National President's Notes

GRAND AMERICAN

Still very much on the agenda for 1999. One of the major problems we are experiencing is to get airlines to give us a firm flight cost so far out with the uneasy Australian dollar at this stage. As soon as we have a fixed cost, we will be publishing an agenda for those considering making the trip. As yet we still have not heard anything on the 1999 World DTL to be conducted in the United Kingdom.

NEW ZEALAND GOVERNMENT DUMPS TIGHTER GUN CONTROLS

It has been reported in a number of newspapers that the New Zealand Government has decided to defer indefinitely recommendations to implement tighter firearm control. Of major interest is the decision not to re introduce firearm registration. One would like to believe at last there is actually a Government that is prepared to act on fact rather than hysteria. One can only wonder what will now happen in Queensland with their new Government.

WAGGA WAGGA

We are in the final stages of drawing up plans for our new National Office to be constructed on our site at Wagga Wagga. It is envisaged that we will be fully operative in Wagga Wagga early in the new year, with the very real prospect of the major part of our operation being established prior to Christmas. Our Melbourne office has been placed in the hands of estate agents and we are hoping for an early sale at a maximum price. This is a very exciting venture for our association and all members will benefit from the move in a number of ways, not the least of which will be an update computer system to improve all facets of our operation.

MEMBERSHIP CONTINUES TO GROW

Our membership continues to growth with New South Wales leading the way with now in excess of 5000 members. Despite our growing membership there is still the disappointing fact that we lose members who appear to just not bother to renew. If you know someone who falls into this category, why not encourage them to rejoin, or if they do not wish to rejoin, find out the reason why. It is only when we know the reason, that we can take steps to address the problem.

Broken Hill West Darling Championship

After a lot of hard work by the hard working committee and some extra helpers, the Broken Hill Gun Club Inc. held its annual 2 day West Darling Championships hoot on the 9th and 10th of May.

The club and grounds were in good shape and the weather for May was not too cold with no rain. The 100 shooters who attended, I hope had a good weekend.

Event one was a 20 target West Darling Handicap with 12 possibles in this event the winner went to Ross Walsh (Mt Isa) 48/48 from 2nd Graham Reed (Parkes) 47/48. Both ex-Broken Hill shooters who managed to make it home for our shoot, with Peter Caskey (Menindee) 3rd 44/45, John Byrnes (Barmera) 40/41 4th, and Ron Smith (Adelaide) 38/39, 5th.

Event two was the 25 target Broken Hill Community Credit Union Double Barrel Gift. Twenty possibles took to the traps for the shoot off for the overall prize. That eventually went to Lynn Curtis (Taralgon) 149/149 in a great tussle from Ben Radford (148/149, Broken Hill), 1st AA Grade, he is a junior shooter who has had a great year and appreciated the experience of being in a lengthy shoot off with the likes of Lynn, although I am sure he would have liked to have won overall. 2nd AA Gavin Height (Mt Gambier) 80/81, 3rd AA Steve Thompson (Broken Hill) 73/73, 1st A Grade Mick Bornholm (Broken Hill) 76/77, 2nd A Brent Farnsworth (Mildura) 49/50, 3rd A Grade John Lemich (Broken Hill) 47/48,

Before the start of event three, the club had a presentation ceremony. Our committee had decided to give a thank you award to a few of our regular visitors who had continually supported our club over many long years. President Len Gray had much pleasure in presenting our visitors with a "certificate of appreciation of attendance" and Gary Radford (chairperson of the line of load committee) presented them with a Broken Hill Line of Lode Medallion. The recipients were: Cliff Mayberry, Bruce Jenkins, Bert Knight and Richard Ayres, who had 68 years of attendance between them.

Event three was the 25 target Gary Radford & Sons and Consolidated Concrete and Quarries Double Barrel Championship. When 32 shooters shot 25/25, we knew we were in for a lengthy shoot off. The eventual "overall winner" trophy went to Sox Philipasiois (Melbourne) with a great score of 231/232, 2nd AA Brett Ford (Wangaratta) 161/162, 1st A Brian Beard (Shepparton) 93/94, 2nd A D. Athlete Information Asthma Checklist

It is a fact in sport that many athletes require medications for the treatment of injuries or medical conditions, e.g. asthma.

Medications used to treat asthma are a complex issue as many contain substances which are either banned or subject to certain restrictions. Some international and national sporting organisations

require notification that these medications are being taken. Some common brand names included in this category are Ventolin, Serevent and Bricanyl. The good news is that most asthmatic conditions can be treated by medications which are permitted under certain conditions.

To ensure you are taking a permitted medication and have notified the relevant authority, follow the checklist below

MAKE SURE THAT:

- * your condition has been diagnosed by a physician;
 - * the medication you are taking has been prescribed;
 - * the medication which has been prescribed is permitted+;
 - * you have notified the relevant medical authority within your sport or your national sporting organisation where required++.
- + Asthma medications which contain the Beta-2 agonists salbutamol, salmeterol or terbutaline or a corticosteroid are permitted if the medication is administered by inhalation only. However, special notification requirements may be needed to be followed (as outlined below).
- ++ Notification is required where it is stipulated in your sports doping policy. This can be checked by contacting your National Sporting Organisation and may require a letter from your doctor. This applies primarily to those athletes who may be subject to drug testing.

If you have any questions about the use of asthma medications, contact the ASDA Drugs in Sport Hotline 1800 020 506.

Gillman Internationale AA Grade High Gun: Phil Headon 192/195.
Musicians Club A Grade High Gun: Robert Ross 189/195.
Silver City Guns & Ammo B Grade High Gun: Cliff Mayberry 188/195.
Broken Hill Club C Grade High Gun: Colin Bornholm.

We would like to congratulate all the shooters on their shooting, as always, there are always good scores shot but not everyone can win.

Lynn Curtis again shot well to take out overall high gun, with Phil Headon only one behind to take out AA grade high gun. All the high gun winners' scores were fairly close with a special mention to Cliff Mayberry who won veterans and also B grade high guns, great shooting all weekend.

Colin Bornholm who was just getting back to shooting after being badly burnt in an accident, had an excellent weekend also, taking out C grade high gun.

We would like to say a big thank you to all the people who helped get the club and grounds ready, to our trap mechanic, trappers, people in the kitchen, the cooks, helpers behind the bar, office staff, handicappers, and all the extra hands who helped in any way (that I have forgotten) — thank you! To our sponsors, an extra big thank you, we all know that sponsors are being called on more these days and we are most appreciative of the help we are given. Last but not least we would like to say thank you to all our visitors and all shooters who attended, because we would not have had a successful shoot if we didn't have your attendance. We hope you all had a great weekend and hope you will return again next year.

Central Burnett Gun Club

Forty-five clay target shooters from Chinchilla, Kingaroy, Mungungo, Bundaberg, Condamine, Gympie, Maryborough, Dalby, Terranora Lakes, Brisbane and Central Burnett Gun Club took part in the Central Burnett Citrus Carnival Shoot last Sunday held at the gun club, Durong Road, Mundubbera.

President Ken Vicary said the day went smoothly and there were good scores and good shoot offs.

Two extra categories, Junior High Gun and Veteran High Gun attracted five junior shooters and four veterans.

The Top Cat Trophy event was won by Neil Berry after a shoot off of an extra 22 targets from four other shooters.

Nine teams competed for the Mark Shelley Memorial Shield and the scores were close.

The handicap event was won by 16 year old junior shooter, Jarrard Smith of Bundaberg with the only possible 25/25.

Neil Berry won the shoot off for the AA grade High Gun from Paul Anderson. Full results in rear section.

Dubbo's 1998 Golden Fox Open

Saturday 6th June dawned a perfect day with the grounds fresh and green after recent good rain. The white flyers were set and ready and worked without a hitch over the two days. Due to the long weekend and other major events, the attendance was down as expected, however fifty-four competitors

On Saturday 21 June 1998, the Queensland Shooter of the Year Presentation Awards were held. The awards are conducted to reflect upon and acknowledge the achievements of Queensland top shooting athletes over the past year. The function also officially closed the 1998 Australian Shooting Games.

Approximately two hundred guests attended the awards from all Queensland Shooting Associations. Special guests on the night included: *The Federal Minister for Sport and Tourism, The Hon. Andrew Thomson; *President of the Australian Shooting Association Mr Alastair Macpherson OAM, *Queensland Shooting Association President Lyn Gilligan, *President of the South African Smallbore Rifle Association William Vorster and *Patrick Whitty, Commercial Sales Manager for ADI, the major sponsor of the ASG and Awards.

In 1998 a new category for Disabled Shooters, was included in the awards. By late May 1998 each State Association had selected their own Senior, Disabled and Junior Shooter of the Year (where available), which were then submitted for evaluation by an independent panel of judges. The Queensland Clay Target Association's nominee were: *Senior Shooter of the Year was Margaret Denton from Roma; *Disabled Shooter of the Year was Frank Robinson Jnr from Gayndah; *Junior Shooter of the Year was Owen Nugent from Roma.

The ultimate winners on the night were: *Adrian Hunter - Pistol - 1997/98 Senior Queensland Shooter of the Year; *Ashley Adams, Smallbore Rifle - 1997/98 Disabled Queensland Shooter of the Year; *Annmarie Forder, Pistol - 1997/98 Junior Queensland Shooter of the Year.

The function again proved to be a most entertaining and successful event. The addition of international guests who

attended the 1998 ASG, combined with all State Associations made the Awards a true celebration for Shooting.

Waratah State Notes

Want to win a car????

That's right, Orange Gun Club is raffling a car. A brand new Toyota Starlet to be exact. There are only 200 tickets to be sold! Tickets are \$100 each and available from Club President Ross Sadler on (02) 6362 0020bh. The raffle will be drawn on October 25, 1998.

The Orange Gun Club also advises that as of their 26th July shoot, all monthly shoots will now commence at 11am instead of the previous 1pm start until further notice.

1998 State Sporting Clays

The Riverina Zone, in association with the Wagga Gun Club is working very hard to prepare for the upcoming inaugural NSWCTA Sporting Clays Championship which will be conducted at Wagga Gun Club on Sunday 20th September. A full weekend of true ACTA Sporting Clays will be conducted with all shooters invited and most welcome. For further details contact the Riverina Zone Secretary, Kent O'Brien on (02) 6040 4100.

Canberra International - Grand Prix Shoot

I am pleased to be able to report that Canberra Int. CTC held a very successful Grand Prix shoot on 21st June (despite dreadful weather conditions) with 21 Trench shooters and 11 ISU Skeet shooters in attendance. Michael Diamond was the winner of the Trench C'ship and George Barton the ISU Skeet C'ship winner. A special thanks to Sue Petriella and Caroline Jasnos for a great job in the canteen. My thanks to John Jasnos for the report!

NSW Coaching

All NSW Coaching Co-ordination is now being done by our Executive Director. As further plans are developed, clubs will be notified of the new structure, procedures and programs. Any coaching enquiries in NSW to Libbie Douglass on (02) 6361 4443.

Congratulations to our newly Accredited Level 1 Coaches in Set Arslanian, Ken Jones, Kris Jones, Doug Moorby, HW Payne and Tony Roberts.

Club Long Break

Grenfell Gun Club had their club long break record broken recently when well known Canberra shooter Kim Nealon settled in with junior shooter Murray McAllister from Orange GC to 'fight it out' which resulted in Kim missing his 363rd target and Murray winning with a score of 364. Great shooting to you both and congratulations Murray.

Firearms Legislation - Update Items

After written clarification from the Firearms Registry, yes, we can ask to sight a persons Shooters Licence due to our obligation under the Act to ensure only licensed shooters are on our Ranges.

It is now not acceptable to leave firearms in gun racks. When not in use they are to be secured in the boot of your car.

NSW State Carnivals

All shooters attending all NSW State Carnivals will be asked to produce their Shooters Licence before nominations will be accepted. Your handicap card must also be produced.

Release Trigger Firearms

It has come to our attention that some shooters are unclear regarding the rules for Release Trigger Firearms. I refer to Rule 4.14(i) in the ACTA Rule Book, which states a shooter using a RTF must apply to a Rules Supervisor for approval and testing, have his Handicap Card marked accordingly and have the RTF labelled accordingly near the breech.

1999 ISU Nationals

Yes, at last the ISU Nationals are coming to NSW. The event will be conducted at Newcastle Lake Macquarie CTC most likely in October 1999. Stay tuned for date and confirmation when received. The club is a relatively new clay target club and the Committee and members are very keen to conduct this event. We look forward with enthusiasm to the challenge.

1999 NSW State Trap Carnival

The event has been allocated by the State Executive Committee to the Wagga Shooting Complex.

Shoot Cancellation

Canberra International CTC has advised that the ISU shoot programmed for Sunday, August 16 has been cancelled due to the State ISU Carnival at Illawarra GC.

PUBLIC LIABILITY POLICY IN THE INTERESTS OF ALL REGISTERED SHOOTERS

SUMMARY

The Public Liability Policy that has been arranged for the Australian Clay Target Association (ACTA) by H I H Casualty & General Insurance Limited is designed to provide specific protection for the Association and its registered members. The ACTA Public Liability Insurance Policy protects the Association and its members from being sued for alleged negligence/blame attaching to an incident causing property damage or bodily injury.

If any person is injured in any way where no blame can be attached to the ACTA and its members, any claims that may be made would not be recognised under the policy conditions as it would be classified as a claim against a policy that the person may have in force on a personal basis or in the case of a registered shooter, a policy arranged for them by the ACTA.

Protection is afforded to the following who, subject to certain conditions, are considered to be members of the ACTA:

- 1 State Associations
- 2 Registered Clubs
- 3 Registered Shooters
- 4 Voluntary Workers
- 5 Club Visitors participants and observers
- 6 Life Members/sponsors

1 STATE ASSOCIATIONS -

Organising and controlling shooting events in accordance with the rules and regulations of the ACTA

2 REGISTERED CLUBS -

(A) Subject to payment of the prescribed affiliation fee as may be decided by the ACTA from time to time.

(B) Acting in accordance with the rules and regulations of the club (respective) which is operating under the rules and regulations of the State Association and ACTA.

3 REGISTERED SHOOTERS -

(A) Subject to the payment of the prescribed registration fee as may be decided by the ACTA from time to time.

(B) Acting in accordance with the rules and regulations of the club (respective) which is operating under the rules and regulations of the State Association and ACTA.

4 VOLUNTARY WORKERS -

(A) Acting in accordance with the rules and regulations of the club, State or

National Association whilst undertaking their voluntary duties.

NOTE: Paid personnel such as trappers, trap mechanics, bar staff or any other paid staff are subject to the provisions of the Workers Compensation Act and protection must be obtained for them from the appropriate authority within their State. This is to be organised by the Employer (Club etc).

5 CLUB VISITORS -

(Participants and Observers)

(A) Must be registered as such (club visitor) on the register to be maintained by each club for that specific purpose.

(B) Must at all times be under the control and supervision of registered ACTA shooters.

(C) Must be participating in accordance with the rules and regulations of the respective club, State Association and ACTA

(D) Visitors, other than children who must be under the care of a responsible person, must at all times sign the visitors' book which must be provided by all clubs for that purpose.

(E) In the event of a visitors or visitors to the club negligently causing injury or damage to any person or property, any actions that may be taken would need to be directed towards the person or persons concerned.

NOTE: Any organised event for participating visitors, such as school children etc. who are not registered with the ACTA must have been officially ratified by your club at a constituted meeting and minuted accordingly. Should this requirement not be complied with then difficulties could and may possible arise in the event of a claim under the Public Liability Policy.

6(A) Clubs who have life members or similar, where no affiliation fee is paid to either the club or the ACTA by reason of their inactivity in the sport at Club and/or ACTA level are fully protected under the same conditions as would apply to "registered shooters".

(B) Clubs who may have sponsors or the like attending their premises as "Honorary Members" on a more frequent basis than would be seen to be a visitor are fully protected under the same conditions as would apply to registered shooters.

7 Clubs conducting events that are outside the rules pertaining to regular competition, which are broadly known as "Novelty Events" are fully protected under the terms and conditions of the ACTA Public Liability Policy providing that all other conditions relating to safety etc have been complied with.

This protection extends to shoots conducted between different shooting disciplines and on grounds other than the Clubs normal shooting ground (Subject to Federal and State Laws). These shoots MUST be sanctioned by the State Association and referred to the ACTA if in doubt.

8 Clubs electing to become Incorporated bodies should be able to use the master ACTA policy to fulfil the requirements of Incorporation, therefore eliminating the need for any club to maintain a Public Liability Policy in addition to the ACTA master policy unless cover in excess of \$20,000,000 is required.

NOTE: Paid employees MUST at all times be protected under the Workers Compensation Act within the State of the Employee. This is to be arranged by the Employer (Club etc).

9 Situations arising that may not be covered in this policy summary will be clarified upon request.

The existing policy therefore extends to all persons likely to be on the grounds for a Club, State or National event.

The need for individual Clubs or State Associations to undertake a policy of their own is eliminated other than they may require cover for an amount in excess of the existing \$20,000,000.

10 Cover is extended to include

(A) Visitors attending National, State, Zone, International Championships are exempt from the requirement to sign a visitors register.

(B) Member to member whilst participating in any event.

(C) Erection, demolition, alterations, additions to buildings including club houses and trap houses for the portion of the work undertaken by voluntary workers. Cover does not extend to any works carried out or undertaken by contractors or sub-contractors.

(D) Registered shooters involved in coaching or instruction are indemnified.

11 All shooting events must be sanctioned under the rules of the National body.

12 FOR INFORMATION: Further extensions included within the policy are member to member, food and drink, care custody and control, medical and welfare facilities, tenants' liability, hoists cranes and unregistered vehicles, car parking, cross liabilities.

13 Clubs on leased premises are indemnified in respect to tenants liability.

Property owners providing leased premises are required to have an existing policy to be indemnified as a property owner.

Clubs hiring premises to a third party are indemnified under the policy.

14 NOTE:

The summary details as described have been confirmed by the Association's Insurers, H I H Casualty & General Insurance Limited and our brokers BRA Australia Pty Ltd as being an accurate advice to members of the cover contained in the policy document.

THERE IS NO NEED FOR ANY AFFILIATED CLUB OR STATE ASSOCIATION TO TAKE OUT PUBLIC LIABILITY INSURANCE UNLESS THEY WISH TO HAVE COVER IN EXCESS OF \$20 MILLION.

— MARYBOROUGH TID BITS —

The widow had a busy day with visitors paying their last respects to her husband who was in the parlour room, at the end of the day the widow thought she could have a rest when another knock at the door. It was her best friend and neighbour Mavis who said you know I didn't get on well with your husband but I thought I would give him my last regards. And on seeing the husband in his Sunday best Mavis said I think this is the best I have ever seen him and the widow replied yes he just had two weeks on Frazer Island and the holiday did him the world of good. Then Mavis said my God what is all this money doing in the coffin around your husband. Well said the widow, we had a fight and he changed his will, and it said we had to get all his money and bury it with him. Mavis said you are not going to waste all that money, there must be thousands of dollars. No said the widow, last thing tonight I am going to take it out and write him a cheque in place of the money. So next day after the funeral the widow asked Mavis to stop at the bank and Mavis said are you going to bank the money and the widow said No I can do that anytime, I am going to cancel the cheque. I don't trust him dead or alive.

I always said my column was tid bits, shooting news and just some rot, but I know I have a lot of wives who read CTSN before their husbands come home so we have to cheer them up, that's right Mrs Chipps, give my regards to Chipps and hope to see you at our Master Games Shoot on October 4th.

Shoots this month: Bundaberg, August 2nd, 12 noon; Gympie, August 9th, 10.30 am; Maryborough, August 23rd, 12 noon being DB points, SB 15 DR and then back to Bundaberg 29th and 30th, 2 day shoot, see CTSN.

Today, June 3, 1998: The Bible arrived and with no glasses on I thought the cover was Australia's best looking 25, but putting on glasses found they were 1998 Mackintosh Team — good shooting fellas.

Dropped around to see Ted Turton to follow up on his condition, but he was at doctors getting new plaster as bones weren't knitting and found his wife wasn't the best, with looking after Ted and going to hospital day after day it is now, Ted the one arm coor and bottle washer as Mary is thought to be down with pneumonia. Hope you are both well soon.

Well Sunday after the Queensland elections I think everyone is still in shock. I am not saying guns were the only factor but played a big part. In clubs and pubs I meet a lot of old people who had a gun all their lives it was mainly guns handed down in families, and I was approached by many as they knew I was connected with a gun club, but I had to tell them they had no reason in accordance with the gun law to keep their gun. But in my case I excepted to be able to shoot, I had to do the right thing. I could have applied for a licence for my Browning auto but as I couldn't leave it to my now club member son, I agreed to the sell back. At this point I didn't think the government would pay so dearly, and never before have I heard shooters say which party they were voting for as most people don't say who they vote for. So in the background there was this band of people who had to hand in the old .22, 410 or single or side by side 12 gauge and they didn't like being dictated to as they felt a touch of safety with the old weapon in the wardrobe and on Saturday night watching the box they had their say.

CUZZO'S RAMBLINGS

A couple of weeks ago, I had a guy call me in response to my request for subjects to discuss in this column. He explained that he had started shooting clay targets back in the mid 80s, after he left school and started work. I think he said that his first exposure to shotguns may have been via a school program, which I firmly believe is where our sport needs promoting, if it is going to survive the current bureaucratic push to make shooting sports politically unpalatable. Anyway, he went on to explain that even though he enjoyed shooting, after a couple of years his available time and money needed to be spent on cars and girls and other such things, and clay target shooting had to go by the wayside, at least for the time being.

Now however, his life is back to being more stable and he has gotten back into shooting. Previously, he had not had the time or the space or the resources to get into reloading, even though nearly everyone else was doing it and the benefits were obvious. Now he was keen to reload, but most people seemed to be shooting factory shells. Previously, any empty hulls that hit the ground were fought over by reloaders, but now fired shells seemed to be a problem for the clubs to clean up and dispose of. His first question was why do less people reload these days and his second one was where could a novice get some good simple reloading advice. I promised to give the matter some thought and publish his answers in next month's column and here it is.

In relation to why fewer people reload these days, I know why, I just don't know how come. The reason why is pure economics. When I started reloading back in the late 70s, a case of shells cost nearly \$100, but you could reload a case for around \$35, or almost 1/3 of the cost. Thus, nearly everyone reloaded. I remember going to the Nationals each year and the rules said you had to use factory shells, so there was most of your hull supply for the next year.

These days you can still buy a case of shells for not much more than \$100, but the cost of reloading components has steadily risen over the years and now it costs more than twice as much to reload. The nett result is that instead of being able to reload 27 or 28 cases of shells for the same expenditure as 10 cases of factory loads, you can now load maybe 13 or 14. With this type of arithmetic on the costs, once you figure out how long it would take to recoup the cost of a reloader, which has also doubled along with the components, even if you don't allow any sort of labour cost content, the whole exercise loses it's appeal.

So there is the why, but how come reloading costs have more than doubled, while the cost of shells has barely risen, is totally beyond me. If anyone can explain that one to me I would be most interested.

Thus, shotshell reloading is now confined to a relative minority, most of who have probably had their reloading equipment

for a long time and therefore it is well and truly amortized. I think this whole situation is a great pity for a number of reasons. A lot of shooters that I know, myself included, never looked upon reloading as a chore, but as a separate and interesting hobby in it's own right.

Finding a new load, putting it together, and then going out to try it, was often as much fun as the shooting itself. Likewise, a win at the end of the day was always much more rewarding with ammo that you had assembled yourself. Furthermore, reloading has an appreciable psychiatric value - I do most of my best meditating while I'm reloading. Also, reloading gives shooters an insight into internal and external ballistics that they would otherwise probably never come to appreciate and I believe, in a round about sort of way, the more you understand about the sport, the better chance you have to excel at it.

Anyway, that's about the strength of it, and the only area where target reloading can be justified on a purely commercial basis these days, is in the small gauges for skeet shooting. Here nett reloading costs vary from similar to slightly less, but the much higher costs for factory shells restores the viability. However I still think reloading is a great idea, even if the savings have diminished and here is the benefit of my experience:

The old adage of "learn to walk before you try to run" is never truer than in reloading. I strongly recommend that all novice reloaders start out with a single stage, manually operated reloader. Use this device long enough to become thoroughly conversant and familiar with the entire reloading process, before attempting to load on progressive and/or power operated reloaders. These machines are very sophisticated and quite complicated and can initially be quite a handful, even for experienced reloaders.

Before using any reloader, read the instruction manual carefully and always heed the safety warnings. Some general safety advice to keep in mind includes: 1) Always wear safety glasses when reloading. 2) Never smoke or allow naked flames near the reloading area. 3) Store powder and primers in a cool, dry, secure area away from the reloading bench. Have only the minimum practical amount of these two components on the bench at any time. 4) Reloading requires continued and total concentration, so always reload in silence and solitude. If you have any type of interruption - stop reloading - attend to it - then return to reloading. 5) Always work slowly and carefully. Reloading is all about accuracy and consistency - not speed. Adequate speed will come naturally with practice. 6) Buy a good set of scales and weigh your powder regularly. At least the first three with any new load and then at least one in every hundred and every time you start a fresh powder container.

Never experiment with reloading data. Until you become thoroughly familiar with reloading, a wise guideline is to try to duplicate a factory shell, using components manufactured by that hull maker. When you decide to use a particular hull, then common sense dictates that satisfactory performance should be attainable by using that manufacturer's primers, powder and wads in proportions recommended by that company to duplicate their factory load. If a hull manufacturer does not supply any or all of the various reloading components, then your next move should be to check a reputable reloading guide to see which after market or competitors components they suggest will duplicate a factory load. I seldom ever mismatch hulls and wads, but I often change primers and/or powder in order to obtain loading economy, lower pressures, better and/or cleaner metering and cleaner burning.

Never switch components within an established load, without checking the data for that component. Most people understand that all propellants are different and cannot be interchanged without obtaining fresh data for that powder. What is not so obvious, is that different primers vary considerably in ignition

strength and sometimes require substantial powder charge changes. Even less obvious, is that although most wads look similar and seem to be a pretty basic component unworthy of serious consideration, nothing could be further from the truth. Wad changes can cause substantial changes to interior ballistics, due to differences in design, plastic strength, occupied volume, compression rates and diameter. The latter is probably the most important variable and in extreme cases, a large diameter wad, designed for a parallel thin wall case, could jam in a tapered wall case before seating on the powder charge. This could create a variable air space, which may cause anything from inconsistent performance to radical and potentially dangerous pressure changes.

Some other items of good practical advice are: 1) Use the best and hardest shot available regardless of price. Any manufacturer that will not provide guaranteed antimony levels in writing upon request, should be considered suspect. 2) Use compression formed cases whenever possible. Not only will they last longer, but also their crimp will probably retain its structural integrity longer, providing more premium loads before performance begins to decrease with case wear. 3) Always resize your shells, either before or during reloading. Even if they chamber satisfactorily in your present gun, if you change your gun or have a tube rechambered, you could end up with a substantial quantity of shells that won't go in your gun. Note: Resizing a loaded shell is a very dangerous and ill-advised practice. 4) Beware of wet or damp hulls. If you have been shooting in the rain, or have any other reason to suspect their dryness, or if their origin is unknown, dry them thoroughly before reloading.

I am a great believer in the old adage "Beware the man with one gun" and I believe in the same theory with ammunition. I use only one shell for all my clay target shooting, the Sellier & Bellot Super Trap Light # 7 1/2. When I reload I try to duplicate its performance with the following recipe, courtesy of Mr Ken Melgaard, Technical Officer at ADI Mulwala:

Hull	Plastic compression formed (Winchester AA etc)
Primer	Winchester W209
Powder	ADI AS30N - 18.5 gr
Wad	Winchester WAA12SL
Shot	1 oz Extra hard #7 1/2

This Month's Shooting Trivia Question: Who was the first shooter to win three National Skeet Championships. Mail your Answer to: Shooting Trivia, P.O. Box 265, Bairnsdale 3875 to arrive by 25-08-98. A winner will be drawn from the correct answers, whose name will be published in the October CTSN, and who will receive a free nomination to the National Skeet Championship in Perth later that month.

The correct answer to June's Shooting Trivia Question was: 1982, Brisbane Gun Club, Ray "rocky" Melville and Geoff Salmon. The winner of a free entry to the National Skeet Doubles this year is Bill Sangster of Flowerdale in Victoria. Congratulations Bill. This competition is not run by the ACTA, but by the author whose decision will be final and no correspondence will be entered into. If you have a good trivia question or a subject you would like discussed in this column, please forward it to the author at the above address.

P.S. In the process of researching several items for this column I have uncovered some gaps in my CTSN library. I am missing September 1983, May 1990, all of the issues from April 1991 to July 1993 inclusive and May 1994. If anyone can help me obtain these issues I would be most appreciative and quite happy to pay a reasonable bounty on them. Please phone me on 018-516395

\$45,000 Shooting Facility Opened

The Echuca Clay Target Club's new Olympic Trench and Double Trap lay out were opened on Sunday June 14 with Victorian Minister for Sport, Tom Reynolds officiating.

Eighteen months of work by club members went into building the facility with the club aiming to provide facilities for juniors, other shooters and before the Olympics, international competitors.

A Sport and Recreation Victoria grant of \$12,000 was part of the \$45,000 total cost of materials for the facility.

Echuca will be part of the Grand Prix circuit in August and host the state titles in November.

Later in the year they may also host a state wide junior clinic.

Among the 150 people at the opening were Federal Member for Murray, Sharman Stone, Campaspe Shire Mayor Cr Greg Toll.

Australian Clay Target Association President Glenn Woodhatch and State President Vince Mollica were there, along with Echuca President Ron Traill and Echuca club members.

Seventy shooters then used the facilities for four competitions.

Between the Ears

by Claudia Kulla

How often have you experienced it yourself? The last training sessions were pretty OK: good enough to remind you that you can do it. With this confidence in your stomach and some strong one liners on your mind you head off for the next competition. But when you actually stand there in your squad waiting for your first competition target things are quite different.

The little man in between your ears is busy, but what he is whispering you now has not much to do with what he was about during the last days. In fact you can't really see in how far his contributions are going to help you here and now.

But that is not all!

Somehow your body seems to go its own way as well. It simply does not feel right. What seems to be working automatically in training is suddenly beyond your control. You never have to think much about what you are doing in training, nor do you ever spend a second on investigating your physical sensations. But one thing is for sure, in this competition it is not the way it is at home, you realise after having just wounded the first target. That is not you, is it? What follows then is a drama compared to how you handle things in training. The good thing about it, you conclude when stepping back into the club house, is the fact that fortunately no one can read your thoughts. You are absolutely determined not to share any details of your interior battle with the others. Looking at how the others behave, sitting there, being just their usual selves, making jokes, convinces you that you must be the only one who is suffering from difficulties. One more reason to shut! "What the h... , I better stop grinding my brain, otherwise I just become neurotic about it. Next competition will be better," you hastily conclude and go on with life.

Since two years I have been accompanying shooters in highly challenging situations in my work as the Mental Training Coach for the Australian Shooting Association.

Situations that include the full spectrum of emotions reaching from tears to complete happiness (which, by the way, does not exclude the possibility of tears), but also all levels of competitiveness from local comps to the Olympic Games. The insight I have gained over the years (as an international shooter myself, as a technical coach, and the Mental Training Coach of ASA) make it easier for me to understand what you are going through. The knowledge I gained in my psychology degree (Dipl. psych, Muenster/Germany) and through conversations with coaches and shooters helps me to support you and choose some methods that might be of benefit for you.

Although I originally come from a different shooting discipline (rifle) identification is not difficult. It is astonishing how similar are concerns and problems among the 17 different disciplines I am mainly focussing on in my work. Differences occur in the consequences of some typical symptoms.

If you identify yourself with the scenario as described above, I have got some good news for you! You are not the only one, who experiences difficulties in showing his full potential in a comp or feeling exactly the same as in training. Many of your troubles are secretly shared by others. Of course they would not tell you, as they think they are the only ones. I have even better news! There are some tips and tricks that may help you to overcome some of your problems.

Optimal performance happens in optimal conditions. Some of these conditions are external (eg weather, facilities, other competitors, etc) or internal (eg body feeling, arousal state, thoughts . . .), some of them are under your control, some of them are not. Performance determining factors that are under your control are the quality and fit of your equipment, your technical skills, your physical fitness and your mental state.

The order of the four elements should not imply the importance they have for your shooting. It is true that without a properly adjusted gun you should not expect too much. With your equipment you set the basic conditions, but all other elements supplement each other and should somehow all be incorporated in your training schedule. Depending on your experience in shooting their weight and importance changes. For a beginner the technical work on the range might still be predominant. With increasing skill level, quantity of training, and level of competition physical fitness and psychological aspects become more and more important. Well, as the level of the champions, where equipment, technical skill, and fitness are equal, the skill to control your body and mind counts most.

The term SKILL should be stressed in this context, as it means that it is something that can be learned. In other words all those you find on the top of the ranking were not necessarily born with this ability to cope with competition stress. They have learned to apply some strategies and mental techniques that proved to be most effective for them. Some of them acquired these skills over the course of several years by recording and processing their experiences, studying books on that topic or by talking to other competitors. Others will have made them a part of their training schedule and worked on it in a very conscious way. The latter of which seems to be more time efficient.

Central topics with regards to mental skills in clay target shooting are:

- Motivation
- Arousal Control
- Imagery
- Attention and Thought Control
- Competition Preparation
- Travel Skills

The term SKILL also means that you have to be prepared to put some time and effort into it. Sport psychology is not the sort of emergency button you press when it is almost too late and nothing else seems to have helped so far. Mental Training should become a part of your normal training routine, with the only difference that it does not take as much time as your technical training.

What sounds like work could soon help you to become more efficient, consistent, secure and better in the execution of your shot routine on a station provided you are willing to sacrifice some time for training (and you do not neglect the other three factors). You might be able to pick up some tricks of how to keep your mind on the game and how to keep your body (and mind) in a zone of proper functioning. "What else?" you ask. Well, you might become more independent. And there is the possibility for you to find out that some of the methods are even applicable in your everyday life.

Are you interested? Then look out for my column in the next edition!

Mildura Clay Target Club Inc

Mildura Clay Target Club hosted its section of the 1998 Victorian Grand Prix Series over the Queens Birthday long weekend.

A record number of sixty one shooters nominated to compete in the events. The number made it difficult for the organisers to get through the program as scheduled over a single trench layout.

From left to right: Adam Vella, Nino Pedula and Mark Crimmins. All top shots and supporting the Grand Prix Series at Mildura over the Queens Birthday long weekend.

This being so it was necessary to reduce the number of targets in the trap event from 125 targets to 100, plus a 25 target final.

Several shooters used the series as a training run prior to them leaving for Perth in W.A. Others to represent Australia in Italy at the World Championships to be held in Barcelona in July. Some of Australia's top shots competing were, Atlanta Olympic Gold Medallist Russell Mark, Adam Vella who won two World Cups in 1997, Geoff Mark and Nino Pedula who won bronze in the Trap Pairs at the Commonwealth Shooting Federation Championships in Malaysia in November last year, Steve Haberman a winner of a World Double Trap Championship in 1995, along with top junior

Recently two old mates met, dined and shared a bottle of wine. You are left to guess who they are and what the major topic was being discussed.

shooter Mark Crimmins who will be competing in Kuala Lumpur and Barcelona in the World Championship.

Top female shooters competing were Atlanta Olympic Finalist Ann Maree Roberts from Melbourne, Australian Representative Lisa Smith from S.A., Joanne Kerr of Echuca, Rebecca Attard of Melbourne, Nessa Jenkins and our own local idol and top female shooter, Liana Dimasi. All made their presence felt with good scores. Also pleasing to have South Australian Executive member John Byrnes in attendance and competing in the events.

The series was well supported by our own members who appreciated watching and learning from the skills of Australia's top shots.

Although time was limited, the coaching provided by Russell Mark and Adam Vella to our junior shooters over the weekend was greatly appreciated.

We also extend thanks to Pro Trap Shooting Supplies for the cartridges donated for coaching. The media coverage in our area given Australia's top shots, shows the value of the Grand Prix Series being conducted in Victoria. In my view it is a series worthy of strong support by all.

The results of the Grand Prix Trap Event were as follows:

Overall winner Russell Mark 120/126; AA 1st Adam Vella 119/126, 2nd Nino Pedula; A 1st John Byrnes 116/125, 2nd Mark Crimmins; B 1st Rebecca Attard 105/125, 2nd Paul Calvi 85/100; C: Joe Ruffo 82/100, 2nd Trevor Shaddock 77/100.

Grand Prix Double Trap: Overall winner Adam Vella 181/200; AA 1st Russell Mark 178/200, 2nd Steve Haberman 177/200; A 1st Len Cook 111/150,

Our juniors reeling the benefit of coaching from two of Australia's top shooters, Russell Mark and Adam Vella at the Grand Prix Series, Mildura Clay Target Club.

2nd Larry Dimasi 104/150; B 1st: Reg Robertson 106/150, 2nd Doug Downs 103/150; C 1st Don Molina 108/150, 2nd Geoff Strauss 82/150.

This series goes down as one of our best ever and we extend thanks to shooters for their support and sportsmanship shown during the running of the championship. Our thanks also is extended to those who assisted us in running the event with special thanks to Len Cook for lending a valuable hand. We look forward to your return next year.

Campervan and Motorhome 12th Anniversary Rally

A huge display of 1000 motorhomes arrived in Roma recently to celebrate the 12th Birthday Rally of Campervan and Motorhomes Club of Australia.

These motorhomes travelled from all over Australia to gather in Roma for the event.

Quite a few arrived as early as one month prior to the event. The Roma Clay Target Club hosted these early travellers. The motorhomes are truly magnificent, both inside and out. The amount of work and detail is a credit to the owners.

Names on some vans - "Geri" and "Atric", "Jazabel" and "Sleepin' Around", just to name a few.

This display brought over 2000 people to the town of Roma over a ten day period, and bought the much needed tourist dollars.

The "Highway Wanderers" were the hosts of the event. To be eligible, the homes must be lived in for at least six months of the year. To many, these motorhomes are their actual homes. Most are retirees, but some couples are working their way around Australia.

The motorhomes were on display and entry cost a gold coin only. The money collected was donated to the many charities in Roma.

At the end of the Rally, most motorhomes headed north for the winter. However, some journeyed east to Crows Nest for a muster in that town.

Roma Clay Target Club has certainly enjoyed the company of the travellers and wish them all the best in their future travels.

HOW TO SHOOT BETTER SCORES AT TRAP AND SKEET SHOOTING

Two 90-minute videos on Trap and Skeet Shooting will show you how

- * Each 90-minute video will show you in detail what you need to know and do in order to shoot better scores.
- * A 25-minute discussion with the aid of descriptive charts will show you and explain the important finer details and why it is most important to have your gun properly fitted. It will show you how to check for correct gun fit.
- * The videos will show you where and how to hold on the trap house and how to focus for target release. Remember it's not the end of the world if you must close one eye - I'll explain this to you in the video.
- * Remember one thing - if your gun does not fit you correctly and you don't mount and point it correctly, you'll never become a good shot.
- * Video tapes \$30 each plus \$4 postage. Please send money order or cheque, available direct from:

** Written and produced by George Biggs in the interest of the Australian clay target shooter; in the interest of better clay target shooting.*

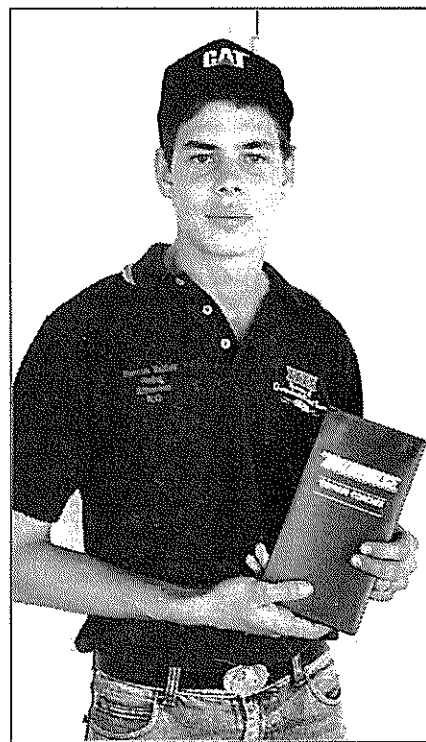

Hosted by the Mount Isa Gun Club Inc the Annual Royal Flying Doctor Service Appreciation Cup was held on Sunday 31st May 1998. We had some enthusiastic novice turn up to have another go at hitting the flying clays. The first event of the day was 10 targets double barrel points score event. The teams for this event were made up of two novice shooters and three members of the club. The team that won this event with a score of 120/150 was made up by Beth Rutherford, Kaye Kuskopf, Neil Sinclair, Mick McGill and Bruce Murphy. In second with 119/150 was Adrian Pope, Peter Rutherford, Dave Stitt, Rob Cusack and Noel Kuskopf. It is so good to see so many wives shooting better than their husbands in this game. Third place went to Chris Roberts, Tony Rivero, Ross Walsh, Rod Cusack and Bruce Hall with a score of 96/150.

The next event was the Individual event, 10 targets double barrel equal score. The results were Adrian Pope 8/10, Peter Rutherford, Amanda Smith and Mark Smith with 6/10, Kaye Kuskopf 5/10, Beth Rutherford 4/10, Tony Rivero 3/10 and Chris Roberts 0/10. The members also shot in this event with possibilities to Bruce Hall, Neil Sinclair, Mick McGill, Dave Stitt, Rob Cusack and Jim Edmonds.

The last event of the day was changed to be 10pair deauville doubles. This is when a novice shooter and a club member team up and shoot together. Two targets are thrown from the trap at the same time and the team of shooters have to make sure both targets are hit. The major results from this event were as follows. The teams of Neil Sinclair & Kaye Kuskopf, Rob Cusack & Adrian Pope, Bruce Murphy & Tony Rivero and Ross Walsh with Mark Smith all shot 9 out of the 10 pairs. The pair of Rob Cusack and Adrian Pope eventually won the event after shooting another 4 pairs. Mick McGill with Amanda Smith and then Mick with Chris Roberts shot 8 pair.

We all gathered in the club house for the presentation. Judy Cooper the Outback Quest entrant and Darryl Sutton from the RFDS were on had to accept the cheque of \$2500 from the Mount Isa Gun Club. This was the proceeds from the 23rd annual Faminco Royal Flying Doctor Service Shoot that was held on the 26th April 1998. All the trophies were awarded to the winners and Adrian Pope was the winner of the McCafferty's High Gun Prize with the score of 29/40 for the day.

We would like to thank all the novice shooters that participated on the day and we would especially like to thank McCafferty's Express Coachlines for sponsoring the Overall High Gun for the day.

Springsure Gun Club

The June shoot saw a good roll up with visiting shooters from Callide Dawson, Clermont and Gemfields. Everyone was squadded and ready to begin, but the automatic trap had to bail up didn't it! After a few members had offered their advice, electrician Pete was called in. Shooting got under way on trap 2 with members taking turns at trapping while Pete went about finding the problem. About an hour later Pete emerged covered in sweat and grease with the trap now operating, only to ask Bruce if it had been him that turned the switch off!

The day proceeded without further incident and saw some great shooting, especially in the inaugural Mountain Man Mug. The 25t DB event will be shot every month with the winner receiving a suitably engraved pewter mug. Bruce Powell and Richard Woolcock shot 140 before Richard dropped one to make Bruce the winner.

John Walsh was the Overall winner for the day. John and his son Josh are regular visitors to our monthly shoots and I take this opportunity to congratulate Josh on his outstanding performance at the State Championships held at Gemfields in May. Not only did he become number one junior shooter for Queensland, but he also made the open team. No doubt his family is very proud of him, and the Springsure club wishes him every success.

We had another very accomplished shooter for the day as well. Katrina Cutting from Callide Dawson made the Qld ladies team at Gemfields and I can assure anyone that there will not be a dull moment in the Ladies team with Katrina! It would have been a very long way home to Bauhinia on Sunday night for Warren and Katrina, although I suspect Katrina may have had a little snooze.

At our November shoot the Maguire Family will be supplying trophies for a memorial day to husband and father Peter Maguire. There will be a lot of shooters who remember Peter and we feel sure the day will be well attended. A program will appear in the next ACTA News. President Drew Smith is also going to put on a President's Trophy the same day.

So, in closing, don't forget our Mountain Man Mug every month from now on, and the Maguire Memorial on Saturday November 7th.
