MIROKU 6000

High Rib and
Split Barrels

MODEL 6000
TRAP
GRADE 1

\$890

... give you a
winning
advantage

High floating rib is the latest technological advance towards higher scoring. The 6000 TRAP gives you a superior sight picture because the raised rib keeps your head erect and your eyes naturally centred. The greater comfort means better concentration, which makes targets easier to pick up and break.

In the heat of a shoot off the 6000's raised rib expands independently of the barrels and your point of aim is not altered by expansion.

Many top U.S.A. shooters have changed to high or very high ribs for these well proven advantages.

BILL ILES IN AMERICA

Bill says he was testing a "Texas style" sixgun but Jon Whittakers who was with him in the U.S.A. assures us the gun is normal size but Bill's stature was considerably reduced after the Americans showed them how it was done "their way" at the Grand American.

Contributions:

Club or shooter contributions are welcome, either manuscript or photographs, or both. Preferred photos are black and white glossy prints.

EXECUTIVE DIRECTOR'S NOTES

The big news this month is that Peter Quire of South Australia has been appointed National Coaching Director for the Association.

Peter commenced duties on January 1, and has an enormous amount of work ahead of him to re-vitalise the coaching arm of the Association, after the gap left when Newton Thomas retired from the job a year ago.

Peter comes to the job after some years as South Australia's State Coaching Director and he is also Manager/Coach of the National Training Squad. His appointment has the blessing of the Sport & Recreation Branch of the Department of Home Affairs & Environment in Canberra.

One of his major tasks will be the preparation of procedures for Accreditation at level 2 of the National Coaching Council's accreditation scheme.

All clay target shooters wish Peter well in his new role, and we in the National office are looking forward to working closely with him.

An example of close co-operation between gun clubs and community was brought to my notice recently by Tony Coronas, Publicity Officer of Gladstone Gun Club in Queensland. The club conducted a combined charities shoot, which is reported elsewhere in this issue. A letter from Tony accompanying the report said in part, "I believe it is in the interest of all clubs to promote responsible use of firearms and this type of community involvement does seem to get results". He also included press clippings indicating the excellent liaison with the local press. In these days of legislation worries and anti-gun lobbies, it is refreshing to see a relationship such as this existing between a gun club and the community.

The staff in the National office are working overtime processing the flood of registrations received in the last fortnight. The mail strike in Victoria has delayed processing and return of cards to shooters, but we are gradually catching up on the backlog. A big thank you to club secretaries for the general high standard of paper-work, particularly with the \$5.00 legislation levy collection. I am pleased to report that this levy has been very well accepted by shooters right across the country.

Enjoy your shooting,
Ian C. Hill

CARTRIDGES — 1982 NEW ZEALAND NATIONALS MARCH 6 - 13, 1982

We are now able to offer shooters travelling to New Zealand Eley Cartridges. Purchases shall be restricted to one case per shooter.

The cost is \$142.00 per case. Cartridges available are:

ELEY SPECIAL SKEET 9
SPECIAL TRAP 7 or 8
SUPER TRAP 7 or 8

If you require Cartridges please order **before February 12, 1982.**

Please forward your name, address, cartridges required and payment to the

A.C.T.A.
PO Box 198

Blackburn, Vic. 3130

The cartridges will be available for pick up at the Christchurch Gun Club.

"SHOOTERS THOSE LOGS OF WOOD."

by K. I. T.

To qualify the assessment I quote the findings — abbreviated — of one gentleman who owns a number of Newspapers, and another expert who a few months ago retired after a very successful life as the Managing Director of a National Advertising Agency.

I quote: "Shooters. Who or what are they? ZOMBIES???" Look in any local newspaper and you will find columns, even pages on athletics, swimming, football, cricket, bowls scouting, racing and so on but even for a reward you would be hard pressed to find an item on Shooting.

WHY? Because the complacent, stupid Shooter is too damned lazy to write his copy, to submit an article, to advertise and tell readers he works he contributes he exists: he operates performs participates in what, is he so proud of his sport that he goes to extreme lengths to hide it from all and sundry, why is his beneficial contribution to the community such a religious secret? I can't understand why you shooters as a body are such a spineless collection, why hide, are you ashamed of your sport and your activities? It seems that on rare occasions a small minority of your top brass suddenly get together and pressurize authorities, and even those achievements seem to happen behind locked doors. Of the countless thousands who carry guns and arms, just how many is spent in advertising activities. How much money? A child could count it! Any single Church Club would spend more in advertising than all the whole shooting panorama. If the Anti-gun protesters trample or strangle you then there will only be yourselves to blame. Get up off your ---(butts) and be counted, tell everyone who you are and what you stand for. Illiterate Trade Union leaders tell the world everything they are doing and the public lap it up. Does any outsider know why you exist, at best know what Shooting Sports are about; I am quite sure they DO NOT. In answer to your question, I will simply say that you should shake off your Zombie wrappings and start acting like sportsmen who have a real message, a real cause to share with millions of Australians. There are four very active forms of News Media flourishing, and you are too dense to use any of them. Give us the adverts, the articles, the reports, and we will circulate them only for ----- sake climb out of your coffins before you lose everything. A ten dollar advert will win you initially at least a hundred dollars.....

The Newspaper chief almost echoed those assessments in these words which not merely embarrassed me but really put

me down.... "Yes, Logs of Wood, all you bloody Shooters are smug, self-centred, introverted pacifists who talk to and only communicate among yourselves, and for that reason are your own worst ENEMIES. I understand there are nigh half a million gun licences in Victoria alone, and from official figures recently quoted not even fifteen thousand gun toters can claim membership in all parts of the Shooting Game. Why don't you get your friends out of your glasshouses and say Hello to people, to say to gun toters, come and join us, we can teach you everything you need to know about your arms. It is no wonder the halfwits who knock Shooting are able to gain such ready support, and often approval of large percentages of the public, they tell the public, whilst you hand-lacquered ornaments tell no one anything about your existence, your standards, your principles and that you are responsible persons; the result, well your opposition is now cramming down round your ears, because you have dozed off for too long, whilst others have advertised, have spread their word, and the un-informed public believe them. What else? ADVERTISE. Every Club should spend ten or twenty dollars every week, at least, that investment will return income, members, appreciation and support a hundredfold. To this time I would accurately describe Shooters as..... WOODEN INDIANS, no one knows they are around until you stumble over them!!"

In researching (a most impressive word) the reasons for the existence of mythical creature best identified as the 'Unknown Sportsman', my enquiries returned me among a wealth of suggestions, these two expert appraisements, and as a Victorian Shooter for twenty one years, their accurate professional drubbing slammed me between the eyes, because, damn it, they are right. Absolutely right.

We have only weeks to wakeup, getup, and give an account of ourselves, before an election campaign, — planned two years ago — starts to give us incurable headaches; as I see it, each and everyone of us must talk, communicate, correspond and educate everyone we meet, not soon, not next month, not next week. NOW. Right Now.

K. I. T.

EDITOR'S MAILBOX

Dear Sir,

I am firmly of the opinion that the time for the introduction of a separate Skeet Nationals is now.

This attitude is based on two major premises:—

(a) For the trap shooter to do well at the Nationals, he must specialise, and skeet is therefore a novelty event. However, because the Overall High Gun, the most prestigious event, includes this "novelty" competition, it does reduce the opportunity for the really top trap shooter to compete successfully. (b) The skeet shooter is not really catered for in that at present, he must attend the Nationals for a single 50 target event. As travelling for the Nationals is usually interstate, it is simply not on.

There are other aspects which include the following:

Trap shooting is unquestionably the back-bone of clay target shooting in Australia. Accordingly, the number of shooters who attend a Trap Nationals is high. When skeet is included as a single event, a large number of shooters enter simply because it is on. This results in a demand for skeet shooting grounds for this single event far in excess of requirements for serious skeet shooting. Skeet grounds represent a considerable investment by clubs and to ask that a number of additional grounds be installed for a once in about five year 50 target event simply does not make economic sense.

There are at least three clubs that I have visited which would be capable of conducting a Skeet Nationals without

additional lay-outs being constructed, and they are Melbourne, Mildura and Griffith Gun Clubs.

When/If a Skeet Nationals is agreed to, I believe the following points should be given careful consideration:

- (a) Because skeet shooting is strongest in Victoria and they have two clubs with the administrative strength to run them, the first three Skeet Nationals should be conducted in that State. The purpose here is to firmly establish the Carnival.
- (b) The duration of the Carnival should be four (4) days to make it attractive for skeet shooters to travel.
- (c) The number of targets/shooter/day to be 100. This can be made up of two 50 target events or a single 100 target event.

However, I favour the shorter events as it tends to encourage the average shooter who measures his success not so much by winning, but by getting into a shoot-off.

(d) The Overall High Gun winner should be the National Champion. This tends to exclude the shooter who has a purple patch for one event and gives the recognition due to the top performing shooter over the total program.

(e) The final point I would emphasise is that the program should be aimed at attracting the average skeet shooter — the top shooters will come anyway. To put this in perspective, look at the 1981 Nationals held in Melbourne where the number of shooters was some 800. If the top 50 shooters had stayed away, nobody would have noticed. However, if the 750 or so shooters who made up the vast majority had stayed away, there would have been no Nationals — the average bloke pays for the Carnival.

Yours Faithfully,

Reg Clarke
N.S.W.

ELEY

NAME THE GAME CONTEST PRIZES TOTAL \$30,000

Place an (X) over game identified and list below.

_____ Name _____

_____ Address _____

_____ Dealer's Name _____

DUE TO NSW STATE REGULATIONS THE MONTHLY PRIZES OF FIREARMS & AMMUNITION WILL NOT BE AVAILABLE IN NSW. TC 81/1849

CONDITIONS OF ENTRY

Any shooter is eligible. Merely take an entry form, list the game on one side and send it to P.O. Box 197, Port Melbourne. There will be monthly drawings for Franchi and Nikko firearms and 12 months supply of Eley ammunition. The earlier the entry, the more chance of winning. However, as one of the prizes is a year's supply of Eley ammunition, please enclose a top (or facsimile) of the type of Eley ammunition preferred (so as to ensure correct identification) and write upon it the quantity used during the year.

Note: It is not mandatory to return a top in order to enter the competition.

AIR NEW ZEALAND TEAM REPORT

• Air New Zealand Trap Team members at Christchurch airport. L to R — Adrian O'Connell, Ian Sleigh, Tim Catling, Keith Woods and Richard Wright. South Australian Garry Boller had left for a tour of New Zealand's South Island.

by T. Catling

The Air New Zealand five man team and nine individual Australian shooters attended, the South Island Championships held in Christchurch from November 13 to November 15 1981.

The Team departed from Sydney on Wednesday the 11th November and arrived in Christchurch that evening to very cold conditions. Thursday was partly wet and cold and as no practise was available, we spent time at the Christchurch Agricultural Show and resting.

1st. Day - FRIDAY 13th — Dawned fine and calm and more like Australia, being very warm.

The South Island Ball trap saw us obtain much needed practise. This event was won by Greg Stevens of Queensland with the only possible 50/50.

The Eley Tournament followed (50 D/B) with Adrian O'Connell (Team member from Victoria) and Richard Wright (also Vic.) shooting 50/50. The Shoot-off saw Richard in 3rd Place after missing his 189th Target to win a Franchi Auto.

2nd. Day - SATURDAY 14th — Again calm and even hotter.

The South Island Sparrows Championship of 25 Targets, saw Tim Catling in the shoot-off and eventually 3rd. with 41/42. This event was won by that great N.Z. shot Alan Brown with 47/47.

The Skeet followed and was won in great style by Ken Lowry now living in N.Z.

The Double Rise was next and three possibles of 20/20 shot off. Keith Woods (Tas.), Richard Wright and Tim Catling not far behind with 19/20.

3rd. Day - SUNDAY 15th — Cold, misty and poor light conditions.

The South Island Single Barrel Championship, resulted in R. Young of Australia, taking 2nd place. Gary Boller was in the shoot off, but was not successful.

The Points Championship followed with G. Nicholl of Australia winning the B. Grade section.

This was the first leg of the Teams match against N.Z. and the Team shot as a squad and the scores in order of shooting were:—

T. Catling (W.A.) 74/75, I. Sleigh (Q'd) 71/75, K. Woods (Tas.) 68/75, G. Boller (S.A.) 74/75, A. O'Connell (Vic.) 68/75 **for a Total 355/375** and 2 points behind N.Z. who scored 357/375.

Then followed the South Island Double Barrel, or as they call it the "Single Rise".

The Team knew they had a good chance when they started and as the wind had increased a little from the right front, the scores below show a steady effort.

Catling 25/25, Sleigh 25/25, Woods 21/25, Boller 25/25 and O'Connell 24/25 a Total of 120/125. This gave the team an overall Total of 475/500, but the New Zealand Team was more than equal to the challenge and shot 121/125 in the Double Barrel for a total of 478/500 and a well earn't win.

At the presentation that followed the N.Z. Team was presented with the engraved Pewter Mugs presented by the A.C.T.A. for this event.

The Teams Match was well received by the N.Z. Association and shooters. Hopefully it might become an Annual Event.

The Shoot-off for the Sth. Island D/B saw some 40 shooters start out of a field of 251. Australia had Bill & Greg. Stevens, Ian Sleigh, Garry Boller and Tim Catling fronting up. This Event was finally won by Tim Catling with 116/116 from the Points Champ. winner Gavin Searle of N.Z. in cold, drizzly conditions.

All in all, we were made very welcome and the team spirit and food fellowship was great to experience.

AROUND THE TRAPS

by L.G. Connors

• Ian Hill assists Executive member Bob Buchan, to erect the Association sign in front of the National office at 8 Main St., Blackburn.

Thursday 10 December 1981

Our Executive Director, Ian Hill and myself were guests of the Confederation of Australian Sport, and attended the 1981 Sport Australia Awards conducted at the Ballroom, Southern Cross Hotel, Melbourne. The Presentation Dinner was hosted by Trans Australia Airlines, with some six hundred guests in attendance. The recipients of the 1981 Silver Awards were as follows:- Most Popular Australian Sporting Personality, Dennis Lillee, cricket; Administrator of the Year, John Rasche, basketball; Coach of the Year, Bill Sweetenham, swimming; Junior Female Athlete of the Year, Ann Minter, Junior tennis; Junior Male Athlete of the Year, Grant Kenny, surf life saving and canoeing; Junior Team of the Year, Australian Tennis Team, sixteen years and under; Best Presentation of a Sporting Event by a National Sporting Association, the 1980 James Hardie Ferodo 1000; Best single Performance by an Australian, David Graham. The Gold Awards went to:- Team of the Year, Australian men's Hockey Team; Female Athlete of the Year, Vickie Hoffman, squash; Male Athlete of the Year, Geoff Hunt, also a top line squash player. It was a great night for sport in Australia, with the presentations being televised Nationally through Channel Seven.

Friday 11 December 1981

The Annual General Meeting of the Confederation of Australian Sport was held at the V.R.C. Convention Centre at Flemington Racecourse on this day. Because of the A.C.T.A.'s affiliation with this body, Ian Hill and myself both attended the meeting. Wayne Reid O.B.E. is the President of this organisation and Garry Daly is its Executive Director. Guests at the meeting included the Hon. I.B.C. Wilson, Minister for Home Affairs and Environment, Acting Assistant Secretary, Sport and Recreation Branch, Department of Home Affairs, Mr. Paul Brettell and the Department's Sports Development Programme Director, Mr. Dene Moore, and the Executive Director, Australian Institute of Sport Mr. Don Talbot. Also from Canada, the Co-ordinator of the Canadian National Coaching Certification Programme, Mr. Terry Valeriot. Mr. Brian Dixon was guest speaker at the luncheon with "Sport For All" being his form of address to those present. Being a first for me, it was quite an informative meeting, and gave me great knowledge of the part played by the Confederation of Australian Sport.

Friday 11 December 1981

Frankston Australian Gun Club were conducting their Annual General Meeting at their club commencing at 8 p.m.

Although it was reported their shoot attendances were down slightly to the previous year, their balance sheet showed an income of \$100,095.00 giving them a profit for the year of \$14,614.00. The Election of Office Bearers saw Graham Ash re-elected President, unopposed, for the ensuing year, with Bill McMahon continuing as Club Secretary.

Saturday 12 December 1981

Melbourne Gun Club conducted their Christmas shoot on this day. For the benefit of shooters attending, all disciplines were shot with a variety of D.T.L. events being well patronised. Just on one hundred shooters attended and enjoyed the hospitality of the club. It was a great day to end the years shooting calendar.

Monday 14 December 1981

Executive Director, Ian Hill, National Training Squad Manager, Coach, Peter Quire and myself, made a trip to Canberra. The purpose of the trip was to further our negotiations with the Department of Home Affairs and Environment in the engaging of a full time National Coaching Director for the Australian Clay target Association. The trip was well worth the effort, as the Department gave its approval to Peter Quire being engaged as our full time National Coaching Director. Peter will begin his duties as from 1st January, 1982.

Tuesday December 15 1981

As well as spending time at the A.C.T.A. office attending to general administration during the day, I attended Winchester Australia Christmas Social at Park Lake Motor Inn in the evening. Victorian State President and Executive Member, Bob Buchan was also present. Many personalities were there representing the business and sporting world of Winchester. It was an enjoyable evening, many thanks Winchester for the invitation and your hospitality. This column has given details of the last of my activities for the calendar year 1981. For me it has been a demanding but satisfying year, and I look forward to whatever challenge our shooting calendar has to offer for 1982.

See you where there is shooting.

LAURIE CONNORS ○

EDITOR'S MAILBOX

Dear Mr Hill,

I feel that I must answer Suzanne Siddins letter to the Editor in the December issue of "Shooting News".

Firstly, trophy cost and half nominations are not really related, irrespective of who wins the trophy. The cost to the club is the same even if a lady or junior (and veteran) wins the trophy, the profit from the shoot is also the same.

Miss Siddins seems to have a negative attitude towards the future of our sport. Let's consider a family of a father, wife, son/s and or Daughter/s on a weekly working income. Where full nominations are charged, the husband/father tends to let his wife, son or daughter shoot and does not shoot himself. Therefore, the club receives only one nomination instead of one and a half.

Another important point is unless we encourage young people to take up this sport, they will be lost to less expensive sports.

Clay target shooting is the one sport that family participation really applies. What other sport can have competitors over such a large age group, say from 10 to 80 years of age?

I personally think that it is great to be able to compete alongside my family. I also must presume that Miss Siddins is in a higher income bracket and is much more fortunate than some of the families I know. Another small point is that most of the juniors I know go to school and don't earn an income, but those who do (usually a part-time job) generally pay for their own nominations as their family cannot really afford to pay for the child too.

Finally, let's encourage, not discourage.

I would also like to thank the Executives of the A.C.T.A. for their decision on my last letter for the 1982 Nationals held in Brisbane.

Yours faithfully,

Maree Rooke

NATIONAL ATHLETE AWARD SCHEME GRANTS FOR 1982 ANNOUNCED

Staff Writer

Some of the 1982 Awards under the National Athlete Award Scheme will go to athletes who are regarded as top prospects for gold medals at the Commonwealth Games Robert de Castella, recent winner of the Fukuoko Marathon; Kenrick Tucker, fourth in the 1981 World Cycling Championships; Rick Mitchell, silver medallist in the 400 metres at the Moscow Olympics; and Jim Ellis, winner of the silver medal in the trench event at the recent World Moving Target Championships.

All together, 37 individual athletes and seven sporting teams will benefit from Commonwealth Government Grants under the scheme this year.

The Minister for Home Affairs and Environment, Mr. Ian Wilson, has announced that the individuals would each receive \$3,500 and the teams from \$7,000 to \$10,000.

Mr. Wilson said the basic purpose of the scheme was to help teams and athletes who have achieved World ranking to maintain or improve their ranking. "The awards are allocated on the basis of performance in International competition and are intended to partly compensate athletes for the cost of top-level training and participation", Mr. Wilson said. "The scheme is designed to provide assistance to teams and athletes to meet the cost of coaching, travel, equipment, medical expenses and dietary requirements".

Terry Rumbel, who finished in sixth place in the recent World Championships, has also been granted an award for 1982.

Athletes and teams who have been granted awards for 1982 are listed below:

INDIVIDUAL ATHLETES

Rick Mitchell	Athletics
Denise Boyd	Athletics
Ian Campbell	Athletics

Call and see us when you are next on the Fabulous Gold Coast.

We are part of the Terranora Lakes Country Club Complex which includes Golf, Bowls, Tennis, Hockey, Cricket, Squash etc. Children's lounge full N.S.W. amenities. Visitors welcome.

EDITOR'S MAILBOX

To the Editor,

I make the following comments at the invitation of our President, Mr Laurie Connors, and whilst the opinions are my own, I do have a lot of supporters out there.

There are enough "Skeet Only" members to make a "Skeet Nationals" a viable venture. Add some entries that come from the "shoot the lot" section of our membership and success is assured.

The right, and permanent, venue is a must to ensure the "Skeet Nationals" ongoing success and prestige.

The Melbourne Gun Club is the only club that has the know-how, facilities and prestige to host this type of Carnival on an annual basis. Sure, there are clubs with 3 or 4 layouts to do the job, but I speak from experience, when I say the Melbourne Gun Club has the know-how. Their record in staging International events is world renowned, and this type of series is right up their alley.

With the co-operation of the State Associations, a States Team Match could be contested to determine the top skeet State annually and an All Australian Skeet team selected. You could go a step further and have a club match in conjunction. Highlights such as these would add much prestige and do much to promote our sport.

With advertising and sponsorship from the trade and outside the sport, and the possibility of media coverage, we may get some extra publicity mileage to help combat the anti-gun lobby, and the uninitiated.

If we all get busy, the Skeet Nationals could be a reality by, say, October 1983.

Regards,

Chris Hughes

GUN SAFETY AND SHOOTING ACTIVITIES FOR THE JUNIOR AND THE NOVICE "VICTORIA SHOW HOW"

by George Biggs
State Coaching Director Vic.

• Venturers' John McWilliams, 17, 5th Mordialloc, David Gleeson, 16, 4th Mordialloc and Paul Whitting, 15, 5th Chelsea, are welcomed to the Melbourne Gun Club by president Bob Buchan.

The year of 1981 in Victoria will go down as a big step forward at Clay Target Shooting for both junior and novice shooters.

Many hundreds of secondary school boy and school girl students and boy scout groups have enjoyed the opportunity that is available at Victorian Clay Target Clubs, to learn from accredited club instructors how to go about using a shot gun in a safe, responsible manner and to learn something of the technique involved in shooting moving targets. The main aim at this level is **not** to try to produce an army of expert shotgunners and hunters — this is something that will be available at a later stage in the person's life. At this point strong emphasis is placed on safe and responsible attitude to firearms use and handling for the junior shooter.

Educational systems today are placing more emphasis on life time sports. A recent survey by the Victorian Education Department revealed among other things that a total of 110 schools have regular weekly or monthly shooting activity. It was also shown that the safety record was second to none. The assistant director of secondary education in Victoria, Mr Neil Bavington, has said that statistics have shown shooting activities to be a very safe sport — obviously due to very strict gun safety training procedures that apply.

Jeparit Gun Club in western Victoria was recently the venue for a three day gun safety seminar for teachers. The first one of its kind with education department approval.

The seminar, which I was invited to take part in was organized by Mr Lyn Barr, Principal of the Rainbow High School. A total of 38 teachers together with outside guest speakers discussed the many issues that go with school participation in shooting activities and firearms safety training.

Mr Brian Mark of Winchester Australia Pty Ltd opened the seminar and introduced the guest speakers and lecturers who would be taking part in the program.

Mr Lyn Barr related the history of gun safety instruction in Victorian schools. He outlined requirements for safety, a place in the curriculum and what support was available. The role of commercial firms and the part played by industry in support of gun safety programs in schools.

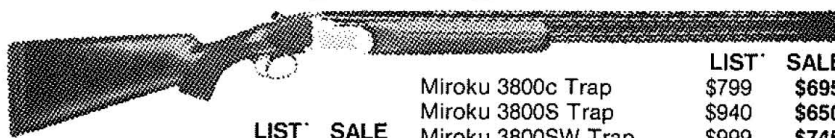

Mr Neil Bavington explained the legal responsibilities teachers have regarding their pupils and which cannot be handed on to any one else. This means that accreditation of teachers could be the solution.

Highlighting the three days of this most fruitful workshop was the launching of the gun safety manual for secondary students by Mr Bernie Dunn M.L.C. of the National Party. The manual was compiled by Lyn Barr and subsidised by Winchester Australia Pty Ltd. Lyn has indeed done a first-class job in putting this manual together.

THE VALMET SHOOTING SYSTEM. INTERCHANGEABLE BARRELS FOR YOUR CHOICE OF STOCK

The Valmet shooting system enables the shooter to buy the action and stock and then a series of barrels in different combinations. With the same basic weapon, you can shoot from game to trap etc by changing the barrels. The series of barrels are easy to fit and precision is guaranteed by Valmet's high quality manufacturing.

There are special sets of barrels designed to be used in the field and many different styles of stocks are available in different dimensions.

It's all the gun you'll ever need to own.

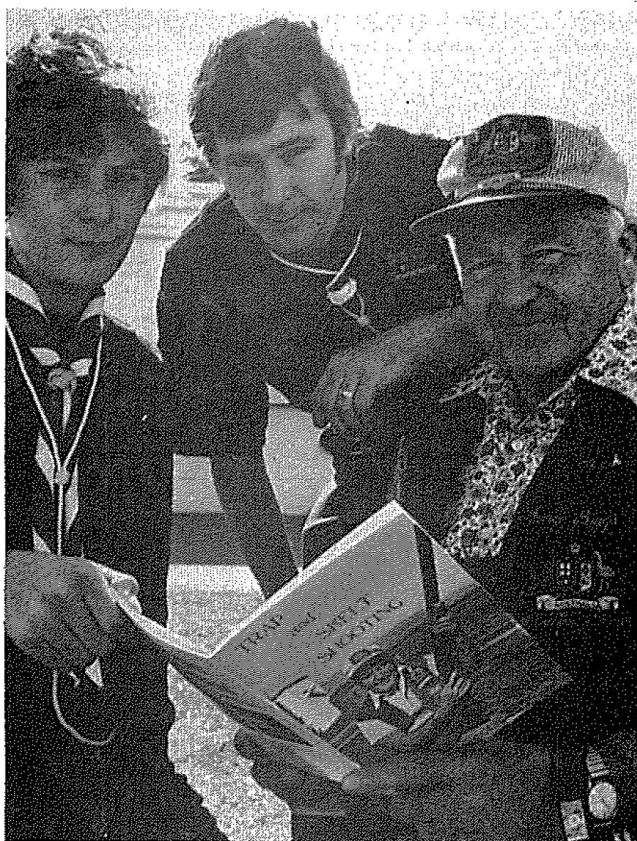

VALMET

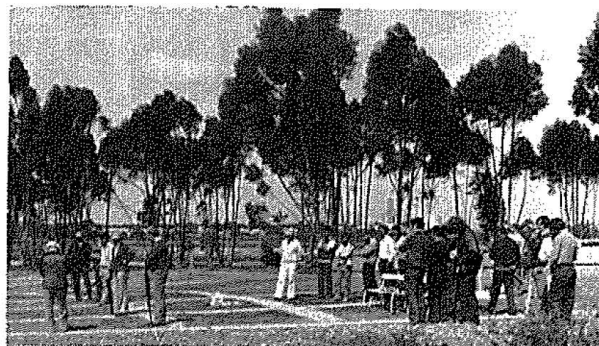

Sole Australian distributors:
Stewart and Allwood -
Sydney, Melbourne W.A. Agent - R.J. Franklin

• Scout leader Alan Warren 1st Chelsea, watches Thomas Abby, 15, 5th Chelsea getting instruction from Club Coach, Jack Henwood.

• Bob Ellis, Assistant leader 4th Mordialloc, and Michael Whittfield of 5th Mordialloc receive from George Biggs an autographed copy of his book "Trap and Skeet Shooting". George is also a king scout.

• Three day seminar for teachers at Jeparit Gun Club in September. Pic shows a group of teachers on the firing line listening to George Biggs explain the basic fundamentals involved in shooting moving targets and the safety procedures necessary, especially if the shooter is using an auto shotgun.

The coaching division of the Victorian Clay Target Association is very much aware of the increasing interest being shown by school boy and school girl students in clay target shooting and gun safety courses — especially in country areas. Boy scout groups are also involved. This is a welcome trend and the coaching council is delighted because we are geared to handle this situation in the best possible way with trained instructors at zone and club level. However, because of the increasing numbers of junior pupils some clubs are naturally concerned at the increasing costs of providing this service which can become somewhat of a burden to a small club if they have to provide targets as well.

Generally, clubs involved with junior instruction provide their ground facilities such as traps, electric power, club rooms, etc. free of charge. All coaching and instruction work is provided free by members of the Victorian Coaching Council who do this work on a voluntary basis. In most cases, pupils provide their own guns and ammunition.

Several of the larger clubs, for example, Metro. Melbourne, Wangaratta, Warnambool have a weekly training program where the attendance is around 30-35 each week, 50 weeks of the year. At least 85% of Victorian Gun Clubs are actively engaged in a youth firearms training program — it would be conservative to say that in excess of 8000 junior and novice shooters would go through the training program in the past year.

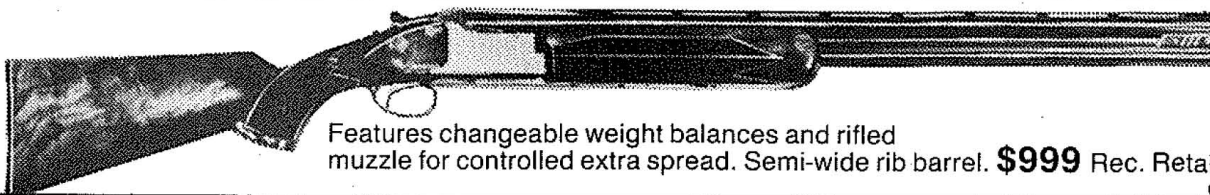

The Victorian Clay Target Association is grateful for the yearly financial help provided by the Victorian Police Department towards our school boy firearms training program. Without this aid it would not be possible for many clubs to provide their ground facilities and clay targets, plus cartridges, etc., at no cost to the junior student.

Very few shooters would know of the extent to which our two ammunition companies, namely Winchester Australia Pty Ltd and Eley Ammunition, contribute to our youth training program.

Both companies sponsor school boy/school girl championships in each of three zones yearly where the attendance is around 150 to 200. The companies provide cartridges, clays and trophies as well as personnel to assist with the running of the shoots.

EDITORS' MAILBOX

Dear Sir,

I have read with interest the letters in "Mailbox" concerning half nominations for Lady and Junior shooters (Sept. '81 & Dec. '81).

The first writer feels half nominations would encourage more family involvement and therefore more club members, especially younger members who would have the interest to carry on and keep the Club membership up.

The second writer feels half nominations are selfish as it means these shooters are winning trophies paid for by the full nomination shooters, and when all other costs are considered would be of no help financially to the shooting family.

I am a newcomer to the sport, which makes me a Lady, frontmarker and, until New Year, "birds only" shooter. My observations have been gained from the sidelines in one district only and from my reading of the CTSN. I have not seen a Lady or Junior win an Overall or Championship trophy in ordinary Club competition. I like the way the CTSN makes a point of mentioning Lady and Junior shooters who win trophies apart from the front marker and their own sections, but do not recall reading of many. The trophies provided by

Clubs for Lady, Junior and Front Marker winners appear to be selected with half nominations costs taken into consideration.

As an adult Lady shooter I do not mind paying full nominations for myself, however, as the mother of four sons who are showing a marked interest in the sport I do lean toward half nominations for Juniors. A Club which encourages family involvement will gain good public relations and back-up from other family members — usually the Mums. This is most evident in the Club Canteens, and from the comments I have heard and the shoots I have attended, a good Canteen is worth as much to the shooters' enjoyment as are the trophies. What a Club loses in lower nominations could easily be overshadowed by larger membership and greater support.

As I mentioned before these are the observations of a newcomer to the sport and there are probably other underlying issues to be considered that are not apparent on the sidelines. Other districts with different Club membership structures would possibly view the issue in a different light.

Yours faithfully,

Ms Bernice Britain

EDITOR'S MAILBOX

• Lyn Barr, Principal of Rainbow High School, takes a class of beginners through their first shooting exercise after having graduated from the gun safety course.

For the past three years, Winchester has sponsored the Victorian school boy/school girl championships. The 1981 title was held at Melbourne Gun Club and drew a crowd of 320 secondary school students from all parts of the state. Trophies were for first and second in junior and senior section and likewise in the girls' class.

I wouldn't know the total cost to Winchester and Eley of sponsoring these youth training programs but I'll make a guess and say many thousands of dollars for which I, as State Coaching Director am delighted and thankful. So next time you may be tempted to buy a packet of foreign shells, think about it!

During October last, Melbourne Gun Club played host to senior scout units from Bayside Troops who were introduced to safe gun handling and the art of shooting moving targets.

The boys (37 in all) were given a talk on firearms awareness and safety, also films on trap and skeet shooting were shown followed by practical shooting instruction. Winchester supplied 500 cartridges and Melbourne Gun Club the clay targets all at no cost.

VALE

We wish to inform all shooters of the passing of E. T. (Ted) Baldwin on the 24th December, 1981.

He was a Life Member of the A.C.T.A., and a member of the Tatura Gun Club, and will be sadly missed by all.

He was the father of the Tatura Gun Club, and we are sure that, but for him, the Club would not be as it is today.

So, we say farewell to a gentleman and a sportsman.

Dear Sir,

Included are a few comments regarding trap shooting which I hope are constructive.

(1) Because trap shooting is very trophy orientated, it follows that any grading or handicap system which depends on the honour system, is open to abuse.

(2) Because the administration at Club level is not strong, any system adopted for grading and handicapping must be easy to administer.

Regarding grading, it seems that a centralised system is required. By this, I suggest that a copy of the shoot record from each Club should be submitted to the A.C.T.A. office and the shooters scores then fed into a computer (I understand that the A.C.T.A. is already using a computer service.) Every three months this information could be treated and the resulting gradings published in the A.C.T.A. News. These gradings would hold during the next three months and all that is required of Club Secretaries for grading purposes is to have an appropriate copy of the A.C.T.A. News at hand.

To avoid deliberate cheating, such as when a shooter drops a target and then goes on to drop a large number, his low scores could be discarded. This could be achieved by either saying that his five lowest scores are not to count, or that scores say 10% and more below average are not to count.

With handicapping, there is only one real argument against performance being used as the yardstick and that again gets down to the administrative capability at Club level.

The old system of money value determining handicap was easy to understand and apply and may well be worth re-evaluation.

Certainly the glamour events in the past at big trap shoots have been the handicap events. However, this seems to be a thing of the past and may well be related to the new handicap formula. Personally, I enjoy handicap shooting and would be happy to shoot it more often (I am a very average trap shooter on 23m handicap).

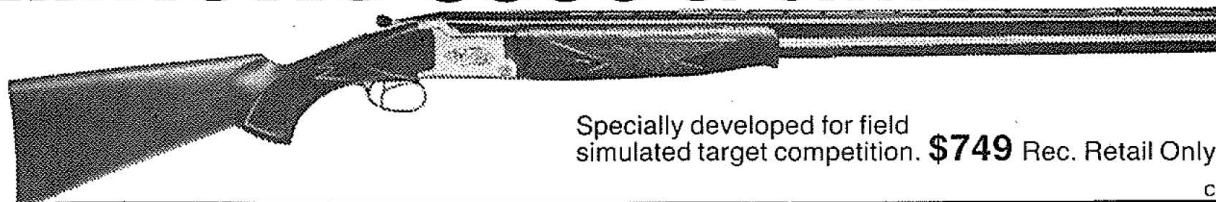

I wonder if the fall in attendances at shoots can be related to programs which appear to be aimed at the top shooters. These result in long shoot-offs which cost the Club and consequently the average shooter a lot of money and reduced shooting times. It's important to recognise that in shooting it's the average club shooter, because he is in the vast majority, who is essential to the well being of the sport. Further, this group provides the majority of officials and simple truth is, no officials - no club - no shoot.

I believe we erred in adopting 15m for common mark shooting. The guns and cartridges are capable of much better performance than this. Rather than moving in, I consider that it would have been better to have moved back to say 18m.

It has been suggested that the American single barrel shooting might be the answer to some of our problems. I've tried it and while there is no doubt that a high level of skill is required to perform creditably, it is, in my opinion, a lousy event. It is without doubt the most un interesting of all the clay target sports and has no attraction for me.

Faithfully,
Reg Clarke,
N.S.W.

GUN CANTING

Primarily there are two forms of canting - head canting and gun canting or a combination of both. Each is caused by incorrect gun fit, in stock dimensions or by mounting the gun wrongly.

To get the best possible sight picture both eyes should be level with each other when the gun is mounted in the shooting position with the face firmly on the stock. This assures no eye strain and comfortable viewing.

This will be the case if the stock is properly fitted and the gun is correctly mounted, but if the head is canted or tilted over to make contact with the stock (right handed shooters) almost invariably the left eye will be higher than the right eye. The effect here particularly if the shooter has a strong left eye, is similar to cross firing. The canted eyes receive a distorted view of the target, causing the shooter to point and fire where his canted eyes tell him the target is, when in fact it isn't. Another way to explain the phenomenon is that canting can create a sort of optical illusion.

This is compounded further by the fact that the right eye is often blocked out by the receiver until the target clears the barrel. Thus the left eye higher than the right when the head is canted picks up the target first which can cause further confusion.

If there is one thing a shooter needs it is a good solid level sight picture of the traphouse and target when it comes out not a cocked canted or confused picture.

Now Gun Canting, one problem shooting with a canted gun eyes level but gun canted inward is that you force the gun to work against you - why - well you've changed the point of impact you'll shoot behind your right angle targets and in front of your left angles, sure you'll still shoot and break targets because your amazing physical/mental system adapts. You simply learn different compensations, but it's all unnecessary and just one more place for error.

by Barney Rooke

Most shooters say they don't understand about your point of impact being changed. I'll explain; we all know a trap gun shoots higher than a field gun. The higher comb keeps the eye above the rib consequently we raise the front of the gun to make alignment. The result is our trap gun shoots high its all a devilish method for capturing a bit on a fast rising target, you shoot better with a built in vertical lead.

When you cant your gun inward you not only turn the barrel to the left you also turn the rib. Your point of impact is not confused it always shoots high above the rib. Turn the rib to the left and is shoots to the left. Say you lay the gun on its side a full 90° and fire, doing this would throw the point of impact an additional distance in that direction but not high, understand more clearly.

Let me add canting may also be the result of the shooter mounting the gun out on the far point of his arm or shoulder rather than in the pocket of his shoulder. The comb will be far enough away from his face that he will have to cant his head over to make contact with the stock. A small degree of canting may not be serious but there is no definite way to prove or disprove the exact amount that will cause problems simply because each shooters tolerance may vary. The simple cure for this cause of head canting is to bring the gun into the shoulder pocket and thus closer to the shooters face so he doesn't have to tilt his head over on the stock.

Other cures - Let's assume the gun is properly mounted with the recoil pad in the proper place in the shoulder pocket and the shooter still must lean or cant his head on the gun to contact the stock. The solution here can involve a many as three modifications. The most difficult and costly would be putting cast-off in the stock in the process the stock is bent to the right at the butt and thus bringing the side of the comb closer to the shooters face when the gun is properly mounted.

It may take several sessions with the gun and fair amount of practice to achieve the correct eyes level no cant fit but the results will be worth it.

MIROKU DISCOUNTS

Miroku 3800 Trap & Skeet Black	\$460

WINCHESTER TOURNAMENT

1982/1983

\$35,000 TROPHIES

50 Targets Double Barrel from 15 Metres
 3 Meterage Groups - 1st, 2nd, 3rd trophies
 Location Team Shoot - 1500XTR Auto Shotgun to nominated Club
 Ladies, Juniors, Veterans Section - 1st and 2nd trophies
 Overall Location High Gun
 \$24.00 nomination for all shooters other than Ladies and Juniors whose nominations are \$12.00.

14-15 Metre Group - 1st Prize - Bat Masterson Commemorative Rifle plus Sash - Value \$550.00.
 2nd Prize - 500 12AA 325 Trap Shells - Value \$135.00
 3rd Prize - Cased "Valor" Presentation Knife - Value \$60
 Overall Winner - receives group prize plus 500 12AA325 Trap Shells plus Overall tricolor sash

16-19 Metre Group - PRIZES AS ABOVE
 20 - 25 Metre Group - PRIZES AS ABOVE

Ladies Prizes	1st Prize - Shoulder Bag - Value \$55.00
	2nd Prize - Purse Wallet - Value \$35.00
Juniors Prizes	1st Prize - Engraved trophy - Value \$55.00
	2nd Prize - "Winchester" Trapper Knife - Value \$35.00
Veterans Prizes	1st Prize - Engraved trophy - Value \$55.00
	2nd Prize - "Winchester" Trapper Knife - Value \$35.00
	Trophy value each venue - \$3,000

Winchester Teams Event In Conjunction

Each club is invited to register a 5 MAN TEAM. As many 5 Man Teams can be entered as the nominating club sees fit. All team members must be registered with the nominating club. Participants must be entered in tournament, but there is no need to shoot as a squad.

Nomination Per Team - \$10.. WINNING TEAM TAKES ALL. In addition, the winning team will receive a Model 1500 XTR Automatic Shotgun for their club to utilize as it best sees fit.

Combination Shoot In Conjunction

Participants **MUST** be entered in tournament. No additional nomination, and any combination - father/son, father/daugh-

ter, mother/son, mother/daughter, husband/wife - can nominate. Combined scores to count.

Trophy - Cased silver pepper and salt shakers Value \$30.00
 The Overall Location Winner will receive a tricolor Location Winners sash, plus 500 AA 325-7 shot shells. Such Location shooter is then eligible to compete at the 1983 National Championships for the Grand Final prize of a Winchester 12 gauge U/O Grand European suitably cased - Value - \$1,540.00

Each Location Winner in the Juniors, Ladies and Veterans Section is also eligible to compete at the 1983 National Championships for the Grand Final Prize valued at \$150.00.

BALL TRAP OPENING AT ILLAWARRA

by G. Sperring

A further stage in the development of shooting facilities at the Illawarra Gun Club was completed when the club's first 100 target "Illawarra District Ball Trap Championship" was run on 5th December.

With temperatures reaching 37° and gusty winds the standard of shooting was excellent. 'A' Grade resulted in a two way battle between Bill Jones and John Maxwell with Bill gaining an early lead but John pegging him back to finish even on 94/100. Both put on a fine display in the shoot-off, Bill dropping his 66th target leaving John to complete 75 straight to take the championship. 'B' Grade was won by Martin Lieske (83/100) with Graeme Sperring defeating Peter Smith in the shoot-off for second. 'C' Grade was won by Paul Abella (76/100) from Vic Elliot.

NEXT YEARS BALL TRAP PROGRAM WILL BE ADVERTISED IN CTSN.

EDITORS' MAILBOX

Dear Ian,

After reading C.T.S.N. Dec. issue, referring to Editors Mailbox. Letter from Albert Povey from Wagga NSW.

I give him my full support as many other shooters do in the Riverina area.

I personally think it is time to sort out a standard and more simplified set of rules and regulations, so both new and old registered shooters can get some unification from year to year.

Another section of clay shooting, I do not agree with is the way parts of the nationals are run,

- 1 **Starting the nationals mid week**, which means a shooter having to travel long distances must be away from work at least two weeks.
- 2 **Not allowing shooters to use reloaded cartridges** in all events. This would help the shooter to cut costs, and especially juniors and families with two or more Shooters.
- 3 **Drawing inexperienced shooters out of squads** to score whether he or she is a novice, this disturbs a lot of shooters.
- 4 **Re-organise program** in order of popularity having D.T.L. events with priority. For example don't have skeet in the midst of the shoot.

Perhaps the new committee's should give a lot of thought to Mr Poveys letter and consider to improve the nationals for the good of the sport.

E. K. French
13 Broughton Street,
Tumut NSW. ○

Dear Sir,

The Nepean Clay Target Club played host to forty-eight Pupils and Teachers from the Dromana Technical School for a Firearm and Hunting Safety Program.

With winds gusting to 80 km. per hr., the Students were instructed by Mr George Biggs (Victorian State Coaching Director) and Mr Ian Hale (Eley Ammunition Representative) on the dangers involved in the misuse of firearms.

After instruction on the handling of firearms, fundamentals of leading and aiming points, the students were given practical instruction.

When every student had fired a practice round, they divided into teams of five for competition. The winning team shot a very creditable 6/10.

We would like to take this opportunity to thank Eley Ammunition for their Donation of Ammunition and instruction by Ian Hale. Also the time and effort given by George Biggs.

Yours sincerely,
Greta Quick, Sec. ○

"OUR VIEWS ON FIREARMS POLICY"

The following letter was sent recently to Victorian A.L.P. leader John Cain, by Castlemaine Gun Club. It is re-printed here to perhaps prompt other clubs to do likewise.

Dear Sir,

At the last meeting of the Castlemaine Gun Club it was moved that I write to you to protest strongly at the proposed change in gun laws to be brought in by the A.L.P. should they come to power in the state of Victoria

We deplore the dictatorial attitude which you are taking in this matter.

What we as a club would like to know, who is going to police all these laws — the already overworked police force?

And as has been proved many times over, the criminal will get a firearm one way or another.

The sad part of these changes you are proposing will make many otherwise law abiding citizens be pressured into breaking the law. We can assure you that the feeling among the many shooters we come into contact with is that they have no intentions of giving up firearms which in many cases have been handed down two or three generations and sentiment runs very high in these cases.

Apart from that, if a person has been a law abiding citizen for 30 or 40 years in many cases, what gives you the right to take that interest away from them and treat them as prospective criminals.

These laws will have a far reaching affect on every aspect of the sporting trade, and can only bring about unemployment which we, as a club, thought you would be trying to reduce, not increase.

We deplore your proposals most strongly, and urge you to re-consider these changes to the laws.

If these are not amended to a degree that is satisfactory to such groups as the A.C.T.A., Field and Game Association, Sporting Shooter Association etc., we would certainly as a club be doing everything in our power to keep your party out of Government, and that would be the case with any party who tried to introduce such radical changes to gun ownership.

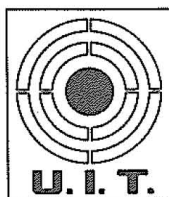

Yours faithfully,

Valoa M. Oppermann
Secretary/Treasurer
Castlemaine Gun Club ○

I.S.U. REGULATIONS

•Regulations for Olympic Trap & Skeet, Part 2

(Cont'd from December 1981 CTSN)

- 6.1. 4 Before the beginning of a competition and after each subsequent setting of the traps a trial target shall be thrown from each trap in a sequence.
- 6.1. 5 If the shooting is interrupted for more than 5 minutes within a series because of technical malfunction, not the fault of the shooter, the squad shall be allowed to view one (1) regular target from each machine in the group on which the interruption took place before commencing the competition again.
- 6.1. 6 Conduct of a series
Targets must be thrown for each shooter according to these regulations.
- 6.1. 7 Two shots may be fired at each target.
- 6.1. 8 At the beginning of each series the first five shooters will take positions on stations 1 to 5, the sixth shooter will remain ready behind No. 1 post to move in as soon as shooter No. 1 has shot. After shooter No. 1 has fired at a regular target he is to prepare to move to station 2 as soon as the shooter on that station has fired, and so on. When the shooter on post No. 5 has fired he must immediately move around the rear of the firing line and return to Post No. 1 (6) continuing the rotation until each shooter has fired at 25 targets. No shooter having shot on one station shall proceed toward the next station in such a way as to interfere with another shooter or the match personnel.
- 6.1. 9 When the shooter has called for his target it must be released immediately, allowing only for human reaction time to press a button, if release is manual-electrical or mechanical. (See Art. 5.1.4)
- 6.1.10 If a target is not thrown immediately after the shooter's call, the shooter may refuse the target by removing his gun from his shoulder.
- 6.1.11 Irregular target
- Any target flying along a path other than that specified in Art. 5.1.6 in angle, elevation and distance shall be considered irregular.
 - A broken target must not be considered irregular.
 - If the shooter fires one or two shots at an irregular target the result will be scored.
- 6.1.12 A target is declared "DEAD" when it is thrown and shot at according to the rules and at least one visible piece is broken from it (See Art. 5.1.6)
- 6.1.13 A target is declared "LOST" when:
- it is not hit during its flight;
 - it is only "dusted" (no visible piece falls);
 - the shooter does not fire at a regular target for which he has called;
 - the shooter is not able to fire his gun because he has not released the safety, forgotten to load, or failed to cock his gun;
 - the first shot is a miss and the shooter fails to fire his second shot because he forgot to place a second cartridge in the gun or to release the stop on the magazine of an automatic shotgun, or because the safety has slipped to the "safe" position by recoil of the first shot.
 - a malfunction of the gun or the ammunition occurs and the shooter opens the gun or touches the safety before the Referee has examined the gun. (See Art. 7.0.5)
 - it is the 3rd or subsequent malfunction of the gun or the ammunition by the same shooter in a 25 target round. (See Art. 6.0.11)
- h) the shooter does not fire for any other reason.
- 6.1.14 "NO BIRD"
A target is considered "NO BIRD";
- 6.1.15 The "NO BIRD" evaluation is always the Referee's responsibility.
- 6.1.16 A target declared NO BIRD by the Referee must always be repeated whether the shooter has fired or not and has either hit or missed the target (Art. 9.0.3)
- 6.1.17 In case of a declared "NO BIRD" a new target shall be mandatory from the same trap that has caused the NO BIRD. The shooter may not on any account refuse it even if he is of the impression that it was thrown from another machine in the same group.
- 6.1.17a Exception: If a shooter has shot at a correct target and has a missfire or malfunction on his second shot, the target must be repeated from the same trap.
- 6.1.18 After a NO BIRD another target may be thrown according to the following conditions:
- 6.1.19 MANDATORY another target must be thrown (WHETHER OR NOT THE SHOOTER HAS FIRED) when:
- a "broken target" (Art. 6.0.7) or an "irregular target" emerges.
 - the target is thrown by a machine in another group;
 - two or more targets are thrown simultaneously from machines in the same group or from different groups on the same shooting range;
 - if the target is of a color manifestly different from that of the others used in the competition;
 - a competitor shoots out of turn.
- 6.1.20 Another target may be thrown (provided that the shooter has not fired) when:
- the target is thrown before the shooter has called;
 - if the target is not thrown immediately after his call and the shooter manifestly refuses it by raising his gun;
 - if the competitor's first shot misfires (due to a malfunction of either gun or ammunition (Art. 6.0.8 and subsequent article) and he does not fire the second (if the second shot is fired the result is scored)
- NOTE: in the case of third or following malfunction, rather than "NO BIRD" the target is declared "ZERO".
- 6.1.21 Another target must be thrown (even if the shooter has fired) when:
- the first shot is a miss and the competitor's second shot misfires for malfunction of either the gun or the ammunition (outside the cases under Art. 6.1.13, item e) - g)). In this case the target must be a "miss" for the first shot and hit only for the second shot. If the target is hit with the first shot, it must be declared "ZERO".
- NOTE: A competitor using a double-barreled gun with a single trigger must declare to the Chief Range Officer (before the beginning of the competition) which barrel he is going to fire first. If he fails to make this declaration it will be assumed that the lower barrel is being fired first in the superposed guns and the right hand barrel is first in the side-by-side barrel gun.
- the shooter has been visibly disturbed;
 - another competitor has fired at his target;

d) the Referee is unable, for any reason whatsoever, to rule whether the target is "dead" — "zero", or "no bird" (in this case, before taking a final decision, the Referee will consult the Assistant Referees).

e) when his turn comes and the shooter discharges a shot involuntarily before he has called for his target. Accidental discharges may be cause for penalty or elimination from a competition for unsafe gun or gun handling.

However, if at the first shot the target is thrown and the shooter hits the target with the second, the result is scored.

6.1.22 "NO BIRD" shall not be declared when two shots are discharged simultaneously or in very rapid succession.

The result will be scored according to the outcome of the two shots.

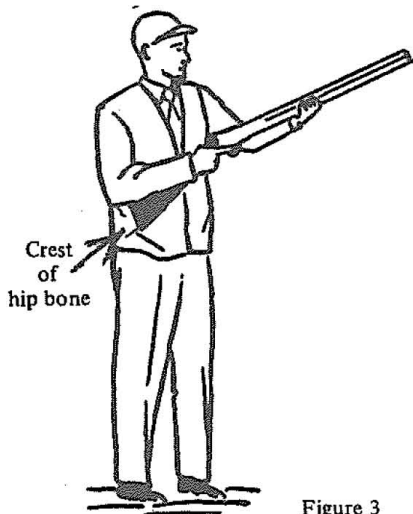

Figure 3

6.2. 1 Until the target appears the competitor will adopt the "Ready Position", holding the gun with both hands so that the gun butt touches the body at the line of the waist (see Figure 3).

NOTE: 6.2.1 must be understood this way: The POINT where the gun butt touches the body is clearly shown by Figure 3.

6.2. 2 No prolongation of the gun butt is permitted. To aid the Referee in controlling the position of the gun, a firmly affixed mark (approximately 10 cm long x 2 cm wide) will be made on the body of the outer garment at the level of the line of the waist (Figure 3) on the right or left side of the garment, depending on whether the shooter is right or left handed.

6.2. 3 When the shooter is ready to shoot he calls crisply and loudly, "pull", "go", "los", or some other signal of command, after which the target must be thrown within an indefinite period not to exceed three (3) seconds (see Art. 5.2.6 & 6.2.9).

6.2. 4 A shooter must stand on the station, position himself, load his gun and call for his target WITHIN 15 SECONDS after the shooter preceding him has completed his firing or after the Chief Referee has given the signal to commence firing or to resume firing.

Shooting at the doubles to be fired from the same station, according to the regulations, must be completed in the shortest time possible, which, however, must not exceed 15 seconds interval between two targets.

In cases of non compliance with the above the penalties provided in Article 8.0.7 will be applied.

6.2. 5 At the beginning of each round when the squad is assembled at Station 1, they shall be entitled to observe one (1) regular target from each trap house. A competitor may also ask to have one trial target thrown after each irregular target, or after interruption caused by technical difficulties.

6.2. 6 Courses of fire

A "single" target is a target thrown from either house.

6.2. 7 A "double" consists of two targets thrown simultaneously from both houses.

6.2. 8 Only one shot may be fired at one single target.

6.2. 9 Each target must be released within a period of time varying from zero to three seconds after the shooter's call. (See Art. 5.2.6)

6.2.10 If a target is not released according to Art. 5.2.6, the shooter may refuse it by lowering his gun. Following or pointing with the gun at a "slow"/"fast" pull target without shooting infringement penalty is not permitted, 8.0.7 will apply.

6.2.11 Each squad shall start shooting in the shooting order indicated in the drawing of lots; and each shooter in the squad, starting from station 1, will shoot from each station at the targets established in the conduct of the course, before proceeding to the next station, and so on up to station 8 according to the sequence established in the following article.

6.2.12 STATION 1: 1 single from the high house
1 double, shooting the high house target first and the low house target second.

STATION 2: 2 singles, shooting the high house target first and the low house target second.

STATION 3: 1 double, shooting the high house target first and the low house target second.

STATION 4: 2 singles, shooting the high house target first and the low house target second.

STATION 5: 2 singles, shooting the high house target first and the low house target second.

STATION 6: 1 double, shooting the LOW house target first and the HIGH house target second.

STATION 7: 1 double, shooting the LOW house target first and the HIGH house target second.

STATION 8: 1 single from the HIGH house,
1 single from the LOW house.

NOTES ON STATION 8:

The squad will advance to Station 8 where they will stand in their shooting order behind the REFEREE on an imaginary line drawn between the center of station 8 and station 4.

The first shooter will position himself in a normal manner on Station 8 and, after loading the gun with one cartridge only, will shoot the HIGH house target, then, turning clockwise, that is, to the right, in the direction of the target crossing point, positions himself for the LOW house, loading his gun with one cartridge only and shoot the LOW house target, following which he will leave the station and move to the rear of the line of the shooters who must still shoot. Each shooter shall do likewise in succession.

6.2.13 No shooter in the squad shall advance to the station before his shooting turn, or before the Referee's order to shoot, or before the previous shooter has completed his shooting and has left the station.

No shooter may proceed to the next station before all the shooters in the squad have completed the shooting on the preceding station.

For STATION No. 8 see "Notes on Station 8" (see Art. 6.2.12)

6.2.14 a) On Station 1 only one cartridge may be loaded to shoot the High house single target;

b) On Stations 2-3-4-5 and 6 two cartridges will be loaded to shoot single targets and two cartridges to shoot the doubles fired on stations 1-2-3-5-6 and 7;

c) When on station 8 only one cartridge can be loaded to shoot at each of the two targets emerging from both houses.

6.2.15 During single target shooting with the gun loaded with two cartridges, the shooter MUST NOT open his gun after shooting the first of the two singles.

Cont'd from page 25

If inadvertently or deliberately the shooter opens his gun, he will be warned the first time he does so in each series of 25 targets, the second and subsequent times the target will be considered "ZERO" (See Art. 8.0.7).

- 6.2.16 Only on Stations 1 and 8 may the shooter raise his gun to his shoulder and sight for few seconds, both for single and double targets and, from station 8 both for high house target and low house target. However, the shooter must return to the "ready position" described in Art. 6.2.1 before calling for his target.
- 6.2.17 Irregular targets:
Irregular targets are considered:
- a) a target which, even if unbroken at the start, does not conform to the definition of regular target; (See Art. 6.0.6)
 - b) two targets thrown during single target shooting.
- 6.2.18 Regular double: two regular targets thrown simultaneously from both houses.
- 6.2.19 Irregular double:
- a) when one or both targets of a double are irregular
 - b) if in a double only one target is thrown.
- 6.2.20 A target is declared "DEAD" when it is thrown and shot at according to the rules and at least one visible piece is broken from it within the shooting boundaries. (Art. 5.2.4)
- 6.2.21 A target is declared "LOST" when:
- a) it is not hit during its flight; or is hit outside the shooting boundaries (Art. 5.2.4)
 - b) it is only "dusted" (no visible piece falls);
 - c) the shooter does not fire at a regular target for which he has called;
 - d) the shooter is not able to fire his gun because he has not released the safety, forgotten to load, or failed to cock his gun;
 - e) when firing at doubles (or a single requiring the gun to be loaded with two cartridges) a competitor if unable to fire his second shot because he has failed to load a second cartridge; or to release the stop on the magazine of an automatic gun; or the recoil from the first shot has applied the safety catch; or, using a single trigger, has not released it sufficiently; or for any other reason whatsoever which is attributable to the shooter.
 - f) after a malfunction of the gun or ammunition a competitor opens the gun or touches the safety catch before the Referee has inspected the gun; (See Article 7.0.5)
 - g) the third (3rd) or subsequent malfunction of gun or ammunition occurs to a shooter in a 25 target series, even if he has changed guns and/or ammunition; (See Art. 6.0.11)
 - h) the shot is not fired due to any other reason whatsoever, which is attributable to the shooter.
 - i) the targets are fired in inverse order, both targets are scored "lost";
 - k) the shooter's ready position is not according to Art. 6.2.1 and if he has been warned of this violation in the same round; (Art. 8.0.7)

REPEAT TARGETS — "NO BIRD"

- 6.2.22 A target may be considered "NO BIRD" — "REPEAT TARGET" —
- 6.2.23 The "NO BIRD" decision is always the Referee's responsibility.
- 6.2.24 A target declared "NO BIRD" by the Referee must always be repeated even if it was fired at and regardless of whether or not it was hit. (Art. 9.0.3)
- 6.2.25 In the case of declared "NO BIRD" another target must be thrown from the same house that has thrown the "no bird".

- 6.2.26 After a "NO BIRD" another target may be thrown according to the following conditions:
- 6.2.27 MANDATORY another target must be thrown whether or not the competitor has fired — when:
- a) a "broken" target emerges (See Art. 6.0.7);
 - b) the target is thrown from wrong house;
 - c) two targets are thrown simultaneously in singles;
 - d) the target is of a color manifestly different from that of the others used in the competition;
 - e) the first target in doubles is regular and the second is irregular and vice versa;
 - f) a "single" target is thrown for a "double";
 - g) the shooter fires when out of turn;
 - h) both shots in a single are fired simultaneously (after two repetitions of this occurrence during the same "series" the third will be considered "zero" whether or not the target is hit. (See Art. 6.0.11).
- 6.2.28 A repeat target may be thrown provided that the competitor has not fired — when:
- a) the target is thrown before the shooter has called;
 - b) the target is not thrown within 3 seconds from the shooter's call, and the shooter observes the rule of Art. 6.2.10;
 - c) the shooter's position OR gun position is not according to Art. 6.2.1 and the shooter has not been warned in the same round; (Art. 8.0.7);
 - d) the target flutters, takes an irregular course, has insufficient velocity (6.2.17);
 - e) there is a misfire caused by malfunction of gun or ammunition through no fault of the shooter. In this case a repeat target will be thrown a maximum of two (2) times, regardless of whether or not the competitor has changed his gun or ammunition during a round of 25 targets. Upon the third and succeeding malfunction the targets are scored as lost targets (Art. 6.0.11);

NOTE: No claims of irregularity shall be allowed where targets were actually fired upon both in singles and doubles, if the alleged irregularity consists simply of deviation from the prescribed line of flight, or in the case of an alleged "quick" or "slow" pull, unless the Referee has distinctly called "no bird" prior to the firing of the shot in the event of the "quick pull", or prior to the emergence of the target in the event of the "slow pull". Otherwise, if the shooter fires, the result must be scored.

- 6.2.29 A repeat target must be thrown even if the shooter has fired when:
- a) the shooter was visibly disturbed;
 - b) another shooter fires at the same target;
 - c) the Referee cannot, for some reason, decide whether the target was "dead" — "zero" or "no bird". (The Referee must always consult his Assistant Referees before taking a final decision in these circumstances);
 - d) the shot is discharged involuntarily before the shooter during his turn has called for his target. (Accidental discharge may be cause for penalty or elimination from a competition for unsafe gun or gun handling).

NOTE: A competitor using a double-barreled gun with a single trigger must declare to the Chief Range Officer, before the beginning of a competition, which barrel he is going to fire first. If he fails to make this declaration it will be assumed that the lower barrel is being fired first in the superposed guns and the right hand barrel is the first in the side-by-side barrel guns.

Special rules applying to doubles

- 6.2.30 Articles from 6.2.20 to 6.2.29 apply also to doubles and must be interpreted as follows:

1) The Double will be declared "no bird" and the competitor must shoot a repeat double to determine the results of both shots:

- a) when the first target is regular and the second is irregular, whether they were hit or not;
- b) when a malfunctioning gun or a faulty cartridge prevents the shooter from firing at the first target;
- c) when either target of a double is irregular and the shooter does not fire;

If both targets have been fired at, the result of the double will be scored and no claim will be allowed if the alleged irregularity consists simply of a deviation from the prescribed flight line or insufficient initial velocity or alleged fast or slow pull.

- d) when the shooter misses his first target and it collides with the second target before the shooter fires his second shot, or if fragments from the first target break the second target before he has fired his second shot.

2) The targets of a double are considered lost: (zero)

- a) on the 3rd malfunction or faulty cartridge in the same round (Art. 6.0.11);
- b) if the shooter fails to fire at a regular double, without an evident reason, both targets will be scored missed;
- c) when the shooter fails to fire at the second target without an evident reason, the first shot of the double is scored and the second is considered missed;
- d) if the first target of a regular double was missed and the shooter fails to fire at the second for a malfunctioning of his gun or faulty cartridge, the first target is considered a miss, the double is repeated and only the result of the shot at the second target is scored. (See Art. 6.0.11)

- 6.2.31 a) If in the course of shooting at doubles both shots are discharged simultaneously, the double is declared "no bird" and is repeated as a regular double to determine the results of both shots if the first target is hit or both are hit. After two occurrences of this kind in the same round the 3rd attempt on the double the result on the first target will be scored as "DEAD" or "LOST" and the second target will be recorded as "LOST".
- b) If the shooter breaks both targets of a double with the same shot, the double will be declared "no bird" and repeated. The shooter is allowed two (2) attempts on one station. On the third attempt if the same situation occurs, the double will be scored "DEAD AND LOST".
- c) If in shooting at a regular double, the shooter misses the first target and accidentally hits the second target with the same shot, he will be scored "lost" first target and shoot again at a regular double to determine the result of the second target.

The shooter is allowed two (2) attempts on one station. On the third attempt if the same situation occurs, the double will be scored "LOST AND LOST".

Chapter 7 Rules of conduct

- 7.0. 1 a) All guns, even when empty, must be handled with the greatest of care.
- b) Conventional double barrel guns are to be carried with breech open, and automatic guns with breech-bolt open and the muzzle in safe direction, up or down to the ground.
- c) Straps or slings on guns are prohibited.
- d) Guns must be placed in a gun stand.
- e) It is forbidden to touch or handle another competitor's gun without the owner's permission.
- 7.0. 2 a) Sighting is permitted only on the shooting station or on a designated safe area.
- b) Shots may be fired only when it is the shooter's turn and the target has been thrown.

- c) It is forbidden to sight or shoot at another competitor's targets.
- d) It is also forbidden to willfully sight or shoot at live birds or other animals;
- e) Test firing of guns may be done on the range prior to the beginning of a series or course only with the permission of the Referee.

7.0. 3 Cartridges must not be placed into any part of the gun until the shooter is standing on his station facing the traps with the gun pointed to the flight area and the Referee has given permission to load.

Magazine guns must be blocked so that it is not possible to place more than one cartridge into the magazine at one time.

7.0. 4 The shooter is not allowed to turn from the shooting station before his gun is opened. When an irregular target is thrown or the shooting is interrupted, the guns shall be opened. No gun shall be closed until the order to continue has been given.

7.0. 5 In the event of misfire due to any reason, the shooter must remain standing with the gun pointed to the target flight area without opening the gun or touching the safety until the Referee has inspected the gun.

7.0. 6 Competitors must not cause any interruption of the shooting other than those allowed in these regulations and shall restrict their conversations to calling for their targets, reporting "ready", or signify a protest, and answering the questions of the Referee.

7.1. 1 The shooter must not close his gun before the next shooter on his left side is ready to fire.

7.1. 2 All guns must be carried open when moving between station 1 and 5, and must be carried open and unloaded when moving from station 5 to station 1 (6).

Chapter 8 Penalties

8.0. 1 It is the responsibility of the shooter to be present on the proper station at the proper time with all necessary equipment and ammunition and ready to shoot.

8.0. 2 If a shooter is not present on the station when his name is called, the Referee will have the shooter's name called loudly three (3) times within one (1) minute. If the shooter does not appear within the three calls, the Chief Range Officer will declare him "ABSENT" loudly. From that moment the shooter declared "absent" he will not be allowed to join the squad and shooting will commence without him. The "ABSENT" shooter will be penalized with a deduction of 3 targets - "3 ZEROS" and may be permitted to shoot the missed round at a time and on the field decided by the Chief Range Officer but will maintain the "3 zeros" penalty. The penalty, to be deducted from the results of the make-up round.

8.0. 3 A competitor declared "ABSENT" (Art. 8.0.2) must present himself before the Chief Range Officer to obtain permission to shoot the missed round before the end of the series, on course he has missed. Failure to do so will result in his exclusion from the competition.

8.0. 4 If the shooter uses guns or ammunition which are not in accordance with articles 2.0.2 - 2.1.1 - 2.2.1 all shots fired with such guns or such ammunition are to be counted as misses. If the Jury finds that the shooter has committed such transgression deliberately, it may exclude him from the competition. If, however, the Jury finds that the shooter could not reasonably be aware of the fault and that he, through the fault, has attained no essential advantage, it can decide to approve the shooting results, provided that the fault is corrected upon the decision of the Jury.

8.0. 5 If the competitor leaves his group for one the reasons cited in Art. 6.0.10 or for other reasons specified in these regula-

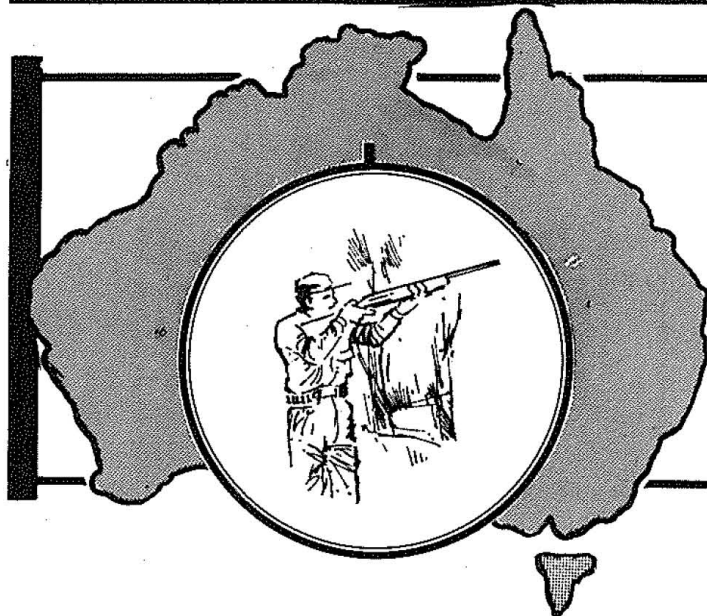

tions, a penalty of one target shall be imposed for each interruption and he shall be permitted to shoot the remaining targets at a later time.

- 8.0. 6 If the shooter leaves his group during a series of 25 targets, interrupts his shooting without one of the reasons cited in these regulations, or without a reasonable motive accepted and approved by the Referee, all the remaining targets of the series will be scored as misses – "zero". Unsportsmanlike conduct or serious infringements of the rules of conduct can cause the shooter to be excluded from the competition upon decision of the Jury. (See Art. 8.0.8)

8.0. 7 All other infringements to these Regulations which are not included in the preceding articles 8.0.2 – 8.0.4 – 8.0.5 – 8.0.6 or the specific rules, will be cause for a warning to be given the shooter who has committed them for the first time. The subsequent occurrences during a 25 target series will be penalized by one miss each.

8.0. 8 Unsportsmanlike conduct or deliberate attempts to evade the spirit of these rules may incur a warning, a penalty, or elimination from the competition based upon the decision of the Jury or the "Jury of Appeal" if one has been appointed for the competition.

SHOOTERS SUPPORT "LEGACY"

by John Gordon

• Richard Howell receives vouchers for Kangaroo Island trip from John Gordon, Manager/Partner Waikerie Travel Centre.

On Sunday 8th November over 50 Clay Target Shooters turned out to support the Waikerie Field & Game Club for their Annual Legacy Shoot. Shooters came from as far afield as Adelaide and Broken Hill as well as all Riverland Towns. In spite of several other major sporting functions being held in the town the same day the shoot was also reasonably supported by the public.

Shooting commenced at 10.00am with a 10 Target Points Score, which was ably won by Richard Howell (Waikerie) after a shoot-off against Ben Murphy of Broken Hill and Jim Green (Barmera). It was the start of a good day for Richard as he went on to win the 20 Target Double Barrel event after a record breaking shoot-off. In this event eight shooters returned a perfect 20/20 score, they were R. Howell, P. Caddy, P. Winzen, I. Maywald, M. Burnell, D. Freundt, R. McNamee and T. Shaddock, all except Howell and Caddy had been eliminated by the 33rd target, then it was the most exciting and longest shoot-off ever witnessed at the Waikerie Range, it was neck and neck with Peter Caddy dropping a few first barrels and bringing off some remarkable second shots to keep up with Richard Howell, the crowd were kept on their toes with OOh's, and Aaah's, until Peter Caddy finally missed

his 71st target giving the event to Richard. The winner received vouchers for a 2 day Trip to Kangaroo Island with the Compliments of the White House Motel at American River and Airlines of South Australia. The presentation was made by Mr John Gordon, Partner manager of the Waikerie Travel Centre on behalf of the sponsors.

The 15 Target Legacy Shield Points Score again saw a good shoot-off, two shooters tied with 45/45, Bob Dower of Adelaide and Mal Trout of Renmark, they finished with Dower taking the shield with an excellent 60/60, The O. E. Bradtke Skeet Championships brought 7 shooters into a Shoot-off, all had recorded a perfect round of 25/25, they were I. Jones (Loxton), W. Fisher (Loxton), P. Caddy (Barmera), Robert Maywald, and Dennis Pfeiller (Waikerie), T. Shaddock (Renmark) and B. Murphy (Broken Hill).

The shoot was finally won by T. Shaddock with 37/37.

Trevor Shaddock was the most constant shooter during the day, taking off the Eddie Traeger "High Gun" trophy, a magnificent Silver Coffee set with an excellent score of 70/70, best Register Shooter in the High Gun was Richard Howell with 69/70, Best Lady was Rita Maywald with 55/70 and best Under 8 was G. Trout of Renmark with 58/70.

There was sufficient time for an extra event to be shot and this was a 15 Single Barrel which was shared with R. Dower and R. Maywald with 15/15.

During the day the R.S.L. members under the "control" of veteran Ted Griffin, kept things moving with their spinning wheel and the ladies served a very nourishing soup and barbeque lunch as well as afternoon tea.

The weather was perfect and this was a contributing factor to seeing some of the best shooting ever seen at the range.

When making the presentations the Clubs president, Mr Robert Maywald thanked all who had assisted in any way and especially the trophy donors, the cooks and the ladies. He then asked one of the visitors to draw the raffle and this was won by little Tanya Gruzlewski, with Brian Smith second and Bruce Leak third.

PORT AUGUSTA GUN CLUB

COMMONWEALTH BALL TRAP CHAMPIONSHIP

Saturday & Sunday March 6 & 7, 1982

200 TARGETS —

100 EACH DAY

COMMENCING 9am EACH DAY
PRACTICE 2pm-5pm Friday March 5,

NORTHAM & DISTRICTS GUN CLUB SHOOT

The 1981 clay target season closed on Sunday on a high note with 40 shooters competing in 100 target event, this was followed by the presentation of the year's trophies and a barbeque tea.

Doug Morgan was Top Gun for the day with an excellent score of 99 out of a possible 100, which gave him the 'B' Grade trophy.

Merv Madew won the 'C' Grade section, and also the overall handicap trophy, completing the day with an adjusted score of 111, while the ever persistent Roy Holtfreter turned in a 98 off the gun to win the 'A' Grade trophy.

David Kevill at the presentation received his triple award for the year, the only shooter in the 25 year history of the Northam & Districts Gun Club to do so. He won the Aggregate, High Gun award, the Aggregate Handicap and the Champion of Champion events.

• David Kevill with Mrs. Bristow-Stagg.

ANNUAL NORTH EAST REGIONAL SCHOOL CHAMPIONSHIP

• L to R — Mrs. Audrey Thomas, Bill Bowran, Mark Gruber, Heather Yellard and Mr. Chas Whitla.

This year, by tradition, Wangaratta Gun Club played host to the 20th North East Regional School Boys/Girls ELEY Target Championships.

ELEY Ammunition, as always, sponsored the shoot with the supply of clay targets and cartridges for the students.

The championships were keenly contested with the student shooters putting into effect the hours of practise they had spent at their respective school layout prior to the Championships.

Wangaratta Gun Club must be congratulated in the way the committee and ladies worked to make this annual event successful. The Ladies' Committee worked extremely hard and the food was excellent.

This year saw a number of notable guests, including Mrs Audrey Thomas, wife of the late Newton Thomas. Mrs Thomas gave a wonderful speech, and it was really good to have her at the Championships. Noel Southey, formerly Executive Director of the A.C.T.A., now Administration Manager of the Confederation of Australian Sport, presented trophies.

At the wind-up of the day's Championships, National ISU Skeet team members, Graham Boyd and Ian Hale, gave a demonstration on skeet shooting; this was enjoyed by all.

The school boy/girl shooting program is a very important area within the shooting sports, and is primarily designed to improve young people's outlook towards gun safety and handling, respect of property and adequate skill to enjoy their chosen sport.

The main instigator of School Boy/Girl shooting is Chas. Whitla O.B.E., and Chas is to be congratulated on 20 years of involvement. Chas, I feel very sure, is going to make the 21st Annual Shoot one to be remembered next year.

• Enthusiastic crowd at the North Eastern Regional School Boys Championship.

The teachers from all schools are very interested in the junior shooting program, and work extremely hard to improve the students' performances at their respective schools.

All in all, a very successful day, congratulations to all students on their behaviour and shooting ability.

Results:

HARRY FOSTER TROPHY: New Boys' Team, Wangaratta Tech. 30/50

CHARLES BEHRENALT TROPHY: Old Boys' Team, Wangaratta Tech. 39/50

HARRY JAMES TROPHY: Champion New Boy Mark Gruber, Wodonga Tech. 7/10

• Eley's Geoff Kilgour and Chas Whitla with New and Old Boys Team.

• Mrs. Audrey Thomas with Champion Old Boy Bill Bowran, and Champion New Boy Mark Gruber.

DENIS COMENSOLI TROPHY: Champion Old Boy Bill Bowran, Wodonga Tech. 14/15

MISS OLHOLM TROPHY: Champion Girl Heather Yellard, Wangaratta Tech. 5/10

Champion Reg. Shooter Robert Clark, Wangaratta Tech. 8/10

HIGH GUN TEAM: Wangaratta Tech. 35/50

SHOOT CANCELLED

KYNETON GUN CLUB

SUNDAY MARCH 14, 1982

due to Duck Opening

CLUB SECRETARIES & SHOOTERS PLEASE NOTE:

FROM JANUARY 1, 1982, all competitors registering for the first time will be placed on 14 metres. At the same time all registered shooters who are forward of 14 metres will be moved back to that mark, and these will be subject to the normal effects (forward or backward movement) of the handicap formula. Due to computer error a number of 1982 Registration cards were sent out with 11-13m handicaps. Please correct.

Q.C.T.A. NORTHERN ZONE COACHING SEMINAR

by Bev Grice

State Coaching Director Bill Stevens, Gerry Chizzotti and Bev Grice flew to Cairns for the Northern Zone Coaching Seminar conducted at the Cairns Gun Club on the 24th & 25th October 1981.

Club members Doug James & Warwick Keen met us at the airport on our arrival and drove us to our motel, along with club coach Keith Joyce from Mary Kathleen.

On Saturday 24th the seminar was officially opened by Mr Alan Poulton the N. Zone President, who thanked coaches for their attendance, and also the interested shooters who also attended. He then called on Tom Comerford (N. Zone Coach) to chair the seminar.

Tom introduced Bill Stevens, Gerry Chizzotti and Bev Grice to the audience, and then commenced the seminar with a presentation of club coach badge and certificate to Mr Peter Hutchison of Weipa. The A.C.T.A. Coaching slides were then shown, and following this a general discussion took place.

Arthur Kenna was then called on to address the coaches on "HOW TO GET THE MESSAGE ACROSS" Arthur explained that Overhead projectors were extremely useful, and he recommended that coaches who were running club seminars should utilise this type of aid.

The following coaches were due to be examined for accreditation:— Peter Bell (Charters Towers); Bob Simpson (Cairns); Peter Stockwell (Cairns); Keith Joyce (Mary K.); So Tom called on these coaches to give impromptu lectures on SAFETY: RELOADING: STANCE: GUN FIT: POINT OF AIM: The coaches I'm pleased to say handled these lectures very capably.

After lunch using material supplied by Brian Nettleton Bev gave an address on "HOW TO COACH", using transparencies on the overhead projector. Following this Bill Stevens gave an address on MENTAL APPROACH, which led to many questions at its completion.

Gerry Chizzotti closed off the Saturday afternoon session with some taping of the on the tracks practical experience, and replayed this back through the T.V. which the club had organized. On Saturday evening the Cairns members had organized a boat cruise on the "Trinity Queen", and from the looks of some of the fellows next day, it was a real BOOZE CRUISE.

On Sunday morning while Gerry was filming the coaches practical coaching of novice shooters, Bill Stevens gave a comprehensive lecture through the Coaching Manual for 8 new club coaches. During the course of the morning coaches were given an opportunity to use the A/V equipment under Gerrys instruction, and this led the Northern Zone coaches to recommend that they purchase this type of equipment for use in their zone.

The weekend ended most successfully, and the Q.C.T.A. wishes to Thank the Cairns Gun Club members for their hospitality, the coaches for their attendance and attention throughout the weekend, and finally the S.E. Zone for their loan of the A.V. Equipment and Gerry for his time. A big thank you must also go to Mrs Sandra Wade of Townsville who drove us to and from the club during the weekend.

STUDENT COACHING SEMINAR AT SUNSHINE COAST

by Bev Grice

On Saturday the 17th October 1981 15 of the students who do clay target shooting for their outside sport from the Caloundra High School, attended a coaching seminar organized by club coach Barry Grice in conjunction with the S.E. Zone Coach Stafford Smith.

S.E. ZONE President and secretary, Gerry & Josie Chizzotti also attended bringing the audio visual equipment. Stafford commenced the seminar with a talk back session on SAFETY, using any type of firearm. Following this question answer session the boys were taken onto the tracks and given individual coaching taking particular notice of each students individual problem and by using the A/V problems were pointed out to the students and correct methods explained.

Following lunch, the students were then shown how to reload the cartridges and given the safety rules pertaining to this. Each student then loaded some cartridges while others continued their practical coaching on the tracks.

Mr Bob Dupuy of Winchester Australia donated cartridges for use by the students in the first QLD STUDENTS EVENT, which was sponsored by Winchester, Bob Dupuy had donated three small trophies for 1st, 2nd, 3rd place in the competition between the students.

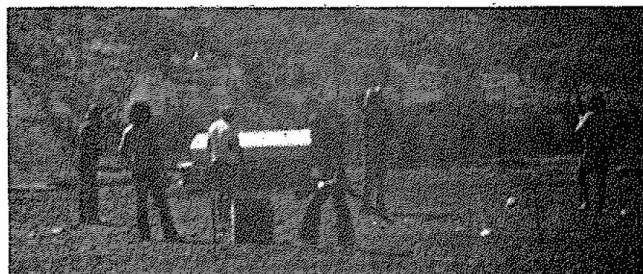

The winner was Colin Finlay, and following a shoot off 2nd place went to Andrew Grey and 3rd to Jon Postle.

This competition will now become a yearly event conducted on a postal system throughout Queensland Students, and will be sponsored by Winchester Australia.

Club coaches are urged to advise the State Secretary of schools in their region who will be participating in 1982.

This has been a great experiment, there are now three more members shooting regularly at the Sunshine Coast Gun Club, the students appreciated the help and advice given and the Coaches who attended were satisfied that it was a day well spent.

EDITOR'S MAILBOX

•Gunpowder Gun Club in 1977. White Rocks mark the firing points on the rough tracks.

Dear Ian,

May I use the pages of C.T.S.N. to express my feelings towards the reformation of the Gunpowder Gun Club.

Being one of the original members in 1977, it is a great pleasure to see this club get going once again. Hopefully, in the New Year, I shall be able to enjoy the benefits of the new ground. No doubt it is a great improvement on the old one. The metrages then were marked with white rocks and as for the lanes, well, rather uncomfortable as can be seen by the photo.

Good luck to those now involved in this great sport.

Yours faithfully,

Robert C. Lotz,
8 Bell Street,
BOONAH Q 4310

GLADSTONE GUN CLUB

by Tony Coronas

• Former Gladstone President Jim Wharton on Left, up and comer Barry Thompson, with Central Queensland 1982 Nurse of the year entrants Patricia Laundry and Sue Jenkins.

Shooters, to a lot of people, are often regarded as second class citizens and through ignorance are often treated with some suspicion.

On November 29, The Gladstone Gun Club did its bit to demonstrate to the general public, just what clay target shooting and responsible use of firearms is all about.

In what must go down as the biggest promotion in the history of the club, the 1981 Gladstone Gun Club Combined Charities Shoot was held.

In the past, the club has staged small shoots for various charities in the area. In July this year it was decided to explore the feasibility of involving more than one beneficiary and promote one big day for the year, instead of the usual two or three.

The charities involved were the local branch of the Queensland Ambulance Transport Brigade, The Gladstone Central Committee on the Aged and the Queensland Cancer Fund who took the opportunity to use the day to launch its 1982 Nurse of the Year quest campaign.

Gladstone Gun Club undertook to run the shoot and enlisted the aid of the charity service groups to provide catering, refreshments and childrens entertainment. The Ambulance has it's own very effective auxillary committee, the Committee on the Aged has the services of the Port Curtis Lions Club and the Gladstone Apex is committed to the Queensland Cancer Fund.

A special program was drawn up, with the novice shooter in mind, with safety and efficiency being the prime objectives.

Three ten target single barrel events were programmed and the club provided a gun, ammunition and a registered shooter for each competitor.

As a result of co-operation from the local press and a magnificent gesture from local commercial television station, RTQ 7, who ran a 30 second commercial each night for 15 days before the shoot, free of charge, and an equally magnificent gesture by Channel 9, Brisbane in providing the actual film, 185 novice shooters and some 400 spectators experienced clay target shooting for the first time.

In conjunction with the program, the club invited local firms to participate in a special team challenge and nominate a team of five of their staff to represent them. This section proved to be a big draw card with 22 teams having paid their nominations before the day.

Of course, the success of the day hinged on the actual ACTA members being there to do the work and it was very gratifying to see some 60 members from Gladstone, Rockhampton, Biloela and Central Burnett Clubs in there getting it done.

A very special thanks must go to the local CIG branch who provided a trophy, a team of novice shooters and 200 sets of ear plugs for the use of the competitors.

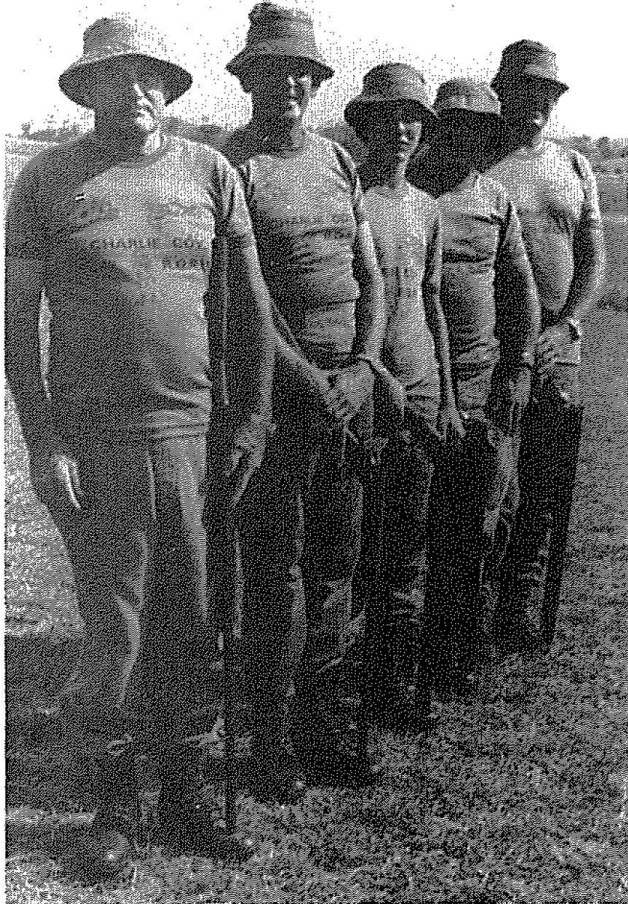

Rockhampton and Yeppoon Nurse of the Year entrants also became involved and brought their own teams with them.

Cont'd over page

Cont'd from page 63.

Of course, it wouldn't be a shoot without ACTA events and 40 targets were programmed for the club members, which gave the novices the opportunity to see some 'Backmarkers' in action.

In all, a great day was had by everyone and some \$1,600.00 was raised for the charities, with a lot of people realizing clay target shooting was fun and the ACTA actually picking up some new members.

• Local Army Reserve Charlie Coy 42 RQR. Winners of Novice Teams Event.

• Ladies novice high gun winner, Christine Scali is "gently" helped into position by Gladstone member Maurie McCarthy.

• Each "novice" shooter had a coach. Jim Wharton helps local builder Graham Tobin to find a target.

REMEMBER

ALICE SPRINGS GUN CLUB

will be holding their

ANNUAL EASTER SHOOT

Also while in the Centre take in the Casino and the breathtaking scenery around Alice Springs.

Further details will be in the next Shooters News.
