### CLAY TARGET SHOOTING NEWS

On attending a shoot recently I was again approached by a shooter who complained that his CTSN had once again not arrived until the end of the month. We work with a very late deadline for the CTSN — one month prior to printing, to enable associations, clubs and contributors to supply the most up to date information possible.

Almost all other monthly publications have a three month deadline. We do our utmost to get everything to the typesetter well by his deadline, he in turn does his utmost to get the copy to the printer as soon as he can, and the printer in turn, prints the magazine and gets it to the mail house as quick as he can.

Once at the mail house we are then reliant on it and Australia Post to do their part. We have no control over this final stage of having the magazine delivered.

The question then is "what can we do to overcome this problem?" There is no quick fix answer, but it has been suggested that we extend the deadline for copy to two months prior. I do not believe this is what the shooter/reader would want.

Some years ago we conducted inquiries to establish the feasibility of having the magazine printed by a commercial publisher. The first thing he wanted to do was make a three month deadline, and the second major change he wanted was to remove the results section. Granted there are a number of members who would be happy to see this section removed, but the results of a questionnaire circulated among shooters some time ago found that the one section they wanted retained was the results section.

Further to this, he wanted the major part of the magazine to consist of advertisements he was able to obtain. The ACTA would not be able to vet these advertisements.

After assessing the CTSN, the publishing house who conducted the feasibility study suggested that the CTSN met all the requirements of an in house publication. To change would involve considerable cost to all concerned without the guarantee of success as a commercial venture.

Contributors in the main are our own members and we are continually asking for articles. If you are one of the minority that like to criticise the content of the magazine, why not send in a story about your own club or shoot, or an item you may feel would be of interest to all? It does not have to be 100% specific to clay shooting, but be of interest to members.

Most stories printed in the CTSN are written and submitted by our own members in their own time. In the main they are not edited by ACTA staff. If you feel that any area of our association, or any of our disciplines are not getting what you consider a fair coverage, fix this by writing a story all will enjoy and benefit from.

As for the simple answer to our problem. There is no quick fix solution, all I can say is that we will continue to do our best to get the magazine to you on time, but every now and then, this will not be possible. We can only do our best.

Last month I omitted to mention the outstanding performance of Clive Barton, who won a Bronze medal at the World Cup. As you can see from the story in this magazine, Clive and the rest of the team shot on a layout that had been finished the day before the event. Clive shot extremely well and continues to grow in status on the World stage. Well done Clive.

## Saltbush Carnival 1999

The Wagin Gun Club completed a most successful carnival over the weekend of the 13th and 14th of February. Some sixty clay target shooters from as far a field as Narrogin, Katanning, Kojonup, Salmon Guns, Esperance, Geraldton, Perth, Bunbury, Albany, Peel and Districts, Denmark, Harvey and North Queensland ventured to Wagin to compete in the two day shoot held at the Wagin Gun Club.

The Saturday competition consisted of three 25 target events, namely The RTC Agri-Business Classic, CSBP Special and the Koonac Cup. Ideal conditions allowed for impressive scores and a high standard of competition. Probably the most impressive was by Barry Kowald, to win the Koonac Cup with a perfect score of 75/75 single barrel; his reward was a magnificent gold plated Koonac claw, sash and trophy for his grade win.

Local shooters who were successful on the day were Jim West, Dave Iles, Ben Hodge, Rob Lewin, Mike Mitchell, Trevor Booth and Neil Hodge.....

Sunday saw the Annual Phil Becker Memorial Cup contested over 100 targets double barrel. This event was won in out-

standing form by Anthony Kowald of Katanning with a magnificent perfect 100/100 in very testing, windy conditions.

Local shooters who acquitted themselves on the day with wins in their respective grades were Dave Whitham and Rob Lewin.

At trophy presentations it became clear that all visiting shooters felt that the weekend was one of the best organised carnivals ever, with special thanks to the major sponsors for the weekend, RTC Agribusiness represented by Geoff Healy and Davidson Industries. A special thanks was extended to the various Wagin businesses who donated most generously to the Gun Club.

Donna Hodge and all the ladies who helped with the catering ensured that all in attendance did not go hungry. Gary Hammersly ran a popular liquid refreshment stand in the evening. The Wagin Gun Club wishes to thank all the hard workers who managed to get the third layout ready for the Carnival, and all the most generous sponsors for helping to make this carnival a success. Clay Target Shooting is a popular sport and safe for all members of the family.

# SUCCESS AT KIWI NATIONALS

The Waikato Gun Club (Inc), Hamilton was the setting for the 1999 New Zealand National Championships and some 35 Australians, including our Glenn Trophy skeet team, crossed the Tasman in search of a Kiwi title.

With old friends warmly greeted and introductions all round to

Grade, Marg Denton 1st in ladies and Corban Ellis 3rd in C Grade. This event was the start of a great display of shooting by Scott Wright over the skeet events.

Day 1 of the Nationals and had the drought broken! Not only was it raining but we were being attacked by insects and could they bite .... so with the Aerogard being freely handed around it was into the New Zealand Skeet Championship. At the end of the day Scott Wright had captured his former homeland's skeet title, Max Barton again had 2nd in AA Grade, and up and coming skeetie, Glen Castellaro had secured 3rd placing in C Grade. Marg Denton was again the number 1 lady and Max teaming with Guy Beddington took out the two man team.

The Double Rise was also conducted and Arthur Turner gave notice he was there to shoot the only possible 30/30. In addition to Arthur, other Aussies to shine were, Steve Atkins and Neil Berry, 1st and 3rd in AA, Neil also took the Veterans medal. So far for us 2 events and 2 titles. At this stage we had also won both the raffles that had been conducted by the host club.

Up bright and early on day two for the Glenn Trophy teams match. Our team of Max Barton, Guy Beddington, Sam Forythe, Adrian Lucchitti and Scott Wright looked resplendent in their green and gold tracksuits for photographs and then it was down to

our members making their first visit to the Land of the Long White Cloud, the thing that struck first with those among us who had visited before, was just how dry the countryside was. This was not to last and just to remind us that we were in New Zealand, right on cue the rain came for the first day of competition.

business. At the completion of the allotted 50 targets each we were 5 targets down, no one looking askance at anyone else simply because each had missed one. New Zealand still completing their 50 targets 4 down — station 8 to shoot and the engraver about to put their name alone on the cup when the unthinkable happened ... a high went through unscathed, a tie, a good result for both teams.

Day 2 also saw the Ball Trap and Mini's contested. We again got in amongst the medals with Glen Castellaro putting away his skeet gun, picking up the

The first day of competition for our shooters was the 100 target pre National match and the overall title went to former Aussie resident, Brian Thompson with the only 100/100. Our shooters certainly had their fair share of the victory dais with Scott Wright and Max Barton taking out 1st and 2nd respectively in A

trap gun and taking out HOA in the Mini's. Our other placegetters in the Mini's were, Terry Boucher and Geoff Faulkes. 1st and 3rd in AA. Our only winner in the Ball trap was Adrian Lucchitti who had also hung up his skeet gun and taken out 1st in C Grade. The Grouse Whisky, Trophy also got under way and at the end of it, Steve Atkins was a very popular man with Aussie mates. I do not think the number of Old Grouse bottles he had contributed in any way to his popularity — then again

*Steve Atkins after winning the famous Grouse Whisky trophy.*

— it might have. Paul McGowan got a "drink" with 4th in A Grade, as did Adrian Lucchitti for his 3rd in C. Kevin Heywood also did not have to go to the duty free shop on the way home as he picked up a bottle for 3rd in veterans.

Tuesday saw the sun again begin to shine for the Triples and Winchester Trophy. With the triples being decided first our winners were, Steve Atkins 1st AA, Ray Wise 2nd AA, and to prevent his twin brother from having all the limelight, and to confuse the officials, Julian Lucchitti won 2nd in C. I would like a dollar for every time I was asked "How do you tell them apart?"

On to the Winchester Trophy and Steve Atkins yet again taking out 1st in AA, with Bob Christopher 3rd. Adrian Lucchitti back on the dais with 2nd C (and officials closely tallying scores — but uncertain about true identity — might be his brother!). Neil Berry was again the successful veteran.

Wednesday and on to the Single Rise (Double Barrel) and after

*Guy Beddington and Max Barton, skeet pairs winners.*

the dust has settled there are 53 still in it. A couple of runs down the tracks and we are soon down to 5. We have 3 shooters still in the 5, Bill Iles, Arthur Turner and Neil Berry. The shootoff continues until Australia is assured of another title with Bill and Arthur set to resume after a good night's sleep. The decision is made on the following day to complete the Single Barrel prior to Bill and Arthur settling the Single Rise.

Eight possibles in the Single Barrel and Arthur Turner is among them, along with Alan Denton and Geoff Faulkes. Not many targets later and that very frequent visitor to Australia Murray Havill had another New Zealand title. Geoff Faulkes and Alan Denton finish 1st and 3rd in AA and the Lucchitti twins are thinking trap is every bit as good as skeet and take out 1st and 3rd in C Grade.

With the Single Barrel over, Bill and Arthur return to the arena to continue their battle, both absolutely smoking targets and it is not until the 853rd that Bill says, "It's all yours Arthur." Another great shoot off. We again take up a reason-

*Double trouble Adrian and Julian Lucchitti.*

able amount of space on the winners' dais with Arthur HOA. Bill 1st in AA with Neil Berry 3rd, as well as the veterans.

Friday came around very quickly, and a few of the "seeded" shooters are desperate for a title. However when the Fat Lady, had sung, and planes were awaiting, we had Glen Castellaro 2nd in AA and guess who? — yes Adrian Lucchitti — 1st in C. Alan Denton was successful in the veterans.

To the High Guns and here we did pretty well. Bill Iles, Overall High Gun, Arthur Turner A Grade, Adrian Lucchitti C and Alan Denton veterans.

Another great visit for us. It was here that we had our first real experience with the trap phono pulls and the rest is history. We invited them to our Nationals and everyone who shot over them in Roma, was loud in their praise of their operation. I am yet to hear a legitimate complaint about them.

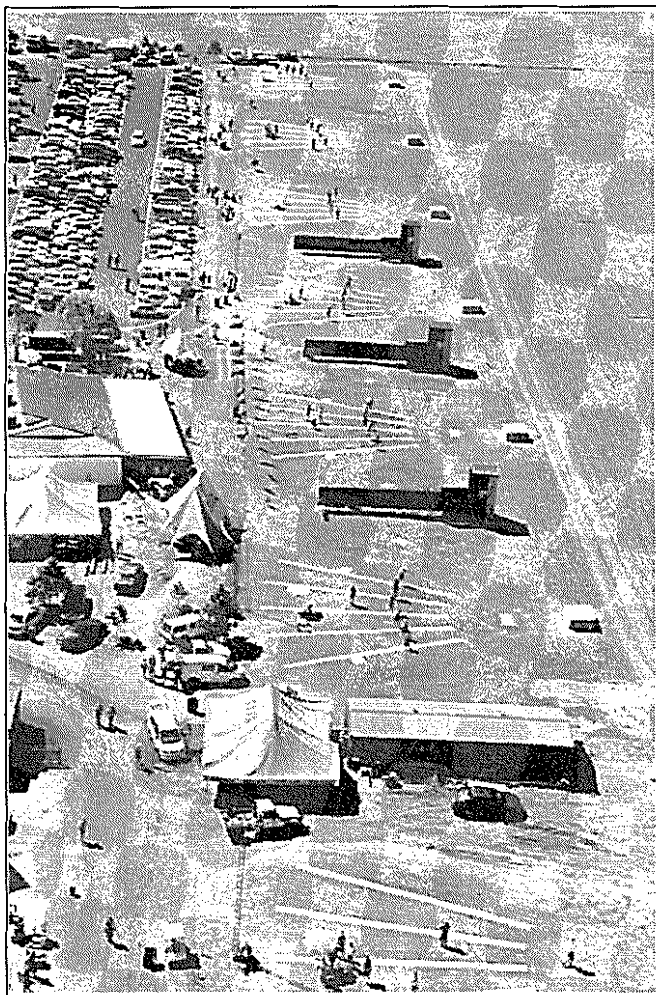

It was great to have new Zealand President Alan Maby turn up late in the week after a very serious illness. Alan is a great Ambassador for New Zealand and clay target shooting in general, and a very good friend to the many Australians who have had the pleasure of meeting him.

All too soon our brief visit was over, so it is back to the "West Island" until Christchurch next year.

# 1999 GIO AUSTRALIA NATIONAL DTL CHAMPIONSHIP ROMA QUEENSLAND

The Australian Clay Target Association in conjunction with the Queensland Clay Target Association was proud to host the 1999 DTL National Championships at the Roma Clay Target Club on March 26 to March 31.

## Opening Ceremony

A very warm day greeted us for the first day of our Nationals in outback Queensland. Having had some rain the previous week the grounds looked a picture with many southerners very envious of the amount of grass that was around. A piper led the teams on with every State having a team represented in readiness for the Opening Ceremony of the 1999 National DTL Championships.

National President, Mr Glenn Woodhatch, welcomed all shooters and friends to Roma with the official party comprising of: Mr Mick Vievers MLA, Hon. Brian Littleproud MLA, Mr Bill Jones, National Vice President ACTA, Mr Allan Mabey, President NZCTA, Mr Bob Bryant, Patron, Roma Clay Target Club, Mr Robert Nugent, QCTA and Roma Clay Target Club President, Cr Jill Baker, Deputy Mayor Roma Town Council, Cr Pam Spencer, Mayor Bungil Shire Council, Cr Bayden Waldron, Roma Town Council and representatives from other shooting organisations.

After welcoming speeches, Mr Mick Vievers was invited to fire the

opening shot under the watchful eye of our Shoot Marshall, Mr Adrian Cousens, hitting the first target to get the Nationals under way.

## State Shoulder to Shoulder Teams

A very keenly contested event with all States competing vying for the winning badges.

Victoria, competing in the Open event, was successful with all of their team shooting 25/25 to finish first with 125/125. The team Captained

Another Roma CTC member won the Ladies section with Veronica Forsythe shooting 52/53 off 11m.

As well as taking overall 3rd Clint Shields also took out the Junior section with a perfect score of 50/50.

Host club President, Mr Robert Nugent said that this was to be a friendly and entertaining nationals and that everyone was to have a good time. Every night the Club put on a great spread of food and entertainment. Tonight's entertainment was "catch the greasy pig", which no one did although Donna Nugent gave it a very good go, followed by a dog jumping competition which had the large crowd enthralled.

#### **48th Double Barrel Championship**

We had 433 shooters who vied for the honour of being the 1999 Double Barrel Champion. These

by Steve Atkins also included Brad Henshall, Bryan Wallden, Glenn Hayden and Brian Thomas.

Points had to be used to separate the next two teams with Western Australia coming 2nd with 124/363, followed by New South Wales also on 124 but one less point 362.

The Victorian Ladies team made it a quinella winning the event with a score of 74/75. Captained by Carol Zagor, the team included Simone Tigani and Sharlene Bertalli to win the event from New South Wales who shot 71/75 with host State Queensland coming in third with 70/75.

A team of top juniors from Western Australia led by Ben Whitcroft, with Matthew Kelly and Kent Holland won the Junior Shoulder to Shoulder event with a score of 74/75 with points being used to decide first place. Western Australia shot 217 points with Victoria shooting 74/75 (214) to finish in second place and New South Wales was successful in third place with 72/75.

Two veteran's teams competed for their shoulder to shoulder badges with the New South Wales team of Rex Varley, Peter Smith and Norm Quince shooting 73/75 to take the event from Queensland who shot 67/75.

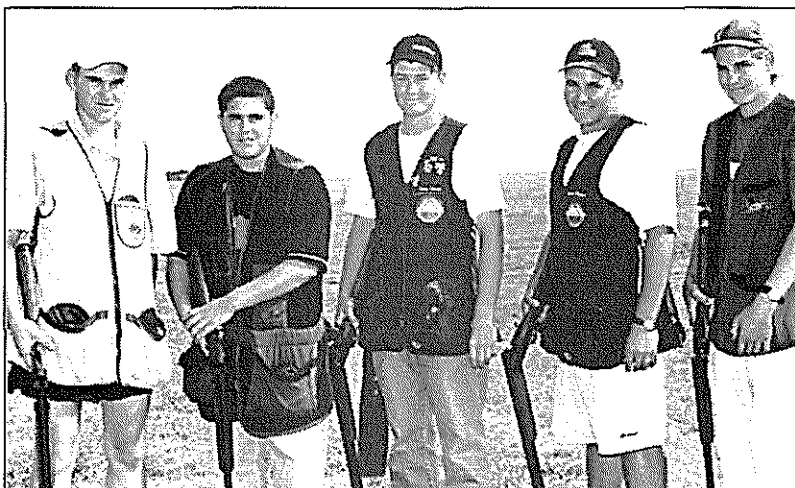

Mrs June Mabey, wife of New Zealand President, Mr Allan Mabey, and her friends from New Zealand judged the best presented teams and awarded the SACTA Perpetual Trophy to a very well presented Western Australian Team for the third year running.

#### **50th Grand Australian Handicap**

A total of 365 competitors vied for the Gordon Hall Perpetual Trophy, Royal Blue Sash and Silver Australia Badge awarded to the winner of the Grand Australian Handicap.

It was appropriate that Queenslanders filled the first two placings of the first event of our championships with Malcolm Lillyman, Goondiwindi Qld being the overall winner with a score off 74/74 off 11m. Local club member Angus Anderson, Roma Qld won the silver medal with a score of 73/74 off 20m and Clint Shields, Coleambally NSW took home the bronze medal with 72/73 off 21m.

A very popular Kiwi veteran Murray Havill was successful in taking out the Veterans event with a score of 49/50 off 20m.

We wish to thank GIO Australia for generously supporting our nationals, the Double Barrel Championship and for support of Clay Target shooting.

Another great night's entertainment ensued with the "Walmsley Bros" belting out some fine country and western music. A "Pro-Am" for the sponsors and supporters which proved to be a lot of fun. The format was Deauville Doubles, shooting at white targets under lights. A good time was had by all who participated.

#### 45th Single Barrel Championship

There were 408 nominations for this event. This included 221 AA

grade, 97 A grade, 72 B grade and 16 C grade.

# Mildura Clay Target Club Inc.

Mildura Gun Club's 1999 Easter Carnival goes down as one of the best ever. Eighty shooters were attracted to the four day Carnival with many vowing to return next year.

The program enticed top shooters from Victoria, South Australia and NSW.

As well, shooters on their way home from the National DTL titles held in Roma Queensland just prior to Easter called in to compete in the events.

With so many in form top shots on the ground, over 300 straight to win, or run a place in any event was quite common. Long shoot-offs created a record number of 20,000 clay targets being used over the four day program.

Our Club Members whilst shooting possible, did not have the staying power in the shoot-offs to get among the major placings.

Left: Tom Turner introduces his wife to the Honda lawn mower he won at the Easter Carnival with a score of 143/143.

Junior shooter Rocco Manno receives his trophy from Laurie Lewis, after winning Overall in the L&J Concretors double barrel championship with a score of 211/211. A junior shooter with a great future in our sport. Congratulations Rocco.

Len Cook and his wife Jill both spent a few days in Mildura as well as attending our Easter Carnival. Len captured AA 1st with a score of 301/301 in the Hesco Eng Co. Graded Championship. Len also assisted general administration over the tournament. Thanks Len, a job well done.

Our Juniors faired well with Liana Dimasi getting into a shoot-off with the top shots, with a clean 50/50 and her first 50 break badge.

Our sponsors were behind the tournament once again, and we are most grateful for their continued support. It is their sponsorship that helps to make this tournament the success it is.

Well, C.T.S.N arrived before the Easter Bunny 31/3/99. I had just finished my morning's work, had a shower & having morning tea & said to my wife, all I want now is the Bible. Then my dog told me the mailman was here and my wish came true.

Reading the Presidents Report, the young lady I have to keep on the right side of is Karen.

In MTB talking about Gypmie Flood I hoped no shooter was troubled, but at our shoot, Chris told me he had been affected and has caused stress in the family.

I hope you can get on top of the after effect of what you went through Chris. Best of luck.

Also, on page 20 the photo of the Mackintosh team. Note some shooters wore their badges, when I started in 1967 I noticed a lot of shooters did this and I was amazed how they stood upright with the weight of all those medals. Shooting was of a high standard as 300/300. Can't be beat today.

I have a mate who keeps getting accounts from a Company but claims he doesn't owe them anything. So I said to him, are you still getting accounts from that Company? And he said, I think they woke up the other day, they sent me a final notice.

I go to the Doctor every three months for tests, so the other day after the real stuff, I said Doc, some times I get this burning on the soles of my feet & he said, when do you get this burning? I said when I go across to the corner shop in the middle of the day bare footed, when the road is hot. So he thought for a while and wrote a script for a pair of thongs.

Trevor said I wouldn't print this one, so I cleaned it up a bit and here it is.

These two little boys both had an accident and went to heaven. The Lord said to the first boy, what happened to you Billy and Billy said I fell down a big flight of stairs and here I am. So the Lord said go around there, get your wings and you can be an angel. Then he turned to George and said, what happened to you George? George said I was up in a fruit tree pinching fruit when I fell and here I am. So the Lord said go around there and get your wings & George said, Boy oh Boy I am going to be an angel. And the Lord said no George; you are going to be a fruit bat.

Thinking of fruit, it's time again when Central Burnett hold their Citrus Country Annual Shoot, 20th June at Mundubbera. 9am Start.

The Chronicle headlines were "Russell Hits the Mark" and read, Australian Olympic Gold Medallist Russell Mark yesterday won the Trap competition in the World Cup of Shooting in Lima, Peru. The Victorian who won the Double Trap gold in Atlanta showed he would still be the shooter to beat in Sydney 2000 Games, when he snared a 146 Points from possible 150. Congratulations Russell, top shooting.

Sunday April 11 saw Mount Isa Gun Club hold its monthly shoot. The conditions were warm and a light breeze making the conditions comfortable for the shooters.

# Peru World Cup

4th - 12th April 1999

Peru World Cup 99, Australian team

The Australian Team to the Peru World Cup:

Trap - Russell Mark, Glenn Kable, Nathan Cassells.

Double Trap - Russell Mark, Adam Vella, Nathan Cassells.

Skeet - David Cunningham, Clive Barton, George Barton.

Manager/Coach - Luca Scribani Rossi.

Coach - Greg Chan.

Australian silver medal double trap R. Mark, A. Vella and N. Cassells.

The trap and Double Trap teams met at Sydney airport on Good Friday to catch their respective flights to Peru. Nathan and Glenn were to go via Buenos Aires whilst Adam, Luca, Greg and Graham Michell (ISSF Jury member) via Santiago (Chile). Russell had departed a couple of days earlier via the USA. The reason for the different routes was because some members were departing Peru at different times they had to stay with the same airline both ways

or the price of the ticket would near double. The flights departed within an hour of each other and met up in Auckland before again going their separate ways. The Santiago trip ended up being the Pacific "milk run" with stops in Papeete, Easter Is, Santiago and finally Lima. We arrived in Lima at 11.30pm, Nathan and Glenn at 12.15 am and Russell 10 minutes later. Three different routes to Peru all arriving within an hour of each other.

Our hotel was the Maria Angola, a very comfortable hotel located in the tourist area of Miraflores. Thanks must be given to Adam Vella and his wife Fiorella for organising the accommodation and transport company.

The tournament had been switched from the Las Palmas range where the previous two World Cups and World Championships had been held, to the Internationale Club Revolver Range which is located downtown.

Imagine our surprise when we went to the range that afternoon to find the third trap range still under construction and the third skeet range not even started construction. The third trap is elevated 3 metres above ground level but the accompanying photos of both ranges is better able to describe them than words ever could. The background is a grey/black mountain that starts about 60-70 metres out and the rather dull fluro targets were a little hard to see.

Results Trap:

1st Russell Mark (AUS) 25 24 24 24 25 = 122 + 24 = 146; 2nd Marco Venturini (ITA) 24 25 25 23 23 = 120 +

Australian silver medal trap R. Mark, N. Cassells, G. Kable.

22 = 142 + 5; 3rd David Kostecky (RCHE) 24 23 24 23 24 = 118 + 24 = 142 + 4; 4th Joao Rebelo (POR) 23 23 22 25 25 = 118 + 24 = 142 + 2; 5th Waldemar Schanz (GER) 25 24 22 23 23 = 117 + 23 = 140; 6th Francisco Boza (PER) 21 24 22 25 25 = 117 + 21 = 138; 11th Glen Kable (AUS) 22 24 24 23 22 = 115; 23rd Nathan Cassells 22 21 22 21 25 = 111

Teams: 1st Italy 350, 2nd Australia 348, 3rd Portugal 346.

Congratulations to Russell on winning the trap with a great score which made a mockery of the difficult conditions and the fact that he competed with a stomach bug. Also to the team on their silver. A good performance from Glenn considering it was his first World Cup.

Gold medal R. Mark.

#### Results Double Trap:

1st Emanuel Bernasconi (ITA) 46 47 48 = 141 + 149 = 190; 2nd Jiri Gach (CZE) 48 46 48 = 142 + 41 = 183; 3rd Luca Marini (ITA) 45 47 47 = 139 + 43 = 180; 4th Jeffrey Holguin (USA) 49 41 46 = 136 + 45 = 181 + 2; 5th Waldemar Schanz (GER) 44 47 45 = 136 + 45 = 81 + 1; 6th Adam Vella (AUS) 44 45 46 = 135 + 45 = 180; 11th Russell Mark 45 43 43 = 131; 17th Nathan Cassells 45 39 42 = 126.

Teams: 1st Italy 413, 2nd Australia 392, 3rd USA 389.

A creditable sixth to Adam and silver to the Team. Russell's stomach bug had become worse during the doubles so his was a courageous effort to finish as high as he did.

Whilst the double trap had been on, the skeet team had arrived and practiced at the other club and were keen to get into competition.

Meanwhile the saga of the third skeet range continued. With a total of four days to construct the whole thing it was going to be a big ask to have

this 100% ready with no time to test before the comp. Sure enough on the first day it malfunctioned and three squads had to complete their third round early the next morning.

#### Results Skeet:

1st Jan Sychra (CZE) 24 24 23 23 25 = 119 + 25 = 144; 2nd Christos Koutellias (CYP) 24 23 24 23 25 = 119 + 24 = 143; 3rd Clive Barton (AUS) 24 23 23 25 24 = 119 + 23 = 142 + 11; 4th Guillermo Torres (CUB) 24 23 24 23 24 = 118 + 24 = 142 + 10; 5th Pietro Genga (ITA) 25 24 25 22 23 = 119 + 21 = 140 + 4; 6th Axel Wenger (GER) 22 24 25 22 25 = 118 + 22 = 140 + 4; 16th George Barton 22

Third skeet range low house.

25 23 23 22 = 115; 21st David Cunningham 24 21 23 22 24 = 114.

#### Teams:

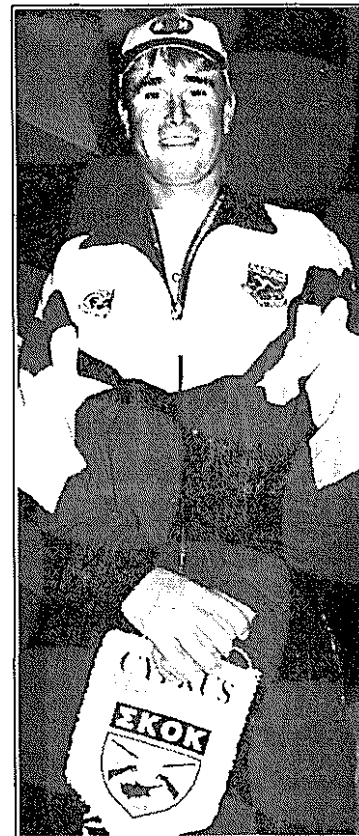

1st Spain 351, 2nd Cze 351, 3rd Cyprus 350, 4th Australia 248.

Congratulations to Clive on his 3rd place. This was a particularly pleasing result as the skeet targets were extremely difficult to see and Clive's resolve during the entire competition was first class. The team in finishing 4th were very close to a medal and is an indication that our skeet shooters are rapidly improving.

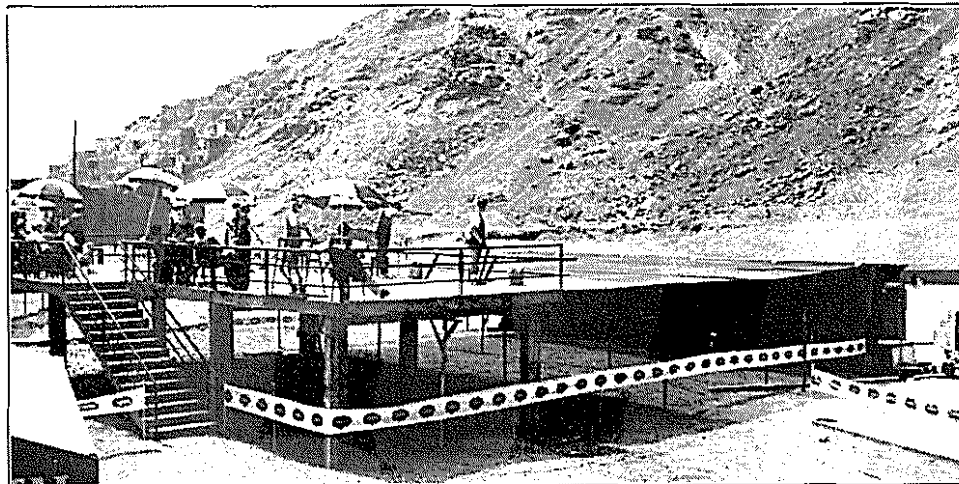

The final medal count - Australia: Gold - one, Silver - two, Bronze - one.

The entire team deserves praise for the manner in which they approached the competition and the way in which they represented their country. The results confirm that Australia is now truly one of the top ISSF Nationals in the World.

Lucas Scribani Rossi  
and Greg Chan.

Clive Barton, third skeet.

Third trap range.

## **Robert (Bob) Fowler** 27.10.1932 - 9.4.1999

To Bob Fowler it was a natural progression to go from shooting rabbits as a young child on his parents farm near Kerang to Live Bird and Clay Target Shooting in his teenage years at the near by Clubs. Clay Target shooting was to become a life time of competition.

Bob was a keen and respected shooter who was an active member of the Kerang Clay Target Club initially and then the Cohuna Clay Target Club, where he was an active club member and office bearer who helped develop the Club into what it is today.

The members of the Cohuna Clay Target Club extend our deepest sympathy to Joan, his daughter Kerrie and Grand Children Michael, Jane and Anna after the peaceful passing of Bob on the 9th April 1999.

Thank you for the years we shared.

## **Vince Griffith**

It is with great sadness that I advise you of the loss of one of our most esteemed members who passed away on January 8th.

When Vince first joined the Boyup Brook Clay Target Club in 1097 he was farming at Manjimup growing vegetables and running some cattle. He became a dedicated member of the above club and over the years held positions of responsibility in administration being President for two terms and had the unenviable task of being Secretary for some time.

He helped and worked hard at the busy bees that were arranged for the upgrading of the club, and the building of the facilities for the comfort of all members and their families.

His outgoing personality and friendliness won for him the admiration of all those that knew and worked with him.

He was the main instigator of the public displays of clay Target Shooting at the annual Manjimup Agricultural Shows in the 1970's. these were put on by the Boyup Brook C.T.C in conjunction with members from Bunbury, Collie and Edgehill Clay target Clubs and there are many members in this state that would remember the most enjoyable barbecues and hospitality that was offered by both Vince and his wife Theresa at their home in Manjimup after a long day at the show.

In 1980 Vince and Theresa sold their farm in Manjimup and moved to Clifton park near Bunbury.

Vince tried to resign from the Boyup brook C.T.C, but the members would not accept his resignation and instead made him a life member in appreciation of all the work he had done for the club, so that when he eventually joined the Edgehill C.T.C he was still accepted back at Boyup Brook C.T.C as a full member.

While at Clifton Park and right up until his illness was diagnosed Vince threw his weight into the administration of the running of the Zone 6 shooting competitions between the six clubs of the South West of W.A.

He may not have been the champion of champions as a shooter but he certainly was the champion of champions at working for the enjoyment of all shooters in the South West Clubs.

He loved fishing and marooning in the rivers of the South Coast and his prowess as a fisherman was well known.

Vince's fitness and zest for life was something to be marveled at and clay target shooting will be the poorer for his passing.

The members of the Boyup Brook C.T.C and Edgehill C.T.C extend their sympathy to his wife Theresa and his children Tracey and Mark.

## **Jack Lucas**

It is with much sadness that the Warrnambool Clay Target Club informs you of the sad passing of one of our Life Members Jack Lucas who passed away on 21st March 1999. Jack was one month off his 82nd birthday. Jack enjoyed his shooting, especially the Tower and traveled to many shoots over the years before his eye sight failed. Jack spent many hours at the club attending to our lawns and general maintenance around the club. He was a Level 1 Coach and did a great job helping younger shooters over the years. He is sadly missed around the club and we offer our sincere sympathy to John, Jan and family.

## **Phil Petzke**

It is with regret that the Wangaratta Clay Target Club inform you of the death of Phil Petzke.

Phil was only 46, and serving his third year on the Committee when he collapsed in the main Street of Wangaratta and died suddenly on April 19th.

Phil was a keen shooter and competitor, who competed within the local district Clubs.

In Phil's spare time away from his Trophy & Jewellery shop, he loved to go fishing at the 'Junction'(Ovens & Murray Rivers).

Following the funeral service, the cortege travelled to the Clay Target Club ground, where Phils brothers and closest mates effected a 21 gun salute prior to interment at the Wangaratta Cemetery.

Phil will be greatly missed around our club and our deepest sympathy to his wife Jenny, and Children Jayne and Michael.

## **Vin Ryan**

Vin Ryan passed away 12 April 1999, a few days short of his 73rd Birthday.

Shooters from all over Australia will be saddened to hear of the recent death of Vin Ryan.

Vin was a founding member of the Cosgrove Gun Club, and until recently traveled far and wide to compete and enjoy the company of fellow shooters.

Vin had a long list of National titles, plus hundreds of State and Club titles.

Vins vast mechanical knowledge, together with his quiet unassuming nature, will be sadly missed by all who knew him and especially the people of Dookie and Surrounding District.

# CUZZO'S RAMBLINGS

## JUNE 1999

Earlier this year I wrote an article containing my thoughts on the problems we face with refereeing in Trap and Skeet shooting in Australia, and some possible solutions to those problems. That article was published in the March edition of CTSN. Refereeing as such, where it entails ruling, adjudicating and scoring, as it does in most other sports, is seldom ever an issue, and when it is, such things can usually be adequately resolved after the occurrence. However, in our sport, the referee's duties also include launching the target, so a material effect, albeit unintentional, in the equity of the competition, inevitably results.

At the time I believed that the most viable method of launching a target was to use a human puller who possessed all the necessary qualifications to perform that function correctly. Such as enough experience to have the timing correct and sufficient powers of concentration to maintain that timing, each and every time, over an extended period. At small to medium shoots, where the shoot marshal can hand pick the referees, this works OK. But at large shoots, such as State shoots and the Nationals, this intimate control is impossible, and a rotational roster system (which I facetiously refer to as the "lucky dip" method) is the only workable option under the current rules. The inability of this system to provide consistent pulling is its major downfall and the root of the bulk of our refereeing problems.

Thus I concluded that until we get the necessary rule changes to allow shooters to pull their own targets, or supply their own pullers, the best option would be phono-pulls, such as they use in Olympic Trench. This conclusion involved a great deal of soul searching, because it involved choosing the lesser of two evils. If you could not guarantee a continual supply of good human pullers, you were better off with the disadvantages of phono-pulls, than you were with the problems created by inconsistent pulling. Another option, which I did not consider at the time, was to attempt to eliminate the disadvantages of phono-pulls so that you could have the best of both worlds. The reason I did not consider this option was because, at that time, such a

concept was only a pipe dream. However, that situation has now radically and dramatically changed, which is the whole basis for me writing this article.

First, let's examine the inherent disadvantages of conventional phono-pull equipment for Trap or Skeet shooting. Initially they are the same as in Trench, such as:

- They require a trained operator - pushing buttons, making adjustments, and overseeing their operation

- They can be prone to interference from other noises on the layout, such as guns closing or ejecting etc

- They can be prone to interference from shooting on other layouts

- They can be prone to interference from other unassociated background noises

However, the biggest disadvantage of all is the fact that:

- They are instantaneous and a human puller is not. So unless the rules were changed to make them compulsory, as in Trench, then the problems associated with changing back and forward between human pullers and phonos would be almost as bad as, and similar to, adjusting to the inconsistency between good and bad pullers.

The ideal answer to all this would be to invent a phono-pull system which:

- Was fully automatic and worked perfectly without any human input (sort of like "magic")

- Was totally immune to all extraneous interferences and responded only to the shooters call

- Was programmed to incorporate the normal delay of a human puller.

By doing this you could obtain the desired performance parameters of good human puller, without having to accept the biological inevitability of occasional human failings, and the whole process would be perfectly integratable, and smoothly interchangeable, with our current system of refereeing.

This was the exact task that was put to a research scientist, by the name of Graham Callander, in New Zealand a couple of years ago. Graham was chosen for several reasons. Five years earlier, while working for the DSIR (NZ's equivalent of our CSIRO), he had done some work on a voice activation system for a double-throw trap machine that their Mechanical Engineering division were working on. Additionally Graham's background in analogue and power electronics is widely recognized, and his detachment from emotional involvement in the project, by virtue of not being a shooter, as well as his vast research experience, meant that a very critical and constructive approach was assured.

Anyway, Graham then spent the next eighteen months patiently and methodically researching, developing and testing the system, with a lot of practical assistance from members of the Christchurch Gun Club amongst others. By September of 1998 the prototypes were ready for evaluative testing, and were used for the first time in competition at Canterbury. Initial success there was followed by their use in Dunedin in November for the South Island Championships, and then at Woodville in January for the North Island Championships. During this time the units were continually refined and improved and eventually totally satisfied all the desired design criteria listed above. By now the performance and acceptance of the system, at the test venues, so far exceeded even the most optimistic expectations, that Graham was forced to accept the reality that he had developed a product that had serious marketing opportunities.

The testing of some units in the U.S. market led Graham to working with Bruce Rickard of the N.Z. Trade Development Board (NZ's equivalent of Austrade), who also saw the marketing potential of the product. The nett result of that union was a partnership, and the setting up of a company called Canterbury Voice Release International Ltd, where the advantages of Graham's technical expertise can now be maximized by Bruce's marketing skills.

The new business partners then attended the Spring Grand, in Phoenix in the United States, where the CVRs performed flawlessly on the practice traps, and created a ripple of excitement throughout the U.S. trapshooting scene. Upon returning to New Zealand they convinced the NZCTA to use their product for the NZ Nationals, where they worked almost flawlessly for eight days. The attendance there of our National President, Mr Glenn Woodhatch, with the Glenn Cup team, certainly did nothing to harm CVRIL's efforts to have their new equipment used at our Trap Nationals in Roma the following month. However the word had now well and truly started to leak out on CVRs, and their Australian debut was also being pushed by numerous people over here, including Ray Wise, Steve Laffey, George Scaf and Robert Nugent. I congratulate all these people on their foresight and perseverance.

Enter yours truly at Roma! I knew nothing of CVRIL's achievements, but had been advised in advance that phono-pulls were to be used at the Pre-Nationals, and that if they were well received, may be carried over to the Nationals. In my position as National Shoot Marshal, I looked forward to the elimination of the dramas created by slow and/or inconsistent pulling, but was apprehensive of the peripheral problems usually associated with phono systems. Imagine my astonished delight when the full advantages of the new equipment became apparent to me.

Within a couple of hours on the first day, it was obvious to me that CVRIL's new product was not only the greatest thing since sliced bread, but also one of the biggest single steps forward in the history of clay target shooting. In my opinion, it rivals screw chokes and adjustable comb stocks in terms of technical advancement in our sport. There was never any question of the units not continuing on after the Pre-Nationals, and they proceeded to work practically flawlessly, and to the delight of shooters and organizers alike, for the entire duration of the National tournament.

I was so impressed by the ingenuity, simplicity and reliability of the units that, at my first convenient opportunity, I approached the manufacturers, who were present at the shoot to promote and service their product, to arrange the purchase of two sets for my own club. I had hoped to take two of the sets being used home, but by the time I appeared, all of those had been spoken for, and a large backlog of orders already existed, so I had to be content with being placed in the backorder book with everyone else.

For those people who have not seen the CVR system, I offer this description. Five conventional looking phono-pull microphones sit atop metal ground spikes. These are connected by cables about the size of TV co-ax, to a central control box, about the size of a box of chocolates, which just sits on the ground in the center of the layout. Two other similar cables are also attached to that box. One goes to the trap house and plugs into the trap via a small power box about the size of a mobile phone charger. The other goes to the activator box, which is about the same size as a normal target release module. However, instead of just a button, it also has an on/off switch, similar to a household light switch. The button is only for manual overriding, and never normally gets used.

To operate the system, the referee simply clicks the switch to the on position, puts the module back down, and then stands there and calls one or lost until the shooting is finished. The central control box has no buttons, no dials, no meters, no adjustment, no nothing! It just sits there quietly, minding its own business, and works like "magic". The inner workings of this box have been explained to me in layman's terms, and although the technicalities are a little over my head, all the problems that previously plagued conventional phono-pull systems have effectively been eliminated. This has been done by some pretty fancy selective acoustic filtering, a pre-programmed time delay that is spot on, and various other advanced solid-state electronic gadgetry. No wonder CVRIL choose to carefully avoid any mention of the term "phono-pull" in connection with their product, and refer to it instead by the highly descriptive designation "Clay Target Voice Release System".

Now that this equipment exists, and is available at realistic and affordable pricing (change out of a grand), I cannot imagine the Trap Nationals, or for that matter any of the State shoots, ever being conducted again without it. I did not speak to one person that shot over it, who was not totally satisfied with it, and who would not have been going home trying to convince their own club or their State Association to purchase the equipment. I don't have a crystal ball, but I would like to hazard a guess that, within five years, no gun club in Australia will be operating without CVRs.

At the time of writing, the exact details for Australian distribution of CVRIL's products had not been finalized. However, they indicated to me that they will probably service the Australian market directly from NZ via an Australian freecall phone number, and ship the product from a contract warehouse somewhere in either Melbourne or Sydney. For further information try contacting Bruce Rickard via fax on 011-643-388-4466 or via e-mail at [bruce.rickard@xtra.co.nz](mailto:bruce.rickard@xtra.co.nz).

I guess it will come as no surprise to anyone to learn that after watching their equipment work for a couple of days, I approached Graham and Bruce and asked them if they had considered adapting their concept to operate Skeet machines. Although they have not done so yet, they advised me that it is on their agenda of future developments, and after learning of my interest in that field, they have invited me to participate in the research and development of that product. Obviously I accepted without hesitation and look forward with anticipation and excitement to the prospect of participating in a project that would allow the Skeet fraternity to capitalize on the benefits of the technology now available to Trap shooters. Watch this space for future updates.

On the subject of Skeet shooting, I am very pleased to be able to advise that the Wagga Gun Club have invited the Small Gauge Skeet Club to assist them, not only with the running of the National 20 Gauge Skeet Championship this year, but with the whole three days of the Skeet Pre-Nationals. A joint Organizing Committee has thus been formed and we are all looking forward to three great days of preliminaries prior to the Skeet Nationals in November. A program has been drawn up which incorporates the 100 target 20 Gauge event on the Monday (kindly sponsored by Mr George Sckaf with Bornaghi ammunition) and two 50-target events each day on the Tuesday and Wednesday. A 100-target event had been considered for Wednesday due to the necessity to finish early that day. However to provide the opportunity for the maximum number of people to be able to participate in shoot-offs, two 50 target events was decided upon. In order to maximize the available time, shoot-offs on both days will be held at the end of each day, one of

Wednesday's events will be a doubles match, and on Wednesday both shoot-offs will be conducted via doubles at 3,4 & 5.

This month's Shooting Trivia Question: What is the highest score that has ever been shot to win the National Skeet High Gun, by whom, and in what year? Send your answer to Shooting Trivia, P.O. Box 265 Bairnsdale 3875 to arrive by 25-06-99. A winner shall be drawn from the correct answers and that person shall receive a free entry to the Commonwealth Skeet Championship this year. The correct answer to April's STQ was: The first Skeet Nationals were held at Melbourne in 1983. The winner of a free entry to this year's National Skeet Championship is Mr Gil Farish of Benalla. I suspect that Gil may have known this because he was one of the participants at that great inaugural event. I know he was there the following year in 1984, because I remember presenting him and his partner, Mr Peter Blackmore, with the Two-Man Team Trophy that year, after they flogged the great John Summers and myself. If you have a good trivia question for me to publish, or an interesting subject you would like discussed in this column, please forward it to me at the above address.

PS Watch out for a couple of extra two-day Skeet Shoots that Frankston-Australian Gun Club has added to the calendar this year. One is on the Queens Birthday weekend this month, and the other is on July 24th & 25th.

## WANGARATTA Clay Target Club

Wangaratta Clay Target Club members celebrated the Club's 80th Anniversary on Saturday 17th April.

A total of 84 shooters, some travelling from Albury, Warren, Dubbo, Tambo Valley, Kyneton, Mansfield, Echuca & Melbourne to participate, in addition to many locals. Oldest competitor was 79 year old, Wal Kennedy from Howlong, who also decorated the tables with the most magnificent range of roses you could ever see, which were from his and Shirley's own garden.

For some, it was a time to reminisce the days of live bird shooting and the changes to shooting disciplines and attitudes. A couple of those who had plenty of stories to tell of their times in the "good old days" were Ian Reith, a continuous member of the Club for 52 years, Ken Maurey a member for 48 years, together with Dave Williams from Brimin, Kevin Boyd from Albury and Royce Schmidt from Howlong all had tales to tell about shooting at Wangaratta during the late 50's through to the 70's. Betty Law's comprehensive collection of photos and newspaper clippings depicting the Club's activities and achievements since the early 70's, was also a topic of discussion and renewed many a memory of these times.

As a souvenir, each competitor and all Life Members were given a specially struck memento for the occasion - a wine glass with the Club Badge embossed in gold.

Members of the Ladies Auxiliary who prepared and served afternoon teas from the "old tin shed" had a great laugh at some of their experiences, as in those days there was no hot water, mouse proof cupboards, fridge or heating and cooling. Flo Suter, Jean Williams, Gladys Bussell, Marg Maurey and Betty Law were in awe when they compared the difference to present day kitchen being used by members - Margot Robinson, Jean Riches, Sue Ford, together with Jenny Jackel and many other helpers.

Upon completion of competition past and present members attended a barbecue. Fifteen Life Members attended (we only have 17 living Life members), which was very pleasing as some had not been to the Club for a number of years. Two of those were Ern and Jean Williams. For many years Ern organised the Saturday afternoon practices, was trap mechanic and coached the juniors, while Jean was only too happy to offer assistance where ever needed, whether it be in the kitchen, or coming to the rescue of the Presidents.

Towards the end of the evening Ian Reith, the longest serving Club Member cut a huge anniversary cake which was enjoyed with a cuppa to end a long, but most enjoyable day, capped off with many laughs and lots of good fun.

# Olympic Trap Easter Classic

During the Easter Weekend of Saturday the 3rd and Sunday the 4th of April, Melbourne Gun Club ran A 200 Target Olympic Trap event.

The trophies for the event were magnificent, Overall winner received a Hy-Skor 1.5 meter Gun Safe as well as a Bushmaster Clay Target Trap both worth almost \$400 each. Each grade winner also received a Hy-Skor 1.5 meter Gun Safe all of which were kindly donated by Brett Dunstan. With 750 cartridges for second in each grade and another 250 for third as well as 750 for the Lady and Junior winner, a large crowd was hoped for, no one could complain about the prizes.

Finalists: left to right, Jeff Tonna, Nidal Asmar, Tony Di Natale, Craig Henwood, Brett Dunstan (sponsor), John Gilopidis and Daniel Di Pietro.

Unfortunately the number of competitors was disappointing, however competition was fierce and a combination of good targets and great weather saw some good scores posted over the two days.

Shooting got under way on Saturday morning in perfect conditions, brilliant sunshine and not a breath of wind so all was ready for some good scores to be shot.

Round one saw only one 25 from Nidal Asmar in the very last squad with John Gilopidis, Tony Di Natale and Craig Henwood all shooting 24's.

After two rounds, Nidal Asmar had set the pace shooting another 25 giving him the first 50 straight and a 3 target lead over John Gilopidis who was on 47, 25's were also recorded by our sponsor Brett Dunstan and Jeff Tonna who was trying hard to make up for the 17 he posted in the first round.

Rounds three and four saw Brett Dunstan shoot two more 25's giving him the last 75 straight and equal lead with Nidal Asmar who shot a 21 and a 25 in his last round to be on 96, with John Gilopidis and Tony Di Natale not too far away. 25's were also recorded in the last two rounds by Tony Karakizos and Jeff Tonna still regretting his opening round.

A free BBQ was provided by the Club on completion of competition on Saturday, with plenty of meat, salads and deserts provided and the bar open for refreshments, a good time was held by all who stayed back with an added entertainment of watching one of the model airplanes from next door crash onto the grounds narrowly missing Jack Henwood (and no it was not shot).

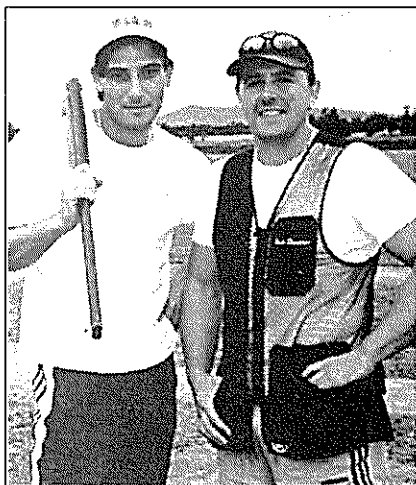

Overall champion: Nidal Asmar accepts his Hy-Skor gun safe and Bushmaster Clay Target Trap from Brett Dunstan.

Winners are grinners: left to right, Robbie Marino (B grade), Nidal Asmar (overall), John Gilopidis (A grade) Ian Cook (C grade) Brett Dunstan (AA grade).

Sunday and the weather again was perfect, but not so the scores both Nidal and Brett shot 22 in their first round, Daniel Di Pietro and Tony Di Natale top scored the round with 24's.

The next round saw Nidal shooting a very disappointing 20 with John Gilopidis taking full advantage in this by posting a 24 giving him the equal lead with Brett Dunstan, ensuring a close battle would occur for the last 50 targets.

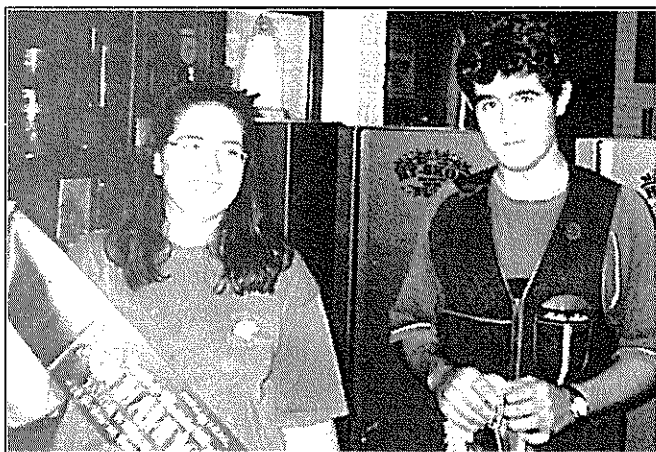

**Brett Dunstan congratulates overall winner Nidal Asmar.**

The final 50 targets saw John shoot the first 25 of the day and a 22 to give him top score into the final, Nidal shot two 24's leaving him one behind, and Tony Di Natale who was shooting very consistent was in equal 3rd along with Brett who decided not to shoot in the final after ending on a 185.

On completion of the final shot with flash targets Nidal came out on top with a 24 winning the Hy-Skor Gun Safe and Bushmaster Clay Target Trap.

In the grades Brett Dunstan took AA with a score of 185, A Grade was won by John Gilopidis with a 187 from Tony Di Natale on 185 and Daniel Di Pietro on 181, B Grade was taken out by Robbie Marino with 167 (not bad for a skeet shooter) with Juancruz Sarringarte from Spain in second 163 and Junior Steve Calleja third with 161. C Grade won by a newcomer to Trench Ian Cook shooting in only his second Trench event with a score of 133 with Wessam Asmar second on 126 and Kevin Wilde taking third with 122.

**Lady and Junior Winners: Nessa Jenkins and Robbie Marino.**

Robbie Marino was also the top Junior and Nessa Jenkins won the Ladies with 162.

All in all it was a good shoot and ran very smoothly and enjoyed by all who turned up, it is hoped that we will run another event similar to this one next year at a more appropriate date. A huge thank you goes to Brett Dunstan for donating the Hy-Skor gun safes and the Bushmaster Clay Target Trap and to Raytrade Distributors for their donation of cartridges. Peter Wray and Craig Henwood for organising the shoot, John Mollica for running the bar, Moira Henwood, Chris Kerr and Jean Wray for the Barbecue on Saturday night and also to Senserrick Produce for supplying vegetables which everyone enjoyed.

More thankyou's go out to the following people for their tremendous help in installing the new traps into the number one layout, Fred McConell, Tony Rowe and team, Bill Atwood, Barry Webley, George Betts, Allan Spence, Bill Perks, Rob Carter, Peter Wray, Craig Henwood, John Mollica, Bob Buchan, Jack Henwood and Alan Biggs and committee of the Melbourne Gun Club.

*Dear Editor*

I Would like to congratulate everybody concerned with the staging of the 1999 National Championships at Roma, Queensland.

I have been attending the Nationals on and off since 1978 and, in my opinion, the 1999 Nationals were the best of all.

The Office, the Shoot Marshall, the Ground Staff, the Catering, the Practice traps, were all run with efficiency and courtesy.

The shooting layouts, the car park and the Club house are a credit to Roma Gun Club and its management. It was a pleasure for my wife and myself to have been there.

*Yours sincerely  
Peter Smith  
Dorrigo Gun Club*

My Husband Brian and I recently attended the nationals at Roma, Qld, and would like to share with you one of our experiences.

Brian was originally only going to enter the Single Barrel and point Score Events, but unfortunately his gun played up, with him having 7 miss-fires in the Single barrel.

Unfortunately the Gunsmith had to go home, so he couldn't get it fixed for the Point Score Event. Everyone we spoke to on the grounds tried to help in one way or another, but to no avail, so we were ready to pack up and go home - no gun, no shooting.

Then Cliff Reid a past president at Roma Gun Club came to the rescue and offered Brian the use of his gun for Point Score. We were very grateful to everyone who had tried to help, but Cliff's most generous offer prompted us to stay for the rest of the program.

Even though Brian did not have a win, he shot the best Double Rise he ever has, and had a ball doing it!

Once again thanks to Cliff, for the use of your gun and to everyone else who tried to help.

Also, congratulations to Roma Gun Club for such a good shoot, good food, good entertainment and a good time had by all.

*Mrs Yvonne Goddard  
Gympie Gun Club*

*The Secretary  
Roma Clay Target Club  
Dear Sir,*

I feel that I must congratulate and thank Roma Gun Club and the Queensland State Association for their recent hospitality during the '99 Nationals. My family and I have attended many Nationals over the years but we have never enjoyed ourselves as much as we did this year at Roma.

The planning and organisation that Robert Nugent and his professional team put into these Nationals could only be described as magnificent. From the outstanding ground layout to the different coloured uniforms for the organisers, the abundant top quality meals and the non-stop entertainment added to the success of this shoot.

By allowing families to camp on the grounds, this reduced their expenses considerably and I am sure it permitted many "not so well off" shooters to attend and compete in this prestigious event. Families with smaller children were well catered for with the pres-

ence of a "jumping castle" which proved to be very popular with the young children.

Most other Nationals I have attended usually finish after the last shot for the day and presentations are over. At Roma, no one wanted to go home at night with the exquisite evening meals being served at the Gun Club, the fabulous dining area, the very reasonable prices, followed by superb entertainment at night with some of Australia's best entertainers.

On several occasions I arrived at the club at 8.30am and was still there at 11pm, enjoying every minute.

At the opening of the Nationals, Robert Nugent welcomed everyone and hoped for a happy Nationals. I am sure that he got his wish, as I did not hear one derogatory remark during the shoot.

Congratulations to Roma on a job well done and I hope I get the chance to attend another Nationals in Roma.

*Yours sincerely  
Tom Turner, President  
Cessnock Clay Target Club Inc.*

## Sydney International Shooting Centre

The information contained in this statement is my own personal assessment following a detailed tour of the facility yesterday. It is not an authorised statement of facts and does not represent the view of any organisation.

I'd like to start by saying that I wish I had 5 bucks for every time that I heard people - frequently people who held responsible positions within the sport - state with utter conviction that the Sydney Shooting Complex would be "temporary", "they'll knock it down straight after the Games, you'll see". To an outsider like me, this absolutely baseless pessimism appeared as nothing more than an excuse for the speaker to sit on his or her thumb and do nothing about the greatest opportunity ever presented to the shooting sport anywhere in the world. Which is exactly what many have done - and if you are such, dear reader, then I hope you're blushing. (Or perhaps you are one of those who has changed tune to the nobody will ever use it, it's a huge white elephant etc., etc., boogie.)

When I toured SICI yesterday, it was in the company of shooting megastar Rajmond Debevec and Miroslav Sipek, himself a former Competition Master for an Olympic Games shooting Complex. Both came to the same conclusion - echoed by the ISSF itself in the ISSF News 1/99: that this is certain to become the best shooting sports complex in the world, and by some considerable margin.

In the first place, the venue itself is set in bushland, a setting as nice as any in the world and uniquely Australian, with magnificent gum trees around the approaches. The landscaping means that the complex is all but hidden from view as one approaches. Access is easy and will become even easier when the Western distributor road is completed, close to the site. With the completion of the Federal Highway, SISC will be no more than 150 minutes from the centre of Canberra as well as being accessible from the South and North Gates without need to touch Sydney.

The building itself is absolutely massive, and for the first time in history, every one of the rifle and pistol events will be housed under one roof. Extensive use of native wood paneling throughout will ensure that the interior is both attractive, safe and that sound is absorbed effectively. The range will be 100% electronic, with (in Olympic Mode) capacity for 4500 spectators to watch the clay target finals; 2,500 spectators to watch the rifle, pistol and RT finals; and a further space where at least 1,000 people will be able to watch video monitors of all the action on a giant video wall. In all the venue is planned a 10,000 spectator venue, with single priced tickets at \$50 per day and unreserved seating making it not only one of the cheapest Olympic events to see qualification, finals and medals presentation in one or more events, in one day and for the price of a single \$50 ticket, anywhere in the Games.

From a shooting point of view, the venue will offer 60 firing points at 10, 25 and 50 meters rifle and pistol using Suis Ascor systems, and 3 multifunction layouts of Matarelli traps. All results will be instantly processed into rankings by computer, which means that

shot-by-shot information will be available to spectators. From the Olympic Games point of view, the venue offer complete segregation of spectators from athletes and officials, with multilevel Access and spaces set aside from range control, press and 'quiet rooms' for athletes to prepare themselves. Best of all is the idea of the separate Finals range where all 10,25 and 50 metre finals will be conducted. This huge arena is only half built today, but already one can feel the electric atmosphere that will soon accompany the entrance of the finalists. Although only designated for 10 firing points in Olympic Mode, afterwards this range will be a stand alone unit offering 10 firing positions at each 10,20 and 50 metres - a perfect training pod which can operate for elite training and competition in future without any impact on usage of the main ranges, which could be in use for a variety of Olympic and non-Olympic disciplines.

Alongside the three Olympic trap and Skeet Layouts, the beautifully kept DTL and American Skeet Layouts of Cecil Park Gun Club are untouched and inviting, begging more shooters to cross the seemingly impassable divide between Olympic and domestic disciplines.

The thought that has gone into the design of the complex stretches from full consideration of the needs of both able-bodied and disabled visitors/users, the needs of athletes, officials and post-Olympic users in terms of storage, meeting and recreational spaces, to awareness of environmental issues such as a massive rainwater harvest tank for irrigating the range areas, and the preservation of endangered native flora in the surrounding bushland.

Even though I have seen the plans through out the evolution of SISC, I found my first impression awesome. Like it or not, this is going to become the Wimbledon of target shooting not just for Australia, not just for Oceania, but for the World. Anyone who is half serious about the sport is going to come both to watch and to participate here. The only sad thing is, that it took an outside organisation to give this to us because we didn't have the vision and the resources to create it for ourselves.

My admiration and respect go out to everyone who has had anything to do with this project. Of course it is not yet completed, although the timescale is for the target equipment installation to begin in just three months; and of course it will cost money to use. But this is the Sydney Opera House of shooting ranges and people will come by the busload - if not us, then a new generation - if not to use, then simply to watch.

The first major event which will be staged at SISC will be the Oceania Championships in November 1999, the second will be the World Cup in March 2000. Shooters of Australia, whether you aspire to be in the Australian team or not - be there or be square.

# FLYING FOX CARNIVAL - 1999

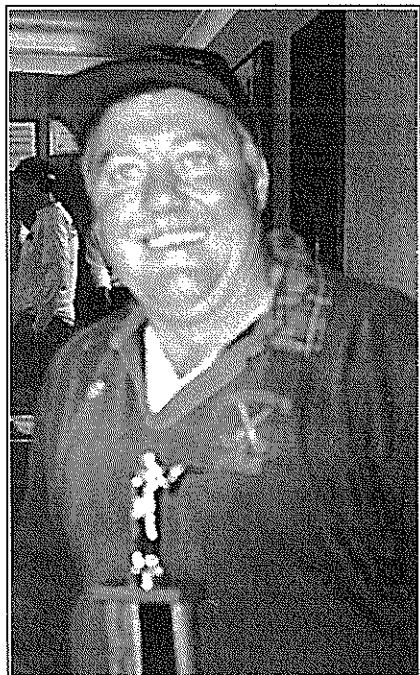

*April 24 & 25*

Overcast & windy conditions greeted the 44 shooters at midday on Saturday, for the Club's third Flying Fox Carnival. Whilst the weather was less than ideal, a good atmosphere still existed with the travelling shooters enjoying the renowned Taree-Wingham hospitality and friendship.

Event 1, the Shelly Beach Store ANZAC Handicap of 25 targets, saw the programme get away on time with our

Club Secretary, Daryl Pasfield walking away the victor, with the score of 24/25, from Dean Humphreys - Newcastle 28/30, who defeated Club President Peter Ryan 27/30 in a shoot off for second place, with Terry Duck - Port Macquarie, winning a further shoot off for fourth, 26/29.

Event 2, and down to business again for the Northern Zone Double Barrel Continental Championship of 50 Targets. Lionel Finlay of Singleton, out shot the higher graded and more fancied competitors to win the sash and 1 1/2 cases of shells

*Michael Blenman, winner of Flying Fox Fifty Championship and overall High Gun.*

from local Dick Ahmling in a shoot off. Lionels score of 57/58 took overall for the title, with Bill Jones winning AA grade 50/52, Dick A Grade 56/58, Peter Ryan B Grade 47/50 and Grahme Dowling - NSW Gun Club, C Grade 41/50.

The Harrington Holiday Park - State Night Double Rise Championship followed a great evening meal prepared by Lyn, Jan, Diane, Kerry, Robyn, Liona & Debbie with the donations of food from our members very much appreciated. A special mention for Ron Vale, whose contribution is always beyond the call of duty. Thanks Ron.

A seven day spa villa family holiday, kindly sponsored by Gary Brown, the owner of the Harrington Holiday Park, was the great prize the 36 night competitors were anxious to win. However, looking at the score board after the event, one may have easily thought the Club had failed to turn the lights on for the shooters.

However a great effort by Glen Durre of Gympie, saw his efforts rewarded with the \$700 holiday package and the red sash with the score of 37/50. Locals Brad Hooper and his mentor Bill Jones shot off for first and second in AA grade, with Brad taking the grade 41/60. Ernie Balogh -

Richmond River, won A grade 33/50, local favorite Ken McWhirter B Grade 33/50 and Grahme Dowling C Grade 22/50.

*Glen Durre — winner Harrington Holiday Park State night double rise championship with Park owner and sponsor Gary Brown.*

*Daryl Pasfield — winner of the Anzac Handicap, with club president Peter Ryan.*

*Lionel Finlay — winner of Northern Zone double barrel continental championship.*

Sunday morning, and again windy and overcast conditions confronted the competitors on day 2, with 42 shooters ready to contest the 3 Championships for the day.

Event 4, the Gemini Traps 25 target Double barrel Championship, saw Bill Jones shoot the only possible to win overall and first in AA grade and take the Gemini sash and the beautiful framed print. Bill Neill - Kempsey won A Grade 26/27, Tania Marshall - Guyra B Grade 24/25 and hard working local David Berry, C grade 22/25.

The Olimpyc Targets Single Barrel Championship followed with Brad Hooper taking overall and first in AA Grade and the hamper of top shelf booze, to put smiles on the faces of his drinking partners, with a fine score of 24/25. Jeff Nash - Grafton, won the A Grade 22/25, Arthur Vine - Tamworth 23/26 B grade & C Grade to that Sydney bloke again, Grahme Dowling 18/25.

The last event for the carnival was the Flying Fox Fifty Championship, 25 Targets D/B and 25 Targets P/S. Mick Blenman of Guyra showed his ability in the testing conditions to win the special flying fox trophy and the cash, with a great score of 99/100, from Brad Hooper second AA grade 96/100, Jeff Nash A grade 97/108, Terry Duck B Grade 97/100 and that Sydney Bloke again, Grahme Dowling C Grade 82/100.

At the end of Day 2, and with his excellent score in the Flying Fox 50, Mick Blenman won the Overall High Gun title 245/275, to pip Bill Jones at the post 244/275, who subsequently won the AA Grade High Gun. A Grade was won by Jeff Nash 229/275, B grade - Peter Ryan 230/275, C Grade Grahme Dowling 195/275, Junior Andrew Miller

Also a big thankyou to those helping members and our special ladies in the kitchen, who made our Clubs Annual Carnival such a memorable one.

- Is 20/20 good enough?

- So you have had your eyes checked and have 20/20 vision, or can see well!

Just How Well?

- And what does 20/20 really mean?

20/20 vision means that binocularly (using 2 eyes) you can read a specific sized line of letters at a distance of 6m or 20 feet.

BUT:

1. Does each eye see that line of letters equally?

2. What is your vision at 2 feet, 4 feet, 40 feet or the distance of the target?

3. Are your eyes healthy? Compare this to going to the dentist every 6 months to find and prevent problems. You may not have known you had holes in your teeth. Well, you may not know you have a functional or pathological problem with your eyes - you may not show signs of these problems - YET!!

4. What about eye movements and refocusing to follow the flight of the target. Are the eye movements accurate, are they fast, do both eyes co-ordinate when doing this. This considers

the muscles around the outside of the eyes for eye movements and the muscles inside the eyes to refocus at different distances.

5. The balance between these two sets of muscles gives depth perception or stereopsis. This is the ability to see in 3 dimensions and not 2. This is very important to sight the target and decide its exact location in space.

6. Is your vision sharp in dull conditions or in very bright or glarey conditions? This is a measure of the contrast sensitivity.

7. What happens to your vision when you move your head and arms in the direction of the target? Does it blur or take a long time to recognise the position of the target?

8. What happens to the vision when you are thinking and concentrating at the same time as trying to focus on the target?

9. What about colour vision? Is this normal, does it affect your ability to detect fluorescent targets against different backgrounds.

10. Does the brain accurately coordinate what the eyes see with the hands and body movement.

As you can see from all of the questions, there is a lot more to seeing than 20/20, and there is a lot that a sports optometrist may be able to answer for you!

Maybe you should have your eyes and visual system thoroughly examined, your performance may well be enhanced with a sharper prescription to make you better than 20/20 or with visual training.

Signs of Visual Difficulties

Sporting performances are effected by individuals visual functional skills. Some of the signs of difficulties with sporting performance include:

- Inconsistent performance.
- Performance not up to potential.
- Performance deterioration with time.
- Performance deterioration with increased cognitive demand or lots of thinking and concentration.

Visual signs which cause a poor performance include:

- Difficulty with distance or near vision, especially when dynamic (or moving), when changing the position of focus from distance to near, or from one position to another at the same distance.
- Difficulty viewing a full visual field.
- Difficulty with changing lighting conditions with glare, or decreased contrast (Squinting).
- Difficulty with wind, rain, dust, sunglare and other environmental conditions.
- Difficulty judging the distance of the target from yourself.
- Difficulty with timing between the release of the target and pulling the trigger.
- Difficulty distinguishing the target with different coloured backgrounds.
- Difficulty maintaining body balance, clumsy physical movement.
- Poor visual concentration at a particular task. (takes the eyes off the target)
- Double vision while aiming, seeing two barrels, a tail on the target or the appearance of target shifting position.

# A reputation built by hand.

The Kemen philosophy is to produce only 300 - 400 shotguns each year, handmade to the very highest standards, for the most committed competition and field shooters.

There is no such thing as a 'standard' gun at Kemen. All our guns are hand built to the owners' individual specifications in the tradition of the great English gun making houses while incorporating the latest technology.

Although we have only been exporting for a short time, we have already had success that took other makers many years to achieve.

This is reflected in Kemen being the gun of choice for many high profile international owners who know and can afford the best. This list includes The Sultan of Brunei, The Emir of Dubai, the Royal Family of Spain and some of the world's best competition shooters including World Champions George Digweed and Richard Faulds and Australians Adam Vella and Arthur Turner.
