**High Rib and  
Split Barrels**

MODEL 6000  
TRAP  
GRADE 1

**\$890**

... give you a  
**winning  
advantage**

High floating rib is the latest technological advance towards higher scoring. The 6000 TRAP gives you a superior sight picture because the raised rib keeps your head erect and your eyes naturally centred. The greater comfort means better concentration, which makes targets easier to pick up and break.

In the heat of a shoot off the 6000's raised rib expands independently of the barrels and your point of aim is not altered by expansion.

**Many top U.S.A. shooters have changed to  
high or very high ribs for these well  
proven advantages.**

MIROKU 6000 TRAP GRADE 111 **\$1190**

MIROKU 6000 TRAP GRADE V **\$1490**

# Sierra

## The Bulletsmiths™

# ELEY

Sole Australian Agents

For over 30 years shooters have associated accuracy and superior ballistic performance with one name more than any other—Sierra. On the range or in the field Sierra bullets offer that extra margin of performance that shooters can depend on.

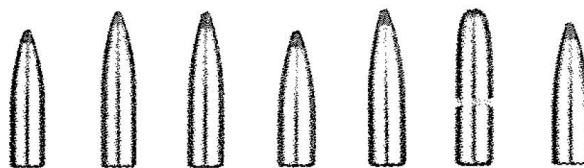

### HUNTING

A trophy animal in a hunter's sights for that once-in-a-lifetime shot . . . bullet performance is the critical factor. Sierra GameKing and Pro-Hunter bullets offer that critical extra margin of performance which can make the difference between a successful hunt and wasted trip.

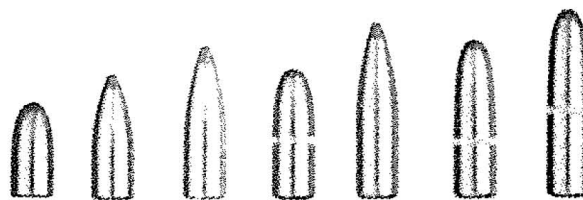

## The Sierra Pro-Hunter. —

For hunting medium and large game at normal ranges, Sierra Pro-Hunter bullets are the choice of serious sportsmen.

Traditional, flat base design has been skillfully blended with Sierra's world famous accuracy. Custom tapered jacket design helps assure maximum expansion, optimum weight retention, and deep penetration for game stopping, one shot performance.

### ● Front Cover

"Mayor for a Moment". The Mayor of Carlisle, Councillor Donald Fell, parted with his chain of office just long enough for Bill Iles to be Mayor for a moment. They were photographed at the International Banquet which followed the Home Countries International Series at Carlisle and District Gun Club, Kirkbride, Cumbria.

Photo David Lindsay.

### Contributions:

Club or shooter contributions are welcome, either manuscript or photographs, or both. Preferred photos are black and white glossy prints.

## EXECUTIVE DIRECTOR'S NOTES

I am very sorry to report that the Parents of Doctor Paul Cains were tragically killed in a car accident in Tasmania recently. The thoughts of us all are with Paul and his family at this time.

\* \* \*

During my recent visit to U.K. with the Trap Team, some very useful meetings were held with the International Council of the U.K. Associations and the C.P.S.A. The major point, to emerge from these meetings was the agreement to conduct postal competitions for ladies and juniors along similar lines to the Mackintosh Team Shoot. Details are reported elsewhere in this issue. I am very hopeful that a U.K. team will visit us for our National Trap Championships in Adelaide in 1983. Many shooters from England, Ireland, Scotland and Wales expressed an interest in coming to Australia to compete, as did the controlling body.

\* \* \*

Down the Line shooting in U.K. differs in some ways to our practices in Australia. Traps are set to throw targets between 50 and 55 yards, i.e. 46 to 50 metres. Angles are set at a maximum of 22½° either side of the centre line. A staff of four looks after each layout, these are trapper, button pusher, referee and scorer. The standard of button pushing is very high, each team in the Home Countries International having its own specialist to push the button for all of its squads. The referee's task is simpler as he only has to worry about watching the target in flight and calling the result. Points scoring is used for almost all Down the Line shooting, with shooters moving from track to track after each has shot five targets from each track. This certainly speeds up shooting with squads averaging twelve minutes for each round of 25 targets. Events generally are conducted over 100 targets even in club shoots, anything less is unusual.

Enjoy your shooting  
IAN C. HILL  
Executive Director

# AUSSIE TRAPSHOOTERS' GREAT PERFORMANCE IN CARLISLE

Overseas Correspondent

• Pictured at the International Banquet, standing L. to R., Roy Greator, president C.P.S.A., Henry Matlocks top English shot, Bill Iles, Stanley Hope chairman Carlisle Club, Peter Page C.P.S.A. Director, Peter McGlasson Carlisle Club Committeeman, Larry Dimasi, John Aston Welsh C.P.S.A. President. Seated L. to R., Kevin Perkins, Pud Burgess, Ian Hill.

## "ONE POINT SEPARATES SCOTS & AUSTRALIANS AFTER 400 TARGETS"

The 1982 U.K. Trap Team left Melbourne on Friday July 9 on board THAI International Flight TG 982 bound for Bangkok and London Via Delhi. Team members Bill Iles Melbourne, Larry Dimasi Mildura, Pud Burgess Cobar, and Kevin Perkins Illawarra, had gathered in Melbourne on the Thursday for a final workout at Melbourne Gun Club. Our thanks to President Bob Buchan for the use of the facilities at Melbourne together with the donation of practice targets. Winchester Australia had also very generously donated

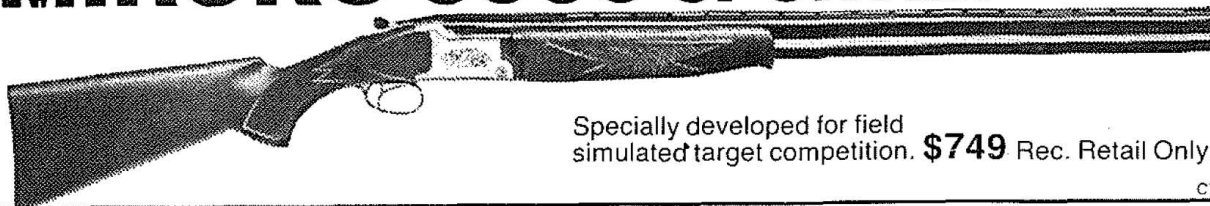

cartridges for team practice at Melbourne and for competition use and training in U.K.

The Association's International Sub-Committee entertained the team at dinner prior to departure on the Thursday evening.

The party travelled very well, Pud Burgess being asleep before we had reached Seymour, and "Perky" waking each time food or other refreshments were mentioned. Larry Dimasi smiled all the way to London, while Iles and Hill averaged one hours sleep. Of course they had smaller seats than the others.

We know it's the best holiday value, now find out for yourself.

 **air new zealand**

\*All packages are subject to 30 day advance purchase requirements.  
\*All details are correct at time of printing

## AUSSIE TRAP SHOOTERS

Cont'd from page 4

• On the Tracks Carlisle and District Gun Club, Front to Back, Larry Dimasi, Bill Iles, Pud Burgess, Kevin Perkins.

Ford Australia had arranged for the use of an Australian LTD whilst in England. This was delivered at Heathrow Airport, where the team set off for the 320 mile drive to Carlisle. A couple of pit stops for fuel, a lunch break and we were in Carlisle just 5½ hours after leaving London. Motorways M1 and M6 made the going easy, as did Bill Iles's capable driving and Hill's navigation.

The Chairman, President and Committee members of the Carlisle and District Club met us on arrival at our hotel and made sure we were settled in.

On Sunday, the Carlisle Club conducted a 100 Target event. Despite jet lag and lack of sleep the team were keen to get to grips with English targets and decided to enter this competition.

The Carlisle Club is situated about 12 miles west of Carlisle at Kirkbride, very close to the shores of Solway Firth. We had heard that the wind came up with the tide, and that conditions could alter dramatically during the day. Being sited on an airfield the land is flat and background good for shooting Clay targets. At the end of the day Kevin Perkins and Bill Iles had shot 291-300 points to finish in equal 6th place. Not far behind were Pud Burgess and Larry Dimasi. This was a good performance under the circumstances and gave the team a chance to see some English Targets.

This 100 Target event began at 11 a.m., was finished by 5 p.m., and only two traps were used. Entries numbered over 100 and squads took just 12 minutes to shoot 25 targets moving from track to track after 5 targets. This method certainly speeds up shooting. The weather was cool and overcast, and the light fair, black targets were used.

The Management of the Carlisle and District Club had arranged for the team to practice on the Monday, Wednesday and Thursday, prior to the competition on Friday and Saturday. This was very much appreciated by all, and ensured that everybody was at their peak for the big events. An average of 100 targets was shot by each team member in each training session, they all found the Winchester Trap 100 shells to their liking. These are manufactured in Italy.

On the Thursday evening prior to the International Teams Match, Ian Hill attended the International Council Meeting of the U.K. Associations. The A.C.T.A. had suggested that a postal competition should be conducted for ladies and junior teams, along similar lines to the Mackintosh competition. All countries agreed readily to this suggestion which will begin in 1983. It was agreed that teams of 5 ladies and 5 juniors should shoot at 100 targets, with all scores to count. Juniors will be those under 18 years when the event is shot.

An invitation was issued to each country to send a team to our Nationals in Adelaide in 1983, failing that a composite team would be welcome, made up of shooters from England, Ireland, Scotland and Wales. This invitation created a lot of interest and is almost certain to be accepted.

Earlier this day the team had been given a Civic reception by the Mayor of Carlisle, Councillor Donald Fell. We were made most welcome and were conducted on a tour of the Civic Centre. 1982 is the 1900th Anniversary of the founding of Carlisle as a civil settlement and is commemorated by the minting of a special coin in bronze. All team members were presented with one of these medallions. We had great pleasure in investing the Mayor as a member of the Royal Order of the Kangaroo, and presenting him with a Bannerette to mark our visit. His hospitality was excellent and was curtailed only by our need to practice later in the day. This visit was featured on Border Television and BBC Radio Cumbria.

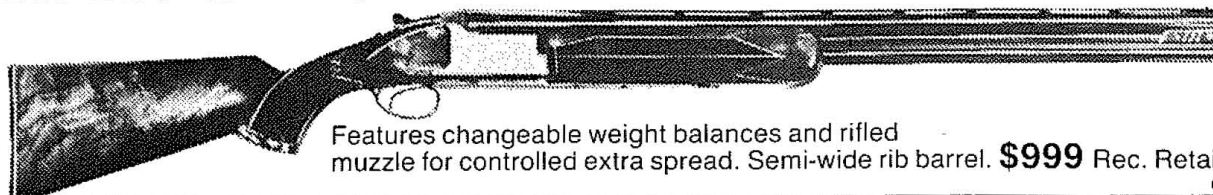

Friday dawned fine and clear with a strong wind blowing from behind the shooters. All was in readiness for the conduct of the Four Man Team's Match for the "Van Diemens Trophy". It was shot in conjunction with the International Team Match between England, Ireland, Scotland and Wales.

• L. to R., our button pusher Malcolm Brown, referee Peter McGlasson, scorer Stanley Hope.

## AUSSIE TRAP SHOOTERS

Cont'd from page 6

With the wind from behind, the targets were dipping and had to be watched carefully. The Australian team shot in a squad of four, our button pusher throughout being Malcolm Brown, a member of the local club who had assisted us greatly during training.

Everybody was keyed up ready to start, just the right amount of butterflies to produce a good performance. At the end of the first 25 targets Australia led with 298/300 points, Iles and Burgess clean, Perkins and Dimasi pulling a second barrel each. Ireland were in second place on 295, Scotland 293, England 284 and Wales 283.

Round Two was not so good for Australia, Iles and Burgess put together two more very good 75's while Perkins shot 72 and Dimasi 70. This gave us a total of 590, one point behind Scotland on 591, Ireland 585, England 570 and Wales 560.

After a break for lunch and gathering of thoughts it was into Round Three, Bill Iles again shot a brilliant 75 as did Larry Dimasi, Pud Burgess pulled one second for 74 and Kevin Perkins dropped two points for 73. This totalled 887/900 and tied Scotland with one round to go. Ireland was on 878, England 864, and Wales 851.

The wind was still blowing strongly from behind as the team approached the tracks for the last round. Tension was high, and faces were drained of all colour as concentration took over for these last vital 25 targets. Again it was Bill Iles who shot a brilliant 75, he was joined by Kevin Perkins, the small figure working so hard for Australia, while Larry Dimasi pulled a second for 74, with Pud Burgess on 72.

And so it was over with Scotland winning the Van Diemens Trophy by one point 1184/1200 to Australia 1183. Ireland 1168, England 1159 and Wales 1147.

• "Perky" prepares to call for a target, during training in Carlisle.

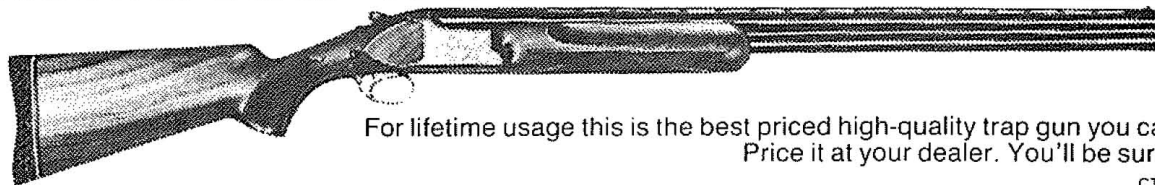

• Pud Burgess and Kevin Perkins at Team Headquarters, The Crest Hotel, Carlisle.

• Team transport, Ford Ltd. complete with Australian flag.

• The Mayoress of Carlisle, Mrs Donald Fell presents the Van Diemens Trophy to Scotland's Captain Jim Stafford.

Individual scores for the Australian team were as follows:

W. Iles	75	75	75	75	300
A. M. Burgess	75	75	74	72	296
K. Perkins	74	72	73	75	294
L. Dimasi	74	70	75	74	293
Total					1183

To average 295.75 points was an excellent performance, shooting 397 out of the 400 targets. This was the same as Scotland who pulled one less second barrel to win by the odd point. All had shot well throughout a day when conditions certainly were not easy. The team were a shade disappointed that they had failed by the narrowest of margins to win the van Diemens Trophy. The Manager however was proud of them all as they had shot their hearts out for Australia. On reflection it was probably not a bad thing politically to leave the Trophy in U.K. for 2 years.

Bill Iles was the toast of the Australian camp after his brilliant 300 points, matched by only one other shooter on the day, the Scottish Captain Jim Stafford.

With the Australian flag proudly flying from the LTD, we headed back to our hotel to shower and prepare for the International Banquet in the evening.

This was a glittering affair, with the Mayor and Mayoress of Carlisle attending as guests of the C.P.S.A. Mr Roy Groatorex, President of the Clay Pigeon Shooting Association was host for the evening, more than 400 people being in attendance. All competing team members wore blazers, the like of which the Australians had not seen before. Some were almost covered with badges and pockets won in International competition, a very colourful sight.

The results of the Mackintosh postal competition were announced during the evening. The Australians were hopeful of winning yet again but for the first time in nine years it wasn't to be. Results were as follows:

1st	New Zealand	7366/7500
2nd	Canada	7359
3rd	Australia	7348
4th	Scotland	7312
5th	Ireland	7288
6th	England	7234
7th	South Africa	7212
8th	Wales	7113
9th	Zimbabwe	6985

## GUN CARE MADE EASY

Gun club members throughout Australia will welcome the arrival of a new easy-to-use cleaning, oiling and anti-rust compound.

Called CRC Guncare, the compound is available in aerosol cans and one litre bulk containers.

CRC Guncare ensures efficient operation and prevents rust, lead and salt residue. It will provide lubrication for all moving parts, does not become tacky and will give free operation of the weapon even under severe climatic conditions.

CRC Guncare has been approved by the U.S. Department of Defence for the maintenance of automatic weapons. It is simple to apply. Can be used on all metal and wooden parts of the gun.

The bore can be cleaned by using a pull-through patch and the wooden stock by using a lint-free cloth.

The bore must be wiped dry before using.

CRC Guncare is safe to use on a variety of weapons including hunting rifles, target pistols and shotguns.

• Ian Hill reading letter of greeting from A.C.T.A. National President Laurie Connors at International Banquet. On left C.P.S.A. President Roy Greatorex.

Ian Hill made a presentation to the President of the C.P.S.A. Mr Roy Greatorex of an inscribed pewter tankard on behalf of the A.C.T.A., and also read and delivered a letter of greeting from National President Laurie Connors. A.C.T.A. Bannerettes were presented to the Captains of all teams who had competed for the Van Diemens Trophy. This trophy was presented to the Scottish Team Captain by the Mayoress of Carlisle Mrs Donald Fell. Peter Page, the Director of the C.P.S.A. had previously spoken about the Van Diemens Trophy, described the significance of it and thanked Dr Paul Cains for his generous donation. It is now perpetually a part of the Home Countries International, and will be shot for each Two years.

The formal part of the evening over, guests enjoyed themselves mingling and dancing. Much swapping of ties and badges goes on and our stock of 500 kangaroo pins was soon exhausted

Three hundred shooters faced the starter for the British Open on the Saturday. This was to be shot over 100 targets, again points score. Six traps were in use as shooting got underway at 8.30 a.m. Again the Australians were squadded together and made the first visit to trap "B" at 11 a.m.

When it was all over 3 shooters had shot 300 points. Among them was Jim Stafford, the star of the Scottish team the day before. A further 25 targets were shot in the shoot-off with Stafford again running them all clean to finish a wonderful series by taking the British Open crown. He had shot 225 targets in two days single barrel and thoroughly deserved his victory.

Kevin Perkins and Pud Burgess were the best of the Australians both carding 298, with Bill Iles 294 and Larry Dimasi 293. It was interesting to note that the combined score

• The stars of the Home Countries International, Scots Captain Jim Stafford and Bill Iles, both shot perfect scores of 100/300.

• Kevin Perkins atop Hadrians Wall, between Carlisle and Newcastle.

## ALL METAL UNIVERSAL CHARGE BARS

MODEL "D" —  
for the MEC 650 and Grabber Models

MODEL "C" —  
for the MEC 600 Jr., 700 Versamec, Sizemaster 77  
MEC 600, 400, 250 and 250 Super Reloaders,  
and the Texan LT, GT and FW Models.

The Model "C" and Model "D" are fully adjustable charge bars for powder and shot, shot capacity from 10oz. to 20z. (with No. 4 low antimony shot) and powder-capacity from 10grs. to 55grs. They come complete with a powder and shot chart with 480 settings for 23 powders. Both Models are for field and target loads, and for all gauges.

### MAJOR CHANGES COMPARED TO PREVIOUS MODELS

1. ALL METAL construction (made of high precision diecast zinc).
2. Definite BOTTOM GUIDE for powder and shot-valves (no floating valves).
3. Highly SIMPLIFIED method to read scales and to adjust knobs.

4. UNIFORMITY of construction: models are completely interchangeable.
5. NEW MODEL INTRODUCTION: There has never been a fully adjustable Charge Bar for the MEC Progressive reloading machines — Now there is! The Universal Charge Bar. Model "D" is made for the MEC 650 and Grabber — Reloading Machines.

The Universal Charge Bars can save you the purchase of many powder bushings and standard charge bars. ALL one needs is one Universal Charge Bar for single stage reloading machines, or one for the progressive reloaders. Each Bar comes with a five year guarantee.

Cont'd from page 12

• The Australian team after shooting 397/400 targets, 1183/1200 points, Home Countries International. L. to R., Larry Dimasi, Bill Iles, Kevin Perkins and A. M. (Pud) Burgess.

was the same as the day before in the team shoot, 1183. In the two days competition the Australian four had shot 795/800 targets, 2366/2400 points. This was a tribute to their ability, dedication and determination to do well for their country.

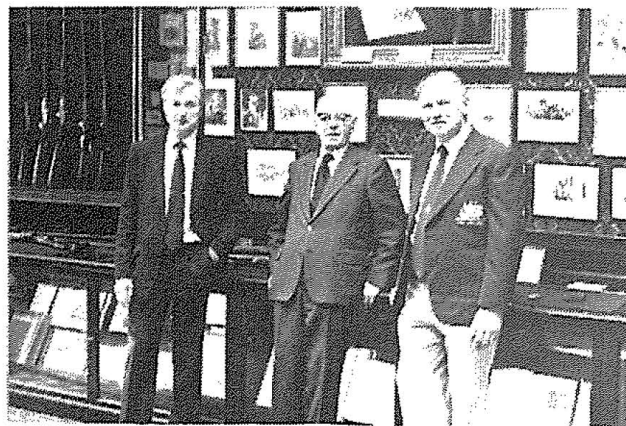

Another fact to emerge from the two days was that Stafford, the Scots star, had never shot 300 points before this tournament. To do it two days in a row was exceptional shooting.

It was time to leave Carlisle to venture south again.

We had all enjoyed the eight days in the Border country and had been looked after very well by officials of the Carlisle Club and the C.P.S.A. Especially kind to us were Stanley Hope, Malcolm Brown, Peter McGlasson, Roy Greateorex and Peter Page.

We had heard that a 100 target Olympic trap event was to be conducted on the Sunday at the North Wales Shooting School at Sealand near Queensferry in North Wales. The vote was to call in and shoot this event on the way back to London. A very pleasant relaxing day was enjoyed by all in excellent weather and surroundings. This ground has four trench layouts and is the venue for the British Grand Prix. Larry Dimasi put together a neat 92/100 to finish in the placings. All shot well and enjoyed the experience.

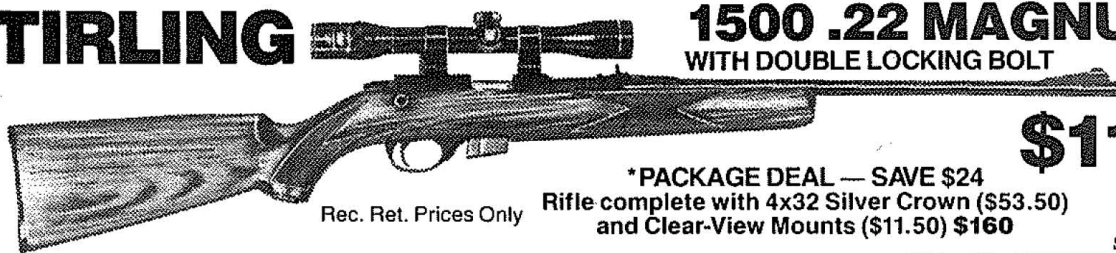

We had an appointment on the Monday morning at James Purdey and Sons, Gunmakers to Royalty. The team was welcomed by Managing Director Mr Lawrence Salter, Mr Harry Lawrence, and Mr Nigel Beaumont. This was a most interesting visit, each one of us spending time in the "Long

• During the visit to the Long Room at James Purdey and Sons in London's West End. L. to R., Managing Director Mr Lawrence Salter, 83 years old Gunmaker Mr Harry Lawrence, Pud Burgess.

• Bill Iles at the wheel of the LTD.

• The Australian team pictured after the Van Diemens Trophy had been won by Scotland, with Malcolm Brown, Peter McGlasson, and Stanley Hope, the three who had helped us so much during our training and competition in Carlisle.

• Olympic Trap Layout, North Wales Shooting School, Sealand.

• Headquarters for the shoot and venue for International Banquet, White Heather Hotel, Kirkbride.

Room" examining exhibits of note and beautiful examples of the Gunmaker's art. We were all surprised to hear that Purdey's are manufacturing only 70 guns per year and that delivery time is approximately 2 years.

It was now Tuesday July 20, and time to go our separate ways. All agreed that the visit had been well worthwhile, and the team performance in the Van Diemen's Trophy match had been first class. We had made a lot of friends and established a base from which relations between the U.K. Associations and the A.C.T.A. could develop.

The compatibility of the team was excellent, so important when five individuals are travelling and living together for a period of time. The A.C.T.A. and Australian Sport can be proud of the job done by Bill Iles, Larry Dimasi, Kevin Perkins and Pud Burgess. They were fine sporting Ambassadors for Australia.

It would be wrong to end this report without thanking Dr Paul Cains for the initial idea for the competition, for donating the Van Diemen's Trophy, and for his early work in arranging uniforms, itinerary and sponsorship for the U.K. Trap Team.

Thank you also to Winchester Australia for the supply of cartridges, and Ford Australia for transport.

# SELECTION PROCEDURE FOR 1983-84 NATIONAL TRAINING SQUAD AND SELECTION OF THE 1983 WORLD CHAMPIONSHIP TEAM.

## To be conducted at Melbourne Gun Club — April 23 to 28

The International Sub-Committee has agreed to the following procedure to be followed by shooters who wish to seek selection.

The International Sub-Committee DEMAND that the rules that have been set down will be adhered to by all States before their shooters can be eligible for selection.

### RULES

- (A) All States to conduct three (3) eliminations of 200 targets in Olympic Trench (15 trap) and I.S.U. skeet. One of those eliminations MUST BE that State's State I.S.U. Championships. In the State of Queensland, approval has been given to conduct two (2) eliminations in the Northern area and two (2) in the Southern area and the third elimination must be the Queensland State I.S.U. Championship. The reason for this is the enormous distance and size of that State.
- (B) All three (3) eliminations for both disciplines must be completed by the end of March 1983.
- (C) Results of each eliminations MUST be forwarded to the National Executive Director, arriving within seven (7) days of competition. Failure to carry out this demand of seven (7) days, the shooters score results will be discarded.
- (D) The National office MUST be informed as to the dates and location of each State's eliminations and all events MUST be advertised in Clay Target Shooting News. State's may advertise each elimination separately or all three eliminations at the one time. Failure to carry out this condition of advertising will result in scores from that State not being accepted.
- (E) The Trench program setting for each State's elimination will be available at the National office two days prior to each elimination. It is the sole responsibility of the States to obtain the program setting.
- (F) Targets to be used for all eliminations must comply with the specifications of requirements of I.S.U. targets as laid down by the U.I.T.

- (G) Shooters who participate in all States three (3) eliminations except Queensland will discard their lowest score. In the case of Queensland where they are allowed under rule A two (2) in the North and two (2) in the South, the following rule is laid down. If a shooter shoots (2) two in the North plus (2) two in the South, his first two scores are the scores that count, plus his State's Championship. He then will be able to discard his lowest score.
- (H) Shooters must average 90% or more in their own State's eliminations before they can be eligible to be selected for the National Training Squad and selection of the 1983 World Championship team.
- (I) All Shooters who comply with Rules must meet on a shoulder to shoulder basis over the 200 target Commonwealth and 200 target National I.S.U. Championships, i.e., 400 targets. Shooters will then be selected on the basis of first past the post. If we only require one, two, three or more shooters, those who finish in the highest order would be selected.
- (J) When arriving at the Commonwealth and National Championships, all shooters who are eligible under those rules as laid down will all commence from scratch.
- (K) A \$5.00 levy will be placed on all shooters at the Commonwealth and National Championships.

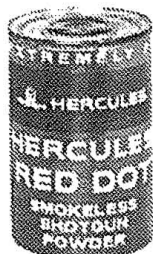

### SPECIAL NOTICE TO ALL I.S.U. SHOOTERS

All shooters are eligible to compete at the Commonwealth and National Championships. They are also eligible to win. Dates for I.S.U. Commonwealth and National Championships:

Saturday 23rd and Sunday 24th April — Commonwealth Championships — 100 targets each day. If unable to be completed on those two days, it will be finalised on 25th April (Anzac Day) in the afternoon.

Monday 26th, Tuesday 27th, Wednesday 28th — National Championships — 75 targets on the 26th and 27th and 50 targets on the 28th.

R. F. BUCHAN  
Chairman,  
International Sub-Committee

# AROUND THE TRAPS

**Sunday 11th July 1982**

A programme booklet meeting and general meeting of the North West Zone gun clubs was conducted at Boort Gun Club. The meeting was well attended with all but three clubs being represented. It was noted that some clubs were falling slightly in shooter attendance at recent shoots. Most clubs presented programmes as had been conducted during 1982, with no noticeable alteration to their future shooting activity for 1983.

The Zone, although not wealthy is in a sound financial position, and will give \$100.00 to its five top shooters, selected at its 1982 Trap Carnival to attend the 1983 Victorian Trap Carnival.

A shoot, conducted by Boort Gun Club followed the meeting and 72 shooters participated in the programme.

**Sunday 25th July, 1982**

I was on my way to Melbourne, and knowing the Wedderburn Gun Club were conducting their monthly shoot I called in for a shot. I was in time to enter the handicap event and assist with the presentation of trophies. Alf James from Maryborough, who maintains he is not as good as he used to be, won the Double Barrel Championship and was also in the shoot off for the Point Score Championship. Alf must hold the record number of championships won by any shooter in Australia. I will try and find out a little of his shooting history, and let you know through this column what he has actually achieved over the years. Alf in my opinion is a great Ambassador for our sport.

**Monday 26th July, 1982**

Attended the A.C.T.A. office during the day, and at night with Executive member Bob Buchan, I attended a Victorian Shooting Sports Council meeting. Delegates representing the various shooting sports agreed the Council should continue, and look after the interest of shooters in firearms legislation. This being so, all affiliates were being asked to contribute funds on a per capita membership basis to allow the council to operate.

**Tuesday 27th July, 1982**

Another day at the A.C.T.A. office attending to items pertaining to our administration.

• High Gun winners, veterans Jack Shellcot, ladies Nanette Meredith, open Trevor Reschke, and junior Paul Seis.

• Mr Tan from Singapore, winner of the Calcutta Handicap, being presented with a memento of his visit, by president of Darwin Gun Club, Bill Horner.

**Wednesday 28th July, 1982**

Received an invitation to attend the Darwin Gun Club Annual and 21st Anniversary Shoot, along with opening of its new ground, situated at the Marrara Sports Complex. With the temperatures so low in Victoria it was no problem for me to board a jet with my wife at Tullamarine and head for Darwin. Northern Territory Executive member, Bill Horner and his wife Pam, met us on our arrival in Darwin. Our first port of call was to view the new shooting complex. It is a magnificent set up, and congratulations must go to those responsible in creating such a ground for clay target shooters to participate in their sport. Shooting facilities consist of four D.T.L. trap layouts, three of which are fitted with lights for night shooting, three skeet and one olympic trench. The trench layout is not complete as yet and awaits the installation of traps etc. only. The Club rooms would be the envy of many other clubs in Australia. It consists of large office space, kitchen, bar area, toilets and showers for both men and women, other rooms for storage and meeting rooms, a large children's play room with toys etc., being provided for their entertainment and amusement.

# Firearms Control

As host of the campaign by the Shooting Sports Council of Victoria to oppose registration of firearms proposals during the recent Victorian State Election Campaign, the Sporting Shooters Association brought world authority on firearms legislation Colin Greenwood to Victoria to speak at a number of public meetings and to speak to politicians and the media.

The following is the paper presented by Colin Greenwood at these meetings. It is published to inform shooters of the effects of registration around the world and the likely "benefits" of such legislation to Victoria.

I am delighted to be able to return to Australia so soon after my last visit but on this occasion I find myself in a delicate situation. Australians do not need outsiders (and particularly what I think you call winging Poms) to tell them how to vote in the coming election. I hope I will not be seen as interfering. It is of no concern to me whether this Party or that is elected.

If I can offer anything it is as an uninvolved and dispassionate observer of the scene who has made a detailed study of gun control issues in various parts of the world and in the U.K. in particular. I hope you will see me as an outside academic offering you information and not as someone interfering in an election issue in another country.

I find it very sad indeed to listen to the arguments which are being put forward. It seems to me that you all have the same stated objectives the politicians of all Parties and the shooters. If everyone is being open and honest about their objectives then all are seeking.

- to help control armed crime
- to help reduce accidents involving firearms
- to reduce vandalism involving firearms.

Everyone is agreed these are desirable objectives and no-one seems to dissent.

All the argument, then, is about methods. You are all agreed about what you want to do but you disagree about how to do it.

What a great pity then, that discussion on how to achieve agreed objectives has to be reduced to a party political wrangle. With great respect to your politicians, an important and very complex subject is being trivialised. It is becoming a piece of dogma to be dealt with on a shallow level. Whatever the outcome of such a debate it can hardly be in the best interests of anyone. If there is to be any contribution towards solving the three problems mentioned it will be found through careful study, dispassionate consideration and the application of logic. These attributes are unlikely to be found in the highly charged situation when attitudes have polarised.

One of things which I find disturbing in the gun control debate is the tendency for people to keep on re-inventing the wheel. You in Victoria do not live on a separate planet. In other States, in other countries or at other times people have been seeking to control the actions of criminals by impositions on the law abiding. Hundreds of different schemes have been proposed or adopted. Various methods of controlling legitimately held guns have been imposed and can be evaluated. We have the results of all that experience. We need not speculate about many of theories. We know what the result will be.

My task is to look at what I am told are the issues in the light of the collective experience of other people and to do so dispassionately and not in defence of some rigid dogma.

The first point at issue is the basic theory that it is necessary or desirable to reduce the numbers of firearms in the hands of the public so as to reduce the numbers available to the criminal.

You can look across the world country to country. You can look across the countries state by state. You can look at one country or state at different times. No matter how you look at the problem there is no way in which any relationship can be found between the numbers of legitimately held guns and the rate of armed crime.

You can find countries with high armed crime rates and high rates of private firearms ownership. You can find countries with high armed crime rates and low levels of firearms ownership. You can find countries with very low ownership and very low armed crime rates.

There is no connection.

Anyone approaching the problem from that angle starts from a fallacy and cannot possibly reach a sound conclusion. It is equally fallacious to assume a relationship between the strictness of gun control systems and the rate of armed crime. That relationship simply does not exist in either the historical or international context.

One can examine a number of examples.

It is inevitable that in this debate someone is bound to quote the situation in America and in particular in cities like New York. Handguns in New York have been very strictly controlled since 1911. The number legitimately owned and registered is very low indeed and it is now practically impossible to own a handgun legally. The Police Commissioner estimates that there are three million illegal handguns in that city and if that is true gun ownership levels in New York are higher than in other parts of the U.S.A. where there is little or no control.

One of the documents produced to support further gun registrations suggests that a recent reduction in gun homicides in Canada is a result of newly imposed strict controls. That suggestion is grossly misleading. There has been no change in handgun control in Canada since 1934. In 1977 a system of firearms acquisition licences was imposed for new purchases of long guns. Existing guns were not affected. There is no registration of firearms. Between 1977 and 1978 gun homicides rose slightly but between 1978 and 1979 they fell by no less than 30. Such changes in homicide figures are common and have occurred all over the world. We are not given figures for crimes such as robbery where long guns feature rarely in comparison to pistols. There is no evidence from the Canadian experience that the proposals relating to the registration of firearms will have any effect in Victoria.

Germany too has been quoted as an example of country where strict gun control has produced a low homicide rate. In contrast with the proposal of the annual re-registration of firearms in Victoria the German shooter's licence is valid for life though permits are needed for new acquisitions of firearms. There is no registration.

## FIREARMS CONTROL

Cont'd from previous page

The example of Japan is often quoted. Guns are effectively banned in Japan and the armed crime rate is very low indeed. Indeed crime of all sorts is rare and is actually falling. Before we assume that strict gun controls and low levels of firearms ownership are the key, we should note studies done of Japanese/American community. They show that despite the availability of guns and other influences, crime rates in those communities equate with those of Japan and not with those of America. This indicates that the key lies in social factors and not in gun control.

Those who say, "Look at America" would do well to look at Switzerland. There, each man is in the army and must keep an assault rifle, a pistol or a submachine gun with ammunition at his home. In addition private gun ownership is positively encouraged and ownership levels are very high indeed. There are effectively no controls and yet Switzerland has the lowest armed crime rate in the Western world.

Sweden, on the other hand, has slightly less access to firearms but gun ownership and use is promoted by the State. Their armed crime levels are rising.

Speaking recently in the House of Lords a Government spokesman Lord Avon said, "The most extensive research has shown that there is no relationship between the numbers of firearms held on firearms certificates and the rate of armed crime." He was right. The link simply does not exist. There is a mass of evidence and a mass of experience but no-one has been able to establish such a link.

It seems to me, therefore, that there is no justification for a policy which seeks to limit or reduce the numbers of legitimately owned firearms.

If you look at the arithmetic you will see why. In England we have possibly two million shotguns in circulation. That is an estimate because we have no registration. About two hundred shotguns would fill the criminal market. Even if there was a link between legitimately owned guns and the guns used in crime — which there is not — the ratio is ten thousand to one. It would therefore be necessary to eliminate ten thousand legitimately owned guns to have some chance of getting at a single criminal gun.

Registration of guns seems to be the central issue. Registration is nothing new and you can make your own judgement of the contribution it would make to controlling crime, vandalism and accidents. There is a mass of experience across the world.

We in England register pistols and rifles but not shotguns. The extent to which the different types of weapon are used in crime does not vary according to whether or not they are registered. Taking robbery as the example, pistols are used twice as frequently as shotguns and rifles feature very rarely.

It is suggested that registration provides the State or the police with information about all the weapons in circulation. One must ask, firstly, why they want that information.

In England we have been trying to register pistols since 1920. Careful research suggests that after sixty years the number of illegally held handguns exceeds the number legally held. After sixty years of trying very hard we only register half the handguns — and that half that does no harm.

I have tried very hard for a long time but I have yet to find a case where registration prevented a single crime or cleared up

a single crime which otherwise might have remained undetected. You would expect that if the system worked its advocates would be able to produce many concrete examples of its success. I have been asking them to do so for many years. None of them can do.

But if registration does no good, what harm can it do?

Certainly in England registration is used by the police as a tool to reduce the numbers of rifles and pistols. People are asked to justify their need for this gun or that and those who have owned guns without complaint for many years suddenly find themselves deprived of them.

There has built up a very considerable anti-police feeling amongst otherwise law abiding citizens who resent what they see as harassing.

It is extremely time consuming and costly. The full cost of a three year 'shooters licence' for shotguns is estimated by the Home Office to be £8. For registered guns it is £20 with an additional £20 for new guns registered during the three year period.

Possibly the worst effect is that it creates criminals. Only half the handgun owners in England register their guns. Those who do not are criminals. But the vast majority do not see themselves as other than honest respectable citizens who have a war time souvenir or who have inherited a family heirloom.

We might perhaps ask those shooters present tonight which of them would register all their guns if it became mandatory.

In my view registration does no good but a tremendous amount of harm.

Annual re-registration is also proposed. This would create a constant uncertainty about whether renewal would be granted and must substantially increase costs. The idea that shooters come from the higher income brackets has been dispelled in England. There was a widely held view that shooting involved Dukes on the grouse moor with the peasants driving birds over them. In fact, shooting is predominantly a working class sport and in England over 60% of shooters fall into that category. I do not know what the situation is in Victoria. In England increased administrative costs have been inflated and used as a policy instrument to reduce the number of shooters. It is working class shooters who have suffered most under this system.

Annual licensing or registration is nothing new. You have it in other parts of Australia and in other countries. In Britain licences are valid for three years, in other countries they are valid for longer periods and in some cases for life. There is no evidence to show that any benefit would result from annual licensing or registration.

The police, of course, need to link their system of recording convictions with the shooters licence record. I am sure they do this now.

I have been asked on a number of occasions since I arrived about the origins of gun control in various countries. Research revealed that logic and good sense rarely enter the picture. Emotionalism is the usual spur and that is often linked to an isolated incident. Rarely — indeed almost never — does scientific research or logic play a part. In France gun control is a military matter concerned only with preventing the next Revolution. Rifles are freely available without

# DEVONPORT CLAY TARGET CLUB 21st BIRTHDAY CELEBRATIONS

by Margaret Mason

• Life members Harold and Phylliss Neville cutting the 21st Birthday Cake. Devonport Clay Target Club.

On Saturday July 17, 1982, the Devonport Clay Target Club celebrated its "21st Birthday", the club then known as the Mersey Gun Club originally started at Latrobe, and in 1965 a new site was obtained at Devonport on reclaimed beach frontage. The Clubhouse and one DTL hand operated Snipe trap were brought from Latrobe, then later changing to a Damo, making two DTL Traps.

With the implementation of the R.E.D. Scheme we received a Government grant and with this we installed a Skeet layout and two White Flyers and enlarged the existing Clubhouse, so we now have a very pleasant spot.

In 1979 we changed our name to the Devonport Clay Target Club to be more in keeping with the environment.

Attending the shoot were visitors from other Clubs along with a number of past shooters, a party of 5 also visited the Club from King Island.

President Mr P. Rockliff and his wife were unable to attend owing to illness and Committee member Mr Ray Mason and his wife welcomed guests to the Smorgasboard dinner which was attended by a large gathering. During the evening a "21st birthday cake" was cut by Life members Harold and Phylliss Neville, also a framed photograph of the late Warden Gordon and Amber Girdlestone was presented to the Club by his daughter Mrs Jan McMillan. In his lifetime Gordon helped get the Club off the ground.

After the dinner members were entertained to a show of Magic Tricks by Dr Ron Evans who had everyone mystified by his skills.

In all a great days program.

The shoot results are as follows;

25T Skeet Graded ABC: 'A' C. Latham 24-25, 'B' R. Abblitt 23-25, 'C' K. Walker 23-28.

10T DB 15m SS: Divided S. Webb, S. Munday, C. Castello, R. Abblitt, T. Buckby 10-10.

Club 21st Birthday C/ship graded 25T 15m High Gun Sash: 'A' S. Munday 46-46, 'B' J. Briggs 45-46, 'C' T. Buckby 25-25, High Gun Sash S. Munday 46-46.

20T Points Graded 15m: 'A' R. Elmer 60-60, 'B' I. Aylett 65-69, 'C' D. Philpott 55-60.

Presidents sash over events 2, 3 & 4: R. Elmer 92-95. ●

• King Island visitors Ron and Ray Hill.

## COMMENTS FROM THE NATIONAL COACH

by Peter Quire

This is a plea and explanation to all Clay Shooters on behalf of myself and the shooters that are to represent Australia at the Commonwealth Games and the World Championships in Caracas.

It is a natural human reaction for us not so dedicated, talented or skilled shooters to feel a mixture of admiration and jealousy for the Champions of our sport, for most of us we would like the status but not the work or sacrifice involved, so we are inclined to knock what we don't achieve ourselves. As a nation Australians don't set much store on people who excel in any walk of life.

In our sport to be selected for National Squad or Team the shooters have to be highly skilled, they would have had to have the motivation to develop their skills to that level in the first place, once chosen to be a member of an International Team they must embark on a regime of training that would frighten most people, they have to be physically fit, skilled to the extreme and psychologically in tune. To attain this standard they forgo much of the normal pleasures of life.

Top shooters families have to be supportive, understanding and co-operative, they have to accept the sacrifices as well. The absences from work involve them in loss of wages and loss of promotion. We must remember that they will be competing against people who are employed by the Army or are subsidized so have no worries about employment or cost of competition. People who are looked upon as national heroes in their own countries.

There are compensations, the pursuit of excellence and its attainment, the excitement and glory of representing your country, the self-fulfilling knowledge that you can achieve greatness and can perform some thing better than most people in the world, and most importantly I think, the gaining of approval from your fellow shooters, friends and family.

This is the point that I am getting at, it has been proven time and time again just how important it is for top athletes of any sort to have the encouragement, acceptance and support of other athletes, in our case other shooters, and to have the backing and support of the administration of the sport, be it club, State or National.

We should be proud of our Top Shooters, they represent not only the Clay Target Shooters but all Australians and they are in a real sense the show case for our sport. If this pride and acceptance is felt by the Shooters themselves it gives them much greater desire to perform well and helps them to feel pride in themselves their abilities and their ambitions. ●

# POSTAL MATCH MELBOURNE GUN CLUB vs LUFTHANSA SPORTING CLUB

by H. Weitzel

• Melbourne Gun Club team, winners of Postal Match against Lufthansa Sporting Club. L. to R., Stan Collins, Max Vipond, Merv Whitelaw, Henry Weitzel, Brian Clark. Team member Tony Rowe took the photo.

It happened in April and May and finally makes "Shooters News". The Subject is the Postal Match, in German: Der Fernwettbewerb, between Melbourne Gun Club and the Lufthansa Sportschuetzen. The whole Event was held over 200 Targets Olympic Trench. Teams elimination took place over the first 100. The respective teams then shot over the second 100 for the final result. Melbourne shot their section in April. Successful team members were: Stan Collins, Tony Rowe, Merv Whitelaw, Brian Clark and Max Vipond. Weather conditions were good, as was the final result.

I departed on the 1-5-82, armed with the sealed results, as well as the various trophies and best wishes from the committee and members of the Melbourne Gun Club to our new found friends of the Lufthansa Club.

After a couple of unfortunate postponements, the German part of the competition got under way near the beautiful and ancient city of Aschaffenburg, about 80 km from Frankfurt. In typical European fashion, the shooting grounds were situated inside a forrest (no wide open spaces here). As well, it was placed inside a disused quarry in 2 layers. On top, the Trench layout and on the floor of the old quarry, the Skeet layout. Only one discipline can operate at the one time.

After the smoke had settled on completion of the first 100 targets, the successful German team was: Harald Juergensen, Franz Wirth, Eberhard Korb, Dean Raineri and Guenther Schweighard. The driving force beind the Lufthansa club is Paul Six, who made it all happen. A late starter of the competition was the German coach, Karl Hagenburger, who was to whip the Germans to victory! Alas, it was not to be... After the last shot was fired, Melbourne was successful by 18 targets. However, in defence of the German team, I venture to

• How's this for a background. Lufthansa Sporting Club's Ground.

say, that the result would have been closer, if both teams had shot over the one ground.

For me it was a marvellous experience. The hospitality was first class. The Germans were eager to learn about us, and the shooting out here. They are making plans to visit us late in '83, including Karl, who of course was here for the World Championship 1973. He would also like to hear from anyone who could help him get a good size Buffalo.

On the other hand, we are planning to take a party of shooters and their wives on a shooting and sightseeing tour to Germany, U.K. and possibly other countries. Our friends in Frankfurt will work not only on a good deal, but also to ensure that this tour will be a memorable one.

If you are interested please note advertisement this page.

• Presentation of trophies, L. to R., Henry Weitzel, Eberhard Korb, Paul Six, Franz Wirth, and Harald Juergensen, all from Lufthansa, and German coach, Karl Hagenburger.

## EUROPEAN TOUR

MAY — JUNE 1983

Members of the Melbourne Gun Club are planning a shooting and sightseeing tour to Germany. Travel costs are expected to be very attractive. Would you like to join us?

Then have your name included on a list of possible starters.

# TRADE TOPICS

## REMINGTON MODEL 700 CLASSIC RIFLE TO BE PRODUCED IN LIMITED RUN FOR THE 257 ROBERTS CARTRIDGE

In 1982 Remington will offer shooters an opportunity to obtain a limited production run of its Model 700 Classic bolt action Rifle for an old but still highly regarded cartridge, the 257 Roberts.

The move is particularly significant since it was Remington that produced the first commercially-chambered rifle (Model 30) for this round in 1934. Subsequently, Remington Model 722 bolt action and Model 760 pump action rifles were also produced for it.

While the 257 Roberts declined in general use, it remained a cartridge with a great deal of historical charisma. Many sportsmen cherished the rifle they still possessed that was chambered for Ned Roberts' efficient little case. Many others always wished they'd gotten one or regretted the day they'd allowed themselves to be swapped out of one.

Now Remington is giving them a second chance, if they act fast. Those fortunate enough to get one can simply go hunting with it, set it aside as a collector piece or look upon it as a good investment.

Model 700 Classic rifles chambered for the 257 Roberts will be available in Australia late 1982, and as only a limited quantity will be available it is recommended that orders be placed with any Remington distributor as quickly as possible to avoid disappointment. Ample ammunition stocks will also be available.

Early 1982, a number of serious riflemen were upset by rumors that Remington planned to discontinue production of the Model 700 Classic rifle. Remington is happy to point out that the rumors were unfounded and that the Model 700 Classic with its clean, traditional, unfettered lines is alive and well and still available in a broad selection of calibers. In addition to the limited 1982 production of the rifle in 257 Roberts, these include the 22-250 Remington 6mm Remington, 243 Win., 270 Win., 30-06 Springfield and the 7mm Remington Magnum.

Trade enquiries only to Boustead Australia Limited, P.O. Box 148, ERMINGTON. N.S.W. 2115.

## NEW REMINGTON "VIPER" 22's PROVIDE HIGHER VELOCITY RIM FIRE PERFORMANCE

Rim fire cartridges have been around for a long time, some 125 years to be exact. In fact, the first successful self-contained metallic cartridges were of rim fire design, and happened to be 22 caliber in size. The most successful of these, without question, has been the 22 Long Rifle cartridge, developed in 1888 and still going strong 94 years later.

Over that period of time, other 22 caliber rim fire cartridges have been developed with varying degrees of success or failure. None of these ever approached the 22 Long Rifle rim fire in popularity and it is only recently that any attention has been devoted to improving the performance of this somewhat timeless "old timer".

In 1979, Remington introduced the YELLOW JACKET 22, a modernized 22 Long Rifle rim fire cartridge with greater velocity and flatter trajectory than the standard high velocity 22 Long Rifle round. The YELLOW JACKET was also loaded with a totally new rim fire bullet, a 33 grain, hollow point design featuring a truncated cone profile that provided excellent accuracy.

In 1982, Remington is introducing a companion to the YELLOW JACKET. The new 22 rim fire round is designated the 22 VIPER Long Rifle HV TC — the HV signifying hyper velocity and the TC signifying truncated cone. It is loaded with a new 36 grain solid point bullet with the same successful truncated cone profile as that of the YELLOW JACKET hollow point. Lending a touch of individuality to the new bullet's appearance is its distinctively colored copper plating.

In contrast to a regular high velocity 22 Long Rifle round with solid bullet, the Remington VIPER 22 provides greater muzzle velocity by 155 fps and flatter 100 yard mid-range trajectory of a half inch.

New Remington VIPER 22's can be used in all firearms of

good condition chambered for the regular 22 Long Rifle. They will be available in Australia about September, 1982.

Trade enquiries to Boustead Australia Limited, P.O. Box 148, ERMINGTON. N.S.W. 2115.

# TRENCH CHAMPIONSHIP AT TOWNSVILLE

by Sandra Wade

• Queensland team, L. to R., John Porter, Bob Simpson, Ray Collinson, Bill Stevens, Arthur Kenna, and Angelo Zappala.

At Townsville Gun Club on Sunday May 30 the Kilymoon Trench Championship was held, also the State Team was selected and the Interstate Teams Match shot. With the record attendance of 48 shooters the Championship was reduced to 75 targets.

The weather was ideal, warm with a slight breeze.

In the first round Bill Stevens (Ipswich), Tom Comerford both shot 25. Bob Simpson (Cairns), Ray Collinson (Burdekin), Ken Peace (Charters Towers) all shot 24.

After round two Collinson and Simpson both shot 25 to give them 49 and Stevens a 24 to also be on 49. Mac Stoneman and Doug Killick (Charters Towers) also came in with 25.

Round three was completed with Collinson and Stevens shooting 24, to both finish on 73/75. Simpson shot 23 to give him a total of 72/75.

The Queensland Team selected was Bill Stevens, Ray Collinson 73/75; Bob Simpson 72; Angelo Zappala (Burdekin) 71; Arthur Kenna (T'ville), John Porter (Brisbane) 70.

In the Interstate Teams shoot first round Collinson shot 25 to give him Overall in the Kilymoon Championship. Stevens, Kenna and Simpson each shot 23, Zappala and Porter both shot 22.

Porter was AA winner in the Championship with 70/75; Stevens A Grade winner with 73; Ken Peace was B Grade with 69 and Norrie Croker (T'ville) C Grade winner with 64/75.

Round two of the Interstate Teams shoot saw Zappala and Stevens with 25's, Porter 24, Kenna and Simpson 23 each and Collinson 22. The total score for the team was 280/300.

With the record attendance it shows that interest is very high for trench shooting in North Queensland especially with the opening very soon of Cairns Gun Club's trench layout.

## VALE

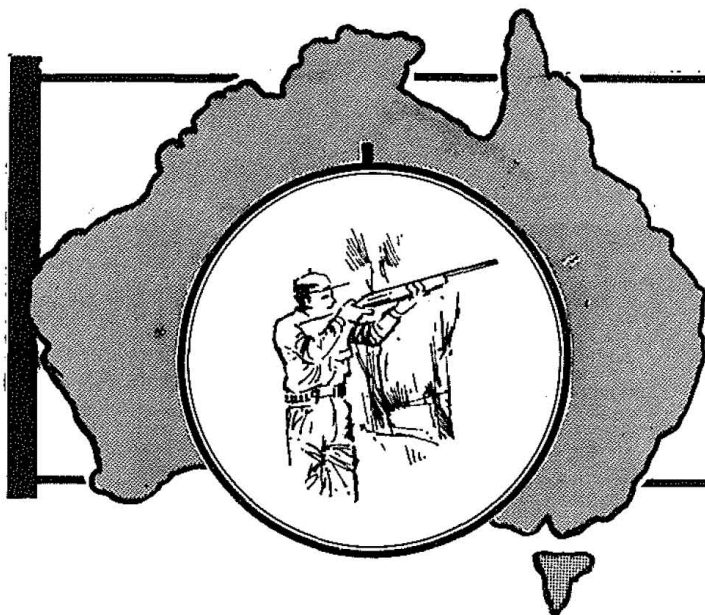

Echuca Gun Club expresses appreciation of shooters' minute of silence in memory of trapper boy and club member Geoff Stratton, who passed away suddenly on July 1, 1982.

The Brisbane Gun Club wishes to regretfully announce the passing of one of our club members and loyal supporter of Clay Target Shooting in Qld. Mr A. Sammut.

Cyril Colledge aged 82. The Members and Committee of the Metropolitan Clay Target Club extend their sympathy to his wife and family. Cyril was secretary from 1937 of the then Coburg Gun Club and then from 1964 after a change of name to the Metropolitan Clay Target Club. He was one of our first Life Members. He organized the inaugural shoot of the Coburg Gun Club to be held inside the Walls of Pentridge Jail. He will be remembered by a great number of shooters all over the country.

Brett, Don who passed away on June 11, 1982 after much suffering. Condolences go to his wife Win and son Neal and family, from Devonport Clay Target Club and all shooters.

## CLUB NEWS

### **ARARAT GUN CLUB (VIC.)**

Held their Annual General Meeting on 7-7-82 at Club Rooms and the following members were elected to office. Arthur Champneys, President; Darryl Crouch, S.V. President; Bill Harris, J.V. President and Treasurer; Greg Coburn, Secretary.

### **EUROA GUN CLUB (VIC.)**

Change of shooting dates — Shooters please note changes to the Club Shooting Dates from V.C.T.A. Booklet for the months of September and November. Due to a rapid drop off in numbers the Euroa Club has decided to try a change of date to the 4th Saturday in the month. This will continue for 1983 except for night shoots in January and February. Shooters in doubt should check advertisements in the "News" for correct shooting dates.

Club Personnel — President - John King, R.M.B. 3690, Euroa, 3666 - Tel. (057) 90 3218. Secretary - Wally Boarden, 146 Anderson Street, Euroa, 3666. Tel. (057) 95 2866. Coach - Keith McKendrick, Wilkinsons Lane, Euroa, 3666. Tel. (057) 95 3121.

### **TASMANIAN GUN CLUB (TAS.)**

Considering the raw weather it was a really good shoot that was held on July 11, 1982. Enthusiastic shooters with a number of new shooters keenly contesting the Novice event made it all worth while. Norm Curbishley is definitely going to be the all round shooter to beat. A very fine double win. Congratulations to the other winners, they all put on a fine display, especially some of the newer shooters, Strickland, Taurian, Nott and Lee.

### **BOORT GUN CLUB (VIC.)**

The big shoot on July 11, was preceded by a meeting of the North West Zone of the V.C.T.A. Delegates from each club finalised the 1983 program and discussed possible handicapping changes in the coming year.

Thanks to all those who stayed on to make the day a successful one for Boort Gun Club, particularly those who pitched in to assist with the running of events.

### **NOARLUNGA CITY GUN CLUB (S.A.)**

The Committee of the Noarlunga City Gun Club wishes to advise you that at the Annual General Meeting there was a change of officers for 1983. President, Mr W. Sutherland, 72 Gulf View Road Christies Beach, 5156. Tel. 382 1191. Vice President I. Shand, Secretary, Y. Shand.

### **WYONG GUN CLUB (N.S.W.)**

Would you please note Wyong Gun Club has recently undergone a change in Committee and the office bearers now are: President, R. Beaton; Vice President, J. Singleton; Secretary, R. Nicholson; Assistant Secretary, R. McLean.

In addition please note Wyong Gun Club's new address and could all future correspondence be sent to the following: Wyong Gun Club, P.O. Box 339, Wyong, N.S.W. 2259.

### **SUNNY CORNER GUN CLUB (N.S.W.)**

At our recent Annual General Meeting the new office positions filled as follows: President, Mr J. E. Curren; Secretary, Mr G. J. Elliott, P.O. Box 26 Portland; Treasurer, Mrs S. S. Curran; Joint Shot Marshalls, Mr P. Hayman and Mr B. Rochester. Could you please note the new address of the Club Secretary as Mr G. J. Elliott, P.O. Box 26, Portland, N.S.W. 2847.

### **ROMA GUN CLUB (Q'LD.)**

The recent Roma Gun Club Annual General Meeting saw a few changes to the Executive. Cliff Reid remains as President, Former Treasurer Robert Nugent moves to Secretary, and Alan Pack takes over the Treasurer's position. Dave Bowman stood down after three years as Secretary. Bob Bryant, a former Club President is the new Vice President and Eli Denton continued as Patron.

### FIREARMS CONTROL Cont'd from page 19

In Belgium there are no controls on .22 rifles or shotguns but they are extremely concerned about any concealable weapons. Swordsticks are apparently classified in the same way as handguns. These attitudes seem to arise from incidents in the late 19th Century.

In Britain we had no gun control until 1920. Any attempts at control had been heavily defeated in Parliament and there was an absolute right to keep arms. The British Parliament defended that right very firmly indeed. Suddenly, in 1920, strict controls on rifles and pistols were pushed through Parliament without opposition and with Ministers talking only vaguely about the problem of armed crime. When I came to look at the armed crime rates they were falling steadily from a low position. For a long time I could find nothing to explain the change of attitude on the part of the Government and the sudden acceptance by the Parliament of measures which they had fought tooth and nail.

The answer came when some secret Cabinet Diaries were released. Revolution was everywhere. There had been anarchist troubles in Britain and the Russian Revolution was clearly uppermost in the minds of senior politicians. Industrial troubles in Britain, which led to the General Strike, looked more like leading to a Revolution.

The Cabinet discussed matters like the strength and loyalty of the Army, how the R.A.F. could be used against insurrection and how loyal citizens could be mobilised. It was said, "The loyal citizens of this country are without arms. What is

needed is a Bill to licence arms so that they may be available to the friends of the Government."

So the discussions went on, and what emerges is that gun control had nothing to do with armed crime but was a measure taken by a frightened Government which did not trust the people. Had they looked they would have seen the guns were predominantly in the hands of loyal and responsible citizens. One is bound to recall the question of an earlier world statesman, "What kind of country is it dares not trust its people to have arms."

If, as I have suggested, the number of legitimately owned firearms in the community is not a factor in the armed crime rate and if measures such as gun registration will not work what measures are likely to control armed crime?

Armed crime is a complex phenomena. Studies will show that the rates of armed crime can be linked to societal attitudes and responses.

It is naive in the extreme to suggest that simplistic measures like gun registration will reduce armed crime or accidents or vandalism. We have been wrestling with the problem for so long that, if simplistic solutions would work, we would by now have eliminated or controlled it.

Professor Frank Zimring has the reputation of being the most anti-gun academic in the world. When I attended the Perth International Conference he said, "Australia does not have a gun problem, it has a media problem." He then went on to say that if Australia wanted to avoid the type of gun crime problem which the U.S.A. is experiencing you should not look to the guns but to avoiding the social situations which generate such crime.

If you want to see how armed crime is generated and how it can increase, look at the experience of London in the last year. The use of firearms in crime such as robbery rose from 767 cases in 1980 to 1415 cases in 1981 and the number of instances in which guns were fired rose from 42 to 102. That increase went hand in hand with a massive 48% increase in robberies — primary in 'muggings' but including places like shops and sub postoffices.

The increase occurred disproportionately in those parts which were involved in last years riots and where police responses had been inadequate. The riots themselves sprang from the lunacy of allowing intolerable social conditions to grow and failing to control minor crime and disorder. From minor crime and minor disorder unchecked a minority graduated to major crime and major disorder — also unchecked.

The increase in the use of firearms in crime in London last year had nothing to do with the availability of guns. It had to do with the failure of the police to maintain control and the failure of the State to allow the police to deal adequately with a minority of deviants.

## CLUB NEWS

Cont'd from page 25

Amongst coming events, Cliff Reid told the Meeting of plans underway to conduct a Charity Shoot in aid of the "Nurse of the Year" entrant. Early indications are that it should be a great success.

### MANNUM GUN CLUB (S.A.)

Mannum Gun Club is in the process of moving house to Monarto.

We have erected a 40' x 40' clubroom with brick toilet and shower facilities. 3 D.T.L. Traps with lights for night shooting. Modern kitchen and office facilities. Parking for cars and caravans are available and over 1,000 trees have been planted in our shooting area. We hope to be shooting at Monarto in October this year to coincide with our birthday shoot which will be a big event. If at any stage you wish any further information please do not hesitate to contact the secretary.

# GERALDTON GUN CLUB COACHING WEEKEND

by R. A. Baker

On the weekend of July 10th and 11th the State Director of Coaching, Mr Tim Catling ran a coaching clinic at the Geraldton Gun Club.

The Saturday's program was for members only and was started off by taking a video film of each member, followed by a viewing and discussion of this film.

Tim then gave individual coaching on 'skeet' and was able to correct faults of several members.

After this the ladies supplied an enjoyable casserole meal and the video film 'The Psychology of Winning' by Denis Waitley was viewed and discussed.

Sunday saw a 10.30 a.m. start with a good roll up of both members and visitors.

The program for the day consisted of a classroom session with the A.C.T.A. slides in the morning followed by individual coaching on 'trap' shooting in the afternoon.

The weekend was a terrific success and everyone agreed they all learned something from it.

The committee of the Geraldton Gun Club wish to sincerely thank Tim for the time and effort he put into the coaching weekend and would like to congratulate him personally on the way he can convey his knowledge to other people.

• W.A. State Coaching Director Tim Catling explains a point to lady shooter at Geraldton coaching weekend. ○

### BENDIGO CLAY TARGET GUN CLUB (VIC.)

At the recent Annual Meeting, B. Harrington, G. Woodhatch and A. Wilcock each were elected to their respective positions of President, Secretary and Treasurer. Congratulations to Lorraine Landry on being elected as the first lady life member of the club, and to Tony Wilcock on his life membership. Also congratulations to Norm Scott on having the clubrooms at Bendigo renamed the N.D. Scott Pavilion after him.

### GRAFTON GUN CLUB (N.S.W.)

At the General Meeting held at the Grafton R.S.L. Club, the following members were elected, President, Barry Cameron; Vice President, Max Harrison; Treasurer, Glen Lawrence; Secretary, A. Harrison. It was also decided Grafton Gun Club would hold a shoot on all the 5th Sundays in 1983. All correspondence to: A. Harrison, Secretary, Greens Lane, Lower Southgate. ○

## 1982 Q.C.T.A. WESTERN ZONE TRAP CARNIVAL TO BE HELD AT CONDAMINE GUN CLUB

by Gordon Watson

The Condamine Gun Club welcomes you to the 1982 Western Zone Trap Carnival on the 18th and 19th September.

Condamine, a small country town situated on the banks of the Condamine River is famous for its Condamine Bell, invented by Samuel Williams Jones who was a blacksmith in Condamine from 1867 to 1878. He was the first to manufacture stock bells using sheet metal from a cross cut saw or pit saw. He called them Bull Frog Bells and stamped S.W. Jones on the tongue.

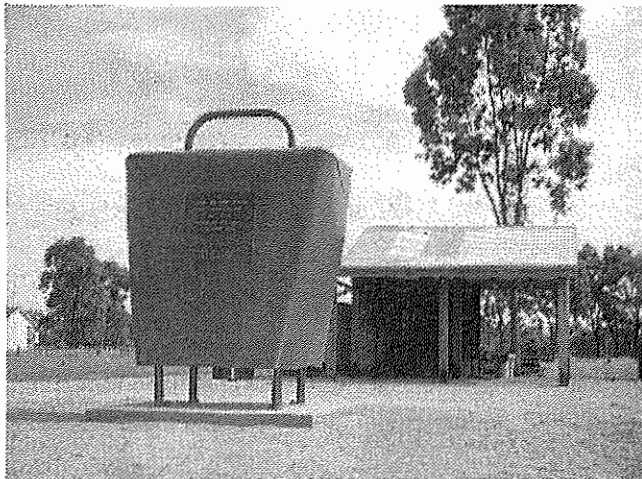

In 1966 a keen gunshooter, Lou Hasted, then licensee of the Condamine Hotel, impressed a group of citizens with his keenness to start a Gun Club in Condamine.

A committee was formed with "Jinks" Jenkins as President, Penny Sheahan Secretary, Neville Beeton Treasurer. Lou Hasted was Club Captain with Fred Jenkins as Patron. The major obstacle then was finding funds of \$600 for a trap. This was solved with Lou purchasing the trap for the Club, the money to be repaid when the Club was financial enough. This was repaid in 1968. Through the efforts of Lou and the willingness of members the Club was soon preparing for its first Annual Shoot in 1967.

At this shoot a contingent of New Zealand shooters made their way to Condamine. They appreciated the Condamine hospitality so much that on their return to New Zealand they had made a beautiful trophy, named appropriately "the Kiwi Trophy", which is shot for annually by Condamine Gun Club members in conjunction with an event at the Annual shoot.

During 1970 the Club moved to its existing site on the Condamine Racecourse and Recreation Reserve where they were able to use the facilities of the newly constructed Condamine Golf Club. In 1971 the Club constructed its office and store room. Until 1975 the Club operated with the one trap, availing themselves of the generosity of sister Clubs to provide a second trap and spares in case of breakdowns. 1975 saw the purchase of a second trap; 1979 a third trap layout, construction of two brick traphouses and the purchase of a third trap. 1982 has to date seen the construction of the third brick traphouse, lights installed on one layout and the purchase of a new hydraulic trap.

Condamine, one of the early towns of Queensland, has a colourful past.

• Condamine landmark.

**1851-57**

Rev. B. Glennie rode from Drayton to conduct religious services — "Apostle of the Downs".

**1856....**

Condamine Post Office operating.

**1859....**

Two Public Houses. A Blacksmith's shop. A store and the usual humpies and shanties of a bush town. Early burials in cemetery.

**1860....**

Condamine with a population of 124 had a Chief Constable, three ordinary Constables as well as a Clerk of Petty Sessions and a Court House.

**1863....**

The State School was opened. It was No 24 and at first functioned in a slab hut.

**1864....**

The first bridge over the Condamine River erected. Second bridge erected in 1912 and in 1953 the present bridge was erected.

Condamine township in pre Railway days was "Gateway to the West".

**1867....**

Cobb & Co commenced a weekly service from Dalby to Roma.

**1867-68**

Condamine Bull Frog Bell invented by Samuel Williams Jones.

**1870....**

Sheep & Cattle runs; brush fencing and Chinese labour.

**1877....**

Twenty-five carriers paid licence fees, many for haulage of sleepers.

**1878....**

S. W. Jones left Condamine for Toowong.

**1879....**

Condamine declined when the railway bypassed the township and passed through Miles to the way West.

**1904-08**

Farming families moved into the district.

**1906....**

Prickly-pear scourge — until catoblastis 1930's.

**1907....**

Land cleared and wheat growing established.

**1939-50**

Wool growing.

**1950-70**

Cypress Pine milling.

**1977....**

Today Wheat growing, sorghum growing and beef production are Condamine's assets.

**1982....**

On September 18th and 19th the Club is honoured to be host for the Queensland Western Zone Trap Carnival. ○

**AROUND THE TRAPS**  
Cont'd from page 18

• Winners of Winchester Tournament, M. Callahan 16-19 metres, G. Dawson overall winner and 22-25 metres, and P. O'Neill 20-22 metres. Darwin Gun Club.

All this joins a spacious area where shooters can relax while waiting their turn to go to the tracks. A verandah extends the full length of the building where shooters can also sit and relax. This area also has gun racks and score board, all under cover. Ceiling fans are fitted under the verandah, as well as in the main meeting area, essential to the climatic conditions that prevail in that part of Australia.

Chief Minister of Northern Territory, Hon. Paul Everingham performed the official opening of the grounds on Saturday 31st July. The Northern Territory Government were extremely generous in providing land, building and funds to establish the complex.

Just over 100 shooters attended the four day shoot with competitors coming from Tasmania, Victoria, Queensland, S.A., N.S.W., Western Australia and Singapore.

The shooter's nominations cover breakfast on the ground if he wishes and the socials conducted by the club at night.

The programme and what is available for the shooter is well advertised in the C.T.S.N.

I personally recommend, if you want a shoot with a difference, great hospitality, plan a Super Apex flight to Darwin in July next year when it will be on again.

Whilst at this tournament I attended a meeting of the Northern Territory Council, on Monday night. Two items of interest came from the meeting, one being a Coaching seminar to be conducted in the Northern Territory later this year, and the other in May 1983, it is planned for the Northern Territory State Council to conduct its first ever three day Trap Carnival.

Executive member Nev Seis, is the Territories Secretary, and I sense big things for the North in Clay Shooting for 1983.

See you where there is shooting  
**LAURIE CONNORS**  
National President. ○

# TERRANORA LAKES

by Bob Ridler

"You have heard of the cat that swallowed the cream. Well here is a double barrel version. Pres. Peter Bailey (that is the young chap in the middle) presents trophies to two of our young??? members. Snr. V. P. Doug Hanger won trophy for best C14 shooter over the full program and Patron Fred Lang

won C Grade 25T. D.B. Cont. with a score of 24/25. Good to see the young blokes get amongst the trophies.

Incidentally the trophy for best C14 shooter replaces the F/M High Gun. This way some incentive is given to novice and C Grade F/M shooters."

Bob Ridler ○

## Editor's Mailbox

Dear Ian,

I was disappointed to read in the July shooters news that separate skeet and down-the-line Nationals are now a fact of life.

I guess this decision suits the "skeet only" and "down-the-line only" exponents of our sport, but I'm not so sure the remainder, who like to take part in both, would be all too happy.

I can appreciate that the skeet championship should be over more targets than at present and would suggest, as a compromise, that extra time be made available either before or after the National down-the-line events, for such a skeet competition. This would provide the majority of shooters, who have to arrange their affairs to take time off to attend the nationals once a year, with a chance to compete. In addition the additional travelling expense of attending two separate tournaments, would be avoided. I think in this way both the skeet and down-the-line attendance would benefit.

Ken Varley — Guyra

Dear Sir,

**Subject: National Shooting Ground**

Whilst this issue is a serious one, some of us feel that a decision should be, or must be made now.

Geographically Canberra or its surrounds are the logical choice, but that aside, whatever states miss out should realize a decision like this is for the good of the sport and must throw their support behind the state fortunate enough to be the permanent home of the National ground.

A decision like this won't please the entire membership at first, but time cures all ills. A point worth remembering is that we have elected an executive committee to run, plan and co-ordinate the ideas of the rank and file, which includes making decisions, big and small, for and on our behalf.

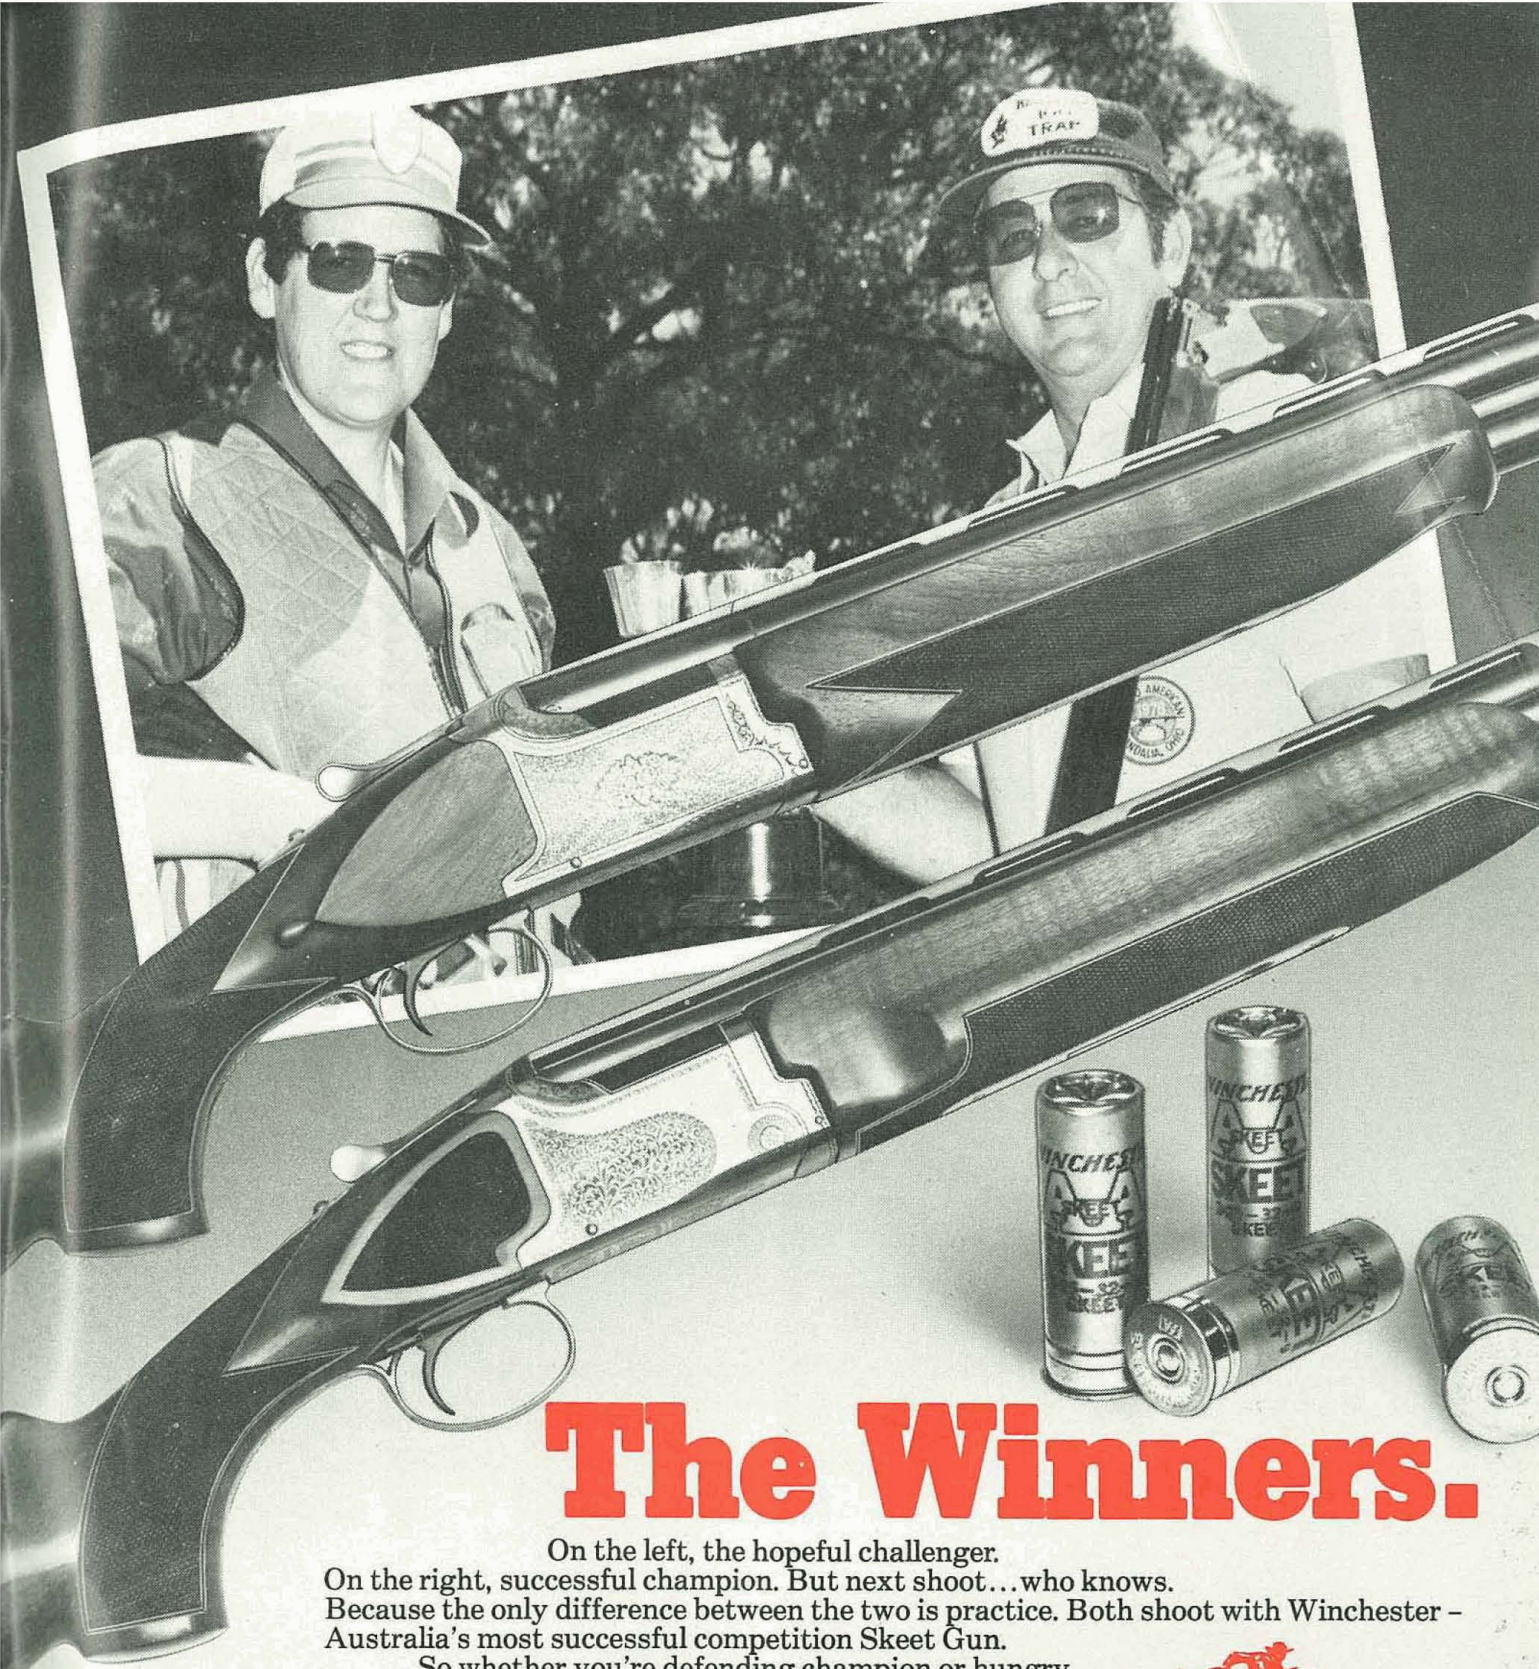

Those of us that have been involved with other sports know too well the pride in being part of a project like "your own home", a place to congregate annually, for competition and sportsmanship and the associated fringe benefits.

So "come on Executive", do some "Executiving" and lead us from the "Floating Trap Game", to our new and permanent one.

Regards

C. N. (Chris) Hughes  
Warners Bay ○

# The Winners.

On the left, the hopeful challenger.  
 On the right, successful champion. But next shoot... who knows.  
 Because the only difference between the two is practice. Both shoot with Winchester - Australia's most successful competition Skeet Gun.

So whether you're defending champion or hungry challenger, stick with the guns you can depend on for accuracy and reliability. Winchester - the guns for winners.

**Top:** Winchester 501 Grand European Under & Over Skeet Gun, with solid leather carrying case. 30" barrel - modified and full chokes.

**Bottom:** Winchester 101 Pigeon Grade Under & Over Skeet Gun. 27" chrome lined barrel, vented rib auto ejectors. Single selective trigger.

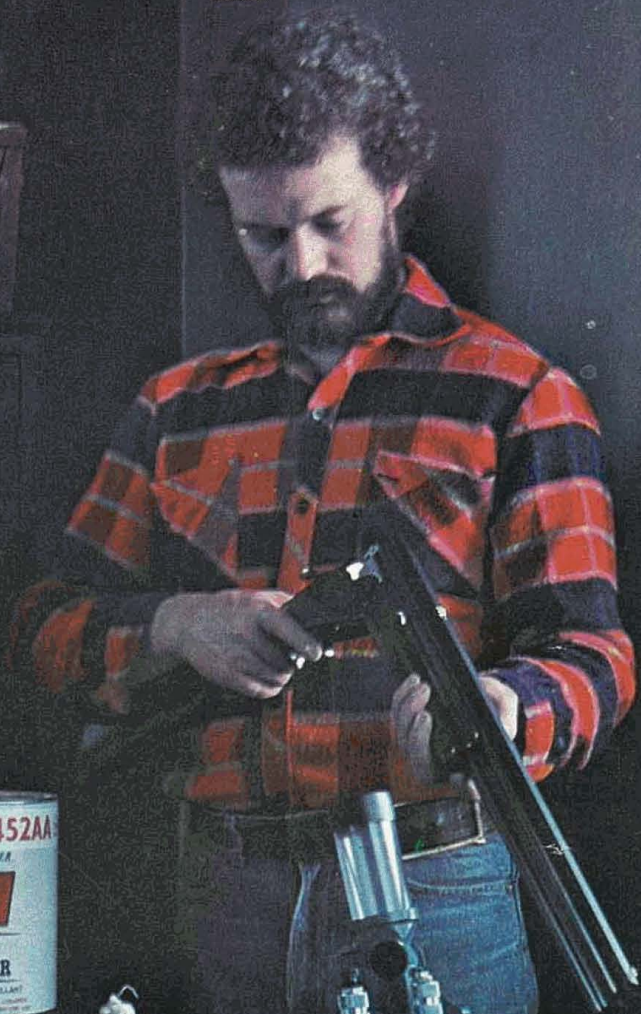

**WINCHESTER.**

More than a gun.  
 A legend.

# Reloading the legend.

You can duplicate the high standards of our factory ammunition with this special equipment. Components include:

- WINCHESTER BALL POWDER which gives you perfect burning and even metering.
- WINCHESTER primers, cases, projectiles, shot and wads
- MEC Shotshell reloaders
- LYMAN centrefire reloading presses and dies

**WINCHESTER**  
**More than a gun.**  
**A legend.**

We've had more than a century's experience, and we know what you want. And what you should expect. Write for the free 72 page reloading booklet which tells you about the 500 different loads for Shotshell, Rifle and Pistol ammunition.
