AUSTRALIAN ISU CLAY TARGET TEAM 1993 OCEANIA

THIRD ROW: John Maxwell, Jim Ellis, Greg Newey

SECOND ROW: Craig Meuleman, Russell Mark, John Summers, Glen Hayden

FIRST ROW: Andrew Larsen, Ian Hale, Murray Alexander (Team Manager), Michael Diamond, Desiree Huddleston

A PERFECT 10!

NEW

MIROKU

10

1

Long choke tubes for undistorted patterns. Something very special for Model 10 only.

2

"Over Bored" for better ballistics and less perceived recoil.

3

Choice of 28', 30" and 32" barrels.

4

Ventilated barrels for fast handling and balance.

5

Tapered 13mm by 10mm raised floating rib for instinctive target alignment.

6

Adjustable trigger positions - correct for your hand only - minimises flinching, improves timing.

7

Palm swell for greater gun control.

8

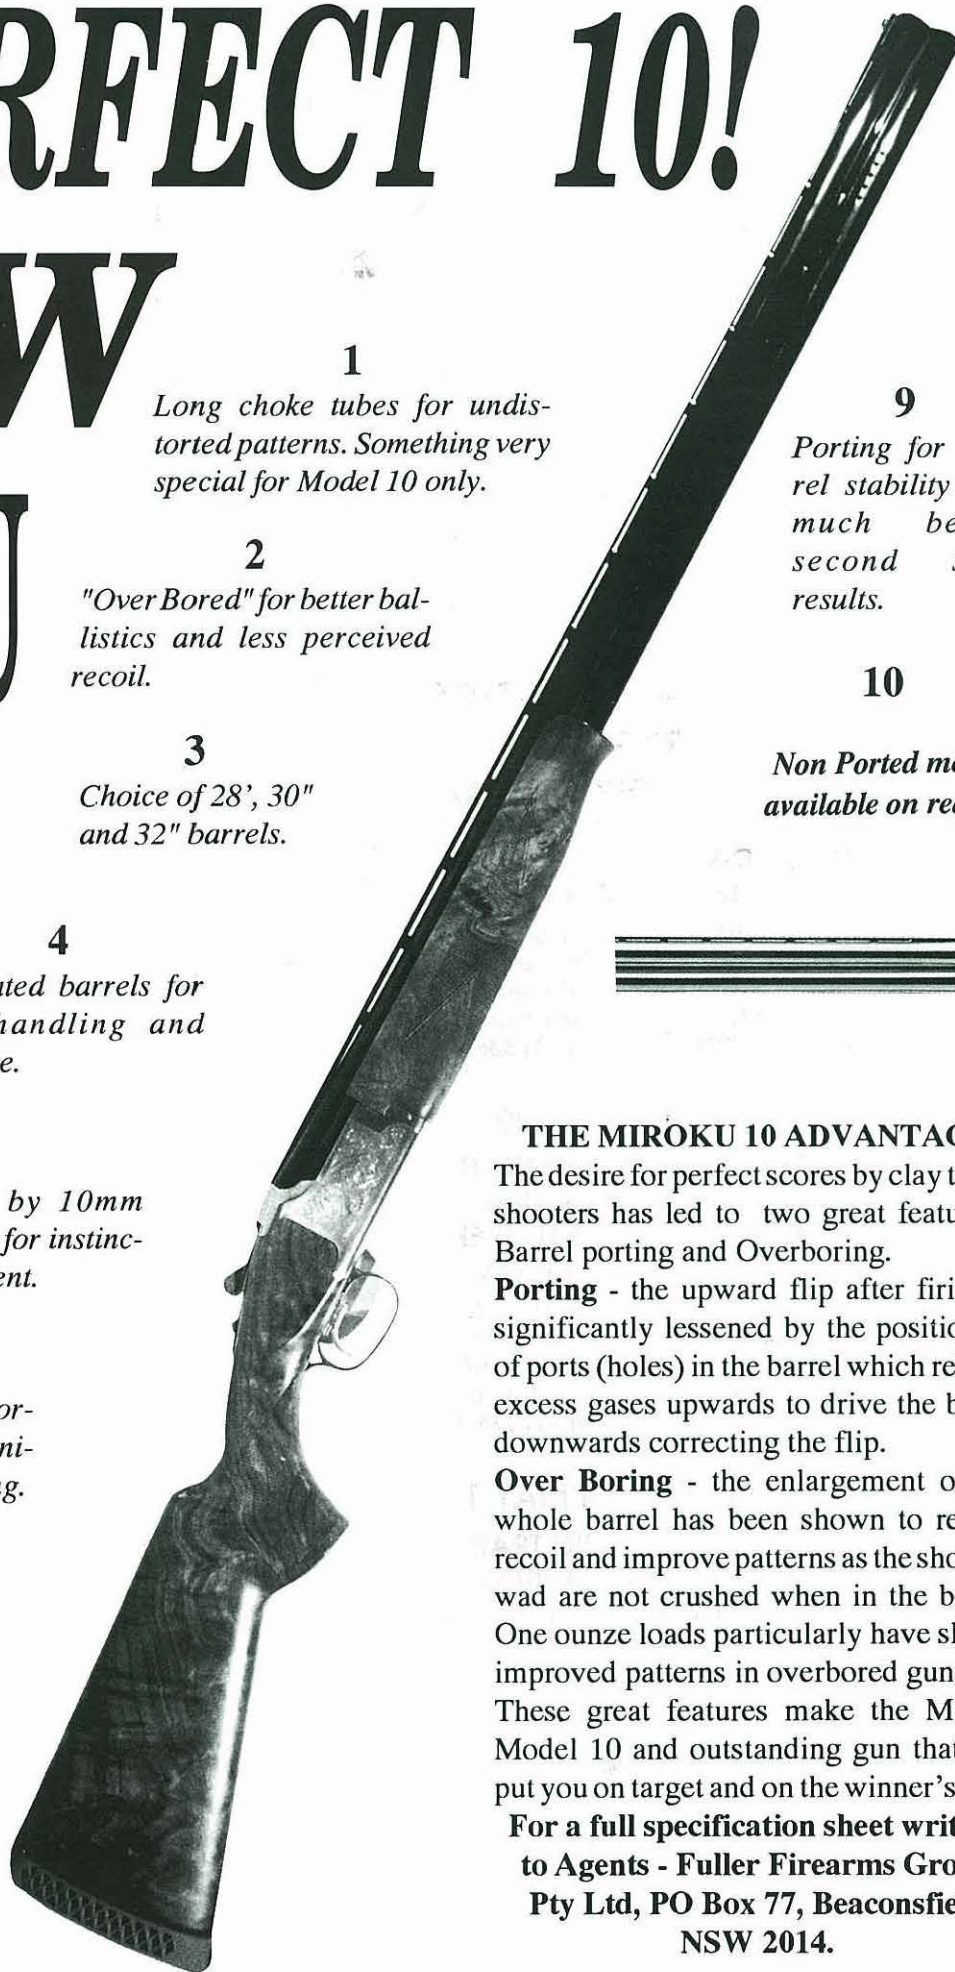

Three Grades - I, V and Presentation in Trap, Skeet and Sporting models.

9

Porting for barrel stability and much better second shot results.

10

Non Ported models available on request.

THE MIROKU 10 ADVANTAGE

The desire for perfect scores by clay target shooters has led to two great features - Barrel porting and Overboring.

Porting - the upward flip after firing is significantly lessened by the positioning of ports (holes) in the barrel which release excess gases upwards to drive the barrel downwards correcting the flip.

Over Boring - the enlargement of the whole barrel has been shown to reduce recoil and improve patterns as the shot and wad are not crushed when in the barrel. One ounce loads particularly have shown improved patterns in overbored guns.

These great features make the Miroku Model 10 an outstanding gun that will put you on target and on the winner's dias.

NATIONAL PRESIDENT'S NOTES

Werribee International Shooting Complex Inc.

On Sunday the 14th of March I was invited to attend the official opening of the WISCI complex at Werribee.

The complex was opened by Mr Pat McNAMARA, Deputy Premier of Victoria, before a very large crowd of officials, competitors and visitors.

It was certainly a pleasure to be attending the opening of a DTL, Trench layout in these times, instead of other disciplines. Carol ZAGOR and her very hard working committee and club can be justly proud of this venue.

Plans for the future are extensive and it is hoped it will not be too long before international competitions are being conducted there.

Promotional Clothing

The ACTA has again expanded back into promotional clothing.

The first articles being offered are polo shirts and windcheaters in a range of colours, with the ACTA logo embroidered thereon. These very high quality garments will sell for around \$25 each, which is exceptional value. Sizes range from a small 8 to a very large 26.

Anyone wishing to purchase these items may do so at the Nationals, or alternatively by contacting Gina at the National Office.

Readers may like to indicate further promotional articles they would like to see, such as belt buckles, car logos, jackets - to suggest a few.

New Zealand Nationals

Australian shooters did well at the just completed New Zealand Nationals at Waikato Clay Target Club.

Mark McINNES, Narrabri, was successful in the Mini Target C'ship, Alan DENTON the Triple C'ship, Mark McINNES again in the Single Barrel, Michael DIAMOND the Points C'ship, Russell MARK the Grouse Trophy Match, and Australia winning both Teams Matches in Trap and Skeet by big margins. A full report will appear in next months CTSN.

Glenn G. Woodhatch

WORLD CHAMPIONSHIPS TEAM MANAGER

Applications are invited from suitably qualified persons for the position of Team Manager for the World Championships which are to be held in Barcelona in June 1993.

Written applications should be sent to —

A.C.T.A.
P.O. Box 557,
Mount Waverley, Vic. 3149

Applications must be received by April 20, 1993.

SHOOTING SPONSORSHIP

The current situation for most clay target shooters is that they pay personally for all the costs associated with clay target shooting. Sponsorship as we have traditionally known it, has been allocated to major competition or to a very limited number of top class shooters.

The potential for clay target shooting to elevate its profile and sports value is limited by the financial position of the majority of shooters. Therefore, if clay target shooting is to achieve an improved status we need to attract additional financial support — the obvious area is the corporate or business sector.

There would be a number of ways that this sponsorship could be achieved, bearing in mind we should not limit ourselves to the traditional shooting industry suppliers. For example in the USA the NSSA (Skeet Shooters) attract sponsorship from Buick Motors to the tune of 4 cars per year.

The following proposal is an example of what could be done:

1. Conduct at every Nationals a 3 person team event.
2. Corporate sponsorship entry — cost \$100-\$250 per team.
3. Team members ammunition to be supplied free (i.e. included in team entry costs).
4. Ammunition manufacturers be requested to tender as suppliers.
5. Proceeds from the competition be donated to a major charity, such as Variety Club.
6. Sponsorship would then attract tax concessions because of the donation to charity.
7. *Utilise the relationship with the Variety Club to attract media coverage.*
8. We would be seen as doing the right thing.
9. Publicise the fact that clay shooters are supporting a children's charity.

Comments/suggestions regarding the above would be most appreciated. Please send to Allan Kenny, 56 Wariga Road, Glenorchy, Tasmania 7010.

Allan Kenny
A.C.T.A. Vice President

1993 NATIONAL OLYMPIC DISCIPLINE CHAMPIONSHIPS

Conditions of Entry

1. In the event of any shooter not being able to produce his/her handicap card, a duplicate shall be issued for the duration of the National Championships. This card will then be forwarded to the Club Secretary to enable scores shot to be recorded. NOTE: A fee of \$20 will be charged for the issue of any duplicate handicap card.
2. Targets to be shot in brackets of 25, squads of 6 Olympic Trap, squads of 6 ISU Skeet.
3. While shooters may request to be squadded in the same way as other shooters, under no circumstances are shooters allowed to arrange their own squads. All squads will be determined by the Nationals Office, whose decision shall be final.
4. Each shooter is to take enough cartridges to shoot at 25 Targets.
5. Shooters who fail to appear in time for their squad will be penalised by the LOSS OF THREE TARGETS.
6. Should a shooter being late for his squad then elect to withdraw from the event he shall not be eligible for any refund of nominations paid.
7. All shooters must sign the score sheet after each 25 targets. Once a shooter has signed his score sheet he has accepted his score. Any score sheet not carrying the shooters signature will be credited with the lowest recorded.
8. Any competitor may be called upon to referee and/or score throughout the period of competition. The persons designated as scorer/referee or line referee must fulfil their obligation to do so or have obtained the services of a suitable replacement who must be ready to take his place at the required time. In the event of the designated persons or their replacement not being ready to take their place at the required time, the person initially designated to fill the specific role SHALL INCUR A PENALTY AS PRESCRIBED UNDER INTERNATIONAL RULES.
9. Any unauthorised shooter interfering with or attempting to interfere with the trap will be penalised **FIVE (5) TARGETS**.
10. All disputes must be in writing together with a \$20 deposit, which is refundable subject to the appeal being upheld.
11. All disputes and deposits must be lodged with the Tournament Director who shall arrange a hearing with the appointed jury.
12. Optional sweep/purse nominations shall be noted on a separate form from shooting nominations. Entries for sweep/purse will only be accepted at the designated area, which shall be at a different location from the area accepting shooting event nominations.
13. Optional sweep/purse prizes will be available for collection on the following day of each event with the exception of the final day. All payments must be signed for and proof of identification given if requested.
14. When team selection is involved, shooters shall be eligible for the open team as well as section teams irrespective of the section nominated for. To be eligible for selection in any team, competitors must have competed in a clear majority of programmed events.
15. High gun awards are determined for each section irrespective of the nomination paid. To be eligible for high gun recognition, competitors must have competed in a clear majority of programmed events for each respective high gun.
16. Shooters who are eligible for a reduced nomination and elect to pay the full open nomination shall be eligible for recognition in the open section only. One nomination only

may be paid. Shooters who are eligible for and elect to pay a reduced nomination, (60% of the open nomination) for their respective division, ladies and juniors shall, having so declared their section of competition only be eligible for recognition in the section nominated (U.I.T. Rules).

17. A minimum of three persons must compete in any grade or section including high gun before sashes, medals, trophies are awarded irrespective of nomination paid.
18. Nominations will close at a time determined by the Tournament Director.
19. Practice of card playing at the Nationals Championships is prohibited in areas embracing the club rooms, bar, dining areas, or such areas as may be determined from time to time.
20. The Olympic finals system will be used to determine the overall placing, 1st, 2nd, 3rd in all events.
21. Juniors to be under the age of 21 in the year of competition.
22. Any interpretation of the program and conditions of entry will be the responsibility of attending members of the Executive Committee whose decision shall be final.
23. An acceptable standard of dress is required for all competitors - Tournament Director to adjudicate.
24. I am in compliance with State licencing laws in my State of residence and in the State where this competition is being conducted.

U.I.T. SHOOTING RULES - 1993

As is normal practice in the year following the Olympic Games, the International Shooting Union Rules relating to all disciplines have been addressed and numerous changes made effective from 1st January, 1993.

In regard to the shotgun events, changes made include limiting shot load in all events, target distances in Olympic Trap and Ball Trap, shooting procedures in Skeet and format changes in Double Trap.

General

Effective immediately, shot load allowable for all U.I.T. shotgun events is restricted to a maximum of 24gr (loading tolerance + 0.5gr) of shot size no larger than 2.5mm (+ 0.1mm tolerance). In the old terms, this is the equivalent of a maximum of 7/8oz of shot size no bigger than No. 7.

All U.I.T. Championships in Olympic Trap, Automatic Trap and I.S.U. Skeet will be of 125 targets to be shot in five (5) rounds of 25 targets each.

Double Trap will be 75 pairs (150 targets) for men and 60 pairs (120 targets) for women and juniors.

The practice of 'Test Firing' (clearing of barrels) is permitted in all U.I.T. shotgun events, however shooters may only test fire prior to the commencement of their first round each day, not before each round.

I.S.U. Skeet

Major changes have been made to the rules relating to I.S.U. Skeet, in particular those relating to the sequence of a round of Skeet. The new sequence for a round of I.S.U. Skeet is -

- Station 1: 1 single from the high house
1 double shooting the high house target first and the low house target second
- Station 2: 1 single from the high house
1 double shooting the high house target first and the low house target second
- Station 3: 2 singles shooting the high house target first and the low house target second
1 double shooting the high house target first and the low house target second
- Station 4: 2 singles shooting the high house target first and the low house target second
1 double shooting the high house target first and the low house target second
- Station 5: 2 singles shooting the high house target first and the low house target second
1 double shooting the low house target first and the high house target second
- Station 6: 1 single from the low house
1 double shooting the low house target first and the high house target second
- Station 7: 1 double shooting the low house target first and the high house target second
- Station 8: 1 single from the high house
1 single from the low house

Skeet Cartridges - shot size permissible for I.S.U. Skeet shooting has been increased to a maximum of 2.5mm (+0.1mm tolerance). Each round of Skeet must be completed with cartridges of one type only, those being the ones with which the round was started. (Cartridges of different size shot, e.g. No. 9 in the first barrel and No. 7 in second barrel are not permitted. Cartridges of one brand only must be used during each round.)

Skeet Time Limit - A shooter must stand on the station, position himself, load his gun and call for his target within 10 seconds after the shooter preceding him has left the station or after the

referee has given the signal to start firing. (The time limit has been reduced from 15 secs).

Shoot-offs - (After the completion of the 'final round' for the top six shooters). If two or more shooters have equal scores for the first three (3) places in the event, they will all shoot on the same stations and targets specified for that station. The shooter who hits the least number of targets on the respective station is the loser.

Olympic Trap

Changes have been made to the Olympic Trap tables. Major variations relate to distances. The new tables relating to Olympic Trap are shown below.

Cartridges/Firearms - As with all I.S.U. shotgun events shot load is limited to a maximum of 24gr of shot size no larger than 2.5mm. Compensators or other devices which serve like purposes (e.g. barrel porting) are prohibited on all guns used in Olympic Trap shooting.

Time limit - A shooter must position himself, load his gun and call for his target within 10 seconds after the shooter on his left has fired at a regular target. The shooter must not leave his station before the shooter at his right side has fired at a regular target and a result is declared.

Shoot-offs (After the completion of the 'final round' for the top six shooters). If two or more shooters have equal scores for the first three places in an event, they will all shoot ONE SHOT station after station in sequence until a 'LOST' target is recorded. Each shooter shall load his shotgun with only ONE (1) CARTRIDGE on each station. If two shots are fired a 'LOST' target will automatically be recorded. Each shooter must shoot at the same number of stations and targets. The shooter who records the first 'LOST' target is the loser.

Olympic Trap - Trap Setting Tables I-IX (effective 1st Jan 1993)

TABLE I

Group	No. of Trap	Direction of trajectory from the trap	Elevation trajectory at 10 mts	Length of trajectory
1.	1.	25 degrees to right	2m	72m
	2.	5 degrees to left	3m	75m
	3.	35 degrees to left	1m50	70m
2.	4.	20 degrees to right	2m50	72m

PERAZZI

The gun that has done and is doing more for shooters in 26 years, since I introduced them in commercial quantities into West Australia, than other guns that have been available over very long periods.

With the most modern and up-to-date technology built into them, it is designed to give you more value for far longer for the dollars you spend when you buy a Perazzi – no doubt about that.

It's a long-term investment for your enjoyment so why not join the **very wise** shooters who knew best to select Perazzi and when you also are ready to invest in a top gun, you immediately think to yourself "PERAZZI FROM YOZZI" the most favoured name and Perazzi centre in Australia since 1972. We now offer you for immediate delivery the following large range of models:

MX1	MX3 trap	MX5 sporter	MX8 trap with 28 ½" and 31 ½" barrels
MX2	MX3 skeet	MX4 trap	MX8 skeet
M2L	MX3C	MX4C trap, skeet or field	MX8 gold line trap
	MX3C sporter	DB81 special trap	
		SC3 trap and skeet	

We try to have for immediate delivery stocks of all above models, but apologise should at times we may be temporarily out of stock.

All orders including special orders get my personal attention in order to fulfil your personal satisfaction. What better could you wish for?

Now be positive and buy your "PERAZZI FROM YOZZI" (since 1972). It shoots as good as it rhymes. The rest is up to you. The wise or otherwise decision is yours. You can't say I haven't advised you. Now I thank all past clients and I look forward to giving my best assistance to all my past and future clients.

Tolerances: Distances must be set as near as possible to those stated in the preceding tables. The height of the target path above the level of the trap house roof at 10m forward of the throwing point must be between 1.5m and 3.5m. A tolerance of 0.5m in elevation (a minimum of 1m and a maximum of 4m) is permitted.

Automatic Trap (Ball Trap)

Automatic Trap (Ball Trap) is a U.I.T shooting event, and must be shot under International Shooting Union Rules.

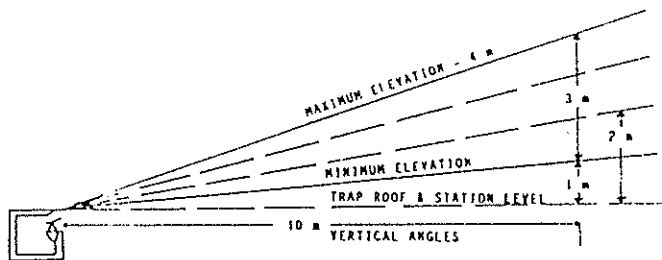

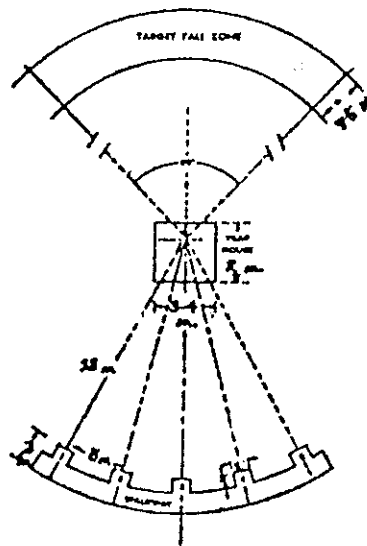

Shot load for Ball Trap shooting is limited to 24gr of shot size no larger than 2.5mm. Compensators or other devices which serve like purposes (e.g. barrel porting) are prohibited on all guns used in U.I.T. trap shooting

Target Distances and Elevations. With a throwing elevation of 2 metres at 10 metres forward of the pit, a properly released target will carry a minimum of 70 metres and a maximum of 75 metres when measured over level ground.

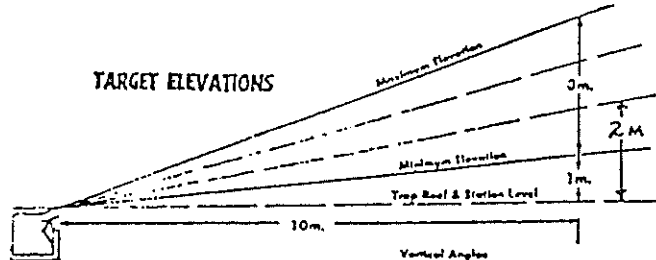

The height of the target's path above the level of the trap house roof and 10 metres forward of the trap shall be at least 1 metre and shall not exceed 4 metres.

The targets shall be thrown within an area bounded by angles not less than 30 degrees nor more than 45 degrees right and left of the imaginary centreline drawn through the centre of the trap house and station 3. The horizontal angles will be measured from the front of the traphouse.

At the commencement of each days competition, a target must be released from each squad to view, prior to the start of their first round of competition.

Trap Target Elevations

TARGET ELEVATIONS

Double Trap

The recently introduced Olympic Discipline shotgun event, Double Trap, has now been refined and new rules and settings established.

As with all U.I.T. shotgun events, shot load for Double Trap is restricted to a maximum of 24gr of shot size no larger than 2.5mm. Compensators or other devices which serve like purposes (e.g. barrel porting) are prohibited on all guns used in Double Trap shooting.

Double Trap events are normally conducted on a standard Olympic Trap range using the centre group of traps (Nos. 7, 8 & 9 traps), however, a separate Double Trap pit may be constructed capable of housing three (3) traps spaced between 1 metre and 1.1 metres apart.

At the commencement of each day's competition, a pair of targets must be released for each squad to view, prior to the start of their first round of competition.

Trap settings, Double Trap settings must be made according to the trap setting tables below.

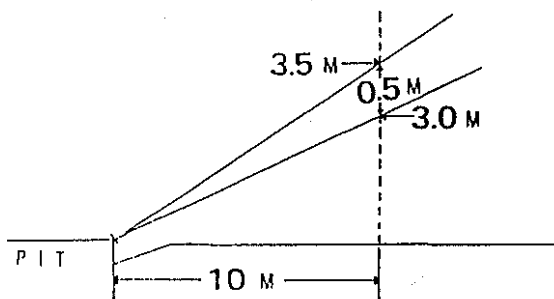

Target Distance - 50m. Elevation 3.0m to 3.5m. Maximum Angle 5 degrees left or right.

DOUBLE TRAP SETTING TABLES

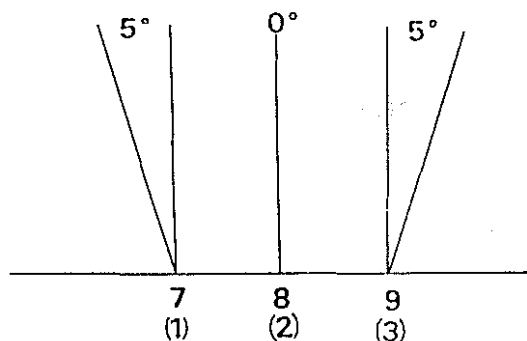

Table	Machine number	Direction of trajectory	Elevation trajectory	Length of trajectory
A.	7.	5 degrees to left	3m50	50m
	8.	0 degrees	3m	50m
B.	8.	0 degrees	3m50	50m
	9.	5 degrees to right	3m	50m
C.	7.	5 degrees to left	3m	50m
	9.	5 degrees to right	3m	50m

(Setting C must be used for the 'Final' competition)

MOUNT ISA GUN CLUB

Top Shooting in Wet Conditions

A rainy Saturday in Mount Isa would not normally be considered the best time to be shooting clay targets, however, the conditions didn't deter competitors at the Mount Isa Gun Club's monthly shoot, and many top scores were recorded.

With light rain falling and anxious eyes cast skywards the squads commenced firing in the 25T Skeet event. Despite the unpleasant conditions quite a few possibles were shot including Bruce Murphy's first ever at Skeet. The final results saw Rod Maxwell, Bill Koitka, Jim Edmonds, Bruce Murphy, Phil Leddick and Trevor Bennett sharing first place.

The 50T Ball Trap was event two, and Greg Matthews claimed first place with a well shot 47/50. The shooters who had shot 46/50 were then sent back out into the rain to decide the minor placings. In fading light and falling rain Bruce Murphy posted 25/25 to win second with 71/75 for the event. Jim Edmonds finished in third just one point behind on 70/75.

With supper over it was back out into the wet night to contest the 50T Double Barrel. Greg Matthews took out A grade with a well shot 50/50 and Bill Koitka claimed B grade on 47/50. However the biggest smile of the night belonged to Cloncurry junior Chris Keyes. His 50/50 made sure the C grade trophy was his, and Tanya Maxwell won D grade with 36/50.

The weather was showing no mercy and once again shooters ventured into the rain for the Mount Isa Gun Club Night Single Barrel Championship. Both Greg Matthews and Jim Edmonds shot 23/25 to win A grade and B grade respectively. The 'Cloncurry Kid' Chris Keyes once again claimed C grade, this time with 19/25, and Mick Coleman in just his second competition took out D grade with 16/25. Lee Matthews who also shot 16/25 was awarded the prize for best junior.

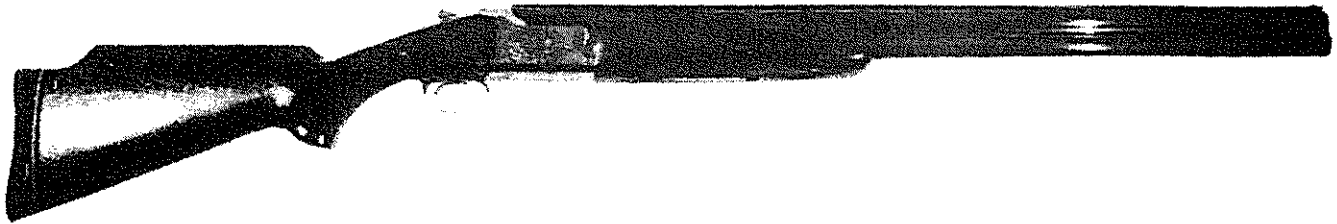

The final event for the night was 25T Continental and shooting had only just ceased when the heavens opened up and the power supply decided to call it quits. The office staff scanned the wet and almost impossible to read score sheets by torch light, only to discover that shoot-offs were necessary. Given the prevailing conditions that would be impossible, a decision was made that the prizes would have to be shared. Ron Cusack and Greg Matthews, both having shot 24/25 shared A grade. Jim Edmonds and Ron Keyes shared B grade with scores of 23/25, while two juniors, Lee Matthews and Chris Keyes shared C grade with their scores also being 23/25. Mick Coleman won his second D grade for the night with 14/25.

All of which shows that top shooting is possible no matter what the conditions. Congratulations to all the winners and to all who shot possibles. Well done!

Ron Power (Sec.)
Mount Isa Gun Club

MIROKU 10:

With radical ballistic changes and the shooters awareness that recoil reduction will enhance scores, the demand for more than the traditional firearm is being sought. It is only in the last couple of years since some of our gunsmiths have ventured overseas to learn of the new innovative methods that will improve patterns and striking power, thus allowing Australian shooters to be able to keep up with the rest of the world by having their guns improved.

It is also worthy of note that up until the early 80s there was no real significant change to barrel performance since choking came into being about a hundred years ago.

Even now most of the European and English gun manufacturers are still building their guns with short cones, however, the top manufacturers are moving in the right direction by at least starting to lengthen their forcing cones.

So up until now, if one wanted to have all the innovative, recoil reducing, pattern enhancing, hard hitting shot, built into the one gun, the shooters had to have their guns made to suit as there was no 'off the rack' firearm available, not until the new range of MIROKU MODEL 10s have come onto our market that is.

MIROKU FIREARMS have been in our country since 1966 and are distributed by the FULLER FIREARMS GROUP in Sydney and have been since MIROKU was introduced. MIROKU FIREARMS have always had good firearms at affordable prices and there is not too many of us that have not owned a MIROKU at one time or another. MIROKU first started business in 1893 manufacturing SAMURAI swords, blades and armour and then ventured into firearms in the 60s. BROWNING has had a big influence at MIROKU and the company manufactures some BROWNING'S under licence.

Always on the lookout for good SKEET guns I could not wait to be able to test the new MIROKU MODEL 10, the gun I had been given to test was the GRADE 5 SPORTER version. This gun is an excellent skeet and sporting gun.

Barrels

These are the chopper lump type made from one piece of

forged steel, the length in the test gun measured out at 28", however, they are available in 30" and 32". The rib is a raised light weight, channelled rib and is tapered from 13mm at the rear to 11mm at the front. Anti-glare serration extends all the way up the rib and it is fitted with a white front and mid sight bead. The side ribs are ventilated for extra cooling and weight drop. The bluing is of a high standard and when cleaned, gives a deep black and high lustre appearance. The front of the barrels are swaged to accept the Invector Plus chokes, this is not noticeable when shooting. Now, the inside of the barrels is where the big changes are. The forcing cones start at 3" and

taper for 1/4" to a bore diameter of .741" and run with this measurement to the lead in for the choke which measures .754". This allows a smooth entry into the choke with out hangups. The SKEET choke measured out at .740, big diameter one might say but good choking is directly relevant to

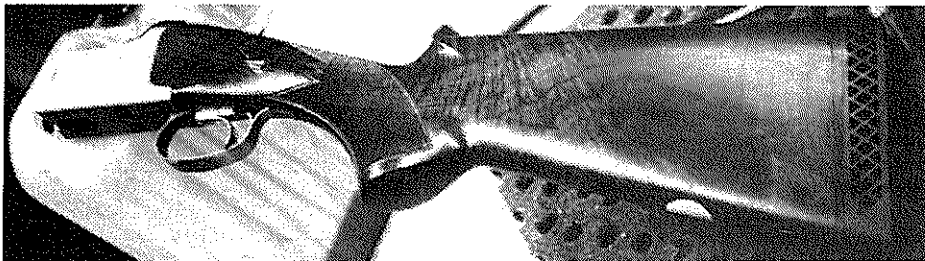

the bore diameter. What this means to the shooter is less distorted pellets that create 'flyers' and better patterns especially with 28g and 24g shot loads.

The other chokes measured out at 1/4 ... 736", 1/2 ... 728", 3/4 ... 720" and the full choke at .708. They all tapered down from the choke lead in over 2 1/4", the patterns on these chokes proved excellent, however, one would be advised to pattern test with different cartridges and chokes to obtain the best performance. The barrels on the test gun were PORTED and I did notice less muzzle flip on the ported gun as compared to one that wasn't. What was noticeable was that cartridges with slow burning powder or

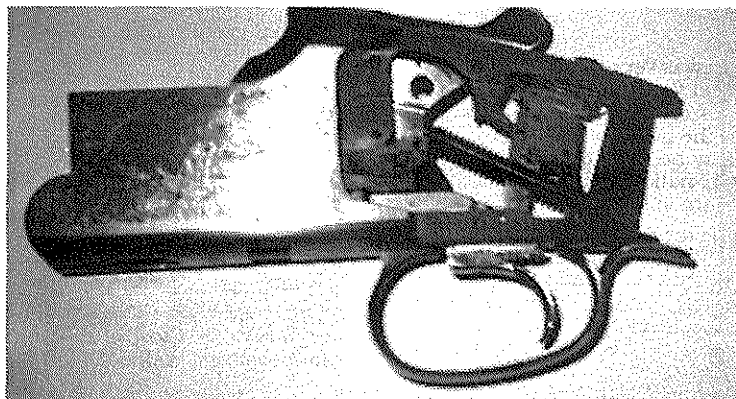

progressive burning powder created a lot of unwanted residue escaping from the ports, mainly from 34g and 36g cartridges. Don't forget that if you want to shoot OLYMPIC TRAP (TRENCH), barrel porting is illegal.

To obtain the best results with over bored barrels like these, one must clean the barrels regularly, especially the ported version as plastic build up was quite evident.

The ejectors are of the floating type and are actuated by ejector kickers in the forend. They are strong and extracted steel headed cartridges without a problem.

Miroku C stock work, tear drops hand checkered, figured walnut, shock absorbing recoil pad, gold plated adjustable trigger.

The heavy duty, receiver featuring anti double discharge hammers, heavy duty hammer guide rod springs ensure quick lock times.

Action

The action is constructed of good quality steel with strong side walls, cut away about half an inch in front of the breech face to accept the barrel lock situated on the top barrel adding support to the breech face. A hinge pin goes right through the front of the action and is made of hardened steel. The barrels are finally locked up with a self tightening tapered under lock which fits into a heavy locking lug on the bottom barrel, this all ensures a very tight lock up.

The action was nicely engraved with game scenes on both sides and underneath the action, the top lever is also engraved, all quite tasteful and pleasing to the eye.

The internal mechanism incorporates an inertia system (the selection of the second firing is actuated by the recoil of the first firing). Which barrel fires first is determined and incorporated with the safety catch to the left for the bottom barrel to the right for the top barrel.

The hammers are set off by overhead sears lifted upwards by the inertia block when the trigger is depressed. Cut into the hammers is an anti-double discharge lug. The hammer guide rod springs are strong and ensure a good fast hammer fall. The firing pins are strong and well made and have rebound springs to return them from the breech face. The trigger is a curved OLYMPIC type, checkered so you can feel it. The trigger can be adjusted with three settings. This adjusts the length of pull and can be adjusted by removing an allen screw on the under side of the trigger and sliding the trigger forward or backwards to suit your finger position. Make sure you lock up the screw tightly as it may come loose and cause problems.

Trigger pulls were quite good but they could be improved with a little honing.

Stock and Forend

The woodwork on the Grade 5 tested was magnificent, beautifully figured walnut with hand cut checkering and teardrops. The oil finish is not bad, but the wood was very porous. With a little work with fine sandpaper, boiled linseed oil mixed with a touch of french polish, this wood would come up really well. The forend on the test gun was a schnarbled or tulip type. I found it a bit uncomfortable to handle as I couldn't wrap my hand around the wood comfortably. In the Trap and Skeet versions a semi beavertail is standard, and I feel this would be better, however, each to his own. The forend was well made, plenty of wood and good hand cut checkering. The forend is attached to the barrels and action by a very solid forend iron fixed by two strong screws, screwing right through into the forend catch frame. The bottom of the forend iron is located into the bottom of the receiver by a spring retracting clip thus giving the forend more stability.

Stock Measurements

The stock measurements are the same for Skeet and Sporting LENGTH 362mm (14 $\frac{3}{8}$ "), TRAP 365mm (14 $\frac{1}{2}$ "). Drop at COMB SKEET/SPORTING 36mm (1 $\frac{3}{8}$ "), TRAP MONTE CARLO 38mm (1 $\frac{1}{2}$ "), straight 35mm (1 $\frac{1}{4}$ "). Drop at heel SKEET TRAP 50mm (2"), MONTE CARLO 63.5mm (2 $\frac{1}{2}$ "), straight 44.5mm (1 $\frac{7}{8}$ "), PITCH SKEET and SPORTING 2 $\frac{1}{2}$ " TRAP 2".

Summary

Shooting the MIROKU MODEL 10 was very pleasing as a SKEET GUN, the overall weight of 3.4kg let the gun travel smoothly and from the gun down position was easy to mount without any noticeable 'barrel bobble'. From the gun up positions it swung smoothly, target sighting was easy because of the higher stock and when the trigger was pressed I noticed very little muzzle flip. Follow through was easy as the gun stayed on line.

I liked the angle on the top of the recoil pad cut away. It made catching the shooting garment nearly impossible. As stated before, I felt a little uncomfortable with the forend, but I am sure the beavertail forend would be fine. This gun would be very competitive as a Skeet gun. All in all this was a very well made gun, it shot well and was pleasing to the eye. Price wise the MIROKU MODEL 10 is also very competitive. The gun comes in three models, GRADE 1, GRADE 5 and PRESENTATION. The gun is available in SKEET, SPORTING, TRAP (monte carlo stock or straight stock) all with INVECTOR PLUS CHOKES.

INTERSTATE TEAMS 'GRUDGE MATCH'

A large contingent of Victorians attended the Tasmanian State Trap Carnival under the guidance of the National President, Glenn Woodhatch.

Pictured are Victorian representatives who competed in the 25T Interstate Teams 'Grudge Match.' This event was well received and the boys enjoyed both the competition and the hospitality bestowed on them.

Note: The Tasmanians triumphed on their own soil.

Back row l-r: Alex Beer, Royden Swan, Sperry Marshall, Graham Blaskett and Mick Burling. Front row l-r: Tony Bradshaw, Rob Nisbet, Lynne Curtis, Steve Atkins and Bob Christopher.

1993 OCEANIA CHAMPIONSHIPS

Auckland, New Zealand

On Thursday 28th January, members of the 1993 Oceania ISU Teams assembled at both Sydney and Melbourne Airports for a flight with United Airlines to Auckland, New Zealand.

All, that is except for Michael Diamond, who, because of car failure, missed the flight. After seat allocations and the usual last minute Firearm Restricted Goods Permits, the respective flights got underway. While in the air, we were informed of Michael's plight and that he would be on another flight several hours later.

On arrival at Auckland Airport, we found and joined a long line of other Australian shooters waiting for the Police to log in and clear the weapons. Following this delay and Customs cleared, the two groups joined up where it was discovered the vehicles hired for the Team would not be available until the following morning. Ian Hale volunteered (will we ever learn) and negotiated the services of mini buses and in a short space in time, we were transported to O'Rorke Hall - our accommodation for the Championships.

Later that evening Michael arrived and on catching sight of him, we knew that there was still a problem as his normally smiling face had that "Why me?" look across it. The problem turned out to be the misplacement of his new ASE90, but with assurances from Air New Zealand that it would be found, we headed for Auckland and bed.

Next morning the Teams vehicles were picked up and with a smiling Michael (his gun had been located sunning itself in Fiji), headed for the Waitemata Gun Club. After attending the Technical meeting with David Menck and Jim Kelly, a quick trip was made to the Airport to retrieve a suntanned and healthy looking ASE90, before I headed off to Waitemata.

Waitemata Gun Club facilities were first rate, having been the venue for the 1990 Commonwealth Games. The grounds are set on the top of the hills overlooking a picturesque valley, some 30kms from Auckland.

Ammunition that Scorpio and Winchester had allocated for their respective shooters had been located and was being put to good use, as each of the Team members adjusted to the conditions and background. In case of the ISU Trap, it definitely was the lack of background. A word of appreciation to Scorpio and Winchester for their support of the Individual Team members.

A summary of each day follows:

Day 1

75 TARGETS TEAMS MATCH.

Competition started at 9am in overcast conditions with an approximate 20 knot south-westerly wind blowing. Each team member showed their talent in what was considered difficult conditions. Overall Team scores were not high, but achieved good placings.

Using program 6 in ISU Trap, the placings were: 1st - Australia 'A' 207/225, 2nd - New Zealand 'B' 186/225 on count back to 3rd - Australia 'B' 186/225.

ISU SKEET.

1st - Australia 'A' 199/225, 2nd - New Zealand 'B' 192/225. That evening at O'Rorke Hall, an official Opening Ceremony took place prior to medal presentation to ours and other shooting disciplines.

Day 2

1st day of 125 TARGETS INDIVIDUAL COMPETITION.

Conditions had deteriorated further with heavy overcast skies and a south-westerly wind gusting to 45 knots. The Skeet competitors found these conditions difficult while the Trap competitors using Program 5, did not have it any easier.

Day 3

Final Day of 125 TARGETS INDIVIDUAL COMPETITION.

Conditions had eased slightly with the wind gusting to 20 knots, but with intermittent rain squalls.

At the end of the 125 targets, the shooters from Australia to go forward into the finals were:

TRAP - M. Diamond 116/125, R. Mark 115/125, J. Maxwell 115/125 (also MQS's) and G. Hayden 112/125.

SKEET - I. Hale 107/125 (no MQS's).

OVERALL RESULTS:

TRAP - 1st R. Mark 140/150, 2nd M. Diamond 138/150, 3rd G. Hayden 138/150.

SKEET - 1st D. Coe (NZ) 136/150, 2nd T. Dodds (NZ) 132/150, 3rd G. Jukes (NZ) 129/150.

Day 4

150 TARGETS DOUBLE TRAP.

Conditions remained the same as Day 3 which made the slower targets duck and dive. At the end of the 150 targets, the shooters from Australia in the finals were: J. Maxwell 123/150 and MQS, R. Mark 118/150, M. Diamond 115/150 and J. Ellis 111/150.

OVERALL RESULTS:

1st R. Mark 159/200, 2nd J. Maxwell 157/200, 3rd G. Ede (NZ) 153/200.

TEAM RESULTS:

1st Australia 'A' 356/450, 2nd Australia 'B' 328/450, 3rd New Zealand 'A'.

In conclusion, it should be stated that the conditions were some of the most difficult that I have seen or experienced and that on occasion the targets were unhit, with only luck adding to the score. Overall the results and placings achieved, showed the high standard that our Oceania Teams are known for.

The organising that goes into any Team leaving Australia is always a large administrative and logistical nightmare and I am sure that I speak for the 1993 Oceania Team when I record a vote of sincere appreciation for a top job done by Gina of our National Office.

Finally a question unanswered from the Oceans' "How many ISU shooters fit into a Falcon station wagon?" and "Were the trap and skeet disciplines equally represented?"

M. Alexander
Team Manager

MARYBOROUGH TID BITS, QLD.

Bundaberg - 8 February

This shoot was a benefit for Rob (A grade) and Kay Rehbein (B grade) by winning A & B in 25T Skeet H'cap, OA A & B in 25T Skeet C'ship, A & B in th 25T DB CD, OA A & B in the 25T Points C'ship. What a performance!

John Straughair earned a metre by winning the Handicap with a possible, then came second with Kay in the Deauville Doubles, which was won by Rob and Stafford Smith after Stafford came second in the Handicap.

Once again Rob took out Overall High Gun, with Front Marker Ted Turton.

Note that Bundy shoots one week later in May (the 9th) because of the 1993 State Championships to be held in Kingaroy 1st, 2nd & 3rd May. For local shooters going to Kingaroy the ideal warm-up shoot would be the Jim Kinghorn Memorial Shoot at Maryborough, Island Plantation on the 25th April 12 noon - 120 targets.

Gympie - 14 February

With cyclone Oliver off the coast it looked like Gympie would be a non event, however, Sunday was cloudy and windy but fine. Thanks to the visitors from Sunshine Coast, Peter Bannisters, Geoff Shorthouse and Murray Eagle, who hadn't shot Tower before and put in a possible to win OA & A in the 25T Tower C'ship, good shooting Murray, B grade went to George Foster & C grade to Harry Walker.

Rockhampton visitors saw new shooter, Jason McKnight, in company with Vic Hyde, with Vic shooting well to get into the 25T DB CD, take A grade in the 25T Points, and get a metre for shooting 1st in the Handicap. Good to see you drop in for a shoot Vic.

Other visitors, Mick from Bundy, myself and Harry, who also took C grade Points. Surprise visitors Les Greensill (still not shooting) and wife, going home and dropped in and donated two boxes of crackers for an incentive trophy, which went to D. Carew, who had presented the club with four beautiful mud crabs (live) for the raffle for the day.

Melissa Tipman drew the jackpot worth \$506, but much to her dad's disappointment, missed out. Better luck next time Melissa!

David Gardner got his fifty up, no not days, years, but couldn't shoot Sunday after his party the night before. He said it was something he ate. Kitchen lady, Joy Foster, also notched up her fifty years, but didn't play up like Dave. Happy birthday to you both!

Gympie shooters to win at Kingaroy 6 & 7th were Bill Stolberg 1st in A grade Champ of Champs and 2nd in same event was Chris Harrison. Chris also bought the winning shooter in the Calcutta - good luck Chris.

Norfolk Island - 7-13 February

Arriving approximately 11am Saturday, the group went straight to the club for practice and to nominate. Everybody enjoyed themselves. Winners were Les Sidwell with 2nd B grade SB, and Di Shaw 2nd C grade Ball Trap, Ladies SB, plus Ladies High Gun. Arriving back in Hervey Bay on Sunday at 2am, never to be seen all day.

As we shoot Maryborough on last day of the month, I will leave our shoot coverage till next month. Best of luck to shooters going to the State Championships in Kingaroy.

Good shooting to all and till next time, see you at the shoots.

Lost Bird

WONTHAGGI GUN CLUB

SEC fireman Glenn Bennett of Traralgon accepts the Ziegler Hundred Trophy and congratulations from donor and trap shooter Steven Ziegler of Moorabbin.

Glenn was the only one of 32 competitors to shoot 100/100 at Wonthaggi in February. There were four 99s and six 98s in the perfect conditions. Glenn also collected a \$60 electric kettle and sash - and for breaking every target, the progressive, \$51 jackpot.

**Tom Gannon
Wonthaggi**

Glenn Bennett and trophy donor, Steven Ziegler.

RAAF GUN CLUB POINT COOK

The RAAF Gun Club is continuing to operate despite rumours about the closure of the Point Cook RAAF Base. Although RAAF operations may have undergone change, the Base is and will remain RAAF property, and the Gun Club will continue to operate for the foreseeable future.

A skeet layout is under construction and is expected to be ready for shooters by the April shoot. The club shoots on the third Sunday afternoon of each month and all ACTA registered shooters are welcome.

BIG BREAKS DOMINATE FEBRUARY 'TOP GUN' AWARDS

Jason Jolly

Bill Eagle

Two excellent scores are the feature of Winchester's 'Top Gun' awards for the month of February. Both were shot on the 28th of February, both in Victoria and both were uncompleted due to a lack of time.

Firstly Bill Eagle of Tatura and Ian Holschier of Deniliquin shot a massive break of 406 targets not out at the Numurkah Clay Target Club's monthly shoot. This break is a personal best for both Bill and Ian. Unfortunately Ian had not filled in a 'Top Gun' form at the time of competition so he doesn't qualify for the 500 free rounds of ammunition. This seems only fair as rumour has it he was using Bill's and Steve Atkins' shotshells anyway. Both used AA1250 28 gram target loads.

Jason Jolly from Ballarat shot a break of 333 at the Geelong Clay Target Club for his personal best also. Jason has just recently changed to Winchester. Jason was using the AA1250 High Antimony loads for his break.

Perhaps the unluckiest 'Top Gun' entrant for February was Dexter Barnes from the Tatura Gun Club in Victoria. Dexter won the Victorian State Champion of Champions Title held at the Warracknabeal Clay Target Club on Saturday February 27th. Unfortunately, as this Championship is not part of an Annual State Carnival, it does not qualify for shotshells under the 'Top Gun' awards. The story for Dexter, however, gets worse. On his way to the competition he called through Werribee to pick up Russell Mark in his brand new BMW. Russell told Dexter he knew a 'shortcut' where there would be no police so he could show him how fast his new car would go. You guessed it! Less than five minutes out of Werribee the police had Dexter and his licence for one month. The good news for Dexter was that first prize for the day was a brand new pushbike and Russell came second, however, Russell's prize was a months use of a brand new BMW that goes at least 141 kilometres per hour.

Good luck for April.

WARATAH STATE NOTES

Sportspersons Awards

It seems shooters are making their mark around the state winning various Sportspersons Awards in their respective Shires.

Bob Blake, the Riverina Zone President, won the inaugural Australia Day Sports Award for the Lockart Shire, being presented with his award at a special ceremony on Australia Day.

Bob was a foundation member of the Downside International Gun Club, and has been the President of that club for the past 13 years. 1992 saw him add the NSW State Champion of Champions to his long list of shooting achievements, and he has been rewarded accordingly for the time and effort he has put into the Riverina Zone.

Fred Schmetzer, our State Coaching Director, has been named Sportsperson of the Year for the Leeton Shire, and was presented with his award by former Australian Rugby League Prop, Steve Roach, at a presentation dinner at Leeton Soldiers Club.

Fred was successful winning the State Team High Gun at the State Skeet Carnival last year, and his contribution in the Coaching Field in such a short time has also been recognised.

One of the promising Riverina Zone juniors, Ben Griffiths, was also awarded a merit award in the Leeton Junior Sportsperson of the Year award, for his C grade win in the National Single Barrel C'ship in Wagga last April.

State Titles

There are three State Championships being conducted during the month of April.

The State Night Skeet C'ship will be held at N.S.W.G.C. on the 3rd April, as part of their 2 day Open Skeet Shoot. The State Double Rise C'ship, will be held at Wagga Gun Club on 4th April, and the State Night Pointscore C'ship will be held at Hawkesbury Gun Club on the 23rd April.

New Rules

I have received correspondence from one of the NSW State Rules Supervisors, Mr Bob Blake, concerning the apparent misunderstanding of some of the new rules in some areas of NSW.

It is unfortunate that there were several misprints in the printing of the new rules in the February CTSN, however, these are being addressed as quickly and accurately as possible.

Bob would like to clarify the following points.

- The new rules state that Handicap events CAN be shot with 32gm loads.
- Double Barrel and Pointscore events shot from 15 METRES ONLY are to be recorded on Handicap events in the DB column, as stipulated in the printing of the new rules.
ONLY 15 METRE EVENTS ARE RECORDED.
- As rule 3.15(d) does not specifically say that the targets in Champion of Champions events are to be shot in any particular order, we hope commonsense will be used, and the event shot as it should be. This item is already listed for correction when the rules are re-printed.
- DOWNGRADING from any one grade to another is NOT allowed this year. Whatever grade you were in on February 1, when the new rules commenced, is the grade you must remain in until the end of the year. Then, providing you have shot 2 consecutive lots of 200 at a lower grade, you will be downgraded appropriately for the commencement of the next year. Then, likewise, you will remain in that grade for all of next year.

The only exception to this rule, is referred to in rule 2.7(a). Please refer to rule book. This rule has not been altered except for 14 days notice instead of the previous 7 days.

As with any new system when introduced, teething troubles are always encountered.

Bob has suggested that we give the new rules 12 months trial period to see if they will work for the improvement of clay target shooting. Then, if it is not an improvement, we can really get our act together and do something constructive and not destructive to improve shooting.

We realise that some shooters are not happy with the new rules, but likewise, many were not happy with the old rules. Obviously, finding a set of rules to please everyone would not be possible.

So let's give Bob's suggestion a try and trial the new rules and evaluate the results.

If you need accurate explanation or clarification of the rules, please contact Bob Blake on (069) 20 2043, who will be only too happy to assist you.

TRADE PRACTICES ACT

The attention of advertisers is drawn to the Trade Practices Act 1974 and the provisions in the Act which apply to advertising. It is not possible for the A.C.T.A. to ensure that advertisements which are published in this magazine comply in all respects with the Act and the responsibility must therefore be on the person, company or advertising agency submitting the advertisement for publication. The A.C.T.A. reserves the right to refuse any advertisement without stating the reason.

AUSTRALIA DAY SPORTS CARNIVAL

**Canberra International
January 23 & 24, 1993**

Only 50 competitors took their marks to compete in the club's premier Down the Line event for 1993, a disappointing number considering the excellent prizes on offer.

Those in attendance were treated to some excellent performances by Michael Diamond, who won the Overall High Gun with 433/435 and just missed out on the \$10,000 Cash High Gun on events 2, 3, 5 & 6 by a solitary point.

Glen Kable shot his highest break of 496, and Jeff Nash, who only a week earlier had promised to melt-down his Perazzi to make fish hooks, won the Shell Braddon Single Barrel C'ship after a shoot-off with Michael Diamond.

Shooting commenced in light rain and poor light with 15 competitors shooting the possible in event one.

The Australia Day Double Barrel C'ship was won by Glen Kable with 396, after a lengthy shoot-off with Steven Guest. Darren Fairall and Paul Lyons found the pace 'too hot' and dropped out at 145 and 181 respectively.

The rain cleared and the sun shone for the commencement of event three, the R. J. F. Gunsmithing Points Score C'ship. The excellent conditions did not help the majority of competitors and it was left to Dick Piotrowski and Michael Diamond to slug it out. Michael emerged the winner on 198/198.

Day two began in fine calm and sunny conditions with (again) 15 possibles in the Eye Opener.

Michael Diamond (amazing how that name keeps bobbing up) shot the possible in event four, the Australia Day Champion of Champions Championship with an excellent 174/175 from Steve Guest 173 and A. J. Smith on 167.

The weather turned foul for the last event on the program, the Shell Braddon Single Barrel Championship, and only two possibles were shot. Jeff Nash now has a new affection for his Perazzi after taking the title from Michael Diamond with a score of 53/53. J. W. Smith and M. Campbell just missed the cut with scores of 49 apiece.

Full results appear in the February issue of the CTSN.

This shoot was sponsored by the A.C.T. Government, administered by the Australia Day Sports Carnival Canberra, MMI Insurance, Shell Braddon, R. J. F. Gunsmithing, Scorpio Cartridges and Hamilton Brokers.

Thanks must go to Majura Park Gun Club for the loan of their two hopper fed traps.

TAMWORTH CLAY TARGET CLUB

Tamworth Clay Target Club held its Annual Skeet Carnival over the weekend 20-21 February over two days of ideal weather conditions.

Shooters were in attendance from Brisbane and Sydney as well as most areas of NSW and the northern zone with a good roll up of 21 local shooters.

Graham and Rae Richardson have the Loomberah grounds in top condition, despite the long hot summer and Rae and the ladies committee kept shooters, supporters and spectators very well nourished with morning and afternoon tea, lunch and tea over the two days.

The net proceeds of this years carnival will benefit the NBN Television Telethon in aid of breast cancer. Through the support of NBN Television by way of extensive advertising, the club was able to secure sponsorship from Fosters Firearms and

Accessories, Humes (CSR), Coultan Industries, Pinline Furniture - Bedroom Brass, Gasweld Tool Centre, KC Tools, Lowestoft Herefords and Winchester Australia.

The support of these sponsors and the support of NBN Television for promoting the carnival and its purpose ensured that the carnival was a resounding success.

Local shooters fared well in the carnival winning some 19 of the 41 trophies. The most notable local success was that of Kevin Weatherall who won A grade in two events and was the A grade High Gun winner with 196/200 - only one target behind the Overall High Gun winner - Neal Dimmick of Ipswich - while Peter Nash was only one target down on the AA grade High Gun winner and two targets down on the Overall High Gun winner. Rod Taylor was the winner of the B grade High Gun and George Barton was the Junior High Gun winner.

Other local shooters to win one or more trophies were Dave Michie, Col Burt, David Whyte, Lach Cameron, Ray Melville, Clive Barton, Mal Dengate and Arthur Vine.

Perhaps the most sought after trophy of the carnival was the Geoff Walters Memorial Trophy - awarded to the Overall winner of the carnival. Inspired and donated by Pauline Walters and handcrafted by Rod Prior, the trophy is a magnificent timber shield crafted in the form of an open book. Neal Dimmick was very proud to be the inaugural winner of the trophy as Neal and Geoff were great mates and competed against each other on many occasions.

VINCENT'S ON TARGET

Essendon's Vincent Mollica is right on target for his ultimate goal. The sixteen year old is aiming at international success in clay target shooting and dreams of an Olympic medal.

His efforts over the past year have been recognised by the Leader Newspaper Group, where Vince won the junior section of the Annual Sports Stars Awards.

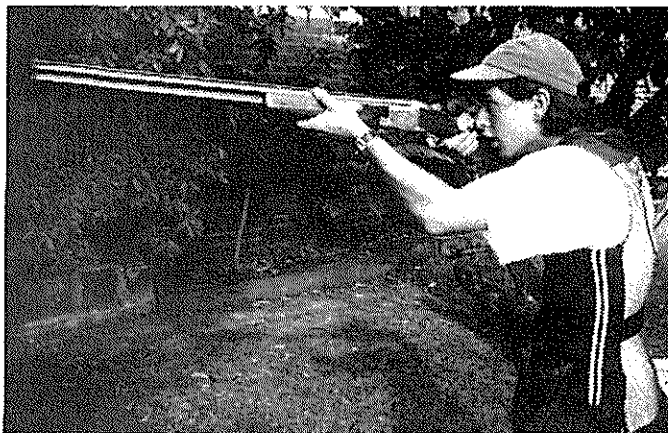

Vincent also finished 1991 as Australia's highest ranked U18 Down the Line shooter, after leading Victoria to the national title.

In February last year, Vincent was a member of the winning Australian U21 team at the Oceania Games against New Zealand and New Caledonia, earning an individual bronze medal in the Olympic Trap event.

Vincent was particularly excited later, winning dual bronze medals at the New Zealand Open Championships, which he only entered following the cancellation at the junior competition.

"I couldn't believe it, I never thought I'd be able to do it," he said.

A member of the A grade side at the Victorian Gun Club where his father was once President, the St Bernard's College student took up the sport at 11 and won his first competition a year later. He competes in both the Olympic Trap and Down the Line events.

Vincent Mollica Jr.

PROFILE ON RUSSELL MARK

Interviewed by Alan Maher

(Continued from February issue).

Alan: How do other shooters react when they see you shooting, as some of them say, as a professional shooter, when you are shooting long breaks over two days, you're holding up their shooting - how does all that come into it?

Russell: Well, I have certainly heard a bit of criticism, which is a bit unfounded really. People think I am a professional shooter, which is not the case. I am employed by Winchester as a consultant for their company. I earn my living from being a land valuer not a shooter. You cop a lot of criticism, but there were some people in Tamworth who were very grateful to shoot the biggest scores in their life because they were caught up in a long shoot-off. I think there is some jealousy out there in the shooting world, but I have never found it with many of the top line competitors, the people that I really consider to be great shooters. I think those people understand. It's the people that really want it but just can't quite get there who are the one's who have been the most vocal, but mind you, it has always been behind my back. I have never had anyone actually say it up front to me.

Alan: Would it be fair to say that a lot of the people who might criticise you and others, may have greater ability than they show, but they haven't or aren't prepared to put in the same effort that yourself and others have, and therefore their criticism just boils down to plain jealousy as you have suggested?

Russell: Sure, that's a fair comment. I am pretty lucky to have the type of relationship with Michael Diamond, where I can sit down with him and talk about these things because Michael is certainly in the same situation. I remember one day speaking to Michael about how people say he has a lot of natural ability. He sort of laughed and said "if people only knew how hard I try." That is the same for me. It's not a matter of just natural ability, it's a matter of putting in a lot of effort.

Alan: With all the shooting you do, have you ever gone through a long slump and if you have, how do you or how would you overcome it?

Russell: I have certainly gone through bad times. I think it's more burn out, it's not so much a slump. After I have shot a lot of DTL it can get very boring, and if I have shot DTL for 3 or 4 months without a break, then I find that I will start shooting badly, simply because you can't mentally put the effort in. The best way to get out of a slump is either you stop shooting that discipline or have a rest altogether, but I tend to get out of it by going to shoot Olympic Trap again for a while or vice versa.

Alan: So you're looking for a change from the everyday one target after another?

Russell: Yes, that's right. I think the saying a change is as good as a holiday is very true in this case.

Alan: Talking about holidays, all the travel that you do overseas, do you look upon that as a holiday or what do you get out of that? Do you confine your trips away to shooting or do you try to do a little bit of sight seeing at the same time?

Russell: I think anyone who says that to make the Australian team is great because you can have a holiday just doesn't understand. You are putting in so much mental effort all the time, you have got to try and do the right things when you are away so you will hit your peak form. Generally, as soon as the competition is over I try and catch the first plane back home.

Alan: Have you seen people who have treated it as a holiday?

Russell: I have certainly come across that in the past. Generally, you will find that those people don't make the team too often and if they do, they learn very quickly that that is not the attitude to have.

Alan: What about Team Managers? What role do they play in teams? If, as you say, some people have not approached their competition internationally as seriously as they should, should the Managers be playing a greater part in that, or do they just like to keep the team a happy close knit group and just hope for the best?

Russell: No, I think a Manager's role is to keep the team together. I would think if a Manager got too hard on the team members that it wouldn't be good, but sometimes that has to be the case. I have been lucky enough in my trips away to have two very good Team Managers in Peter Quire and Robbie Smith. Robbie in particular I have found has done an excellent job. I think Robbie's knowledge now in ISU shooting will be sadly missed in the sport and it's very disappointing to see him now cut his involvement on the Executive, although I certainly understand the reason for his decision, but I think it is a position that is going to be very hard to fill. I have found Robbie's expertise with handling people to be probably the most important part of his role as a Team Manager. It's certainly not as a coach position, it's a managerial role.

Good communication and personal skills, that's what a good Team Manager needs. He doesn't have to be the greatest shooter but he has to be able to realise when the tension is getting there and what to say to a person. I found Robbie to have that ability and I found Peter in a different way to have that same ability, and of course that is something which comes with experience.

Alan: What about yourself Russell, would you like to take a team away as a Team Manager?

Russell: At this stage, it's a long way from my mind. It's something that I have never thought of. Certainly I think that the people who have been involved with ISU shooting for quite some time really owe it to the sport to put something back into it and maybe down the track the day will come when I would like to do that. At this stage it's a long way away, but I would like to put something back into shooting.

Alan: Just a couple of closing questions in relation to the technical side of things, how important is a proper gun fit?

Russell: It's essential really. That is the first thing you must do, you must have a gun that fits reasonably close and then develop your style from there. It's very hard to develop a style around a poor fitting gun because you develop very bad habits, and you can be sure that when the pressure is really on, those bad habits will come to the top.

Alan: For a newcomer to the sport, where does a person go to get a gun and how does he know that his gun is going to be fitted for him?

Russell: It is a criticism I hear widely about the lack of actual club coaching that goes on in the sport and it's certainly a criticism I also have that there is very little hands on coaching taking place.

Around Victoria you rarely ever see it. I guess if the system worked more efficiently you could go to your club or zone coach, or even maybe your state coach, but at the moment I don't see that happening in too many clubs and certainly there are some places crying out for it. That should be the direction to take, but at the moment you are really relying on a new shooter having enough courage to come up to an experienced shooter and ask him, and often the experienced shooter may not know. This is a problem the sport definitely must overcome to keep new shooters involved.

Alan: Are shooters generally willing to impart their knowledge freely to a new shooter or do they see him as a bit of a nuisance?

Russell: No, I think a genuine person asking advice would be given it. I have had a couple of incidences in the past where I've been reluctant to give advice to a shooter because there have been so many other people giving them advice also and it's very hard for someone to listen to three or four different people at once. But certainly if any person came up and asked me what I believed to be the case, then I would tell them.

Alan: Just finalising on the gun, what about your stock? Do you use a high or a flat stock?

Russell: For DTL I have always tended to use a fairly high stock because I don't try to move the barrels very fast, I just swing up, meet the bird and pull the trigger. For Olympic Trap I have had a turn-around in the last twelve months. I've had my gun adjusted quite considerably by Beretta from what I was used to using, and it's now a flatter stock, but I get away from that by swinging the barrels a lot faster and swinging through the targets a lot more now, so I've had a reversal - a higher stock for DTL and a little bit flatter stock for Olympic Trap.

(To be continued).

VALE

L. C. N. (Nick) Vandooren

It is with sadness that we advise the loss of one of our club members, L. C. N. (Nick) Vandooren, who passed away on 24th January. He was a keen shooter, both clay target and in the field. During his and his wife's travels around Australia he visited many gun clubs and made many friends.

Nick will be missed by us all. To his wife and family, the club members extend their sympathy.

Tyrendarra Gun Club

Barker, Keith & Corrie

Corrie passed away September 1992.

Keith passed away January 1993 aged 93 years.

Keith joined the Perth Gun Club in 1950 and immediately became involved in all aspects of the administration, and was Club President for one term. He was a tower of strength in the club, particularly in its formative years. Keith was a tireless worker and his association with ICI attracted a great deal of sponsorship from ICI, just when support was most needed for the fledgling sport.

The club recognised his contribution and he was rewarded with a life membership. Keith had a remarkable history of achievement in other sporting fields and was known and respected in sporting circles throughout the west.

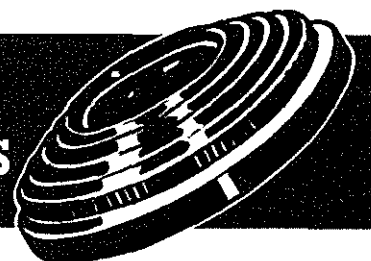

Corrie joined the ladies group and made a great contribution in the catering section. Corrie had a bubbling personality and was loved and respected by all who knew her. Her presence enlivened every meeting she attended.

Volumes could be written about this splendid couple, suffice is to say that by their passing the community in general and the clay target fraternity in particular are the poorer.

Deepest sympathy to their sons and daughter.

NSWCTA

1994 State Carnivals Tenders

The N.S.W.C.T.A. is currently calling for tenders from clubs interested in conducting the 1994 State Carnivals as follows:

STATE ISU CARNIVAL

January 8th-9th 1994:

Requirements – one fully operational complete ISU trap/skeet layout.

STATE SKEET CARNIVAL

August 7th-8th 1994:

Requirements – 4 fully operational complete skeet layouts.

STATE TRAP CARNIVAL

October 1st-2nd-3rd 1994:

Requirements – 6 fully operational complete trap layouts.

The tender requirements are for an overall cost per target thrown, which is to include:

1. Supply of targets (105 ± 5gm mass)
2. Supply of trappers
3. All other charges involved to throw the targets

The approximate number of targets thrown per carnival is:

ISU 9,000 – SKEET 5,000 – TRAP 50,000

Please include the colour and brand of targets used by your club, and any other information you may feel advantageous towards your club being awarded the tender.

Practice is to be available the day prior to the carnival, at the host clubs discretion.

For further information and enquiries please contact the State Secretary, Libbie Bunting on (063) 64 2217 Phone/Fax.

Please forward tenders with the envelope clearly marked 'Carnival Tender' to:

N.S.W.C.T.A.
P.O. Box 19,
Cudal, N.S.W. 2864

Closing date for tenders is 23rd May.

**THE LOWEST TENDER WILL NOT NECESSARILY BE THE
WINNING TENDER**

Taree Wingham Gun Club Inc.
