four aces

the best deal for TRAPSHOOTERS

BLUE STAR PLASTIC needs no introduction. It is the most popular cartridge in Australia for trap and field and is renowned for its regular patterns and consistent ballistics. Muzzle velocity — 1260 ft/384 metres per second. Available in a full range of shot sizes.

BLUE STAR SPECIAL TRAP has a special feature — **LOW RECOIL**. You can take it easy with Special Trap and make sure of those long breaks. Muzzle velocity 1150 ft/350 metres per second. Shot sizes 7, 8 and 9.

BLUE STAR SKEET provides the essential element of successful skeet shooting — a full thirty inch shot pattern at 21 yards range. Muzzle velocity 1260 ft/384 metres per second. Shot sizes 8 and 9.

BLUE STAR TRENCH Olympic Trench is more difficult than D.T.L. shooting as the targets move at a higher velocity and differing heights. This requires a faster cartridge with a tighter pattern — the attributes of Blue Star Trench. Muzzle velocity 1280 ft/390 metres per second. Loaded with nickel plated shot in size 7.

IMI AUSTRALIA LTD.

A special tip for reloaders — the Four Aces are loaded with  matched components. You can make sure of ace reloads too.

FRONT COVER—

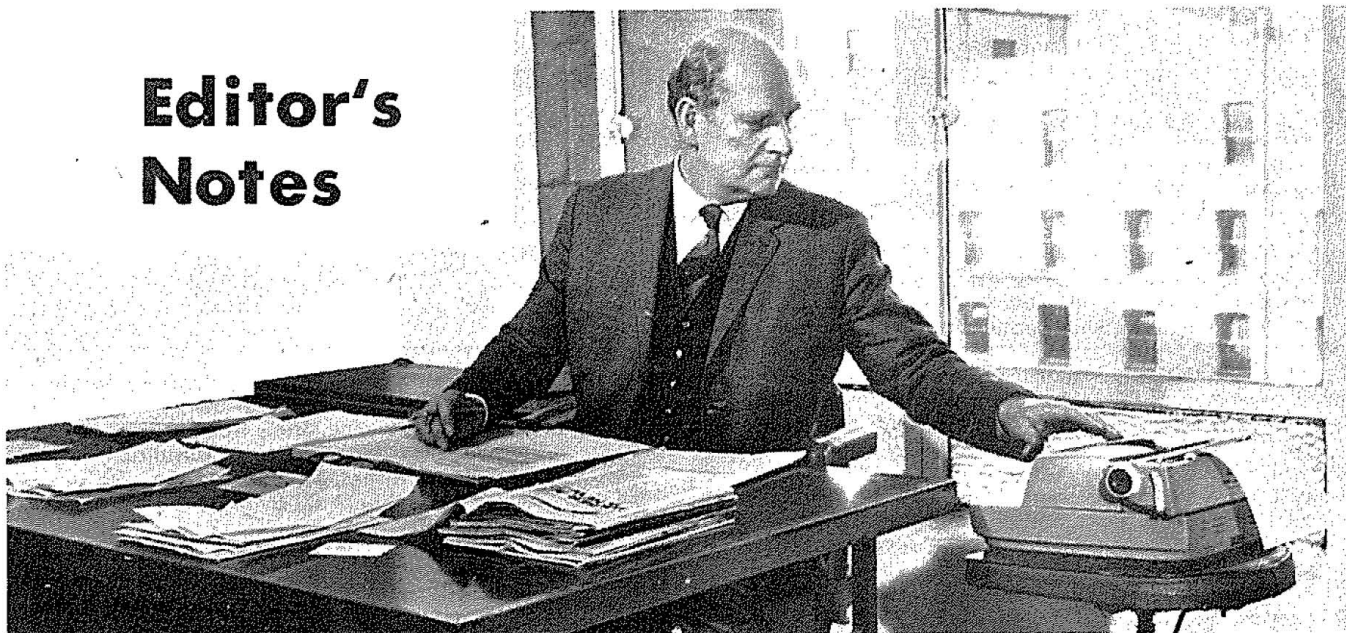

Mrs Sue Bow of South Australia who first commenced clay target shooting in July 1973, beat 51 men to win the West Darling Double Barrel Championship at Broken Hill (N.S.W.) on May 9, 1976.

She was the only woman in the event and is the first woman ever to win it. Sue took the title by hitting 34 clay birds in succession....

With six others Sue shot the possible 20-20 and after 8 more shots she continued with two others.

Editor's Notes

To renew acquaintances and also to compete in the New Caledonia Championships some Australian clay target shooters went to Noumea in 1974 and 1975.

The New Caledonian 1976 Championships are scheduled for August 7th to 13th and are available for those seeking to make the trip.

Details are contained separately in this publication.

The 1976 Olympic Games commence on July 17th at Montreal, Canada, and the main group of competitors will arrive at Montreal some days before the official opening day.

The Australian 1976 Olympic Team will depart from Melbourne on Sunday 4th July — the Games are being conducted earlier than previous Olympic Games.

The Australian Shooting Association — of which the A.C.T.A. is a member — submitted the respective names of shooter nominees, together with their scores, to the A.O.F.

Verbally to the A.C.T.A. then came the information (see page 2 of May 1976 Shooting News) that the shooting section of Australia's 1976 Olympic Games Team would comprise Don Brook and Don Gowland (both small-bore rifle), Norman Harrison (free pistol), Alistar Taransky (rapid fire pistol) and Peter Wray (Olympic trench).

Peter Wray, aged 38, of Tullamarine, Victoria, has been shooting competitively at clay targets since his early youth, with consistent success. He first registered with A.C.T.A. in 1949.

Peter will represent Australia in the Olympic Trench section of the shooting sports of the 1976 Olympic Games (the Olympic Trench method uses 15 fixed angle traps with targets thrown 75 metres (plus or minus 5 metres) if measured over level ground and within lateral boundaries of about 45 degrees right or left of an imaginary line drawn through the centre of each shooting station and the centre trap in each corresponding group. (See Olympic shooting Rules published as an insertion within the Australian Trapshooting Rules Handbook). Peter Wray may also represent Australia in the Skeet.

A bi-annual meeting of the Australian Shooting Association was held at Noah's Palm Lake Motor Inn, Queen's Road, Melbourne, from 9.30 a.m. till 4.15 p.m. on Saturday, 4th June, 1976.

Present as A.C.T.A. Delegates were Mr Peter L. Papps (of A.C.T. International Gun Club) and Mr C. Mervyn Berry (Secretary, A.C.T.A.).

Some of the matters discussed were:—

1. A suggestion that when National Championship program are conducted by affiliates that consideration be given to inviting an official of the Australian Olympic Federation to the presentation of trophies.
2. There are flaws in the selection of nominees for teams for Olympic Games, British Commonwealth Games and I.S.U. World championships in the number of selection programs conducted by each affiliate.

(Editor's note: as time progresses, the A.C.T.A. is establishing I.S.U. grounds in several locations and thus may soon be able to conduct more eliminations. It must be remembered that submissions of shooter names as nominees to the A.O.F. should be accompanied by several sets of international standard scores, established within the period concerned, clearly indicating a personal history for consideration by A.O.F. officials).

3. I.S.U. World Championships —
 - (i) 1976 — NIL — as none are held during an Olympic Games year.
 - (ii) 1977 — September 3 to 18 at Antibes, France — trench and skeet only.
 - (iii) 1978 — KOREA — and the Australian Shooting Association approves any Australian team as selected, being accompanied by a tourist group — details to be yet made available.
4. British Commonwealth Games 1978 will be conducted at Edmonton, Canada, from August 3rd to 12th.

(Editor's note: Subject to A.C.T.A. considerations at the time, separate teams may be needed to field competitors in the 1978 Commonwealth Games and the I.S.U. World Championships to avoid clashing).

The Secretary,
Mr C. M. Berry,
A.C.T.A. Box 2038S
G.P.O. Melbourne. 3001.

Dear Sir,

The committee wish to advise you that we will not be holding any further organised competition shoots until further notice. This is due to the difficulties involved in successfully planning for a shoot. Several shoots have had to be cancelled at the last moment because of most of the members have had to work. So to stop inconvenience to visiting shooters we have decided to use the club for practice only until a more stable situation occurs.

The committee would be grateful if you could publish a short note to this effect in the A.C.T.A. Shooting News. We would also like to take the chance to thank all the visiting shooters for their help in making the few shoots we held a success.

The members will continue to shoot competition at the other local clubs in the area and the club will remain registered.

Yours faithfully,
S. J. PICKERING, Secretary.

(Editor's Note: Club has been asked to advise A.C.T.A., if and when reforming, for guidance as to simple but necessary legal formalities).

B.P. 2993
Noumea
New Caledonia

Dear Sir,

We take pleasure in sending you the official program of the International "OPEN" Ball Trap Championships of New-Caledonia, 1976, which will take place on Universal Trench, American Trench and skeet, from the 7th to the 13th of August, 1976. We should be very pleased if you can participate in these championships, and if you can advise shooters or friends of yours.

We wish that you will be in a position to bring your inscription to our notice so quickly.

Please let us have, for each participating shooter, the brand, type and number of the gun, in order to make easier administrative formalities at your arrival.

For any other information, our secretariate place himself at your entire disposal:

Address: Mr R. FERNIZON,

NORTHAM, 16-5-76 — Fine, sunny. Attendance 23.
 Program: 50 Skeet. Doug Morgan and Jim Morgan were
 equal "off the gun" with scores of 46 each and also tied
 for the handicap section. Doug won the resultant shoot off
 leaving Jim in second place. Three shooters shared third
 place, they were Bruce Hopkins, Max Draper and Ron
 Baker who received two points each towards the aggre-
 gate competition. A feature of the Aggregate this year is
 the number of shooters who have their name on the board
 so early in the season. After Sundays allocation of points
 Doug Morgan has moved into the lead with 9 points to
 his credit, followed by John Kevill with 8, Ron Baker 7.

Three shooters, Merv Madew, Bruce Hopkins and David
 Kevill follow all with 5 points each. Approximately 10 other
 members have points credited, and only have to score well
 to lift themselves into commanding position.

NORTHAM, 30-5-76 — Fine, cool. Attendance 27.
 Program: 5 target DB. 5 SB. 10 Continental. 10 Pair Double
 Rise — 10 Walk up. Eddie Humphrey from York won in
 convincing style the mixed targets program held by
 Northam Gun Club at Island Farm on Sunday. After a break
 away from shooting for some time, he not only won the
 Handicap section but also the "Best off the Gun", with
 a score of 40 which after handicap adjustment gave him
 a gross of 42.5. Bruce Smart and Merv Madew shared second
 place with a gross of 41 and J. Wansbrough and Max
 Draper shared third place with 40 points.

Doug Morgan still leads the aggregate points competition
 although by an ever decreasing margin. He has a score of
 9 to his credit closely followed by Merv Madew with 8.5,
 J. Kevill 8, R. Baker 7 and J. Morgan 7. There are now
 16 members with points to their credit on the "Aggregate"
 Chart, all of whom are well in the running and only need
 to score well in one or two events to take over the lead.

Shooters in the nearer clubs not supporting the shoot, as was expected. M. Richards from Geelong Gun Club was the most distant attender. Congratulations to Phil Mules on taking out the Winchester event. Phil and Johnny Muscio being the only two shooters to score the possible 30-30. Unfortunately for Johnny he missed his first target in the shoot-off, leaving the gate open for Phil who did not give any second chances. Eleven shooters in all received re-handicaps over both days. New shooter R. Juers of Mannum shot very well to win the Cartridge Shoot from J. Muscio and received a 2m Hcp 11 to 13, congratulations. B. Bisi won the Overall High Gun Trophy from I. Campbell. Committee thanks all trophy donors especially Winchester and their rep. Dick Ayers, for attending.

Impact-resistant **SHOOTING GLASSES**

***When you see more clearly
you shoot more targets!***

The sharper, clearer vision with Stirling shooting glasses will surely lift your score, because they contrast your target against the background. The large lenses give undistorted vision from centre to edge, and properly-fitted Stirling glasses won't fog or obscure your vision, because they ride high on the face.

YELLOW LENS: For medium to poor light conditions, they brighten the background yet accentuate the black. The difference is amazing; look for yourself.

GREEN OR BROWN LENS: These eliminate the glare and squinting caused by bright sunlight; keep your eyes fresh all day and contrast black against the background.

Dear Reloader

We don't have to tell you that over the last few years Winchester Components have been in short supply.

Basically the reason for this, has been that the full production capacity of our component manufacturing facilities, has been almost totally absorbed by an unprecedented demand, by both the Domestic & Export markets, for our factory loaded shotshells.

Recognising this fact, we have now completed extensions to our Geelong plant, and production of components increased to a level, that we can now virtually guarantee, the short supply situation will never recur.

All State Sales Offices, are now geared to supply the anticipated demand.

Following the dramatic entry of Winchester USA into the component powder market, we are proud to offer these powders in factory sealed - canisters, packed in the USA, together with the most technical, modern, up to date Reloading Data available. (See rear cover)

We are extremely confident that the tremendous manufacturing capabilities of the Olin Corporation USA plant, will guarantee continuity of powder supply for years to come.

At Gun Clubs, Field's Game, Schoolboys shoots, or whatever, plus daily in the mail, we are asked, "Can we duplicate your factory ammo?" eg AA's, Red Ranger, Black Ranger, Quail or Rabbit loads etc etc.

Why not? it is fairly common knowledge that our 3 dram AA's start moving at 1200 FPS AV, Red Ranger 1300 FPS AV & Black Ranger (The fastest 1 7/8 oz factory loaded shotshell in Australia) slips along at 1350 FPS AV.

On the rear page is all the Data required to load the shell of your choice, we have included MEC Bush sizes, (Winchesters are now the Australian Agents for MEC) plus square & round bar sizes to cover Lyman, Fair, Texan, Redding, Pacific, Stirling, & other presses available in Australia.

Let's hope you find the Data, as a mate of mine would say, "As handy as a pocket in a shirt."

*** Winchester do not make 32 gram 20 gauge plastic wad — the data is provided as other brands may be available. This data refers only to specific components mentioned — check that the loading bars meter correct weight of powder and shot.

Data is also available for rifle and pistol

Reloading Facts

The following table gives approx. number of pellets per load shot size 2 to 9.

Shot Charge	#2	#4	#5	#6	#7 1/2	#8	#9
1 oz.	90	135	170	225	350	410	585
1 1/8 oz.	101	152	191	253	393	461	658
1 1/4 oz.	112	169	213	281	437	513	731

Wad Seating Pressure

Wad pressure on AA Wads is not critical.

Any pressure from zero to 40 pounds is acceptable — the only criteria is that the wads must be seated on the powder. (No air space should exist between wad and powder.) A safe level to use is 20 lbs.

10 Commandments for Reloaders

- Never load in haste — avoid distractions.
- Never smoke whilst handling powder or primers.
- Handle primers carefully.
- Store powder in a cool dry place.
- Never use a powder you cannot identify.
- Never mix powders.
- Never exceed recommended loads.
- Keep powder and primers out of the reach of children.
- Store powder only in its original container.
- Develop a loading routine to avoid mistakes.

A few of the advantages of using Winchester Ball Powder

- Very high grain density.
- Less muzzle flash.
- High accuracy (and ballistic uniformity).
- Uniform flow and packing qualities in powder measures result in more uniform "thrown" charges.
