of targets

$$(e.g. \frac{18 + 20 + 22}{3} = 20)$$

This average of 20, subtracted from the key figure of 24, produces the handicap of 4 targets for the next round of skeet.

After the fifth round of skeet, where, say, 19 of 25 targets are scored, the NORMAL SKEET HANDICAPPING FORMULA is now applicable, which is:—

Take the last four (4) rounds, each of 25 targets, and discard the lowest score. The remaining three (3) scores are averaged. Thus from the above example, scores were 18, 20, 17, 22, 19, from which the initial figure of 18 is eliminated and the lowest score (17) of the remaining four scores is discarded, leaving 20 + 22 + 19 = 61, of which the average is 20½. The nearest whole figure of 20 is the accepted average. Take this average of 20 from the KEY FIGURE of 24 to arrive at the handicap of 4 targets.

THIS IS THE PROCEDURE FOR ARRIVING AT THE HANDICAP OF A SKEET SHOOTER AND SUCH CALCULATED RESULTS MUST APPEAR ON THE CLUB HANDICAP RETURNS AS LODGED WITH THE A.C.T.A.

Once a shooter attains an average of 24 targets, from these calculations, then his handicap becomes NIL.

In Skeet Championship events, kills only are counted.

In Skeet Handicap events, kills and handicap targets (figures from the above formula) are added together to arrive at the total score. A Skeet possible can only be 25 targets.

NOTES:

1. Maximum skeet handicap is to be 10.
2. Once a shooter attains a skeet handicap of 3 or less, he cannot be handicapped forward of 3 unless there are unusual reasons.
3. Where no previous skeet handicap rating exists, clubs should handicap as follows:—

Current registered Trap (D.T.L.) Handicap	Maximum commencement Skeet handicap to be
20-27 yards	= 3
16-19 yards	= 5
12-15 yards	= 7
4. A Skeet handicap applies to every skeet round contested except in Skeet Championship shooting.

Skeet Sweepstakes:

The normal method in a Skeet Handicap is to divide the sweepstakes amongst those shooters attaining twenty-five killed (broken) targets, with handicaps included.

(example) Smith 25/25, Handicap 3, total = 25/25.
 Jones 22/25, Handicap 3, total = 25/25.
 Brown 19/25, Handicap 7, total = 25/25.

The same method is used on the very few occasions a half-round is shot.

Skeet Shoot-offs (Handicaps):

Where several competitors attain a possible with or without handicap and a shoot-off becomes necessary, the method of finding the winner is as follows:—

(a) Club Competition —

Put the finalists in squads in the order they qualify.

Halve their initial handicaps (some clubs reduce to a quarter handicap here). Shoot a half-round of twelve targets. Add the half-handicaps to scores off the gun. Those with a total of twelve or more targets qualify for a further half-round and so on till the event is finalized.

Where there are no shooters with a nil handicap in the shoot-off, a quicker method is as follows:— After halving the handicaps take the lowest handicapped shooter(s), put him back to nil and deduct the number of targets (taken away) from each of the others.

Half Handicap

(example) Smith 1 — 1 = 0
 Brown 3 — 1 = 2
 Jones 2 — 1 = 1
 Green 1 — 1 = 0
 Anderson 4 — 1 = 3

This leaves the competition quite fair, but usually shortens the time required to reach finality.

(b) Open Competition —

Shot first miss-out. Each shooter is allowed his allotted handicap and shoots at rounds of 25 targets until his allowed number of targets is used. Thus, a shooter on a nil handicap drops out after his first miss; a shooter with two targets drops out when his third miss is recorded, and so on to finality — unless a scratch marker is in the group, then reduce each shooter's handicap by the amount of the lowest marker in the group.

A half-round comprises twelve targets: Stations number 1 to 7 = one alternative target from each, starting with the high house; station number 8 = one target from the high house; double targets from stations 2 and 6 = TOTAL twelve targets.

DO NOT CLIMB DANGEROUS ASCENTS WITH A LOADED GUN.

OLYMPIC GAMES — MEXICO, 1968 —

As part of the traditional support given the Olympic Games movement in Australia by the Olympic Group of Companies, small results booklets have been produced and issued free since the 1936 Berlin Games. Also over 443,000 copies of the orange Mexico Games background information booklet were produced and distributed. At the 1968 Olympic Games in Mexico, no Australian shotgun shooters competed; however, in the Trap shooting, R. Braithwaite of Britain registered 198/200 for first place from R. Garagnani (Italy), second, and K. Wirnhier (West Germany), third.

In the Clay Pigeon (Skeet), E. Petrov of Russia registered 198/200 for first place from Laslo Hammerl of Hungary, second, and Ian Bellenger of New Zealand, third (with 597 points — no information available on the points scoring method).

In the Pentathlon, Donald McMiken of Australia won the shooting section with 195 shooting points—which equals 1,002 Pentathlon points — this is the world's highest score for this portion of the Pentathlon event.

Results of the other shooting events were:—

Free Pistol 50 metres (60 shots)

G. KOSYKH (Russia), 562/600 points = an Olympic record won from Heinz Mertel (West Germany), 562 points. Australian Barry Downs was 35th with 541 points.

Rapid Fire Pistol, 25 metres (60 shots)

J. ZAPEDSKI (Poland), 593/600 points = an Olympic record. Australian A. Taransky was 19th with 536 points.

Small Bore Rifle, 50 metres (3 positions) (40 shots prone, kneeling, standing)

B. KLINGER (West Germany), 1157/1200. Australian D. Tolhurst was 28th with 1136 points.

Small Bore Rifle, 50 metres — prone

J. KURKA (Czech.) 598/600. No Australian competitor.

Free Rifle, 300 metres — three positions

G. ANDERSON (U.S.A.), 1157/1200 points (Olympic and world record). He also won in 1964. No Australian competitor.

OPEN SEASON FOR . . . PROTECTED GAME SHOOTING THROUGHOUT THE COMMONWEALTH DURING 1969

Today, in all civilized countries, the taking of fauna is a controlled privilege, not an inherent right. Native fauna is at all times the property of the Crown and is (a) permanently protected, (b) protected or (c) pest fauna.

The sale of wild game is forbidden in most States and eggs must not be taken for any purpose.

Complete information is available from the various State departments as listed. Licences may be obtained from these addresses or from the various police stations.

Western Australia

Department of Fisheries and Fauna, 108 Adelaide Terrace, Perth.

Sporting shooters do not require licences to take unprotected fauna and fauna unprotected during an open season.

Note: Dates are unconfirmed and will not be set until early 1969.

Wild Ducks—

Probably the season may open throughout the South West and Eucla land division at 2.00 p.m. on January 25, 1969

Quail—

There are two open seasons for Stubble Quail, but all other species of quail are protected:

(a) In all that part of the State lying north of the 30th parallel the season commences each year on December 1 and closes on March 31.

(b) South of that parallel the season opens on March 1 of each year and closes on June 30.

South Australia

Dept. of Fisheries and Fauna Conservation, Box 901E, G.P.O., Adelaide. No person shall—

(a) shoot at animals or birds on any Sunday;

(b) have a gun in his possession on any Sunday for the purpose of shooting at animals or birds on that day.

(c) Traps, nets, snares, nooses are prohibited.

Gun licences cost \$2 annually to those over 18 years. A firearms licence for persons under 18 years must be obtained from a Police Station. Gun licences do not authorize persons to shoot without the consent of the owner or occupier.

Wild Duck — 4 a.m. Sat., Feb. 15, to 10 p.m. Sat., June 28. Bag limit 12 ducks per day. (Musk Duck, Bluebilled Duck and Freckled Duck must not be taken.)

Stubble Quail — 4 a.m. Sat., Feb. 15, to 10 a.m. Sat., June 28. Bag limit 25 daily.

Austn. (Japanese) Snipe — 6 a.m. Sat., Oct. 5, 1968 to 5 p.m. Sat., March 1, 1969. Note: Restrictions exist around Wellington on the Murray River.

Northern Territory

Animal Industry Branch, Northern Territory Administration, P.O. Box 291, Alice Springs.

All firearms must be declared at the nearest police station on entry into Northern Territory for licencing and/or registering.

Ducks and Geese (except Magpie Geese, Burdekin Ducks and Pigmy Geese) — open season in all of Northern

Territory, north of the 18th parallel of south latitude, from July 1 till October 31 annually.

Magpie Geese are protected in all of Northern Territory north of the 18th parallel of south latitude from January 1 to July 31 each year.

Buffalo are now protected over the entire Northern Territory and may be shot only under licence.

Other partly protected animal species may be taken after procurement of special licences.

Queensland

Dept. of Primary Industries, William Street, Brisbane, B7.

All islands are sanctuaries. Landholder's permission to shoot is required at all times.

An open season is NEVER declared for Green Pigmy Goose; White-quilled Pigmy Goose (Teal); White-headed Shelduck (Burdekin or Mangrove); Pied Goose (Magpie, Black-White); Black Swan; Blue-winged Shoveller (Spoonbill, Stinker); Chestnut Teal (Chestnut-breasted, Green-headed, Black, Mountain); Grey Teal (Wood, Slender); Musk Duck (Mould Goose).

Open season for Wild Duck and Quail are decided each year for fauna districts 1, 2 and 3. Intending shooters should make enquiries about the middle of the year.

General conditions relating to wild-duck shooting in Queensland are detailed in Advisory Leaflet No. 420 i.e. "Know your ducks" (with coloured photographs).

Tasmania

Animals and Birds Protection Board, 127 Bathurst Street, Hobart.

Note: Dates subject to confirmation.

FRANCHI

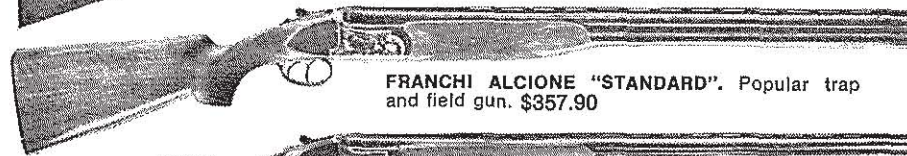

*points, shoots
faster than any other u/o in the world!*

Franchi barrels are made of Super Chrome-Molybdenum steel, so they're the lightest, strongest, smoothest in the world! Lightweight for beautiful balance (fast pointing!). Strength to withstand the most testing use. Mirror-smooth barrels resist rust, erosion, leading, fouling and wear. It also reduces pellet deformation to the absolute minimum. Add to this — automatic ejector system, selective trigger, superb engravings and checkered walnut finish and you can see why Franchi O/U's rate top place around the world.

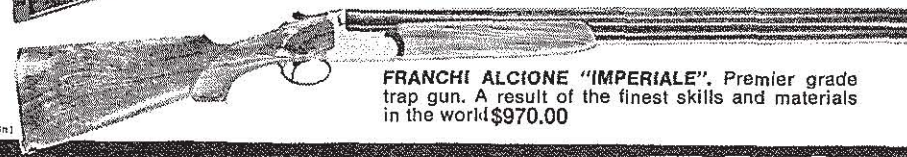

FRANCHI "FALCONET" NEW LIGHTWEIGHT MODEL. Game engravings both sides of receiver. \$332.40

FRANCHI ALCIONE "STANDARD". Popular trap and field gun. \$357.90

FRANCHI ALCIONE "TRAP". Competition trap load. 10 m.m. vent rib. Front and middle Ivory sights, recoil pad. \$460.00

FRANCHI ALCIONE "IMPERIALE". Premier grade trap gun. A result of the finest skills and materials in the world \$970.00

S.B. Sparrows C'ship: 1st, H. Wilder; 2nd, L. Venables; 3rd, B. Scanes; F/M., K. Turner. No. 4, 20-bird D.B. Ampol Shield (in conjunction \$125 Op. Sweep): Shield won by Queanbeyan Club; 1st, H. Wilder, B. Caldwell, G. Bookallil, M. Frazer, N. Nicholson. High Gun: H. Wilder. Intermediate High Gun: R. Coffey.

In the N.S.W. S.B. Sparrows C'ship H. Wilder, scoring 26 partly on our new electric trap, displayed accurate shooting. A very interesting shoot-off for third place between B. Scanes and A. Povey. However, B. Scanes emerged as third place-getter. Braidwood Club was successful in winning the Hay Jubilee Shield with a score of 69 out of a possible 75 points from two Queanbeyan teams, both on 68. However, Queanbeyan No. 3 team won the Ampol Shield with 92 out of a possible 100 from Queanbeyan No. 1. (Ross L. Britt, Hon. Sec.)

BINGARA (N.S.W.), 22/9/68—Weather conditions: fine and clear. Results: No. 1, 5-bird Sparrow D.B.: E. Redman, R. King, R. Scott, 5/5. No. 2, 10-bird Sparrow D.B. H'cap: R. Hobday, J. Durkin, J. Speaking of visitors, Don Corstorphane travelled up from the Colac district, Ron Dini came from Adelaide, R. Morris and J. P. McNamara of Cobar both managed to leave a little of their yardage behind. An old friend, always welcome, is Mark Doyle of Mildura, who very capably represented their club and enjoyed reviving old acquaintances. Incidentally, we extend our sincere thanks to the Mildura committee in foregoing this shooting date to our club, Mildura had intended conducting their President's shoot on this date, but due to an oversight on our part, both shoots were to be conducted simultaneously. However, Mildura recognised our plight, as we were in conjunction with the Silver City Festival, and gave our club the date. Thank you, Mildura.

Now to the results. Shooting was of the usual high quality, and in the first trophy event, the Silver City Festival, we saw our Cobar friend, Ross Morris, return and manage to keep our very consistent President, George Hoskins, that elusive one bird down when Ross came out the eventual winner. Another good friend from Menindee, Edwin Owen, showed a little of his true form by taking third trophy.

Next came our Silver City Festival D.B. C'ship. This resulted in a most popular win for Harold Mellowship, this being his first (certainly not last) championship sash. Friday was Harold's birthday and in this honour it was Bob Heuzenroeder's pleasure to present "the old trout" with an appropriate tie to celebrate the occasion. Ron Dini started well by taking out the second prize. A very happy third was Rick Lehman.

Our night event had a very excellent Winchester auto shotgun as first prize, for which donation we gratefully thank Winchester

Australia. This handsome prize is now under the proud ownership of our very good committee member, Arthur Langsford; Ron Wakefield one bird behind, and Ross Morris third.

In the last event Jack Vigar became the proud owner of the magnificent Winchester Centennial rifle. (We like to keep these in the family.) Our most important trophy for the programme went to Ron Wakefield.

Front-marker trophy winner, Darryl Smith, is a young shooter who is a new-comer to the sport. Broken Hill No. 2 teams dominated the Shield events and now have their names included on the Wyrama and Breda Shields.

High Gun: R. Ferrars, 50/50.

Three championship events attracted a good crowd and it was unfortunate that the eye-opener had to be cancelled because of a mechanical failure in one of the traps.

The S.B. results showed two shooting the possible, Bob Ferrars and Testa De Lorenzo. Testa won this one after a short shoot-off. The D.B. finished with 25 shooting off after scoring the possible. G. Farrar showed fine

form to win the event. The High Gun was won by Bob Ferrars after a shoot-off with Testa De Lorenzo. The 35 skeet shooters had a good day, but 34 of them had to acknowledge the superiority of Des O'Callaghan. (P. Joss, Hon. Sec.)

LILYDALE (V.), 28/9/68.—Weather conditions: strong, gusty winds. Attendance: 40. Results: No. 1, 10-bird Sparrows Pts.: B. Douglas, 23/30; L. Dingley, W. Lonie, 26/30. No. 2, Metro. S.B. Sparrows C'ship: 1st, W. Henwood, 23/25; 2nd, N. White, 22/25; 3rd, W. Lonie, 22/25; 12-24 yds., D. Brown, 9/20. No. 3, 20-bird D.B. H'cap: 1st, R. Allen, 45/45; 2nd, N. White, 44/45; 3rd, R. No. 5, 15-bird D.B. H'cap: A. Ferguson, G. Boswell, R. Madden, M. Landers, R. Green, W. Arandt, R. Allen, W. Greselle, V. Bidstrup, J. Stevens, R. Thornton, N. White, 15/15, div. No. 6, 25-bird Skeet H'cap: G. White, G. Carroll, R. Thornton, T. Wilkinson, W. Carlon, L. Patterson, M. Miller, N. White, M. Landers, W. Dalzell, 25/25.

Bill Dalzell won the Yarra Glen C'ship. Don Germaine won the Tyro C'ship by shooting the possible. Mick Miller, Bob Buchan and Bruce Roberts shot off for the Camberwell Skeet C'ship. On this occasion Mick proved the better shooter, and today he also notched up another 100 skeet break and is aiming for 150. Congrats., Mick.

Today's High Gun winner was committee-man Alex Ferguson, who shot 47/47 — the possible. (P. Joss, Hon. Sec.)

LISMORE (N.S.W.), 27/10/68.—Weather conditions: fine and hot, wind rising. Attendance: 17. Results: No. 1, 5-target Pts.: Dick Powell, K. Stanton, L. Frederiksen, Darcy Powell, G. Ethell, D. Mount, R. Shepherd, Bill Anderson, F. Hoskins, 15/15. No. 2, 10-target Pts. H'cap: D. Worrall, P. Powell, Darcy Powell, F. Hoskins, Dick Powell, 30/30. No. 3, 10-target D.B. (from 16 yds.): D. Worrall, P. Powell, G. Ethell, F. Hoskins, Darcy Powell, K. Stanton, Bill Anderson, Dick Powell, J. Bell, D. Mount, 10/10. No. 4, Club D.B. C'ship (20 birds D.B. from 16 yds.): 1st, L. Frederiksen, 48/48; 2nd, D. Mount, 47/48; 3rd, Darcy Powell, 37/38. No. 5, 10-target S.B. H'cap: P. Powell, K. de Saxe, D. Mount, 10/10. High Gun: Darcy Powell, 63/66.

Lloyd Frederiksen held off determined challenges from seven other shooters in the Club C'ship, and with 48/48, was only one of three to break 50 straight for the first time. Don Mount and Darcy Powell were

proud to fill 2nd and 3rd places, winning the attractive trophies donated by Fred Hoskins and Dick Powell.

A keen tussle for High Gun took place, with four shooters all down one target at the end of the programme. Darcy Powell, a veteran of many shoot-offs, took out the trophy from David Worrall, Don Mount and Paddy Powell. Geoff Pringle "went bad again" after accounting for about 400 flying foxes yesterday. (D. S. Worrall, Hon. Sec.)

MANNUM (S.A.), 6/10/68.—Weather conditions: fine, windy. Attendance: 21. Results: No. 1, 20 targets off H'cap: C. Maczkowiack, R. Kimber, 19/20; L. Holmes, K. Flaherty, R. Mules, 18/20. No. 2, Lower Murray S.B. C'ship: 1st, D. Brown, 20/20; 2nd, R. Mules, 18/20; 3rd, R. Kimber, 25/27. No. 3, 5 pr. D.R.: R. Mules, 8/10; R. Kimber, B. England, 7/10.

In the first event C. Maczkowiack shot well for 19/20, with R. Kimber also 19/20. In the Lower Murray S.B. C'ship, D. Brown scored 20/20. R. Mules taking second with 18/20. R. Kimber was third. (R. H. Pym, Hon. Sec.)

MARYBOROUGH (V.), 18/10/68.—Weather conditions: fine and warm. Attendance: 19. Results: No. 1, 5 birds: N. Cameron, H. Doran, P. Ross, G. Colman, N. Curnow, D. Robinson, N. Kouras. No. 2, 5-bird D.B. H'cap: D. Howden, K. Flett, equal 1st. No. 3, 10-bird Pts.: D. Howden, 1st; D. Robinson, 2nd.

The highlight of our October meeting was Don Howden taking off the double once more after a quick shoot-off with Don Robinson. Visitors from Huntly, Harcourt and Birchup Clubs. At long last Keith Flett cracked the jackpot after going close many times. (E. Wangeman, Hon. Sec.)

MENDOORAN (N.S.W.), 5/10/68.—Weather conditions: fine, windy. Results: No. 1, 5-bird D.B.: 1st, M. Yeo; 2nd, G. Estens; 3rd, M. Haddrell, W. Sesson, 5/5. No. 2, 5-bird S.B.: 1st, G. Estens, W. Sesson; 2nd, G. Blackman; 3rd, J. Doherty, 5/5. No. 3, 10-bird Pts.: M. Yeo, 30/30. No. 4, 15-bird D.B.: G. Estens, 19/19. No. 5, 6 pr. D.D.: 1st, F. Hudspeth-B. Collins; 2nd, G. Estens-R. Bartlett, 5/6. No. 6, 5 pr. D.R.: G. Blackman, 5/5.

W. Sesson won the 12-15 yd. High Gun. Geoff. Estens won the High Gun and the Rifle shoot. This makes three shooters in line to win the 222 rifle, so we should see an interesting shoot-off next month. (Michael Yeo, Sec.)

MENINDEE (N.S.W.), 15/9/68.—Weather conditions: fine. Attendance: 18. Results: No. 1, 5-bird D.B.: H. Mellowship, J. Cutting, C. Caon, S. Bruni, J. Caskey, L. Kolstad. No. 2, 10-bird D.B.: C. Caon, R. Caskey. No. 3, \$50 D.B. Cash H'cap: S. Bruni, R. Caskey, div. 1st and 2nd; R. Huez, J. Cutting, C. Caon, D. Smith, L. Kolstad, div. 3rd. No. 4, 10-bird D.B.: H. Mellowship; D. Smith, R. Warwick, L. Kolstad, R. Warren. No. 5, 15-bird D.B. Trophy: 1st, L. Kolstad, 34/34; 2nd, D. Smith, 33/34; 3rd, S. Bruni; F/M., C. Caon. No. 6, 6 prs. D.R.: W. A. Commons.

Our first shoot with an electric trap turned out very successfully and a decided improvement on the previous set-up. Club stalwart Lew Kolstad took out the Trophy event in fine style, with up-and-coming Darryl Smith second; third place went to S. Bruni. S. Bruni again figured in the prize list when

We've made our case!

THE
RECORD BREAKER!
FROM
ALL YARDAGES.

We've been prosecuting the most widespread development programme at Geelong and the verdict of our Ballistics experts and of test shooters is that we're guilty of having turned out a new Double A, the strength of which you've never seen before. We're so proud of it we've named it Winchester so you'll know it's the greatest.

Load with Double A's and be sure of top clay bustin' performance every time.

What's more, new Winchester Double A is a case you'll never want to dismiss (it's the most reloadable shell in Australia).

The defence rests. Now it's up to you. We know you'll pass a favourable verdict.
