# The Match-winning Combination

## PRIMERS

**Used to win more major Grand American Trap and National Skeet Shooting trophies than any other brand**

Known for its greater ignition potential, the No. 209 primer uses our own special mix, made with "Basic" Lead Styphnate. The anvil, cap and battery cup are manufactured to strict tolerances; assembly operations are carefully inspected to reduce the chance of a misfire. Non-corrosive and non-mercuric, of course.

**\*Federal Primers also dominate SSAA BENCHREST CLASS**

The equipment list as printed in Australian Shooters Journal, August, 1978, reports all top ten in this Championship used Federal Primers.

## ....and in America

"Guns", October, 1978, reports: "Today Federal dominates with 81% followed by Remington and CCI. The Federal Match Primers have established an incredible record for consistency."

# Executive Director's Notes

By the time this column is being read, the 1980 Australian Trap and Skeet Championships will be behind us, and the first Executive Committee Meeting for the year will be over.

Hopefully, constitutional change will have occurred at the Annual General Meeting and the Association will be better structured to meet the needs of an expanding sport through the eighties.

One of the biggest projects yet undertaken by the shooting sports, through the Australian Shooting Association, will be the discussion workshop to be held in Canberra on June 6 and 7.

An impressive range of speakers has been assembled to lead discussions, and the project will be undertaken under the banner "Shooting Sports Through the Eighties".

The purpose will be to define the development and promotional requirements of shooting sports in the foreseeable future, and as a result (hopefully) devise the machinery required to implement any plan that may be developed.

The outcome of this project is critical, as it will be the first occasion on which ALL components of the sports shooting category — both the user groups and industry representatives — have been gathered for the same purpose at the same place at the same time.

The clay target group will be represented by five members of the Executive Committee and many delegates from State Associations.

Another important matter is fully covered in this issue — that is the Association's 1979 Annual Report. It is a worthwhile and informative document and should be read by all registered shooters.

The report confirms that the Association has recorded another reasonably successful year, and gives clear details of where your money has been spent, and how the surplus has been invested.

In these days of ever increasing costs, it is important that all clay-busters have a sound working knowledge of what their Association is about, and where the income from registration fees is being spent.

Speaking of fees, this issue (April) of "Clay Target Shooting News" has been delivered ONLY to readers who have paid registration or subscription fees for 1980. Consequently, if some of your friends complain that their copy has not arrived, please remind them that there is a strong probability that their fees have not been received at the National Office.

The transition to the Association's revised computer system is now almost complete. Apart from a momentary problem which resulted in a small quantity of 1980 registration cards being duplicated (if you received TWO cards, please excuse the incident and destroy the second card), the change-over has been remarkably bug free.

The Association has now terminated its three year relationship with Adaps, which has been providing a bureau service. Adaps have performed very creditably, and the company's staff have taken an intimate interest in the Association's affairs and needs.

Although considerable establishment costs have been incurred in making the change, quite large reductions in computer operating costs are expected to come from the new system.

The next move is to place the financial accounting system on a computer base after which the consultant shall be asked to investigate the feasibility of developing a computer system to satisfy administrative needs of tournament management. It is remotely possible that the ACTA could be operating on such a system for the 1981 National Championships, which will be held at Melbourne Gun Club.

On the subject of Melbourne Gun Club, a sincere apology is offered through this column to all competitors who were inconvenienced by the omission of the Club's monthly program from the March issue of CTSN. The problem was entirely the fault of the editor, and no blame can be attached to either the administrative staff or the magazine printer.

These last few paragraphs have been written in the Ansett aircraft taking me to what will be an exciting and successful National Championships tournament. The National President, Ern Hawkins, will be extending a special Australian welcome on your behalf to the international visitors who are competing, including a large group of New Zealanders under the leadership of John Paterson (who is a new member of the Council of New Zealand Clay Target Association) and the "South Seas Safari - 1980" party all the way from U.S.A. This group is lead by Roy Foxworthy (tour director) and Dr. Hewitt a member of the Central Handicapping Committee of the Amateur Trapshooting Association.

Next month, CTSN will bring you a complete report on the Perth Nationals.

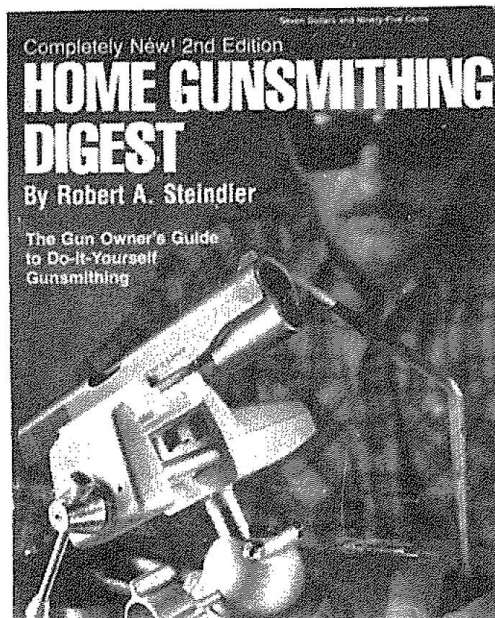

Good Shooting,

Noel J. Southey

### HOME GUNSMITHING DIGEST

A new version of this famous work for the home gunsmith. Written in an easy to read style by Robert A. Steindler it is 388 pages of good solid gun tinkering information. There are 35 chapters covering most aspects of home gunsmithing, with some good chapters on more specialist operations. Tips are many and varied, some little known. Steindler knows his subject and writes about it well. Good value for the home gunsmithing buff.

# AROUND THE TRAPS

LAURIE CONNORS

**Saturday 5th January, 1980**

Well, here we are into 1980 and it is a new year for clay target shooting throughout Australia.

What will be our progress when it has passed? A new Constitution for us to work under? Further development towards a National Ground? Where? Headquarters we can call our own? Improved facilities at our own clubs for the benefit of our members? Gold medals in shotgun shooting for Australia? I wonder?

Melbourne Gun Club, one that is fortunate in having excellent facilities for the shooter, was the club I visited this day. Bill Iles, from Metro won the fifty target trench championship with 49-50. Ian Hale shot 49-50 to win the I.S.U. Skeet Championship. Ray Lowry, Winchester Rep. who is now back in Victoria after being in Queensland for some time, shot the only possible 75-75 to win the summer Points Championship outright. Bill Iles, the fellow who seems to be able to adapt to all types of shotgun shooting, won a double on this day by taking out the Summer D.B. Graded Championship. John Summers, one of our top I.S.U. shooters shot 49-50 to win the Summer Skeet Championship. Ninety-five shooters were in attendance. A good start for 1980.

● Executive Committee Member and author of "Around the Traps", Laurie Connors (left), is greeted at Frankston-Australian Gun Club by newly elected President Graham Ash. (It should be noted that Laurie has since been elected as National Vice President).

**Saturday 6th January, 1980**

Frankston-Australian, another club going places with amenities for the shooter, had a five event program on this day. Barry Webley had to shoot 66-66 to win the Points Championship. Tony Rowe who concentrates mainly on trench shooting these days, won the Single Barrel Championship 20-21 and Mark Delorenzo shot a clean 50-50 to win the Skeet Championship.

**Friday 18th January, 1980**

Attended a Victorian I.S.U. Sub-Committee meeting at the residence of State President, Bob Buchan. Contra to what some shooters may think, I believe this body to be of value and working in a productive manner for the I.S.U. shooters. If you think you have something constructive to add towards the growth of this type of shooting you should contact someone on this committee, or write direct to Trevor Nash, the State Secretary, were it can be tabled at one of our meetings for consideration. One of our main ambitions is to get our State training squad on the go as soon as possible. A pamphlet, setting out details regarding the State Training squad and other items pertaining to I.S.U. shooting, is to be printed and made available for those interested in this discipline. It is another effort by the administration to endeavour to improve our communication level with the shooter.

**Saturday 19th, Sunday 20th January, 1980**

Frankston-Australian Gun Club hosted the final 200 target I.S.U. Skeet qualifying round, for team selection to go to New Zealand, for the South Pacific Regional Championships this day. Whilst this was in progress, a 200 target Trench State qualifying round was also being shot. The skeet attracted seventeen entries. After the first 100,

Ian Hale led the way with 96-100. His nearest rival was John Summers on 94, then came Alex Crikis on 93. Graeme Boyd who started with the only 25 could only manage 87. John Woolley, the New Zealander shot a 90. In final calculations, Hale came in the winner with 191-200, Crikis and Summers finished equal on 188-200 and Boyd 184-200. Woolley was next with 180-200. The 200 trench event carried 30 entries and their own club member Greg Long cleaned up the field breaking 184 targets out of the 200. John Green from Korumburra was the next best with 182-200.

Sunday also carried a D.T.L. program and Ron Clarke from Werribee won the Points Championship 123-123. Mario Fillipelli shot the only possible in the single Barrel Championship and won it with 15-15. Dimingo Diaz won the skeet with 25-25.

**Monday 21st, Tuesday 22nd January, 1980**

These two days were spent looking at reception centres in Melbourne on behalf of our 1981 Nationals Sub-Committee. It is intended to conduct a Presentation night and Dinner dance at the completion of the Nationals to be held at the Melbourne Gun Club over the Easter period of 1981. Tentative bookings have been made at various establishments, and a full report will be submitted to the Committee for their selection and approval of premises to conduct the venue. Should be a great spectacle if all goes to plan.

Also took the opportunity to call at the office and spend a couple of hours in consultation with our National Secretary, Noel Southey, on matters pertaining to our sport in general. The visit was quite informative and well worth the effort. Thanks for your time Noel. It is now Thursday and it is off to Canberra where the Australia Day Games are to be held.

● Bruce Lassen (left), reigning New Zealand Olympic Trench Champion, exchanges views with Norm Simms, President of A.C.T. International Gun Club. Bruce visited Australia specially to compete in the Australia Day Trench Championship.

**Saturday 26th, Sunday 27th, Monday 28th January, 1980**

Canberra International Gun Club conducting the two hundred target Australia Day Trench Championship over this weekend. This event was also being used to select a team of four to represent Australia in the South Pacific Regional Championships to be held in New Zealand in March this year. I took a run out to the grounds on Friday as I guessed shooters would be arriving for some early practice. Sure enough, the top shots in Doug Smith from Queensland, Terry Rumbel N.S.W. Over 125 years later, sporting guns from Smith & Wesson carry on a fine tradition of quality, accuracy and durability — at reasonable cost.

Eight years before Abraham Lincoln became President of the Union, craftsmen gunsmiths of Smith & Wesson were test-firing the latest hand guns to be designed in North America. And the hand guns they built created a legend that lives on to this day. The same skill in quality manufacturing, from inspection of raw materials to test firing, has been faithfully maintained in today's fine range of sporting guns carrying the Smith & Wesson brand logo — from air guns to handguns to rifles to shotguns. And there's a model to suit you — at reasonable cost.

## AROUND THE TRAPS — Cont'd.

• The team selected to represent Australia in the Olympic Trench section of the South Pacific Regional Championships. From left: John Maxwell, Jim Ellis, Newton Thomas (Manager) Terry Rumbel and Greg Long.

Bill Iles from Victoria were there. The event was to be shot 75 Saturday, 75 Sunday and 50 on Monday. There were 38 entries on the board, and after the first 75 Greg Long from Victoria led the field with 74, Smith was on 73, Scanes and Ellis 71 and Rumbel 68. The first day was rather windy and kept scores low, however it calmed for the next two days and Ellis put the pressure on all competitors by shooting 150 straight to be first overall with 196-200. Greg Long from Frankston-Australia Gun Club in Victoria finished two targets behind on 194-200 and was second, Doug Smith, Queensland 191-200

• John Rodda (left), South Australian member of the Executive of the Australian Olympic Federation presents Jim Ellis with the Champion's trophy after Ellis had won the Australia Day Trench Championship. He shot an Australian record - equalling score of 196-200.

• Two familiar faces 'frame' an international guest. Tony Rowe (left) of Frankston-Australian Gun Club assists Tom Lucas (right) to discuss policies with Robert Perronet of New Caledonia. Mr Perronet was visiting Australia at the time of the Australia Day Games, and took the opportunity to renew some acquaintances developed with Australians in recent years.

third. These shooters could not take part in the graded placings which went to Terry Rumbel Taree Wingham 186-200 "AA" Grade, Barry Scanes A.C.T. International 185-200 "A" Grade, Ian Buchanan, Melbourne 197-200 "B" Grade and Alan Fennesy, Downside International 150-22 "C" Grade.

The full selection panel, elected by the National Executive, of Ern Hawkins, National President, Harry Somers, Chairman of National I.S.U. sub-Committee, Trevor Reschke, Newton Thomas, National Coaching Director, and myself, met to select the trench and skeet teams to go to New Zealand. Those to win a guernsey were in trench, Jim Ellis, A.C.T., Terry Rumbel, Taree-Wingham N.S.W., Greg Long, Frankston-Australian, Victoria and John Maxwell, Illawarra Gun Club, N.S.W. Skeet, Ian Hale, John Summers, Alex Crikis, Melbourne Victoria and Graeme Boyd, Wangaratta Victoria. As for Olympic selection, Jim Ellis and Terry Rumbel were recommended for trench and Ian Hale and John Summers for skeet. Good shooting in New Zealand "fellas", and I hope if not all, at least some of you will make Australia's Olympic shooting team.

Being elected to the panel which has the arduous task of investigating and looking at grounds that have been recommended and considered suitable for a National ground, the opportunity was taken to inspect a site near the Canberra Airport where an effort is being made to acquire and develop a shooting complex. Regardless of whether we think a National Ground is needed or not, it is obvious to me that our sport is suffering because of the standard of our present facilities, where some of our major tournaments are conducted. Clubs and administrators are doing an excellent job under the facilities available, but we all need to look at the future, if we are to progress and become a strength in our shooting. Think about it, and come up with an answer if you can.

See you where there is shooting.

## EDITOR'S MAILBOX

Dear Noel,

May I, through the columns of "News" - draw the attention of the N.S.W. shooters to a very important event this month.

The Cowra Gun Club is holding a two day Coaching and Gun Fit Seminar combined with an open Championship shoot - all proceeds from the shoot go to the coaching and travel fund with no profit to Cowra Club.

The Club has obtained the most talented group of coaches ever assembled in N.S.W. at the one venue. We have our National Coaching Director - J. Newton Thomas; N.S.W. Coaching Director - Pud Burgess; Western Zone Coach - Dick Toshack and Riverina Zone Coach - Barney Rooke. These men will be giving lectures, demonstrations and practical advice to any person who attends.

One of the main features of this seminar is the fact that George Biggs, who is recognised as Australia's leading exponent on "gun fit", will be in attendance and his services will be available and free, in fact, the whole seminar is free to all shooter's. At practically every shoot you will see some shooters with tape on their cheek or complaining about a sore shoulder - this is their opportunity to obtain expert advice and assistance which, in turn, will improve their shooting and enjoyment.

This may be the only time for many years to come that we will have this wealth of knowledge so readily available so I appeal to all shooters to take advantage of this excellent opportunity.

Yours faithfully,

Len Bird

# Australia Day Sports Carnival

## QUEANBEYAN/CANBERRA GUN CLUB

### HOSTS D.T.L. SECTION

(by Jacqi Chilcote)

Sunday 27th January dawned bright and sunny. The committee arrived at the clubhouse apprehensively wondering how many shooters would travel to this, the Club's first Australia Day Championships. No-one need have worried — by 10.30 a.m. 85 shooters had nominated. They had come from Darwin, South Australia, Queensland, Victoria, all over New South Wales and the A.C.T. Total number of shooters for the weekend was 115, which was far beyond expectations.

With ideal shooting conditions there were 18 possibles shot in the eyeopener event. Event two was the Australia Day Points Score Championship, 50 Targets from 16m. First to win a New Zealand trip was Kevin Thompson from Wyong who shot 149-150. Second with a trophy valued at \$129, was Bill Stevens from Brisbane 148-150. Third with a trophy valued at \$65.00 was Barry Duncan from West Wyalong 147-150. Intermediate was won by John Topsfield of Queanbeyan/Canberra with 139-150, and front marker was Clarrie McCarthy from Berridale with 138-150. Both these shooters lost metres.

• Winners of the Pointscore Match at Queanbeyan Canberra Gun Club: (from left) Bill Stevens (Qld.), Kevin Thompson (Wyong), Barry Duncan (West Wyalong), John Topsfield (ACT-Inter.) and Clarrie McCarthy (Berridale).

• National President, Ern Hawkins (left), presents Jim O'Connor with his commemorative medal (each competitor received a medal as a memento of the first Australia Day Sports Carnival).

There was a pause in the shooting whilst President Rob Parker welcomed the visitors to the club, and called on National President Ern Hawkins to present commemorative medallions to the participants that day. These unique bronzed medallions had been struck by the Australian Olympic Federation as a memento for all sportsmen at these Inaugural Australia Day Games. That was not the only task

Ern had that day — I also saw him refereeing! and with 16 squads, for most of the events we needed every referee on the ground to lend a hand. The efforts of all referees and scorers were very much appreciated.

After the presentation came event three, the Grand Australia Day Handicap of 50 targets. Overall winner and winner of the second New Zealand trip was local club member Dave Zevan who shot

• David Zevan acknowledges the plaudits of the crowd after firing the winning shot in the Grand Australia Day Handicap. At rear is past President of the Queanbeyan Canberra Gun Club, Merv Lyons.

60-60. Dave scored two metres for his efforts, but that didn't wipe the smile off his face! In the 11-12 m group Alan Hateley won with 58-59 and lost a metre. Alan is a comparatively new shooter, and also a member of the host club. 13-15 m group saw another Queanbeyan/Canberra club member, new shoot marshal Mark Kolstad win with 59-60. Mark also lost a metre. 16-18 m made it four in a row to the club with Mark Holland on 66-67. 19-21 m was won by Jeff Webster from Goulburn with 49-50, he lost a metre. 22-25 m was won by Kevin Thompson with 47-50. The prizes in the metreage groups were Ruger .22 calibre rifles valued at \$167.00.

Monday morning came all too soon and by 10.30 the first squad was on the tracks for the eyeopener of 20 targets off 16 metres. From 81 shooters in this event, 27 shot possibles. Event five was the Australia Day Double Barrel Championship, 50 targets from 16 m. Overall winner and winner of the third New Zealand trip was Tony Alvaro from Sydney Gun Club, with 78-78. This event was divided into metre groups, and each of the following received a trophy valued at \$60.00. 11-12 metres winner was M. J. Callaghan from Shepparton with 54-55. 13-15 metres was Jimmy Stubbs from Bombala with 60-61. 16-18 metres was Terry Mooney from Goulburn with 57-58. 19-21 metres was Rod Hayes from West Wyalong with 59-60. 22-25 metres was Kevin Loy from Sydney Gun Club with 77-78.

High Gun was also a New Zealand trip and was won by Kevin Thompson who shot 284-290. Inter. High Gun was a T.V. clock-radio bedside unit valued at \$200.00, this was won by Robert Picker from Goulburn who shot 273-290. Ladies High Gun was won by Mary Lou Parker from Queanbeyan/Canberra club who shot 258-290. Congratulations to all shooters who won trophies.

So ended a memorable weekend. Our thanks must go to our sponsors Caltex, Queanbeyan Guns & Sports Centre, and the Department of Home Affairs. To Ern Hawkins, Noel Southey and Ron Porter for attending this shoot, it was good to have them along, and most of all, thanks to all shooters who attended and made it a very pleasant and successful shoot.

## IT'S MIRAGE FREE

Don't let "miraging" spoil your shoot off chances when you can have the Superior Sight picture of the MIROKU 10 mm raised floating rib. The same rib was used to win the Grand American at Vandalia. A floating rib does not cause the point of aim to alter as barrels become hot, because it is designed to expand independently of the barrels. The special floating design prevents heat haze distortion so common with standard Vent Rib guns.

Sighting along this high post rib keeps your head erect so that your eyes are centered in their sockets and not squinting through your eyebrows. If you wear glasses you look straight through the lenses and avoid the parallax that occurs when lenses are oblique to your line of sight.

Miroku 3800C's high post rib lifts the line of sight so that your head and eyes are positioned for best vision. Any tendency to lift your head is greatly reduced because high targets don't disappear behind your eyebrows.

# SOMETHING NEW IN LUBRICANTS

**TRI-FLON, MAYBE IT WILL TURN YOUR FAVOURITE PIECE INTO A 'NON STICK' MIRACLE.**

(by Pat Browne)

I must admit I am impressed with this product. Bob Oldfield, of HY-GUN products in Queensland, sent me a sample of the lubricant, together with some technical literature some time ago and I have been happily squirting it all over different things to get some sort of an idea as to its merits. In short order, I have stopped all the doors in the house squeaking, loosened a rusty gate, smoothed out a jerky linotype machine, cleaned and lubricated my typewriter and just lately have got around to using TRI-FLON on my guns.

Now, before you think this is just another lubricant in a spray can, it is not. A spin off from space technology, it is a 'teflon' based synthesized fluid that becomes a total lubricating system. The technical specifications of this product are impressive to say the least. Based on United States military specs, an acceptable gun lubricant must perform on friction surfaces loaded to 250 psi for four minutes without binding. This product knocked that spec into a cocked hat by performing at 1200 psi for 20 minutes. Another spec has the minimum requirement for protection set at 30 hours in a 5% salt solution. Tri-Flon went an incredible 165 hours!

The reason for this remarkable performance of Tri-Flon as a lubricant lies in the makeup of the material itself. TEFLON is the reason and in its form of microscopic particles suspended in a hydrocarbon solution, the minute particles fill the irregularities in metal surfaces to 'smooth out' friction surfaces. The end result of course is that the machine or weapon works that much easier and smoother.

There are some very noticeable spin offs for the gun owner that are worth noting. As an anti-corrosive lubricant it is a boon to the hunter who uses his gun in wet conditions. The product's ability to fill the surface of the metal with Teflon effectively removes the grit and corrosive particles from metal surfaces that cause scoring and binding in closely fitted metal to metal bearing surfaces such as you find in break-open shotguns in particular, and in other types of guns.

The fact that Tri-Flon has such very light viscosity, the lubricant can reach and protect surfaces that ordinary lubricants cannot reach, let alone hope to remain on the surface.

In a practical sense, I have now used Tri-Flon on several guns with quite remarkable results. After thoroughly cleaning a trap gun with the lubricant, I was amazed at the amount of gunk that was loosened and removed. Unburned powder and varnish residues (a by product of modern smokeless powders, that is impossible to detect in some places), primer fouling on action faces, and general grime and old oil just fell away and the gun looked and operated like new. More to the point however is that the gun is now much easier to clean. On a pump gun or auto loader the results have to be experienced to be believed.

NASA had a bit to say about Tri-Flon when it evaluated it and by way of explanation of some of the terms mentioned, the following are some excerpts from their publication SP-38

1. Adhesive or galling wear: This type of wear is produced by the momentary touching of adjacent, moving surfaces. A phenomenon generally known as 'stick-slip' occurs which can result in the sudden adhesion, then movement of often quite finite and localised areas. During adhesion, microscopic welding can occur which, when motion continues, tears minute bits of material from the surface.

With liquid and solid toughness, Tri-Flon creates a film that benefits from the extremely low friction, solid TEFLON which keeps the two surfaces from touching while allowing the more liquid portion to provide the lowest possible fluid movement. Tri-Flon allows a freedom of motion which results in reduced wear rates.

2. Abrasive or cutting wear: With normal lubricants it has been customary to clean areas of as much grit as possible with solvents, then lubricate. Unfortunately, those lubricants with the greatest film strength (such as grease) were also the tackiest and accumulate heavy loads of dirt and wear particles during their lifetimes. This continuing cycle of lubrication and cleaning has been lubrication's limitation. Tri-Flon tends to interrupt this inefficient and destructive cycle. By combining the lighter hydrocarbons with the far more dense and heavy TEFLON, Tri-Flon provides the unique tendency to displace dirt, grit, rust, salt etc., from friction surfaces and forces them to flow away whenever movement of the load

bearing surfaces occurs. A condition is created which tends to cleanse itself of harmful wear particles and gritty materials which leads to ever improving wear circumstances.

3. Surface fatigue: Liquid barrier films containing hard solids such as molydisulfide and graphite (hard, shale-like materials) tend to fracture and break. Tri-Flon's soft, malleable TEFLON has the lowest friction coefficient of any material in the dry film family. Since fatigue is the result of cycle activity, the smoother that things move and the more cushion provided (such as with the TEFLON) the more likely that the cycle activity will be lessened. Tri-Flon can thus reduce some of the effects of surface fatigue.

That, I think says it all about Tri-Flon the material. I am absolutely amazed that what they say is true! Since using the lubricant my guns have never been cleaner, or easier to keep clean. They have never been smoother in their action and as trouble free. A report I have seen states that barrels cleaned with the material results in an increase of MV up to 10% in conventional rifles and up to 25% in air rifles. Probably the most impressive thing about the spray is that it never seems to dry out so it is there when and where it is wanted.

The product is being distributed in all states and will be available in .5 and 1 oz Squeeze packs and 3.2 and 16 oz Spray Cans. When you see it, grab a sample and try, you will be absolutely amazed at what it will do for the operation of your firearm. It is without doubt the best lubricant I have ever used on my guns.

Dear Noel,

## Re: National Shooting Ground Referendum

I suppose succeeding issues to the February C.T.S.N. will indicate the degree and depth among registered shooters to the controversy surrounding the method of conducting the above in compliance with the relevant resolution adopted by the 1979 A.G.M. held at Griffith. May I be permitted to ventilate my views?

My first thought is "how critical is the referendum result, obtained by whatever method?" The device of the poll of shooters sets out "to establish whether or not a policy of establishing a National Shooting Ground is supported".

Assuming for the moment that no invalidity exists either to accepting the motion in its present form, nor to the method of conducting the poll (i.e. constitutionally) then what have we? The National Executive has been told by the membership that "a policy of establishing a N.S.G. is supported". Surely there is a long step between the adoption or ratification of policy and its implementation in terms of executive action to proceed with construction, without any further consultation with members. In my view, the Executive body has only a mandate to examine the proposal seriously, is authorised to expend funds to commission an expert feasibility study to evaluate viability, to determine the most suited location (after delineating the role envisaged), the proposed layout/s and facilities to service the Ground, means of overall funding etc, etc, and to present such proposal/s (there may be alternatives) to members for determination. If an affirmative emerged then the policy becomes a plan to be implemented as expeditiously as possible.

According to figures quoted in the February article, 57.25% of affiliated Clubs returned referendum results, a majority though a small one. The Editor in his note indicates that the aggregate club membership in those results was 2,446 — 68% of which was "for". I do realise that the 2,446 could be only 38% (a little less or more) of the aggregate membership of all affiliated clubs, but in my experience, anyone who expects a large majority response from memberships today is just not being realistic. Only 38.7% of clubs are known to be in favour of supporting the policy, perhaps some of the remaining clubs (115) have declined to vote on the issue — holding a franchise does not always imply an inclination to exercise it, some may have been apathetic, others victim of communication breakdown.

To my mind the method of decentralising to Clubs to conduct the referendum of registered shooter members is fair enough, and the voting response likewise when one considers that in local government elections under non-compulsory legislation during recent years, councils have been elected to office on the results of the voting of as low as 17% of enrolled electors. The remainder were not disintitled to a vote — their non-attendance at the polling booth precluded it.

I support the action taken to conduct the referendum for these reasons:

- It was much speedier and less expensive than the "centralised" concept.
- I doubt if "individual registered shooter" response would have been any more conclusive on presently available information.
- Out of it the National Executive could only be commissioned to "support a policy" by exploring ways and means — albeit expeditiously.
- I doubt that the A.C.T.A. Executive has the constitutional authority to by-pass its legal members, to wit; Affiliated Clubs, and go direct to registered shooters individually for direction and/or authority to act.

At A.G.M.'s heretofore Clubs' voices have been heard through their officially notified delegates — a decision taken was that of a majority of the Clubs represented at those meetings, not that of the total affiliated club membership of the A.C.T.A. It is a pity in order to avoid any misapprehension that the words "through their respective clubs" had not been inserted next after the word "shooters" when the motion was framed.

I most heartily commend Chris Penno on his interest and effort in presenting his club's objection, and unequivocally defend its right to say so.

The foregoing is only my personal view, and I would appreciate the forbearance of readers.

Yours faithfully

Tom Dawson  
DUBBO

Dear Sir,

As founder of the teaching of Safety with Firearms to Technical School students 21 years ago, I feel I can look back through the years with great satisfaction.

But I am concerned about the future of inter-school shooting because I feel it is becoming too commercialised, and the true purpose of the movement is being lost.

In recent publications of the A.C.T.A. I have read with pleasure of State championships being held, but the pleasure has turned to concern because the essentials of the purpose of the events are being ignored.

Do these young competitors know anything of our trespass laws, of conservation of our wild life? Are they taught to respect the property of other people?

I think it's time the A.C.T.A. coaches got together with the Fisheries and Wildlife Department, the Victorian Field and Game Association, the Victoria Police and with teachers in the schools conducting classes in Safety with Firearms.

It's all very well having a champion shooter, but does that champion have the knowledge and responsibility to shoot under natural field conditions?

The misuse of firearms is getting a bad name for the responsible shooter because of vandalism that is visibly rife through the country.

Admittedly many of these people come from city areas and don't realise the damage they do.

With firm guidelines set for instructors to follow there'll be more responsible shooters and more competent young people using firearms.

I feel the whole movement of teaching young people Safety with Firearms is being taken away from the teachers in order that business gains some kudos.

Consider that teachers have taught 'responsibility' along with marksmanship, and have done this for years with the blessing and assistance of Gun Clubs and Gun Club members.

Yours sincerely,

Chas. Whitla

# Club News

## **Devonport Clay Target Club (Tas)**

Previously known as the Mersey Gun Club, the incoming Executive Committee of the Club has decided to play its part in the improvement of the public image of clay target shooting by changing the club name to Devonport Clay Target Club.

President Ray Mason announced this change at the Annual General Meeting, which was conducted late in January.

Mrs Margaret Mason continues as club Secretary, and Vice Presidents of the club are Steve Munday and L. Pilgrim.

## **Kallangur Gun Club (Q'ld)**

At the recent Annual General Meeting of the Kallangur Gun Club, Mr Ron Daniels was elected as President. Mrs Margaret Woodbine stood down as Secretary, and has been elected Treasurer.

The new club Secretary is John Smith, of 6 Whitehorse Street, Carseldine, Q'ld 4034.

The club has strengthened its tournament administration by appointing Bruce Jones as Tournament Secretary.

## **Benalla Gun Club (Vic)**

This club, located in North Eastern Victoria, conducted its Annual General Meeting for 1980 early in February.

At the meeting, Don Fraser was elected to the office of President, and Sam Semiotas, of 5 Noonan St., Benalla, was elected as Secretary.

Following the accelerating trend amongst clay target clubs, the position of Publicity Officer was created and has been filled by Mrs J. Semiotas.

## **Upper Hunter Gun Club (NSW)**

At the 1980 Annual General Meeting, Ron Wakem was returned to office as Upper Hunter Gun Club Secretary. Ron has held this position for some years prior to 1979 but allowed himself a 12 months spell before returning to office.

At the same meeting, Mr Ken Neill was elected as club President and Lester Rose took on the task of Treasurer.

## **Hay Gun Club (NSW)**

The Secretary of Hay Gun Club, Mr Les McGrath, has advised that due to changing circumstances in the Hay area, the club will be unable to conduct its traditional Easter Shooting Carnival.

This decision will break a 24 year sequence, in which the Hay Easter Carnival has been a feature of the annual shooting calendar.

Through these pages, the club wishes to express its gratitude to all shooters and visitors who have supported the series during a long period of time.

## **Queanbeyan-Canberra Gun Club (NSW)**

At the club's A.G.M. conducted in January, Rob Parker was returned as President and Jacqui Chilcote continues as Secretary. The club had a very successful 1979, in which it was selected as host to conduct the record breaking State Trap Carnival.

During the year the club conducted 15 day trap matches, which attracted an average attendance of 51 shooters.

The club's night activities included 50 trap matches, which attracted an average attendance of 19 competitors.

Many club members had notable successes during the year. Mary-Lou Parker qualified for the Ladies State Trap Team, and Brian Prosser and Jim Ellis gained places in the Open State Trap Team. Then, Brendan Smith travelled to Griffith in November to qualify for the State Skeet Team.

In all, the club has had a most successful 1979.

## **Toolondo Gun Club (Vic)**

Alan Cameron was elected to the office of President of the Toolondo Gun Club at the club's recent Annual General Meeting.

Robert McDonald continues as Secretary, and will be ably supported by John McKenry.

Alan Cameron doubles as club coach and quite obviously is in for a busy year.

## **Dysart Shooters Club (Q'ld)**

Advice has been received from Mary Quince, Treasurer of the Dysart Shooters Club, that her club recently suffered a severe loss when Danny Casagrande and his wife Maralynn shifted to Gladstone.

Danny has been a tremendous supporter of this youthful club, and just prior to his departure, was elected as a life member of the club.

Not long ago, the club was anxious to enter a Ladies Team in the Zone Inter-club Teams Match. Some difficulty was experienced in finding sufficient women competitors, and so the club "converted" two of its male members to be included in the team.

Although the team was unsuccessful in its search for a zone title, all the other competing teams will well remember the match.

## **Alice Springs Gun Club (N.T.)**

This club, in line with the national growth in clay target shooting, has recently opened a skeet field. This additional facility complements the existing two DTL fields, and further establishes the Alice Springs Gun Club as an important centre for clay target shooting in the Territory.

## **Swan Hill-Nyah Gun Club (Vic)**

In further recognition of the effect of increased costs on family involvement in clay target shooting, the Swan Hill-Nyah Gun Club has established a policy of lowering its match entry fees.

This will be an interesting development, as it follows the lead set by Metropolitan Clay Target Club during mid 1979.

For some time, competitors have indicated that they are prepared to compete for minimal trophies, and the Swan Hill-Nyah Gun Club policy is an acknowledgement of this trend.

## **New England Gun Club (NSW)**

This club conducted its AGM on February 6, at which John McFee was returned as President.

Secretary of many years standing, Ken Greenwood was unavailable for re-election, and the position has been filled by Andrew Futter of "Tirrano", Glencoe via Glen Innes.

The club's Publicity Officer is Rowena Parsons.

## **Burdekin Gun Club (Q'ld)**

A further correction is required to the club directory which appeared in January issue of Clay Target Shooting News. In the directory, the Burdekin Gun Club is shown as having day skeet shooting facilities only.

In fact, the club also has night skeet and ISU shooting facilities. Would readers please amend their copies of the club directory.

## **Broken Hill Gun Club (NSW)**

The Johnston machine continues to administer the Broken Hill Gun Club, following the recent Annual General Meeting.

Mrs Sandra Johnston continues as club Secretary and her husband Devon Johnston has been elected as President.

## **Dubbo Gun Club (NSW)**

The Annual General Meeting of the Dubbo Gun Club was held on February 3. The club congratulated the husband and wife team of Austin and Robyn Bourke, who were returned for a further term as President and Secretary respectively.

The club is well advanced in the development of a new shooting ground, and Peter Keough was elected to be Co-ordinator of Building Projects.

Shooters in the Orana region are all excited about the prospect of a new Dubbo ground, and there is a gathering groundswell of enthusiasm amongst club members.

## **Townsville Gun Club (Qld.)**

At the Annual General Meeting of the Townsville Gun Club, some major changes in Executive occurred.

Neil Hardy, who has been Secretary of the club for some years, has now been elected to the position of Vice-President alongside the other Vice-President, Arthur Kenna. Club President continues to be Ken Miskin, who has held this position for the last 15 years.

The incoming Secretary is Mrs S. McDonald and the Treasurer is Tom Commerford.

## **Hamilton Gun Club (Vic.)**

The Hamilton Gun Club held its annual General Meeting, on February 7 and Mr. Harry Vaughan was re-elected as Club President. However, there is a change in the office of Secretary, which is now filled by Glenn Storer.

## **Cressy Gun Club, (Tas.)**

After two years as President, John Cashion has been succeeded by Mr. L. Ellis. The change occurred at the recent Annual General Meeting of the Cressy Gun Club.

The Club also has a new Secretary, who is Mrs. Chris Alomes of 31 Summerdale Grove, Summerhill Launceston.

## **Mt. Isa Gun Club (Qld.)**

The Annual General Meeting of this Club was held on Sunday, February 3, and resulted in the election to the office of President - Mr. John Hart.

Vice-President is Gary Cooke and Mrs. Janet Wheedon continues as Secretary.

# ANOTHER "SPORTSMAN OF THE YEAR" TROPHY TO CLAY TARGET SHOOTING

(Staff Writer)

Another Mark is leaving his mark on the sporting world. At a recent function in Ballarat, Victoria, the second son of popular Brian Mark was announced the winner of the Wunhym Trophy.

The trophy was presented to Russell Mark, who was named "Junior Sportsman of the Year".

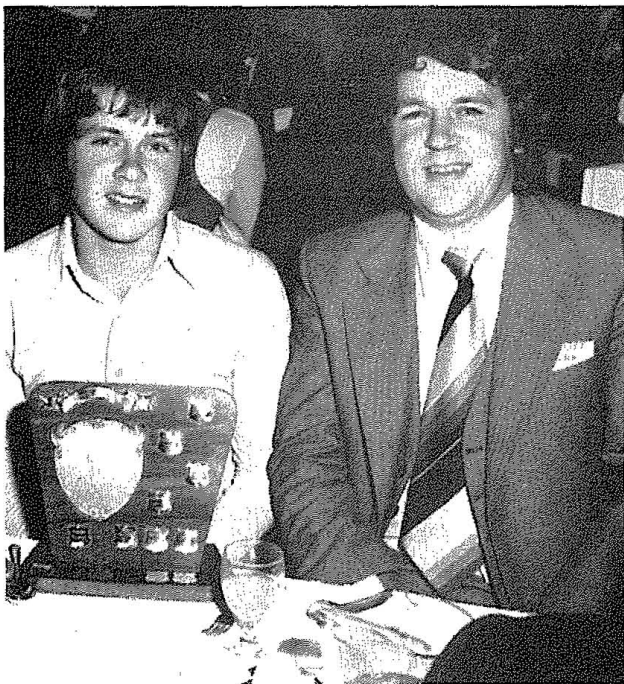

The award is limited to sports people under the age of 16, and Russell's win came after his remarkable year on the trapshooting circuit.

Russell won the junior high gun award at the 1979 National Trap and Skeet Championships, was location junior winner at numerous Winchester Tournaments, and had a major win in the Deniliquin Grand Prix.

At the Victorian titles, Russell dominated the junior section and won "C" Grade in the State Olympic Trench Championship.

Brother Geoff, now Marketing Manager for Begonia Books, won the same trophy after being named Junior Sportsman of the Year in 1968.

Russell contested the junior divisions of the 1980 Australian Championships just concluded in Perth and won the blue ribbon event, the National Double Barrel championship, with an amazing score of 349/349.

• Russell Mark (left) proudly displays his "Junior Sportsman of the Year" trophy - past winner Geoff Mark is obviously pleased with the success of his "little brother".

## GET A DOG! (by Tom Gannon)

Shootin' ain't shootin' without a dog and a mate.

Don Corstorphan and his mid-70's Victorian Western district mate (see November 1979 News) retrieve snipe from tall, dense scrub by sight — after reaching the spot that the bird went down, by shaking tree tops or waving a long stick.

**A bird dog would save all that bullocking.**

Even when a snipe is caught up in a tree, the dog will tell you by putting its front paws on the trunk and looking up.

Many snipe shooters will not use a dog because it flushes birds out of range. They don't realise that a snipe pays a dog no more attention than cattle, and invariably resettles within 50 metres.

A dog covers (at a guess) four times more country than a man. **AND FINDS FOUR TIMES AS MANY BIRDS.**

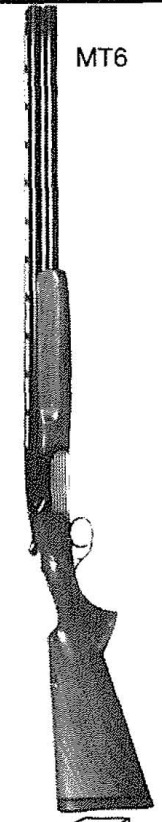

Snipe, like quail, will run out of a shooter's way. But it won't trick a dog. Not infrequently a dog sets snipe.

There are times when you can be looking at a dead or wounded snipe, but its camouflage is so good you can not see it.

A dog walks in and retrieves it.

Incidentally, the recent season in SW and SE Victoria was very good.

# G.S.P. CLAY TARGET SHOOT AT KALLANGUR GUN CLUB

(By John Smith, Secretary, Kallangur Gun Club.)

On the 16th December, 1979, the German Shorthaired Pointer Club (G.S.P.) of Queensland conducted its inaugural clay target shooting competition at the Kallangur Gun Club's grounds. It is believed to be the first time in Queensland that a gundog club and a clay target shooting club have combined to present such a program. Previously, informal shoots have been held by various gundog clubs on private properties.

Other gundog clubs and associations represented at the shoot were—

Gundogs and Heavy Breeds Club of Queensland  
Labrador Retriever Club of Queensland  
Weimaraner Club of Queensland  
United Field Trial Association of Queensland  
English Springer Spaniel Association of Queensland

Over 100 persons attended with 42 shooters participating in the program.

In addition to being a highlight on the social calendar of the G.S.P. Club, the shoot aimed at developing dog handlers' shooting skill in readiness for the utility field trials to be introduced to Queensland during 1980. In these simulated field exercises both dogs and handlers team to compete in hunting feather and fur. The dogs will lose points if their handlers lack shooting proficiency.

The objectives of the Kallangur Gun Club were those of an educative and promotional nature. The committee welcomed the opportunity to teach safety aspects of gun handling and to introduce the sport of clay target shooting to an interested group. Reciprocal benefits accrued to each club - especially in the field of membership gains.

The Program was opened by Ron Daniels, Kallangur Gun Club President, who welcomed the "dog people" and officially made available the grounds and facilities. He stressed the necessity for safe gun handling and expressed the hope that both clubs would benefit mutually from their common interests in dog handling and shooting.

Because of the considerable number of shooters who had never shot on a formal trap layout before, the morning session was mainly devoted to a coaching school on one trap conducted by Kallangur Gun Club Coach, Martin Gough. Practice opportunities were provided for the experienced shooters on the other trap. After the coaching session, the shooters were combined in squads for further practice opportunities before the formal program got underway.

The program catered for both experienced shooters and novices in the dog clubs (Gun Club members shot for targets only).

<b>Best Lady Experienced Shooter</b>	Bev Quinland (Weimaraner Club)	
<b>Best Lady Novice Shooter</b>	Lyn Elliott (Weimaraner Club)	

The Program concluded with an inter-club shoot. Teams were fielded by United Field Trials Association, Weimaraner Club (2), and the German Short-Haired Pointer Club. The event was won by the G.S.P. team which comprised Peter Stein, Paul Luckman, Murray Gough, Ron Ross and Peter Rutherford.

The social and practical value to all concerned was ensured in no small measure by the unstinted co-operation of all the participants. Hardworking secretaries, Margaret Woodbine (Kallangur Gun Club) and Renee Luckman (G.S.P.) combined their talents to run the program smoothly; while on the tracks, the club referees, headed by Greg Woodbine and Allan Arrowsmith, guaranteed that safe shooting and equity were maintained. Shooters were kept well provided for by the very active ladies committee. Hamburgers, soft drinks, and other refreshments were consumed with incredible rapidity.

It was pleasing to observe that the "dog people" quickly and willingly conformed to the rules and conventions of safe and effective shooting as promoted throughout the day.

Arrangements are in hand for further meetings based on this formula to be held during 1980.

P.S. It is now up to handlers not to let their dogs down by lack of practice and skill in the shooting aspect of field exercises. The opportunity is there to be grasped with both hands. ○

## TRADE TOPICS

In a major reshuffle of senior executives, Boustead Trading has appointed two joint General Managers. They are David Tietjin who now has total responsibility for the Company's Trading Division activities, and David Marsden, who has responsibility for the Engineering Division.

Both have been made Associate Directors and have filled the vacancy caused by the retirement of Mr Harry Alexander.

Boustead Trading is best known in shooting circles as the Australian agent for Remington Arms Co. - as such, it has been a strong supporter of clay target shooting. It also handles Kolpin gun bags, and Antonio Zoli shotguns.

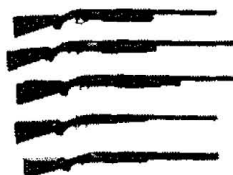

Late in February, Boustead received a visit from Remington's Director of International Operations, Mr Bill Boettner. Mr Boettner who was last in Australia in 1972, has recently taken up his new post, replacing Mr Ed Giner, whose health has deteriorated in recent times. Ed accompanied Company Vice President Jack McAndrews to Australia in 1978.

To give Bill Boettner an opportunity to meet some of the shooting identities, a trade function was held in Sydney on Tuesday, February 26.

Many well known faces appeared and by all reports, the project was a most successful promotion for Remington and Boustead.

More important news from Boustead is that, in recognition of the anticipated size of the 1981 Nationals to be held at Melbourne during Easter, a Presentation Model Remington Under and Over shotgun valued at between \$5000 and \$6000 will be donated to the Australian Clay Target Association to be used as a feature trophy. The Association is extremely grateful for this continuing support. ○

# ATTENDANCE UP BUT SCORES DOWN IN SOUTH AUSTRALIAN TRAP CARNIVAL

(by a Staff Writer)

One hundred and ten aspiring trapshooters converged on South Australian Gun Club to contest the second 'new look' Trap Carnival. Shot in warm conditions on the weekend 9th & 10th February, the events contested were the State DB, SB, Points Score and Double Rise. Also to be decided were the 15 positions in the State Trap Team, the 5 positions in the Ladies Trap Team, 5 positions in the Interstate Trap Team for Perth carrying \$200 subsidy per competitor to the Nationals and the Ansett High Gun Award of a trip to Darwin.

From the outset it was obvious that the tricky wind conditions had the better of most. From the 110 starters in the D.B. there were no possibles and so the 29's, Jon Whittakers (current national D.B. title holder), Bill Moritz, Bob Mules, John Byrnes, Roger Juers and Peter Telford lined up to decide the winner. Again conditions were hard to handle and the shoot off went just 26 targets and on top of the heap was the old master Bob Mules. He ran to 51/52 to take the title from John Byrnes, a feat he has been able to manage the last two times he has met Byrnes in a shoot off for a state title. The win also set the stage for what was to be a 'three generation' Mules clean up of the day's shooting events.

## RESULTS:

A GRADE BOB MULES 51-52 (ALSO OVERALL)  
JOHN BYRNES 50-52  
B GRADE BILL MORITZ 29-30  
BRONTE EVANS 28-30  
C GRADE DENNIS PFEILER 27-30  
IAN RICHARDSON 26-30  
JUNIOR: ANDREW MULES 25-30  
LADIES: FRAN GIBSON 25-30

Poor scores were still the order of the day when 108 competitors vied for Single Barrel honours. Another Mules, Bob's son Phillip, together with Jon Whittakers put together 28's to be the only two front runners. It was a first target miss for Whittakers in the shoot off and Phil Mules with 29-31 had the title. It seemed that the B & C graders had settled down to a winning pattern as well, Bill Moritz took his second B grade win for the day as did Dennis Pfeiler in the C grade. Andrew Mules, grandson of Bob Mules had his second Junior title (he was to go on and win the lot) and Kathy Jackman, a keen student of the game took the first of two ladies titles she was to win over the carnival.

• Phillip Mules won the South Australian Single Barrel Championship, with a score of 29-31.

## RESULTS:

A GRADE PHIL MULES 29-31 (ALSO OVERALL)  
JON WHITTAKERS 28-31  
B GRADE BILL MORITZ 27-30  
BRIAN THOMAS 27-31  
C GRADE DENNIS PFEILER 27-30  
SAM STEFANOPOULOS 26-30  
JUNIOR: ANDREW MULES 25-30  
LADIES: KATHY JACKMAN 20-30

Day one concluded with the Team positions and the high gun wide open, a lot would depend on the Points Score championship to be shot on the Sunday morning.

The Points Score Championship did in fact produce the first common mark possible of the weekend. Showing excellent concentration, Trevor Reschke ran a fine 30 first barrels to card a score of 90-90 and took the title outright from John Hutchings. Hutchings had to pull a couple of second barrels in his score of 88-90. Both Dennis Pfeiler and Andrew Mules continued on their winning way taking the C grade and Junior titles outright. Dennis Lymn managed to be top B grader and Sue Byrnes captured the ladies crown.

## RESULTS:

A GRADE TREVOR RESCHKE 90-90 (ALSO OVERALL)  
JOHN HUTCHINGS 88-90  
B GRADE DENNIS LYMN 86-90  
BRIAN THOMAS 83-90  
C GRADE DENNIS PFEILER 81-90  
DANNY ALOI 79-90  
JUNIOR: ANDREW MULES 78-90  
LADIES: SUE BYRNES 74-90

So to team selection before the Double Rise and it was 130-150 scores that made it.....

## A WINNING COMBINATION...

# Rottweil SHOTGUNS

We took advanced technical production knowledge and combined it with practical experience and results gained in International Shooting Championships and created a shotgun which can compete with the best in quality, appearance and performance. Designed in West Germany by Conny Wirthner, twice world's champion and Olympic gold medal winner, the ROTTWEIL '72 series of shotguns is a new concept to the Australian market.

### Trap MONTREAL

Barrel length is 77 cm, 3/4 and full chokes, special competition trigger and the whole gun is carefully balanced for ultimate performance.

### Skeet OLYMPIA

Barrels of 68 cm length, featuring special designed RETRO chokes. Special competition trigger.

# Rottweil SHOTSHELLS

Next to skill, and a good gun, the most important factor in successful shooting is cartridge quality.

The trick, of course, is to select the degree of cartridge perfection you need at the price you want to pay. And that's where you can score with Rottweil. Our top competition and game cartridges are internationally acknowledged as world leaders; good enough, for example, to have won Olympic gold medals.

Buy some. Compare the price and their performance. Like thousands of European shooters you could find that your score goes up and your expenditure is down.

Our comprehensive range includes all popular trap and skeet loads, various field and hunting loads, including the famous Brenneke rifled slug.

## SOUTH AUSTRALIAN TRAP CARNIVAL —Cont'd.

Whilst an embargo has been placed on final team scores, team high gun winners were announced. Frank Taylor was top gun in the open team and Bridgid Dower put most points on the board for the Ladies team.

Only 78 hopefuls faced the traps for the last event, the Double Rise. Whilst the Victorian visitors, Jon Whittakers, Neil Berry and Kim Bucholtz had been around the mark all weekend it was Kim Bucholtz who finally managed to take a South Australian title. Both he and Neil Berry put together scores of 27-30 but Berry let one get away in the first pair of the shoot off. Bucholtz did not, and took the title with a score of 29-32. Dennis Pfeiler nearly made it a clean sweep in the C grade events but could only manage a second to John Fleetwood. Andrew Mules did manage to carry his gun right through the weekend for a clean sweep in all the Junior events. Bob Ritchie took B grade honours and Kathy Jackman bobbed up for her second Ladies trophy for the weekend.

### RESULTS:

A GRADE	KYM BUCHOLTZ 29-32 (ALSO OVERALL)
	NEIL BERRY 28-32

So concluded a most successful State Trap carnival, the second such carnival held under the revamped State Association format. With acknowledgements to the South Australian Gun Club and their staff and ladies committee, Eley Ammunition and Winchester, Fisher Firearms and Ansett Airlines, the list of sponsors of this most prestigious event in the South Australian shooting year goes from strength to strength. If shooter reaction is any guide, the event has a rosy future.

## VICTORIA

### VICTORIAN CLAY TARGET ASSOCIATION REPORT

In February the VCTA Council met at Bendigo where it decided on dates for the major carnivals in 1981. Would Victorian Clubs please note an error in the list of dates/venues that was sent to them in February - ie. Skeet Carnival held in S.E. Zone not Mildura. The dates and venues are as follows: - ACTA National Championships - April 18 to 24 at Melbourne Gun Club; ACTA ISU National Championships - November 13 to 15 at Melbourne Gun Club; VCTA State Trap Carnival - February 20 to 22 at Frankston/Australian Gun Club; VCTA State Skeet Carnival - October 16 to 18 in the SE Zone; VCTA State ISU Carnival - May 8 to 10 at Melbourne Gun Club.

Please keep these dates in mind when making out club programs for 1981 which must be with the State Secretary by 30 June 1980 for inclusion in the State Program booklet. We still have copies available on request from any club or person requiring them. Quarter page advertising will be available in the booklet next year for \$25.

Only a small field entered the "Longwood Double Barrel", possibly the windy conditions keeping a few away. Seymour policeman, Ian Walker, managed the best score and is to be congratulated on his outright win.

The handicap also proved difficult with only one possible, Alby Peterson who won outright and also collected a metre. Second after a good shoot off in very difficult conditions was young Lindsay Braybon who has now left 11 metres for good.

# PRESIDENT'S REPORT TO THE 1980 ANNUAL MEETING

This report has been much more difficult to write than my previous reports to the 1978 and 1979 Annual Meetings.

Because of the depressed state of the A.C.T.A. around the start of 1977 it was not difficult to improve and any decisions made or actions taken during 1977 and 1978 were very obvious to our members and registered shooters.

Having accomplished many things during that period, and having reached what might be called a plateau, then made it very difficult to obviously show that efforts were still being made during 1979 to improve our sport.

Unfortunately we have those people who, when something dramatic is not happening frequently, turn their attention to looking at ways to pull down the efforts of those who are trying to work on their behalf.

1979 was a year in which the true meaning of sportsmanship suffered in a number of instances; where self appointed do-gooders used their influences to cause disruption in matters that were being democratically handled by those people you have put in the positions to handle them.

I am certainly not saying that people do not have a right to criticise — in fact it would be a sad state of affairs if we had no critics — but what I am saying is that the criticism should be constructive and that we now have a chain of communication through clubs, Zones and State Associations through which the constructive criticism should be channelled.

Admittedly the democratic process is slow, but consider the alternative — how many of our members would be happy with a *Dictatorship*.

Now having disposed of the gloomy side of this report, let us look at things that are still going on.

The 1979 Annual Meeting approved amendments to the Constitution following deliberations extending over several years. Since that meeting our solicitors have written the amendments into the Constitution in the form required by the Victorian Attorney-General. When that document is formalised later in this meeting, one of the major changes that will come into effect will be the establishment of a new Executive Committee structure of 14 consisting of two representatives from each of the seven States. Congratulations will go to the Northern Territory, as this will give the Territory its first independent representation on the National Executive.

The new Executive structure will place a heavy responsibility on State Associations to see that they become involved in the affairs of the A.C.T.A. and that they ensure that their two National Executive Committee members are given the opportunity to be true representatives of the State Association and do not have to act as individuals.

The National Shooting ground situation has probably not advanced much further than where we were at this

time last year. Several promising possibilities were followed up during the year but fell through for various reasons. It could well be that by the time this report is being read, there may be further information on at least two other possibilities that are being currently investigated.

Because of a heavier than usual administrative involvement, I was only able to attend 21 different shooting locations during the year. All States were visited except South Australia and I am most appreciative of the welcome extended at all locations and I acknowledge and am grateful for the special hospitalities extended to me at Coffs Harbour, Melbourne, Mildura, Darwin, Cobar, Jeparit, and Katanning.

Shoot attendances was probably the most talked about subject during my visits and there did not seem to be any set pattern — in some instances attendances were up but in many instances the opinion was that attendances were falling off. What we have been unable to do is positively identify the reasons for the fall off just as we have been unable to positively identify the fall off in shooter registrations.

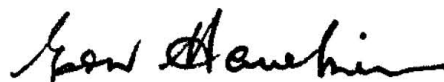

Increased shooting costs are considered the major contributing factor and there is no doubt that these increased dramatically during 1979. *However, for those who can refer to records, the cost of targets and cartridges and the cost of nomination in a particular type of event, compared to the average wage, is less now than it was 20 years ago.* This is not so evident because shooters probably have more things they need to do with their money now than they had 20 years ago.

Once again I thank the many commercial organisations for their assistance to shooters, clubs, State Associations and the A.C.T.A. There is no doubt that the commercial participation in the Griffith Nationals was one of the features that led to the success of that particular Carnival.

Now, to my fellow Executive Committee members. 1979 demanded more meeting time and involvement than any other year that I can remember. My personal thanks to each of you for the effort you have put into your responsibilities.

Finally I end this report with much the same plea as last year. What is there for the future? What ideas can you come up with? I am not satisfied that we are doing enough for the average shooter. Give this matter some thought and submit your ideas through your club, Zone and State Association so that we can do the things that you want.

Thank you.

# ANNUAL REPORT 1979

December 31, 1979 — the end of a decade. A decade in which clay target shooting ebbed and flowed.

It is pleasing to report that at the end of 1979, the sport was "on the move". The Association finished the year with another moderate but useful financial surplus being recorded, and membership at a reasonable level.

Admittedly, the membership target of 12,000 was not achieved, but in view of the significant cost increases which occurred in the last half of the year, the actual figure of 10,500 was encouraging.

Government recognition of the Association, and the community service role it fills, continued to be demonstrated in an easily recognisable way — this is in dollars and the appointment of a full-time Director of Coaching, in the person of Newton Thomas, saw another of the pieces of the Association's development jig-saw fall into place.

"Clay Target Shooting News" continues to be one of the best sports communications systems around, but needs to be better utilised by State and Zone Associations.

The Association continues to attract sponsors from outside the sport and the strong support received from Ansett Airlines of Australia, Air New Zealand and Jetset Tours is seen as a valuable contribution to the development of "Australia's booming sport".

One of the biggest challenges confronting management is to develop sources of income other than registration fees. For too long, the Association has been totally reliant on this source of funding, to the extent that developments in other areas have been stifled.

To take up this challenge, the Association needs to make dramatic changes to its management structure, and the first of these will result from the Constitutional changes to be approved at the 1980 Annual General Meeting.

A sub-committee of your Executive is also working on a project aimed at significantly improving the Association's ability in the day-to-day decision making area, and this will have a direct effect on developments in areas of forward planning.

## 1. INTERNATIONAL COMPETITION.

In recent years, the Association has dramatically increased its involvement in international competition.

Some diversity has been introduced, by offering opportunities to competitors in standard trap, as well as the Olympic disciplines.

During 1979, Australia chose its second Air New Zealand Trap Team, to compete in the International event programmed as part of the 1979 Grand American Tournament.

The team consisted of six members of whom five actually competed. The members were: Robin Bailey (Captain), Western Australia; Peter Telford, South Australia; Jack Blake, Tasmania; Neil Berry, Victoria; Kevin Thompson, New South Wales; and Bill Stevens, Queensland.

With limited time available for preparation, the team performed quite creditably, and finished fourth in the match.

Earlier in the year, Australia had defeated New Zealand in the Glenn Cup (conducted in Australia), and for the sixth successive year, won the Mackintosh International Teams' Trophy match with a score of 7407 points.

Australia has dominated this match for the past decade.

In the area of Olympic disciplines, Australia was again successful in the South Pacific Regional Championships conducted at Melbourne Gun Club during the Easter holidays.

After much confusion over a suitable venue, World Shotgun Championships were conducted at Montecatini, Italy during October.

Australia selected the following team to compete:

Manager - Newton Thomas; Trap (Olympic Trench) - Jim Ellis, Terry Rumbel, Trevor Byrne, "Pud" Burgess and Jim Finis; Skeet - Alex Crikis, John Summers and Graeme Boyd.

A certain amount of controversy followed the announcement of the selected team and continued even while the team was in competition in Italy. Such destructive reactions do nothing for team stability, nor do such attacks do anything to improve the image of clay target shooting.

The team's performance was below the standard expected, but each member gained a great deal in experience.

In July, Jim Ellis had been selected to represent Australia in the Spartakiade Sports Tournament, held in Moscow as a lead up to the 1980 Olympic Games.

Ellis travelled with fellow Canberra resident Peter Anderson as Manager, and filled 12th place. After Spartakiade, Ellis competed at Helsinki, and in the Great Britain Grand Prix, running 5th and 3rd respectively.

## 2. NATIONAL COMPETITION.

Bigger and better — that was the way the New South Wales Clay Target Association planned the 1979 National Trap and Skeet Championships, and so they turned out.

The series attracted the largest ever attendance, and, although the weather was extremely hot, the lack of accommodation in Griffith (the host city) was the major restricting factor.

An operating surplus of over \$16,000 was produced, and the Griffith Gun Club, the New South Wales Clay Target Association, and the many commercial sponsors are all to be commended for the contribution each made to the result.

The list of champions from the tournament includes the following:—

Skeet	: Jim Ellis ACT
Double Rise	: Doug Smith QLD.
Double Barrel	: Jon Whittakers, NSW
Single Barrel	: Frank Smith, NSW
Aust.-N.Z. Trap C'ship	: Kevin Thompson, NSW
Champion of Champions	: Doug Smith, QLD

The winner of the Grand Australian Handicap was David Coleman of N.S.W.

The 1979 Olympic Trench and International Skeet Championships were held at Downside International Gun Club, located just outside of Wagga, NSW.

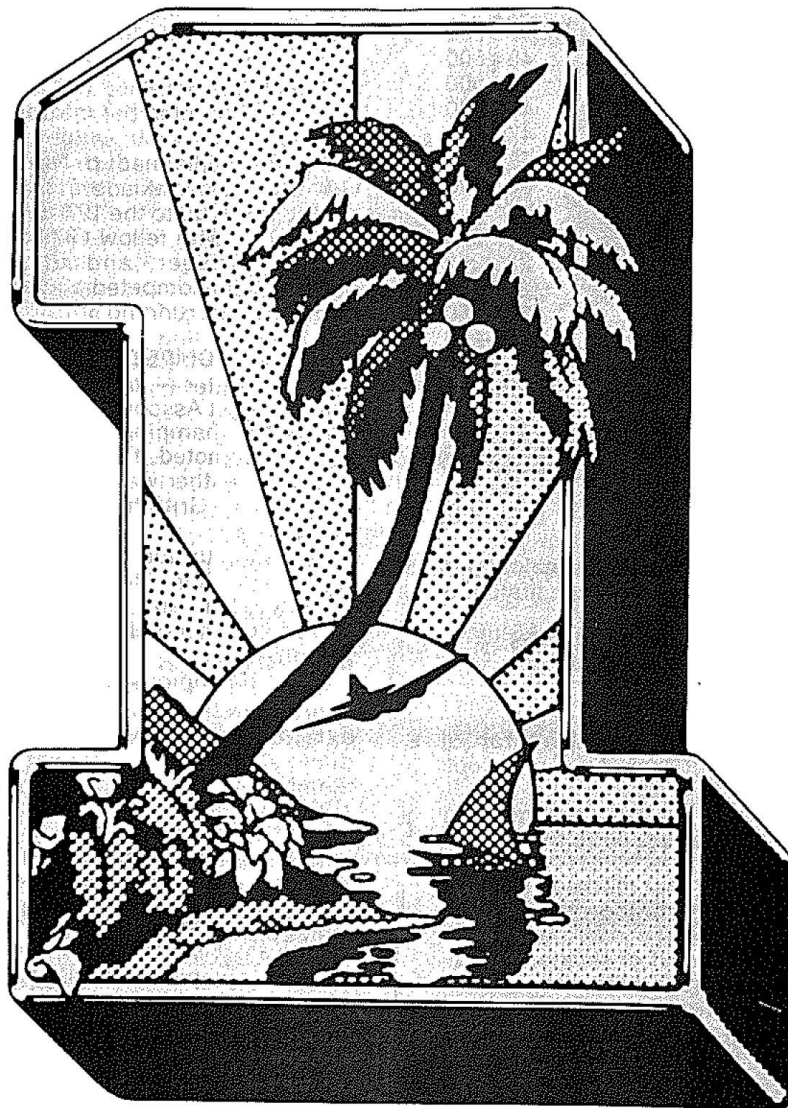

Another attendance record was set, and the entry included a large contingent of New Zealanders. The Trench Champion was Terry Rumbel, but only after a tremendous fight against Doug Smith, who was second, and Russell McGowan of New Zealand who filled third place.

The three place-getters were tied on 195 after the qualifying round, and the shoot-off continued through three rounds before the result was complete.

In the International Skeet match, Ian Hale of Victoria ran away from the opposition to win with a score of 196, with John Woolley of New Zealand second on 191.

### 3. STATE COMPETITION

The noticeable aspect of the Interstate Teams' Matches which were conducted in 1979 was the increase in women's participation.

Results of the postal matches held during 1979 were:

TRAP - OPEN	New South Wales	1441-1500 points
	Western Aust.	1436-1500 points
	Tasmania	1432-1500 points

Winner - Victoria		

\*The Western Australian team scores were calculated over 100 targets per member, whereas the match is scheduled for 50 targets.

CONGRATULATIONS TO THE WINNING STATES.

### 4. ADMINISTRATION

With the appointment of a full-time Director of Coaching, the Administrative Unit took on a new look during 1979.

Furthermore, due to growth in the club and member services area, another member was added to the clerical staff.

Unfortunately, the staff stability that marked 1977 and 1978 left us in 1979, but by the end of the year, the previous teamwork was re-appearing.

It is of interest to note that the cost of salaries and allowances, expressed as a percentage of total income or expenditure, has dropped dramatically in recent years, as a quick look at the following figures will show.

Year Ended	Total Income	Total Expend.	Salaries Allowances	% of Income	% of Expend.
31/12/76	\$121,178	\$136,664	\$65,151	53.8%	47.7%
31/12/77	\$197,774	\$136,802	\$43,581	22.0%	31.9%
31/12/78	\$231,405	\$201,566	\$58,264	25.2%	28.9%
31/12/79	\$306,348	\$274,246	\$92,549	30.2%	33.7%

(The increase in 1979 reflects the appointment of the National Coaching Director).

During the last half year, an attempt was made to launch a trading operation based on mail order. Although the project has met with encouraging results, postage

costs are inflating operating expenses to the point where profits are limited.

The other development also occurred late in the year, when the Administrative Unit introduced a hard-covered binder to facilitate the storage of CTSN.

However, these developments pale into insignificance when compared with the magnitude of the major project — the change from a bureau based computer system to a system based on "in house" equipment.

This change required a complete re-write of the Association's computer programs, which has been a most daunting task. Nevertheless, the transition has been made, and it is a credit to the technical advisers that very few problems have arisen.

This change has brought to an end a three-year relationship with Adaps Limited which has previously supplied the Association's computer time needs.

We are very grateful for the assistance that has been forthcoming from the Company, through its consultants and operations staff.

### 5. MEMBERSHIP

As mentioned in the introduction, membership for the year totalled 10,500, which is just over 400 below 1978, and 1500 below forecast. Nevertheless, the incentive provided by super low prices for cartridges and components during the last half of 1978 disappeared with a vengeance during the latter part of 1979.

Consequently, the firearms and ammunition industry flattened out a little, with a corresponding effect on clay target shooting.

It is interesting to note that many other sporting associations, all unrelated to each other, have also recorded a lowered membership in 1979.

For some time, there has been a clamour for pro-rata membership fees, and such a move has occurred in 1980. It will be interesting to watch its effect.

New clubs to affiliate during 1979 included the following: Singleton BBC (NSW), Port Hedland (W.A.), Leinster C.T.C. (W.A.), Kingsborough (Q), Ouyen (Vic), Coonamble (NSW), Tallawalla (Q), Thursday Island (Q), Darr River (Q), Top End (N.T.), Patchewollock (Vic), Robinvale (Vic), Moulamein (NSW).

### 6. PROMOTION

During 1979 management continued to promote the sport at every opportunity. However, to a measureable extent, the value of these promotion activities is diminished by the constant knocking from within the membership of the Association.

The National President has visited all States during the year. The highlight of the year was probably the attendance of the National President, Ern Hawkins and the National Vice-President, Ron Porter at Darwin Gun Club, on the occasion of the first Winchester Tournament ever conducted in the Territory.

The Association continues to endeavour to develop closer relationships with other shooters' organisations. This policy is one which deserves much more tangible support from senior administrators.

### 7. NATIONAL COACHING COUNCIL

The appointment of a full-time Director of Coaching became effective on January 1. The appointee was Newton Thomas, who came to the job with ideal qualifications and a yen to return something to the sport he had enjoyed so much over a number of years.

Together with members of the National Coaching Council, the Director has initiated the Association's Novice Training Program, supported by a properly structured organisation and two training publications.

Two meetings of the Council have been held during the year — one at Griffith during the 1979 National Trap and Skeet Championships and the second in Brisbane during late October. Both these have been extremely rewarding, because of the standard of input.

During October, the South Australian Director, Mr Peter Quire, attended the USA Advanced Marksmanship Unit School at Fort Benning, Georgia, and brought back to Australia some fresh ideas on "training of the trainers".

The objective of the Coaching Council is to have at least one fully accredited Novice Club Coach at EVERY club in Australia before the end of 1980.

Meanwhile, work has been continuing on the production of training aids. The most urgent is a combined tape and color slide unit, which depicts aspects of stance and gun fit for trapshooters. This aid was due for completion in July 1979 and is still not finished. This has been a frustration to the Council, but the delays are mainly a reflection of the need to do these things for the lowest possible cost. The cheapest is NOT the quickest.

As the Council enters its second year, it has defined its priorities, with all efforts being devoted to the completion of Zone and Club Coach accreditation.

#### **8. STATE ASSOCIATIONS.**

Until constitutional changes are completed, the legal position of State Associations remains in limbo.

However, practical support continues to be forthcoming and the State Association structure became complete with the creation of the Northern Territory Clay Target Association early in 1979.

The National Association introduced a policy of per capita repayments from registration fees during 1979, and paid out a total of \$10,056 to State Associations.

This regular form of income should encourage State Associations to prepare Development Plans for the next five to seven years. In this way, the interests of shooters will be protected, and each State Association will be assured of getting the best possible value from any expenditure it embarks upon.

#### **9. GOVERNMENT SUPPORT.**

The Australian Clay Target Association continues to get valuable support from the Federal Government.

Late in 1979, grants totalling \$29,000 were made to the ACTA from the Sports Development program.

Additionally, the Australian Shooting Association had been allocated a substantial sum, of which \$2,600 came to the ACTA. Of this, in excess of \$2,000 resulted from funding assistance given to potential Olympic aspirants by the Australian Olympic Federation.

In a first for clay target shooting, Jim Ellis was given a training grant of \$2,000 to directly assist in his preparation for the 1980 Olympics.

Most State Associations are now submitting funding assistance applications to their respective State Governments, and are meeting with worthwhile recognition and success.

In concluding this section, the warning from 1978 is repeated — any group benefitting from a grant from outside sources has a very heavy responsibility to ensure that the funds are effectively used, and properly accounted for.

#### **10. LEGISLATION**

1979 has been a frantic year in so far as legislative pressures are concerned.

Not only have the "do-gooders" intensified their push towards greater firearms controls, but the "anti-noise" group have also been making their presence felt.

It is unjust to attack a wholesome responsible recreation, simply because some minority groups feel inconvenienced. However, the ability of shooters to defend their

rights is severely limited by a lack of unity within the shooting associations.

The Australian Clay Target Association is trying to play a co-ordinating role in this field, although not yet with a great deal of success.

The threat is a continuing one, and its seriousness cannot be overlooked.

#### **11. ACKNOWLEDGEMENTS.**

It is always dangerous to single out supporters for special thanks. However, one of the most significant gestures received by the Association during the year under review came from Eley, which arranged to supply all of the Australian Team's cartridge requirements. Most of the team members took the opportunity and the A.C.T.A. is very grateful for Eley's support in this way.

Other important support came from Winchester Australia, which donated \$1 per entry from its 1979/80 Winchester Tournament.

Support for the Association's travel activities continued to come from Jetset Tours, Air New Zealand and Ansett Airlines of Australia, all of which meets with the deep appreciation of the A.C.T.A.'s Executive Committee.

The contribution to the development of our sport from Club managements, members of the coaching team, and other elements of the administration cannot be too highly commended.

The same comment can be made about the Executive Committee. Each member is acting in a purely honorary capacity, and makes a considerable time commitment to the Association. This is even more true of the three man Core Group, which consists of President Ern Hawkins, Vice-President Ron Porter and Committee member Roy Holtfreter.

The Association's working committees are slowly becoming better structured, and therefore more functional, and 1980 should see some significant advances in this area.

#### **12. CONCLUSION.**

One of the predictions made in the 1978 Annual Report was that constitutional change would be completed in 1979.

It wasn't, but most certainly will be during 1980. Dependent upon the completion of the constitutional changes, is an administrative re-structuring which should streamline the functioning of the Executive Committee and the Administrative Unit.

Serious cost challenges developed towards the end of 1979, and entry into a new decade heralds a fresh approach to problems of this nature.

Legislative pressures continue to be very evident, particularly insofar as noise pollution is involved. Every member has a serious responsibility to ensure that his recreation is not unduly restricted by the illogical ramblings of a vocal minority.

Such comment also applies to the area of restriction on the sporting use of firearms. Although legislation relating to this matter is largely a State matter, the National Association must be ready to help at all times.

The subject of a National Headquarters again seemed to bog down during 1979, in spite of an affirmative vote to come out of a referendum conducted amongst registered shooters.

"CLAY BUSTING — THE CHALLENGE OF THE EIGHTIES"

That is the catch phrase that takes us into an exciting decade — one in which great progress can be ours if we conduct our business properly.

Good shooting in 1980.

NOEL J. SOUTHEY,  
Executive Director.

## AUDITOR'S REPORT —

I have examined the books, accounts and vouchers of the Australian Clay Target Association, and have obtained all the information and explanations required by me.

In my opinion, the attached statements are properly drawn up so as to exhibit a true and fair view of the state of affairs of the Association as at 31st December 1979 and of the operations of the Association in the year ended 31st December 1979 according to the information at my disposal and explanations given to me and as shown by the books of the Association.

Dated at Moorabbin this 1st day of February, 1980.

R. W. FOX, A.A.S.A., A.C.I.S.  
AUDITOR

# NOTES TO, AND FORMING PART OF THE ASSOCIATION'S ACCOUNTS FOR THE YEAR ENDED 31st DECEMBER, 1979.

In line with the policy of the Executive Committee of giving full explanations, the following notes should be read in conjunction with the Statement of Income and Expenditure.

## 1. Interest Received — \$14,524

Resulting from a more imaginative approach to investments, the Association's income from interest has increased dramatically. Of the amount shown, \$1,698 was produced by the Travel Fund Investment Accounts.

## 2. 1979 National Trap and Skeet Championships — \$16,328

Audited Profit (as per Statement from Price Waterhouse, Gosford)	\$16,591
Less Additional Expenses incurred at National Office	263
	\$16,328

## 3. Trading Account — \$5,435

This profit is substantially lower than forecast, mainly due to the delayed introduction of the permanent binders for "Clay Target Shooting News". Postage costs have also played a significant part in lowering the profit earned from trading activities.

### Trading Account Analysis.

<b>OPERATING PROFIT</b>		<b>\$5,435</b>

## 4. Government Grants — \$6,500

During the year ended 31st December 1979, the Association received the following grants from the Federal Government, through the Department of Home Affairs:—

- (a) From the 1978/79 allocations —
- \$2,000 — for coaching projects shown against National Coaching Council.
  - \$3,000 — for 1978 Australian team which competed in United States of America.
  - \$1,500 — for overseas meetings
  - \$10,000 — to assist in the funding of the appointment of the National Coaching Director.
- (b) From the 1979/80 allocations —
- \$20,000 — for salary and expenses of National Coaching Director
  - \$5,000 — for 1979 World Championships conducted at Montecatini, Italy.
  - \$2,000 — for general administration
  - \$2,000 — for International competition in Australia.

Many of these items appear in the financial statements under the specific heading to which the grant applies.

## 5. Donations to I.S.U. Travel Fund \$5,285

This item includes many small individual donations from shooters, plus the following:—

- \$1,000 — From Winchester Australia Pty. Ltd., from the proceeds of the 1978/79 Winchester Tournament series.
- \$423 — From the Northern Zone, New South Wales Clay Target Association.
- \$425 — From the Western Zone, New South Wales Clay Target Association.
- \$200 — From Mr R. F. Buchan, Victoria.

All donations have been transferred to the I.S.U. Travel Fund Investment Account.

## 6. Grant from the Australian Shooting Association — \$5,151

This is the Association's share of amounts received by the Australian Shooting Association from the Federal Government and the Australian Olympic Federation.

## 7. Computer Expenses — \$14,278

This figure includes an amount of \$2,648, which has been spent on developing a new system to be based in the National Office. Previously, the Association has been dependent on a remote situated bureau to process its requirements.

### 10. Executive Committee — \$13,301

The expenditure in this category exceeded forecast by \$3,801, which was due to a decision made at the March Executive Committee Meeting, to fund the return fares of members attending that meeting.

Also, the Association has incurred additional expenses in being represented at meetings with other organisations.

### 11. National Coaching Council — \$5,074

This is the first year in which the Association has had a full-time Director of Coaching.

The total cost, excluding the Director's salary, of the National Coaching Council was \$10,074, which has been reduced by \$5,000 received in the form of Federal Government Grants.

This figure is made up of a grant of \$2,000 for specific projects, and \$3,000 which is the balance of direct grant to cover the Director's costs. The following is a summary of the costs incurred in undertaking specific projects:—

Director's General Expenses (including Motor Car)	\$ 545

	<u>\$10,074</u>

### 12. Study Tour Costs — \$1,000

In recent times the Association has encouraged its senior administrators to become involved in official activities during overseas visits.

During this year, the following payments have been made:—

Mr R. Bailey —	\$180 — to assist him to represent the Association at a meeting in New Zealand.
Mr R. Bailey —	\$620 — to assist him to represent the Association at a meeting in U.S.A.
Mr R. Buchan —	\$200 — to offset the considerable expenses incurred when he represented the Association at international matches in South East Asia.

## NOTES TO BALANCE SHEET

### NOTE A.

#### Deferred Expenses - \$11,315

This amount represents expenditure incurred during the latter part of 1979, but which applies specifically to 1980 projects.

The analysis of the total shows:

Control Data (this company replaced	120
Adaps Limited as the Association's	
computer agency on January 9, 1980)	
Computer Contractors Pty. Ltd.,	2,500
(Development costs of new computer software).	
Waterwheel Press (Stationery for 1980	8,695
Nationals and January 1980 Issue	
of Clay Target Shooting News)	<u>\$11,315</u>

### NOTE B.

#### Suspense Account - \$1,908

This amount represents specific donations to Travel Fund Investment Accounts, which had not been transferred at 31st December, 1979, and includes:—

\$1,498 — being \$1 per entry in 1979/80 Winchester Tournament to be placed in General Travel Fund.
---

## ANALYSIS OF ACTIVITY - SPECIAL TRAVEL FUNDS

The Association maintains two "special purpose" funds, as investment accounts. They are known as the General Travel Fund and the I.S.U. Travel Fund.

The General Travel Fund is used to offset costs incurred by teams travelling overseas, according to Executive Committee resolution.

The I.S.U. Travel Fund is used exclusively to assist in the funding of teams competing overseas in the Olympic disciplines.

## SPEND YOUR EASTER AT GLADSTONE, QUEENSLAND

(Staff Writer)

Gladstone Gun Club will conduct a major two-day tournament during the Easter Weekend. The match is an integral part of the Gladstone Harbour Festival, which is a ten day festival designed to promote the wide diversity of activities that the Gladstone area provides.

The festival runs for a week prior to Easter and culminates in a colorful parade through the town on Easter Monday.

This year, the Gladstone Gun Club's tournament is sponsored by Seiko Time Pty. Ltd. For some years, the club has been purchasing trophies from the local jeweller Neville Gregory, who trades as "Hourglass Jeweller".

Through this avenue, a contact was made with Seiko Time Pty. Ltd., which has now resulted in a major sponsorship.

The company has donated seven quartz digital watches from its new collection, a range that was released as recently as mid-February. The club will use the watches as major trophies during its two-day two hundred target program.

So the place to be during Easter 1980 is Gladstone, Queensland. ○

## STOP PRESS NEWS ITEM—1980 BRINGS NEW VICE PRESIDENT

After the introduction of the Association's new Articles of Association, which were approved at the 1980 Annual General Meeting, the fourteen-man new Executive Committee met to elect a National President.

Mr. E.F. Hawkins, was re-elected unopposed after retiring Vice President Mr. Ron Porter had congratulated him on his performance during his term of office. As provided for in the new Articles, the vacancy created in the New South Wales complement by his election, was filled by that State's third nominee (or reserve), who was Mr. Len Bird.

The Vice-presidential election was then held, and resulted in the appointment of Mr. L.G. Connors of Mildura, Victoria. Mr. Connors won on the draw of his name from a hat, after he and the other nominee, retiring Vice-President Ron Porter, had tied in the secret ballot.

Mr. Connors is well known to readers of "Clay Target Shooting News" because of his regular "Around the Traps" column. ○

## WAGGA GUN CLUB

### Amendment to 1980 Skeet Program

Skeet shooters are requested to note that, due to a misunderstanding, the dates on which Skeet Shoots are to be conducted by Wagga Gun Club, as shown in the 1980 N.S.W.C.T.A. Programs Book, have been amended.

**Skeet Shoots will be conducted on the fourth Saturday of each month, and not as stated in the above book.**

**Further amendment, to include I.S.U. Skeet, is also proposed and such will be advertised in appropriate issues of "Shooting News".**

## THE RECORD BREAKING MOREE "5000"

(Staff Writer)

Over the past three years, the Moree Gun Club has developed a remarkable attraction with its annual "Moree 5000" program.

The development climaxed in February last when the fourth edition of the tournament attracted over 200 entries.

Actual attendance was 199 on the first day (how the organizers must have been tempted to pay an extra entry to break the "two ton" mark) and 205 on the second day. Shooters came from centres as far apart as Wiepa in Northern Queensland, and Seymour in Victoria.

Meanwhile, the club has more big programs ahead of it. At the end of March (just about the time this is being read), a two day skeet tournament is being conducted, and then, during the weekend of August 9 and 10, the first ever Winchester Tournament to be held at the Club, will be conducted.

This will be followed by the State Night Double Barrel Championship on November 1.

The club is situated on the Newell Highway and is relatively easily found. A very warm welcome awaits all visitors to any of the Club's matches.

Sunday the 3rd of February saw Azzurri's first skeet rounds for the year with a reasonable turnout (aided by a strong Perth group) the shoot consisted of 50 skeet graded. Robyn Bailey (Perth) shot his first possible while John Eddy (Perth) was the only other shooter to shoot a possible in the first round. In the second round Robyn again recorded a possible while Oreste Ando recorded his first skeet possible. Oreste has only shot a few rounds of skeet. Shane Nunan (new Azzurri member) shot well to lead P. Mezzatesta home in the 'C' grade. Robyn Bailey won 'A' grade from John Eddy, 'B' grade, needed a shoot-off with Andrew Charleson and Oreste Ando both recording 25's. Andrew took 'B' on the 12th target of the 2nd round. Congratulations to Oreste on his 50 break. "Smokin" John Eddy showed everybody how to win a skeet box shoot which everybody enjoys. Shooters celebrated with the usual Ale after the days shoot.

Overall winner for days shoot D. Day 44-50. Second R. Pickard 42-50. Third T. Stingel 41-50. A very good day shooting which, due to a late start went well into the afternoon. Welcome to the club Chris McKoy, Chris is only 10 years old and in his first major competition scored 8-10 SB, well done Chris, you will be showing the "Old Man" how to do it soon. Well done to Neville Boyle 9-10, Tony Kezich 8-10 in DBR is no mean feat.

**NEWMAN, 17-2-80** — Warm & Wet (Cyclone Enid) (17). 50t DB Hcp: 'A' P. Robson 47-50, 'B' T. Stingel 47-50, 'C' H. Drane 46-53.

Even though conditions were not the best 17 keen shooters braved the rain and wind to compete in the event.

**PERTH, 2-2-80** — Hot, fresh easterly wind (30). 50 Skeet Grd: 'A' C. Shepherd 56-58, D. Henthorn 55-58, 'B' A. Charleson 73-79, C. Stickland 72-79, 'C' D. Fracaro 42-50, G. Tomlin 41-50.

In the A Grade Clive Shepherd and David Henthorn had to shoot off for the placings. Congratulations to these two top grade skeet shooters. In B Grade Carl Stickland had to shoot off with junior Andrew Charleson and the younger managing to outlast the older after 29 targets. C Grade saw Dino Fracaro winning outright with 42 to George Tomlin's 41.

**PERTH, 16-2-80** — Fine, warm, light SW wind (52). 50 trap Grd: 'A' W. Pilkington 80-81, J. Eddy 79-81, 'B' D. Ireland 52-53, D. Knight 51-53, 'C' C. Ireland 47-50, S. O'Keefe 46-50.

It was pleasing to see a good roll up of shooters getting in some last minute practice before the Nationals. President John Eddy and Wayne Pilkington each shot 49 in A grade and a 31 target shoot off was necessary to separate them. In B Grade David Knight and Dean Ireland also shot 49, and the winner was Dean after 3 targets. In C Grade Colleen Ireland won outright with 47. A very short shoot off for second place gave it to visiting shooter S. O'Keefe from Azzurri Club. A junior John Kennamer was the unfortunate one who missed out on 2nd place and in scoring his 46 he shot his first 25 break congratulations all for some good shooting.

## OFFICIAL OPENING OF ALBANY GUN CLUB W.A.

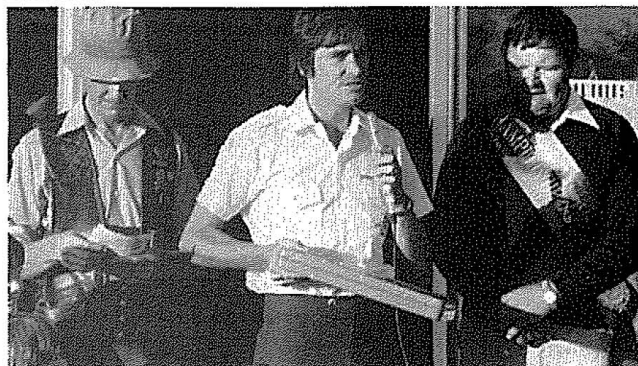

by Staff Writer.

The Australia Day weekend was of particular importance to clays-busters in the Albany area of Western Australia, as not only did the weekend signify a celebration of great national pride, but it also provided an opportunity to demonstrate pride of ownership.

This pride of ownership was generated because the Albany Gun Club was opening its new grounds and facilities.

Club patron Hayden Hood officially opened the grounds, at the conclusion of the day's competition which had consisted of an 100 target match. Other official guests included Wayne Pilkington, State Manager for Winchester Australia, David Henthorn, State Manager of Eley Ammunition, and Inspector Toy of the Albany Police Station. All of these people participated in the presentation of trophies and congratulated the Club on the tremendous effort that had gone into the standard of the new facilities.

Phil Jost had donated a quantity of Blue Dot Targets to demonstrate his support for the new facilities, and this donation enabled the Club to keep the cost of nominations for the match to a minimum.

• Wayne Pilkington (centre) W.A. Manager for Winchester Aust. presents a trophy to the winner of the Southern Zone Double Barrel Championship, Darryl Wiese. On left is Club President, Alex Ferguson.

The list of trophy donors included Winchester, Eley, Combined Fuel Supplies, Boons of Albany, R. & E. Nottle, M. & J. Lubcke, J. Cameron, Kingsley Motors, and Hayden Hood.

## NEW PRESIDENT FOR SOUTH AUSTRALIAN STATE ASSOCIATION

(by Pat Browne)

From the Annual General Meeting of the S.A. State Association held during the State Carnival on February 9 and 10 came a newly constituted State Council.

Representing the Central Zone are Barry Arnott, Leighton Martin and Bob Mules. Peter Caddy, Brian Growden and Trevor Reschke represent the Eastern Zone and from the Western Zone, representatives are Garry Bollen, Max Curtis and Darryl Lane.

At the Zone meeting immediately following, a new President was elected in Leighton Martin, President of Alexandra Gun Club. Martin takes over the reins from retiring President Barrie Arnott who guided the Association through its re-constituting and formative year. The new state secretary is Vicki Bridgeland.

Leighton Martin became active in clay target shooting in mid 1976. He is a 39 year old paint technician and has been a highly competitive participant in the game over the past few years. He has won a state double barrel championship in '77 and has represented the state in two state teams.

• Leighton Martin, the new President of the South Australian Clay Target Association. Leighton is also president of the Alexandra (S.A.) Gun Club.

Congratulations were the order of the day for a very happy Kevin Hobbs 45-45. This consistent shooter won the all target jackpot which had been accumulating since 16-4-78 to a sum of \$445. Three other shooters would have liked to have shared this pot but unfortunately 44-45 is not quite good enough.

## "ITS SOME SORT OF CHALLENGE"

(by Pat Browne)

That statement coming from Fred Atkinson means a lot more to those that know him to those that do not. Fred, one of the keenest clay busters in the game proves that courage and determination can overcome most hurdles in life. You see, Fred Atkinson shoots clay targets with only one arm.

It was back in 1942. Fred was a Sergeant in the 2/10 Btn, and he stopped one in the left elbow at Buna in New Guinea. The arm was amputated and left him with a big adjustment to make in the life he had to reconstruct at war's end.

• Fred Atkinson has no trouble in handling his Miroku - he loads it with cartridges while it is slung over his shoulder.

(Photo by Pat Browne)

A keen field shooter, Fred made the adjustment and in the past few years has entered the clay target shooting field and has now started to appear in the winning lists. We caught up to him at the 1980 South Australian Trap Carnival when he had run a great 20 straight to win his division in the cash handicap on the Saturday. The win was so popular it was the talk of the gun club all day.

Fred, a 65 year old, has just retired as a courier for the State Government. He shoots a Miroku and reloads his own shells. He has been a member of the South Australian Gun Club for the past 4 years. His complete acceptance at this club and others that he visits has, as he puts it ... "filled a big gap in my life, the companionship and friendliness is something to be experienced. And, with me, trap shooting is some sort of challenge".

# THREE GENERATIONS OF THE MULES FAMILY DOMINATE THE SOUTH AUSTRALIAN STATE CARNIVAL

(by Pat Browne)

To say that clay target shooting is a way of life to the Mules family would be an understatement. The participation of this family underscores the wonderful family involvement that the sport provides, and Saturday February 9, must have been a red letter day in the long years of involvement for Bob Mules.

On this day, Bob captured the 1980 State Double Barrel Championship some 40 years after he won his first State title. He then had the pleasure of watching his son Phil Mules win the State Single Barrel Championship and his grandson Andrew Mules win the Junior title in both the Double and Single Barrel Championships.

Bob Mules, in a career that spans more than 43 years, has crammed a lot of shooting into this time. From his first win some 42 years ago his record is impressive by any standards. At 58 years old now, he can boast of State representation 21 times, National representation in the Mackintosh team 5 times and first reserve in the Australian team for the '56 Olympics in Melbourne. He is probably one of the few top competition shooters in this country still using side by side guns. The guns, both Webley & Scott (he has two of them with serial numbers just 3 apart) have shot a lot of targets over the years and have taken him to long run breaks of over 200 on several occasions. Bob shoots from the from the 25 metre mark and has won championships in three states. He rates his biggest thrill as winning the '72 National Double Rise Championship in Griffith.

• The famous Mules shooting family - Robert (left rear), Phillip (right) and Andrew (front).

(Photo by Pat Browne)

Son Phil, who is well known in shooting circles is a 35 year old firearms salesman with Elliott Bros. in Adelaide. He served a two year term on the ACTA Executive. He has represented the State on at least 10 occasions and holds the position of Referee Examiner and Club Coach at S.A.G.C.

Grandson Andrew is a high school student at Gillies Plains High and at 14 years of age shows signs of becoming as good as his illustrious forbears.

The Mules family involvement extends to the administration sphere as well. Bob has been President of S.A.G.C. for 21 years. His wife Shirley is a Life Member of the club and is President of the ladies committee. At the present time, daughter in law Mrs Barbara Mules is Secretary of S.A.G.C. Bob has been a member of the ACTA executive for 18 years and holds a life membership of that body. ○

### FORT BENNING REPORT

This is the third column in a series of reports resulting from the recent visit of Peter Quire to the USA School of Advanced Marksmanship, located at Fort Benning, Georgia.

This month, we cover the nature of the training program, and the effects of drugs and alcohol.

#### Part 4. — Training Program

(It must be understood that this is only a rough outline).

Training is split into two parts — skills and mental training. Always practise with good competition. List goals on paper, then keep a diary of all shooting, including weather conditions, how shooter felt scores, and targets missed. The shooter must analyse his own performance and be completely honest and not make excuses for himself. Never train when not feeling well, as training is to instil confidence, and if a shooter is unwell, he may shoot badly and thus affect his confidence.

#### Part 5. — Effects of smoking and drugs, including Alcohol

Smoking reduces the blood supply, reducing oxygen levels in the blood and so affecting eye sight and reaction times, because of the reduction in the supply of blood to the muscles and nerves.

All drugs affect the nervous system slowing reaction time, but the U.S. Army coaches stress that when training, their team members are encouraged to live a normal life, if they are used to having a beer or coffee with meals, this is to be continued, but not in excess.

If the shooter is used to going to bed at 11 p.m. then he does so. In other words, the shooter should continue a normal life style, any change takes time to be adapted to. ○
