Our Cover:

Depicts the newly adopted motif for the A.C.T.A. green reefer jacket. The motif shows our native golden Cootamundra wattle surrounding a map of Australia which contains the coats of arms of each Australian State. The coats of arms from left to right are those of New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania.

Shown also for artistic purposes, is an Australian Aboriginal "Didgeridoo." A didgeridoo, an ancient aboriginal musical instrument is a hollow tube of wood some four or five feet long and about three inches in diameter. It is extended from the mouthpiece, held close against the mouth, with the lips inside it, to the toes which keep the other end raised just clear of the ground. It is a formidable-looking instrument and only few natives master the art of playing it properly.

The election of seats on the Executive Committee of the Association will take place during the 37th

Annual General Meeting of the Australian Clay Target Association to be held at the Sportsmen's Association, 147 Greenhill Road, Parkside, South Australia, commencing 7.30 p.m. on Monday, March 12, 1973.

DELEGATE APPOINTMENT

Affiliated units of the A.C.T.A. are reminded that they are entitled to one delegate (Article 15) to represent their interests at the Annual Meeting. However, delegates can only be accepted providing the Association "Articles of Association" are complied with. This involves the completion of the necessary forms, namely "Acceptance of Membership" (Article 5 (a)), "Nomination of Representative" (Article 21) (in the case of a corporate club), or "Nomination of Delegate" (Articles 5 (c) and 16) (in the case of an unincorporated club), followed finally by "Notice of Acceptance of Delegates." Official printed forms as applicable are obtainable from the A.C.T.A. office. It should be noted that nomination of a representative or member delegate can only be accepted providing all subscriptions and monies due by either the nominee or the club, to the Association, have been paid as provided for in Article 49.

It is also pointed out that where a representative or delegate has been appointed previously, and this has not been officially rescinded, the appointment as previously made will stand, until the Association is advised or instructed otherwise. In accordance with the Articles of Association, clubs cannot appoint a delegate other than on the prescribed form (letters are unacceptable).

Each financial affiliated member club was mailed a Delegate Entree Card (for unincorporated clubs) or a Representative Card (for incorporated clubs) at the time of the delegate appointment and this entree card remains valid until the named delegate is changed. These cards must be presented by the respective financial shooter delegates concerned to obtain permission to attend and be eligible to vote at future annual general meetings.

GENERAL

It is suggested, and recommended that all shooters complete and sign the "Schedule A" amateur declaration — there are two copies in this publication, one for personal record to be retained by each shooter, the other is perforated for easy removal. It is preferable that this copy, which is required for A.C.T.A. records, is forwarded by your club secretary, with your registration fee.

Within the amateur rules of Olympic Games, British Commonwealth Games and the International Shooting Union, each shooter must have signed and lodged a satisfactory "Schedule A" form with his national body, for appropriate recording.

These rules were accepted by unanimous agreement at the A.C.T.A. Annual General Meeting at Brisbane in June, 1971, and are contained in the published A.C.T.A. Shooting Rules brochure.

A.C.T.A. maintains these records and also stamps "Schedule A" on the respective handicap cards as they are issued. Once a "Schedule A" amateur rules declaration form is lodged, then no further declaration is necessary at this stage, as the records are repetitive.

However, should there ever be a challenge on any shooter's amateurism, the onus of charge and proof are between the charger and the shooter concerned.

All participants for the eliminations for the 1973 World Moving Target Championships at Melbourne, Victoria, and for the 1974 British Commonwealth Games at Christchurch, New Zealand, must have completed and lodged satisfactory amateur "Schedule A" declarations. Similarly, all shooters are required by these bodies to be covered by insurance — the A.C.T.A. shooter insurance fulfills this need.

VALE Horace Govett James — died 12/12/72 in Melbourne at the age of 74 years. He was well known to us all as one of the original founders of the Australian Clay Pigeon Trapshooting Association which later became the Australian Clay Target Association. His clarity of decision on trapshooting matters and procedure was always a by-word. In his earlier shooting days "Horrie" was most widely known as "Duxbac" for his use of the cartridge which bore his nickname. He was an A.C.T.A. Trap Referee Examiner and a Life Registered Shooter whom we will now miss.

(g) J. Newton Thomas Overall High Gun Perpetual Trophy (best scorer trap events plus skeet).

11. Practice shooting will be permitted—

- (a) over days Sunday through to Wednesday;
- (b) on trap 7 which will be lane marked from 16 to 27 yards;
- (c) 9 a.m.-12 p.m. daily for D.T.L. trapshooting (or as directed) 10 targets as available;
- (d) 1 p.m.-4 p.m. daily for I.S.U. trapshooting (or as directed) over 25 targets using moveable wooden platform, level with the top of the traphouse.
- (e) qualified referees will be in charge;
- (f) practice costs of 10 cents per target D.T.L. or I.S.U. to be signed for in the normal event nominating manner on the personal progressive account recording procedure.

12. Trap (sighter targets procedure at 1973 Nationals only)—each referee has the right to choose one of each squad at random to assist the referee on the next round or squad. This assistant to sit and watch progress and merely answer any question by the referee on a ruling.

13. Skeet (procedure at 1973 Nationals only)—on sighter targets the procedure to be—every shooter when approaching for the first time will be allowed to look at, or shoot at, both a high and a low target from station one. He then commences his competition and he may sight a high and low from No. 1 Station of the second layout.

14. (a) There will be one overall winner in each championship with each class then to be decided independently for 1st to 5th placings only.

(b) All shoot-offs are to be by normal procedure, that is, shoot for the best overall scorer, who is also the winner of his class, then in classes to achieve 1st, 2nd, 3rd class placings but no shoot-offs for the 4th/5th class placings.

(c) IMI to provide the silver "Australia" medalion for the overall winner of each event including skeet.

(d) Winchester to provide a gold medallion for the first placegetter in each of the three classes of A, B, C, within each National Trap Championship.

(e) A.C.T.A. provide Silver and Bronze medallions for 2nd and 3rd in each class of all trap and skeet events, and a special trophy to each of the best three individual scorers over the I.S.U. practice trap.

(f) The Executive Committee acknowledges and accepts with appreciation, the kind action by our adopted US Liaison Officer, Mr Elgin T. Gates, who has generously offered—

- (a) "sixteen Silver Dollar Bolo Ties suitably crafted, seven of which will be for the runners-up (second highest scores) in each of the trap events.
- (b) seven especially engraved silver belt buckles (with silver dollar in centre) for the six trap championship event winners;
- (c) (using Elgin Gates' own words dated 30/10/72), "A rather amusing event took place when a 'C' Class Double Rise shooter won our (USA) National Championship at Vandalia last August (1972) — much to the chagrin of the AA, A and B competitors."

(Note: With the anticipated acceptance of class shooting, this statistical situation may soon also occur in Australian shooting, and such a circumstance will be welcomed.)

15. Squad Indicator Boards — one for each trap to show:—

Squad Shooting []

Next Squad []

16. (a) Two referees to be operating at all times on each Skeet layout — the first being a qualified Skeet Referee with, as his assistant, a Nationals Trap Referee as his boundary referee.

(b) Boundary pegs for both Trap and Skeet to be clearly placed and marked to avoid interference with concurrent Double Rise event.

(c) Skeet electric release cords to be fully lengthened for referees to walk safely around each layout.

17. Clay Targets to be color BLACK for both Trap and Skeet.

18. Shoot Marshal to be Barry Wembridge of Geelong, Victoria.

19. Empty shotshells to be collected and sold by the Marshal or his appointee at \$2 per carton. Cashier to handle all monies and to provide collection card authority to shooter for cancellation by Marshal.

20. All nominations will be in classes where possible:—

(a) Accepted as a personally signed account charging, payable before the shooter leaves the grounds. NOTE — a ten per cent charge will be added to any outstanding accounts.

(b) For the National Skeet Championship \$9 plus Optional Overall Sweepstakes @ \$1 plus Optional Sweepstakes of \$1 each 25 targets = \$2; Total = \$12 maximum.

(c) For all National Down-the-Line Trap Championships of Double Barrel, Single Barrel, ANZ Points, Champion of Champions — as for Skeet above = \$12 maximum.

(d) Grand Handicap \$10 plus Optional Sweepstake \$1 each 25 targets = \$2; Total \$12 maximum.

(e) For the National Double Rise Championship \$9 plus Optional Sweepstake Overall \$1; Total \$10 maximum.

(f) All nominations for trap events (excluding the Grand Handicap event) to be accepted and recorded by classes until the final few shooters in each event who may be squadded together. All nominations for the Skeet and Grand Handicap events to be as for one class.

(g) Only one practice I.S.U. nomination per shooter throughout the programme.

21. Traps — to be Winchester electric oscillating White Flyer types. Damos will be used for skeet.

22. Trophy Distribution — each class will receive the same amounts in each of the A, B, C classes with appropriate amounts to the first five class places only.

23. Optional Sweepstakes will be distributed as is normal procedure.

24. Referee, Scorer and each Competitor of all squads will sign the score sheet as to satisfactory recording, before anyone leaves the layout.

25. The progressive scores for high gun trophies to be counted as for the International Teams' Match and not as broken targets. (Note: This is a permanent amendment to rules 114/115.)

26. Gunsmith on the grounds will be Taipan Projectiles of Adelaide—proprietor Sid Churches.

27. (a) Caravans: No sleeping caravans on the ground.

(b) Daytime caravans permitted only for manufacturers and A.C.T.A. President under this arrangement.

(c) A new fully equipped caravan park now exists two miles nearer to Adelaide on the Port Wakefield Road—complete with light aircraft field.

28. Cartridges — (a) for the handicap event, up to 1½ ounce loads may be purchased for cash from the gunsmith on the grounds.

(b) For the championship events only those especially branded A.C.T.A., Adelaide, 1973, 1½ ounce load cartridges, as sold by the Association, may be used.

(c) The price of the A.C.T.A. branded cartridges will be \$2.80 per packet of 25 OR \$56 per case of 500. All such championship cartridges will be supplied only on receipt of a numbered cashier's ticket. This includes all ammunition manufacturers' representatives and International Trap Team members.

29. Travel Agents for these 1973 Nationals are Trans Australia Airlines of 144 North Terrace, Adelaide, 5000 — attention Mr John Goslett.

30. (a) The use of release trigger guns by registered A.C.T.A. shooters is prohibited.

(b) Visiting shooters, from overseas, using release trigger guns, must inform the referees before going onto the tracks and these will be noted on the scoresheets.

31. The full Executive Committee unanimously agreed that the qualifications of Nationals Referees, (whether male or female) was their prime concern.

32. No unlicensed raffles will be permitted at the Nationals.

33. Accepted the kind offer of Executive Committeeman, Mr Keith Oldfield of New South Wales, that he provide red caps to be worn by the trappers at the 1973 Nationals.

34. New Zealand shooters competing at the 1973 Australian National Championships will be accepted in these classes:—

11-12 yarders and beginners within 12 months — shoot C Class.

13-15 yarders — shoot B Class.

16 yarders and back — shoot A Class.

Contained herein are the rules of the International Shooting Union for single trap shooting, applicable only within the conducting countries and Commonwealth Games but not for World Shooting Championships or Olympic Games.

37th ANNUAL GENERAL MEETING

The 1973 annual meeting of affiliated club delegates and representatives of member clubs will be held in the upstairs assembly room of the Sportsmen's Association, 147 Greenhill Road, Parkside, South Australia, from 7.30 p.m. on Monday, March 12. Secretary will be available from 7 p.m. with registers.

The meeting agenda, which is mailed by law to the club appointed delegates and representatives, will contain a motion concerning the recently adopted 50 cent shooter participation fee.

UIT REGULATIONS FOR AUTOMATIC TRAP – Provisional

1. General

1.1 Application and scope of the technical regulations: At competitions where world records may be established, and which are under the supervision of the UIT, these regulations must be strictly adhered to.

1.2 The UIT recommends that in tournaments where World Records cannot be established, such as regional or national competitions, the programs prescribed by the UIT should be conducted in accordance with the rules of the UIT.

1.3 It is the desire and attempt of the UIT to achieve uniformity in the conduct of the shooting sports the world over. This is in the interest of greater development of the sport and of the shooting fraternity.

1.4 These rules shall govern the conduct of all competitions under the supervision of the UIT. Any item which may not be specifically covered in these rules shall be decided by the Competition Jury in conjunction with the Chief Range Officers.

1.5 Organisation and Execution of Competitions: The host country or federation shall form an Organising Committee for the general preparation and execution of the competitions. It shall consist of qualified individuals representatives of the host country. One or more representatives of the UIT may be invited to serve as technical adviser(s) without voting rights.

1.6 The technical aspects of the individual events shall be the responsibility of the Chief Range Officer. He shall have assistant range officers to aid him.

2. Public Affairs

2.1 Promotion and publicity shall be given all due consideration: Press, radio, and television personnel shall be given every consideration and co-operation in keeping with the proper conduct of the competition. They shall be given guidance and information in the placement of their equipment so that it will not interfere with the competitor or officials. Room(s) with necessary office and communications equipment shall be made available for their use. Filming, recording, and interviews should be done during the training periods of the competitors or following competitions.

2.2 The classification and results control office shall prepare an accurate placing list immediately after a competition is completed and make copies available to the publicity media.

2.3 In all competitions under the supervision of the UIT each competitor will bear a starting number on his back to aid in identifying. Starting numbers will not bear commercial advertising of any type.

2.4 Large score boards should be conveniently placed where current results may be rapidly posted for the convenience of the public and press. The boards should be erected a sufficient distance away from the competition area so that loud discussions by spectators will not disturb the competitors.

3. Equipment and Ammunition

3.1 General: All devices, ammunition, or equipment which are not mentioned in these rules, or which are contrary to the spirit of these rules and regulations are not allowed. The Jury has the right to examine the shooter's equipment and apparel at any time there is reason to believe that these rules are being violated. It is the sole responsibility of the competitor to submit

questionable equipment, ammunition, or apparel for official inspection and approval in sufficient time prior to the beginning of a competition so that it will not inconvenience either the competitor or the officials. Team leaders are held equally responsible that their team members use equipment which is in accordance with these rules.

3.2 Guns: All types of shotguns, including automatics (self-loading), 12 gauge and smaller, may be used. No handicap will be allowed for use of guns of a smaller calibre than 12 gauge. Muzzle brakes, compensators, or other devices which serve like purposes are prohibited.

3.3 Ammunition: The length of the cartridge shall not exceed standard specifications of 70 mm. Shot load shall not exceed 32 grams. Pellets shall be only spherical in shape, made of lead or lead alloy, and not larger than 2.5 mm diameter. Black powder, tracer, incendiary, or other specialty type cartridges are prohibited.

The referee or a jury member may remove an unfired cartridge from a shooter's gun for inspection.

4. Targets

4.1 Specifications: Diameter — 110 mm (plus/minus 2.0 mm); Height — 25 to 27 mm; Weight — 105 grams (plus/minus 5 grams). Colors may be all black, all white, or all yellow or the full dome may be painted white or yellow; or, a ring may be painted around the dome in white or yellow.

The color of a target which is selected for a championship will be such that it is clearly visible against the background under all normal lighting conditions.

The color and country of manufacture of the targets will be included in all programs for competitions which are under the supervision of the UIT.

4.2 Random samples of the targets, 20 targets taken from different cartons, will be examined by the Technical Committee prior to any competition to ascertain that they meet the specifications. Organisers who are in doubt about their targets should submit samples to the UIT sufficiently in advance of a championship to allow corrections to be made if the targets do not meet the requirements.

5. Positions

5.1 The shooter shall stand with both feet entirely within the boundaries of his station. He may not move from this position until the shooter to his right has shot at a regular target, except when the shooter has fired at his own regular target on station 5. When a shooter has completed his shots on station 5 he must immediately proceed to station 1 being careful that he does not disturb the shooters who are on the line as he walks past.

6. Range Standards

6.1 General: Ranges which are constructed in the Northern Hemisphere should be laid out so that the direction of shooting is toward a North to North-easterly area. This places the sun to the back of the shooter as much as possible during the shooting day.

6.2 The Trap Pit: A trap house will be constructed, the top of the roof of which will be on the same elevation as the surface of the shooting stations. Interior

measurements of the trap house should be approximately 4 metres from side to side x 2 metres from front to rear x 2 metres from floor the inside of the roof. These dimensions will allow freedom of movement of working personnel and sufficient storage space for competition targets. Plate A.

6.3 The Shooting Stations: The shooting stations will be arranged on an arc measured and drawn at 15 m to the rear of the traphouse, measured from the front edge and centre of the roof.

Station No. 3 will be centred on an imaginary line drawn through the centre of the traphouse to the rear and perpendicular to the front of the house. Stations 1 and 2, and 4 and 5 will be located on the arc on points measured 3 m and 6 m to the left and right of the centre-line, respectively. Plate B.

6.4 The Trap (throwing device): The pit shall be equipped with a single, multi-oscillating (vertical and horizontal directions) mechanical, or electrically operated trap. It may be either manually or automatically loaded. Targets may be released manually, electrically, or microphone-electrically. The trap will be so constructed and mounted that it will throw at random, and continuously changing angles and elevations, an unbroken target within the vertical and horizontal limits stated in these rules and Plate C.

6.5 Target Distances, Angles, and Elevations: The trap shall be so adjusted that in calm weather:

- (a) With a throwing elevation of 2 m at 10 metres forward of the pit, a properly released target will carry 75 m (+ or - 5 m) if measured over level ground. Plate C.
- (b) The height of the target's path above the level of the traphouse roof and 10 metres forward of the trap shall be at least 1 metre and not exceed 4 metres. Plate C.
- (c) The targets shall be thrown within an area bounded by angles of not less than 30° nor more than 45° right and left of the imaginary centreline drawn through the centre of the trap house and station 3. The horizontal angles will be measured from the front edge of the traphouse.
- (d) The traps must be adjusted and examined by the Jury each day before the shooting begins. One trial target shall be thrown for each squad before the first shooter begins his series.

7. Courses of Fire

7.1 Individual: Competition consists of 200 targets shot in 8 (eight) series of 25 targets each. These may be shot in two days at 100 targets each day or in three days at 75 + 75 + 50 targets. Under extremely crowded conditions a competition may be scheduled for four (4) days at 50 targets per day.

7.2 Teams: The number of shooters per team is regulated by the UIT General Regulations. The team score shall be determined by the totals from the results of the individual scores over the first 150 targets (first 6 series) fired.

7.3 Women and Juniors: Individual competitions only consisting of 150 targets fired according to 7.1 above.

8. Time Limits

8.1 It is the shooter's responsibility to be on the proper field at the proper time with sufficient ammunition and necessary equipment. See Section 9 for delays and penalties.

8.2 A shooter must position himself, load his gun, and call for his target within 15 seconds after the shooter to his left has fired at a regular target or after the field referee has given the signal to commence firing in the event of any delay.

8.3 After the shooter has called for his target it shall be released immediately, allowing only for human reaction time to press a button if the release is manual-electrical or mechanical. When targets are released by

microphone-electrical means a delay factor of 0.2 seconds shall be built into the system to more nearly simulate the human reaction time when targets are released by hand.

8.4 If shooting is interrupted within a series for more than 5 minutes the squad is allowed to view one unbroken, regular target before commencing the competition again.

9. Competition Regulations and Range Procedures

9.1 Squadding: A squad normally consists of 6 competitors drawn at random from the entry list. In International competitions the shooters of each country are distributed over the various squads. Drawings are made separately for each day at a time announced in advance, thereby permitting the delegates of the participating nations to be present. In the interest of expediency the Jury may complete the drawing without reference to the delegates. Attendance at the drawing by the delegates is optional. The squadding list shall be posted by 1200 o'clock noon each day prior to the day of the specified match.

9.2 At the beginning of each series the first five shooters in each squad will take positions on stations 1 to 5, the sixth shooter will remain ready behind No. 1 post to move in soon as Shooter No. 1 has shot. After Shooter No. 1 has fired at a regular target he is to prepare to move to station 2 soon as the shooter on the post has fired, and so on. When the shooter on No. 5 post has fired he must immediately move around the rear of the firing line and return to Post No. 1, continuing the rotation until each shooter has fired at 25 targets. No member of a squad having shot on one station shall proceed toward the next station in such a way as to interfere with another shooter or the match personnel.

Targets will be thrown on a completely random basis with each shooter required to fire at every regular target which is released on his call.

9.3 Once shooting has been started it shall continue without interruption according to the program except for mechanical breakdown or other emergencies determined by the Chief Range Officer and the Jury. In the event of bad weather of obvious short duration the Chief Range Officer with the Jury's agreement may halt the shooting temporarily.

9.4 Regular Target: Any target which is thrown on the shooter's call according to Rule 6.5 is deemed a regular target.

Irregular Target: Any target which deviates from the specifications of Rule 6.5 as to angle and elevation and distance shall be deemed to be irregular. A broken target is not considered an irregular target.

Broken Target: Any target which is not whole, according to Rule 4.1. A shooter who receives a broken target must repeat his shot on a regular target regardless whether he hit or missed the broken target if he shot.

9.5 Malfunctions:

(a) **Firearms:** Any shotgun which cannot be safely fired, which "doubles" automatically (double barreled, pump, or semi-automatic) or which fails to eject due to a mechanical defect is considered to be disabled under this rule. A shotgun which fires automatically due to faulty manipulation by the shooter is not considered disabled. A shotgun once declared disabled is not to be used again in the same tournament until the problem has been corrected and ruled safe by a competent armorer and accepted by the Jury.

(b) **Malfunction of Firearm:** Failure of a gun to function properly due to a mechanical defect or defective ammunition will be declared a malfunction. Functional failures caused by improper manual manipulation by the user will NOT be considered as a malfunction. Failure to place the cartridge in the proper chamber of the gun is considered the fault of the shooter and is not allowable as a malfunction.

(c) **Malfunction of Ammunition:** Failure of ammunition to fire or function properly, i.e., failure to fire provided firing pin indentation is clearly noticeable; or firing of primer only, where powder charge has been omitted or not ignited, which is characterised by a very weak report and absence of noticeable recoil are characteristics of defective ammunition. Components of the load remaining in the barrel shall be considered as evidence of defective ammunition but not a requirement. Wrong size cartridges and empty shells in the chamber shall not be considered as defective ammunition.

(d) In all cases of disablement or malfunction of gun or ammunition, and upon the decision of the Referee that this has not been caused by the shooter himself and that the gun is not repairable quickly enough, the shooter has the option of using another gun if one can be obtained without delay (within 3 minutes after the Referee has declared the gun disabled). If not, the shooter may leave the squad and finish the remaining shots of the round at a time decided by the Referee or when a vacancy occurs and the shooter obtains the permission of the Referee. If the gun is repaired before the end of the round the shooter may be allowed to rejoin his squad with the permission of the Referee.

The shooter is allowed a total of two (2) malfunctions per round of 25 targets regardless of whether he has changed his gun or ammunition. The third and subsequent malfunctions of either gun or ammunition are considered excessive. Each regular target attempted thereafter on which an excessive malfunction occurs shall be declared "LOST."

9.6 Penalties:

- (a) It is the responsibility of the shooter to be present on the proper field at the proper time with all his equipment and ready to shoot. If a shooter is not present on the line when his name is called the Referee will announce the shooter's name loudly three (3) times within one (1) minute. If the shooter does not appear within this time the shooting will commence without him. The shooter will be marked absent on the official score sheet. He may be permitted to shoot the missed round at a time and on the field decided by the Chief Range Officer with agreement of the Jury. The shooter will be penalised with a deduction of 3 targets from the result of late fired round.
- (b) All other violations of these rules shall incur a warning on the first offence in a round of 25 targets. The second and subsequent violations in the same round shall incur a deduction of one hit from the result of that round for each violation.
- (c) Other penalties according to specific Rules.

9.7 Unsportsmanlike conduct, or deliberate attempts to evade the spirit of these rules may incur a warning, a penalty, or elimination from the competition based upon the decision of the Jury or the Jury of Appeal if one has been appointed for the competition.

9.8 A target is declared "DEAD" when it is thrown and shot at according to the rules and at least one visible piece is broken from it by the shot.

9.9 A target is declared "LOST" when:

- (a) It is not hit during its flight.
- (b) It is only "dusted" (no visible piece falls).
- (c) The shooter does not fire at a regular target for which he has called.
- (d) The shooter is not able to fire his gun because he has not released the safety, forgotten to load, or failed to cock his gun.
- (e) The first shot is a miss and the shooter fails to fire his second shot because he forgot to place a second cartridge in the gun or to release the

stop on the magazine of an automatic shotgun, or because the safety has slipped back to the "safe" position by the recoil of the first shot.

- (f) A malfunction of the gun or the ammunition occurs and the shooter opens the gun or touches the safety before the Referee has examined the gun. Rule 9.5.
- (g) It is the 3rd or subsequent malfunction of the gun or the ammunition by the same shooter in a 25 target round. Rule 9.5 (d).

9.10 A "NO BIRD" is to be declared and another target allowed WHETHER OR NOT THE COMPETITOR HAS FIRED:

- (a) If the target is thrown before the shooter has called.
- (b) If the target is not thrown immediately after his call and the shooter lowers his gun. Rule 8.

9.11 In case of malfunction or misfire not caused by the shooter himself another target shall be allowed. Rule 9.5:

- (a) If the competitor's first shot misfires and he does not fire the second shot. (If the second shot is fired, the result is scored.)
- (b) If the first shot is a miss and the competitor's second shot misfires (Rule 9.9 (e)). In this case the first shot on the new target must miss the target and the shooter must attempt to hit the target with his second shot. If the target is hit with the first shot it is scored "LOST."

(Note: A competitor using a double-barrelled gun with a "selective" single trigger may be requested, before the beginning of a competition, to make a declaration as to which barrel he is going to fire first. If he fails to make this declaration he forfeits the advantage of a new target according to this rule. Also see Rule 9.9 (f).)

9.12 The Referee may declare a "NO BIRD" and allow another target if:

- (a) The shooter has been materially disturbed, such as being struck by a piece of target from a neighbouring range, sudden appearance of trap boys, sudden and unnatural loud noises at the moment that he has called for his target. If the shooter fires both shots at a regular target he may not claim interference or disturbance. (See Note below.)
- (b) Another competitor has fired at his target.

(Note: The Referee shall consult with the assistant referees if a repeat target is to be thrown under this rule and he shall make the final decision.)

9.13 If both shots are discharged simultaneously the result shall be scored regardless whether the target was hit or missed.

9.14 A shot is counted as not fired if:

- (a) A competitor shoots out of turn. Rule 9.6.
- (b) A shot is discharged before the competitor has called for his target; however if the target is thrown and the competitor fires his second shot, the result must be scored. (Note: If the shooter has a malfunction on the first shot and fires his 2nd shot the result shall be scored.)

10. Range Controls

10.1 All guns shall be handled with the greatest care. Conventional double barrel guns are to be carried with the breech open. Magazine guns are to be carried with the breech open and the muzzle pointing straight upward or down at the ground. Straps and slings are not allowed on guns in this competition. When a shooter is not carrying his gun it must be placed in a gun rack, with the muzzle up after having ascertained that the gun is clear. No individual is allowed to touch another's gun without the owner's permission.

10.2 All guns must be carried open when moving between stations 1, 2, 3, 4 and 5 on the firing line. When moving from station 5 to station 1 the gun must be carried OPEN AND COMPLETELY UNLOADED.

10.3 Shooting and sighting practice may be done only on the shooting stations. It is expressly prohibited to place a gun to the shoulder and practise swinging behind the firing lines. Shots may be fired only when it is the shooter's turn and after his target has been thrown. It is forbidden to sight at another competitor's targets.

10.4 It is forbidden to sight or shoot at live birds or animals.

10.5 Cartridges may not be placed into any part of the gun until the shooter is standing on his station facing to traps with the gun pointed to the flight area and the Referee has given permission to load. Magazine guns must be blocked so that it is not possible to place more than one cartridge into the magazine at one time. A shooter is not allowed to close his gun before it is the turn of the competitor to his left to shoot.

10.6 If the target is not thrown immediately after the shooter has called, the shooter is to signify that he refuses the target by quickly lowering the gun from his shoulder. Rule 8.3.

10.7 The shooter is not allowed to turn from the shooting station before his gun is opened. When an irregular target is thrown or the shooting is interrupted, the guns shall be opened. No gun shall be closed until the order to continue has been given.

10.8 In the event of misfire or other malfunction, the shooter shall remain standing with the gun pointed to the target flight area without opening the gun or touching the safety until the Referee has inspected the gun. Rule 9.5 and 9.11 (b).

10.9 The shooting shall be carried out without interruption according to the program. The shooter shall restrict his conversation to calling for his targets; report "ready" when asked, or signify a protest if necessary, and answer the questions of the Referee.

10.10 The Referee or his assistants, under the supervision of the Jury, are responsible to see that the safety precautions are adhered to, that unauthorised persons are expelled from the range and that the puller and the assistant referees have an unobstructed view of all the shooting stations and the area in front of the trap pit.

11. Tournament Officials

11.1 Referee:

- (a) The shooting on each field shall be conducted by a Referee with wide experience in clay pigeon shooting and having a sound knowledge of shot-guns. His main function is to make immediate decisions regarding hit or missed targets, and he must give a distinct signal for each missed target.
- (b) The Referee shall be aided by two assistant (side) referees. Assistant Referees are normally appointed in rotation from among the competitors, preferably from those who have shot in the preceding squad. All competitors are obligated, upon request, to function as assistant referees. The Referee may accept substitutes at his own discretion. The primary function of the assistant referee is to give, immediately after a shot, a signal by raising his hand or small flag if he considers a target "lost." The assistant referee closest to the large field score board is responsible to check the entry of results during the shooting.
- (c) The Referee is responsible to make immediate and accurate decisions regarding "no bird," repeat targets, "dead" or "lost" targets, irregular targets or other conditions. Whenever possible the Referee shall call or signal a "no bird" before the shooter has fired his first shot.

(d) The Referee shall make all decisions himself. If any of the assistant referees is in disagreement, it is his duty to signal and advise the Referee of this. The Referee may then make his final decision.

(e) Decisions of the Referee may be appealed against insofar as the interpretation and application of the rules is concerned. The decision of the Referee is final insofar as hit or missed targets or irregular targets is concerned. These latter decisions may not be appealed against.

11.2 **Juries:** At all competitions under the supervision of the UIT and where world records may be established a Jury shall be appointed. The Jury shall consist of not less than three (3) nor more than five (5) members. The list of Jury members shall be submitted to the Secretariat, UIT, for review by the Technical Committee, and approval by the Executive Committee. The Chairman of the Jury will normally be a qualified representative of the host country. The Jury makes decisions by majority vote. In urgent cases 2 unanimous members of the Jury may make decisions in consultation with the Referee. The Jury is responsible to supervise and ensure that the operating personnel and referees are adhering to the rules and applying them impartially. The Jury is responsible to decide conflicts which cannot be resolved by the Referee.

11.3 It is the duty of the Jury to:

- (a) Verify that the shooting ranges and organisation plans are according to the regulations of the UIT and the approved program.
- (b) Ensure that the competition rules and the program are followed by the operating personnel and participants.
- (c) Make decisions in cases where situations cannot be resolved by the Referee or organisers.
- (d) Make decisions regarding penalties and sanctions against competitors who do not adhere to the rule and conduct themselves in unsportsmanlike manner.
- (e) Arrange a working agreement with the other Jury members whereby at least 2 members of the Jury will be present on the ranges at all times, one of whom should be within immediate calling distance of any Referee.

11.4 The Jury's decisions cannot be appealed against unless a Jury of Appeal has been appointed for the competitions by the UIT.

12. Team Officials

12.1 It is the responsibility of the team leader to be thoroughly familiar with the competition regulations and the programs in which he is entering competitors. The team leader is further responsible to ensure that his competitors present themselves at their shooting stations at the proper time with proper equipment. If there is any doubt about the eligibility of any item it should be presented to the proper officials prior to the competition for examination. If a team is small and does not have a non-competing leader one of the shooters must be designated as the team leader before the competitions begin.

12.2 Although coaching is not allowed in UIT competitions many teams have such a member in their teams. This individual is not permitted inside the shooting areas unless he has been appointed to some other competition function, in which case he is prohibited from serving his team members while in the competition official capacity.

12.3 Team composition is determined by the UIT according to its Constitution and General Regulations, in conjunction with the host country. In the case of the Olympic Games team composition is determined by the IOC, UIT, and the host country.

13. Results Office Operations

13.1 It is the duty of the Results Office to:

- (a) Prepare a list of competitors and assign numbers to each.
- (b) Assist in the drawing of lots to squad the competitors.
- (c) Prepare score sheets for each squad.
- (d) Ensure that the proper score sheet is with the correct squad on the correct field.
- (e) Receive and verify addition of scores on official sheets from each squad as they complete the series.
- (f) Tabulate scores in order of merit and post preliminary results on the public bulletin board immediately. Finalise official results early as possible daily.
- (g) Prepare a preliminary results bulletin for distribution each day.
- (h) Prepare and publish a final results bulletin immediately after the completion of the competition and the close of any allowable protest period.
- (i) Send 10 copies of the Official Results Bulletin and any reports to the Secretariat of the UIT within 30 days of the completion of the competitions.

14. Scoring

14.1 Scoring is done officially on each field for each round of 25 targets based on the decision of the Referee. In UIT supervised events where world records may be established scores will be kept on each field by three separate persons, two of whom will post on permanent cards and be positioned on each side of the field to the rear of the firing line while the third person will maintain a larger board for the benefit of the shooters and the spectators. Each scorer will mark his card or board independently. At the conclusion of each round the results should be identical. If there is any discrepancy in one score keeper's posting then the two which are alike shall be the official score. If none of the posted results compare then the large public board will be the deciding one. It is the duty of the assistant referee nearest the large board to ensure that the scorer is posting the Referee's decisions correctly.

14.2 After a squad completes firing a round and the scores have been verified the Referee and each shooter must sign or initial the sheet so that it may be quickly returned to the Results Office. Failure to sign the sheet before it leaves the field eliminates all right to protest of scores which are posted as final results from the sheets.

14.3 The decision of the Referee is final as to whether a target is "dead" or "lost." The Referee, when in doubt, should consult the assistant referees then make his final decision.

15. Tie Breaking Rules

15.1 **Individual:** If two or more shooters obtain equal scores, precedence for the first 3 places in championship (and in other competitions where this has been announced in the program) are decided by tie shoot-off in rounds of 25 targets until a difference in the scores occurs. The round or rounds shall be shot according to these rules; however, the squads may consist of less than 6 competitors. Unless the tie shooting is to be held at a pre-arranged time, the shooters involved or their team leader must keep in touch with the management, so that the shoot-off can be started, at the latest, 30 minutes after the decision is known.

Individual: Fourth through 10th places: Ties will be broken by the results of the last round of 25 targets, then next to last round and so on until a difference in score is found. If, after all 8 series have been evaluated in this manner and they still remain equal, precedence is decided by counting the last target forward until a zero is found and the shooter with the most hits in succession takes precedence.

Individual — 11th through last competitor: All shooters with tied scores will be listed in equal rank with an appropriate number of spaces left unnumbered below each group before the next individual is numbered. Within the tied score ranking the names will be listed alphabetically.

15.2 **Teams:** If two or more teams obtain the same scores, ranking will be decided by the total score of the team members in the last round of 25 targets, then next to the last, etc., until the tie is broken.

16. Protests

16.1 If a shooter or his team captain disagrees with a Referee's decision, protest may be initiated by raising an arm or otherwise signaling the Referee and saying "protest" or "appeal." The Referee shall then interrupt the shooting temporarily and, after having heard the protest and the opinion of the assistant referees, will make his decision. There is no appeal against a decision on a hit or missed target, in which case the Referee's decision is final. It is not permitted to retrieve clay targets from the field in order to determine whether or not they have been hit. Team Captains and Jury members will not interfere unnecessarily with the Field Referees.

16.2 If the shooter or the team captain are still not satisfied with the final decision of the Referee they shall not delay the shooting. They may make a notation on the score card that the shooter is continuing under protest which must be resolved by the competition Jury.

16.3 Protest to the Competition Jury may be made verbally or in writing — either must be accompanied by \$10.00 (U.S.). If the protest is upheld the money will be returned; if the protest is denied the money will be turned over to the UIT Secretariat.

16.4 If a Jury of Appeal has been appointed for the competition, and, the shooter or team captain is dissatisfied with the decision of the Competition Jury he may submit the details in writing to the Jury of Appeal. If a Jury of Appeal has not been appointed for a competition the Competition Jury is the last resort.

17. Records

17.1 Records may be established in the World Championships, Olympic Games, and Continental Games and Championships. Records are recognised for individual — 200 targets; 4 man teams — 150 targets; Women Individual — 150 targets.

SPECIAL RULES FOR AUTOMATIC TRAP EVENT

Adopted by the ISU Congress in Mexico City

1. The Trap shall be able to move automatically sideways 40° + or — 5° in each direction and vertically between 10° and 20° elevation, corresponding to heights between 1.75 and 3.5m (5½ — 11 feet) above the level of the firing points at 10m (33 feet) distance when the trap is placed according to Rule 3.

2. The five firing points shall be situated 16 + or — 0.5m (52½ ft. + or — 1 ft. 7½ ins.) from the trap along an arc of a circle with a minimum radius of 15m (49 ft. 3 ins.). The centre to centre distance between firing points shall be 3 + or — 0.2m (9 ft. 10 ins. + or — 8 ins.).

3. The carrier of the trap shall be 45 + or — 15 cm (18 ins. + or — 6 ins.) below the level of the firing points. The top of the pit roof or the cover protecting the trap shall be on the same level as the firing points.

4. The trap shall move from one side to the other in not more than 5 seconds (maximum full cycle time 10 secs) and from the lower to the upper position in not more than 3 seconds (maximum full cycle time 6 seconds). The movements shall be set at different speeds in order to prevent competitors from judging the direction of the throw.

5. Targets, speed and length of throws, squadding and system of shooting are otherwise the same as for the "Olympic Trap" event.

TIPS AND TALES

Rockhampton (Q) — Annual general meeting 5/11/72 elected as office-bearers: Patron, His Worship the Mayor R. B. J. Pilbeam; President, H. Milner; Vice-Presidents, S. G. Horrocks, C. J. Warnock; Secretary, Mrs C. J. Warnock; Treasurer, Mrs S. G. Horrocks.

Derby (WA)—Leeton shooter Bruce Duncan, who is a progressive light aircraft pilot, recently called on the Derby Gun Club in the far north west of Western Australia and has sent his unsolicited highest praise for the layout and conduct of this far away club.

Colbinabbin (V)—New club forming and proposes a shoot in February in aid of the Red Cross. Office-bearers elected are: President, N. F. Carboon; Secretary, R. R. West; Treasurer, Mrs R. West; Committeemen, N. F. Carboon, R. R. West, K. Shearer, R. McRobert, M. McNamara, C. Johnson, T. Johnson, Mrs R. West.

Service clubs are soon forming at Manly and Ingleburn, NSW, within the Army, whilst the Albatross GC at Nowra is re-forming.

Bordertown (SA) — Annual general meeting 20/11/72 elected office-bearers: President, Tom Mock; Senior Vice-President, C. England; Junior Vice-President, B. Growden; Secretary, G. Dinning; Assistant Secretary, R. Andrews; Committee, T. Mock, J. Standerwick, P. Seneca, R. Andrews, C. England, B. Growden, G. Gehlig, G. Dinning.

Narrabri (NSW) have been allocated NSW State Night Skeet Championship to be shot on 9/9/73.

Lethero (NSW)—Annual meeting 10/11/72 elected new Secretary/Treasurer, Mr S. Barnes.

Lake Cargelligo (NSW)—Secretary is now Mrs C. Quinn.

Calivil (Vic.)—Secretary is now Mr M. W. Dobbie.

Grenfell (NSW)—Acting Secretary is now Mrs M. Thorn-Clark.

Far West (SA)—Secretary is now Mr W. G. Burnett.

Vale—Hay, GC (NSW) reports that E. V. (Victor) Cox died suddenly late November. He had been a trap referee examiner with us since 1953.

Albatross (NSW)—Secretary is now Mr I. A. Rehbein.

Gold Coast (Qld.) — Secretary is now Miss A. Martin.

Werribee (Vic.), having changed their site, will be operating at a new location (Leekes Road, Truganina, off Derrimut Road, approx. five miles from Werribee)—see club advert for further directions. The grand opening shoot is Sunday, February 11.

ATA 1972 Grand Championships at Vandalia, Ohio—Mr Elgin Gates could seek to amend the song "Raindrops Keep Falling on my Head" to read "Raindrops Keep Falling on my Gun" as, after a 200 single barrel event off 16 yards, 11 had shot the possible then, when the shoot was halted by curfew, he, with shooter Richard Smith (Age 43, an elementary school teacher from Newcomerstown, Ohio), had each broken 124/125 shoot-off targets.

It had been a long day for Gates—after breaking 200 in the event, he had pressed on to finish the class AA shoot-off, halted on the Monday. He broke 100 to win that title. He then moved one trap west and started the final shoot-off for the event with R. Smith and both shot another 50/50. Then, as the 57th target was thrown, a single raindrop splattered on his gun barrel—"It splashed and threw a sort of mist in front of my glasses," Gates said. "I missed that target."

"I saw him miss," Smith said, "and I knew the door was open, and I had to get all of them." He did. Smith was highly delighted as he had tied for the same title twice before but lost out in shoot-offs.

Thus, on Wednesday, it appears Mr Gates shot 200 straight, plus 100 straight, plus 124/125. That totals 424/425 in one day—and that is quite some shooting.

Letters to the Editor

From: The Hon. Sir Henry Bolte, G.C.M.G.,
care Premier's Department,
Melbourne, Vic., 3002.

November 28, 1972.

Dear Mr Berry,

Thank you for your letter of November 20, 1972.

I am pleased to know that the Government of Victoria has been of some financial assistance in promoting the 1973 World Moving Target Championships.

I regard it as a singular honor to accept your invitation as patron of the Australian Clay Target Association, which I am only too happy to accept.

I look forward to attending some of the Championships at Lilydale in November of next year and to making some contribution to the aims and objectives of the Association.

Yours sincerely,
HENRY BOLTE.

New Zealand National Airways
Corporation, Dunedin.
November 7, 1972.

Dear Mr Berry,

Mr M. H. Allan, General Secretary of the New Zealand Gun Clubs Association Inc., has asked me to contact you with information on travel and accommodation arrangements for the 1974 Christchurch Commonwealth Games.

The games will commence in Christchurch on Thursday, January 24, 1974, with the opening ceremony. On succeeding days a full programme covering the nine participating sports will be held, culminating in the closing ceremony on Saturday, February 2.

As regards the sport that will interest you the most, shooting, three venues will be used, all being in the north west periphery of the city—Harewood on the riverside of the Airport, Yaldhurst, and the Army Rifle Range at West Melton.

New Zealand National Airways Corporation, in conjunction with Air New Zealand, are the official ticket sellers and accommodation agents for the games. The ticket allocation for overseas people has been open for some time now and I suggest that you immediately contact Air New Zealand, 154-156 Swanston Street, Melbourne, regarding this.

At this stage there is virtually no accommodation available in hotels or motels but home hospitality will be provided in private homes throughout metropolitan Christchurch. The rate for this accommodation is \$5.00 per person per night, bed and breakfast.

The Games tickets are sold on the basis of tickets and accommodation so your Association's members will need to know their requirements in advance. Ticket prices for the various events are listed in the official brochure and Air New Zealand, Melbourne, will have ample supplies of this publication.

If it transpires that your members will be travelling as a group to the Games it would be best if you would let Mr M. Allan know your additional accommodation and travel requirements within New Zealand after the games and we could reserve this from here. This would be a tidier way of processing these requirements and at the same time keep your New Zealand counterparts completely in the picture as to what you are doing.

I trust this information is of assistance to you and your Association.

Yours faithfully,
R. D. WILSON,
Senior Sales Representative.

Dear Mr Berry,

I have just realised that I owe you a letter, although there isn't very much I can tell you.

Enclosed is a shooting programme for S.A. registered shoots for 1973 which may be of interest to some of your members. Also a preliminary notice on the S.A. Games and a copy of the first newsletter.

The S.A. Championships to be held in Durban in August/September next year should be a very interesting shoot. Elgin Gates from America, who was runner-up in 1971 for the Clay Target Championship of America, will be present and I'm sure he will be able to show us a thing or two when it comes to trap shooting. The events are:

- 100 rounds Down the Line Trap (16 yard full use).
- 100 rounds I.S.U. Skeet.
- 50 pairs Trap Doubles.
- 100 rounds Olympic Trench.

Teams from Rhodesia and Mocambique will be attending at is it also the occasion of our annual Test Match.

I am trying to raise enough funds to send a team over to the World Championships in Melbourne and will be in touch with you on this subject later on.

Singapore.
December 5, 1972.

Due to cost involved we managed only to field the minimum team for the 5th SEASA shooting competition. Following our monthly letter the only application for the skeet team was Peter Ho, Tang Kee Kong, Frank Oh and David Oh.

The trap team had only three members—Frank Oh, David Oh and Tang Kee Kong. As I had to attend the SEASA meeting I made the 4th member.

The team was afforded a royal welcome by the Indonesian Shooting Association. Air Marshal Suwoto Sukendar, the Chairman, presided at the meeting and personally welcomed all of us. We were introduced to the Governor of Djarkata at their new range which cost \$2.2 million to build.

In the trap event, Frank Oh lost the Gold Medal by one point. He shot 180. Commander Mui Sam Loong, of Malaysia, shot 181.

Our team, however won the Silver Medal.

For the skeet competition, Frank made good his promise to the Club and won comfortably, 181 as against Stanley Lim, of Malaysia, 175. Tang Kee Kong scored 173. Both Kee Kong and Frank Oh shot one perfect detail of 25 targets. No one achieved 25 straight for trap.

The Indonesians deserved full marks for the organisation of the SEASA shoot. From scratch they have built a first class international range. They are extremely eager to come to our next Pesta Sukan.

The next SEASA shoot will again be held in Singapore. But we have suggested that this be held in 1974 and have to wait for a postal vote on same. We have also suggested that Philippines be invited to join SEASA.

Trap House: This has now been completed and we are proceeding with the electrical installation. By December 16 we hope to use the new trap house which will now comply with International standard.

MILTON TAN, President,
Singapore Gun Club.

Mr C. M. Berry,

Dear Sir,

Just a few lines in reply to your letter which I was very pleased to receive and would like to thank you for taking the time to write such a long letter to me. I have enclosed the photo that you have asked for and I will be joining the ACTA next shoot that we go to.

Yours sincerely,

Dear Sir,

Further to my letter dated September 15, 1972, I am now able to advise you that no duck shooting season will take place in the Eucla and South West Land Divisions of this State this summer.

This is the fourth year in succession that rainfall has been below average and many of the drought refuge areas are dry or nearly so.

The open season in the North West and Kimberley Land Divisions is continuous throughout the year.

Yours faithfully,

R. F. WARD,

for Extension and Publicity Officer.

Warracknabeal Gun Club (Victoria) bestowed Club Honorary Life Membership on Mr Ben Schilling in 1961. The club has now decided, in collaboration with the Schilling family, to establish the "Ben Schilling Perpetual Shield" — this is marked as a tribute to Ben, recording the club's gratitude for some 38 years of continuous service to the Warracknabeal Diggers Gun Club. He was Club President 1964-1966.

The Ben Schilling Perpetual Shield will be competed for in the form of a teams shoot. A team of seven from any club is eligible. The best five scores of the seven will be tallied to obtain the team aggregate score and towards a possible 100/100. Each team must have a minimum of three shooters from any one club. The shoot to be held at the Warracknabeal Gun Club once each year. Shield to be retained by the winning team until the shoot is next contested. An individual trophy will be presented to each team member of the winning team.

At present, Ben is confined to a hospital bed and may spend most of the rest of his life there, although he wishes to see the first such team shoot on February 10, 1973.

From left to right — Bert Milbourne, Club President holds the shield on display next to Life Member Ben Schilling and his son Bronc Schilling.

Shooting was of high standard considering windy conditions. Shooters disapproved of the graded shoot because of—

(a) Length of time taken for shoot-offs which other shooters were not competing.

(b) Cost of ammunition to shooters in shoot-offs who were not fortunate enough to win prizes.

(c) Cost to clubs for extra clays involved in shoot-offs.

SUPERGRADE TRAP AND SKEET

INTRODUCING THE NEW PRESTIGE TRAP GUN MODEL 201

One look and you know this as a high quality, superbly crafted under and over shotgun in the traditional European finish and style. Faultless workmanship, top quality, specially selected materials. Trigger system is recoil operated for consistent, even, smooth pulls. Barrels are heavily chrome plated, except in the choke areas to allow discriminating shooters to have the choking modified by a gunsmith to suit their special needs. Guns originally supplied with full choke in a choice of 28 or 30 in. barrels; rib 10 mm with central sighting channel. Superior oil type finish on stock. Price \$450.00.

MODEL 101 UNDER AND OVER TRAP GUN

Prestige competition winner specially made for Australian Trap Shooting with a combination of features unavailable in other guns. Trigger independent of recoil; chrome-lined barrels; twin sighting beads; 10 mm or 15 mm rib barrels, 28 in. or 30 in. modified and full choke. 10 mm rib barrel \$315.00. 15 mm rib barrel \$320.00.

MODEL 101 UNDER AND OVER SKEET GUN

Top skeet shooters score 25 after 25 using this gun with 26 in. or 28 in. barrel lengths. Chokes are Skeet 1 and Skeet 2. Chrome-lined barrels; twin-sighting beads; trigger operation is independent of recoil. Superb top-grade finish \$275.00.

MODEL 1400 TRAP & SKEET GUNS

For those who prefer an automatic to an under and over for trap and skeet shooting, the model 1400 gas operated automatic is the ideal choice. Trap gun has Monte Carlo stock; skeet gun has straight stock. Attractively figured in genuine figured American walnut. Trap gun \$210.00. Skeet gun \$199.00.

AMATEUR RULES

A. The principles of amateurism, laid down in the declaration of the International Olympic Committee at its Congress of 1947 are valid for all members of the International Shooting Union.

B. Money prizes up to \$25 U.S. or its equivalent are considered as a compensation for costs. If there is a shooting contest covering several days, money totalling \$100 or its equivalent within the same week are also considered a compensation for costs without detailed specification from the competitors. Money prizes exceeding the above-mentioned sums must be given to the club to which the competitor belongs. The competitor may receive from his club only the sum corresponding to his actual costs, which may include:

1. Entrance Fees.
2. Ammunition.
3. Travelling expenses.
4. Costs for meals and lodgings (in relation to the general level and normally not exceeding 10 dollars or 3 pounds or 35 Swiss francs, etc., per day).

C. This article applies to all categories of shooting supervised by the International Shooting Union.

D. An amateur should not be considered as:

1. Anyone who gives an exhibition in marksmanship for any pecuniary reward.
2. Anyone whose principal profession is test shooting of guns or ammunition. The operator of a test shooting machine is not necessarily included in this category.
3. Anyone who is a professional instructor in shooting.
4. Anyone who accepts money prizes in excess of those allowed according to the rules of amateurism.

E. Paragraphs D2 and 3 categories do not apply to a member of the armed forces, who acts as an instructor, if his work is solely educational and cannot be considered as coaching of shooters for competition.

F. The competitor should fulfil the qualifications of amateurism laid down by the National Olympic Committee of his country.

G. In judging the status as an amateur according to article D and E, the activities of the competitor during the past two years should be considered.

1972 A.C.T.A. Registration List

As received to 6th December, 1972

* Trap Referee † Skeet Referee
** Trap Referee Examiner †† Skeet Referee Examiner
‡ Life Registered Shooter (DC) Duplicate Card Issued

- (1) As of 1/1/72 past A.C.T.A. rules allowing inward movement on handicap ratings are discontinued, except for extreme physical disabilities.
- (2) At the time of each annual shooter re-registration, a one yard inward will be granted by A.C.T.A. and shown on the handicap card, as issued accordingly — excepting those shooters who request to remain on their earned handicaps.

COMMON MARK SHOOTING

- (i) Shooters are to be classed into three grades by their performance, excluding shoot-offs, over each 500 targets from 16 yards, double barrel, single barrel or points score with broken targets to count.
- (ii) Handicapping procedures are applicable in championships and graded events, in accordance with Rule 149, to shooters who are competing on or behind their handicap marks.
- (iii) Shooters may compete in one grade only. Any shooters may nominate in any grade higher than his own, but by doing so he forfeits the right to compete in his own grade.
- (iv) Shooters mark their own cards progressively for common mark shooting and at November 30 annually AND/OR after 500 programmed targets the card must be submitted to the club secretary for correct classification and reporting to A.C.T.A. central records.
- (v) The initial grades are to be:
Australian A class = 90% to 100%
Australian B class = 85% and under 90%
Australian C class = all under 85%
- (vi) A shooter's open handicap is achieved under the handicapping formula applicable to handicap events only.

the hot shots

Five power
packed shot shells
for shooters
who don't like to
miss out on anything.

WINCHESTER

That's the shot
