Remington®

788 Bolt-Action Rifle

How much does accuracy have to cost?

If you think spending more will buy greater accuracy, think again, think Remington 788 — an outstanding buy at an exceptionally low price.

Here's why — Remington 788 is a hunting rifle that's made like a target rifle.

A properly bedded barrel, a bore straight and precise and an artillery-type bolt with nine extra heavy locking lugs. 788 has a silky-smooth trigger with no noticeable creep or drag.

Get target-rifle accuracy at a hunting-rifle price.

Available in six popular calibres, left handed versions in 6mm Rem. and 308 Win. only a few dollars more.

See your local gun shop today.

Secretary's Notes

Two pieces of exciting news have happened since my last column. The first is exciting in a constructive and progressive way and relates to the next step in the development of the Association's National Headquarters.

The Core Group met in Melbourne late in June and resolved the procedure to be followed in conducting the national referendum.

The referendum will be conducted within the club structure during July and August and registered shooters are encouraged to participate as fully as possible.

The second cause for excitement resulted from a totally different stimulus, and was of a very destructive nature. A group of sportsmen (if that is the correct term) was attending what has been widely reported in the National media as "a live pigeon trap shoot", when it was "visited" by police and wild life officers.

In the following two days, the media coverage very effectively destroyed the public acceptance and credibility of the 11000 responsible trap shooters in Australia — a credibility which has taken 40 years to develop.

And so we again saw a demonstration of the power of the press — a demonstration which added further weight to the policy of not providing any opportunities for an often proved "anti-shooting" press to press additional attacks against responsible firearms owners.

Since the late 1950s live pigeon shooting has been illegal in Victoria, which is where the "pinch" took place. It has been widely rumoured since then, that the enthusiasts have continued to follow their chosen "sport."

The Australian Clay Target Association does NOT condone organised illegal live target shooting. It is considered that such activities reflect poorly on Australia's hundreds of thousands of law abiding shooters, especially the 11000 plus responsible inanimate target trap shooters.

It will be a long time before the "legal" trap shooter regains his position of "social acceptance."

CORE GROUP MEETING

The Core Group of the Association, which consists of Messrs Hawkins, Porter and Holtfreter, met in Melbourne for two and a half days at the end of June.

Its role is to prepare recommendations on policy matters which are then submitted to the full Executive Committee for endorsement. In cases of urgency, a postal vote may be taken — however, in normal circumstances, the topics are placed on the agenda of the next Executive Meeting.

This sequence of events highlights one of the most serious weaknesses in the Association's administrative structure; that is that a growth organisation such as ours cannot continue to develop when restricted to only two decision making (Executive meetings) meetings per year.

In addition to the matter of the referendum to be conducted through Clubs on the subject of the National Headquarters, some other matters of reader interest arose from the meeting.

These include:

(a) The Association's Development Blueprint is to be updated, with a number of new initiatives to be included. Many of the fresh ideas are aimed at improving communications.

(b) For the first time, some responsible action was taken to recognise the importance of the National Training Camp policy being promoted by the ACT Shooting Association.

(c) The Core Group expressed an opinion that a minimum requirement of nine trap fields and five skeet fields should be considered by the Victorian Clay Target Association when considering its decision on the venue for the 1981 National Championships. Early estimates of the attendance vary from 700 to 800 competitors on the main days.

(d) Considerable discussion took place on the much debated problems resulting from the policy of regrading of competitors during an advertised program.

A recommendation is to be presented to the full Executive in which it is suggested that the practice be discontinued.

(e) The appointment of Newton Thomas as National Director of Coaching was re-affirmed for a further term. In doing so, the Core Group expressed its deep satisfaction with the way in which the Director has implemented the novice training program.

(f) A long discussion occurred on the possible adverse consequences to arise from night shooting. Although no recommendation came from the talks, there is mounting evidence to suggest that all clubs with night shooting facilities would be well advised to carefully consider the possible ill effects on its neighbors to arise from regular shooting noise at night.

Although a number of other areas were also covered, it would be discourteous and unwise to discuss them publicly before the full Executive Committee has had the opportunity to debate them.

The venue for the meeting was the Hotel Australia in Collins Street, Melbourne, which has also been chosen as the place for the September Executive "happening."

The Hotel's Chief Executive is Fritz Holler, a keen supporter of all shooting sports. This opportunity is taken to thank Mr Holler and his staff for the tremendous hospitality and assistance which was extended to the Core Group during its stay.

General

During the next few months, clay target teams will be making their presence felt overseas — the Air New Zealand Trap team at Vandalia USA, a Melbourne Gun Club team of trench and skeet shooters in Singapore, and perhaps (?) the top class Australian team in the 1979 World Championships to be held who knows where.

Good shooting,

NOEL J. SOUTHEY.

Jon Whittakers

**CTSN Talks to the
CHAMPIONS....**

JON WHITTAKERS

winner of the National Double Barrel Championship 1979 from a Record Field of 607 Shooters.

This is the second in a series of interviews with Australia's top clay busters. The interview was conducted soon after Jon had won the 1979 National Double Barrel Championship at Griffith, N.S.W.

CTSN: Well Jon you are top dog in a record field, a score of 200/200, all the goodies and probably thrilled to bits.

WHITTAKERS: A big thrill, yes it has really made my nationals.

CTSN: Is this your first big tournament win?

WHITTAKERS: Well, I got up in a Winchester Tournament during the past year but in fact this is the first Nationals I have ever been to.

CTSN: Your first Nationals ... not a bad way to start?

WHITTAKERS: No, not bad is it.?

CTSN: It was an interesting shoot off Jon. You ran out of light last night. How did you tackle the overnight break?

WHITTAKERS: Well, we shot on well into the dark last night, the main reason being that we did not want to sleep on it. But anyhow we did. It took a little while to get to sleep but I made it eventually. Came out early this morning to see what conditions were like and we got back into it.

CTSN: When you say we, you obviously mean Graham Willett.

WHITTAKERS: Yes, Graham is a good shot and one not to be taken lightly in a shoot-off like this. This mornings re-start of the shoot-off was obviously a danger period for both of us. Perhaps I was a little bit lucky. I have run up against Graham a lot of times before on the club circuit but I have only got down to a shoulder to shoulder shoot-off with him once before and I rolled over like a dog on that occasion about five targets later. So now it's one all.

CTSN: The score got to exactly 200, is that your highest break?

WHITTAKERS: No, my best winning break is 203, but I got involved in a shoot-off with Vin Ryan some time back and ran a 270 break before Vin rolled me.

CTSN: You picked a tough customer there.

WHITTAKERS: I sure did.

CTSN: You shoot a Winchester 101 we notice?

WHITTAKERS: Yes I do.

CTSN: And cartridges?

WHITTAKERS: Well, thats an interesting one, I was using Eley Special Trap in the first barrel and AA 325's in the second.

CTSN: What sort of choking have you in the 101?

WHITTAKERS: Actually it is straight out of the box, improved modified and full. Nothing at all done to it stock wise, in fact there is a interesting story behind the gun. I had a 101 previously that had some small thing go wrong and in the interim, Richard Allen of Echuca lent me this present 101. Well, I went to Mildura and had a heck of a good session with it so I never gave it back to him.

CTSN: Richard may have the job in front of him to get it back now.

WHITTAKERS: I would say he has no hope.

CTSN: You are from Deniliquin and a member of that club?

WHITTAKERS: Well yes and no. I am a member of Deniliquin in fact I am the president. But being so close to the border and NSW being as big as it is I have registered through Echuca and this gives me access to State shoots in Victoria.

CTSN: That's interesting. You are single we believe, what about some personal details?

WHITTAKERS: Yes I am not married, am 35 years old and am a grazier.

CTSN: Let's talk about your approach to the game Jon. You have a very easy style. Do you shoot each target as it comes?

WHITTAKERS: Well I think the whole performance is for fun. You know if the whole thing becomes serious that you can't enjoy it, it's a bit sad.

CTSN: That is a very refreshing approach.

WHITTAKERS: Perhaps so, its very nice to win of course but if you lose well so what, there is always next time. You know, I never shot at a clay target until I was over 30 and I can say that these last years have been the best of my life. The number of friends that you make and the nice people that you meet make this a great game.

CTSN: So you like to shoot it for fun.

WHITTAKERS: I sure do, and its been great fun today!

CTSN: Let's go back to the shoot-off Jon. The gesture that you and Graham Willett made last night of going on into the twilight when you both could have given it away 25 targets before was a fine one for the crowd. What were your thoughts then?

CTSN talks to the Champions — Cont'd

WHITTAKERS: I don't know really. I think we both had an equal chance but the thing in my mind was that it would be better to get it over with and not have to sleep on it. There were some hilarious theories floating around that have since come to my notice. One was that Graham being shorter and myself being taller, Graham would have an advantage in the dark in that the targets would get to the skyline earlier for him. I can't say that that theory makes a lot of sense.

CTSN: We were aware of a lot of talk around the dinner tables last night. The main consensus was that if Graham got dug in today you may have had a real tussle on your hands. As it turned out, it only went another 5 targets this morning. Any reason for this?

WHITTAKERS: Oh, there is no doubt in my mind that if Graham had got a start today the result could have been different. But, as I mentioned before, the first few targets the two of us faced today were the danger targets. Perhaps I was just a little lucky but being a new day its a whole new ball game. Another shoot if you like, and as it turned out it was only a 5 target event.

CTSN: How true. Let's move onto the targets. Have you found them difficult at all? There has been some talk that the light in the mornings makes them a bit difficult.

WHITTAKERS: Well, I don't know. I pulled a hairy second barrel on one this morning that I seemed to lose. But overall the targets have been excellent. Nice and even, and that is all a clay target shooter can ask for. I know there has been some talk around the grounds about the hardness of the targets but I have no complaints, they have broken as well as any I have shot at, in fact better than a lot I have shot on the Victorian scene earlier this year.

CTSN: On to technique Jon. Do you have any personal approaches to the game that differ from what is taught generally?

WHITTAKERS: No, not really. I point the gun at the normal places, call normally. Oh, I have tried all the little things that people tell you

but basically it is your own style that suits you that is the best. For example, I was told that it was not good form to watch other people's targets. So I started to look at the ground between shots. It did nothing for me or my scores so I watch every target that is thrown, and that makes sense because you understand the trap and any peculiar targets.

CTSN: You are an interesting shooter to watch Jon. What with all the facial expressions and the gestures, you are obviously very involved in the event and are thoroughly enjoying it when you are out there.

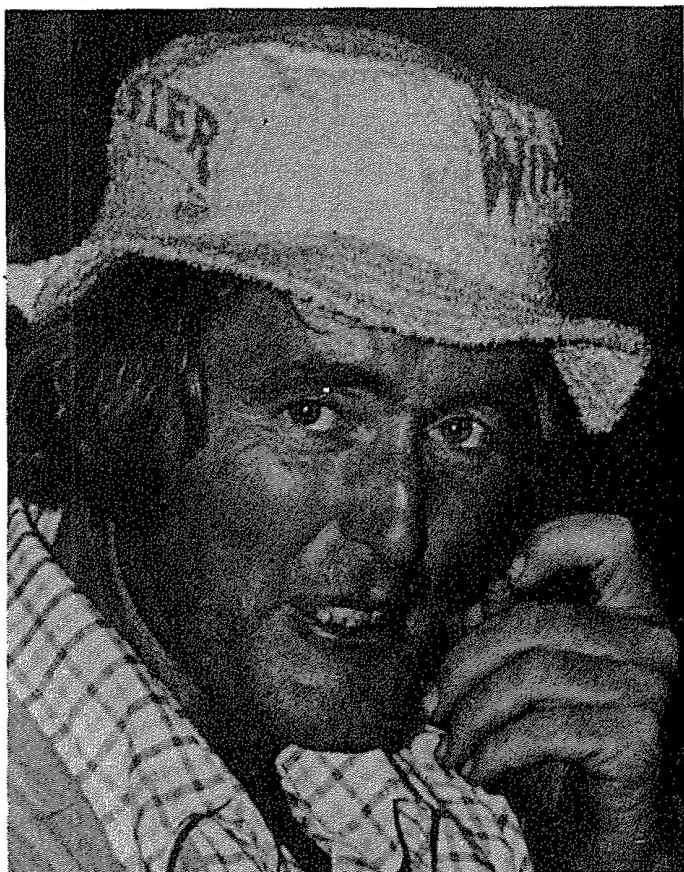

WHITTAKERS: I love it! You must react in some way or you become a machine and thats not for me. If you take a lean one with the second barrel it's a natural reaction, you are pleased to still be there in the shoot. If you start worrying about that last shot well the next one is going to be that much harder isn't it?

CTSN: That is a very valid comment Jon and thank you for sharing your Double Barrel win with us. We feel sure that it will be not too long before we are talking with you again. Best of luck for the rest of the program.

WHITTAKERS: Thank you for listening to my ramblings. ○

\$40 000 PROJECT AN IMMENSE SUCCESS

(Staff Writer)

What a great day it was for clay target shooting! What, you may ask?

The occasion was the opening of the Illawarra Gun Club clubhouse. This magnificent two-story building caps off three years of dedicated effort by the club committee.

Led by bustling aggressive president, Bill Jones, the club now has tangible evidence of the success available to those who believe in team work.

The clubhouse consists of a bar and entertaining area on the first floor, which opens onto a spacious terrace, from which the spectator gets magnificent views of the shooting grounds and surrounding country.

On the ground floor, there is a well equipped kitchen, the shoot manager's office and administration area, an extensive store and toilets. Provision has also been made for a children's creche.

An indication of the enthusiasm of shooters generally for the club's project can be taken from the long distances covered by many people, just to honor the opening.

Probably the best example is that of National President Ern Hawkins, who had committed himself to a function at Mildura Clay Target Gun Club on the Saturday. He then drove the 600 plus miles through Saturday night to attend the official ceremony at Illawarra on Sunday.

Past Illawarra and District Gun Club secretary, John Burrow, drove from Adelaide to be present — he brought with him the "wild" man from International Gun Club in South Australia, Peter Marcionni and Claude Verbis.

Bill Iles, the Overall High Gun Award winner at the recent National Championships, made the trip up from Melbourne. Many prominent New South Wales clubs were represented by either their president or secretary, all of which helped to add lustre to the occasion.

The attendance confirms the belief that where clubs provide the facilities AND the program, support from competitors and families will be strong.

Saturday night's smorgasbord dinner, combined with the drawing of the Calcutta was a most successful social function. Special mention must be made of the sterling effort put in by "auctioneer" Geoff Salmon, the Winchester sales rep. Geoff roared himself hoarse all night, and the only medicine he took was Coke.

Turning now to the shooting part of the weekend, the Club's four trap fields were fully extended to cope with the crowd — in fact, a minor part of the program had to be cancelled.

One of the greatest shooting efforts recorded in recent times was produced by Illawarra and District Gun Club secretary, John Maxwell.

John, along with his president Bill Jones, and many others on the hard working committee, had put in long hours putting the finishing touches to the clubhouse.

He then assisted Jean Chodat to run the shoot-office, and still found time to win the overall high gun award, only dropping one programmed target for the weekend.

Another good performance was carded by Rex Northcott, who shot 30 targets from 24 metres to not only win his group, but also gain the coveted "25 metre shooter" badge.

Kevin Perkins, an Illawarra committee member, won his second Winchester Tournament for the year, when he outlasted John Maxwell in a shoot-off that finished when John grassed his 94th target. Barry Duncan of West Wyalong was third, and Col Spence won the Veterans' Division. The junior section was won by G. McAllister and the Ladies division by Fay Quirk.

The overall winner of the Calcutta event was John Maxwell 95-95, who beat off a strong challenge from young Wyong shooter Kevin Thompson.

The conclusion of the Calcutta event spilled over into Monday (a public holiday) and the club added an extra scratch event to satisfy the 70 shooters who still hadn't had sufficient competition. What a great weekend!

TEAM SELECTION PROCEDURES

As reported in previous issues of Clay Target Shooting News, the Chairman of the Association's ISU Sub Committee, Mr Harry Somers arranged to prepare an explanation of the Association's team selection procedures for Olympic Trench and ISU Skeet competitions overseas.

The report is as follows:

1. The final selection qualifying rounds were conducted at Melbourne Gun Club in conjunction with the South Pacific Regional and Open Matches at Easter.
2. **Selection Panel**
 - 2.1 **ISU Sub Committee Members**
L.G. Connors, T. Reschke, H.S. Somers (chairman), J.N. Thomas, was present in his official role.
 - 2.2 **Co-opted Members**
In view of the absence of other members of the ISU Sub Committee the writer decided to expand the panel by co-option. Messrs W. Abbott and R.F. Buchan agreed to act on a co-opted basis.
3. **Selection Basis**
 - 3.1 The panel applied the basic selection formula which was used in Ranking for the 1978 Team Selection.
 - 3.2 However, in the light of the last few years experience, much closer attention was paid to the personality/psychological aspects.
 - a. The selection of representatives of our sport and our Nation in International Competitions under ISU rules requires a far more searching approach than, for example, the traditional method we have used in the selection of State and Mackintosh teams for postal matches.
 - b. It is the writer's view that as our development of involvement in other shoulder to shoulder overseas matches grows, eg USA, we will need to apply similar selection criteria to ensure worthy representation, to justify the expenditure and to uphold the image of our Association and our Nation as competitors and sportsmen.
 - c. The assessment of these factors is necessary from the following viewpoint:
 - (a) The individual competitors must be able to lift their shooting performance under the stimulus of world class competitive pressure, simply holding Australian level scores is not enough, and needless to say, a single team member who wilts under top pressure means disaster overall.
 - (b) Each member of the team must be compatible with every other team member.
A single disruptive element is sufficient to cause friction and add unwanted stresses in an already stressful environment, with detrimental overall effect on performance.
 - (c) Each member must be totally dedicated to the team and team's performance.
 - (d) Each member must be strongly self-disciplined as well as amenable to external discipline, and fully prepared to comply with instructions, orders, and directives from Coach, Section Manager and/or Team Manager.
These officials cannot be expected to devote valuable time and effort to bringing erring or wayward team members into line, their responsibilities and duties are heavy, and such time taken up, is time not available to devote to the positive benefit of the team.
 - d. It is acknowledged that assessment of these personal/psychological aspects is the most difficult part of the selection process.
It can rightly be argued that none of the panel are trained in the behavioural sciences, however, as mature, responsible men who have had years of experience in our sport, as well as in working with, employing, controlling, and/or managing people, who debated each individual assessment out to unanimous agreement, we believe our judgements have been objective and scrupulously honest.
4. **Automatic Selections**
The ISU Sub Committee accepted the recommendation of Newton Thomas in December, 1978 and nominated Rumbel and Ellis (Trench), Crikis and Summers (Skeet) as 1979 team

members without the need to take part in qualifying rounds and this decision was endorsed by the full ACTA National Executive in March, 1979. (It is intended to formally cover this whole subject in a separate report).

In essence these four shooters are the nucleus of a National squad, all in fact took part in qualifying round. Ranking scores of these shooters are included in the tables following for comparative purposes and include their performances in National and Overseas matches.

5 Performances Considered

In view of the need to assess shooter's performance under pressure as well as the problem we ran into this year in being forced to conduct qualifying rounds over a very restricted period — an occurrence we must not repeat, the following performances were taken into consideration:

- 5.1 1978 National ISU Titles (Adelaide)
- 5.2 1978 Commonwealth Games (as applicable)
- 5.3 1978 World Championships (as applicable)
- 5.4 1979 Qualifying Rounds
- 5.5 1979 South Pacific Regional and Open Titles
- 5.6 Best and worst scores were also looked at as well as performance trends.

Note: In analysing qualifying round performances it was disturbing to note that a few shooters dropped out of 200 target matches after a poor performance over the first 100 targets thus nullifying that performance for consideration.

6. 1979 ISU Team Selection

All members of the ACTA National Executive have been fully informed of the detailed deliberations of the Selection Panel.

The panel acted in accordance with a motion carried at a full executive meeting in March, 1979.

Their decisions are regarded as absolutely responsible and in the best interests of our Association and Australia's participation in shooting sports under ISU rules.

The selections are wholeheartedly endorsed by the National Executive who extend their congratulations and best wishes to those selected.

Experience of the last few years clearly demonstrates that factors other than the basic technical ability to break targets must be taken into consideration in formulating teams for this type of International competitions. These factors are to a large degree personal, the ACTA executive considers the evaluation of these factors to be confidential and will not enter into any correspondence or public debate relevant to such evaluations.

NOTES

(1) ISU Skeet has not yet developed the depth which has been building up in trench and in fact the gap between the top four shooters and the rest, was so wide as to render the selection of shooters from outside those four totally unjustifiable.

(2) The reduction of the 1979 Skeet team to three was made for valid reasons.

It is stressed that this decision is relevant only to 1979. Future teams will be structured in line with circumstances effective at the time of selection. ○

QUEEN'S BIRTHDAY WEEKEND

A BONANZA FOR NORTH EASTERN VICTORIAN SHOOTERS

from Stanley Stafford

Three days of shooting were planned with the opening day being Saturday. This day was set aside for the opening of Wangaratta Gun Club's Coaching Clinic. With recently appointed Club coach Mr Dick English in charge of operations, approximately 50 new and recently introduced shooters attended. Support from experienced shooters was also strong. With assistance from club members all shooters were particularly well catered for.

• Wangaratta Gun Club Coach, Dick English.

The number of school boys and girls in attendance has given the club tremendous confidence to plan bigger clinics in the near future, when it is hoped that the assistance of perhaps State or National coaches will be available as these seem warranted.

On Sunday, June 17, a skeet championship was held consisting of 50 targets. This event was won by Bill Gribben from Shepparton - perhaps better known in DTL circles. However, we have seen Billy dedicating himself to Skeet over the last 12 months along with a couple of other Shepparton shooters who are fast cutting their handicaps back. Congratulations from all are extended to Bill for his win.

The scores were: 0-1 W. Gribben 68-68 A & OA, 2-3 I. Reith 46-50, 4-10 G. Rudd 48-50.

Monday, June 18, the day the committee had worked and planned for to be the "one day of the year" had arrived.

The day dawned clear and cool - ideal conditions but something bigger was in the minds of all committee men and members of the Wangaratta Gun Club. IT WAS A TRIBUTE AND PRESENTATION TO GEORGE WALKER Esq.

George Walker is a man most easily described as a person who makes his way into your company with ease and contemporary style.

A Bonanza for North Eastern Victorian shooters — Cont'd.

A man that it is a pleasure to talk to and have a relaxed conversation with. As the day wore on targets were won and lost but at last the time came when the presentation was to be made.

George Walker was called forward not knowing the reason why, but it was all written on the plaque presented to George, which was inscribed as follows:

"To George Walker in appreciation of his outstanding service and contribution to the Wangaratta Gun Club during his 50 years of membership."

Monday's results were: 20 Target Gun Handicap: 1st Roy Ehlers 34-34, 2nd Gary Sanders 33-34, 3rd Stan Rentsch 25-26.

Yardage prizes were won by: 11-13 Ian Erbacher; 14-17 Peter Jones (NZeland); 18-21 Dave Gittings; 22-25 Col Kneebone.

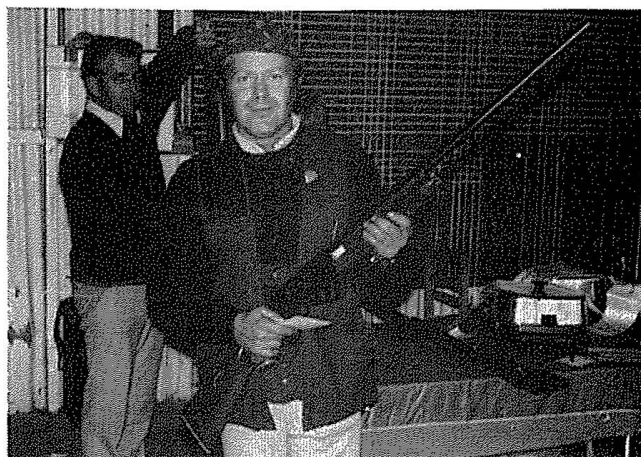

King Valley Continental Championship: A grade and overall Gary Morre 20-20; B grade P. Jones 21-22; C grade C. Miller 18-20.

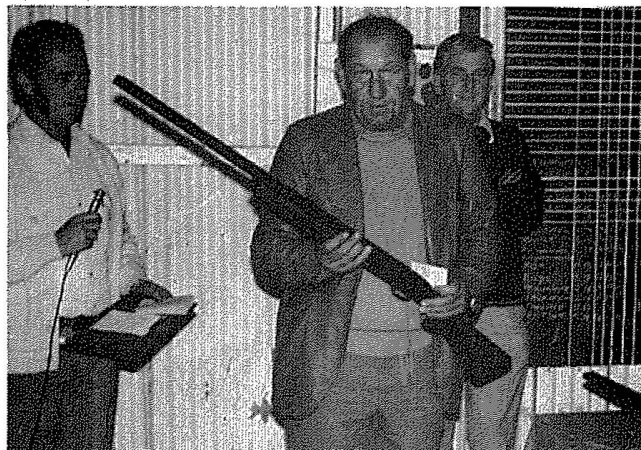

● George Walker (right) after the presentation made by Wangaratta Gun Club. Left, with back to camera is past president, Jack Stamp; behind him is president Peter French while Kevin "Grumpy" Law looks on.

● Roy Ehlers who won the main trophy in the handicap event.

● Gary Sanders was runner up to Ehlers in the main event.

● Stan Rentsch came all the way from Hamilton in western Victoria to give the local competitors a push — Stan filled third place in the main event.

Northern Eastern Zone Single Barrel Championship: 1st Vic Russell, 2nd P. Jones, 3rd R. Fox, Front Marker Trophy to N. Phipps.

The high gun trophy of \$25 cash donated by the North East windscreen and Radiator Service was won by visiting New Zealander shooter Peter Jones.

The Wangaratta Gun Club wishes to extend their thanks to all the shooters who travelled from far and near to help make this Queen's Birthday Shoot a great success. ○

AROUND THE TRAPS

The author, Laurie Connors, with his wife Agnes, who must be one of the strongest non-participant supporters clay target shooting has.

Sunday, June 3, 1979.

In ideal shooting conditions Mildura Gun Club conducted a fund raising shoot on behalf of club member Jim Finis, who has been selected to represent Australia overseas in ISU trench shooting later this year.

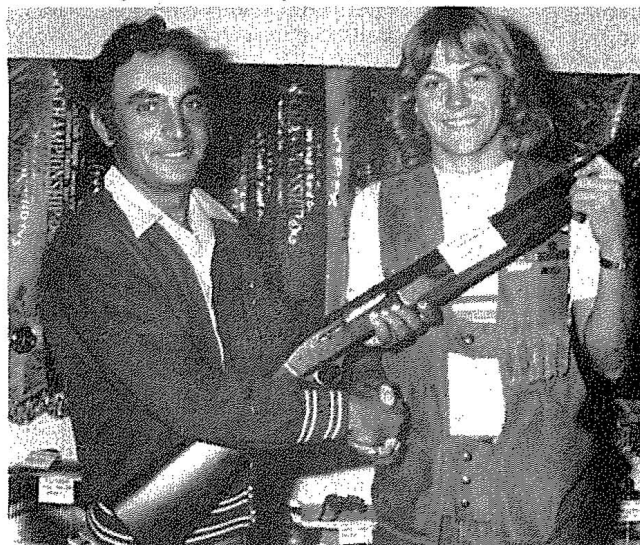

Sixty-one shooters turned up to enter a four event program. Local firms gave support by providing high value trophies for the various events.

A three man team trophy shoot shot from 16m for registered and unregistered shooters proved exceptionally popular. The prizes were three primus BarbiQs valued at \$80 each for the top team in each section.

The registered trio of Frank Howard, Gus Clarkson and Graeme Mills shot 44-45 to collect a Barbie-Q each and the unregistered division was won by Rob Faux, Peter Wilson and Rob Vale.

In the trophy shoot that followed for registered and unregistered shooters, Bill Drew shot 53-53 to win first prize with Deserie Wakefield running second 52-53 and Mark Dellar shooting 33-4 to run third. Rob Faux shot 22-24 to collect first in the unregistered section with Ron Koponica 21-24 second and Stewart Scherger 19-22 third.

Deserie Wakefield 20-20 collected the ladies trophy and Mark Dellar 20-20 proved to be best junior in this event.

• Top Mildura junior shooter Mark Dellar (right) says "thanks, Jim!" as he is presented with the Luigi Franchi auto he won at the Jim Finis Fund Raising Shoot.

The fund raising championship which carried a Luigi Franchi 500 Automatic as first prize for overall winner was taken out by club junior shooter Mark Dellar 38-38. Trophies were also provided for registered and unregistered shooters and Brian Loxton won first in the registered section 37-38. Bill Drew was second 30-31 and Deserie Wakefield third 25-26. Peter Wilson collected first in the unregistered 20-20, Trevor King second 20-23 and Ron Koponica 19-23 gained third trophy. Deserie Wakefield took out the ladies trophy 20-20 and Mark Dellar 20-20 was again best junior in this event.

To keep the pressure on all competitors, an overall high gun trophy was provided for both registered and unregistered shooters. Sixteen year old Mark Dellar, one of the club's top junior shooters won the registered high gun trophy after a shoot off with Bill Drew and Deserie Wakefield. These three shooters carded a possible 60-60 over the four events. It took another 14 targets for Mark to prove he was going to be top gun on the day and win the high gun trophy 74-74. Ron King had no opposition to win the unregistered high gun trophy 52-60.

Through this column, Jim Finis along with Mildura Gun Club would like to express their appreciation to all who supported the fund raising by their attendance and to the following donors of trophies and monetary support: H & M Outdoor Traders, Olympic Clay Targets, The "River Boat", Sunraysia Trading, Eley Ammunition, McEwans, Winchester, Mallee Building and Electrical Supplies, Quyen, North West Zone, Gary McEwan, Don Andrews, Sam Condo, A.E. Wilkinson and Warracknabeal Gun Club.

Sunday June 10, 1979.

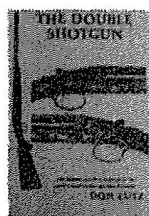

The North West Zone Council conducted a program meeting with all member clubs at Donald this day. The meeting was held at the

Published by Winchester Press

Probably one of the best and most informative books ever written by an American on the concept of the Double Shotgun. Zutz compares the fine doubles from all over the world with a rare grasp of his subject. Of 260 pages it explains the subtle wing shooting advantages offered by the double shotgun, be it English, European, American or Japanese. Zutz explains also, why and how they act as they do. There are excellent chapters on Actions, Bolting, Triggers and Locks but more to the point they are discussed in a very simple, straightforward way, easily understood. Essential reading for any shotgunner who has an interest in the Double Barreled Shotgun.

old Donald Gun Club site and it was most gratifying to the North West Zone to see the number of clubs in the zone represented at this meeting. We must succeed as a zone if clubs continue to attend and support zone activities in this manner.

John Clark, Warracknabeal Gun Club secretary and council member has again taken the responsibility of collating the programs on behalf of the clubs present and forwarding same to our State Secretary.

Kerang Gun Club have added New Year's Day to their calendar of shoots and a good program is being conducted by the club on that day in future. Shooters interested should watch the program booklet and CTSN for details.

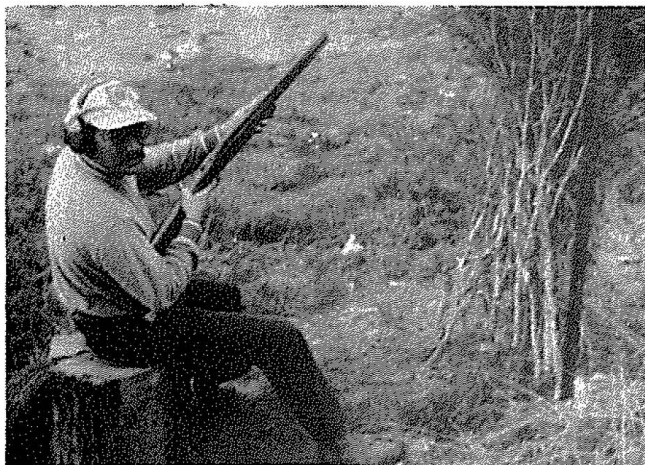

Sunday June 10, 1979.

Terry Scott and his fiancée Kaylee Tregonning, both officials on the North West Zone Council, invited my wife Agnes and myself to be their guests and spend the afternoon with them. We were taken to see over their future home in Horsham which they recently purchased in preparation for their big day next February. We then headed for the Natimuk Field and Game Club where a simulated range is installed. It was my first visit to this club and although it is not registered with the ACTA most of the shooters competing and running the shoot are connected with registered gun clubs in the area.

The program consisted of four rounds being shot over various traps set amongst trees and along-side a creek. The round started at or near the club house and the traps were set in a circle bringing the shooters back to the club house again on completion of the round.

● A MATCHED PAIR! Horsham couple, Terry Scott and Kaylee Tregonning announced their engagement recently. Terry is the treasurer and Kaylee, secretary of the North West Zone Council of the VCTA.

● Geoff McClure from Horsham, takes seated position behind a duck hide and waits for target to appear at Natimuk Field and Game Range — 10th June, 1979.

A sash and \$100 gents' watch donated by Francis Latus was the high gun trophy over the four rounds with trophies for top score over each individual round.

Round one saw James Sawyer, Horsham shoot 19-20 to win. Round two Kevin Heard, Natimuk was first with 20-20. Round three Eddie Pannan, Natimuk won with 18-20 and the fourth round was won by Stuart Bethune, Goroke 20-20. The high gun sash and trophy was taken out by Craig Cameron, Natimuk shooting 92-100.

Some news to be heard around the forest on that day was that, well known clay target shooter, Geoff McClure and his family were being transferred from the area. Geoff is a Fisheries and Wildlife Officer and has been stationed in Horsham for some time. Accepting promo-

Important Safety Notice

For shotshell reloaders inserted jointly by - Eley Ammunition and Winchester Australia.

Reloaders are again cautioned against mixing reloading components, including shotshell cases of different manufacturers. Research of both above companies indicates that gas escape may occur with the possibility of injury when primers made of copper such as made by Winchester are reloaded into some one piece plastic shotshell cartridge cases manufactured by Eley in Australia.

tion in his profession, Geoff is now stationed in Melbourne where he intends to continue with clay target shooting.

INTERNATIONAL SHOOTERS

Australia is not the only country to be affected and disappointed over the recent cancellation of the world championships. The following is an extract from Shooting Magazine May 1979, published in England.

"The article is headed *World Championship Sensation* and is as follows — **SHOCK** — that is the universal reaction to the news that this year's World Championships have been cancelled.

The Championships were due to be held at Vienna in Austria from August 14-24, and the news that the Austrian Federation had withdrawn came without warning on March 8. Keith Murray, the chairman of the International Board, was one of the first to hear the news — and it has obviously upset his plans considerably.

"We had heard nothing at all," he says, "and we even received the printed program for the event earlier this year. They already have the ground — so I can only assume that fairly desperate financial troubles have led them to cancel the Championships. Now we have to sort out how to replace them."

Apart from being important in themselves, the World Championships were also crucial to the British national squad's program leading up to the 1980 Olympic Games. Britain, like every other shooting nation, is now looking for some way that the Championship can be staged at another ground — or to replace them with some other major Grand Prix.

"I think some other country will pick the event up — although this sort of thing is normally organised three years in advance" says Keith Murray. "It is even possible that the World Championships could be combined with the European Championships at Montecatini in June — although even then we would still be looking for some other major competition at the same time as the World Championships were due to be held."

Our own view is that Britain could apply to shoot in the Mediterranean Championships later this summer in which most of the leading European clay shooting nations compete. Whatever the outcome, Austria's last minute withdrawal has dealt a savage blow to the international shooting season. We certainly hope that a satisfactory solution can be found.

Will Australia come to this?

I read an article by a shooter from England visiting a club in Nigeria, Africa's largest country and he quotes "25 targets cost 5 pounds and shells sell at 25 for 10 pounds."

WOMEN'S TALK . . .

(from Jean Wray)

With the winds and chills of winter upon us in the southern states it is always very pleasant to shoot at a club with good facilities, such as a fire to thaw one out between events and a hot snack and a cuppa. Which brings me to the subject of the standard of facilities at our clubs.

Last year I was able to visit a number of European clubs in Italy, Spain and Portugal, some were not as good facility wise as many of our clubs here, but the best were really in the luxury class, particularly with regards to the families who accompany shooters to clubs.

Sunday seems to be family day, particularly in Italy, where one can lunch in the restaurant, children can play in well equipped playgrounds, several clubs have swimming pools and tennis courts and a staffed playroom for the junior members of the family.

A new club in Spain even has closed circuit television from the playroom to the lounge for parents to keep a check on their children. I realise that these countries have a much larger population, therefore many more registered shooters than Australia, hence they are in the financial position to have facilities such as they have.

My family have been rather spoilt living in Melbourne as we shoot at Melbourne Gun Club regularly, and, perhaps, have taken for granted the excellent facilities at this club, now we also have the new Frankston-Australian Gun Club with their beautiful new club house, television, 2 pool tables, table tennis and a large blackboard with plenty of chalk for the children to draw on, as well as a playground outdoors to keep junior occupied while Dad and in our case, Mum, shoot.

In the six years I have been shooting it is interesting to notice the changes at the various clubs; SAGC Adelaide with a new club house, also Griffith with Perth and Brisbane well catered for, along with many country clubs such as Mildura, Illawarra, Ballandean, Gold Coast, which have updated their club houses for the comfort of the shooters.

I feel the days of the old tin shed and the temporary outhouse have gone, thank goodness, and even some of the old diehards, begrudgingly, will agree with me. Shooting is no longer just for the men, better facilities make for family involvement and that I feel is what our sport is all about.

Over the Queen's Birthday weekend, we travelled to Mildura for four days of serious shooting and four hectic nights of fun. We had, as usual a caravan on site at the club and I can recommend a visit there as it is a real family weekend.

Visitors came from far and wide and as there were no women's events programmed it was interesting to see how the women shooters shaped up against some of the heavies who attended to shoot the Victorian Universal Trench Championship. It took two junior women shooters to show us all how it is done.

Leica Andrews, 17 years, from Bordertown Gun Club SA shot extremely well to win the handicap on Saturday with a 44-44, Leica also won Overall and C grade in the Night Single Barrel with a 24-25, but was unplaced in the 100 target event after shooting a 91-100.

A local Mildura lass, Christine Wakefield won C grade in the Night Double Barrel with a 24-25. Fine shooting by both these girls.

On Sunday, just to get us ready for the dinner dance that night, the club programmed a 100 target event, shot American style over 4 layouts, 25 targets each layout and 5 targets on each station. Most shooters were of the opinion that the 100 target event was most successful and except for a few stunned faces after trap 4, everyone appeared to enjoy this style of shooting. I must admit that I retired gracefully after just 50 targets, put it down to too much Mildura hospitality or my age???

Until next month, hope all your targets are broken targets. ○

For a period of five years, held every world record between those two marks.

Thirty-seven Australian long distance records.

If you are an athletics follower, you will instantly recognise the above details as a list of Ron Clarke's achievements.

Ron Clarke the athlete, that is.

Well shooters are about to get to know Ron Clarke, the business man!

As announced as a late news item in the July issue of Clay Target Shooting News, ELEY Ammunition has appointed Ron Clarke to the position of National Marketing Manager. Clarke's reign in this position will be short-lived, as it is planned that he will become General Manager on the retirement of the present incumbent, Ian Cook. Cook is reported to be retiring at the end of August.

Ron Clarke brings to ELEY an imaginative marketing approach that has long been lacking. ELEY has survived in the cut and thrust of the shooting sports market only because of its product and quality. Any imagination and planning that has been demonstrated in its marketing plans has been pinched from elsewhere - probably Winchester!

Innovation is the in word, and that seems to be Clarke's specialty.

He entered commerce as a chartered accountant. In his early working years, he was Victorian Accountant for Lamson Paragon, now known as Moore Business Forms.

From there, Clarke made the move that ultimately was to give him close working ties with his favourite activity - sport.

He became Company Secretary for Marathon Footwear and associated companies - Marathon was to become the Adidas licensee in Australia, a move in which Clarke played a dominant role. Marathon Footwear gained the Adidas brand in 1965, a move which brought the Company and Ron Clarke to prominence.

Clarke left Marathon in the early seventies and joined Dunlop. He was influential in Dunlop winning the Adidas franchise when it was due for renewal in 1973, and was subsequently appointed Managing Director of Adidas Australia.

In 1974, Ron Clarke left the Dunlop group to establish the Life Style chain of fitness centres, a business in which he still has a keen interest.

At the same time, he became involved in a number of royalty-type operations including Le Coq Sportif, Vigorade and Health Cookies, all of which are still earning dollars for the Clarke interests.

Another of Clarke's talents show him as a writer of some note he has published five books with another due in August. Ron is a regular columnist with the Melbourne Age.

By now, readers may be asking whether he has time to do a job for ELEY. Well, obviously the ELEY directors think so, and a few minutes spent talking to Clarke proves that he knows so!

Asked why he had taken the ELEY vacancy, Clarke replied quite simply: "I have wanted to get back into a management capacity in the sporting field and this job provided the opportunity. I also have a great liking for merchandising, which will be ELEY's theme!"

Since his appointment in June '79, Ron Clarke has completely reorganised the selling function of ELEY and has appointed a series of product managers to be responsible for certain product groups.

New warehousing and office facilities have been established in Port Melbourne - on the corner of Danks Street and Esplanade East. The area has been chosen for its accessibility and its convenience.

Married with three children, Ron is obviously looking forward to the challenge of converting a manufacturer into a merchandiser.

Maybe it is just as well that Clarke is a long distance specialist the ELEY event will require very careful pacing! ○

"Thank you Shooter's Wife for the constructive criticism in your letter in June CTSN.

You are absolutely correct with regard to the short time span allowed for the qualifying matches this year.

There is little to be achieved by raking over dead coals, suffice to say that some of the contributing factors were beyond our control, however, in hindsight, we could have carried out a much better job, notwithstanding these factors.

The only attitude to be adopted in circumstances such as these is to ensure that there is no repeat, in fairness to all concerned.

The fundamental problem is a lack of long range planning, we have tended to look only to "next year." The ISU base their planning on a four year cycle - Olympic Games Cycle? - and there is no doubt that we need to do likewise, as well as taking into account the Commonwealth Games as an extra complicating factor.

It is worth noting that a number of the overseas teams we expected to be at the South Pacific Regional and Open Matches, gave "lack of adequate notice" as the reason for their non-participation.

Within the framework of the four year planning cycle it should be possible to develop a roster of 200 Target Matches during each year, so arranged as to provide regular competition, optimisation of the use of facilities, the opportunity for shooters to plan their match programs to build up their peak, as well as vital experience for Referees, Range Officials, Administration Personnel and the like. Furthermore it will provide the opportunity for travel and accommodation costs to be optimised and spread over a reasonable time span.

Another basic reason for adopting this approach relates to the assessment of performance history as a factor for Team Selection. The roster would be framed to include National ISU Titles, Nominated Qualifying Matches as well as International Matches such as the South Pacific Titles (from time to time).

These major matches would impose additional competitive pressures, as well as establishing bench marks against which shooters could plan their build up. International competitions require consistently high average performance with the ability to lift that performance under pressure. Data collected from rostered matches on a continuing basis will reveal those who are possessed of the right characteristics in this regard.

The roster should be able to ensure avoidance of clashing of major matches to the benefit of all concerned.

Our ISU Sub committee will be working toward thrashing out detailed proposals as far as practicable at their September meeting.

Thank you once again for your constructive approach - a ray of sunshine indeed!!" ○

HERO'S RETURN

(Staff Writer)

The above headline will probably embarrass Ray Koch, Secretary of Heathcote Gun Club in Victoria, because it is directed at him.

Ray is a policeman and whilst trying to prevent a bank robbery on April 27, was critically wounded by a bandit.

Since that time, Ray has spent a lot of time in various hospitals, where he received a total of 31 pints of blood in transfusions.

Naturally, the locals have watched Ray's progress with interest, with none being more interested than Ray's wife and four children.

After his discharge from hospital about the beginning of June, Ray started to feel this peculiar itch in the index finger of his right hand. He failed to recognise the reason until, as part of his rehabilitation, he visited Heathcote Gun Club on June 16.

Although not intending to shoot, mainly because prior to leaving home, he just "didn't feel like it!" the nervous twitch in the index finger suddenly manifested itself as a need to shoot at clay targets. Ray borrowed a gun and immediately demolished a pair of double-raise targets.

This is a tremendous show of courage from anybody, particularly somebody who only a few weeks before had undergone open heart surgery to remove a bullet from his heart.

So it was a true hero's return. Clay busters all over Australia are delighted to see you back on the tracks, Ray.

(CTSN is grateful for the help it received from Herb Barnes, a Life Member of Heathcote Gun Club in the preparation of this report). ○

MILDURA GUN CLUB QUEEN'S BIRTHDAY WEEKEND SHOOTING CARNIVAL

(from Laurie Connors)

With big shooting tournaments being run at other major clubs in Victoria and NSW there was some doubt by the administrators of Mildura Gun Club as to the number of shooters that may attend its Queen's Birthday Carnival. The shoot for 1979 had been organised as a four day event with the Victorian Universal Trench Championship being contested on the Monday.

This particular championships had been programmed for November in previous years when the days were longer and light much better for shooting. It was shifted to the June weekend because of the number of trench events being shot at other clubs in and around November where a number of our trench shooters come from.

Shooting commenced on Friday and it was surprising to see the number of entries by the time the day was over. Sixty-seven shooters entered the events and contested for the championships and trophies. Approximately 40 caravan sites had been taken up on the grounds and what at first appeared to be doubtful in relation to attendance now started to exceed last year's number and in fact increased to 97 shooters over the program, much higher than last year.

The Mildura Gun Club Cup was the first event and was won by Jim O'Brien, Mildura 25-25, Ken Jarvis, Mannum SA 27-28 was second and Peter Wray, Melbourne 26-28. A trophy shoot followed and Ken McPherson, Kyneton was first 26-26, Merv Ward, Broken Hill was second 25-26, and Neville Block, Goroke 41-42 was third.

In the Sunraysia District double barrel Championship, Mark Dellar, Mildura took out the B grade and overall 56-56, Charles Moritz SAGC A grade 55-56 and John Heley, Mildura C grade 27-28.

At night, the Sunraysia District Double Night Championship saw Bruce James from Boort, shoot 57-58 to take out B grade and overall sash and trophy. Peter Wray, Melbourne 56-58 collected A grade and Christine Wakefield, Mildura 28-29 won C grade.

On Saturday, with light conditions not good, a trophy shoot off handicap was the first event. The overall winner was Leica Andrews, Bordertown, SA with 44-44. The 11-16 group was won by Bruce James, Boort 26-27, 17-21 by Peter Winzer, Barmera 43-45 and the 22-25 group by Jim Finis, Mildura 23-26.

In the Club Graded trophy shoot, Bill Drew, Mildura had to shoot 70-70 to win A grade and Jim Blythman, Mildura was second 69-70. B grade was taken out by Bruce James, Boort 33-33 and Ken Jarvis, Mannum SA 32-33 was second. C grade was won by Ray Wiffen, Geelong 27-28 and second was Merv Ward, Broken Hill 26-28.

In the Club Graded Double Barrel Championship, Robby Robertson, Mildura took A grade with 47-47 to win from Alex Bremner, Morwell who came second 46-47. David Farnsworth, Mildura won B grade 25-25 and Rex Denby, Goroke, was second 33-34. C grade went to Laurie Mauger, Melbourne 37-37 with Ray Wiffen, Geelong 36-37 taking second placing.

The Sunraysia SB Night Championship saw Miss Leica Andrews from Bordertown SA shoot 24-25 to win C grade and overall sash and trophy. A grade went to Ken Lowry, Melbourne 22-25, and B grade to Ken Fletcher, Cohuna 26-28.

The Queen's Birthday Carnival Championship which was a 100 target event shot American style and well received by the competitors, saw Bill Drew, Mildura shoot 98-100 to win the overall sash and trophy outright. Peter Wray, Melbourne shot 116-119 to win A grade and Mark Dellar, Mildura was second 115-119. Rex Denby, Goroke shot 109-112 to win B grade and Wayne Merrett, Horsham was second 108-112. C grade first went to Gary Cowland, Mildura 97-100 with Ray Wiffen, Geelong second with 94-100. This event completed three days of competitive shooting with failing light at times making targets difficult to see, but shooting conditions in general were quite good. The usual Cabaret was held on the Sunday night and it again proved popular and was a packed house.

Monday was a day of horrors for the club, as the Universal trench gave two major break downs and delayed shooting considerably. Daylight being short this time of the year does not allow for the problems encountered, but a lot was learnt from the experience and most certainly will be avoided next year.

In what one must claim to be finished but an unfair competition as far as the competitors are concerned, Larry Dimasi, Mildura, won A grade and overall 83-100, Peter Wray, Melbourne took AA grade with 80-100, John Groves, Mildura B grade 75-100 and Gary Cowland, Mildura C grade 73-100.

Graeme Mills, Mildura won the Sunraysia District Skeet Championship 35-35 with Joe Murphy, Bordertown, SA second 34-35 and John Groves, Mildura 31-33 taking third place. In the Sunraysia District Points Score Championship, Neville Block, Goroke shot the possible 75-75 to win the sash and trophy for first. John Bull, Victorian Executive member also from Goroke shot 73-75 to collect second trophy and Alex Bremner from Morwell 71-75 took third placing.

It was pleasing to have visiting shooters from clubs in SA, NSW and Victoria. Thanks to our National President Ern Hawkins and his wife Verlie for spending two days with us all at the shoot. Other noteables in attendance were John Bull, Victorian Executive member from Goroke, ably supported by several of his club members. Good to have Ken Lowry, his wife Sue and family in attendance. Also the President of the newly established Frankston-Australia Gun Club, Brian Flower along with his wife Mandy and family, Alex and Dot Bremner from Morwell who had not been with us for some time, and of course the ever so popular Bob and Judy McGillivray and family. Regular visitors to this shoot Leighton Martin, now President of Alexandra Gun Club, SA and his charming wife Dianne were also with us.

Mildura Gun Club thank all visiting shooters for attending and would like to see you all return again next year.

In all, the program was well accepted and proved popular by the shooters attending. ○

PULL!

a BLUE DOT clay target.

Why?

Because a Blue Dot Target with low profile was wind tunnel tested to fly far and true.

Take a few targets you normally use and fire them from your trap. Then try a new Blue Dot ... Compare the distance and flight path.

The moulds are precision-engineered to give uniform wall thickness to the target. No heavy sided targets or off-centre heavy spots.

HARD—SOFT

We make the kind of targets you like.

However, let us advise you if you use automatic hopper-fed traps, or traps set for ISU skeet or trench.

Reaction Time

Because of the realisation that shooting is dependent on reflexes many experiments have been carried out in this field.

Numerous scientific experiments have been carried out attempting to ascertain the extent and scope of this reaction in terms of time.

Instruments can be devised that give a signal, either by sound, sight or touch. This signal is usually called the Stimulus.

The earliest movement made by the person under observation as a result of the Stimulus is called the reaction, and the time between the Stimulus and Reaction can be measured electrically and is called Reaction Time.

In many countries, candidates who wish to learn or are being taught flying are subjected to psychological tests with a view to ascertaining their quickness in reaction under varying and different circumstances.

Similar tests are carried out for intending drivers of racing cars, and the various armies have many of their men put through these tests as well.

The above is mentioned merely to show that what the shooters know as Reaction time is something real and definite, not just theory.

It has been found that not only does the time between Stimulus and Reaction vary very considerably between individuals, but it can vary on different days with the same individual. Further, reaction time is affected differently in different persons by such influences as food, alcohol, tobacco and fatigue, both mental and physical.

So, if it is accepted that Reaction time has an influence on shooting, it will now be seen why some men can shoot better after lunch and others worse. It also shows why some shooters shoot better if they smoke and others who perform poorly after smoking.

Out of all this main fact emerges that Reaction time can be a constantly varying factor and this variation adds to the difficulty of being consistent in shooting performances.

It boils down to the fact that you should know yourself and what improves your performance. A little thought in this direction can yield good dividends.

Shooting at the Melbourne Gun Club prior to 1940, it was coming lunch time and taking my courage in both hands, I asked Mr J. Sutherland or "Calrossie" as he was always known, one of the finest shots we had in those times, if he would care to have lunch with me. He said "I would be delighted my boy, but we will not have lunch—we will have a cup of tea and a biscuit. Before we go in, I would like you to check the scoreboard. Then, after lunch, check it again, after two more rounds have been completed."

The point was so illustrative that from that day on I never ate lunch if I was competing. If I felt hungry, I would have a cup of black tea with plenty of sugar.

There is a little saying applicable to most shooters — "A hungry dog will always hunt better than one that has just been fed!" ○

REFERENDUM ON NATIONAL HEADQUARTERS

At the recent Annual General Meeting of the Association held in Griffith, New South Wales, a resolution was passed calling for a referendum to be held on the subject of the need for a National Headquarters.

The Executive Committee has taken steps to distribute to ALL affiliated Clubs, a policy statement on the subject. Together with this statement is a request that the club calls a special general meeting of its registered members to discuss the matter.

Provision has been made for the results of a vote to be taken on the issue at that meeting to be returned to the National Office before September!

Remember, this is one of the most important issues confronting your Association at present, and a responsible and representative decision can only be reached if ALL clubs and their members play their part. ○

CLUB NEWS

KERANG CLAY TARGET CLUB (Vic)

This club held its annual general meeting on May 30, at which the following office bearers were elected: President, Frank James; Secretary, Chris Penno; Club Captain, Stan Kerr; Club Coach: Frank James.

LEONORA GUN CLUB (WA)

Advice has been received that a new secretary has been appointed at Leonora Gun Club. He is Mr L.P. Strugnell, of Box 56, Leonora, Western Australia, 6438.

WAGGA GUN CLUB (NSW)

After many years of dedicated service to the Wagga Gun Club, Mr Gordon Allen has chosen to retire from the position as secretary. His replacement is Mr Don Clout, of 112 Grove St, Wagga, 2650.

There is no doubt that Gordon will be difficult to follow, but on behalf of all shooters, a warm welcome is extended to Don, who will not be lacking in support.

Gordon Allen has also advised that he will be vacating the position of secretary of the Mangoplah Gun Club at the conclusion of that club's shooting calendar for 1979.

ROMA GUN CLUB (Qld)

This club conducted its annual meeting for 1979 on June 9. The following were elected to office: President, Bob Bryant; Vice-president, Richard Dean; Secretary, Dave Bowman; Captain, Cliff Reid.

In presenting his annual report, president Bob Bryant outlined the clubs tremendous progress during the year, particularly with the installation of improved facilities. Three new DTL traps and concrete tracks have been built — additionally, a high quality lighting system has been installed.

Outgoing secretary Rhonda Dean and treasurer Betty Bryant were thanked most sincerely for their diligence during the year.

CORIO BAY GUN CLUB (Vic)

Two milestones were passed at the Corio Bay Gun Club during early June — the first came after many hours of hard work with unco-operative traps, when the first Skeet program was conducted.

The efforts of range operators, particularly Max Hewitt, Peter Morgan and Theo van den Berg, were rewarded with a trouble free shoot. The match was won by Trevor Nash with 43-43, Jack Powe was second with 42-43, and J. Whelan, third on 34-35.

The second of the milestones was the commissioning of the ball traps. Bob Schwarz, with Max and Theo, and Trevor Nash as part time foreman, burned much midnight oil to finally get the trap operational. Novice members shuddered when they saw the fast sneaky grass cutters the ball trap throws.

The club now boasts a compliment of Skeet, Tower, Ball Trap, and DTL layouts.

NSW GUN CLUB

At the 99th annual general meeting held at the clubhouse on June 30, 1979, Charles Hlavaty was elected as the president for the third term together with Eugene Kavanagh and Phil McBeath as vice-presidents, Peter Lee as Hon Treasurer and Cliff Brown, John Cooper, David Cotton, Clyde Hawkins and Eric O'Heaney as members of the committee.

The club had a very successful year and a vote of thanks to the president, the hon treasurer and members of the committee was carried. ○

INTERNATIONAL SHOOTING SCENE

The top news currently under this heading is the release of Harry Somers' report on 1979 team selection procedures. This report is published on page 10 of this issue of CTSN.

However another exciting piece of news relates to an invitation from the School of Advanced Marksmanship, Fort Benning, USA, to send three delegates to an advanced coaching workshop, being held during October 1979.

This invitation is very opportune as it comes at a time when the development of the expertise within the National Coaching Council can benefit greatly from further technical education. The emphasis is heavily accented towards training of the trainees — the purpose of the course is NOT to improve any attendee's shooting ability.

The Association's planning for the project has been made difficult by the confusion that reigns in the area of arrangements for the 1979 World Shotgun Championships, because of the three delegates chosen to attend Fort Benning, two are members of the 1979 Australian team. These are Newton Thomas and "Pud" Burgess and the third member of the group is Peter Quire.

Australian shooting should reap great benefits from this project, which it is hoped can be repeated each alternate year.

1979 WORLD SHOTGUN CHAMPIONSHIPS

The never-ending saga of the "off again, on again" 1979 World Shotgun Championships continues to drag on.

The latest rumor is that the new venue will be Montecatini in Italy with the dates being some time in October.

The delays in decision making are severely testing the patience of the members of Australia's team who can't even develop a training program until it is known when the peak is required.

NEW ZEALAND ISU NATIONALS

Advice has been received from the New Zealand Clay Target Association that the New Zealand National Championship for Olympic Trench and ISU Skeet will be held in the South Island on November 24 and 25.

The likely host club is Christchurch although the trench equipment the club has on order has not yet been delivered. A final decision on the venue will be made on September 15, with Dunedin as the alternative choice.

Meanwhile, there is speculation that an official group of Kiwis will be visiting Australia for the 1979 National titles in international disciplines, which will be held at the Downside International Gun Club, Wagga on November 3 and 4.

NEW CALEDONIA

The Sixth International Open Championships of Noumea will be conducted by the Club de Tir Caledonia from Sunday October 13 to Saturday October 20. Practice will be available from October 10 onwards.

As hotel reservations in Noumea are becoming scarce, competitors contemplating attending the match should book early.

CLAY BUSTERS

An afternoon at the Club. Good mates. A chance to talk guns, swap stories, tall and true. Who has the sharpest eye, the quickest reflexes, the keenest judgement. This is the discipline of trap and skeet shooting. Skills are honed here; demands put on the shooter and his gun. This is why you always shoot well at your club, with your Winchester.

KAMBALDA, 27-5-79 — Fine (10). 20 D/D 18m. J. Neve & M. Neve, B. Vodden & T. Vodden; 10 D/B Pt 20m: J. Neve & B. Mason 30-30; 10 D/B Pt 18m: T. Vodden 30-30 60%, D. Lithgow 28-30 30%, B. Mason 27-30 10%; 10 D/B 16m: T. Vodden & B. Mason; ANNIE OAKLEY: D. Nowland.

KAMBALDA, 10-6-79 — Warm-Cloudy (10). 20 S/B Club C'ship: A. Ward 19-20, D. Nowland 17-20, D. Ralph 16-20; 10 D/B Hcp: B. Vodden, A. Ward, K. Srb, D. Ralph, D. Nowland 10-10; 10 D/B Hcp: B. Vodden, A. Godson 10-10; 10 S/R 16m: A. Ward, D. Nowland 9-10.

NEWMAN, 5-6-79 — Fine Calm (17). 5T D/B C/D: T. Stingle, M. McSwain 5-5, 8 others shared 4-5; 25 S/B C'ship: "B" R. Pickard 22-25, "A" T. Stingle 31-35, "C" G. Wann 21-25.

Not a very good effort by many of the competitors and with the District Championship only a month away a big improvement is necessary by all.

Merv McSwain missed out on A Grade by $\frac{1}{2}$ percent and Tony Stingle just missed as well. Both elected to go to A Grade though.

NEWMAN, 17-6-79 — Fine Calm (15). 5 D/B C/D: T. Stingle, D. Day, P. Gabriel 5-5; 10 D/B: S. Lopresti, R. Churchill 10-10, T. Stingle, D. Day, T. Kezic, M. McSwain, G. Wann, R. Pickard 9-10; 10 S/B: T. Stingle, P. Gabriel 10-10, S. Lopresti, J. Medhurst, M. McSwain, P. Robson 9-10; 10 D/B P: D. Day 30-30, R. Pickard 29-30, S. Lopresti 27-30, T. Stingle 26-30; 10 Hcp: T. Kezic, R. Churchill, P. Gabriel, G. Wann, P. Robson, B. Pickard, D. Day 9-10; 1st 2nd 3rd over all: Dick Day 56-60, Bob Pickard 54-60, Tony Stingle 51-60.

Bad luck to Steve Lopresti who shot for targets only and would have come equal second otherwise. Peter Gabriel shot really well except for two clear misses in Points. Ross Churchill missed 6-10 S/B to just miss out on the money as well.

NORTHAM & DISTRICTS — Fine (17). At Island Farm on Sunday, David Kevill from Quairading won the 'A' Grade section of the 50 skeet programme. Mac Draper from York won the 'B' grade, and Ted Hammersley the 'C' grade.

High gun for the day was recorded by David Kevill, whilst Barry Bristow Staggs. (It being the first time he has done so). This now entitles him to a 25 break badge. David Kevill shared second place with Kevin Hopkins from Meckering, whilst Mike Callaghan and Roy Holtfreter shared fourth place gaining $\frac{1}{2}$ points to Aggregate competition. There were no significant changes in the Aggregate High Gun competition or the Aggregate Handicap competition. These are both being led by Roy Holtfreter.

NORTHAM & DISTRICTS, 24-4-79 — Fine (36). 25 DB PS 25 SB: A large gathering of visiting shooters from Perth and Cunderdin, enjoyed a barbecue lunch on Sunday at Island Farm, as a prelude to a Challenge teams match, between the three clubs. Perth team proved superior with a score of 463, followed by Northam 445 and Cunderdin 424.

Of the individual performances of the day, Wayne Pilkington from Perth took off the 'A' Grade trophy, Jack Philipoff also of Perth, the 'B' Grade trophy and Barry Bristow-Stagg of Northam Club, the 'C' Grade trophy.

Barry Bristow-Stagg also shared H Gun honors with John Eddy of Perth Club whilst the aggregate hcp section was won convincingly by Nigel Way. Barry Bristow-Stagg came second on the Handicap basis, followed by Stan Clements and Peter Reynolds who shared third place and David Kevill and Marc Bristow-Stagg shared fourth place.

The Aggregate handicap section of the annual competition is still being led by Roy Holtfreter who has 15 points to his credit, Marc Bristow-Stagg is close behind with 13 points and Merv Madew 10.5 is in third position. The Off-the-Gun Aggregate competition is also being led by Roy Holtfreter, who has now 16.5.

PERTH, 12.5.79 — Fine (35). 20DR: A. Freeleagus 34, W. Pilkington 33, O. Ando 33. 20 Deauville Dbls: J. Eddy-D. Henthorn 20, W. Kennamer-R. Tomlin 19.

PERTH, 26-5-79. — Fine (33). 50 Skeet Club Ch: Ken Williamson, R. Bailey, R. Eamer. Members selected in Perth Interclub Skeet team: E. Lewis, K. Williamson, R. Eamer, R. Bailey, K. Holman.

Congratulations to Ken Williamson on winning the championship outright. Thanks to Bailey Sports for donating the sash and trophy. Members were pleased to see Robert Eamer shoot his first possible and make the team.

PERTH, 9-6-79. — Overcast, cold, light wind (40). 20T SB Club Ch Gr: A. D. Henthorn 20-20, K. Holman 29-30; B. D. Ireland 30-33, C. Brown 28-33; C. E. Lewis 19-20, G. Tomlin 17-20. 20T Hcp: R. Drew (11) 43-43, K. Holman (20) 42-43, C. Genovese (14) 32-33. Ladies Trophy: C. Ireland 19-20.

A most pleasant afternoon's shoot in spite of quite cold weather conditions. Congratulations to the winners of the Club Single Barrel Championship. Also congratulations to Ross Drew, who took off 1st prize in 20T Trap handicap after a shoot off. It's good to see a front marker in the winning circle.

PERTH, 23-6-79 — Overcast with showers (40). 50T Trap Pres. v. Vice Pres. Teams match: R. Bailey, W. Pilkington, D. Henthorn. Vice Pres. Team W. Kennamer, D. Henthorn, K. Holman, M. Callaghan, R. Millard, C. Brown 135-150, Pres. Team J. Eddy, R. Bailey, W. Pilkington, T. Stelling, D. Knight, R. Tomlin 134-150.

An atmosphere of friendly rivalry prevailed through an otherwise chilly afternoon. After adding up the scores a half dozen times John Eddy was una-

ble to come up with another point and conceded defeat to the Vice President's team. A close match shooters. Congratulations to both teams.

WAGIN, 17-6-79 — Fine Cold (14). 15 D/R: M. Mitchell 21-30, K. Smith 21-30, G. Smith 20-30, P. Becker 20-30, A. Jackson 17-30, J. Spurr 15-30, G. Painter 14-30, M. King 13-30, F. Pederick 12-30, J. Fitzgerald 11-30, M. Divall 11-30, M. Paget 16-30, I. Flugge 11-30, P. Fitzgerald 3-30.

Shoot off won by M. Mitchell 10 Walk ups by popular request for practice followed with P. Becker & A. Jackson tying with 7-10. Shoot concluded 12 noon.

EASTERN GOLDFIELDS PLAYS HOST FOR TOP CHAMPIONSHIPS

(Staff Writer)

Two days of top class competition. That was what awaited the 57 competitors who attended the Eastern Goldfields Gun Club two day program in early June.

The program included the State and Commonwealth Pointscore Championships — it also was designed to acknowledge the celebration of WA 150th anniversary.

The Club is located near Kalgoorlie, one of three in the area. This was the first occasion on which titles of this standard had been conducted in the area.

Inclement weather kept many shooters away — light aircraft are extensively used for travel in the west and the weather was so bad that the aircraft were kept on the ground.

Nevertheless, the standard of competition was high for the two days. The major events resulted as follows:

Western Australia Pointscore Championship: State Champion Geoff Hayward (Bunbury), B grade winner Neil Johnson (Leonora); C grade winner Neville Hyder (Bunbury).

Commonwealth Pointscore Championship: Commonwealth Champion Ernie Gorrett (Esperance); B grade winner Neil Johnson (Leonora); C grade winner Neville Hyder (Bunbury).

Overall High Gun was Ken Holman who dropped only four targets for the two days.

This Club is working very hard to attract new shooters, and provides club guns to novices where necessary. ○

OPEN DAY SHOOT — Leinster, W.A.

The Clay Target Club hit the highlights at Leinster recently, with a Saturday teach-in, conducted by some of W.A.'s top shooters, followed by the Club's Open Day on Sunday April 1.

Tim Catling (State Director of Coaching); Murray Alexander (Vice President W.A.C.T.A.) and Neil Johnson (Zone Coach) arrived on Saturday to train the Club members in the finer arts of trap shooting. Theoretical lectures and practical demonstrations were enthusiastically attended in the morning, and during the afternoon the members were privileged to receive individual instruction in stance and general technique.

The experts stayed on for the Open Day Shoot, though top honours went to local champion, Brian Mann, president of the Leinster Club, who won the main event and achieved the highest overall score of the day.

Several other clubs were represented, with Michelle Alexander (Azzuri) and Oly Makkonen (Kambalda) winning the Deauville Doubles and Tim Catling (Katanning) taking the trophy in the Double Rise event.

A dramatic finale to a most competitive day's shooting saw the eventual success of Michelle Alexander in a shoot off with Maureen Kessner (Leinster) for the Best Ladies Award.

(Ed. note: The Leinster Clay Target Club is one of the youngest clubs in Australia. It was formed less than a year ago, and is one of many sporting associations set up by the people of Leinster, a new town, some two hundred miles north of Kalgoorlie, established as a home for the workforce of the Agnew Nickel Mine.) ○

How a "Wingmaster" Remington 870 works with you instead of against you.

The super-smooth pump action of an 870 actually uses some of the force of recoil to set you up for that quick second shot.

No pump shotgun can completely eliminate the effects of recoil and the pull-push motion it takes to operate the action. But we make a gun that can help you keep them to a minimum—the "Wingmaster" Remington 870, the most popular pump action shotgun in the world.

Remington engineers gave the 870 an action that's smooth as silk. Its strong double action bars do away with twisting and binding, guarantee straight-line pumping, smooth feeding and positive ejection in any kind of weather, under any kind of hunting conditions. And all the metal parts in the action are vibra-honed to an almost mirror-like finish for even smoother operation.

An 870 takes advantage of recoil—instead of letting recoil take advantage of you. Recoil is basically a swift, backward motion. The same kind of motion it takes to work the pump action. With a little practice on an 870, you can work with the recoil, make it help you pull the fore-end back. When you combine these two motions, you can get your next round chambered quicker. And you'll be less likely to stray off target.

The test of a shotgun's true value is whether it's rugged enough to deliver dependable, reliable performance year after year. An 870 is designed to be rugged every inch of the way. With a highly polished barrel of forged ordnance steel to give you an outstanding pattern consistency. A receiver machined from solid steel for the utmost in safety and dependability. A stock and fore-end protected with Du Pont RK-W, a tough, hard, scratch-resistant finish that'll hold up through years of rough use and rougher weather.

Add the 870's surprisingly affordable price and its wide selection of gauges, barrel lengths and chokes (including extra barrels), and you'll understand why it's unbeatable for quality and value... "right out of the box".

See an 870 at your local firearms dealer now including the popular 'Police Riot Guns' with 20" plain or rifle sight barrels.

They're from Remington — America's oldest gunmaster — and still completely made in the U.S.A.

TASMANIA

TASA REPORT

At the Annual General Meeting of the Tasmanian Amateur Shotgun Association held on 9th June, the following officers were elected:

President Dr. P.F.T. Cains

Secretary/Treasurer: Miss. Cheryl Price

Vice-Presidents: Messrs. L. Toyne and D.R. Taylor

In addition to these elections, the association nominated its Executive Committee members for the term commencing in March 1980 to be:

Mr. D.R. Taylor and Dr. P.F.T. Cains.

Mr. L. Toyne, in declining to accept nomination for a further term and proposing Dr. Cains for the position, said he had been honoured to represent the State, but in view of other commitments believed that new blood was needed at Executive level at a time when the Association was in an exciting phase of development.

It was decided at the meeting to invite the first five place-getters in the interstate team to represent the State at the 1980 Perth Nationals. In addition, a package tour for all Tasmanian members had been negotiated with Ansett Airlines to attend these Nationals, thus becoming the first State Association to organise such a venue.

It was resolved to hold the State Carnival at Hobart on November 29 and 30, 1980 using the same program as this year. The 1980 Commonwealth titles allocated to the State have been distributed thus: Day Mixed Targets — Hobart Gun Club 26th October Night Double Rise — Burnie Gun Club 19th April

The Commonwealth ISU Skeet title has been returned to the ACTA for re-allocation as no club in this State felt it could do justice to this event.

The State Association approved all the amendments to the rule changes to take effect in 1981.

A scheme to instruct all secondary students in the basics of gun safety and clay target shooting is to be formulated by the President and State Coach, Jack Blake and be presented to the State Education and Recreation Department. This has aroused considerable media interest and CTSN readers will be kept fully informed of the developments.

To encourage the pursuit of the two Olympic disciplines, an ISU Committee has been set up under the Chairmanship of Mr. W.R. Morgan to co-ordinate an intrastate coaching program. It is envisaged that it will be possible to shoot trench or ISU Skeet every weekend using the facilities at either Hobart or Launceston.

As the Association enters a new era, the stirring work undertaken by Don Taylor and Len Toyne for TASA will be remembered with gratitude.

In spite of the low attendance, every one enjoyed themselves. We only expected a small amount of our main followers as the so called "big Guns" down south decided to hold a shoot on our day and that's a good way to foster the sport of shooting. We had a very good shoot and saw one of our young shooters shoot a place in each event — good shooting young Gourley!

A very testing shoot as the weather would freeze a pawn brokers sign. It must have been most uncomfortable for all shooters. The handicap skeet provided a really good battle for supremacy and congrats to T. Jones. The State Deauville Doubles, humbled a great many hot shots and some of the experts could join the new comers clinic instruction class!! Excellent work however by Alan Styles and Laurie Viney, after a quick shootoff. The DTL graded event with the biggest entry was dominated by the 3 class winners, there being no shoot off in any grade. High Gun for the day won by Dave Perry.

QUEENSLAND

QUEENSLAND CLAY TARGET ASSOCIATION REPORT

Training of junior shooters recently took a set back in northern Queensland, when a regional paper carried a photograph of a 13 year old student after he had won his section at a Clay Target Shoot at Silkwood Gun Club. A diligent policeman saw the press report and threatened to lay charges against the lad because he was under the age of 17. Queensland law states that people below the age of 17 years cannot discharge a firearm.

Naturally such a response met with tough opposition from Club personnel in the area, as all of the Northern Queensland Club's are pursuing a firm policy of training juniors in the safe handling of firearms.

The matter was reported to the Queensland Clay Target Association, which was able to seek advice from various Government agencies in the Brisbane area. The result of all of this was that the threat of prosecution was removed, and assurances have been received that the proposals for amendments to the Firearms Act, which are currently under review by the State Government, will make provision for juniors to be able to legally use and possess firearms under certain conditions. When more details of the proposed amendments are available, they shall be listed in these columns.

It is interesting to note that during the financial period 1977-78, ten Queensland Gun clubs shared grants totalling \$14 465, which were allocated by the Queensland Government.

The projects undertaken as a result of these grants ranged from drainage of the Ballandean Gun Club to a major upgrade at the Gold Coast Gun Club.

This type of funding assistance is vital to the success and growth of any sport and the Queensland Government is to be complimented for the tangible way in which it is assisting the development of Clay Target shooting.

Congratulations go to Pet Flack from Lismore Gun Club and Dave Follett from Brisbane on winning metres.

BRISBANE, 20-6-79 - Wet & Windy (15). 20T 16m Grd S-St: "A" Karl Walker (Bris) 20-20, "B" Allen Witt (Bris) 17-20, "C" Peter Stein (Ipswich) 19-20; Bris D/B Pts C'ship 20T 16m: O'all Mrs Thelma Meadows (Bris) 59-60, "A" Steve Follett (Bris) 56-60, "B" Darryl Groundwater (Kallangur) 56-60, "C" Peter Stein (Ipswich) 54-60.

15 shooters braved the elements for what would have to have been one of our worst night shoots, weather-wise, however, this did not deter Thelma Meadows, from Brisbane Gun Club, who showed us all how to shoot in the pouring rain and howling gales. Congratulations Thelma, on your overall win in the points championship with an unbeatable 59-60.

BUNDABERG, 3-6-79 - Overcast and Windy (25). 10T 5-B 16m S-St: C. Green 10-10, L. Sandow, H. Mitchell 9-10; S.E. Qld zone D-D C'ship: G. Doblo, A. Aitchison 19-20, C. Osborn, R. Strong Gusty Winds made conditions difficult for Shooters in the South East Queensland Zone Deauville Doubles Championship. The combinations of Gordon Doblo, Andy Aitchison & C. Osborn, Ray Duffy were tied on 19-20. In the shoot-off both teams dropped their third and fifth pair, with the championship being decided on the sixth pair with a win to Doblo and Aitchison. L. Sandow of Mundubbera was the most consistent shooter on the day with a win and two seconds, and overall High Gun.

A very good roll up with only two events being held due to the length of some very good shoot offs. The 30 target event with 10 targets shot off 11, 16 & 25m proved very popular with some of the short markers performing very well from 25 metres. Our next mid-month shoot will feature a visit by a large contingent from the local army reserve and hopefully we may recruit some more new members.

ROCKHAMPTON, 3-6-79 - Good (57). 15T D B Pts off Hcp: R. Hannah (Gladstone) 45-15, B. Moloney 50-17, D. Mitchell 47-16; 20T D D Club C'ship off 20m: G. Talbot, J. Watson 18-20, R. Skeet is becoming very popular with 30 shooters competing in 2 rounds in the morning before DTL. J. Cush from Gladstone won the High Gun with 48-50 with D. Wust on 43-50 and D. Burns (Gladstone) 42-50. All records were shattered for trap for a monthly shoot with visitors from, South Australia, Weipa, Mackay, Melbourne, Gladstone and Nine-Mile, making up the 57 shooters. High gun went to Des Mitchell (Gladstone) with his wife Linda winning the ladies High Gun. A. Atkinson (Gladstone) won his first metre with the well earned front marker trophy which was donated by Nioa Arms.

NEW FLUSH MOUNT SLING SWIVELS FOR SHOTGUNS FROM KEITH HERRON

This new type of sling swivel permits a shotgunner to add a carry strap to a pump or auto loader without breaking the gun's sleek lines. Introduced by "Uncle Mike's" they are distributed by Keith Herron or Sydney. Designated as the QD 115 MCS, the quick detachable system has an inletted receptacle which mounts in the stock to accept the rear base, a standard QD stud. The front base has a special adapter to fit the magazine cap. The QD 115 MCS fits all pumps and autos except the Browning 2000, Winchester 1400 and a few others that are not available in Australia. Other "Uncle Mike's" swivels are available for these models.

THE EXCITEMENT MACHINE — CHARLEVILLE GUN CLUB

Ken Eagle, the active Publicity Officer for Charleville Gun Club, Queensland, has filed the following report:

May 26, 1979 Club's monthly shoot, fine and cool, 13 shooters. The results of Events 1 and 2 are not available as it appears they were filed in the WPB.

Event 3, 15T DB Pts Hcp Monthly Mug: C. Burey 41-45, J. Eckles 39-45, A. Nugent 38-45.

Event 4, 10 Pr D. Doubles 16m: After shoot off D. Turnbull and K. Lynam 10-11, C. Pearce and J. Mahony 9-11, D. Gillespie and G. Hansen 7-10.

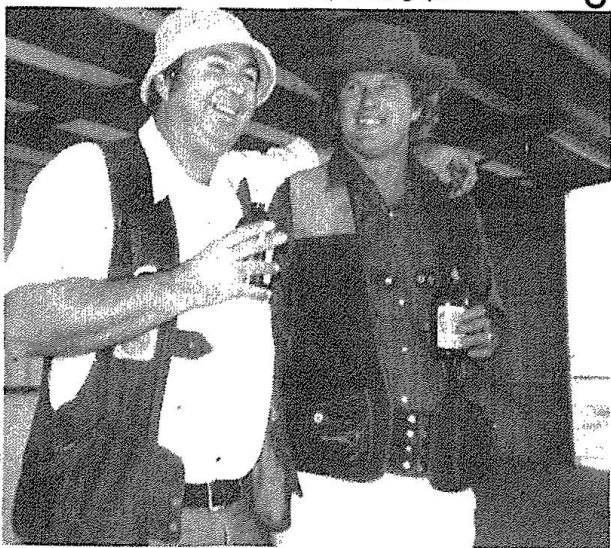

On Sunday June 3, 1979, seven shooters from the Charleville Club, Barry King, Noel (Spud) Gadsby, Don Turnbull, Jim Mahony, Cliff Burey, Kev Lynam and myself travelled 206 kilometres up the track to a neighboring club, Tambo.

Three of the Charleville shooters had a successful day, Barry King winning the High Gun, Don Turnbull the B grade and Cliff Burey the trophy for Front Marker, the rest of us gained experience. It was a very well conducted day and all who attended appeared to enjoy themselves.

President Tom Jarvis of Tambo and his men really looked after the visitors and provided the winners with excellent trophies.

Negotiations are under way between Tambo, Scrubby Creek and Charleville Clubs to conduct a combined shoot at Charleville during October this year. If everything goes according to plan, the program will be advertised in CTSN in the near future and, it is hoped, even though we are a bit off the beaten track as far as the more prominent circuits are concerned, to attract shooters from near and far.

"The Quivering Quill."

• Birthdays are for celebrating — so Jim Malory of Charleville and Artie Wale of Tambo do just that. The problem is that nobody is sure just whose birthday it was!

VICTORIA

VICTORIAN CLAY TARGET ASSOCIATION

The VCTA has appointed a State ISU Sub Committee. It is chaired by Executive Committee member Laurie Connors, and includes Bill Abbott, Bob Buchan, Tony Rowe and Max Vipond.

At its meeting in Melbourne held early in July, the following decisions were made:

1. 1979 ISU Trap and Skeet Carnival to be conducted at Melbourne Gun Club on Saturday 6 and Sunday 7 October 1979. Victorian Interstate Trench and Skeet Team to be selected at this match. Teams will be selected in both disciplines over the State Trench and Skeet championships held on Saturday October 6.
2. Mr Alex Crikis of Melbourne has been elected to act as ISU skeet referee examiner. Shooters interested in being recognised as ISU Skeet referees should contact Mr Crikis. Greg Long from Frankston/Australian has also been elected to act in the same capacity for ISU Trench and shooters interested in being officially recognised in this discipline should contact Mr Long.
3. It is intended to elect a state training squad of 18 Trench and 12 skeet shooters. Six qualifying matches will be conducted in the State. The scores of the first five matches entered will be used by State ISU Subcommittee to select State training squad. Shooters selected must be prepared to represent the State in Interstate teams match. Details of events to be conducted to select state squad will be advertised by clubs concerned through this media at a later date.

Editors Note: It should be noted that the appointments of "referee examiners" in the above context is a worthwhile move to improve standards, but does NOT carry full international accreditation.

Good conditions for shooting, very good attendance from the back marker brigade and a significant reduction in the front marker field which is quite unusual, particularly at Noorat lately. Jim Dignal is still shooting consistently and could be due for regrading soon if his present form holds. Graham Ganbury, a recently registered shooter at Noorat is proving to be a particularly fine shot, and will no doubt be on the winners dais quite regularly. To all shooters please keep attending as Noorat needs your support.

RAAF POINT COOK, 1.6.79. — Clear, calm and cool (23). Club DR Ch: A. Bradshaw 17-20, R. Spicer 13-20, C. Newsome 15-26.

The remarkable run of fine shooting weather continued on Friday night and brought out a good attendance. The lack of our usual freezing and blustery southerly probably confused the contestants and caused the relatively low scores. By the end of the first round, Tony Bradshaw had got it all sorted out and clean-sheeted the second round to take the Championship. Russell Spicer was still figuring it out at the end but managed second place with a scrambling 13-20. In the shoot-off for third, Jack McKay let Cyril Newsome back in once too often and it was nice to see our hard working vice president and Shoot Marshal in the placings.

RAAF POINT COOK, 17.6.79. — Cool, dry. Strong N wind. (35). 10T Pt Cont E/O: D. Nielsen 30-30, R. Spicer 27-30, P. Rodoa 26-30. 20T DB Eley Ammunition Cont Ch: D. Munro 28-30, I. Frantantaro 27-30, D. Hill 21-23. 20T DB Rabbit Run: D. Nielsen 27-28, P. Torok 26-28, J. McKay 21-23.

A Continental day at the Point, with the main event generously supported by Eley Ammunition. The stiff north wind made the birds very elusive, and Danny Nielsen did very well to take the honours in both the first and third event, scoring the only possible shot all day in the eye opener. SCHOOLBOY COMPETITION AT WANGARATTA GUN CLUB

● Diminutive son of Club Treasurer Ian Crockett, Darren was single barrel champion at the Schoolboys' tournament. Left is Club President, Peter French.

Earlier this year, the Wangaratta Gun Club conducted its Club Students' Championships. Wangaratta is situated in North Eastern Victoria, which is the area in which junior training programs originated.

Dedicated teachers like Charlie Whitla, Lin Barr, Les Simpson, Peter Breen, Peter Stonehouse, the late Denis Comensoli, all have played a part in filling a community need to provide juniors with training in the safe handling of firearms.

The Club runs regular training sessions at night together with more formal activities arranged through the co-operation of secondary schools in the area.

Wangaratta Gun Club has been chosen as the host for the North Eastern Schoolboys' Field Day for the past seven years. This is an inter-school clay target tournament which attracts up to 200 contestants.

The benefits from these training programs can be clearly seen when 200 youngsters can compete in a shooting event without any breach of shooting ground etiquette. ○

At the end of the event, three shooters were tied on 65 points and they were Jack Howard (Crookwell), Les Venables (Cowra) and R. Picker (Bigga). After the shootoff, J. Howard was successful by one point from L. Venables with R. Picker running third. Front marker was taken out by W. Simpson (Grenfell).

The Jackpot Trophy was won by J. Gorman (Grenfell) after a shootoff with R. Picker, G. McAllister (Orange) and H. Wilder (Cowra). H. Wilder shot extremely well on the day considering it was his first shoot at competition level for some time. Some years ago, he was selected to shoot with the NSW Representative team.

The fourth trap is near to completion now with the tracks finished and the trap house very close to being completed.

YAMBA. Shooting conditions on Saturday of the Queen's Birthday weekend were perfect for shooting but scores were not as high as expected. The targets looked easy and shooters must have taken them too cheaply as only three scored the possible 10-10 in the Eye Opener, R. Lehman (Lightning Ridge), H. Williamson (Guyra), and J. Bell (Lismore).

The Big River District DB Ch saw H. Williamson and R. Varley both of Guyra shoot 20-20. R. Varley went on to win with 24-24 and take A grade and overall. B grade went to J. Bell (Lismore) 44-50 and C grade to P. Holmes (Moree) 19-21.

The main event of the day, The Eastern States Grand Open SB Ch over 50T from 16m resulted in R. Lehman and R. Varley both scoring 45-50. R. Varley missed his first target in the shoot off to give R. Lehman 46-51 outright and take first in A grade with 45-51. First in B grade went to J. Bell 44-50, C grade R. Kienne (New England) 42-50. 2nd A Grade H. Williamson, B grade M. Short (Yamba) 42-51, C grade K. Nolan (Downside Wagga) 40-50. 3rd — A. D. Sloan (Tyagarah) 44-53, B.G. Bennett (Yamba) 44-51, C.G. Yates (Yamba) 39-50.

Time permitted for a 10 Prs DR event: J. Tainsh (Lismore) shot 18-20, P. Holmes, D. Sloan 17-20.

The Sunday started with bright sunshine but clouded over during mid morning and lasted until shooting concluded and then cleared again.

10T DB EO: R. Boyes (Coffs Harbour), H. Williamson, L. Campbell (Downside Wagga), R. Varley, J. Bowen (New England), R. Sweeney (Guyra), R. Hammond (Guyra) shot 10-10. Big River SB Ch: H. Williamson, J. Tainsh, R. Varley, R. Hammond 20-20. R. Varley shot 27-27 to take A grade and overall. B. B. Casey (Sydney) 19-20, C. K. Nolan (Downside Wagga) 19-20. FEDERAL CARTRIDGE — 56 Years of Ammunition Experience

Fuller Firearms is importing a wide range of Federal ammunition products. In view of the availability of the products, the following historical information will be of interest to readers.

April 27, 1978, marked the 56th Anniversary of the founding of the "Ammo Only" company, Federal Cartridge Corporation. On that date in 1922, Mr Charles L. Horn became managing partner of the new company, located in the town of Anoka, Minnesota, 20 miles northwest of Minneapolis. Now, 56 years later Mr Horn, Chairman of the Board of Federal Cartridge Corporation, has his own 56th Anniversary with the company.

Federal Cartridge Corporation was founded on the remains of an earlier venture. In 1916, the Federal Cartridge and Machinery Company (later Federal Cartridge Company) was established in Anoka. After an ambitious beginning, the company failed and the facilities sat idle for several years until the reorganisation.

By late 1922 the new corporation was selling its "Hi-Power" shotshells. In 1924 rimfire 22's were added to the line.

The years since have seen Federal Cartridge grow from a small company into one of the world's major producers of ammunition. Mr Horn attributes the growth of the company to the development of an experienced force of people dedicated to making the best ammunition available.

In addition to producing sporting cartridges, Federal Cartridge at Anoka began to manufacture ammunition for the United States government during World War II. However, Federal's major military production has been centred 10 miles east of Anoka at New Brighton, Minnesota.

There in 1941 the company contracted to build and operate a large government-owned plant for the manufacture of military small arms ammunition.

This facility, now known as the Twin Cities Army Ammunition Plant, was operated through World War II, with peak employment reaching 25,000 and production reaching 10 million rounds a day. Deactivated in 1945, the plant was reactivated in 1950 for the Korean War and again in 1965 for the Vietnam War. Cartridges produced include .50 calibre, .30 calibre, .45 calibre, 7.62 mm and 5.56 mm. Through this production the head-stamp of TW became known to hundreds of thousands of American servicemen.

Federal's line of ammunition was completed in 1963. With experience gained from production of military small arms ammunition, the company introduced its brand of centrefire rifle and pistol cartridges in that year. ○

WINCHESTER SHOOT at the DUBBO GUN CLUB MAY 12 and 13, 1979

With a kind nod from the weather the first Winchester Tournament to be held at Dubbo got under way. Saturday afternoon saw about sixty shooters warming up for the big day on Sunday. Our two new Winchester traps were really pelting the clays out and from some of the comments of our Sydney visitors they must have some weak springs in traps down in the suburbs. Visitors came from most of N.S.W. with the main support coming from the Central West and the West, while the Hunter Valley and North Coast also sent representatives.

From the outset, it was obvious that the two Winchester reps. Geoff Salmon and Frank Smith were going to be trying to take most of their trophies back with them. Geoff won the Orana 20 target Championship after a close fought shoot off. Sunday arrived and with most of the visitors recovering from various forms of bush hospitality, the eye opener again saw Geoff Salmon in the possibles. The thirty target Tournament was difficult as during the event a strong wind blew up, making the targets from the bottom trap go off at all sorts of tangents.

It can be seen from the scores that it was no easy event with only one possible shot by a competitor from Singleton Gun Club, John Evans. C. Bailey was second, with the pride of Lightning Ridge, Rex Lehman, third. Rex, who is a consistent shooter, also took the High Gun for the weekend. The veterans' trophy saw a shoot off between Dubbo's "Foxy" Morris and Cobar's Arthur Turner Snr. with Arthur gaining the trophy.

Ern Hawkins also spent the weekend with us and we hope he had an interesting and enjoyable time. Proceeds from this shoot will be channelled into our new ground. In the next few years we hope to have a shooting ground at Dubbo suitable for holding State and even bigger events. No comment on the shoot would be complete without thanks to our ladies and their helpers who made sure that meals and refreshments were always ready and of top quality. No person left Dubbo without a full stomach. The Club also extends its sincere thanks to Winchester for the chance to hold the trophy tournament which is a great attraction to most shooters.

• John Evans, left, is presented with the location winner's "loot" by Winchester Area Manager, Frank Smith.

• Lightning Ridge Gun Club colors were upheld by Rex Lehman (left) who won the overall high gun and was placed third in the Winchester Tournament. Frank Smith of Winchester is on the right.

• C. Bailey, left, received the Winchester Auto for second place from Frank Smith.

WYONG G.C. CONDUCTS FUND RAISER FOR THOMPSON (Mrs J. Dunlop, Publicity Officer).

Wyong Gun Club's normal shoot afternoon on June 9, was given over in favour of a fund raising shoot to assist our local shooter Kevin Thompson meet costs for his forthcoming visit to America where he will be the NSW representative in the Australian team to compete in the American Nationals for 1979.

Wyong Gun Club sincerely thanks all those businesses, clubs and individuals who have donated cash and trophies to assist Kevin.

53 shooters including visitors from as far away as Tamworth and Cowra rallied to support this shoot for Kevin and to show that he was really worthy of support. Kevin won the "Kevin Thompson High Gun" trophy of the day. Results for the events were:

High Gun, Kevin Thompson; Tuggerah Lakes Double Barrel Championship: Outright winner, K. Thompson; A grade, R. Jenness; B grade, R. Haywood; C grade, J. Pane; Front Marker, T. Huggins.

Tuggerah Lakes Single Barrel Championship: Outright winner, P. Jessop; A grade K. Thompson; B grade, R. Haywood; C grade, J. Paul; Front Marker, R. Paul. Tuggerah Lakes Point Score Championship: Outright winner, D. Norris; A grade, R. Melville; B grade, R. Haywood; C grade, J. Paul; Front Marker, J. Clements. ○

Shooting a Line — Cont'd

in that same proportion carry oxygen. This results in 'cutting the wind' or breathlessness, whenever there is exertion.

These combined effects of nicotine and carbon monoxide explain why the shooter must avoid smoking if he is to shoot with the greatest possible skill. This conclusion does not mean that an individual or a team whose members smoke may not win, if it is competing against inferior opponents. The top competition today does not allow a margin of indulgence if you expect to win. Denying yourself a quick drag on the weed is not a sacrifice, it is a necessity for victory.

Effect of Drugs on the Human Body

Some shooters have probably tried a sedative drug or tranquilizer to see what effect it would have on their shooting. Drugs affect people in different ways, so dosage would be a problem in addition to accomplishing the desired reduction in anxiety, nervousness, etc. Also, anytime medication or drugs are used that affect the body functions, the side effects may do more harm than good to the shooter's performance.

Some shooters no doubt prescribe certain remedies for themselves when they have a cold, a stopped-up nose or a headache. Most of the effects are not conducive to good shooting. In no way do we wish to imply that any shooter would resort to narcotics.

A depressant slows reflexes, lessens the desire to win, promotes carelessness, causes loss of concentration and co-ordination.

A stimulant causes nervousness, hypertension, increases heartbeat, loss of sensitivity in the touch of the hands, trembling, etc. Most drugs are habit forming and all are a deterrent to good health if used frequently without proper medical advice. There is no substitute for a healthy body and just plain GUTS!

Well then, that's it — I hope you have got something from this series, which has been written to assist in developing a better understanding. (Reprinted by courtesy of Australian Shooters' Journal).

"YOU SHOOT MORE TARGETS FOR LESS AT INTER"

SHOOTING THE PAT BROWNE

Still on the physical side, let's have a look at the final discussion on the things that you do to your body that can knock your performance on the head. If you are a smoker, drinker or have any other bad habits I would suggest that you skip this month.

THE EFFECTS OF ALCOHOL, COFFEE, TOBACCO AND DRUGS

The habitual use of alcohol, coffee, tobacco and various drugs is harmful to the average person and in no way promotes better body action. We can be easily fooled by misleading information that such things are helpful. For example, someone may tell us that cigarettes are an aid to digestion. Cigarette smoking after meals does cause the saliva to flow more freely and the heart to beat faster, aiding digestion. But, this may also result in overwork for the salivary glands and the heart. In like manner many people may believe that a cocktail at the beginning of a meal promotes digestion because of the greater flow of the digestive juices that alcohol causes. Tea is no different in caffeine content than coffee but possesses increased amounts of tannic acid. Any drug which causes the body organs to perform their work at a greater rate than normal fatigues them sooner and causes them to age more rapidly. Stimulants and depressants overwork many vital organs, often when their best performance is needed for accelerated body activity.

Effects of Alcohol on the Human Body.

Alcohol taken into the body passes through the walls of the stomach and the small intestine and thence into the blood stream. It is rapidly distributed through the body and promptly affects the brain by the decreased ability of the blood to take up oxygen. Inhibitions and the corresponding cautions are removed, reactions are slowed, co-ordination is impaired. The senses become less acute, particularly that of sight. Even a small percentage of alcohol in the blood may sometimes cause remarkable effects. The field of vision is reduced — ordinary objects become darker and indistinct — poorly lighted objects are lost entirely. Reactions are slowed down and concentration becomes difficult.

Experimental research scientists, using delicate tests and sensitive instruments, have been able to demonstrate the adverse effect of even small amounts of alcohol on various isolated bodily functions such as sensory perception and discrimination, reaction time, fine co-ordination, judgement, alertness, and efficiency of dexterity. The changes observed have no apparent difference in quality, magnitude or expression from those due to fatigue, hunger, distraction and a host of other environmental factors. These facts establish that one small drink of intoxicating beverage places the shooter under a handicap. The false feeling of well-being is deceptive. Alcohol and gun powder do not mix.

Effects of Coffee on the Human Body.

Many coffee drinkers say they can't do without it as a pick-me-up during the day. But let us see what really happens after that coffee break. Dr. Rolf Ulrich, in his book 'Coffee and Caffeine', reports that after coffee consumption, mental tempo rises first, and speed of association increases, but there is a notable decrease in the quality of work being done. In test examinations it was seen that the subjects finished more quickly, but the false conclusions were more frequent.

Reliability and accuracy definitely took a beating as a result of a coffee pep-up.

The physical result is the same. Caffeine raises muscular output temporarily, but in severe physical demands of longer duration, the muscular output decreases. As a famous scientist has said, 'Coffee acts like a spur, which drives a horse to do its best, but cannot replace oats'. That's the whole problem in humans — many of them do expect coffee to take the place of 'oats'. They pass up a solid breakfast because they can get by with coffee. The stimulating and exhilarating effects coffee produces is quickly followed by mild fatigue and unsteadiness. No matter how we look at it, coffee takes more from the body than it gives. All coffee contains caffeine but in varying amounts. Fresh ground coffee is the most potent in caffeine. Instant coffees contain half as much and decaffeinated coffees contain about one third as much. It is imperative that a shooter refrain from drinking coffee before and during the shooting session and be moderate in coffee consumption when not firing.

The Effects Tobacco has on the Human Body

Nicotine is a powerful alkaloid poison. Being a volatile substance, it is carried along with the burning smoke of the tobacco. In cigarettes, about 61 per cent of the nicotine is burned and destroyed, 27 per cent is ordinarily exhaled, and about 12 per cent is absorbed by the smoker. The absorbed nicotine specifically affects the nerves that regulate the heart rate and the size of the blood vessels &, therefore, alter the pulse rate and the blood pressure. For about ten minutes after smoking is begun, the pulse rate is slowed about five beats per minute because of an increased stimulation of the nerves that slow the heart beat. After this temporary slowing effect, nicotine depresses these same nerves. This results in an increased pulse rate that lasts for two or three hours. The increase for the average person, is from five to ten extra beats per minute. One cigarette after breakfast will step up heart beat for half the shooting day. With the damage already done, abstaining for the rest of the days' shooting is to small avail. The work of the heart is affected not only by the increased pulse rate but also by the decrease in size of the arteries. Both of these factors raise blood pressure.

The carbon monoxide which is also present in tobacco will, if inhaled, reduce the capacity of the haemoglobin of the red corpuscles to carry oxygen. This is due to the fact that haemoglobin absorbs carbon monoxide about 300 times faster than it does oxygen with which it ordinarily combines. Therefore, as the blood takes on carbon monoxide it cannot

More gun than ever before. The new Winchester Model 70 XTR.

The Winchester Model 70 has long been the rifleman's rifle... the gun the experienced hunter reached for when each shot had to count.

Now there's the new Model 70 *XTR*. Part of this legendary tradition, yet better than ever before. Better because of what *XTR* means. Extra care in fitting. Extra deep, gleaming finish on the genuine American walnut stock.

Extra polishing on exterior metal for a rich, perfectly uniform blue. And a brand-new adjustable rear sight.

Plus all that a Model 70 has always given you. Anti-bind engine-turned bolt. Three-position safety. Fine-cut checkering. Cold forged chrome molybdenum steel barrel for superb accu-

racy. A choice of eleven calibres for all types of game, from rabbit to rhino. And the confidence that comes from knowing that you're shouldering a legend. A legend that earned its name.

WINCHESTER.

More than a gun.
A legend.
