# Presidents Notes

It is with regret I have to announce to A.C.T.A. members the resignation, through ill health, of our secretary/editor Mervyn Berry.

Mervyn was appointed to the position eleven years ago, by one of our past presidents, John Tyquin, following the resignation of Wm. McCullough, and during that time has carried out the very arduous duties of the office with little regard to his own time or health.

Many of the efficient systems now carried out and taken for granted, were first initiated by Mr Berry.

I personally have found him always willing and able to serve our sport with all the power at his command.

However, as the A.C.T.A. membership and kindred activities have grown, actually doubled in those eleven years, the position demands much more attention than he is physically able to give to it. For this reason and on written advice of his doctor, he resigned from the office as from 27th August, 1976.

---

## NEW SECRETARY

Mr N. J. SOUTHEY of Forest Hill, Victoria, has been appointed as the new Secretary of the A.C.T.A. He was recommended from seven applicants, five of whom were interviewed, by a three-man sub-committee and the recommendation was confirmed by the full executive committee following a personal attendance to that committee by Mr Southey.

Mr Southey will take up the position on October 11th, 1976.

---

## WAS THE WRAPPER OF YOUR SHOOTING NEWS CORRECTLY ADDRESSED?

If the address was incorrect, please send a note to A.C.T.A., G.P.O. Box 2038S, Melbourne, 3001. OUR mailing records will then be corrected — Thank you.

The vacancy has been widely advertised and several applications for the position have been received. These will be considered and a selection made by the full executive committee during the meeting on 13th, 14th and 15th September, 1976.

During the interim period I have placed Mrs Shirley Pike in charge of the office, and I have the utmost confidence in her ability to look after the affairs of the A.C.T.A.

If there are a few discrepancies in the News or other matters, please bear with us through a fairly difficult period. I can assure all that the committee is doing everything possible to get our operations back to normal.

— ALLAN PEDERSEN.

## VISIT OF FRANCHI GUNSMITH

*Giovanni Tosoni (left) discusses shotgun modifications with IMIA man Vince Romano.*

*Franchi recently flew to Australia their leading gunsmith, Giovanni Tosoni, to fit the new improved action in the Under and Over Shotguns held in stock by IMI Australia Ltd.*

*In addition guns were recalled from the trade so they could have their actions modified.*

*IMIA, Franchi's Australian Agents, had a problem because Giovanni did not speak a word of English. However with the help of two Italian-born employees at IMIA's factory at Deer Park, a solution was quickly found. Guiseppi (Joe) Carnovali acted as interpreter, and Vince Romano and his family agreed to billet him in their Deer Park home.*

*It wasn't long before Giovanni was "feeling at home" and there was much laughing and joking among the group.*

*The local gunsmiths who met Giovanni were impressed with his knowledge and work, and are looking forward to testing the guns.*

*Before returning to Italy Giovanni attended a league game of Australian Rules Football.*

# Parker-Hale 1200 Super

Excellent in design. Beautiful craftsmanship. Superb performance. For some a collector's rifle

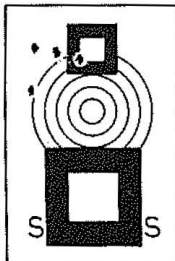

**So we put it to the test... straight from the carton fitted a scope, fired some rounds and.... a minute of angle.**

It's one thing to say a rifle is good. It's another thing to prove it to you. So, we thought we should give you a good look over the rifle and put it to a tough test.

Rather than test it ourselves we went straight to an independent expert—John Neville, champion benchrest shooter and member of the Sporting Shooters Association. We arranged with John to use a rifle straight from the carton—a .308 calibre. Only a scope was added—there was no tuning because we wanted to demonstrate the perfection that is achieved by the craftsmen at the Parker-Hale factory.

**Test Result.** John fired a few shots to settle the barrel down. And, even with these he thought he was getting very tight groups—in fact, one target showed 1.2 inches. With a group like that you could head shoot a rabbit at 100 yards.

John thought a few more rounds would enable it to show its true colours. Within minutes it was shooting a minute of angle.

Great tribute to Parker-Hale craftsmanship. A minute of angle from a 3.3 kg sporter that's straight from the box is really something great—particularly when you're not paying the earth. Actually, this Parker-Hale rifle is so sensibly priced—at around \$230 Suggested Retail (excl. scope.) Really, it's superb value.

As John said; "I'm amazed that a 3.3 kg sporter, without tuning, would shoot like that".

Let's look at this superb rifle—to see what you get for your money.

**The Stock and Forend.** Shaped from seasoned selected European Walnut so as to help overcome warping problems that can develop in some stocks and thereby cause inaccurate groups. Have a close look at the action to wood fit—you'll find that the stock's been ever so carefully inletted. An important aspect about the stock is the roll over Monte Carlo design with a cheekpiece—it really does help you correctly position your head easily and quickly.

Some of the other beautifully executed Parker-Hale features include neat skip checkering on the forend and a new shape wundhammer grip—this ensures a non slip grip in the hottest weather. Rosewood caps on the stock and forend and a deluxe double web rubber recoil pad—an added bonus that you don't often get even with higher priced rifles.

**The action.** The ever reliable Mauser action—recognised as one of the strongest commercial actions in the world. Front and rear locking lugs on the bolt give it tremendous strength and help to take "spring" out of the action thereby giving more accurate shooting.

**Barrel.** Made from top quality forged steel for longer barrel life and using the latest hammering technique to produce a next to perfect work hardened interior finish giving greater accuracy.

**Magazine.** Specially constructed to hold cartridges in position under recoil so as to avoid damage to the bullet tips. And, the magazine has the advantage of a hinged floor plate so as to enable fast emptying of unused cartridges.

**Trigger.** A target quality 18 ct. gold plated trigger of the single stage type adjustable for weight (between 0.9 kg to 2.3 kg) and backlash. An ideal combination for accurate shooting.

**Safety Catch.** One of the best types of catches there is. It locks the trigger, sear and bolt to positively prevent accidental discharge.

**Sights.** Fully adjustable rear sight and ramp mounted front bead sight with hood to prevent glare and to protect it against knocks. And here's a bonus for you. 'Scope' base blocks are supplied as a standard accessory. They are not fitted but the action is drilled and tapped ready to receive them.

**Range of Calibres.** Calibres available 22/250, .243 W, 6mm Rem., .270 W, .30/06, .308 W, 7mm Rem. Mag, 300 W Mag, and .25/06.

**Birmingham Proof House.** Every rifle that leaves the Parker-Hale factory has passed the most rigorous tests of strength and safety and they're carried out by the independent Birmingham Proof Authorities—look for this proof mark.

**Back up Service.** Parker-Hale rifles are distributed by IMI Australia Ltd., one of the biggest fire-arms and ammunition people in the country. IMI, and their associates have been in the business for over 100 years—you know you've got someone good and solid to turn to on service and spares.

Our August shoot was a very sad one — having lost our esteemed Vice-President Don Osborne on August 4th, at the early age of 39 years. Don was a terrific member in every way, and a real pal and friend to all who knew him. Work for the club was a delight and he would be the first to arrive and have things in order before anyone got there — and would not leave after the shoot until all the tidying up was done. He was a true sportsman.

# "G. B. CUSTOM CARTRIDGES - LOADED FOR TARGET & FIELD BY GEO. BIGGS

Over recent months "G.B. CUSTOM"  
cartridges have been used to win the  
following MAJOR events —

- ★ Singapore Pesta Suken Shooting Championships, gold, silver & bronze medals.
- ★ Commonwealth Skeet Championship — "A" Grade.
- ★ Victorian Skeet Championship.
- ★ Australian Record Skeet Break 215-215.
- ★ Victorian Interstate Skeet Team High Gun '75.
- ★ Numerous State, District & Club Titles.

The above results prove beyond doubt that "G.B. CUSTOM" loads provide the level of consistency necessary to produce top performance. Whether your piece of the action be Skeet, Trap or in the field, you will benefit from using "G.B. CUSTOM" for performance and economics!

President Fred O'Brien dreamed up the idea of the Mudlarks C'ship as we usually have bad weather for our August Shoot. This year has certainly been no exception. Raining continuously throughout the day. The Mudlarks C'ship is a novelty event consisting of five targets DB, five targets Pts Decision, five targets SB, five pair DR and 10 targets Continental Trap. It will be a yearly feature of our club from now on.

It was also pleasing to receive a visit from Mr C. Carol from H.M.A.S. Cerberus.
