Reports have been received of a different shooter at each of a mid-Victorian club and a south Queensland club — both shooters have walked onto the tracks or from track to track with closed guns. Both shooters also have been seen to stand with hands over the muzzle of a closed gun, whilst the gun butt is resting on the ground or a foot. To those whom the cap fits — we trust the mistakes are rectified, however, should further confirmed reports arrive, shooters shall be named by direction and Referees present asked for explanations.

AUSTRALIAN CLAY TARGET SHOOTING NEWS

The sport of clay target shooting has an excellent safety record at known registered clubs and it is our intention to keep that record. It is also the wish of the public at large and of the insurers that the examples are set and maintained within member clubs of this Association.

Any shooter may nominate and compete in his grade at any number of tournament locations but any one shooter is limited to one first trophy in each grade. The event is to be conducted off 16 yards as a graded event with Grade 1 — 21-27 yds, Grade 2 — 16-20 yds, Grade 3 — 12-15 yds. Three trophies are to be won in each of these three grades at each of the 18 locations.

● Continued Overleaf

September, 1970—1

Scores (long run breaks) achieved at each club in each State shall be compared and the highest recorded State Long Run Break shall be awarded a return air ticket to the 1971 Australian National Championships to be held at the Brisbane Gun Club, Queensland, during June, 1971.

These six State High Gun winners shall shoot as a squad, at the Brisbane Gun Club on Friday, June 11, 1971, at 100 targets, double barrel, kills to count, to establish the overall winner of the 1970-1971 Winchester Clay Target Tournament, using free Winchester shot shells. This squad of State winners shall probably be announced in May, 1971, A.C.T.A. "Shooting News," however, any shooter who has qualified but is not able to attend the final in Brisbane shall forfeit the right and the runner-up shall qualify.

**The International Clay Pigeon Shooting Council for Great Britain and Ireland** announced in its 36th Annual International Tournament Brochure for the 1970 series:—

#### **"Shooting and Scoring Conditions**

Single Rise: Two barrel shooting points scoring: Three points for a first-barrel kill and two points for a second-barrel kill.

#### **Classification of Competitors**

Class 'AA' — 94 per cent points and over.

Class 'A' — 90 per cent points and under 94 per cent.

Class 'B' — 85 per cent points and under 90 per cent.

Class 'C' — under 85 per cent points.

The averages to be compiled from the number of points made in registered shoots during 1969. Association Secretaries will supply to the organisers a list on these lines before the meeting and details will appear on the notice board.

When insufficient or no information about a shooter's record is available, the competitor concerned will be classified at the discretion of the International Council.

After the first day's shooting, classes may be revised at the Council's discretion."

[**Editor Comments**—As stated in item 10, page 4, of December, 1969, A.C.T.A. "Shooting News," — "The A.C.T.A. Trap Handicapping Formula is to continue in its present system for the next 12 months."

This existing handicapping method in use in Australia is good but, as all systems have problems and outgrow themselves, the current method is based on a shooter's luck on the day with trophy values as the deciding factor.

England and America have switched to a simple figure system based on a shooter's skill over a given number of targets — irrespective of the number of events and/or programmes concerned. Thus, any shooter, over a period, shoots himself into a grouping and this is true to life as M. (Pud) Burgess, Doug Smith, Newton Thomas are first raters and could be, say, "AA" grade. Others would be "A, B or C" grade.

It is as simple as that and would automatically satisfy all the long out-dated trophy value problems.

Similarly in, say, a prime event then "A, B and C" grade trophies could be issued.

Descriptions of the proposed system were contained in A.C.T.A. "Shooting News," October, 1969, page 5, and February, 1970, page 8.

The reference to points scoring is a matter of outgoing money cost to all shotgun shooters in that for double barrel events, lengthy shoots-off should quickly disappear if such a method of shoots-off, points scoring is adopted.]

Complete details of the Skeet section of the 1970 Winchester Tournament in Australia are listed on page 3 of this publication.

\* \* \*

The final section of the **International Teams' Match for 1971** will be held at Ashbourne near Dublin, Ireland, on Friday, July 23, 1971 and the conditions will be unchanged, that is, teams of 30, the 25 highest scores in each to count, each team member shooting at 100 targets, two barrels allowed, scoring 3 points for first barrel kill and 2 points for a second barrel kill. Highest possible score per team 7500 points. These conditions shall apply for the next five years, until 1975.

\* \* \*

Throughout the year each shooter and his subsequent amended handicap, if any, has been published, consequently by direction, a full list has not been repeated.

# TIPS AND TALES

**Alice Springs (NT)** — Should any shooter(s) be in the area, the NT State SB, DB and DR Championships shall be contested on Sunday, September 20.

**Quambatook (V)** — Office bearers elected for 1970/71 are President, N. J. Nalder; Snr. Vice-President, W. McGrath; Jnr. Vice-President, M. Reynolds; Treasurer, A. Richmond; Secretary, J. Wallis.

**Kerang (V)** — Office bearers elected at club rooms on 20/7/70, were President, F. James; Vice-President, W. Makeham; Jnr. Vice-President, R. Peacock; Hon. Secretary, B. Vincent; Shoot Secretary, D. James; Treasurer, A. Walker; Captain, W. Makeham.

With acknowledgments to "Trap and Feld," June, 1970, magazine of USA — "As a result of recent bombings and other terrorist tactics using explosives, President Richard M. Nixon, sent a message to Congress in March, requesting more strict regulation of explosives and increased penalties for resultant damage to property or persons.

At the present time, smokeless powders suitable only for use in shoulder arms are not included in existing Federal legislation. The existing explosive statute applies only where illegal use in acts of violence is concerned and does not interfere with normal purchases of smokeless powder."

However, reports are that (1) although smokeless powder can be provoked into exploding under extreme conditions, it is designed for use as a propellant in a limited way and not as an explosive. (2) no form of smokeless powder or propellant is listed as a class A explosive possessing, detonating or otherwise maximum hazard. "(3) it will burn very rapidly, if heated beyond a certain point, it is extremely difficult to cause it to explode violently in any way other than in a firearm. This makes it a distinctly poor choice for improvised bombs."

"Under this proposed (USA) legislation, reloaders would be seriously hampered in pursuit of their hobby by measures such as registration, fingerprinting, proving a "need" for the product, being allowed to possess only a very small quantity of shotgun powder at one time, etc."

**Echuca (V)** — Secretary now is G. Shawcross.

**Inverell (NSW)** — Secretary now is B. Allen.

Correction to Tips and Tales, July, 1970, publication

— office bearers under Toowoomba G.C. were misquoted by similar address supplied. Correct information is Toowoomba G.C. office bearers are President, W. F. Hull; Secretary-Treasurer, G. McKean. Warwick G.C. are reforming and are yet to appoint a club delegate to complete club membership documentary requirements.

**Kavieng (New Ireland)** — Secretary, Mrs D. Hodge, reports "shipping delays and goods being off-loaded at the wrong ports" — however, "the trap-house is completed and the grounds are ready for the grass to be laid. The club grounds are right on the beach about 6 miles from Kavieng. First trophy shoot was on June 27, donated by Burns Philp (N.G.) Limited. Mrs J. Stanfield and Mr B. Lowry (Winchester Representative) won the Deauville Doubles, second were Mr T. Hodge and Mrs D. Grosser. Mr Lowry kindly donated his winning share of the trophy to the unlucky shooters. Club plans to shoot 4th weekend of every month.

**Maryborough (V)** — have settled into their new facilities at Eddington Road, Dunolly, and their trap should be fully occupied for their August 22, Golden Wattle Festival Championship shoot. For this they hope to have the new clubhouse built.

**Bendigo (V)** — have amended the shoot date of the Victorian State Intermediate Single Barrel Championship to Saturday, September 19 — new grounds, 3 miles from Eaglehawk at Woodvale on Raywood Road.

**Finley (NSW)** — now shoot fourth Sunday monthly. Next shoot September 27.

**Personal** — Fred Burns of Victoria, winner of several hundred trapshooting championships, is only just recommencing shooting after a 7 months absence with "overworked arms and joints with elbow pads worn out. New drugs are dispersing the trouble and rejuvenating his muscles."

**Puckapunyal (V)** — office bearers as at 25/7/70, President, W.O. R. Mackenzie; Treasurer, Maj. Tom Bratten; Shoot President, W.O. Larry Symons; Treasurer, Capt. Ian Brookes. New Winchester electric trap being installed. Club shooting calendar available shortly.

AUSTRALIAN CLAY TARGET SHOOTING NEWS

The International Clay Pigeon Shooting Trophy for Perpetual International Competition was presented by the late Donald Mackintosh, Esq., of Melbourne, Australia.

Competing countries are England, Scotland, Wales, Ireland, Rhodesia, South Africa, Canada, New Zealand and Australia.

# 24th International Teams' Match for the Mackintosh Trophy

The final section of this prized event for 1970 was conducted at Warwick, England, on July 18, after all contesting countries had lodged their sealed scores by mail.

In attendance representing Australia was Perth Gun Club, Immediate Past President, Jules Steiner, who for 1970, is also an Honorary Vice-President of the Australian Clay Target Association.

We congratulate our fellow "down-under" shooters from New Zealand who shot the winning score at Christchurch on April 11. By kind courtesy of Mr W. H. Stewart, Secretary of the New Zealand Gun Clubs' Association, we are able to publish the New Zealand International Team scores for 1970.

Mr Stewart has just completed a private holiday in Australia, commencing with a complimentary flight by Air New Zealand into the newly opened Tullamarine International Airport, some nine miles out of Melbourne, Victoria.

Actual scores of the Australian International Team are also shown.

Team results of this 1970 match for the Mackintosh Trophy in order of placing were:—

New Zealand	7304/7500
Canada	7245/7500

Australia	7213/7500
South Africa	7193/7500
England	7171/7500
Scotland	7021/7500
Wales	7007/7500
Ireland	6901/7500

Australia had won this prestige event nine times in the twelve years to 1969 and although varying methods of scoring have been used, the 1969 Australian figure of 7414/7500 points for this 30 member 100 target event has been the highest score to date.

The Australian Team for 1970 was selected from a group who had much lower scores than in other years. This was indicated by the changed attendance and lack of some ten or fifteen top shooters who normally attend the nationals and who by their consistent shooting, keep the events at a constant high pitch. The dryness of the moat in front of the line of traps at Perth was described, at the time, as providing a lower airspace in the heat, causing eddies to rise and flutter the initial flight of some targets.

However, New Zealand and Canada soared up to the top two placings on their merits and have our heartiest congratulations.

# BURST GUNS

~~~~~  
by  
Mr Ian Cook, Works Manager of  
Ammunition Factory, IMI Australia Ltd.  
~~~~~

One of the most frightening things that can be experienced by a shooter is to have a gun burst when he fires it. Such an event is always accompanied by a loud bang, invariably it is quite unexpected and invariably the shooter will suffer, to put it mildly, a very bad fright.

When he recovers from the initial shock and has established that he is sound in wind and limb (fortunately rarely does permanent physical damage occur to the shooter) he inspects his gun which, at the least, will be badly damaged and the natural reaction is to find someone to pay for the damage. As I will explain later, 95% of bursts are due to shooter negligence or error, so his chances of recovering any damages are fairly slim and under these circumstances it is therefore advisable for all shooters to know why a gun bursts and what he can do to prevent it.

The first thing to recognise is that all guns — and rifles — have an innate tendency to burst and can be provoked into bursting by quite a simple error or act of negligence.

## *Why do guns burst?*

Guns burst for two very good reasons — excessive pressure and defects in the barrel or action.

Excessive pressure can be generated by—

- (a) an incorrectly loaded cartridge; or
- (b) an obstruction in the barrel.

Defects in the barrel or action are caused by incorrect manufacturing methods and can generally only

be detected by a skilled metallurgist after the event occurs.

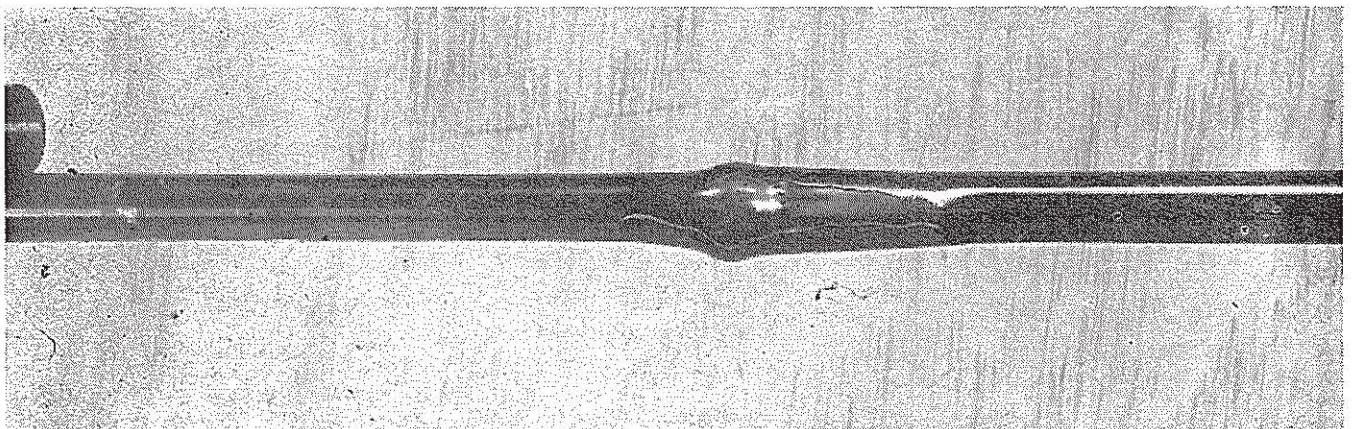

Excessive pressure caused by incorrect loading normally occurs only in hand loaded cartridges. They seldom occur in cartridges loaded by reputable manufacturers because of the stringent quality control procedures followed by such manufacturers. These procedures prevent the loading of double powder charges, an overloading of shot, or an incorrect combination of powder and primer.

If the burst is due to an extremely high pressure, the burst will always be in the region of the chamber and, providing the metal shows no sign of a flaw or ring bulge, the cause can be fairly and squarely attributed to a high pressure cartridge.

Obstructions in the barrel can be caused by innumerable objects, such as—

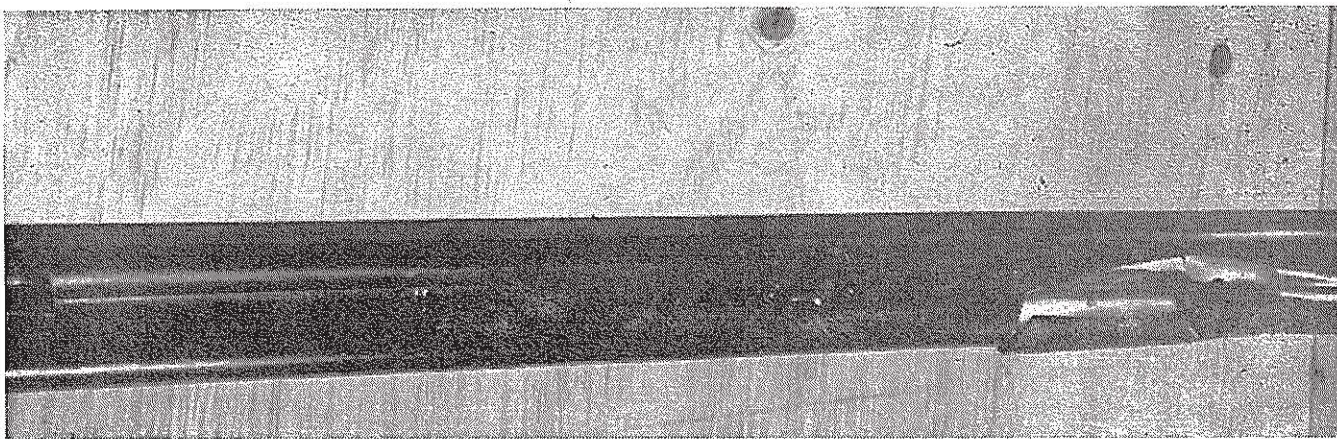

- (a) a 20G cartridge being loaded into a 12G gun;
- (b) faulty cartridges;
- (c) mud in the barrel;
- (d) cleaning brushes and swabs.

The first cause mentioned above occurs when a shooter using a 12G gun has some 20G cartridges mixed in with the 12G cartridges in a packet, or in the pocket of his shooting jacket. After firing his gun and ejecting the cartridge case he takes a 20G cartridge from his pocket and loads it into the gun. On attempting to fire the gun he gets a "misfire." It is an unfortu-

This is an illustration of a classic obstructive burst in the barrel of a semi-automatic shotgun. The ring bulge is quite obvious and is typical of an obstructive burst.

An illustration of a burst in a side by side shotgun, about 6 ins. from the muzzle. Although the ring bulge is not obvious the burst must have been caused by an obstruction.

nate fact that the rim of a 20G cartridge is the right size to allow the cartridge to "hang up" in the "lead" of the chamber. Thus when he opens the gun to see why he got a "misfire," the shooter can't see the 20G cartridge and inserts a 12G cartridge into the chamber. On firing the gun, the firing of the 12G cartridge invariably also fires the 20G cartridge and their combined pressure produces a burst barrel. The centre of the burst in this instance will be about five to six inches from the breech.

For this reason it is extremely important that a shooter should never store 12G and 20G cartridges in one container, be it pocket, packet or anything else. The result is quite predictable and equally quite easy to avoid.

The other three causes of bursts are called obstructive bursts, but before discussing each one in detail it may be wise to describe the effect of an obstruction.

When a cartridge is fired, the shot charge is propelled down the barrel by gases which are expanding rapidly. If the shot charge meets an obstruction, these expanding gases "pile up" behind the obstruction, causing a highly localised wave pressure which can only expand radially. Depending on the magnitude of the pressure developed, the barrel will tend to bulge. If the pressure is such that the material is stretched beyond its yield point, a permanent set in the form of a ring bulge will result. If the pressure is even higher, the material will be stretched beyond its elastic limit and a burst will result. In both events a ring bulge will occur and this is *prima facie* evidence that the cause was an obstruction.

I will now explain in detail the various causes of an obstructive burst.

## 1. Faulty cartridges

It is possible, for a variety of reasons such as a weak cap, low powder charge, tilted wads, damaged wads, for a weak cartridge to be made. Although, for the reasons stated earlier, this is most unlikely to occur in factory loaded cartridges, it can occur with in-

experienced reloaders. However, I should point out that it is not unknown for the very odd factory cartridge to be defective in some way. The effect of these defects is to produce a very low pressure, which does not eject the wads from the barrel. The wads will lodge in the barrel, somewhere between the breech and the muzzle and create an obstruction. This is always accompanied by a report which is weaker than normal and if the shooter hears a weak report he should always look through the barrel to make sure it is clear of obstructions before firing another cartridge.

## 2. Mud in the barrel

This normally occurs when a gun is dropped in the edge of a creek, used as a "poker" to try to find a shot bird or a rabbit, etc. The end result will, at the best, be a ring bulge and at the worst a burst.

## 3. Cleaning brushes and swabs

It is not unknown for a cleaning brush or swab to be left in a barrel, due to carelessness on the part of the shooter, or perhaps because he was interrupted in the process of cleaning the gun. The effect will depend on the type of brush or swab used, but an obstruction certainly will be created and damage will occur if a cartridge is fired without the obstruction being removed.

## *How to avoid bursts and bulges*

Statistics show that about 95% of bursts and bulges are caused by obstructions of one sort or another and these can all be avoided if the shooter takes proper care. The points to observe are listed below:

- (1) Before you fire the first shot of the day, check to see that the barrel is clear of obstructions.
- (2) If you experience a weak report, check to make sure that nothing has been left in the barrel.
- (3) If you drop the gun into mud, or it drops muzzle first into dirt, or has been used as a "poker" in a rabbit burrow, check for obstructions before firing.

(This Boomerang Shield was donated by G. A. Edwards and family of Finley in 1967, for perpetual competition by any group of five shooters from any affiliated club(s). The five shooters shoot as a squad each at 20 targets, total 100 targets. Winning squad retains shield but are required to submit to further such competition as soon as possible at a club of their choice. Shield must return to Finley for competition once annually. This is a most popular event on any programme but as yet no squad has the five bottles of champagne for 100/100.)

Some shooters travelled up to nine hundred miles to attend this Annual Shoot. Sunday's conditions were very bad for both shooters and spectators alike. John Gibson of Kelly's Creek Club took the first Queensland Continental Night Championship with 27/30. The Queensland DD Championship was won, for the second year in succession, by the Condamine shooters R. Britton and C. Alexander. A long shoot-off on Saturday morning helped give local shooter Jack Rodgers his 100 Break.

The running of the shoot went smoothly under captain Ian Brown and Bill Lewis kept the shooters supplied with refreshments for the weekend. The Girl Guides again provided our meals and we are sure none would have gone away hungry!

A very good attendance of shooters from all Western District Clubs. A fine performance from Noel Davis to win the Club Championship with 110 straight. Barry Wembridge with 109 and Les Reicha 103 filled the minor places. Also congratulations to N. Wenning from Geelong for his 75 break.

(C. R. Fletcher, Hon. Sec.)

The weather looked very threatening but cleared away to bright sunshine.

AUSTRALIAN CLAY TARGET SHOOTING NEWS

This possibly contributed to the poor attendance of shooters from other clubs. Only 17 shooters from Seymour, Mansfield and Kyabram competed.

Popular shooter Les Shallard was on the ball, taking out the main trophy event.

(R. J. Barns, Hon. Sec.)

**FOSTER, 11/7/70.**—Weather conditions: Terribly wet and cold. Attendance: 12. Results: No. 1—10-tgt. Pts. Decision: 30/30, Mal. Kenny, E. Cripps; 29/30, M. Kenny. No. 2—10-tgt. SB: 10/10, J. High Gun over first three events: 1st, J. Green, 29/30; 2nd, M. Cripps, 32/33; 3rd, T. McGaw, 31/33. No. 4—10-tgt. DB Sweep C/D: 10/10, M. Cripps, Mal. Kenny, J. Green.

Attendance very disappointing. As we put on very valuable trophies, with the result that we do not clear ourselves. Many small clubs feel the same way.

Congratulations to J. Green, Korumburra, on his win of the High Gun; also Mal. Kenny, who shot excellently for a young shooter. We will see big results from him in the near future.

(Dorothy Cripps, Hon. Sec.)

**FRANKSTON, 11/7/70.**—Weather conditions: Fine. Attendance: 32 (below average). Results: No. 1—10-tgt. DB H'cap Pts. C/D: I. Murray-J. Paul div. 1st and 2nd; B. Knight-J. Jenkins, N. Cross-H. Retallick-R. Miller div. 3rd. No. 2—20-tgt. DB H'cap: 1st, L. Swain; 2nd, J. Jenkins; 3rd, G. Ellis. No. 3—10-tgt. Crazy Quail: F. Buchan, T. Delorenza, N. Delorenza, Snr., divided.

An attendance of 32 was below average on Saturday, July 11, when handicap events were held. Ian Murray and Jim Paul shot well to divide 1st and 2nd in E/O. The main event, a DB H'cap, was won by Lloyd Swain, 27/27, from Jack Jenkins, 26/27, with Graham Ellis, 22/23, third. The Crazy Quail was divided by three dyed-in-the-wool shooters, Fred Buchan, Tista De Lorenzo and Norm De Lorenzo, Snr. A feature of the day was the number of young shooters, some for the first time trying the sport of trap shooting.

(C. D. Wilson, Hon. Sec.)

**FRANKSTON, 26/7/70.**—Weather conditions: Fine. Attendance: 62. Results: No. 1—20-tgt. D/R District C'ship: 1st, W. Stone; 2nd, W. Attwood; 3rd, J. Henwood. No. 2—20-tgt. DB H'cap: 1st, D. Bruce; 2nd, L. Crockford; 3rd, N. Miller. No. 3—10-tgt. SB, 16 Yds. (unscheduled): R. Allen, L. Heywood and H. Somers divided.

Back markers well to the fore as is always evident in this type of D/R event. Won by W. Stone from W. Attwood and J. Henwood.

A feature of the day was the number of young and first attempt shooters in attendance.

The tower has now been placed in position and in the near future shooters will have another phase of trap shooting to enjoy.

(C. D. Wilson, Hon. Sec.)

**GEELONG, 10/7/70.**—Weather conditions: Cool. Attendance: 23. Results: No. 1—5-tgt. EO H'cap: Seven shooters divided. No. 2—20-tgt. Trophy H'cap: D. Munro, 22/22; M. Sutherland, 21/22; B. Wembridge, 20/21. No. 3—Novelty D/Doubles: I. Dickins and J. Hawke, 11/11.

#### Editor's Note on Winchester Traps

[Editor's comment: The words "free arm" are local Geelong (Vic.) usage. Briefly, this is Winchester Model 1581A Modified International Trap. Winchester have several types of traps of which the leader is the Western White Flyer, Model 1524A — instantaneous, push-button, random release and since 1955, 53 of these traps have been throwing 2,000,000 targets during the nine-day Grand American shoot. This trap can be modified by Winchester to style 1579A to give the ability to throw vertical angles for simulated International style shooting. Shooters are unable to anticipate the horizontal or vertical angle of flight. A simple adjustment permits the vertical movement assembly to be easily disconnected and connected again in the field, offering the capability of throwing targets for either regulation trap or simulated International trap shooting. A further modification is the same basic trap to the 1581 A which is a further dimension to trap shooting and eliminates long shoot-off. Trap 1581A oscillates from side to side and also upwards to 60 degrees and down to a grass-cutter level of three feet above the ground. This really is simulated field shooting which shooters are unable to read or anticipate. Winchester Australia Pty. Ltd. have a loan model 1581A trap on circuit to a number of requesting clubs—Geelong (Vic.) early July, Wagga (NSW) end July, Queanbeyan (NSW) all August, thence to several others.]

Pederson came 2nd and M. Logan 3rd. In the Handicap events J. Green shot well and had possibles in all events. The Red Cross Cake was ably won by Clyde Wright, who shot well from the back marks.

Thirty-two shooters shot in the Tower C'ship and fifteen shot the possible. Tower is very popular now as the attendance was very good for such a shocking night. After most had arrived the rain blew away and the good scores were the result.

(J. Platten, Hon. Sec.)

**VICTORIAN, 15/7/70.**—Weather conditions: Cold, windy night. Attendance: 34. Results: No. 1—Footscray DB Mini ST C'ship: 1st, D. Trembath, 19/20; 2nd, R. Evans, 27/29; 3rd, G. White, 26/29; F/M: T. The State Night Tower C'ship was contested by 41 shooters and ten possibles shows just how popular Tower shooting has become.

Ray Morrison, very consistent as usual, out-shot Ray Burrill, the Tower expert. Ray Lowry, very promising form by this shooter the past few weeks and his third in this event was a good effort. G. Little was the best front marker.

(J. Platten, Hon. Sec.)

**WHYALLA, 26/7/70.**—Weather conditions: Fine and warm. Attendance: 32. Results: No. 1—5-tgt. Tower E/O: Fourteen divided. No. 2—State Tower C'ship: 1st, R. Burrill, Melbourne G.C., 106/106; 2nd, R. Bisi, Whyalla G.C., 105/106; 3rd, D. Smith, Ungarra G.C., 29/30. No. 3—C/wealth Tower C'ship: 1st, R. Ferres, Metropolitan G.C., 53/53; 2nd, F. Apted, Victorian G.C., 52/53; 3rd, J. Schramm, Ungarra G.C., 30/31. No. 4—20 Pairs D/D: 1st, F. Grey, S.A.G.C., J. Schramm, Ungarra G.C. Four teams divided second place.

A calm hot morning for the Tower Championships. Eight possibles in the State shoot. This rapidly became a two man event with Victorian veteran, Ray Burrill, being hotly pressed by Whyalla novice shooter, Romano Bisi. Experience finally told and Bisi lost his 106th target. Burrill shot his and became the first State Title Holder and subsequently setting a State Tower record of 167 straight Tower kills.

The stage looked set for a few records in the Commonwealth Championship for the IMI Trophy. Seven shot the possible but again five shooters fell quickly, leaving F. Apted and R. Ferres to shoot off. Until Frank dropped his 53rd target, leaving Bob Ferres the Commonwealth Champion. Third was Jim Schramm, with yours truly getting a consolation trophy as best Whyalla shooter in championship.

The two days' High Gun trophy donated by Super Elliott went to Gary Bollen, of Whyalla, scoring 79/80.

Our heartfelt thanks to all shooters and trophy donors for making our opening such a memorable occasion.

(Brian G. Killick, Hon. Sec.)

Wooding in a shoot-off after they had all gained nine targets in the event.

Terry and Eric Chapman gained the top score 17/20 in the 10 pair D/Rise, but once again Terry took out the trophy 4/4 from Eric 3/4.

**GERALDTON, 19/7/70.**—Weather conditions: Fine. Attendance: 23. Results: 50 Skeet H'cap: 1st, N. Burton, 87/87; 2nd, A. Wann, 86/87; 3rd, V. Wann, 85/87.

Seven shooters shot the possible 50 with handicaps, and after an extended shoot-off with amended handicaps, Noel Burton won with 87/87, from Alec Wann 86/87 and Vic Wann 85/87. High Gun of the day was Ray McDonald with 49/50.

Three achieved their skeet 25 break badges — Jim Griffiths, Chris. Russell and Rick Bosghetti.

Trophies were presented by Club President Jim Bailey, and afternoon tea served by the Club Associates, concluded a very good day's shoot for all members present. (H. L. Bailey, Hon. Sec.)

**KATANNING, 12/7/70.**—David Leach returned after an absence of some weeks and won the 15 pairs double rise M. Crossley trophy event. He scored 30.5/30 with handicap and was a clear winner from D. Anderson 28.6 and P. James 27.2.

The 10-target walk-up sweepstake was won by David Branagh, a visiting shooter from the Portarlington Club in Victoria. His was the only clean score of 10/10. Dividing second place with 9/10 were E. McFarland, M. Lubke, M. Crossley, R. Anderson and D. Anderson.

Scotty Gibson was high gun with a score of 35/40.

The first stage of the new ground has been completed on schedule with the fencing of the area, the planting of the trees — exceeding a hundred in number — and the grading of the shooting site which will accommodate four down the line layouts and two skeet layouts. Members are well pleased with the results of the current work and are very enthusiastic about the obvious potential for the ground to be a very highly rated clay target shooting centre.

(D. G. Anderson, Pub. Officer.)

**KATANNING, 26/7/70.**—Seven shooters exceeded the possible with handicap when competing in the skeet event for the N. Rae trophy last Sunday.

After a lengthy shoot-off, Scotty Gibson won the event from David Leach, with P. James and N. Rae sharing third place. S. Leach, D. Campbell and R. Ritchie were the other shoot-off contestants.

D. Campbell was high gun in this event, shooting 23/25.

A 10-target double barrel sweepstake was won outright by S. Gibson 10/10 with S. Leach, E. Pedler and A. Kowald dividing second place 9/10.

(D. G. Anderson, Pub. Officer.)

**KOJONUP, 19/7/70.**—Weather conditions: Fine. Attendance: 20. Results: No. 1—25—Skeet: 1st, G. Anderson, 22/25; 2nd, G. Cussons, 16/25. No. 2—25 Skeet: 1st, K. Schinzig, 25/25; 2nd, T. Shine, 22/25.

Though not a very good number of members we had a good day's shooting with some very good scores. K. Schinzig took the High Gun with 47/50 and had to shoot in the dark to hold off T. Shine. For the trophy in the second round of Skeet first place went to G. Anderson from G. Cussons after a lengthy shoot-off.

G. Cussons put up a good performance for his first try at skeet with a 16/25 in the first round and a 20/25 in the second round. (R. Manolini, Hon. Sec.)

**NORTHAM AND DISTRICTS, 12/7/70.**—Weather conditions: Fine. Attendance: 40. Results: 50 Skeet—This 50 skeet was probably the most enjoyable shoot conducted so far this year on "Island Farm."

G. Bailey excelled himself to knock off 50 straight and then in the shoot-off with G. Way and T. Beggs

managed another 38, thereby creating a new break record for W.A.—88.

Geoff Way won the shoot-off with G. Bailey second and T. Beggs third.

The aggregate for the year table remains unaltered with Merv Madew in the lead on 14 points.

(G. Way, Pub. Officer.)

**NORTHAM AND DISTRICTS, 26/7/70.**—Weather conditions: Overcast, rain. Attendance: 35. Results: Champions of Champions. 25 Skeet: K. Norrisl 25, L. Levieme 25, R. Bailey 25, B. Holtfreter 25. 20-tgt. 5 DB, 5 SB, 5 Silent Rise, 5 Walk-up: R. Holtfreter 19, M. Fisher 19, D. Watts 19, J. Harris 18, E. Humphrey 18, R. Bailey 18, D. Holtfreter 18, P. Humphrey 18. 10-tgt. DB Mini Targets: M. Fisher 10, C. Lee 10, R. Holtfreter 9, J. Boyes 9, D. Watts 9, R. Bailey 9, D. Morgan 9, R. Wansbrough 9, R. Webb 9. 10 D/R: J. Boyes 10, K. Norrisl 9, R. Wills 9, J. Harris 9, E. Humphrey 9, D. Watts 9, R. Webb 9, G. Samuel 9.

The day ended in somewhat of an anti-climax. Because of failing light it was impossible to conduct a shoot-off.

Five shooters qualified for the shoot-off. They were: Keith Norrisl, Robin Bailey, Roy Holtfreter, Merv Fisher and Jim Boyes.

All scored 59 out of the possible 65. The shoot-off will be conducted at "Island Farm" on Saturday, 1st August. (G. Way, Pub. Officer.)

**PERTH, 4/7/70.**—Weather conditions: Cool, Fine. Attendance: 62. Results: No. 1—20-tgt. DB Grade, Pts. Score: A—Ray Holtfreter, 81/81; B—Ray McDonald, 60/60; C—John Mathieson, 60/60; D—Stanley Wells, 57/60. No. 2—Metropolitan DB C'ship: 1st, Roy Holtfreter, 139/139; 2nd, Dick Burton, 138/139; 3rd, Jim Boyes, 114/115.

A popular return to form by Roy Holtfreter who, shooting-wise, has had a run of "outs" for two or three seasons.

Congratulations also to Jim Boyes on his first 100 break. (J. G. Spark, Hon. Sec.)

**PERTH, 5/7/70.**—Weather conditions: Fine and cool. Attendance: 60. Results: No. 1—20-tgt. DB Grade Shoot: A—Robin Bailey, 36/36; B—Alf. Coleman, 46/46; C—John Eddy, 30/30; D—P. Charsley, 19/20. No. 2—Winchester Cartridge Grade Shoot: A—Tex Wells, 52/52; B—Jim Boyes, 50/50; C—John Eddy, 37/37; D—Stanley Wells, 29/30. No. 3—5-tgt. DB & SB, 5 D/R: Front Marker (17 and forward), L. Naylor, 17/20; Back Marker (18 and back), J. Boyes, 19/20. No. 4—10-Pr. D/R: Front Marker, J. Eddy, 17/20; Back Marker, D. Branagh (Portarlington), 17/20.

Dave Branagh very pleased to get "a show of color" at his first shoot in W.A. On our part we were also pleased to welcome him, and also George Shepherd (Frankston).

John Eddy has finally reached the 17-yard mark. He has been shooting consistently at both trap and skeet and should notch further victories and become one of the Club's leading shooters.

(J. G. Spark, Hon. Sec.)
