Vol. 46, No. 2

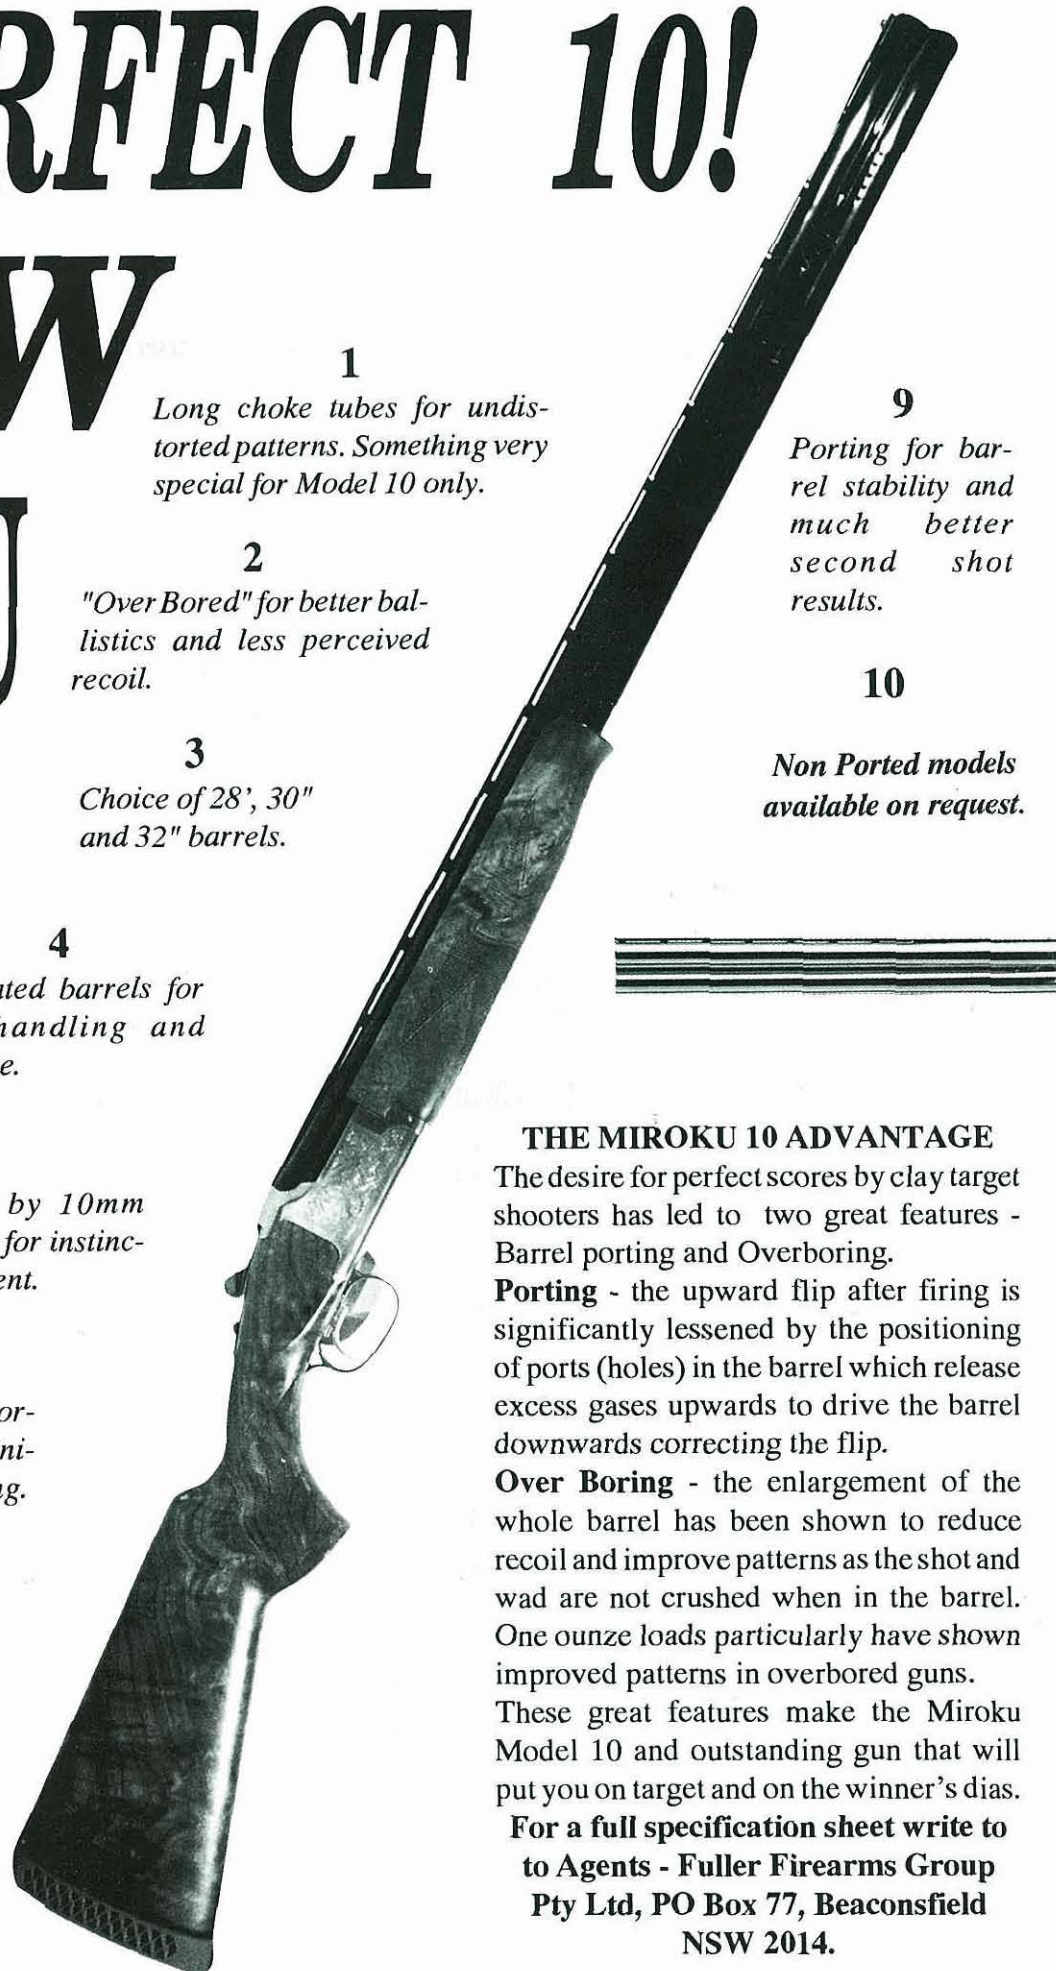

A PERFECT 10!

NEW

MIROKU

10

1

Long choke tubes for undistorted patterns. Something very special for Model 10 only.

2

"Over Bored" for better ballistics and less perceived recoil.

3

Choice of 28", 30" and 32" barrels.

4

Ventilated barrels for fast handling and balance.

5

Tapered 13mm by 10mm raised floating rib for instinctive target alignment.

6

Adjustable trigger positions - correct for your hand only - minimises flinching, improves timing.

7

Palm swell for greater gun control.

8

Three Grades - I, V and Presentation in Trap, Skeet and Sporting models.

9

Porting for barrel stability and much better second shot results.

10

Non Ported models available on request.

THE MIROKU 10 ADVANTAGE

The desire for perfect scores by clay target shooters has led to two great features - Barrel porting and Overboring.

Porting - the upward flip after firing is significantly lessened by the positioning of ports (holes) in the barrel which release excess gases upwards to drive the barrel downwards correcting the flip.

Over Boring - the enlargement of the whole barrel has been shown to reduce recoil and improve patterns as the shot and wad are not crushed when in the barrel. One ounce loads particularly have shown improved patterns in overbored guns.

These great features make the Miroku Model 10 an outstanding gun that will put you on target and on the winner's dias.

1992 Winchester Top Gun, Steve Atkins.

NATIONAL PRESIDENT'S NOTES

Motion of No Confidence

At the time of printing of the Clay Target Shooting News, acting on the advice of the ACTA legal advisers, Molomby & Molomby, the West Australian Gun Club have been advised that their Motion of No Confidence is invalid, in that it calls for the placement of an interim board of management should their motion be successful. There is no provision in our current Constitution for this action.

We now await the outcome of this advice to the West Australian Gun Club. Should the West Australian Gun Club re-submit a motion complying with our current Constitution and request a Special General Meeting, the membership will be informed of such a meeting.

It should be further pointed out that the flyer included in January's CTSN stated that such a meeting must be called for within 28 days following lodgement of a notice. This is also found to be totally incorrect. The meeting shall be called for at the discretion of the President.

Perhaps the appropriate time and place would be in Adelaide at the Annual General Meeting scheduled for the 26th March, 1993. This action would save the Association the expense of flying all Executive members to Melbourne and the hiring of a suitable venue. I do not believe this expense to be warranted.

In this edition of the CTSN there are letters and advertisements concerning the proposed meeting. If it is to go ahead, all I ask is that all member clubs carefully consider their vote. The current Executive has been very open in their administration of the affairs of shooters and shooting, and given the opportunity, will continue to do so.

The inclusion of the flyer in the last CTSN was completely unauthorised by the Executive. The unfortunate side issue of it was that the Publisher was withholding posting until the arrival of a flyer . . . this flyer was to be one advertising the Winchester Top Gun Award . . . which did not get included.

In reference to the claimed sponsorship crisis, I personally spoke with Sergio ZUFFO of Olympic Targets/Scorpio on Wednesday the 13th January, 1993, and Mr ZUFFO assured me he had not withdrawn any sponsorship, nor did he intend to.

I find it difficult to follow West Australia in their action. I have been reliably informed that they have the utmost confidence in their two National Executive members but have included them in their motion. Should their motion be successful, no current member can be re-elected in the first instance. I firmly believe each State has the right to have who they feel best represents their interest nationally on the Executive. No other State has the right to try and assert their view on any other of our States.

The flyer states "our National Association has suffered due to the lack of stability and consistency."

I wonder if this applies to a letter received on the 1st of July 1991, at the ACTA Office, signed by the West Australian President, Mr WATSON, concerning the allocation of the 1992 Skeet Nationals. It stated: "Our two State Delegates to the ACTA in attendance at the May meeting indicated this State's willingness to forfeit our rostered turn." With respect to our delegates, the recommendation was made in the interests of the ACTA, not WACTA.

As issues come to the attention of ACTA, all avenues must be addressed and decisions made that are of benefit to the Association and to the shooters. Such an issue was the investigations and proposals on the viability of establishing a National Ground, conducted during 1991. In the early inquiries

into this proposal, Mr WATSON again put pen to paper in a letter to the then National President, Mr SCOTT, all State Presidents and ACTA Executive members. In this letter, Mr WATSON stated, "If this proposal does come to fruition, there would be little incentive for this Association to remain affiliated with the National Body. Serious consideration would be given to taking steps necessary for disaffiliation."

I wonder if the above still remains the situation?

In closing on this issue I must mention the dismissal of Mr Alan MAHER and again emphasise that it was a majority decision of the National Executive. As with any organisation such as ours, the minority must accept the decision of the majority.

Winchester Sponsorship

The National Executive was recently presented a sponsorship proposal package by Winchester (Australia) for all ACTA Nationals over the next two years. After carefully considering the package, the Executive voted very strongly not to accept the proposal due to a requirement of only Winchester ammunition being available for sale on the grounds where the Nationals are being held for the duration of the Nationals and the Pre Nationals.

The Executive feel that in taking the action they did, they protected the interest of all shooters and sponsors. It is hoped that further talks with Winchester will be fruitful and that the loyal band of Winchester users will not be disadvantaged in any way.

Glenn G. Woodhatch

CARTRIDGE LOADS 1993

Shooters are reminded that as of January 1, 1993 1oz loads are mandatory for all trap and skeet events with the exception of handicap where the allowed load is 1 1/8oz.

UIT Shooters must now use 7/8oz as per International standards.

AN IMPORTANT MESSAGE

To All Fellow Shooters

I can assure each and every member of the Australian Clay Target Association that no-one was more surprised than myself when I received the January issue of the Clay Target Shooting News.

I was expecting to find a flyer for Winchester, not the rubbish that was included.

No member of the West Australian Gun Club, or the West Australian Clay Target Association approached any member of the National Executive (other than possibly Ross SILVESTER), or any person with authority within the ACTA Office to request permission to enclose their flyer. A direct approach was made to the publisher via fax.

Part of that fax states: "As per advice received from the ACTA, the WACTA will be billed for the cost of the inclusion through the ACTA Office".

I would very much like to know from whom this ADVICE was received.

The decision to terminate Mr Alan MAHER's position was the result of negotiations with Mr MAHER, the National Vice President, Mr Alan KENNY and myself, resulting in a vote being taken by the full National Executive. This vote determined that Mr MAHER's position be terminated.

Mr MAHER had requested a review of his contract. A contract that had been drawn up by himself and approved by a previous Management Committee. Mr MAHER had requested three conditions in a contract review.

- (i) A review of his current salary. (His salary at the time of his termination was \$50,000 per annum, plus motor vehicle and expenses.)
- (ii) An unconditional appointment as the ACTA delegate to the Australian Shooting Association.
- (iii) A complete authority to operate within a reviewed contract, with a proviso to be able to veto who he had direct contact with.

The National Executive could not meet these conditions, and it was stated by both Mr MAHER and myself that there were issues between Mr MAHER and some Executive members that could not ever be resolved.

A suggestion to Mr MAHER that an independent third party be hired to conduct an office overview and to arbitrate was completely rejected.

The current National Executive is committed to addressing the needs of ALL shooters in Australia, and will continue to do so with your support. Our policy is for open administration, with every shooter inquiry being addressed.

One wonders the move behind the no confidence motion when we read the names attached to it. Surely these persons had the opportunity when they were members of the National Executive, to win the confidence of the shooters and fix any faults. Do we wish to return to the past and have difficulty in obtaining information and answers from within the administration? I cannot believe any of these past Executive have any new directions to offer our shooters.

Maybe the author of the West Australian Gun Club flyer would be better suited to writing for some of our politicians - it contains so many inaccuracies and misleading statements.

The statement: "We believe that decisions are being made on the future of this sport without consultation involving all members of the Management Committee" - is totally incorrect. This may, and I emphasise may, have happened in the past, but it is certainly not the case with the current management. A Management Committee meeting hook-up was arranged per Telecom and we were informed by the telephonist organising the hook-up that Mr SILVESTER of West Australia could not be contacted on the number given. We were informed that Mr MICHELL of South Australia was on line, when in fact he was not. We can only accept the information given to us at the time by Telecom.

Credibility of the Association . . . diminished ??? - Rubbish !!! It is time we liaised openly with all shooting bodies, within Australia and Internationally. In the short time this current Executive has been addressing the problems of the ACTA, it is one of our major goals to have all our disciplines represented Internationally - and given the opportunity will do so.

Sponsorship crisis! Olimpyc Targets/Scorpio, one of this sport's major sponsors, had withdrawn sponsorship benefits. As at the date of writing this (1-1-1993) Mr ZUFFO of the above Company has not withdrawn any sponsorship and has in fact spoken to at least two members of the Executive and has assured them that this is not the case.

There is also a ridiculous rumour circulating, stating that the current administration of the ACTA does not support ISU shooting and shooters. Nothing could be more misleading or further from the truth. I can assure all of our International competitors and supporters that we are addressing their needs and will do everything we can to improve their lot.

In closing I ask every club and member in Australia to show their support for our current Executive, which is committed to addressing the needs of ALL members, with emphasis on open administration, attending to the individual shooter's needs in the most effectual and cost saving manner.

Should you have any inquiries please direct them to your State Delegate.

**Glenn Woodhatch
National President**

TAIPAN SHIELD TO CRESSY

Ladies Sue Yates, Cheryl Arnol, Elaine Bennett, Amy & Allison Blaskett representing the Cressy Gun Club have won the 1992 Taipan Shield Competition.

Competition for the shield was very tight, with both Cressy and the Boort team shooting a score of 94/100. As in the case of a tied score pointscore is used to determine the winning team, which gave Cressy victory by six points.

Congratulations Cressy.

STATE POSTAL TEAM RESULTS 1992

The following results have been received by the ACTA office. Unfortunately ISU results were advised by only one state. It would be much more interesting and competitive, if other states and not just Tasmania, were to supply the office with this information.

TRAP 1500: Victoria 1484, South Australia 1482, Northern Territory 1462, Tasmania 1461, New South Wales 1452, Queensland 1440.

LADIES TRAP 375: Victoria 352, South Australia 344, New South Wales 340, Tasmania 318, Queensland 305.

JUNIOR TRAP 375: New South Wales 357, Victoria 351, Tasmania 331, South Australia 327, Queensland 322.

SKEET 500: Victoria 492, Western Australia 490, New South Wales 490, Tasmania 378, Northern Territory 463.

LADIES SKEET 125: Western Australia 104.

JUNIOR SKEET 125: Victoria 112, Western Australia 97.

ISU TRAP 400: Tasmania 362.

ISU SKEET 400: Tasmania 351.

The 1992 Newton Thomas Junior Award was won by Vince Mollica of the Werribee Victorian Club with a score of 74/75.

SPECIAL NOTICE TO ALL A.C.T.A. MEMBERS

The West Australian Gun Club (Inc), with the support of the W.A. Clay Target Association (Inc) intends to serve the following Notice of Motion with the Australian Clay Target Association (Inc):

"A VOTE OF NO CONFIDENCE in the current President, Vice President and Executive Members of the Australian Clay Target Association (Inc); that they be removed from office immediately and that an interim board of management be empowered to administer the affairs of the Association."

OUR CONCERNS -

Serious concerns and doubts have been expressed about the future of Clay Target shooting in Australia.

The concerns we expressed in the flyer which accompanied the last issue of the Clay Target Shooters News are obviously shared by a large number of A.C.T.A. Clubs members as indicated by the response received.

We believe that the future of our sport is in jeopardy - as we move towards the next century it is of paramount importance that our sport is managed with a professional approach; that we maintain credibility with all public groups be they government departments, international bodies, other shooting groups, sponsors or members.

To achieve this takes not only a dedicated and capable team at the national office, but they must be guided by a cohesive executive committee who have a sound understanding of the overall view of the sport nationally and who don't limit their picture to state, club or personal issues only.

We urge you to take the opportunity the Special General Meeting called for February will provide to express your concerns at the way the A.C.T.A. is currently being run.

Our Association is comprised of member clubs who have the right to be listened to, to stand up and be counted and not just be taken for granted.

We call upon you to use this opportunity to voice your opinions and not be part of a silent majority. Opportunities to vote at General Meetings are rarely exercised - this time you can make a difference to the way your sport is managed - ensure your club is amongst those who record their vote either in person or by proxy.

Administer the Association.

NATIONAL DIRECTOR OF COACHING

4th Elite Coaches Seminar Australian Institute of Sport November 27 - 29

The Australian Coaching Council, in conjunction with the Australian Sports Commission, conducted the 4th Elite Coaches Seminar from 27th to 29th November at the A.I.S. Canberra.

As an ACC Level 3 coach, an invitation was offered to attend the bi-annual seminar. With the support of the WA Coaching Council and the WA Ministry of Sport, I was able to receive funding, under their 1992 coaching program. Following enquiries the ACTA Coaching Council was able to obtain two additional places at the Seminar and, considering the limited positions available, we were well pleased.

After consultation, these positions were offered to Mr Fred Schmetzer - NSW State Coach and Mr Gerry Chizzotti - Qld State Coach. Both coaches, who are in their first year of Level 3 Accreditation, who with the support of their home states, gladly accepted.

As the seminar started early on Friday the 27th, a large number of the approximately 150 coaches, checked into the accommodation wing Thursday evening, with those not having major distances to travel, completing their arrivals prior to 9.00am Friday.

Mr Peter Corcoran OAM, Chairman of the ACC, welcomed all participants to the seminar, followed by Mr Jim Ferguson, Executive Director of the Australian Sports Commission, who gave the opening address.

The keynote address was then given by Dr Istvan Balyi, Lecturer at the University of Ottawa Canada, consultant to Sports Canada and Sports Science and Fitness Director of the Canadian Alpine Ski Team, being among his many credentials. The theme for this address was 'Planning Beyond Barcelona' and Dr Balyi immediately set the mood and pace for the next three days, which was to be full of challenging theories and positive thinking.

From 9am to 9pm the many varied plenaries and workshops continued without let up except for normal breaks. These breaks seemed to get further apart, yet all participants maintained the pace set at the beginning.

Day two started at 9.30am with the plenary 'Technology in Coaching.' Again, all were challenged in our thinking on how do we, can we or should we be using computers to enhance coaching within our sport. Dr Jon Patrick put forward a formidable case and as with other presenters before and those to come, stirred the grey matter into looking at a situation from a different angle.

As the day proceeded we were placed into a different thought pattern when Mr Hayden Opie, President of the Australian and New Zealand Sports Law Association presented 'Coaching and the Law.' This subject is becoming increasingly more important every day and what Mr Opie presented, attempted to bring a touch of reality into the problems about to be, are being and will be faced, as the future unfolds.

Workshops filled the rest of the day until late afternoon when we stood down to prepare for the Presentation Dinner of the Australian Coaches Awards. After two days of continual work it was great to relax and enjoy a few hours of someone else being in the spotlight.

Mr Noel Donaldson, coach of the Olympic Gold medallists, the 'Oarsome Foursome' took out the Team Coach award, as did Mr John Carew, coach of Kieran Perkins, the Individual Coaches awards for 1992.

Day three started sharp at 9.30am with the odd sore head being observed. However there was to be no let up as this final day was programmed for workshops. As previously mentioned in Day 1 and 2, these workshops were extremely interesting and in-depth and as each was a three hour course, programmed to instruct,

then challenge each individual's theories, the input from all concerned was quite taxing.

The workshops that Fred, Gerry and myself attended in the quest of knowledge were:

1. Vision in sport, an academic's view of what vision is and could be.
2. Risk management for coaches, what are the coaches legal and moral obligations now and in the ever changing future.
3. Integrating recovery into the weekly training program, how it is important to program recovery time of skills and body into a program.
4. Leadership skills in coaching, the importance of continually looking at oneself as a coach when relating to other individuals of varying characters.
5. Planning beyond Barcelona, quantifying annual and quadrennial training loads and looking at how to chart athlete's directions to assist in the overcoming of problems without interrupting a whole program.
6. Preventing overtraining, where coaches need to be aware and maintain sensible programs.

In summary for those that participated at this the 4th Elite Coaches Seminar, the effort was extremely rewarding as each person was challenged in their ability to accept different theories on accepted ideologies, and then question those theories in relation to each individual's sports.

M. Alexander

45TH ANNIVERSARY SHOOT

Mallala Gun Club celebrated its 45th Anniversary in October, attended by over 100 past and present shooters, with 56 taking part in competition.

Métro Martini won the Anniversary DB Championship with 60/60; 'AA' D. Olivero 55/56; 'A' P. Mules 55/56; 'B' B. Finch 54/55; and 'C' M. Longo 59/60.

20T PS - J. Richichi winning Overall with 84/84; 'AA' P. Marconni 83/84; 'A' J. Ellis 63/66; 'B' P. O'Sullivan 59/60; 'C' S. Byrnes 61/65; High Gun P. Marconni 98/98.

The day was well supported by past foundation members, Tom Irish, past Secretary and current Treasurer, Harry Curnow, Paul Lawson, Rece Franks, Arthur (Tubby) Hamilton and Frank Wintulich.

The canteen ladies prepared a fine anniversary smorgasbord, and all had a great day

Paul O'Sullivan, Secretary
Mallala Gun Club

Over 100 people attended Mallala's 45th Anniversary Shoot

SPECIALIST GUNSMITHS

Ian McGeoch & Kevin Wright

IAN McGEOCH — Gunsmith

Backboring:

Opening up the whole barrel to give less recoil and much improved patterns.

Porting:

Machining holes in the barrels to reduce recoil and muzzle flip. This is done on a machine designed by Winchester (USA) and Tom Seitz (arguably the top specialist gunsmith for making performance clay shooting guns and barrels).

Lengthened Forcing Cones:

These are lengthened to give less recoil and much improved patterns. They are then hand polished to remove all machine marks for top performance.

Tightening Guns:

All new parts are used and the emphasis being on producing a gun that is as close as possible in feel and finish to a factory new gun.

Choke Alteration:

Hand reamed and polished chokes that can only be picked by measuring the chokes.

KEVIN WRIGHT — Stockmaker

Stock:

Made to fit the individual not just duplicate factory originals, the stock must be of correct length, cast, height and grip size and shape to make it feel like an extension of the body.

Adjustable Combs:

This allows the shooter to adjust the comb on a standard stock to perfect height and cast measurement for each individual.

Forcing Cones:

Same as McGeoch.

Performances by Champions or Novices will be improved by

McGeoch & Wright

\$3,000 RAISED FOR CHILDREN

Hobart Gun Club and Variety Club Tasmania joined together to conduct the first clay target shoot in Tasmania to raise funds for children.

The main event was the Three Person Team, the concept of this event was to have the teams sponsored by a business (\$100 per team). Sections consisted of Open, Ladies and Juniors.

Loughrans support children

The Open team prize was sponsored by Loughrans Pty. Ltd. Loughrans kindly donated \$450 worth of radio cassettes.

Bridges Brothers Sports Store sponsored the second place.

The Ladies team was sponsored by Forendo Jewellers, Craig Forendo, a very kind clay target shooter himself provided gold watches for the winning team.

The Junior teams event was sponsored by Sport & Dive of Hobart.

Bay City Clay Targets makes it possible

Many special children in Tasmania will directly benefit from the substantial assistance so kindly donated by Bay City Targets. The Chairperson of Variety Club extends a very sincere thank you.

Variety Club was represented over the weekend by Don and Fay Carter, who braved the wind and rain. Their presence and effort was greatly appreciated by everyone.

Clay target shooters gained valuable respect from the public for their support of the Variety Club Charity for children. Many old and new shooters experienced the thrill of clay target shooting for a good cause. To all those who assisted in some way, many thanks.

Organising Committee - Allan Kenny and Amanda Bannister

Sponsored Teams: Bagdad Field & Game, Potter Warburg, Torquay Cleaners, Cadbury Schweppes, Easy Sure, Pasminco Metals EZ, Joe Kiss Electrical, Guns & Ammo, Maynes Marine, Electrical Trades Union, Charltons Sports Store, Tasmanian Clothesline Services, ANM, Guns Sales & Service, Antique & Modern Firearms, Electric World, Watty! Australia, Elizabeth Town Hotel Sports Club, Tops Office & Business Systems, Fred Monash, GS & LM Drew Plumbing Services, Brighton Rotary, Tilfords, Peter Webster, Mt Lyell, Tasmanian Group Training, Hobart Police and Citizens Youth Club.

Don Carter, Variety Club Chairperson with the Guns & Ammo Team.

WARATAH STATE NOTES

Southern Zone

Bega Gun Club Secretary, Lynne Teale, has sent me a very interesting report on a FIREARM SAFETY AWARENESS DAY their club presented on Sunday, 29th November, 1992, and by the excellent media coverage the day attracted, it certainly was a huge success.

Over 60 people attended to receive tuition on the safe handling of firearms, as well as talks from ambulance officers and police.

Member for Eden Monaro, Mr Jim Snow, was also in attendance to try his hand at shooting a few clay targets.

Local Sporting Shooters Branch President, Peter Duncan, was also in attendance to lend a hand.

Bega Gun Club President, Bert Deacon, and Lynne worked very hard to organise this informative day, which was very well received by the locals. It's this type of initiative which helps spread the word that clay target clubs and their members have a lot to offer the community. Well done Bega.

It may also give some other clubs ideas for similar positive community input.

Coaches Corner — by Fred Schmetzer

I would like to congratulate Bill Shelton on being appointed to the position of Southern Zone Coach. Bill has been coaching at the Sydney Gun Club for many years, where he has conducted coaching sessions each Wednesday afternoon. All this experience and dedication should stand Bill in good stead for the position of Southern Zone Coach.

Riverina Zone Coach, Bob Blake, has arranged Narrandera Gun Club as the venue for the Riverina Zone Coaching Weekend on the 20th & 21st of February. On Saturday the 20th, coaching will cover both Trap and Skeet, starting at 10.00am. Sunday's coaching will start at 9.00am, covering Trap only, as the Narrandera Junior Shoot will start at 12.00 noon sharp. For further information see advertisement in this issue of the CTSN.

A NEW LOCAL SHELL MAKER

Just when the cost of cartridges and components are increasing, a new manufacturer is entering the field.

Hunter Shot is enlarging its Melbourne factory and will be producing all types of wads by February . . . and shells by June.

The Victorian 1991 Double Barrel champion, Bill Woodward, is doing the factory extensions.

Hunter's have been making shot for two years, and at \$17 for 10kg, it compares well with other brands.

Maurice Dinn, the man behind the Super cartridge of 15 years ago, has come out of retirement to advise Robert Hunter and his brother Brian.

The Hunters have four machines that can pump out a total of 10,000 shells an hour. They are importing three million Fiocchi hulls.

The Victorian distributor of the Sydney made Scorpio cartridge, Norman Quick, this week said that if Hunter shells sell for \$106 to \$120 "the big boys" would not worry.

"But if Hunter come on the market at \$100, the opposition would undercut him and run him out of business."

Robert Hunter says Hunter's are out to make a profit.

Initially size and half sizes would be available from nine to six.

BUNDABERG GUN CLUB INC.

Bundaberg Gun Club Inc. held its Annual Christmas Break-up shoot on Sunday in very windy and overcast conditions and eventual storm.

The Annual General Meeting was held prior to the shoot and the new committee was formed, with Neil Berry the President, Kaye Rehbein the Secretary, Rob Rehbein, Treasurer and John Straughair the Club Captain. Congratulations to these people and to the other members of the committee. I wish them a good year.

Results of shoot:

Event 1 - 15 Target Single Barrel: A: 1st N. Berry 14/15, 2nd R. Rehbein 14/15, 3rd P. Rehbein 14/15; B: 1st G. Sergiacomi 14/15, 2nd L. Sidwell 13/15, 3rd F. Agius 12/15; C: 1st R. Upham 12/15, 2nd D. Shaw 12/15, 3rd H. Walker 12/15.

Event 2 - 15 Target Double Barrel Points: A: 1st P. Winzen 44/45, 2nd P. Rehbein 44/45, 3rd N. Berry 44/45; B: 1st F. Agius 45/45, 2nd L. Sidwell 44/45, 3rd P. Andersen 41/45; C: 1st S. Plath 41/45, 2nd H. Walker 37/45, 3rd T. Jensen 37/45.

Event 3 - 15 Target Double Barrel: A: 1st I. Wynyard 15/15, 2nd N. Berry 15/15, 3rd R. Rehbein 15/15; B: 1st K. Palmer 15/15, 2nd F. Agius 15/15, 3rd L. Sidwell 13/15; C: 1st T. Turton 15/15, 2nd R. Upham 14/15, 3rd D. Shaw 13/15.

Event 4 - 15 Target Double Barrel Handicap: 1st K. Shaw 14/15, 2nd N. Berry, 14/15, 3rd T. Petersen 14/15, 4th K. Rehbein 14/15.

The 1992 Champions for the club were presented with their trophies along with the Overall High Guns for the shoot.

Overall Skeet Champion 1992: R. Rehbein 94/100
Overall Trap Champion 1992: R. Rehbein 362/380
Overall Club Champion 1992: R. Rehbein 456
Front Marker Champion 1992: R. Upham 210
Overall A Grade High Gun 1992: R. Rehbein 1195
Overall B Grade High Gun 1992: G. Sergiacomi 1201
Overall C Grade High Gun 1992: R. Upham 747.

Rob Rehbein was made a life member of the Bundaberg Gun Club for the years of service he has put into the club.

LEN BAKER MEMORIAL SHOOT

On the 14th of November the Boort Clay Target Club held its Day/Night shoot in perfect conditions. 55 shooters took part in the day program, with the third event being the feature of the day. This was the Len Baker Memorial Group Handicap. Shooters came from Findlay, Barellan, Moulamein, Melbourne and many areas nearby to compete, as Len Baker had shot in many clubs over the years and was well known to many.

Much appreciation to the Baker family, who donated sashes for the winner in each group and also a shield in Len's honour, which each year will have the Group Handicap winner's name engraved on it. The winner in each group also received a microwave oven.

The night program attracted 40 shooters who competed in 4 events, with a High Gun being run over both day and night. Mr Andy Day of Swan Hill, kindly donated a beautiful cup, which will be called the Len Baker Memorial Shoot Perpetual Trophy Overall High Gun, and the winner of this will receive a replica cup to keep.

The winners of the Len Baker Memorial Group Handicap were: 11/16 Brett Evans (Boort), 17/20 Paul Chipperfield (St. Arnaud), 21/25 Jamie Elliott (Walmer) - Jamie also won the Overall High Gun and received a sash and a case of cartridges as well as the cup.

The Boort Gun Club would like to thank the following for their sponsorship of our shoot: The Baker family; Len Baker Jnr; the Sheard family; R & P Whytcross (Lagoona Lodge); Absalom Brothers; Water Wheel Flour Mills; Boort Tyre Service; B.E.I.; Boort Newsagency; Kerang Ibis Traps; and Andy Day.

Without this kind of support and the support of shooters who attended, our club would not have had such a successful day. We hope that everyone who came enjoyed themselves and will return. We look forward to seeing them and their friends at our next big shoot, which will be held in March 1993.

**Allison Saunders, Secretary
Boort Clay Target Club**

From left to right: Frank Baker, who presented the Sashes, Shield and Trophies to the winners of each group. Jamie Elliot 21-25m, Paul Chipperfield (St. Arnaud) 17-20m and Brett Evans 11-16m.

Jamie Elliot of the Walmer Clay Target Club, with the Overall High Gun Trophy.

THE TWENTY FIFTH MELBOURNE GUN SHOW

On Saturday February 20th and Sunday February 21st Maurie Albert and Jeff Overington will be staging The Twenty Fifth Melbourne Gun Show at the Centennial Hall, Royal Exhibition Building, Carlton. As per usual hundreds of new and used guns plus allied items will be for sale and/or trade.

Amongst other aspects, a show such as this provides an excellent opportunity for private gun owners to take anything they wish to sell or trade – for there are numerous sellers and buyers from throughout Australia, plus, at times, New Zealand and other overseas countries seeking stock, and sellers are willing to take trade-ins with regards as to what they have to sell. In addition if one (or more) private sellers wishes to participate in the show via renting a table for the weekend, they can do so, for due to various arrangements made between the Victorian Firearms Registry and the show organisers, private individuals (shooters, collectors, etc) can legally offer and dispose of their firearms at such a licensed event.

Due to there being so many full and part time dealers, clubs, etc under one roof – it is also an ideal chance to observe the many new models of firearms, knives, scopes and the like and most importantly, obtain advice on a person-to-person basis from experts in the field(s) you are interested in, such as locating certain projectiles, moulds, powder, hunting areas, books, security items, parts and so forth.

A very big bonus to those that are interested in four wheel drive vehicles and associated fields is the fact that the largest event of it's kind held in Australia – being the 'Four Wheel Drive Show' is being staged on the same weekend as the gun show – in the buildings next to the gun show.

Hence there is the opportunity to, without travelling and parking hassles, attend two great events in one day.

At ... CENTENNIAL HALL
ROYAL EXHIBITION BUILDINGS
Nicholson Street, Carlton

THE TWENTY FIFTH MELBOURNE GUN SHOW

Thousands of firearms and related items, medals and militaria **PLUS** much, much more, will be **FOR SALE – TRADE AND EXHIBITED**.

TABLES OVER 250 TABLES

DATES: **SATURDAY FEBRUARY 20TH**
SUNDAY FEBRUARY 21ST

TIMES: SATURDAY 9am – 5.30pm, SUNDAY 9am – 4.30pm.

ADMITTANCE: ADULTS \$9.00
PENSIONERS & CHILDREN \$2.00
(Please note: Children must be accompanied by an adult)

Refreshments available at Show

For additional information phone: (057) 64 1234

NOTE: Victorian Purchasers, if you wish to take **IMMEDIATE POSSESSION** of any longarm(s) you buy at the show, you can obtain a **PERMIT(S) TO PURCHASE** at your local police station **BEFORE** attending the show – Interstate purchasers can do so at any Victorian Police Station.

PERAZZI

The gun that has done and is doing more for shooters in 26 years, since I introduced them in commercial quantities into West Australia, than other guns that have been available over very long periods.

With the most modern and up-to-date technology built into them, it is designed to give you more value for far longer for the dollars you spend when you buy a Perazzi – no doubt about that.

It's a long-term investment for your enjoyment so why not join the very wise shooters who knew best to select Perazzi and when you also are ready to invest in a top gun, you immediately think to yourself "PERAZZI FROM YOZZI" the most favoured name and Perazzi centre in Australia since 1972. We now offer you for immediate delivery the following large range of models:

MX1	MX3 trap	MX5 sporter	MX8 trap with 28 1/2" and 31 1/2" barrels
MX2	MX3 skeet	MX4 trap	MX8 skeet
M2L	MX3C	MX4C trap, skeet or field	MX8 gold line trap
	MX3C sporter	DB81 special trap	
		SC3 trap and skeet	

We try to have for immediate delivery stocks of all above models, but apologise should at times we may be temporarily out of stock.

All orders including special orders get my personal attention in order to fulfil your personal satisfaction. What better could you wish for?

Now be positive and buy your "PERAZZI FROM YOZZI" (since 1972). It shoots as good as it rhymes. The rest is up to you. The wise or otherwise decision is yours. You can't say I haven't advised you. Now I thank all past clients and I look forward to giving my best assistance to all my past and future clients.

SOLE FACTORY EXCLUSIVITY FOR WESTERN AUSTRALIA FOR PERAZZI FIREARMS AND ACCESSORIES. KROMSON CLAY TARGET MACHINES. ROBOT MODEL 350A – trap – skeet and personal models.

BENELLI FIREARMS MODELS 121, 123, 123-3" Mag., 121-3" Mag., Montefeltro, Super 90 in field, trap and interchangeable choke models. ALL ABOVE GOODS IN STOCK AND AVAILABLE FOR IMMEDIATE DELIVERY NOW FOR YOUR CONVENIENCE AND SATISFACTION.

MARYBOROUGH TIT BITS, QLD

It was decided early in 1992 to try and get a squad or two to shoot Norfolk Island in 1993. In conjunction we ran a raffle with a prize of a trip to Norfolk to join the shooters who were going. I wish all the shooters a good trip and hope you enjoy yourselves.

The winners of the raffle who had already booked to go were Di & Ken Shaw, joined by the Anderson's, Pagliarino's, Wood's, King's, Osborne's, Sidwell's, Seeger's, Davis's and Carey's. Wouldn't it be nice to pick up that Perazzi MX4C going to the lucky shooter?

Our raffle didn't sell very well and we have a lot of tickets left which will be sold at a much reduced price - anybody interested?

Bundaberg 6-12-92

Being the Christmas Shoot everybody seemed to win something except me. With no shooter to win the first two prizes, being hams, they were spread around, with Dick Osborne getting a ham without pulling a trigger - he had the right raffle ticket.

After the AGM, Neil Berry took the job of President from Keith Palmer, who ended up as Vice President. Most other jobs remain the same. Congratulations to Neil who will do a good job and thanks to Keith for the past year and the steak burgers to get us away to beat the storms home.

Shooter of the Year was hard worker, Rob Rehbein, who received the honour of Life Member, 1992 Skeet, Trap and Club Champion - with Front Marker being Ross Upham. On the day, Rob was once again A Grade High Gun; Gino Sergiacomi, B Grade High Gun; and Ross Upham, C Grade High Gun.

Thanks for a great day. Good news for B Grade shooters - Pedro has gone up to A Grade - good shooting little nephew.

Gympie 13-12-92

The only serious shoot was the Doc Rowsell Memorial Trophy, which was taken out by Mick Tipman; B Grade, Lee Beattie; C Grade, Aaren Gardner.

The rest of the program was Christmas shooting, with shooters to win only one prize, and every shooter won or was given a gift. The event I enjoyed was shooting a clay from the trap house, and one above from the tower which is behind the trap lanes.

Gympie says goodbye and good luck to Ken Mills, who is shifting to Kingaroy. You will enjoy shooting at Kingaroy Ken - best of luck and good shooting.

Welcome to Alayne and Jeff Wilcocks from Tamworth who are the new caretakers on the ground. Hope you enjoying staying at Gympie.

Maryborough 20-12-92

Our new President, Paul, went into top gear for our Christmas shoot, running the raffles etc. There were four prizes in each grade in each event, with hams as first prize - no shooter allowed to win two hams. In attendance were visitors from Bundy and Gympie and special visitors from North of Mt Isa and shoot at Mt Isa. Mandy and Clive Richmond, who have moved to this area and will stay if they get work, should be pleased with their shooting as both won a ham, chooks, pudding and chocolates. Welcome to Mandy and Clive - hope you can find work and stay to shoot in the area.

Too many winners to mention, but High Guns 1992 of the Club: A Grade, Peter Shaw; B Grade, Kevin Knoffke; C Grade, Darryl King. Mick Tipman, like myself, couldn't shoot for nuts but had the lucky ticket for the ham raffle - good luck Mick.

Shooting ended on a happy note in the area, but like all small clubs finding it a battle to survive - hope 1993 is better in memberships.

In February, Kingaroy Two Day Shoot 6th & 7th (see CTSN); Bundy 7th; Gympie 14th; Maryborough 28th.

Good Shooting to all and till next time, see you at the shoots.

Lost Bird

SHOOTER PROFILES

Name: Dick Piotrowski
Date of birth: 2-6-1949

Commenced shooting:

I lived in a small country town and I started shooting rabbits with a Lithgow single shot 22 when I was eleven.

I started clay target shooting in 1975 with a Winchester pump gun at Cowra Gun Club. I shot 3 targets out of 10 and quickly found out a pump gun was not the best way to go. I changed to a Franchi Under & Over. Things progressively got better, I was addicted and it didn't matter how far I travelled, as long as I could shoot.

Preferred discipline:

Although I have tried skeet and trench occasionally, my preferred discipline, and the one I have enjoyed quite a deal of success in, is down the line. The reason being I love the challenge of trying to beat that target.

Gun details:

Since the Franchi, I have had a Winchester 101, a Franchi Barrage, a Franchi 2002, an A grade Browning and now a high rib Browning. I have had the most success with my Browning.

Ammunition used:

I enjoy reloading my own cartridges for club shoots etc, but for major tournaments I use new factory loads. I have won two National Championships with Winchester 325 No.7s.

Coach and support:

Although coaching when I started was not like it is now, I will always be grateful for the help given to me by two dear friends in Len Bird and Dick Toshack. Their help headed me in the right direction.

Influence on shooting:

My first open shoot was in Wagga when I was in C grade. I broke a firing pin and Warren Charlton gave me a loan of his gun. I later watched Warren and Ken Lowry shoot, these men impressed me and influenced me to strive to reach the top.

Favourite ground and home club:

My favourite shooting ground is my home club Cowra.

International teams:

I have been a member of Australia's Mackintosh team four times.

Superstitions:

I don't have any superstitions, but I do like to have a few practice targets to relax me before I start shooting.

Highest break:

My highest break is 374, shot at Cowra in August 1992.

Club involvement:

Although I live in Blayney, some 70 kms from Cowra, I like to be involved in the club. Over the years I have served on the committee and I like to help the club in any way I can.

Advice to new shooters:

My advice to new shooters is to set yourself an achievable goal, when you reach this set yourself another.

Don't be frightened to ask questions, ask either coaches or other shooters, they will be willing to help or advise.

Think positively, don't be overwhelmed by shooters in higher grades, after all, on the tracks we all have the same chance of winning.

Most outstanding performance:

I think my most outstanding performances were all in 1987. I won the High Gun at the Central Zone Championships. At the NSW State Titles I won the Pointscore C'ship and the Champion of Champions as well as the Overall High Gun. That same year I won the Champion of Champions at the Australian National Championships in Brisbane. I was also in the State Shoulder to Shoulder 5 man team.

National titles won:

I have won two National titles, being the Australia - New Zealand Trap Championship at Echuca, and the Champion of Champions in Brisbane 1987. I have been in three Shoulder to Shoulder teams.

Eley Newton Thomas Award

Nominations for the Eley Newton Thomas Award are to be forwarded to reach the ACTA up to and including March 31, 1993.

The award is for the person who has done the most to promote the sport of clay target shooting in the previous year.

Nominations: to be forwarded through an affiliated club or State Association.

Judging Panel: ACTA Management Committee.

Any decision on nominations received is the responsibility of the Judging Panel whose decision shall be final.

Recipients from inception:

1982	Mrs B. Grice, Qld
1983	Mr M. Alexander, WA
1984	Mr R. Dean, Qld
1985	Not Awarded
1986	Mr S. E. Rooke, NSW
1987	Not Awarded
1988	Not Awarded
1989	Mr R. M. Fisher, USA
1990	Not Awarded
1991	Not Awarded

Nominations: to reach the Executive Director, P.O. Box 557, Mount Waverley, Victoria 3149 by March 31, 1993.

PERAZZI MX-8 TRAP

30" & 32"

2 only at \$7,200

BE QUICK

Name: Barry Kable
Date of birth: 25-1-1937
Commenced shooting: 1964

Preferred discipline:

I prefer Down the Line shooting mainly because of the friendships you strike up during and after a shoot.

Gun details:

I have always used a Browning. I started off using an automatic, then changed to an under and over. After wearing out one Browning U/O (replaced free of charge by Browning) I am still using that gun today.

Ammunition used:

Winchester Red Ranger No.8 for many years, now I use AA300 & AA325 No.7.

Influence on shooting:

I have been shooting all my life. I was born in the country and shot game every week. Then I moved to the city and took up clay target shooting, simply because it was the only sport that I really did love attending.

Coach and support:

I classed myself as a personal friend to the Gentleman himself, Newton Thomas, who gave me a lot of information on gun training and shooting and I think it paid off (some times).

Successes:

Some 300 Championships - Club, District, State.

Favourite shooting ground:

All grounds are good, as long as they have a clay target throwing machine on them.

Home club:

Hawkesbury, NSW.

International teams:

Twelve times, one equal High Gun.

Highest break:

My highest break was 496 and in that break I shot 127 under lights.

Club involvement:

Vice President for approximately 10 years.

Advice to new shooters:

Make sure everything is in your favour, that you are comfortable (meaning your gun) and that clothes are neat and tidy and at all times be a good sport.

Shooting goals:

My aim was to make 27 yards, a good long break and win a National title in Australia and New Zealand.

Most outstanding performance:

In the same year I held the Australian Double Barrel Championship and the New Zealand Double Barrel Championship (or better known as Single Rise C'ship in NZ). No other shooter has done that before.

National titles won:

1 Australian Double Barrel, 1 Australian Down the Line High Gun, 1 Australian Down the Line & Skeet High Gun, 4 New Zealand National Titles.

Name: Glen Hayden
Date of birth: 14-9-1973

Commenced shooting:

1988 at Terang High School Gun Club.

Preferred discipline:

Either Olympic Trap or Down the Line.

Gun details:

Beretta ASE90 for Olympic Trap, and Beretta 682 for DTL.

Ammunition used:

Winchester 1300 for Olympic Trap, and Winchester 1200 for DTL.

Success:

1990 Junior DB, 2nd Open DB 1990. Jnr Handicap Tasmanian Nationals. 1991 Junior High Gun at Perth Nationals. S.A. State Olympic Trap Titles 1991 & 1992. Victorian State Ball Trap Champion 1991.

Favourite ground:

Likes them all.

Home Club:

Noorat.

International teams:

Member of Junior Mackintosh Teams 1989, 90, 91. Open team 1992.

Highest break:

DTL 370.

Advice to new shooters:

Listen to what the more experienced shooters have to say and watch the way they shoot. Try to reach the highest grade as quickly as possible.

Shooting goals:

To represent Australia at World Championships or Olympic Games.

Most outstanding performance:

Runner up in the National DB C'ship at the DTL Nationals Tasmania 1990.

VALE

Romano Bisi

It is with sadness that we advise the loss of one of our club members due to illness. Romano Bisi passed away on 20th December.

He was a long standing member of the Port Augusta Gun Club for some 16 years. Romano was not only a club member, but a friend to a great number of people.

He was a great ambassador to the sport of clay target shooting, and was always willing to help a new or old shooter who might have trouble with being on target.

He travelled to many clubs throughout Australia and represented the Western Zone and the State.

To his wife and family the club members extend their sympathy.

W. Spackman
Port Augusta Gun Club

John Kalin

It is with sadness that we announce the death of John Kalin.

John was a life member, and for many years a Committee member, of the South Australian Gun Club, and a member of the Mallala Gun Club.

He was a tireless worker for both clubs and a keen Skeet and Field shooter. He is best remembered for running the Skeet practice on Wednesday afternoons at the South Australian Gun Club.

John died in his 82nd year after a prolonged illness.

C. Jacobs, Secretary
SA Gun Club (Inc.)

Henry Davey

On Sunday 6th December, Henry Davey died whilst competing in an event at the Cressy Gun Club. Henry was a quiet, humorous man, a keen competitor who loved his shooting sports, and was a generous and willing committee man.

Henry was a great family man and was usually accompanied to shoots by family and grandchildren, many of whom are members of Cressy and the ACTA.

Henry will be greatly missed by all Tasmanian shooters and we share with Hilda and the family in their loss.

Cressy Gun Club

Australian Clay Target Association CLOTH BADGES

1992 SPORTS STAR OF THE YEAR

Awarded to Russell Mark

Sportsmen's Association of Australia, Ballarat Branch, Sports Star of the Year Award winner, Russell Mark, said he was surprised to beat a star-studded field for this year's title.

The champion trapshooter gave himself little chance of repeating his award-winning effort of last year.

In this year's field were three Olympians: Russell; distance running ace, Steve Moneghetti; track champ, Sharon Stewart; Paralympian, Greg Smith; powerlifter, Leanne Johnson and raquetball star, Jodie Mitchell.

"I would have put my money on Greg Smith. I take my hat off to him for what he has done," Russell said.

Russell's year began with a new Australian trap record of 859 consecutive hits at Canberra. The old mark of 732 hits was established in 1968.

The following month he was the Overall High Gun winner at both the South Australian and Tasmanian Championships, and was the overall winner of the Australian Double Trap Championships in Brisbane.

One of his highlights for the year was a trip to Italy, winning the World Cup Double Trap and being part of the successful Double Trap team.

On the strength of those performances, he guaranteed himself a place in his second Olympic team, previously representing Australia at Seoul in 1988.

"My goal for the year was the Olympics," he said.

At last year's World Cup his 193 targets from a possible 200 was enough to give him victory, and at Barcelona he thought that score would be enough for a medal and 193 would have been gold.

At the Olympics he shot 193, with 195 the gold medal winning score, and was placed ninth.

Speaking about his Barcelona efforts, Russell was philosophical about his performance, subscribing to the theory that the Olympics bring out the best in a competitor.

"The Olympics draw out the best in everybody and it happened this year in Barcelona," he said.

Russell's long-term sights are on Atlanta, believing at age 28 he still has a lot of good years of competing at top level still in him.

Next year he will return to Barcelona for the World Championships, and the year after he is planning some recuperation in a build-up to the 1996 Olympics.

Soon after arriving home from Barcelona he broke his Australian trap record with an extraordinary 1177 consecutive hits at Tamworth in September.

Not letting up, only last month he was the overall winner of the New Zealand Trap Championships at Wanganui.

A.C.T.A. NAME BARS

Shooters wishing to obtain a personalised name bar can do so by writing to the National Office.

Name bars are \$20.00 each including postage, with orders of two or more reducing the cost:

1	\$20.00	2	\$15.00
3	\$13.50	4	\$12.50

SHOOTING RULES TRAP & SKEET

Effective April 1st, 1988

Updated January 1993

New Rules Guide

Highlighted rules have either been added or changed (have additional wording or have wording deleted).

Note:

Change of old rule book numbers is due to additions of new rules and deletions of old rules.

Deleted rules are as listed (old rule book numbers):

1.4 (e), 1.22 (e), 4.4, 4.6 (c), 4.13 (c, d), 6.7, 7.7 (c, d).

New rules are as listed (new rule book numbers):

1.1 (k), 1.8 (k), 1.18 (c), 1.22 (e) (i), 1.25 (e), 2.2 (c), 4.4 (b), 4.15 (g), 4.24 (g), 4.25 (a, b, c, d, e, f, g, h, i), 5.1 (l, m).

GUIDELINES FOR REFEREES TRAP & SKEET

1. Read shooters' names from squad sheets and ensure competitors are on correct tracks and marks. For safety reasons ask all shooters to check for obstructions in barrels.
2. The Referee must stand where he has a clear view of targets and competitors, preferably between lanes 2 and 3, approximately 2 metres behind the competitor's shooting mark. If there is excessive background noise the Referee may move between lanes 2 and 4 in order to hear the competitors call so as to give all competitors equity of competition.
3. Describe the event and procedure for conduct of the event, e.g. "25 Target Single Barrel Championship, shot from 15 metres, 13 targets from trap 1 and 12 targets from trap 2."
4. The Referee should ask his scorer to stand close enough to him so that the Referee can see the score sheet, and the scorer can observe the target as a check Referee.
5. Target to be shown by Referees.
 - (a) When the competitors are all in position the Referee must release a target for number 1 shooter to look at on his call.
 - (i) At the beginning of all events
 - (ii) After any breakdown or delay
 - (iii) At the commencement of all shoot-offs
 - (iv) On each trap used for a shoot-off
 - (v) After any break for shells etc during a shoot-off
 - (vi) If a competitor received two broken targets in a row, the Referee should ask the competitor "Would you like to see a target."
 - (b) If it is a six man squad and there is to be 1 target per shooter eye-opener, number 6 shooter must move up to take the first target, but he must still be shown a target on his call before he shoots at his eye-opener target.
6. The Referee must at all times release the target immediately on the competitor's call.
7. The Referee must clearly call the result thus: one, lost, three, two, no target, as appropriate.
8. Lost targets must be called immediately, and the Referee can change his decision if the target breaks before it hits the ground.

The Referee is to see that the next shooter does not close his gun until the result of the previous shot has been called, and should not release the next target if the competitor calls before the result has been called, refer Rule 1.1E.
9. At all times ensure that no competitor leaves a cartridge(s) in his gun after a red signal from the traphouse (breakdown etc) and when moving from lane 5 to lane 1.
10. The Referee must speak to a shooter immediately on any breach of the safety rules. If the rules of etiquette are broken the Referee should speak to the shooter concerned after the squad has finished, depending on the circumstances.
11. Providing a shooter does not obstruct the Referee in the execution of his duties, the shooter may walk in front of the Referee when changing from lanes 1 to 5.
12. In Single Barrel competition the Referee must ensure that the second barrel in Double Barrel guns remains clear.
13. The Referee must not restore a target if the competitor opens his gun after a malfunction.
14. In the case of a malfunction the Referee shall firstly check the safety catch is not in the on position, he shall then check that the action is closed, inquire of the competitor how the action operates, i.e. whether mechanical or inertia triggers, and then test fire the gun once only.

If the shooter is using a release trigger gun, the Referee will ask the shooter to test fire the gun once only. Under no circumstances will the Referee attempt to test fire it in this case.

15. The Referee should be mindful of the rule regarding squad members disturbing the competitor shooting.
16. A Referee will not call no target to deny a shooter the opportunity to shoot at a whole target unless a safety hazard exists.
17. Interpretation of refusal rule:

A shooter may refuse to shoot at any target which he considers to be too high, too low, too wide, too quickly released, too slowly released, at any target he considers to be illegal. There is no limit to the number of targets the shooter may refuse as long as the Referee agrees with the reasons. Obviously, if too many targets are refused for illegality, the Referee must inspect the trap, find the cause, then correct it. If the Referee does not consider that the target refused is illegal, he will ask the shooter why he refused the target. If the Referee is not satisfied with the reason he will tell the shooter. He will also state that any further targets which are refused, and are considered by the Referee to be legal will be scored "Lost Target". If the above situation seems likely to arise, it is preferable that a third party, qualified if possible, adjudicates subsequent refusals. The foregoing procedure in no way discriminates against Referees using their judgement, it is meant to assist in equity of competition. A major point missed by older style Referees is that although a shooter may refuse to shoot at an illegal target, he is equally entitled to accept an illegal target and shoot at it. However, if he shoots at and misses an illegal target, the only decision open to the Referee is "Lost Target". Similarly, if he hits it "three", "two" or "one" as the case may be, his is the only decision to be given.

A Referee should not call "No Target" for a fast or slow released target, nor if the target seems to him to be too high, too low or too wide. "No Target" should only be called in the case of a broken target, a pair of targets emerging instead of a single (or vice versa), or where a safety hazard exists if a shooter elects to shoot at the target.

The shooter must be the only person to decide if the target is acceptable to him.

Many older style Referees consider that this rule takes away too many of their decision-making powers. The fact is that the rule puts the decision of whether to shoot or not with the sole person who should have to decide - the shooter concerned.

The Referee must leave the "No Target" decision where it belongs - with the shooter. If the shooter breaks the target, illegal or not, he is credited with it, if he misses an illegal target, he must equally accept the "lost target" decision.

Referees are to ensure that "R" for refusal is entered on scorecards. Every refusal must be called either "No Target" or "Lost Target" by the Referee.

18. The Referee is to see that all competitors remain as a squad until the last shooter has finished.
19. At the completion of each visit to a trap the Referee must say, "unload your guns and check your scores."
20. In Skeet, the Referee is to ensure that the competitor's feet are within the 1 metre square at each station.
21. The Referee should take up a position as recommended for each station.

TRAP SHOOTING RULES Section 1

Any reference in these rules pertaining to "him" will also mean "her".

1.1 SAFETY

- (a) All guns must be immediately opened upon removal from a gun rack or car to determine that they are indeed empty.
- (b) All guns carried on or about the shooting ground must be held in a position of safety, with the breech open and unloaded at all times.
- (c) Shooting on the grounds at any place other than the firing point at legitimate targets only is prohibited except where a pattern plate is installed, and then only with permission of club Management.
- (d) Firing the gun in any position other than orthodox, i.e. to the shoulder, is prohibited (with the exception of a physical disability).

Any shooter firing a gun from any position other than orthodox will be immediately suspended by the Club Management and reported in writing to the Executive Committee - a minimum penalty of three months suspension shall apply.
- (e) All guns must remain fully open until the result of the previous target has been called. The shooter must immediately open the gun upon having fired at his target, and must not move, attempt to turn around or move back up his shooting lane until his gun has been opened.
- (f) Shooters experiencing a misfire or malfunction must remain with their gun pointed in the direction of the traphouse until the referee arrives to adjudicate.
- (g) During any event, competitors must remove all cartridges from their guns immediately upon the red signal at the traphouse, or if any official approaches the traphouse concerned.
- (h) The competitor's gun must remain fully open until all persons on the shooting tracks have withdrawn to a handicap mark at least equal to his own.
- (i) Release trigger guns shall not be left in gun racks or in positions where they can be mistakenly handled, but shall be constantly under the control and supervision of the user and shall be labelled as per Rule 4.11 (b) (iii).
- (j) Powder loads for re-loads must not exceed the manufacturer's recommended specification. Shooters exceeding the

recommended load shall be deemed to be in breach of the safety regulations.

- (k) Any shooter considered to be in breach of any safety rule will be immediately suspended by the club management for one (1) calendar month pending an investigation into their actions by the relevant State Association.

1.2 PROCEDURE

- (a) A competitor must be at the firing point within two minutes after having been called by the official referee, scorer or a member of the Club Management. Failing therein he may be disqualified or penalised with loss of targets and may be re-squadded in the last squad at the discretion of the club.
- (b) A target must be thrown for No 1 shooter on his call at his first and subsequent visit to each trap, or after a break in shooting.
- (c) When at the firing point ready for competition, the competitor shall distinctly give the command "pull" or a similar command to the referee and thereafter the competitor is in the competition.
- (d) A shooter must stand on the station, position himself, load his gun and call for his target within 10 seconds after the shooter preceding him has completed his firing and after the Referee has given the signal to commence firing or to resume firing.

Non compliance with the above will draw a warning from the Referee, subsequent occurrences per event will be penalised one target each.

- 1.3 (a) When it is his turn to shoot, a competitor shall close his gun only when at the firing point and facing the traps, he must remove the cartridge or cartridges from his gun before turning from the firing point on No. 5 lane and proceeding to No. 1 lane and shall not reload until standing on No. 1 lane. The cartridge or cartridges must be removed from any magazine gun between each lane.
- (b) Provided he is standing on the mark from where he is going to shoot, a competitor may drop cartridges into the breech whilst he is waiting his turn to shoot.
- (c) Shooters must not close or attempt to mount the gun to the shoulder until the result of the previous shot has been called by the referee.
- (d) All competitors in a squad shall automatically change lanes. Once having fired his shot, a competitor may move back along his own shooting lane but must not move off his shooting lane until the next competitor has fired his shot or a vacant lane exists between competitors.

The next shooter on number five lane who, having removed cartridges from his gun before turning round, may proceed to number one lane, but must not re-load until he is standing on the lane.

No person shall close his gun until all persons on the shooting tracks have withdrawn to a handicap mark at least equal to his own.

- (e) Unless, in the opinion of the referee, it is contrary to the equity of the competition, a competitor taking part in the competition may shoot at pieces of his own target, if he so wishes.
- (f) Empty shells on the ground must not be collected by anyone whilst the shooters are on the tracks. Only those people directly associated with the competition will be on the ground whilst the shoot is in progress.
- (g) No competitor shall make, negotiate or discuss any bet (either on his own shooting or that of any competitor) whilst he is at the firing point or shooting tracks for the purpose of making, negotiating or discussing any bet. If any competitor infringes this rule, he may be disqualified by the referee.
- (h) All members in a squad must remain at the shooting tracks until the last competitor has shot.
- (i) The officiating referee or the Management must adjust the trap immediately if it is not throwing regulation targets. Immediately following such alteration a target must be thrown and the competition continued.

1.4 SQUADS

- (a) Competitors shall be in squads with a maximum of 6; where there are withdrawals from a squad or squads after the competition has begun, squads will be closed up before each run over any trap. No. 1 competitor in each squad shall always start the shooting. The club, at its discretion, may require competitors to change starting lanes on each trap as follows: No. 1 competitor shall commence shooting from Lane 1 on Trap No. 1, Lane 2 on Trap No. 2, Lane 3 and so forth over all the traps. This rule shall also apply to Double-rise.
- (b) Managements have the right to divide the number of targets by the number of traps available, shooting 6, 7 and 8 targets per visit per trap. Illustration No. 1: 15 targets, 2 traps, 1 visit. No. 1 competitor shoots 8 targets on trap No. 1, finishing on Lane 3. No. 1 competitor now starts on lane 4 on trap No. 2 and shoots 7 targets, finishing on Lane No. 5. Illustration No. 2: 30 targets, 5 traps, 6 targets per trap, one visit. Clubs must preserve equality by lane changing between traps.
- (c) In events of more than twenty-five (25) targets, Managements of the clubs with multi-trap facilities may start squad No. 1 on trap No. 1., squad No. 2 on Trap No. 2, squad No. 3 on Trap No. 3 etc, and shoot up to half the number of targets in the event per trap. For the second round squad No. 1 will advance up to half the number of traps available.

Examples

- For a three (3) trap layout, squads Nos 1, 4, 7 etc, will shoot their first round from trap No. 1 and will advance to trap No. 2 for their second round - squads 2, 5 and 8 will advance from Trap 2 to Trap 3.
- For a four (4) trap layout, squad Nos 1, 5, 9 etc, will shoot their first round from Trap No. 1 and will advance to Trap No. 3 for their second round - squads 2, 6 and 10 will advance from Trap 2 to Trap 4.

- (d) Events of 25 targets but not greater may be shot in a visit to a trap.
- (e) In any squad where no more than three shooters commence in the squad, shooters will initially occupy stations one, three and five. In any squad where only two shooters commence in the squad, shooters will initially occupy stations one and three. This procedure shall also apply to shoot-offs.

- 1.5 (a) The referee shall release the target instantly in response to the competitor's acceptable call. If a shooter fires at what is considered to be an irregular target or a fast or slow released target, he must abide by the result.

- (b) Club Management have the option of conducting events using separate Button Pushers, Phono Pulls, Referees and Scorers.

The Referee shall have an uninterrupted view of the competitors at the firing points.

1.6 BROKEN TARGETS

A broken target is one which has a visible piece or pieces broken from it, whilst in the air, by the shot from the competitor's gun.

1.7 DUSTED TARGETS

- (a) A "dusted target" is one from which more or less dust is detached by the competitor's shot, but which shows no visible diminution in size therefrom. A dusted target is not a broken target and is a "lost target".
- (b) A whole target when fired upon is to count even if it falls outside legal limits because of wind or some other factor.

1.8 NO TARGETS

After "no target" has been called by the Referee under any of the following conditions it thereafter plays no part in the competition and is irrelevant to it. No target shall be called when a target is refused for the following reasons.

- (a) A target is released without the competitor's call and the target has not been fired at.
- (b) A time interval occurs before or after the competitor's call unless the target is fired at.
- (c) A target does not conform to the definition of a legal target as regards height, distance or angle thrown and the target has not been fired at. Note: If in the opinion of the Management, an excess of refusals is recorded, the Management has the right to check the shooter, referee and equipment.
- If in the opinion of the referee, legal targets are being refused, the referee may call "lost target".
- All refusals must be recorded on the score sheet as "R".
- "No target" shall be called when:

- (d) A broken target is released.
- (e) In single target shooting, two targets are released at the same time.
- (f) When a competitor shoots out of turn or from the wrong lane.
- (g) Two competitors, or a competitor and a non-competitor shoot at the same time, at the same target.
- (h) A misfire or malfunction occurs in either barrel caused by the competitors gun or misfire of a cartridge due to no neglect on the competitor's part. In the event of a misfire of the second barrel, the competitor must fire a live cartridge in the general direction of the target, and is permitted to score with the second barrel only. If the competitor accidentally breaks this target with the first barrel, "no target" shall be called and another thrown; if he again breaks this with the first barrel, "Lost target" will be scored. If in the opinion of the referee the first shot was fired before the target was visible, "Lost target" shall be scored.
- (i) A simultaneous or near simultaneous discharge occurs, i.e., from any cause both barrels are discharged together or nearly together. Simultaneous discharges shall be recorded as a malfunction.
- The following are considered malfunctions of ammunition:
- Failure to fire when firing pin indentation is clearly visible;
 - When only the primer fires;
 - When the powder charge has been omitted;
 - When the powder charge is not ignited;
 - Components of the load remain in the barrel.

THE REFEREE MUST DECIDE.

All misfires and malfunctions must be marked on the score sheet as "M".

- (j) A different coloured target than being used for the event is thrown and not fired at. Firing at the target shall cause it to be considered a legal target with the result to stand.
- (k) No target shall be allowed for the first target of any visit to a trap if a safety catch is engaged.

1.9 BAULK

- (a) Any extraneous occurrence, which in the opinion of the referee materially interferes with the equity of the competitor after he calls for his target constitutes a baulk.
- (b) The sun shall not be considered as an interference. It must be considered as a normal hazard.
- (c) Under no circumstances will a baulk be granted unless claimed by the competitor immediately it occurs, of if, in the opinion of the referee, a baulk has occurred, he may restore the competitor's target.

1.10 LOST TARGET

Lost target shall be called when:

- (a) A competitor fails to break the target.
- (b) The competitor fails to shoot because his gun is unloaded, or because the safety was faultily adjusted or jarred back, whether from his oversight or not, or because of any other cause chargeable to his oversight or neglect providing it is not the first target of any visit to a trap. Should this happen in a double rise event, the first target only should be declared lost and a proof pair shall be thrown to determine the result of the second shot only. However, a shot shall be fired at each target in the proof pair.

REFER 1.8(K)

- (c) The competitor has an apparent misfire or malfunction and attempts to open the gun before the referee examines it. A competitor having an apparent misfire or malfunction will forthwith call the Referee for his decision. The competitor must not turn around and must keep his gun pointed in the direction of the trap house until the Referee has given his decision. If a competitor's gun breaks down and it is necessary to seek a replacement the competitor is allowed five (5) minutes to do so. If this is not possible the competitor may leave the squad and finish the remaining targets of the round at a time decided by the Referee or when a vacancy occurs.
- Should a gun malfunction occur during a shoot-off, the competitor has 5 minutes to repair or replace the gun. Failure to comply "Lost target".
- (d) In single barrel shooting, the competitor loads two cartridges into the gun. A competitor is allowed to load one cartridge only and is not permitted to load an empty shell or dummy cartridge.
- (e) (i) When firing, the competitor's feet must be behind any line indicating the firing mark assigned to him, must stand with both feet completely within 1 metre square; this square shall extend 50 centimetres either side of the centre of the shooting lane and shall extend backwards 1 metre from the assigned handicap mark.
- (ii) However, provided his front foot is as close as possible to the forward edge of a shooting square, a shooter with a wide stance will not be penalised if his back foot extends beyond the rear edge of the shooting square.
- (f) The fourth and subsequent malfunction in any one event occurs. However, at the end of each 100 targets in any one event, the malfunctions that have occurred shall be cancelled, and the count shall re-commence from zero.
- (g) A target is dusted.
- (h) A whole target was fired upon and missed, but was blown out of bounds or fell short of distance due to adverse weather conditions.
- (i) An illegal target was fired upon and missed. A competitor may refuse illegal targets, but if he shoots, the result must be scored.

1.11 ABIDE BY RESULT

Should there be a faulty cartridge, misfire or malfunction in the first barrel, in any type of event, and the competitor fires the second barrel where this is possible, the competitor shall abide by the result and shall have no claim to a repeat target for the first barrel. Where this happens in a points scoring event and the target is broken with second barrel, the decision shall be as follows:

- (a) If there was no detonation of either primer or powder with the first barrel the score shall be "3".
- (b) If there was a detonation of either primer or powder with the first barrel the score shall be "2".

In both cases if the target has been missed with the second barrel the score would be lost.

1.12 ALTERING A REFEREE'S DECISION

- (a) The Referee has power to alter his decision. If altering his decision on "Lost target" or "Baulk" etc, during the competition, this must be done before the shooter in question shoots his next target or the shooter leaves the tracks should this be his last target.
- (b) A competitor may appeal against the decision of a referee in regard to interpretation and application of these rules. The competitor shall advise the referee before he leaves the shooting track that he intends to appeal, and, immediately upon completing his run over the traps the competitor shall lodge a written appeal and \$20 forfeit with the Management. The Management shall enlist the aid of at least three, including any Executive Committee Members, Referee Examiners, Rules Supervisors, or official Referees on the grounds, to examine the matter, and should the competitor's appeal be upheld, his forfeit shall be returned and the correct ruling shall be applied to the target appealed against. Should the appeal be disallowed, the forfeit shall be paid to the club concerned. There shall be no appeal against a referee's decision in regard to whether a target is legal or whether it has been missed.

TYPES OF SHOOTING

1.13 DOUBLE BARREL

Double Barrel shall be shot with two barrels permitted and a score on either barrel to be of equal value.

1.14 SINGLE BARREL

For Single Barrel the competitor is permitted to load one cartridge only in the gun.

1.15 POINTS SCORING

Points scoring shall be shot as Double Barrel where a score on the first barrel is scored three points, a score on the second barrel is scored two points, and no points for a loss with both barrels.

1.16 DOUBLE RISE

- (a) Double Rise shall be shot squad system and may be off handicap or championship marks and called by the referee, 1-1 or lost - 1 or 1 - lost or lost lost, whichever the case may be, each target to count one point.
- (b) A competitor must shoot at a complete pair of targets on every occasion, each target broken by the competitor's shot shall score one point, two barrels must not be attempted to be fired at one target.
- (c) IT IS "NO TARGET" and the referee shall declare "no target" and allow the shooter another pair under the following conditions:
1. When only one target is thrown
 2. When both targets are broken by one shot

3. When there is an allowable misfire on either shot
4. In the event of a misfire or malfunction on the second barrel, the referee shall declare "No target on the second barrel". The result of the first shot shall stand and a proof pair thrown to determine the result of the second shot only.
5. Should a gun malfunction occur during a shoot-off, the competitor has 5 minutes to repair or replace the gun. Failure to comply "Lost target".
6. When one or both targets are thrown broken even though the shooter fires one or both shots.
7. If one or both targets of a pair are not within the prescribed angle or height limits, it is "no target" if the shooter does not fire either shot. If the shooter shoots at an illegal first target and the SECOND target is LEGAL, he must also shoot the second target. However, a shooter is not required shoot at an illegal second target even though he shot at the first target which may have been either a legal or an illegal target.
In this case the result of the first shot shall be scored, and a proof pair thrown to determine the result of the second shot only.
8. When both targets are not released simultaneously.
9. When one target or both targets are thrown at a wider or narrower angle or angles than is set forth (subject to the following conditions): If the shooter deliberately shoots at the same target twice, both targets shall be called "lost".
This rule is not applicable to a gun "doubling" or "machine gunning". These are malfunctions and are not deliberate second shots.

1.17 A check Referee shall be employed for Deauville Doubles and Double Rise competition with the chief Referee to give the decision.

1.18 DEAUVILLE DOUBLES

- (a) Deauville Doubles shall be shot with four competitors on the tracks at one time, the first pair using lanes 1 and 5 and the second pair using lanes 2 and 4. After shooting first round of 5 pairs, competitors then change lanes, first pair taking lanes 2 and 4 and second pair taking lanes 1 and 5. The shoots shall be conducted first miss-out from lanes 2 and 4, one team at a time. The competitors may arrange between themselves which lane they will take, and who will call for the release of the clay targets, which will be released instantly on the competitor's acceptable call. In the event of a false call by either competitor they must abide by the result. Only pairs will count, and as 1 point. Either competitor can help his partner.
- (b) Any faulty cartridge, misfire or malfunction in Deauville Doubles does not entitle the competitors to another pair of targets and they must abide by the result.
- (c) The caller shall determine whether the targets be accepted. If in the event of targets being released without any call and the non caller fires, the target shall be called "no target".
If no call is made and the caller accepts the targets they must abide by the result.

1.19 WALK UP

Walk-up events shall be shot double-barrel from No. 3 lane, squad system. The competitor shall load his gun at the 22 metres mark; when ready in this position he commences to walk at a normal walking pace, holding his gun in such a position that the butt of the gun must be level with his hip and cannot be mounted to the shoulder until the target is released. The Referee/puller shall release the target between the 20 metres and 15 metres marks inclusive, the mark being unknown to the competitor, having previously been determined by an indicator or dice. No. 1 competitor shoots at one target, he then returns to the rear of the squad, each competitor doing the same in turn.

1.20 WALK UP POSITION OF SAFETY

- (a) A loaded gun shall be deemed to be in a position of safety when it is the competitor's turn to shoot and he faces and points the gun in the general direction of the trap house, having the gun in the gun-down position.
- (b) Having fired at the target, or in the event of a no target, the competitor shall open his gun and remove all live shells and fired cases before attempting to turn around and return to the rear of the squad or to recommence his walk.

1.21 MIXED TARGETS

A mixed target event shall be a combination of a series of Double Barrel, Single Barrel, Points Score and Double Rise targets. Shot squad system under rules applicable to the appropriate section with target numbers and shooting marks in accordance with the appropriate championship.

1.22 TOWER EVENTS

- (a) Tower events may be shot Double Barrel, single barrel, points scoring and Double Rise squad system, competitors in a straight line left to right, with centre No. 3 competitor standing in front of the centre of the tower. Whilst at the firing point the competitor must not turn towards the tower, but must face directly to the front throughout the competition.
- (b) Shooters stand 3 metres apart at the rear of the concrete track, as for down-the-line trap shooting. The track is 1.5 metres from the front to rear and each shooter must stand at the rear of this track until it is his turn to shoot. He then steps forward up to, but not over, the leading edge of the track which then puts him 1.5 metres in front of a vertical line from the centre pivot point of the trap. After shooting, he breaks his gun and returns to the rear of the track.
- (c) When Number 5 shooter has shot, he walks to the rear of the tower and around to the No. 1 station.
- (d) The trap shall be 10 metres above the ground, plus or minus 1 metre, mounted on a tower. Targets shall be thrown at standard angles, i.e. 45 degrees either side of the centre line. Tower targets shall be thrown within a minimum of 75 metres and a maximum of 85 metres, measured laterally along the base point of a vertical line from the

centre pivot of the trap. The targets shall leave the trap as near to horizontal as practical.

- (e) (i) **Grades will be determined on the first 50 targets shot in competition.**
- (ii) Grade percentages - A grade 96% and over. B grade 91-95%. C grade 90% and under.
- (iii) Re-grading will take place on each additional 200t.

1.23 CONTINENTAL

Continental events shall be shot Double Barrel, Single Barrel and points scoring with the traps set as follows:

- (i) Low targets shall be thrown 1.5 metres above the level of the centre lane at a point 10 metres from the trap, with a tolerance of 15 centimetres above or below.
- (ii) High targets shall be thrown 5 metres above the level of the centre lane at a point 10 metres from the trap, with a tolerance of 15 centimetres above or below.
- (iii) Distance - the low target shall be thrown a minimum 45 metres and a maximum of 55 metres.
- (iv) Angles - flight of targets shall be thrown at unknown angles a maximum of 45 degrees right and left of the centre lane.

1.24 TIES

- (a) Commonwealth, State, Zone and District championships shall be shot off squad system, first miss out. All competitors to commence on the same trap, competitors shall be squadded in the order they qualified. Competitors shall close up when commencing at each trap or at the recommencement of shooting after a break for ammunition where the shoot-off is being solely conducted on one trap. Shoot-off competitors shall carry enough shells for a complete run over each trap or for at least 25 targets where the shoot-off is being conducted over one trap. Failure to comply "lost target".
Competitors shall be re-squadded at the commencement of each run over a line of traps or immediately there is only one survivor of a run over a particular trap (i.e., no competitor shall be required to commence a run over a trap on his own unless he is the last competitor in the shoot-off).
Initial shoot-off squads shall not comprise any more than five shooters unless there are no more than six shooters contesting the shoot-off.
- (b) **Deauville Doubles:** First miss-out shot from lanes 2 and 4 as per Rule No. 1.18 (a).
- (c) **Double Rise:** In the event of a tie to be shot off squad system, 5 pairs, total 10 points until finality.
- (d) **Walk Up:** To be shot from centre lane, best of five targets until finality.
- (e) **Mixed Targets:** To be shot in any order from No. 3 lane, 2 Double Barrel, 2 Single Barrel, 2 Points Score, 2 pair Double Rise. Total 14 points until finality.
- (f) **Tower Double Barrel, Single Barrel and points scoring shoot-offs** to be shot squad system, first miss out.
- (g) In all shoot-offs, competitors shall shoot in the order in which they qualified.
- (h) At the discretion of club Management, DTL shoot-offs may be conducted in conjunction with the following event providing it is the same type of event.

1.25 HIGH GUN

- (a) High Gun shoot-offs at National Championships shall comprise of 5t Handicap 5tDB (15m), 5tSB (15m), 5tPS (15m), 5tDB (18m), 5tSB (18m), 5tPS (15m), 5tprDR (15m) continuing until such time as the winner is determined.
- (b) The High Gun for a shoot shall be over the advertised program comprising a minimum of two events or such events as the club, at its discretion, has advertised. In the event of a tie for High Gun, where such program included varied types of events, the shoot-offs shall consist of rounds of two of each type of targets (D.B., S.B., Points, D.R. two pairs off the prescribed marks where applicable) on the High Gun program, all to be shot from the centre lane with the highest scorer, over the full round, to be the winner.
Points events must count as points to determine High Gun.
- (c) When ISU Disciplines are involved, any two targets shall be shot from the centre station.
- (d) To be eligible for High Gun recognition in any section, competitors must have competed in a clear majority of programmed events.
- (e) **When graded High Guns are awarded over a program, each competitor will remain in the grade first nominated in, even if his grade or handicap changes during the program.**
Rule 2.7 shall apply at all times.

HANDICAPPING/GRADING

Section 2

2.1 COMMON MARK SHOOTING AND CLASSIFICATION

- (a) All appropriate 15 metre scores shall be recorded for percentage performance classification irrespective of how the event is run.
Note: All targets that are shot under common mark competition conditions to be entered on the ACTA shooters record card - with the exception of Double Rise events.
- (b) A graded event is a competition common mark shooting event in which all the competitors shoot from the same mark and prizes are allocated for various classes of competitor.
- (c) Shooters shall be graded into four grades by their percentage performance at all standard targets fired upon in common mark 15

metre competition day or night, including shoot-off targets, in Double Barrel and points scoring events with broken targets to count. Results in handicap events or off common marks other than 15 metres shall not be included.

- (d) Grades shall be:
AA 97% and over; A 94% and under 97%; B 87% and under 94%; C 80% and under 87%. Note: Club Managements have the option of shooting D Grade under 80%.
- (e) All shooters not previously registered with the ACTA and competing for the first time in common mark events will be graded on the first 50 targets shot in competition, under the common mark classification.
- (f) Club Managements have the option of running common mark events AA, A, B, C, A, B, C, OA, A, B, C, First, Second, Third.
- (g) The grade earned by a shooter on his 15 metre results shall be his classification for all common mark events.
- (h) **It shall be the responsibility of a designated club official to progressively mark the shooters card with his 15 metre results and after each 200 targets regrade the shooter, if necessary.**
Note: All shooters having shot at 200 targets would be graded. Any one (1) bad score entered on the Double Barrel column would be wiped off and transposed for any one (1) good score from the other events column (off equal target amounts if possible).
If the 200 targets fall during an event or shoot-off, regrading will not take place until the completion of that event. All targets to the end of that event and shoot-off targets are to be used in calculation of percentage. When he re-registers the shooter shall be placed in the allowable grading indicated by his percentage, at the conclusion of his last 200 targets. If he has not shot at 200 targets during the year he shall be graded on the percentage of the targets shot at up to the time of re-registration.

- (i) A shooter must shoot a minimum of two (2) consecutive groups of 200 targets at a lower grade percentage to be down graded in any one year.

Once having shot two consecutive groups of 200 targets, all targets used shall be counted. A shooter may be upgraded in any one calendar year, but not down graded. All scores after the last grading must be carried forward onto the new handicap card. Any C grade shooter having recorded a 50t break from the common mark shall be re-graded to B grade.

- (j) No shooter, other than those awaiting the issue of a card after registering for the first time, shall be allowed to enter in any competition unless he submits his card to the designated club official on each shooting day. However, if a shooter has lost his card he shall be allowed to compete providing he is registered with the ACTA.
- (k) He shall be allowed to compete in his grade in common mark events and shall be allowed to compete in handicap events from the mark he claims to be his correct handicap mark. Should he win prize money or trophies they shall be retained by the club until such time as the shooter finds his card or obtains a new one and presents it to the club for marking.
- (l) Should it be found that the shooter has claimed the wrong handicap mark or grade, the State Association shall advise the nearest Executive Committeeman so that the matter may be investigated.
- (m) Should it also be found the shooter deliberately misled the club Management regarding his grade and/or his handicap, the shooter be suspended for a period of three (3) months.
- (n) A shooter must not shoot in a grade higher than his best performance. Once having attained a grade he may elect to remain in that higher grade at the time of re-registering or re-classification. If a shooter elects to shoot in a grade higher than his percentage indicates after 400 targets, he must stay in the higher grade until he has shot at a further 400 targets to be downgraded.
Note: If the shooter elects to shoot in a grade higher than his percentage indicates, the club handicapper is to mark his card "prefer A Grade" etc.

Once attaining A Grade a shooter cannot be reclassified as C grade. Once attaining AA Grade a shooter cannot be reclassified to B grade. Other than in the authority vested in rule 2.7.

- (o) Any shooter re-registering after a period of non-registration shall be placed in the same grade and handicap as when he was last registered.
- (p) Managements conducting graded common mark events shall provide a minimum of one equal value prize or trophy for each grade. Unless the Management clearly advertises otherwise, the optional sweepstakes on graded common mark events shall not be broken up into classes but shall be compulsorily divided over the whole field.

2.2 HANDICAP SHOOTING

- (a) No competitor is permitted to shoot from other than his ACTA handicap mark, except in novelty events, common mark graded trophy events, common mark open championship events or eye opener events preceding common mark events, which shall be shot from the same mark as the common mark event.
All common mark graded events must be shot within the common mark rules.
- (b) All handicap events must be shot from ACTA handicap marks.
- (c) All targets shot under competition conditions will be graded and handicapped according to the formula.

2.3 ACTA TRAP HANDICAPPING FORMULA

- (a) State Associations must elect State and Zone handicappers to advise and assist club handicappers and re-handicap any obviously under handicapped or over handicapped, under graded or over graded shooter.
- (b) (i) Each club must appoint an official to handicap and grade shooters, check to see that all common mark and handicap

scores are entered on cards and to check that handicap and grade changes are recorded on cards.

- (ii) To re-handicap or re-grade any obviously under handicapped or over handicapped, under graded or over graded shooter.
- (iii) To advise the Club Secretary of any changes in grading or handicapping for forwarding to the ACTA office within 14 days.
- (c) (i) Minimum handicap marks are tied to grades:
C Grade - 11 metre, B Grade - 16 metre
A Grade - 18 metre, AA Grade - 20 metre
- (ii) Maximum handicap marks:
C Grade - 15 metre, B Grade - 17 metre
A Grade - 19 metre, AA Grade - 22 metre
- (d) 1 metre backward movement to apply to any handicap win (regardless of score).
- (e) 1 metre backward movement to apply to group winners in a group event (regardless of score).
- (f) All handicap events including Sweepstake, must be shot to finality - broken targets to count and not points to determine the possible.
- (g) (i) Back mark for all handicap shooting to be 22 metres
(ii) Maximum load 32g
- (h) Any competitor winning overall in any championship event from behind his ACTA handicap mark will be re-handicapped to that mark (refer Rule 2.3D).
- (i) All shooters who shoot 50 targets straight from or behind their handicap mark and are not re-handicapped under Rules 2.3(C), 2.3(D), 2.3(E) will be handicapped 1 metre. A shooter can only be re-handicapped 1 metre per event, except as in Rule 2.3(C), 2.3(H).

2.4 INWARD MOVEMENT

- (a) Inward movement of 1 metre will apply for every 200 handicap targets shot unless a penalty has been incurred in that 200 targets (refer Rule 2.3(O)).
- (b) A competitor may apply through the State Handicapper for inward movement due to proven physical disability.
- (c) In handicap events competitors must shoot from their approved handicaps. If the competitor shoots from any other mark, the target is lost.
- (d) In handicap events competitors must shoot from their approved handicaps. If the competitor shoots from any other mark the target is lost.

2.5 GENERAL

Club Management and Secretaries are instructed that after any event the Management must immediately re-handicap each and every shooter who for any of the reasons prescribed in the ACTA Handicapping Formula qualified for any movement off his handicap. Such adjustments are to strictly conform with the handicapping formula.

No shooter is to be permitted to compete in another event should he refuse to accept their new mark.

Handicap details concerning on the spot adjustments are to be forwarded to the ACTA office within 14 days.

- 2.6 (a) If some clerical error appears on a shooters handicap card, or if a shooter is re-handicapped after any event, it is the shooter's responsibility to have the mistake corrected and to shoot off the correct handicap mark.
- (b) Errors and/or amendments may be corrected by the Club Secretary, a member of the Executive Committee of the ACTA, Rule Supervisors or the State Handicapper.
- (c) Correction to errors and amendments must be ruled out and signed with the correction or amendment clearly visible.
- 2.7 (a) Club Management, Rule Supervisors, State or Zone Handicappers or a member of the ACTA Executive Committee have the right to re-handicap or re-grade any obviously under handicapped or over handicapped, under graded or over graded shooter immediately, providing the Association is notified within 14 days and the reason given on a handicap return form. If these details are not completed, such handicap movement cannot be ratified.
- (b) Handicap cards may carry a signed directive written by a State or Zone Handicapper, Rules Supervisor or ACTA Executive member.
- (c) Should a shooter's handicap card carry any signed directive given by a State or Zone Handicapper, Rules Supervisor or a member of the ACTA Executive Committee, then no authority is given to any person to vary the directive without the prior consent of the State Handicapper through which the shooter is registered, or a member of the ACTA Executive Committee.
Any alteration to the directive recorded on a shooter's card must be accompanied by the signature of the respective State Handicapper or ACTA Executive member.
It shall be the shooter's responsibility to ensure that any directive placed on their card is carried over to any new or replacement card.
- (d) Any downgrading should be read in conjunction with 2.1(i).
- 2.8 Club managements are informed that a Handicap Return must accompany EVERY result sheet forwarded to the ACTA office within FOURTEEN DAYS of each shoot being held. (Handicap Return pads are available on application to the ACTA, P.O. Box 557, Mount Waverley, Victoria 3149).
- 2.9 SWEEPSTAKES DEDUCTION AND CASH DISTRIBUTION
- (a) Clubs have the option of taking 60%
- (b) No deduction is permitted by clubs in optional sweepstakes.

- (c) In all sweepstakes, distribution shall be on the basis of 60%(1st), 30%(2nd), 10%(3rd). A competitor scoring the only possible in the event wins only 60% (1st place).

All optional sweeps shall be compulsory division as in the above formula. The Management shall clearly indicate on the official score sheet or scoreboard those who have entered for the optional sweep.

- (d) Sweepstakes at State Carnivals or Championships may be decided by the States concerned. State Associations shall have the option of conducting either compulsory or optional sweepstakes at State Carnivals.

Note: TROPHY EVENTS - CASH or OTHERWISE

In all events, including handicap events, for cash prizes or trophies including sweepstakes, trophies and placings shall be decided by shoot-off. The grading and handicap formula will apply.

- (e) The inclusion of either compulsory or optional sweepstakes at National Championships and their method of division to be at the discretion of the Executive Committee. Sweepstakes if included for National Championships shall be determined by scores off the gun and shootoffs shall not apply.
- (f) Jackpots must be determined in the manner for when and which they are introduced.

CHAMPIONSHIP CONDITIONS

Section 3

3.1 CHAMPIONSHIP CONDITIONS -

MACKINTOSH INTERNATIONAL TRAP TEAMS MATCH

International Trap Teams match shall be shot under the conditions that apply at the time.

QUALIFICATIONS

- (a) Each team member shall be an Australian citizen of at least 12 months standing. In the event of a member being unable to take his place in the team, his place will be filled by another shooter, agreed upon by the Organising Committee.
- (b) The necessary highest scores over the National Double Barrel of 50 targets; National Single Barrel of 50 targets; and the Australian and New Zealand Championship of 50 targets; point scoring 3 and 2 shall become Australia's International Team. In the event of a tie, to be shot off in the order of qualification, squad system, at full rounds of 5 targets Double Barrel, 5 targets Single Barrel, 5 targets point scoring 3 and 2, for a possible score of 25, from 15 metres.
- (c) Highest scorer in the Australian team will hold the special International High Gun Cup (presented by the late J M Bauman, Esq of Brisbane) for 12 months (or until the next International match) and will be awarded a special trophy and the International High Gun Sash.
- (d) Every member of the Australian Team will receive the special "International Badge".
- (e) Ladies and junior teams of five (5) shooters will be selected under the above conditions.
- (f) Only ACTA official referees to officiate, scorer and check scorer to be provided, score sheets to be signed by scorers and referees. The team members to be squadded in the order in which they qualify.

3.2 AUSTRALIAN NATIONAL DOUBLE BARREL CHAMPIONSHIP

To be an event which for the time being shall be shot under conditions as determined by the Executive Committee.

3.3 AUSTRALIAN NATIONAL SINGLE BARREL CHAMPIONSHIP

To be an event which for the time being shall be shot under conditions as determined by the Executive Committee.

3.4 AUSTRALIAN NATIONAL DOUBLE RISE CHAMPIONSHIP

To be an event which for the time being shall be shot under conditions as determined by the Executive Committee.

3.5 AUSTRALIA-NEW ZEALAND CHAMPIONSHIP

To be an event which for the time being shall be shot under conditions as determined by the Executive Committee.

3.6 CHAMPION OF CHAMPIONS CUP

To be an event which for the time being shall be shot under conditions as determined by the Executive Committee.

3.7 ENTRANCE FEES

Entrance fees and trophies for all National Championships to be determined each year by the full Executive Committee.

3.8 RON PORTER REMEMBRANCE TROPHY

Shall be determined from the highest overall scores in the six major trap events comprising Grand Australian Handicap, National Double Barrel, Single Barrel, ANZ Double Rise and Champion of Champions. "The actual overall scores to be counted, with the results of the points scoring event to be counted as a figure within the overall result. "In the event of ties, to be shot-off in the sequence of the program, five of each type of trap target on the high gun program.

3.9 J NEWTON THOMAS OVERALL HIGH GUN TROPHY

Shall be determined from the highest overall scorers in the six major events of Grand Australian Handicap, National Double Barrel, Single Barrel, ANZ Champion of Champions, Double Rise. "The actual overall scores to be counted, with the results of the points scoring events to be counted as a figure within the overall result". In the event of ties, to be shot-off in the sequence of the program, five of each type of trap target on the high gun program.

3.10 AUSTRALIA-NEW ZEALAND TRAP TEAMS MATCH

- (a) Teams to consist of six shooters. Both teams shoot at 20 targets per shooter, Double Barrel from 15 metres. Each competitor to shoot from five lanes, squad system. Cartridges shall be the prescribed maximum 32 gram shot load as for all Championship series.
- (b) **Team Selection** - when conducted in Australia: the six top Australian scorers in the Australia-New Zealand Championship comprise the Australian team. When conducted in New Zealand: the Australian team will be selected in accordance with an Executive Committee decision.

3.11 **Venue** - the match to be hosted, alternately by arrangement, in Australia during the odd odd numbered years.

3.12 **Empty shells** - empty shells on the ground at the National Championships are the property of the ACTA.

3.13 TARGETS ONLY

- (a) **Shooting for targets only**, is a term which shall be held to define the status of a competitor in any given event, or events, or in an entire tournament program, and shall signify that a competitor is "shooting for targets only" and has no interest in any trophy or trophies, nor any interest in money or moneys in any specific event or events or in the entire program. The competitor's name shall be placed on the squad board, signifying that he is shooting for targets only. "Shooting for targets only" shall be allowed in any event at the discretion of the Club.
- (b) **Open shoots**, that is Commonwealth, State and District Championships and open competitions (cases where more than \$200 value is allotted for distribution in any one event), must have the approval of the State Association before being advertised or conducted. (This rule applies to the actual event and the date of holding.)
- (c) Clubs allocated Commonwealth Championships and Interstate Teams Matches must advertise the event in the ACTA "Shooting News" at least once, two months before the actual shooting date.
- (d) Clubs allocated State Championships must advertise these events in the ACTA "Shooting News".
- (e) Clubs shall have the option of running all Championships other than State or Commonwealth Championships either as graded events or as one class events.

3.14 COMMONWEALTH CHAMPIONSHIPS

- (a) The Double Barrel Championship shall be shot as a graded event at 50 targets from 20 metres.
- (b) The Single Barrel Championship shall be shot as a graded event at 50 targets from 20 metres.
- (c) The Double Barrel Points Score Championship shall be shot as a graded event 50 targets from 20 metres.
- (d) The Mixed Target Championship shall be shot as a graded event at 10 targets double, 10 targets Single Barrel, 10 pairs Double Rise and 10 Points Score off 20 metres except Double Rise, which is shot off 15 metres total 70 points.
- (e) The Walk-Up Championship shall be shot as a graded event at 25 targets.
- (f) The Double Rise Championship shall be shot as a graded event at 25 pairs of targets from 15 metres.
- (g) The Deauville Doubles Championship shall be shot at 20 pairs of targets from 24 metres.
Conditions: The Management shall provide four trophies - two for first and two for second.
- (h) The Tower Championship shall be shot as a graded event at 40 targets. Double Rise to be shot at 20 pairs of targets.
- (i) The Continental Championship shall be shot as a graded event at 50 targets from 20 metres.

3.15 STATE CHAMPIONSHIPS

- (a) The Double Barrel Championship shall be shot as a graded event at 50 targets from 15 metres.
- (b) The Single Barrel Championship shall be shot as a graded event at 50 targets from 15 metres.
- (c) The Double Barrel Championship shall be shot as a graded event at 50 targets from 15 metres.
- (d) The Champion of Champions shall be shot as a 75t event comprising 25tSB, 25tDB, 25tDB, 25t point score from 15 metres.
- (e) The Mixed Target Championship shall be shot as a graded event at 10 targets Double Barrel, 10 targets Single Barrel, 10 targets Points Score and 5 pairs Double Rise from 15 metres - total 60 points.
- (f) The Walk-Up Championship shall be shot at 20 targets.
- (g) The Double Rise Championship shall be shot as a graded event at 25 pairs of targets from 15 metres.
- (h) The Deauville Doubles Championship shall be shot at 20 pairs of targets from 22 metres.
Conditions: The Management shall provide four trophies - two for 1st and two for 2nd.
- (i) The Tower Championship shall be shot at 30 targets. Double Rise to be shot at 15 pairs of targets.
- (j) The Continental Championship shall be shot at 50 targets from 15 metres.
- (k) The conditions of entry for State Championships shall be the same conditions as apply for National Championships.

3.16 ZONE CHAMPIONSHIPS

- (a) The Double Barrel Championship shall be shot at 25 targets from 15 metres.
- (b) The Single Barrel Championship shall be shot at 25 targets from 15 metres.

- (c) The Double Barrel Points Score shall be shot at 25 targets from 15 metres.
- (d) The Mixed Target Championship shall be shot at 10 Double Barrel, 10 Single Barrel, 10 Points Score and 5 pairs Double Rise targets - total 60 points.
- (e) The Walk-Up Championship shall be shot at 20 targets.
- (f) The Double Rise Championship shall be shot at 15 pairs of targets from 15 metres.
- (g) The Deauville Doubles Championship shall be shot at 20 pairs of targets from 22 metres.
- (h) The Tower Championship shall be shot at 25 targets.
- (i) The Continental Championship shall be shot at 25 targets from 15 metres.

3.17 DISTRICT CHAMPIONSHIPS

- (a) The Double Barrel Championship shall be shot at 25 targets from 15 metres.
- (b) The Single Barrel Championship shall be shot at 25 targets from 15 metres.
- (c) The Double Barrel Points Score Championship shall be shot at 25 targets from 15 metres.
- (d) The Mixed Target Championship shall be shot at 5 Double Barrel, 5 Single Barrel, 5 Points Score and 5 pairs Double Rise - total 35 points.
- (e) The Walk-Up Championship shall be shot at 20 targets.
- (f) The Double Rise Championship shall be shot at 10 pairs of targets from 15 metres.
- (g) The Deauville Doubles Championship shall be shot at 20 pairs of targets from 20 metres.
- (h) The Tower Championship shall be shot at 25 targets.
- (i) The Continental Championship shall be shot at 25 targets from 15 metres.

3.18 CHAMPIONSHIP TROPHY VALUES AND NOMINATIONS

In all Championships the Management shall provide a sash or badge for the overall winner.

3.19 INTERSTATE TEAMS MATCHES - DTL

- (a) **Team 15 members, 10 highest scores to count. 50 targets per member from 15 metres, Double Barrel points scoring, 5 lane squad system to be shot in two stages of 25 targets per visit. In the event of a tie for High Gun to be shot off squad system, points scoring first miss out. International load shells 28 grams shot No. 6 size or lighter only.**
Manual - Automatic or electric oscillating traps to be used.
- (b) Ladies and Juniors to comprise 6 shooters to shoot at 25 targets. Double Barrel points scoring from 15 metres, changing after each shot, and 5 scores to count.
- (c) **QUALIFICATIONS** - each team member shall have registered in the State which he represents and may only represent one State in any one year.
- (d) State Associations shall choose their team on the results of an elimination shoot or series.
- (e) An appropriate High Gun trophy shall be provided and a souvenir badge shall be given to each member of the State Team (15) by the club conducting the event - badges are available on application from the ACTA. The program and venue of the Interstate Teams Match shall be advertised in the ACTA "Shooting News" at least two months prior to the State Teams elimination shoot, and the State Teams Match.
- (f) The club conducting the Elimination Match shall provide compulsory division prize money of \$150 or 40% of the total nomination, whichever is the greatest. Where there are no tied scores, the distribution will be 60% for 1st, 30% for 2nd and 10% for 3rd. (This rule does not apply where the selection is conducted over a series.)
- (g) Maximum nomination for the elimination match shall be as set by the Executive Committee from time to time.
- (h) Only official ACTA Referees to officiate, scorer and check scorer to be provided. Score sheets to be signed by Scorers and Referees.
- (i) No other major shoot is permitted in the particular State on the day or days when elimination and State Teams Shoot is held.
- (j) Results of the competition, which must be completed by December 31, must not be publicised until all teams have contested. These result, including the score sheets signed by both the Referee and Principal Scorer, must be sealed and lodged with the ACTA Executive Director by December 31. Weather conditions during the match are required. A check scorer should be used at each set of tracks. Final details of the Interstate Teams Matches to be published in the first available ACTA Shooting News.
- (k) **Should a tie occur between competing teams, then the score sheets shall be checked, points scoring, with a countback for the 10 members of each team (or the 5 ladies and 5 juniors) to break the tie.**
All Targets shot shall count and competition completed as soon as possible, commencing from where the competition was suspended.

3.20 ISU TEAMS MATCHES

The qualifying event shall be conducted over either 50 or 100 targets. Teams are to consist of 6 shooters with the top 4 scores to count - the course of the team's event is to be 100 targets ISU Ladies and Junior teams to consist of 4 members with the 3 best scores to count - 25 targets per member.

All targets shot shall count and competition completed as soon as possible, commencing from where the competition was suspended.

ADMINISTRATION

Section 4

- 4.1 TRAP LAYOUT
 - (a) A standard trap layout shall consist of five firing points arranged on the arc of a circle of radius 16 metres and whose centre is the trap. Firing points to be 3 metres apart, numbered 1-5 from left to right when viewed from the firing points and facing the trap, with No. 3 firing point directly behind the trap.
 - (b) A horizontal line joining No. 3 firing point and the trap and prolonged indefinitely will be known as the 'Centre Line'.
- 4.2 FIRING POINTS FOR HANDICAPS
 - (a) These firing points are situated at intervals of 1 metre from 11 to 25 metres behind the trap on lines from the trap extended through the firing points for standard trap layout. These firing points may be referred to as 'Handicap Marks' and each line of firing points shall be known as a shooting lane.
 - (b) The 11 metre mark is to be measured from the top centre pivot point of the trap.
- 4.3 This collection of firing points and shooting lanes, forming a fan shaped pattern, shall be known as the 'Shooting Tracks' and on each lane distances should be clearly marked to signify the forward limit of each firing point.

- 3.24 SASHES
 - (a) Sash colours for clubs to be any colour other than those designated for National, Commonwealth (both royal blue), State (red), Zone (light blue) and District (white) Championship sashes.
 - (b) Any person or persons or organisations may donate a trophy or trophies for competition but must comply with ACTA rules.
- 3.23 BALL TRAP
 - (a) Commonwealth, State, Zone and District Titles may be conducted using the rules of UIT.
 - (b) Grading shall be as ISU Trench, AA 95% and over, A 85% and under 95%, B 75% and under 85%, C under 75%.
 - (c) State and Commonwealth Ball Trap Titles to be of 50 targets (minimum), 100 or 200 targets.
 - (d) Zone and District Titles to be of 50 targets (minimum) or 100 targets.

- 3.22 ISU CHAMPIONSHIPS
 - (a) Commonwealth, State, Zone and District Championships may be conducted using International Shooting Union Rules.
 - (b) The Conditions of Entry for State Championships shall be the same conditions as apply for National Championships.
 - (c) District ISU Championships to be of 50 targets or 100 targets.
 - (d) Zone ISU Championships to be of 50 targets or 100 targets.
 - (e) State ISU Championships to be of 100 targets or 200 targets.
 - (f) Commonwealth ISU Championships to be of 200 targets.
 - (g) State or Commonwealth Universal Trench (5 trap) to be of 50 targets (minimum), 100 or 200 targets.
 - (h) All ISU events shall be run as graded events and equal trophies shall be provided for each grade.
 - (i) Shooters shall be graded into four classes by their percentage performance at all targets fired upon in competition, and shoot-offs, from 15 metres at either ISU Trench or UIT Trap and Double Trap.
 - (j) The grades shall be: AA - 95% and over, A - 85% and under 95%; B - 75% and under 85%; C - under 75%.
 - (k) It shall be the responsibility of a designated club official to progressively mark the shooter's card and after each 200 targets, regrade the shooter if necessary.
 - (l) Note: If the 200 targets fall during an event or shoot-off, regrading will not take place until the completion of that event.
 - (m) All targets to the end of that event and shoot-off targets are to be used in calculation of percentage. When he re-registers, the shooter shall be placed in the allowable grading indicated by his percentage at the conclusion of his last 200 targets. If he has not shot at 200 targets during the year he shall be graded on the percentage of the targets shot up to the time of re-registration.
 - (n) A shooter may have his grade increased after shooting 200 targets but must shoot two consecutive groups of 200 targets at a lower grade percentage to be down-graded. All scores after the last grading must be carried forward onto new handicap card.
 - (o) Until such time as a shooter records his initial 200 ISU or UIT targets he shall be placed in the same class as his grading under ACTA rules.

- 3.21 QUALIFICATIONS
 - (a) Each team member shall have registered in the State which he represents.
 - (b) State Associations shall choose their team on the results of an elimination shoot or series.
 - (c) In the event of a tie for placings it may be decided by the State Association concerned.
 - (d) An appropriate High Gun shall be provided, and a souvenir badge shall be given to each member of the State Team by the club conducting the event. Badges are available on application from the ACTA.

- 4.4 TRAP HOUSES
 - (a) Trap houses shall be used to give full protection to the trappers. These houses shall be 1 metre high in front, tapering or sloping to 85 centimetres at the back, and shall be 2 metres from back to front, 2.5 metres wide. A tolerance of 10 centimetres shall be permissible on these dimensions. All height measurements shall be taken from the level of the centre pivot point of the throwing arm 35 centimetres above the level of the centre lane and 1.5 metres from inside back of traphouse and 30 centimetres left of centre. A tolerance of 5 centimetres either side of this dimension is permissible.
 - (b) If when installing an automatic trap, rule 4.5(A) cannot be adhered to, then the target is to be thrown at an angle of 15 degrees from the centre line, with the height stick adjusted to make this possible.

ALL LANES AS FOR LANE 2

4.5 LEGAL TARGETS

- (a) Targets, to be legal, whether single or doubles, shall be thrown a maximum of 50 metres in still air (measured horizontally at trap level) with a flight of 3 metres above the centre line at a point 10 metres from the trap, with a margin of tolerance of not more than 50 centimetres above or below. Except in double target shooting, the flight of targets shall be at unknown angles, thrown within an area subtending an angle at the trap of 45 degrees right and left of the centre line.

- (b) As an aid in determining the legality of targets, where possible three pegs at least 1 metre high are to be placed on the arc of a circle (known as the "Distance Circle") of radius 50 metres and whose centre is the trap; one on the centre line - "The Central Peg" - and one other each 45 degrees to the right and left of centre line respectively. These two pegs will be known as the "Lateral Limit Pegs". Concrete blocks and measuring sticks for measuring target height are to be standard equipment at all clubs.

4.6 LEGAL TARGETS DOUBLE

Each double shall be thrown as a right and left quarterer respectively into an area subtending an angle of 25 degrees at the trap; each area having as one boundary a line to the lateral limit peg as defined, and as its other line drawn 20 degrees to the left and the right respectively of the centre line.

- 4.7 There is a tendency among officials to set the trap at 3.5 metres and say that they are within the permissible tolerance. This is not so. The trap so set has no tolerance above and has 1 metre tolerance below the 3.5 metre bar. In all cases the trap should be set to throw targets 3 metres high when 10 metres from the trap and should be altered immediately weather conditions cause targets to be thrown outside these limits. All too few clubs set their traps so that they cannot lower them to cope with an oncoming wind.

- 4.8 The provisions of rules 4.6 and 4.7 shall apply to targets released in still air. If a target was fired upon and missed, but was blown out of bounds or fell short of distance due to adverse weather conditions it shall still be classed as a legal target.

4.9 TARGETS

Standard targets shall measure not more than 11 centimetres in diameter not more than 2.85 centimetres in height nor more than 100 grams in weight.

4.10 GUNS AND LOADS

- (a) The term "Magazine gun" applies alike to automatic guns, pump guns (so called) and other guns not directly dependent on hand loading and are permissible for clay target shooting.
- (b) Release trigger guns shall only be used on registered ACTA ground, subject to the following conditions:

- (i) ACTA shooters suffering from some condition which would make the use of a Release Trigger desirable, shall obtain a statement signed by the President and Secretary of the shooter's home club that the shooter suffers from such condition and shall present the statement to a Rules Supervisor for consideration.

A Rule Supervisor shall, by whatever means he determines, have the applicant examined on his understanding of the use of a release trigger device.

The Rule Supervisor shall forward the statement from the shooter's home club to the ACTA together with his decision on the application on the appropriate form provided by the ACTA, who will advise the applicant accordingly.

Where a Rule Supervisor has satisfied himself that the applicant understands the use of a Release Trigger device the shooter shall be included on the master register of release trigger users and his Handicap Card shall be marked accordingly by the ACTA.

- (ii) No ACTA shooter other than those authorised in Trap Rules 11 (b) (i) shall use a release trigger gun.
- (iii) All release trigger guns used by ACTA shooters and overseas visitors shall be clearly labelled "CAUTION RELEASE TRIGGER" in a conspicuous place near the breech. Such labelling to be consistent with 12mm width marking tape.
- (iv) Release trigger guns shall not be left in gun racks or in positions where they can be mistakenly handled but shall be constantly under the control and supervision of the user.
- (v) The user of a release trigger gun shall notify the Referee at each visit to the trap and skeet layout.

- 4.11 No gun which has a gauge larger than 12 gauge is permitted nor shall any barrel(s) length be shorter than 63 centimetres overall. No gun with a fitted compensator is permitted.

4.12 CARTRIDGES

- (a) For Championship events (commonwealth, State, Zone, District) the load is limited to 28 gram struck measure or equivalent shot size not larger than No. 6 reloads are permitted in all events including National Championships.
- (b) For handicap events, load is restricted to 36 grams struck measure or equivalent, shot size not larger than No.6.

4.13 CHALLENGE

- (a) At all major competitions a jury shall be appointed. Any appointed jury shall have the authority to supervise the setting of traps and their decision shall be binding.
- (b) A competitor may challenge the load of any other competitor. On receipt of a written challenge, with \$20 forfeit, the Management shall obtain a cartridge from the challenger, and if after public examination of it the Management finds the challenger has violated requirements he may be disqualified or not accordingly as the offence was wilfully committed or otherwise. In case the challenge is wholly innocent, the forfeit shall be paid to him, otherwise it shall be returned to the challenger. The Management of any club, or of any tournament has the power to examine any competitor's cartridges at their discretion, without involving themselves in any penalty.
- (c) A competitor may appeal against the decision of a referee in regard to interpretation and application of these rules. The competitor shall advise the referee before he leaves the shooting track that he intends to appeal, and immediately upon completing his run over the traps the competitor shall lodge a written appeal and \$20 forfeit with the Management.
- (d) The Management shall appoint a jury of three chosen initially from members of the Referees Association. In the event of insufficient members being available, the jury shall be appointed from (in order) members of the Executive Committee, Rules Supervisors, Referee Examiners, Qualified Referees on the grounds, to examine the matter.
- (e) Should the competitor's appeal be upheld, his deposit shall be returned and the correct ruling shall be applied to the target appealed against. Should the appeal be disallowed the deposit shall be forfeited and paid to the club concerned. There shall be no appeal against a referee's decision in regard to whether a target is legal or whether it has been missed.
- (f) For major ISU Competitions the jury shall be appointed from (in order) UIT Judges, Referee Examiners, Executive Committee Members, Rules Supervisors, Qualified Referees on the grounds to consider the matter. All members of an appointed Jury are eligible to compete.

4.14 MANAGEMENT

The Management of any club holding a tournament or competition under these rules has the authority to reject any entry in the said tournament or other competition and to disqualify in whole or in part any competitor who acts in an ungentlemanly or disorderly manner, or who handles his gun dangerously.

4.15 COMPETITOR AND COMPETITION

- (a) Wheresoever the word "Competition" may be used in the following rules, it is to be understood to refer to each particular event, and must at all times be construed by the Management in whole charge the carrying out of such "Competition" has been entrusted.
- (b) A competitor is one who has nominated for a particular event and whose name appears on the official score sheets or scoreboard. A competitor can participate only once in each event. Each competitor shall carry and present his current handicap/registration card at all shoots before they are allowed to participate.
- (c) Every competitor entering competitions agrees to accept all official decisions, and to abide by the rules controlling the competition.
- (d) All competitors must be registered by the ACTA before taking part in competition. Unregistered competitors are not permitted to compete at any time.
- (e) Competitors must at all times use their correct names when entering a competition. Shooting nom-de-plumes are not permitted.
- (f) Any competitor who commences an event and withdraws or is disqualified from the competition forfeits the right to resume and to any refund from the event.
- (g) Non resident shooters shall be granted reciprocal rights if able to produce evidence of their membership of an international body.

- 4.16 All clay targets - broken or otherwise - shall remain the property of the club and not the competitor. The competitor only pays for the privilege of shooting.

- 4.17 Should darkness, bad weather, or other cause interfere with the competition the Management shall have the right to decide when and how the competition shall be continued, provided that this is not postponed longer than one calendar month. Any competitor who defaults in respect of such postponed competition forfeits all his rights and standing therein.

4.18 CATCHING UP

- (a) No shooter may be allowed to enter an event after the commencement of the second round of that event.
- (b) Any shooter who after completing his event shoots for targets only is deemed ineligible for any recognition in the event or High Gun program.
- (c) Practice is permissible between events on all occasions that an official practice trap is operating.

4.19 REFEREE

- (a) To become a registered referee, a candidate shall approach his Club Secretary and President, who (when they consider that the candidate has achieved a satisfactory standard) shall recommend him in writing to the nearest registered Referee Examiner on the prescribed form that the candidate be given a practical and oral examination. When the candidate has passed the examination to the Examiner's satisfaction, the Examiner will then submit his recommendation plus the form to the ACTA Executive Director, who will issue a Referee badge to the candidate.
- (b) Any candidate who has failed and wished to be re-examined must be re-examined by the same examiner.
- (c) The Rules Supervisors will keep a record of all Referees in their State. The Club Management complaint for any Referee or Referee Examiner shall be referred to the nearest Rules Supervisor within the State for investigation. The Rules Supervisor has the power to suspend the person concerned until the State Association Meeting, if justified. The State Association has the power to further suspend and recall the Referee or Referee Examiner's badge and shall advise the ACTA Executive Director of the action taken.
- (d) Referees shall be appointed for a period of five (5) years and are eligible for re-examination. Any Referee or Referee Examiner who fails to register in any year will have his name automatically removed from the Association Referee and Referee Examiner list.
- (e) The Referee's decision in all cases coming under his jurisdiction as set forth in the rules shall be final. Referees must wear their official badge at all shoots.

DUTIES OF REFEREES

- (i) The Referee, besides attending to special duties set forth in these rules, shall adjudicate the competition, he shall discontinue and loudly announce the result of each shot by calling out "one" when the issues are unresolved, except Points Scoring, he shall decide all other issues which arise in relation to the direct competition.
- (g) A check Referee shall be employed for Double and Double Rise competition, with the Chief Referee to give the decision. If the Referee is negligent, or inefficient, impairing thereby the equity of the competition, the Management may forthwith remove him. This rule applies also to scorers, pullers, tappers and any other of the staff.
- (f) The Referee is empowered to challenge the ammunition used by any competitor.
- (j) The Referee has power to alter his decision. If alleging his decision on "lost target" or "badly" etc., during the competition, this must be done before the shooter in question shoots his next target or the shooter leaves the traps should this be his last target.
- (k) The officiating Referee or the Management MUST adjust the trap immediately if it is not throwing regulation targets. Immediately following such alteration, a target must be thrown and the competition continued.
- (m) Any unauthorized shooter interfering with or attempting to interfere with the trap will be penalised 5 targets.
- (i) He must have complete knowledge of the rules of the ACTA and shall adjudicate the competition at all times as set by the Management.
- (m) It is his responsibility to announce the conditions as set out in the rules for each event before the competition commences, also to deploy shooters to their correct firing lanes.
- (n) As shooting proceeds he must observe that shooters are commencing on their correct mark, not shooting out of turn, are handling their guns with safety, and using the correct shells as laid down for each individual event.
- (o) The referee must be efficient and alert at all times and it is most important that he should gain the confidence and respect of each and every competitor.

4.20 DUTIES OF A SHOOT MARSHAL

- (a) He must observe all the duties of the official referee.
- (b) He must be present at all shoot-offs.
- (c) He must see that all traps are checked for correct height and angles prior to shoot-off.
- (d) The shoot marshal shall be in charge of all operations and personnel, including referees relating to the shoot, and shall be responsible only to the Management.
- (e) He must instruct and roster the duties of all personnel prior to the commencement of each day's shooting.

4.21 DUTIES OF REFEREE EXAMINER

- (a) To examine applicants for Referee in trap and/or skeet who have been recommended as required in the ACTA Shooting Rules.
- (b) ISU appointed Referee Examiner to examine applicants for referees in ISU who have been recommended as required in the ACTA Shooting Rules.
- (b) To assess the applicant's temperament, fairness, his ability to control a situation and his personal behaviour on the shooting tracks as a shooter before considering an examination.
- (c) To observe the actions of existing Referees on the shooting ground and to discuss any problems or make any recommendations considered appropriate.

4.24 BREAK RECOGNITION

- (a) Break Badges will be recognised in sequences of 50, 75, 100, 150, 200, 250 and so on, provided these are shot over automatic traps under double or single barrel or single barrel conditions on one day only, excepting over a program of two or more successive days. Also for ball trap and double rise, i.e. 25 pair, 50 pair and so on.
- (b) Non oscillating traps are not acceptable within the rules.
- (c) Break badges may also be similarly earned in Continental down-the-line events, or lower events provided that the break is achieved from events of the same nature.
- (d) Shooting at no more than two sighter targets (not to count) prior to commencement of an event does not terminate a break in progress.
- (e) To shoot in other than a specific type of event, as named above, immediately concludes a break.
- (f) Clubs must submit from number 17, duly completed, to the ACT Secretary, with the prescribed fee for each requested badge, before recognition can be considered or granted. Break badges, once they have been obtained, will not be repaid. Badges for "22 metres" will also be available to those attaining this as their registered handicap.
- (g) **Single Barrel**
A distinctive Single Barrel break badge is available under the same conditions as for Double Barrel breaks.
- (h) Break badges are available for all breaks up to and in the recognised sequence.

4.23 REFEREE AND SCORER

- (a) The scorer shall keep an accurate record of each shot, according to the referee's call. He shall mark the figure "1" for the call of "one" or the figure "0" for the call of "lost" for either single barrel or double barrel shooting. Double barrel denotes that two shots are allowed per target, each shot of equal scoring value. Double barrel "points" denotes three points for a "score" on the first barrel, two points for a "score" on the second barrel, and no points for "lost".
- (b) These points scored will be called by the referee and scored by the scorer accordingly.
- (c) If the scorer is incompetent at scoring, the Referee has the right to change the scorer before commencement or during the event.
- (b) All malfunctions, faulty cartridges or misfires must be recorded on the score sheet as "M" for malfunction, "R" for all refusals.
- (c) The official score must be kept on a score sheet and be available for inspection by the competitor.
- (d) It shall be the responsibility of the competitor to check his score with the score sheets before leaving the shooting tracks. Any protest on this score must be lodged with the referee immediately, i.e. before leaving the shooting tracks. Such protest can only be made against incorrect score.
- (a) Break Badges will be recognised in sequences of 50, 75, 100, 150, 200, 250 and so on, provided these are shot over automatic traps under double or single barrel or single barrel conditions on one day only, excepting over a program of two or more successive days. Also for ball trap and double rise, i.e. 25 pair, 50 pair and so on.
- (b) Non oscillating traps are not acceptable within the rules.
- (c) Break badges may also be similarly earned in Continental down-the-line events, or lower events provided that the break is achieved from events of the same nature.
- (d) Shooting at no more than two sighter targets (not to count) prior to commencement of an event does not terminate a break in progress.
- (e) To shoot in other than a specific type of event, as named above, immediately concludes a break.
- (f) Clubs must submit from number 17, duly completed, to the ACT Secretary, with the prescribed fee for each requested badge, before recognition can be considered or granted. Break badges, once they have been obtained, will not be repaid. Badges for "22 metres" will also be available to those attaining this as their registered handicap.
- (g) **Single Barrel**
A distinctive Single Barrel break badge is available under the same conditions as for Double Barrel breaks.
- (h) Break badges are available for all breaks up to and in the recognised sequence.

4.22 DUTIES OF RULES SUPERVISOR

- (a) To make himself available when convenient to attend rules discussions when requested by clubs.
- (b) A maximum of two suitable qualified persons appointed by the State Association or replaced by their State Association, or alternatively a maximum of one suitable qualified person appointed by the Executive Committee to act in the capacity of National Rules Supervisor.
- (c) To investigate the written complaint of any club management concerning the ability of any Referee Examiner and to report the facts to the appropriate State Association concerned, so that the State Association may recommend the action to be taken.
- (d) To investigate the written complaint of any club management or Referee Examiner concerning the ability of existing Referees and Referees and to discuss any problems concerning their duties.
- (e) To observe the actions of existing Referee Examiners and Referees and to discuss any problems concerning their duties.
- (f) To investigate the written complaint of any club management or Referee Examiner concerning the ability of existing Referees and to report the facts to the appropriate State Association concerned, so that the State Association may recommend the action to be taken.
- (g) To arrange or require the re-examination of any Referee Examiner or Referee. (When investigating complaints concerning Referee Examiners and Referees, every effort should be made to correct the complaint by re-examination or re-training in preference to suspension.)
- (h) To control the number of Referee Examiners so that:
 - (i) Referee applicants cannot shop around for an easy examiner.
 - (ii) The principle of common interpretation is maintained - (the more examiners the more chance of interpretation becoming loose).
 - (iii) A Rules Supervisor should not generally carry out Referee examinations but may do so if requested or if there is no Referee Examiner in the area.
- (k) To make himself available when convenient to attend rules discussions when requested by clubs.

4.25 LONG BREAK RECORDS

- (a) Any shooter competing in Australia under the ACTA regulations may establish an all-comers long break record, but only Australian citizens may establish an Australian long break record.
- (b) Australian long break records may be established either in Australia or overseas providing all other criteria are met. All-comers long break records may only be established in Australia.
- (c) Long break records will only be recognised if shot over an advertised program and the shooter has finished his event.
- (d) Any tournament from club level upwards can be used for the purpose of establishment of long break records.
- (e) Long break records are only recognised in seven Disciplines. These are:
 - (i) Down the Line/Trap - Double Barrel, Single Barrel, Point Score, Double Rise, Handicap (22M)
 - (ii) Skeet
 - (iii) Skeet Doubles
 - (iv) Olympic (ISU) Trap
 - (v) Olympic (ISU) Double Trap
 - (vi) Olympic (ISU) Skeet
 - (vii) Ball Trap (FITASC/ISU)
- (f) All applications for recognition of a long break record established in Australia must be accompanied by proper verification and submitted on the official ACTA form (available upon request). All applications for recognition of an Australian record established outside of Australia, besides the verification, must also have proof that all other conditions such as trapsetting were identical to the ACTA regulation standards.
- (g) Once a long break record is established the competitor's name shall be recorded in the appropriate category together with the long break record score. Any competitor who subsequently equals this score shall have his/her name recorded alongside the current record holder(s). Any competitor who subsequently better this score shall have his/her name entered as the record holder together with the new long break record score and the previous holder(s) name(s) and score(s) shall be deleted.
- (h) The National Office shall keep a complete list, both past and present, of record holders and their scores, together with the dates established.
- (i) Any dispute over the recognition of any long break record shall be referred to the Executive Committee, whose decision shall be final.

4.26 PENALTIES

Any shooter deliberately firing at any fauna on any shooting ground shall be immediately suspended by the club management and shall remain suspended until the incident is dealt with by his State Association.

4.27 AGE ELIGIBILITY REGISTRATION/COMPETITION

- (a) Junior to be under the age of 18 on the date of registration and/or competition.
Veteran to be over the age of 65 on the date of registration and competition.
- (b) Any person over the age of 60 years with 30 or more years continuous registration may claim concessional membership of an amount equal to that of a veteran shooter.
Concessional membership under the age of 65 years does not qualify for veteran competition.

SKEET SHOOTING RULES

Section 5

5.1 SAFETY/PENALTIES

- (a) All guns must be immediately opened upon removal from a gun rack or car to determine that they are indeed empty.
- (b) All guns carried on or about the shooting grounds must be held in a position of safety with the breech open, and unloaded, at all times.
- (c) Shooting on the grounds at any place other than the firing point at legitimate targets only is prohibited except where a pattern plate is installed and then only with the permission of the club management.
- (d) Shooting, holding the gun in any position other than orthodox, e.c. to the shoulder is prohibited, (with the exception of a physical disability). Any shooter acting in this way will be immediately suspended by Referee or management, and reported to the Executive Committee in writing. Minimum penalty three (3) months suspension.
- (e) Any shooter committing an ungentlemanly or unsafe act on the shooting ground shall be liable to suspension or disqualification.
- (f) Any shooter deliberately firing at any fauna on any shooting ground shall immediately be suspended by the club management and shall remain suspended until the incident is dealt with by his State Association.
- (g) When it is his turn to shoot, a competitor shall stand on the shooting station, load and close his gun. He must open his gun and remove the cartridges before turning or leaving the shooting station.
- (h) Shooters experiencing a misfire or malfunction must remain with their gun pointed in the direction of the traphouse until the referee arrives to adjudicate.
- (i) The shooter will not insert a cartridge in his gun until he is on the shooting station, at his turn. All cartridges must be removed from a gun upon the red signal at the skeet house, or if any official approaches the skeet houses on that layout.

- (j) Release trigger guns shall not be left in gun racks or in positions where they can be mistakenly handled but shall be constantly under the control and supervision of the user, and shall be labelled as per rule 8.5 (b) (iii).
- (k) The user of a release trigger gun shall notify the referee at each visit to the trap or skeet layout.
- (l) Powder loads for reloads should not exceed the manufacturer's recommended specification. Shooters exceeding the recommended load shall be deemed to be in breach of the safety regulations.
- (m) Any shooter considered to be in breach of any safety rule will be immediately suspended by the club management for one (1) calendar month pending an investigation into their actions by the relevant State Association.

5.2 SKEET ROUND PROCEDURE

- (a) The squad shall start shooting at Station 1 in the order in which the names appear on the score sheet. The first competitor shall start shooting singles, firing upon the high house target first and the low house target second. Then he shall proceed to shoot doubles, firing the first shot at the target emerging from the high house and the second shot at the target from the low house, before leaving the station. The second shooter shall then proceed likewise, followed by the other members of the squad in turn. Then the squad shall proceed to Station 2 and repeat the same sequence as on Station 1. The squad shall then proceed to Station 3 where each competitor shoot at a single target from the high house first and then a single target from the low house before leaving the shooting station.

The same procedure will be followed at Station 4 and 5. Upon advancing to Station 6 the first competitor will shoot singles in the same sequence as at the previous stations and then he shall shoot doubles by firing at the low house target first and the high house target second before leaving the station. The other competitors will follow in their turn. The procedure to follow at Station 7.

The first competitor shall start shooting singles, firing upon the low house target first, and the high house target second. Then he shall proceed to shoot doubles, firing first shot at the target emerging from the low house and the second shot at the target emerging from the high house, before leaving the station. The other competitors will follow in their turn.

The squad will advance to Station 8 and single load.

A shooter once standing on his station must position himself, load his gun and call for his target within 10 seconds and also after the referee has given the signal to commence firing or to resume firing.

Non-compliance with the above will draw a warning from the referee. Subsequent occurrences during a 25 target series will be penalised one target each.

- (b) A round of skeet for one person consists of 25 targets. The object being to score the greatest number of broken targets.
- (c) The first target lost in each round shall be repeated immediately and the result scored as the 25th target and recorded in the 25th column on the score sheet.
- (d) Should the first target lost occur in a double, the lost target shall be repeated as a single and scored as the 25th shot.
- (e) On Station 1 to 7, two cartridges must be loaded to shoot single targets, with the exception of users of release trigger guns, one cartridge only to be fired at each target.
- (f) If a shooter fires twice at the same target the result of his first shot shall count. The result of his next due target shall be scored as lost.
- (g) During single target shooting with the gun loaded with cartridges, the shooter must not open his gun after shooting the first of the two singles, except when a shooter is repeating the 25th target.
- (h) A HALF ROUND OF SKEET consists of 13 targets as follows:

Station 1 = a single high house target = 1
Station 2 = a single low house target + 2 = 2
and one pair of targets (H & L) + 2 = 4
Station 3 = a single high house target + 1 = 5
Station 4 = a single low house target + 1 = 6
Station 5 = a single high house target + 1 = 7
Station 6 = a single low house target + 1 = 8
and a pair of targets (L then H) + 2 = 10
Station 7 = a single high house target + 1 = 11
Station 8 = a single high house target + 1 = 12
and a single low house target + 1 = 13

- (i) Club managements have the option of conducting events using separate button pushers, referees and scorers.

5.3 RULES AND PROCEDURE FOR DOUBLES EVENTS

- (a) Open Double Championships shall be shot at 25 pairs or multiples of 25 pairs.
- (b) Round One, commencing on Station 1 through Station 4, a double to be shot from each station, taking the high house first.
Stations 5, 6 and 7 a double to be shot taking the low house first. Reverse through Stations 3 and 2, a double to be shot taking the high house first.
Round Two, Stations 1 to 7 to be shot as in round one. The reverse section of round two will conclude with a normal double from Station 1.
- (c) Clubs have the option of conducting a 25 target event. This event will be the first round of the double (12 pair) with the addition of a single high house target immediately following the concluding double from Station 2.
- (d) In the event of doubles being included in a high gun over a program, the shoot will be conducted in the following manner:

Competitors will shoot at a high and low single from Station 4, they will then return and shoot a double from Station 4.

Shooting will continue in brackets of four targets until a result is achieved.

- (e) For handicapping purposes only, this event will be considered to be a novelty event.
- (f) For other than the above, all ACTA rules will apply.

5.4 PROCEDURE AND DEFINITIONS

A competitor must be at the firing point within two minutes after having been called by the official referee, scorer or a member of the club management. Failing therein, he may be disqualified or penalised with loss of targets or may be re-squadded in the last squad at the discretion of the Club. A competitor is duly notified to compete when his name is called out by the referee, scorer or other person authorised to do so by the Management, or when his name appears on the scoreboard. If a "squad hustler" is furnished it is a matter of courtesy only and does not relieve the competitor from responsibility. It is the duty of each and every competitor to be promptly on hand to compete when called upon to do so.

5.5 SHOOTING POSITIONS

The competitor must stand with both feet entirely within the boundary of the shooting station.

5.6 GUN POSITION

Firing the gun in any position other than orthodox, i.e. to the shoulder, is prohibited (with the exception of a physical disability).

Any shooter firing a gun from any position other than orthodox will be immediately suspended by the Club Management and reported in writing to the Executive Committee - a minimum penalty of three months suspension shall apply.

5.7 SQUAD

- (a) A squad for shooting Skeet shall have a maximum of six (6) competitors. Under safety requirements this number must not be exceeded.
- (b) The officiating Referee or Management MUST adjust the traps immediately if they are not throwing regulation targets.
- (c) The competitor whose turn it is to shoot must observe a Legal Target from a traphouse where the trap has been adjusted or repaired, or where several non-legal (irregular) or No Targets have been released.
- (d) No competitor shall unduly delay a squad without good and sufficient reason in the judgement of the Referee in charge of the squad. A shooter who persists in deliberately causing inexcusable delays after receiving a first warning from the Referee shall be subject to disqualification from the event.
- (e) At the beginning of each round the squad must observe a single target from both the high and low house on station 1 only.
- (f) No member of a squad having shot from one station shall proceed toward the next station in such a way as to interfere with another shooter. The penalty for wilful interference in this manner shall be disqualification from the event.

However, when in the opinion of the Referee it is done unobtrusively, the first competitor in a squad should be allowed to move across and stand at least three metres behind the next station from Station to 6 inclusive.

5.8 BAULK

- (a) Any extraneous occurrence which, in the opinion of the Referee, materially interferes with the equity of the competitor after he calls for his target constitutes a baulk.
- (b) Under no circumstances will a baulk be granted unless claimed by the competitor immediately it occurs, or if, in the opinion of the Referee a baulk has occurred, he may restore the competitor's target. The gun shall not be considered as interference. It must be accepted as a normal hazard.

5.9 BROKEN TARGET

A "broken target" called by the Referee as "1", is one which has a visible piece broken from it, whilst in the air and within the shooting bounds, by the shot from the competitor's gun.

5.10 DUSTED TARGET

- (a) A Dusted Target is one from which dust is detached by the competitor's shot, but the target shows no visible lessening in size therefrom. A Dusted Target is not a Broken Target, and is a Lost Target.
- (b) A whole target when fired upon is to count even if it falls outside legal limits because of wind or some other factor.

5.11 NO TARGET SINGLES

After "No Target" has been called by the Referee under any of the following conditions, it thereafter plays no part in the competition and is irrelevant to it.

No target shall be called when a target is refused for the following reasons:

- (a) A target is released without the competitor's call and the target has not been fired at.
- (b) A time interval occurs before or after the competitor's call - unless the target is fired at.
Note: If in the opinion of the Management an excess of refusals is recorded, the Management has the right to check the shooter, Referee and equipment.
If in the opinion of the Referee, legal targets are being refused, the Referee shall call lost target.
- (c) A broken target is released.
- (d) In single target shooting, two targets are released at the same time (unless fired at).
- (e) A target does not confirm to the definition of a legal target as regards height distance or angle thrown, and the target has not been fired at.
- (f) A misfire or malfunction caused by the competitor's gun or a misfire of the cartridge occurs due to no neglect of the competitor.

- (g) If when double loading while shooting single targets a misfire or malfunction should occur preventing the competitor from shooting at the second target.
- (h) A simultaneous or near simultaneous discharge occurs: i.e. from any cause both barrels are discharged together or nearly together. Simultaneous discharges shall be classed as malfunctions.
- (i) The follow are considered malfunctions of ammunition, i.e. failure to fire when firing pin indentation is clearly noticeable:

- (1) When only the primer fires
- (2) When the powder charge has been omitted.
- (3) When the powder charge is not ignited.

Components of the load remaining in the barrel shall be considered as evidence of defective ammunition. The Referee must decide.

- (j) All misfires or malfunctions, faulty cartridges or refusals must be recorded on the score sheet as "M" for malfunction or "R" for refusal.

5.12 NO TARGET DOUBLES AND PROOF DOUBLES

- (a) No targets (both) shall be called when either target in doubles is released broken.
- (b) No targets (both) shall be called in doubles when both targets are not released simultaneously.
- (c) No targets (both) shall be called when only one target is released in doubles.
- (d) No targets (both) shall be declared if any allowable malfunction occurs on the first shot in doubles, and a proof pair shall be thrown to determine the results of both shots. If such malfunction is excessive the Referee shall declare "first target lost, and no target on second barrel", and a proof double shall be thrown to determine the result of the second shot only.
- (e) No targets (both) shall be declared if the targets of a double collide before the result of the first shot is determined, and a proof double shall be thrown to determine the result of both shots.
- (f) If the first target lost be the first target of a regular double, when the competitor is deprived of the opportunity of shooting at a second target then a proof double shall be fired upon to determine the result of the second shot, and then the first target lost shall be repeated as a single and scored as the 25th target.

- 5.13 If a double be thrown but the shooter is deprived of a normal second shot for any of the following reasons, the result of the first shot shall be scored and the second target only shall be declared "no target", and a proof double shall be fired to determine the result of the second shot only:

- (a) Both targets are broken with the first shot.
- (b) The wrong target is broken with the first shot.
- (c) The first shot is lost and a collision occurs before the result of the second shot is determined.
- (d) The second target collides with fragments of the first target, properly broken, before the result of the second shot is determined.
- (e) The result of the first shot is determined and a baulk occurs interfering with the equity of the second shot.
- (f) An allowable malfunction occurs on the second shot. If such malfunction is excessive, not allowable, the second target shall be scored "lost".

Note: If the shooter shoots at an illegal first target and the SECOND target is LEGAL, he must also shoot the second target. However, a shooter is not required to shoot at an illegal second target even though he shot at the first target which may have been either a legal or an illegal target.

5.14 LOST TARGET

Lost Target shall be called when:

- (a) A competitor fails to break a legal target.
- (b) When the competitor fails to shoot because his gun is unloaded, or because the safety was faultily adjusted or jarred back from his own oversight or not, or because of any other cause chargeable to his own oversight or neglect. Should this happen when shooting doubles, the first target should be declared lost and a proof pair shall be thrown to determine the result of the second shot only.
- (c) The competitor attempts to open the gun before the Referee examines it. A competitor having an apparent misfire or malfunction will forthwith call the Referee for his decision. The competitor must not turn around and must keep his gun pointed in the direction of the traphouse until the Referee has given his decision. If a competitor's gun breaks down and it is necessary to seek a replacement, the competitor is allowed five (5) minutes to do so. If this is not possible, the competitor may leave the squad and finish the remaining targets of the round at a time decided by the Referee or when a vacancy occurs.
- (d) On the fourth and subsequent malfunction in any one event. However, at the end of each 100 targets in any one event, the malfunctions that have occurred shall be cancelled, and the count shall re-commence from zero.
- (e) When the competitor breaks a target outside the shooting bounds.
- (f) If the first target lost be the first target of a regular double, when the competitor is deprived of the opportunity of shooting at a second target, then a proof double shall first be fired upon to determine the result of the second shot and then the first target lost shall be repeated as a single and scored as the 25th target.
- (g) If when shooting a proof double the competitor accidentally breaks the wrong target first, the result shall be NO TARGET and a further proof double shall be released. If no result is obtained after three attempts, both targets shall be scored lost.

- 5.15 The Referee has power to alter his decision. If altering his decision on "lost target" or baulk" etc, during the competition, this must be done before the shooter in question shoots his next target or before he leaves the tracks, should this be his last target.

- 5.16 (a) Every competitor entering competitions agrees to accept all official decisions, and to abide by the rules controlling the competitions.
- (b) A competitor may appeal against the decision of the Referee in regard to interpretation and application of these rules. The competitor shall advise the Referee before he leaves the shooting tracks that he intends to appeal, and immediately upon completing his run over the traps, the competitor shall lodge a written appeal and \$20 forfeit with the Management.
- The Management shall enlist the aid of at least three, including any Executive Committee members, Rules Supervisors, Referee Examiners or Official Referees on the grounds to examine the matter, and should the competitor's appeal be upheld his forfeit shall be returned and the correct ruling shall be applied to the target appealed against. Should the appeal be disallowed, the forfeit shall be paid to the club concerned.
- There shall be no appeal against a referee's decision in regard to whether a target is legal or whether it has been missed.
- (c) All competitors must be registered by the ACTA before taking part in competition. Unregistered competitors are not permitted to compete at any time.
- (d) Competitors must at all times use their correct names when entering a competition. Shooting nom-de-plumes are not permitted.
- (e) If a competitor who commences an event withdraws or is disqualified from the competition, he forfeits the right to resume and to any refund from the event.

SKEET HANDICAPPING/GRADING

Section 6

6.1 SKEET HANDICAPPING FORMULA

- (a) A skeet shooter with no past performance or handicap rating shall shoot his first round on a zero handicap to establish a handicap.
- (b) For his second round his handicap allowance shall be the difference between his score in the first round and 25.
- (c) For his fourth round his handicap allowance shall be the difference between the average of his first two rounds and 25.
- (d) For his fifth round his handicap allowance shall be the difference between the average of his first three rounds and 25.
- (e) For his fifth round his handicap allowance shall be the difference between the average of his first four rounds and 25.
- (f) After shooting five rounds the lowest score of the five shall be discarded and the difference between the average of the other four rounds and 25 shall be his handicap allowance.
- (g) Grades. After shooting the next 200 targets and each successive 200 targets the shooter's handicap and grading shall then be adjusted according to the handicap and grading formula.

A shooter may be upgraded in any one calendar year after shooting 200 targets but cannot be downgraded within that calendar year. A shooter must shoot a minimum of two consecutive groups of 200 targets at a lower grade percentage to be downgraded at the end of that year. Once having shot two consecutive groups of 200 targets, all targets used shall be counted. All scores after the last grading must be carried forward onto new handicap card.

Any C Grade shooter having recorded a 50 target break shall be re-graded to B Grade.

AA Grade 97% and over - Handicap 0; A Grade 94% and under 97% - Handicap 1; B Grade 87% and under 94% - Handicap 2 or 3; C Grade 80% and under 87% - Handicap 4 or 5.

Note: Club Managements have the option of shooting D Grade under 80% - Handicap 6.

- 6.2 (a) No shooter shall have a handicap greater than 5 except when Club Management programs D Grade (handicap 6) and then for that event only.
- (b) Once attaining A Grade a shooter cannot be reclassified as C Grade. Once attaining AA Grade a shooter cannot be reclassified to B Grade. Other than in the authority vested in Rule 2.7
- 6.3 Rules Supervisors, State or Zone Handicappers, or a member of the ACTA Executive Committee have the right to re-handicap or regrade any obviously under handicapped or over handicapped, under graded or over graded shooter immediately, providing the Association is notified within 7 days and the reason given on handicap return form. If these details are not completed such handicap movement cannot be ratified.
- 6.4 After shooting the first five rounds the shooter's handicap shall then only be adjusted after each successive 200 targets as in 6.1(g).
- 6.5 All full skeet rounds of 25 targets are to be recorded and used for handicapping (championship events, handicap events and any shoot-off full rounds).
- Note: Practice rounds are not to be used for handicapping. See rule 8.7 concerning "targets only" scores that are to be used for handicapping.
- 6.6 It shall be the responsibility of the designated club official to progressively mark the shooter's card with his full round scores and after each 200 targets to calculate his new handicap. Any handicap adjustments as a result of these rules shall by notified, on the club return, to the ACTA Secretary within seven days.
- 6.7 Any shooter re-registering after a period of non-registration shall be placed in the same grade and handicap as when he was last registered.
- 6.8 COMPETITOR
- (a) A "competitor" is one who has nominated for particular events and whose name appears on the official score sheet or score board. A competitor can compete only once in each event. Each competitor

shall carry and present it to the nomination office before being allowed to participate. It shall be the responsibility of the club to enter the competitor's scores on his card and to calculate his handicap at the appropriate times.

However, if a shooter has lost his card he shall be allowed to compete provided he is registered with the ACTA in the Grade or Handicap he claims to be correct.

- (b) Should he win prize money or trophies they shall be retained by the club until such time as the shooter finds his card or obtains a new one and presents it to the club for marking.
- (c) Should it be found that the shooter has claimed the wrong handicap mark or grade, the State Association shall advise the nearest Executive Committeeman so that the matter may be investigated.
- (d) Should it be found the shooter deliberately misled the club management regarding his Grade and/or his handicap, the shooter be suspended for a period of three (3) months.

6.9 SKEET SWEEPSTAKES

- (a) The normal method in a Skeet Handicap is to divide the sweepstakes amongst those shooters attaining twenty-five broken targets, with handicaps included:

Example:

Smith 25-25, handicap 3 total= 25-25

Jones 22-25, handicap 3 total= 25-25

Brown 20-25, handicap 5 total= 25-25

- (b) The normal method on skeet championships is to divide the sweepstakes using off the gun scores.
- (c) All sweepstakes must be divided 60%, 30% and 10%.
- (d) Possible deduction from sweepstakes by Clubs in contests shall not be more than 60% (inclusive of targets). In optional sweepstakes no deduction may be retained by clubs.
- (e) Sweepstakes at State Carnivals on Championships may be decided by the State concerned. State Associations shall have the option of conducting either compulsory or optional sweepstakes at State Carnivals.
- (f) The inclusion of either compulsory or optional sweepstakes at National Championships and their method of division to be at the discretion of the Executive Committee. Sweepstakes if included for National Championships shall be determined by scores off the gun and shootoffs shall not apply.

SKEET CHAMPIONSHIPS

Section 7

- 7.1 Club Managements have the option of running all Championships either as graded events or as one class events with placings of 1st, 2nd and 3rd. When run as graded events the grades shall be:

A-A, A, B and C; A, B and C; Overall A, B and C.

Note: Club Managements have the option of shooting D Grade under 80% - Handicap 6.

7.2 COMPETITION

Wheresoever the word "Competition" may be used in the following rules, it is to be understood to refer to each particular event, and must at all times be construed by the Management in whose charge the carrying out of such "Competition" has been entrusted.

- (a) Open Shoots, that is Commonwealth, State and District Championships and open competitions (cases where more than \$200 is allotted for distribution in any one event), must have the approval of the State Association before being advertised or conducted. (This rule applies to the actual event and the proposed date of holding).
- (b) Clubs allocated Commonwealth Championships and Interstate Teams' Matches must advertise the event in ACTA "Shooting News" at least once, two months before the actual shooting date.
- (c) Clubs allocated State Championships must advertise these events in the ACTA "Shooting News".

CHAMPIONSHIP CONDITIONS

7.3 AUSTRALIAN SKEET CHAMPIONSHIP

To be an event which for the time being shall be shot under conditions as determined by the Executive Committee.

7.4 AUSTRALIAN/NEW ZEALAND SKEET TEAMS MATCH

The five top scorers in the Australian National Skeet Championship will comprise the Australian Team. Both teams will shoot at one round of 25 targets per shooter. In the event of tie scores, the result to be a tie. When the match is conducted in New Zealand, the Australian team selection policy will be determined by an Executive Committee decision.

OTHER SKEET CHAMPIONSHIPS

7.5 NUMBER OF TARGETS

- (a) Commonwealth - 100 targets or 200 targets.
State and Zone - 50 targets or 100 targets.
District - 25 targets or 50 targets.
- (b) The Conditions of Entry for State Championships shall be the same as apply for National Championships.

7.6 I.S.U. CHAMPIONSHIPS

- (a) Commonwealth, State, Zone and District Championships may be conducted under International Shooting Union Rules using standard targets only.
- (b) Trophies for I.S.U. Championships should be limited to sashes, badges and similar. Clubs may provide additional trophies at their own discretion.

8.9 TRAPS

In all open events any trap which throws a Legal Target may be used, provided the target is released from a position in the field by mechanical or electrical device (NOT released from within the traphouse).

8.10 CATCHING UP

- (a) No shooter may be allowed to enter an event after the commencement of the second round of that event.
- (b) Any shooter who after completing his event shoots for targets only is deemed ineligible for any recognition in the event or High Gun program.
- (c) Practice is permissible between events on all occasions that an official practice trap is operating.

8.11 REFEREE

- (a) To become a registered referee, a candidate shall approach his club Secretary and President, who (when they consider that the candidate has achieved a satisfactory standard) shall recommend in writing to the nearest Registered Referee Examiner on the prescribed form that the candidate be given a practical and oral examination. When the candidate has passed this examination to the Examiner's entire satisfaction the Examiner will then submit his recommendation plus the form to the ACTA Office which will issue a Referee badge to the candidate.

Any candidate who has failed and wishes to be re-examined must be re-examined by the same Examiner.

- (b) Rules Supervisors will keep a record of all Referees in their State.
- (c) A club management complaint against any Referee or Referee Examiner shall be referred to the nearest Rules Supervisor within the State for investigation. The Rules Supervisor has the power to further suspend and recall the Referee or Referee Examiner's badge and shall advise the ACTA Secretary of the action taken.
- (d) Referees shall be appointed for a period of five (5) years and are eligible for re-examination. Any Referee or Referee Examiner who fails to register in any year will have his name automatically removed from the Association Referee and Referee Examiner list.
- (e) The Referee's decision in all cases coming under his jurisdiction as set forth in the rules, shall be final. Referees must wear their official badge at all shoots.
- (f) The positioning of sheet referees and scorers be mandatory in keeping with the positions in the illustrated Skeet Field.

Note: Scorers to be positioned in immediate proximity of the referee using the position illustrated in the rule book for referees.

8.12 SCORER

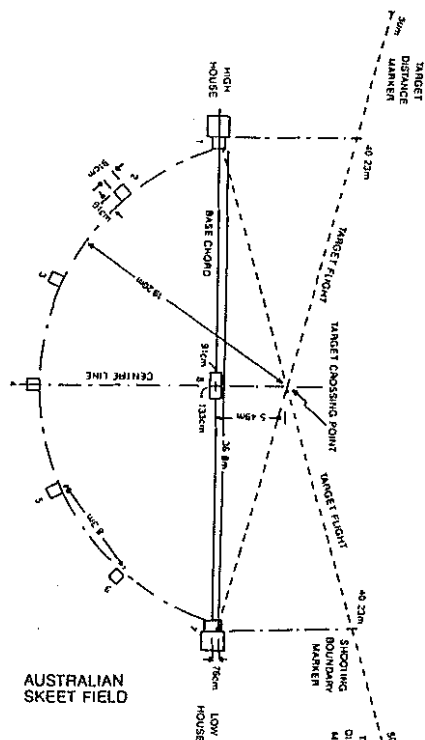

- (a) The scorer shall keep an accurate record of each shot, according to the Referee's call. He shall mark the figure "1" for the call of "one" or the "0" for the call of "lost", for each target.
- (b) The official score must be kept on a score sheet and be available for inspection by the competitor.
- (c) If the scorer is incompetent at scoring the referee has the right to change the scorer before commencement, or during the event.
- (d) It shall be the responsibility of the competitor to check his score with the score sheet before leaving the skeet field. Any protest on his score must be lodged with the Referee immediately i.e. before leaving the shooting track. Such protest can only be made against incorrect score.

8.13 BREAK RECOGNITION

- (a) The ACTA recognises BREAKS in sequences of 50, 75, 100, 150, 200, 250 and so on, providing the break is shot in competition on one day only excepting over a program of two or more successive days.
- (b) Break badges may be earned provided that the break is achieved from events of the same nature.
- (c) No practice between events is permitted and breaks must be continuous.
- (d) Shooting at not more than two sighter targets (not to count) prior to the commencement of an event does not terminate a break in progress.
- (e) Clubs must submit form Number 17, duly completed to the ACTA Secretary, together with the prescribed fee for each requested badge, before recognition can be considered, or granted. Break badges once they have been obtained will not be repeated.
- (f) Break badges are available for all breaks up to the total break achieved.

PHOTOGRAPHS

Would suppliers of photographs for inclusion in the C.T.S.N. please note that Black and White photographs are preferred to colour photos. Black and white photos will reproduce much better than colour, giving a better result to all concerned. Preference will be given to articles which carry black and white pics as opposed to colour pics.

Shooting Stations !!

PROFILE ON RUSSELL MARK

Interviewed by Alan Maher

We had many shooter's commenting about how young Russell looked in the photo that accompanied the first part of this interview, which was published last month. Most of our avid readers, however, picked up on the fact that it was not Russell at all, but top Victorian junior shooter, Glen Hayden, by mistake.

Our apologies to both Russell and Glen for any inconvenience or embarrassment this may have caused them and we would like to thank them both for being such good sports over the incident.

For those who knew no different, Russell is pictured below.

(Continued from previous issue).

Alan: So your registration for 1993, without putting you under pressure, might be through Werribee?

Russell: There's a chance of it. The only thing that will hold me back is if they put me back into the wrong zone of Victoria. I'd still like to be a member of the South West Zone, instead of the South East.

Alan: That's interesting. When you talk about Zone Shooting, do you find there is a lot of good competition in Zone Shooting, particularly in Victoria where you know it best?

Russell: In the South East Zone of Victoria, there are a lot of strong Clubs. The big problem is that it's such great distances for us to travel to get to the end of the South East Zone. It's a three and a half hours drive to get to Bairnsdale. That's a bit too far for me, being situated in Werribee.

Alan: What club has been the most difficult for you as far as posting good scores?

Russell: I'd say in Olympic Trap, it would be Griffith by a long way. I've never shot well there.

Alan: Has anybody else shot well at Griffith that you are aware of?

Russell: I've never seen anyone shoot well there ever. It's just a very difficult background. The equipment and everything is fine, I just personally found it very hard. For Down the Line, it's probably a little club in Victoria called Colbinabbin, which is probably the for same reason. They both have a very hard background.

Alan: They're not clubs where you enjoy the journey home more than the journey up.

Russell: I know I don't have to take a lot of cartridges to shoot there.

Alan: Fair enough. Well, talking about cartridges, with the amount of shooting that you do how many shells do you use in a year on an estimate?

Russell: Last year, I can tell you exactly. I used 71 cases of Winchester ammunition.

Alan: 71 cases, that's 35,500 shells.

Russell: That's why I've got a very sore shoulder.

Alan: That's a lot of shooting isn't it? No adverse affect?

Russell: No, I don't think that it's any secret now in the sport, that I've had trouble with my shoulder, and I'm getting it looked at now quite regularly. I've formed a callous on the muscle inside, and it's been a problem for me this year. In the last six months it's come to a stage where I'm getting it treated about three times a week and soon I may need to get it operated on.

Alan: Well, we'll wish you all the very best in that, because those sort of things obviously don't do anyone any good, and while you've got them there they get worse. We'll just go on to some other things here Russell. We'll talk about some of the best shooters you've seen, then we'll go on with the technical side of the sport and then the ACTA as a body. We've noticed that you've never ever mentioned Skeet. Have you ever shot Skeet, or do you think that that's a sport that's a little too difficult for you to master?

Russell: I don't know about it being too difficult to master, but I really haven't had the time unfortunately. I just can't be, in my opinion, a master of every discipline. You really just have to specialise and I've specialised in Olympic Trap or Down the Line, which are very similar. The technical aspects in skeet are very different and I haven't had the time to shoot a lot of it. I won the State Night Skeet Championship once, if that means anything to anyone.

Alan: What sort of score did you have there?

Russell: 49.

Alan: 49/50, I suppose that means you can handle it. Just getting back to the greatest shooters, if we could bring it down to three in the DTL, who would be the three best shooters that you have seen?

Russell: If you only had three to pick, I guess Doug Smith would be the best, then Newton Thomas, then Sperry Marshall.

Alan: Newton Thomas, now for people who haven't been around for a long time, it's a name that they would hear quite often, but what made Newton such a good shooter?

Russell: Well that's a very difficult question. It's unfortunate that he is not alive to answer that himself because it's a question that I would like to ask him.

He obviously had a lot of natural ability, but I've heard a lot of people say it's because Eley gave him a lot of cartridges to shoot, but I can assure you that that doesn't make you a great shooter. That comes from inside - he obviously had a lot of backbone and a lot of heart.

Alan: Doug Smith - you mentioned Doug earlier in the interview, but Doug doesn't do a lot of shooting on the national scene at the moment, although we see him from time to time at the Trap Nationals. What makes Doug such a good shooter in your opinion?

Russell: This is his fifth decade now of shooting, and I would say the consistency that guy has had for such a long time. His determination is probably unequalled to anyone I have ever seen. If ever you came down for a National title and didn't want someone beside you in the shoot-off it would be Doug Smith.

Alan: And a gentleman as well?

Russell: Yes, I found Doug to be great. I found most or 99% of the people I consider to be great shots have been good sportsmen.

Alan: Can you tell us the one exception?

Russell: I could but I don't know if it would get in the magazine.

Alan: OK, I think we'll pass on that one. What can you see about Sperry Marshall that impresses you?

Russell: Well, I have always found Sperry to be a very modest and down to earth person. I think a lot of people in Victoria are very glad there wasn't a bridge connecting Tasmania to Victoria somewhere because Sperry would have spent a lot more time over on the mainland. He's very unfortunate as far as shooting is concerned, that he's been stuck in Tasmania where it costs him a lot of money to come over to the mainland and shoot, and I don't think we ever did see the best of Sperry.

Alan: Maybe Sperry's bad luck might have been yours, and others good luck.

Russell: I think everybody would agree with that. As I say, if he had have spent a lot more time in Victoria and NSW he would have won twice as much as what he did.

Alan: Well, that's three very well known names and obviously there would be others that wouldn't be far behind with ability, but

have still got to do a little bit more to bring themselves up to the standard of those three that you have seen. OK, what about in the Olympic Trap then. If you had to pick your own squad of Olympic Trap shooters, Australians' only of course, who would you like to be shooting with?

Russell: I guess of the best shooters I have ever come across, you would have to put Jim Ellis as the best, but Michael Diamond is fast catching up.

Alan: You think Jim's the best Olympic Trap shooter that you have seen in Australia?

Russell: Yes, in Australia I think he has been a good shot for a long time. As I say, I don't think Michael will have any problems in the future equalling Jim's success because we haven't seen the best of Michael yet. There's Terry Rumbel of course. Terry's posted some great scores overseas. John Maxwell – you couldn't go past putting him in a squad. Probably a guy that we never did see the best of also would be Domingo Diaz. He had so much ability, but unfortunately Domingo wasn't on the scene for a long time and I don't know whether we will ever see him back again – I certainly hope we do.

Alan: So that would be a six shooter squad. You would have Jim Ellis in No. 1 position, Michael Diamond in 2, Terry Rumbel in 3, John Maxwell 4, Domingo in 5 and you shooting in No. 6 just to make up the squad.

Russell: Well, I don't know if you would put me in six, but if I had to pick five other guys, I would select these.

Alan: If you had to select five other DTL shooters to shoot with in a squad today, who would you choose?

Russell: If it was just a straight 50 target double barrel event and my life depended on it, I guess I would start with Michael Diamond, then Steve Atkins. These two are always consistent. I still couldn't go without Doug Smith and then probably Jon Whittakers. The last spot could be any number of shooters, but I think a Victorian shooter from Hamilton called Roger Duthie would get it. He is very quiet, but has a bad habit of always being there at the end of the day.

Alan: While you don't shoot Skeet, you have seen a lot of it. If you were picking a five man Skeet squad, who would you, without being a bit presumptuous on the Skeet side of it, who would you pick?

Russell: Well, I don't think there is a hell of a lot between John Summers and Ian Hale. Certainly in the last two years John Summers has shown the ability that we always knew he did have, and his win in Cairo certainly changed a lot of things on Australia's shooting scene.

Alan: OK, so we've got Ian Hale and John Summers, they are two very good shooters. What about someone like Craig Meuleman who has been around a long time and had a lot of opportunities, but hasn't quite put the score on the board, but still seems to be an excellent shooter?

Russell: I still think Craig has got a chance to prove himself. He is young, really, and I'm sure Craig will make many more Australian Teams.

Michael Inguanti is a guy with plenty of ability. I don't think Michael knows how he shoots, but he seems to break a lot of targets. I hope Michael gets back to being involved in the sport again because we can't afford to lose talent in ISU Skeet, as we need to harness a bit more of it because our numbers have been very low for a long time.

Alan: We'll be looking for another one to make up a squad. You've got Ian and John, Michael and Craig.

Russell: I guess David Cunningham.

Alan: David's a good all round shooter?

Russell: Yes, he is probably one of our best all rounders, and I'm sure David will make many more Australian teams in the future also.

Alan: Who would you believe to be the six best all round shots you have seen in Australia?

Russell: That's not an easy question as it's often hard to judge the degree of difficulty from one discipline to the next, but from my experience, I would say Ken Lowry would probably come in first, just ahead of Jim Ellis and Bill Iles. From here I couldn't split Graeme Boyd, David Cunningham and Kevin Perkins.

Alan: What about some outstanding prospects that we might have around at the moment in Junior ranks particularly?

Russell: Certainly in my travels I've come across a lot of juniors. One guy in Down the Line that has enormous potential is Brett Hall from Darwin. He's a young boy of about 16 or 17.

Alan: He shot well in Wagga didn't he?

Russell: Yes he did, he won the Junior High Gun there. He has got an enormous future ahead of him. He's a solid kid and he seems to have his head screwed on the right way, and I am sure we are going to hear a lot more of him. In Olympic Trap I have no doubts that Glen Hayden would be our best junior prospect since Michael Diamond. He is mixing it now with the men, and that's been the thing I have noticed in Olympic Trap, that there has been very few juniors who have been able to compete competitively in open competition and Glen has certainly proved that he can do that now and he might be a bit of a surprise package at this year's ISU Nationals.

Alan: Yes, now we are starting to get a little bit of depth in our ISU shooting, particularly in Trap. It doesn't seem to be quite as deep in Skeet. What about a Skeet junior? Is there anyone there that springs to mind who could make the grade?

Russell: I guess a lot of people look to Andrew Larsen from Queensland to do something. He still may do. He certainly spends a lot of time training and a lot of time with some of the best coaches in the world. The ball is really now in Andrew's court. He's had everything he has needed to prove that he can shoot – if he can't do it now well he never will.

Alan: What word of advice for Andrew then Russell?

Russell: I guess he has had all the advice from all the best coaches he could possibly get, but it is just a matter of perseverance from Andrew. If he can keep his head on the right way, well that's fine, but a bit of guts and determination I think is really what it's all about. I'm sure Andrew has got that but the next year or so will really be the telling factor for him.

Alan: Well, what you're saying there, is that the time, coaching and expertise can make a difference, but unless that's coupled with natural ability and a desire to achieve, maybe success won't be as easy to come by.

Russell: That's exactly what I was saying. A lot of people say just give someone a truckload of ammunition and they will turn into a great shooter, but I can assure you that's not the case. You have to have a bit of heart and that comes from the desire and determination and will to win. No-one can give you that, it's something that you have to be born with I think.

Alan: There's a word of advice for Andrew or anybody else who aspires to make the grade in international shooting.

Moving on Russell, getting onto the technical side of things, obviously from the way you have spoken you prefer ISU to DTL. The ISU brings you personal honours but the DTL brings you personal gain. What is your comment on the aspect of DTL bringing you personal gain?

Russell: Well, I don't know how much personal gain you actually get out of it, I mean it costs a lot of money to shoot a lot of DTL. I think the only way to make a small fortune from shooting is to start with a big fortune, as a lot of people have said. There really is no monetary gain, but the personal gain – the honour of representing your country to me is the ultimate, and I guess the ultimate is to at least make the Olympic Games. That's why I preferred ISU shooting. The thing I like about DTL is that you get around to a lot more clubs and meet a lot more different people. To me that's very important also.

Alan: When you're talking about the personal satisfaction, obviously when you first started you weren't a AA grade shooter so you have worked your way up through the ranks. Now we don't always see people aspiring to become AA shooters and one would think that that's what every shooter should be aiming for, to be shooting at the very best level of the discipline they are competing in. What about those shooters that you see, and we all know they do exist, who have the ability to make AA grade but for some reason or other their scores never ever get them there?

Russell: Yes, it's a thing that has worried me in the past. Certainly when you go to the Nationals and you see the amount of B and C grade shooters, I find it hard to believe sometimes

that they are genuine B or C grade shooters. I think the grading system in Australia is all wrong. To have 4 equal prizes for each grade I think is ridiculous. The system they use in Italy seems to be a lot better. It's a progressive system where if there was \$100 in the pool, the C graders are entitled to \$20 of it, the B's can get \$30 and the A's can get \$50. That system makes the Italians a lot better shooters because they always try and get in a higher grade and they are always willing to compete a lot more and try a lot harder so they can get a bigger share of the prizes. To me the thing that has probably taken away a lot from shooting is the graded system that was introduced in 1973 because there is no incentive to get to a higher level.

Alan: *Would you like to see the grading system done away with?*

Russell: I wouldn't completely like to see it done away with, but I think we could learn a lot from that system that I just mentioned. I think it has to be restructured so we have at least some incentive to try and make a higher grade.

Alan: *That's a part of the sport we could probably talk about forever and a day, and come up with answers to suit some and not suit others. Just getting back on to the shooting side of it, with your equipment Russell, what do you recommend? What do you feel are the best shotguns to use? Obviously Winchester would be your best cartridge, so I won't ask you that question, but about the guns themselves, what do you use and what do you recommend new shooters should use and how should they go about getting their guns?*

Russell: Well, I don't think there is any doubt that Berretta have started to take the world market in the last five years, and the range of guns they have is by far superior to the next best, which would probably be Perazzi. A 682 gun I think is every bit of what you would need to shoot DTL. Certainly if you are going to shoot the ISU disciplines the ASE or the SO models are also something I think everyone should consider, but a 682 is by far the most dependable and affordable gun on the market and it seems to be a gun that holds its value pretty well, so if you re-sell it at some stage you are not going to lose a lot of money.

Alan: *You are shooting a 682 for DTL?*

Russell: Yes, I use 682 for DTL and a ASE90 for Olympic Trap.

Alan: *An ASE90 is not a gun that is within everybody's reach. What if they can't aspire to one of those?*

Russell: The guy who won the Olympic Gold Medal used a 682 so there is certainly nothing wrong with them for the ISU Disciplines.

Alan: *There is every chance that he may be using an ASE90 next year after winning a Gold Medal at the Olympics.*

Russell: I'd say he would be using a gold plated one.

Alan: *How do you alter your style, Russell, when you are changing from DTL to ISU?*

Russell: I certainly use a different style for DTL. You're not trying to get a lot of gun speed and your barrel speed is what really determines how much lead you give your target. I adopt a style in DTL, where I actually swing the gun a lot slower. I tend to hold it a lot longer on the fore end which keeps the barrel slower. In ISU I hold it a fair bit shorter and I tend to try and swing my whole body. I try to swing from the ankles, where in DTL you're really just using your upper body or your arms. I drop my right arm a lot more shooting DTL than what I would in Olympic Trap because I just find that way you don't use a lot of your body to swing and it slows you down quite considerably. I also hold my gun much higher above the traphouse for DTL.

Alan: *Is that a technique or a style that you have developed yourself, or is it because it has been pointed out that that's the way to go and you just worked on it from there and mastered it to the degree that you have?*

Russell: I was a bit up in the air for a long time, but I got a little bit of help when I went to England in 1990 before the World Championships. I had a few days coaching, and that was probably the most productive time I've ever spent. They really brought it out to me that you do need two different techniques to shoot both. There are certainly people who have succeeded in this sport who use the same technique for both, but I don't think the same is ideal and certainly in the ISU Discipline you have to swing with the entire part of your body. You have to swing from the ankles up and in DTL you don't do that.

Alan: *When you are shooting with other people in both Australia and Internationally, do you find that they adopt a similar style as you do, or are you a little bit different?*

Russell: I think to look at each of the top 20 shooters in the world, they'll all look different, but I can assure you, their fundamentals and basics are all exactly the same and what they're thinking is pretty much the same.

Alan: *Now getting on to the most important thing, the targets are one thing, the shotguns another, but you've got to have cartridges to break them. The ACTA has introduced the 28 gram load for DTL as from the 1st January and of course the ISU 24 gram loads also come into effect from the 1st January. What affect do you think, first of all, the 28 gram load is going to have on DTL shooting? We all know there has been some criticism to that decision, so how do you see that one going? And then of course, what appears to be a greater decision, bringing the shot size down to 24 grams for ISU?*

Russell: I'm sure the 28 gram will not have any affect at all on 15 metre DTL shooting. Your margin of error to shoot a DTL target at about 30 metres is enormous and 28 gram or 24 gram won't have any difference at all. The best part about that I can see, is the reduction in recoil. It can only have positive affects. Certainly anyone who criticises DTL going to 28 grams on the basis of scores being poor, is a fool. I think it will be a long way off before the majority will consider using 24 grams for DTL but I wouldn't have any problem shooting a major event with a 24 gram load. Certainly in ISU it's going to cause a little bit of problem, shooting at targets at a greater range, and obviously the less amount of shot you've got will make it harder to break targets. That would be one of the reasons why they're introducing it, apart from the environmental aspect. To compensate this the targets have been brought back 5 metres.

Alan: *Would it be fair to say Russell, then, with both of these decisions, first of all the ISU coming back to 28 gram and now 24, do you think that has forced manufacturers not only in Australia but world-wide to lift their game a little bit, and manufacture a cartridge which is technically going to suit the lighter loads to a far greater degree than maybe they were given in the past?*

Russell: That's a very interesting comment, because with my involvement with Winchester we've done an enormous amount of tests on 24 gram loads, and the one thing that really came to light is that you must have hard shot to get the performance. With the softer shot you just don't get the same affect. It's very hard to get the patterns that are required at 35 metres, and ultra hard shot is something that has caught on world-wide. It's made the cartridge manufacturer spend a lot more time and money, and they've had to diversify a lot of their loads. Take Winchester for example, who are now producing ten standard target loads, which a couple of years ago would be unheard of.

Alan: *Yes, we have probably seen more new shells introduced in the last 12 months than the sport might have seen in the 10 or so years prior to that.*

Russell: There's no doubt about that.

Alan: *Just an off-the-cuff question here. With the Winchester cartridges, obviously you know what you are about there, but you've also got to try the competitors. How have you found their 24 gram loads?*

Russell: Well, I think Sergio's nickel 24 gram load will be OK. I have my doubts about any cartridge manufacturer who produces an ISU load with soft shot, soft being less than 3% antimony lead, because you just can't keep the patterns tight.

Alan: *You're sounding like a technical person now Russell, so obviously the Winchester relationship is rubbing off and that's good, because if that is the case, Winchester benefit out of it as a company. Loading a different cartridge in each barrel is mainly a mental thing in your opinion. OK, we understand that, but what about some of these other recent fads? Are they only mental things, or are they things that are really going to help a shooter improve his/her performance? I'm talking about things like barrel porting, adjustable stocks, back boring, these sort of things. What's your opinion on that?*

Russell: Well, I guess, there's no substitute at all for accurate shooting. I've been beaten by some guys who have had some terrible looking guns in the past but in reality they pointed it well. There's a lot of fads going through shooting at the moment

and you have to wonder if any of them are for the benefit of an individual himself. I tend to look at what the major gun companies are doing around the world. Certainly Beretta are producing guns now with longer forcing cones and also they are producing a ported gun for the American market, but of course the majority of Beretta guns are not ported because it is illegal to use them in Olympic Trap. The adjustable stock - I've seen a lot of guys with them and I have tried one myself. I think an adjustable stock is OK, but once you get it right, I believe you should either araldite the stock together or get another stock made. It always makes me laugh when I see some of these shooters miss a target and then go and adjust the stock again - that's the biggest trap I have ever fallen into. I would suggest anyone who shoots with an adjustable stock, once they get it right, get a proper stock made. Back boring - well Beretta don't do that at the factory. They believe their barrels have been correct for quite some time now. I wouldn't get my barrels back bored because Beretta don't do it and they recommend not to do it. I am guided by them. They have had 400 years experience compared to my 15, so I think they hold the trump card there.

Alan: *That's the way to go. Experience is a big thing whether it's experience in producing the shells or the guns, so we'll run with that one. Talking about mental things again, what percentage of top level competition do you believe mental preparation constitutes?*

Russell: I think for an AA grade shooter mental preparation really becomes 80% of the game. It's physically not that hard to break a clay target, but it's mentally hard to break one if your life depends on it so to speak. That's what people don't really understand. The difference is between performing at National Championships and performing at the Olympic Games. This is purely a mental sport that's really based on confidence. If you are a very confident person you will be hard to beat. If you lose your confidence for twenty minutes you are in awful trouble. That's what I have found. You can go down to a local shoot and you just know some days that you are not going to miss and on those days you should do very well. If you have any self doubt, and that of course is a mental problem, then you are going to find some big obstacles in your way.

Alan: *Going back to last year's ISU Nationals up in Brisbane, there were a couple of personal interruptions that you had to deal with, but did you put in as much mental preparation for Brisbane as you would normally, because your results up there weren't as would have been expected? What do you think was the problem there?*

Russell: Well, I don't make any excuses, it's simply because of the fact that the 1992 ISU Nationals weren't a team selection shoot, and I hadn't fired at a single Olympic Trap target since the Perth World Championships. I just found that I did so much shooting in 1991 at Olympic Trap I needed a break, and I hadn't shot any DTL in quite some time, so I decided I would enjoy myself for a while and shoot a lot of DTL. There were some big DTL competitions on around the same time as the ISU Nationals. I decided to shoot in them, and I copped a lot of personal criticism from leaving half way through the Nationals to go to a meeting in Geelong. As I said before, you have to set your goals and the 1992 ISU Nationals weren't one of them, but I can assure you that this year's ISU Nationals will be my goal for 1993.

Alan: *The Darwin Nationals will be interesting because they will obviously have a large bearing on the team that goes back to Barcelona to shoot the 1993 World Trap & Skeet Championships. What are your thoughts on the ACTA deciding to take the ISU Nationals 'all the way' as some people say, to Darwin?*

Russell: Well, I guess every State has got the right to have them, but Darwin Gun Club will do a good job. I have just come back from a competition up there and the layouts they have are excellent, there's no problems at all with them. I've heard a lot of criticism about Victoria not putting in for them, and I think Victoria should be criticised for this. We have two clubs here that could run them and the VCTA elected not to even apply for them. I can't understand that mentality, but I have got no problems travelling to Darwin. I feel a bit sorry for some of the Victorian shooters that we have here who won't be able to afford to go to Darwin, especially on the year that we are picking an ISU team. I think it was wrong for Victoria not to apply to hold them but that's their decision and I don't want to get too heavily involved in Victoria politics. The VCTA's recent decision to stop all 1993

ISU eliminations shows me how backward and primitive some of our State Executive have become.

Alan: *What about concentration? How do you maintain your concentration to shoot some of these large breaks, particularly the one you shot recently up at Tamworth, where you shot 1177?*

Russell: Yes, it was an unusual type of event really because I hadn't shot any DTL since the Wagga Nationals. After shooting Olympic Trap for six months, a DTL target looks as big as a dustbin lid. I went to Tamworth with the attitude of having a good time, and as Saturday progressed and the break got bigger and bigger I just didn't believe I was ever going to miss. It seemed as though you could just point the gun anywhere and it was going to break. It is certainly something I don't want to do again in a hurry. The 1177 took two days of non stop shooting to achieve and after that amount of time, I don't think it's concentration, it's just simply a state of mind where it becomes work. It's something that is hard to describe how you do it but it just happened.

(To be continued).

PRESIDENT: Ray Hammond (067) 79 1009

SECRETARY: Rex Varley (067) 79 1461

It's what we do in the Laboratory that puts us in front in the field...

Backed by over a century of worldwide ballistics expertise and leadership, every Winchester cartridge is scientifically designed and precision loaded for superior performance.

Stringent quality control and ongoing research and development keep Winchester in front.

Choose from Winchester's wide range, the velocity, patterns and power needed to bring down your game.

Winchester the ammunition authority.

...And in the Field no one Compares!

Winchester Shotshells Lead the field

Patented Compression formed plastic case for greater strength and water resistance.
 Patented Ball Powder perfectly matched with AA wads for controlled burning, superior gas sealing and patterns.
 Stringent quality control conducted in a N.A.T.A. registered laboratory.
 Multiple reloadability. Minimum 10 loads per case.
 Manufactured to S.A.A.M.I. specifications & safety standards
 Australia and the world's most popular shotshells.
 Widest range of shotshells in Australia
 Major contributor to shooting associations & conservation.
