# CARNIVAL AT PORT MACQUARIE CLAY TARGET CLUB

Located north coast NSW

The Port Macquarie Clay Target Club was impressed with the roll up of 43 shooters for the first day of their 3rd two day carnival. Sixteen clubs were represented from Victoria, Queensland, ACT, Hunter Valley, Northern Tablelands and the North Coast. The only problem was that rains fell all-night and continued into the morning driven by strong southwest winds.

The first event was the Hastings 100 Double Barrel Championship and the first of the eight squads were sent out to shoot their first 50 targets but not long after this there was a halt to the proceedings and the day was finally cancelled. The rain soaked all the electric's in the trap houses and the safety of competitors could have been put at risk.

Sunday saw the sun break through with the wind still blowing so the first event was forgotten. With forty shooters event two the SJ and CM Wallis Plumbers 25 Target Points Score Championship kicked the day off with Brett McKinnon 80/81 taking first place overall after a

shoot off with Bill Jones first in AA grade 79/81 from Barry Kable 91/96. A grade was Dick Piper 73/75 from Bob Alston 72/75, in B grade club president Tony Cramp held on with 71/78 from Steve Hooper 70/78 and C grade to Junior shooter Tom Clarke 54/75 from John Papadatos 49/75.

Event two The Orchid Pot Company 25 Target Single Barrel Championship once again had B. McKinnon 25/26 holding on to first overall after a shoot off with AA grade winner Kim Nealon 24/26 from Kevin Thompson 23/25. A grade went to Paul Pritchard 24/27 from Gary Joass 31/35, B grade was Keith Moses 22/25 from S.Hooper 19/26 and C grade J. Papadatos 19/28 with T. Clarke second 18/28.

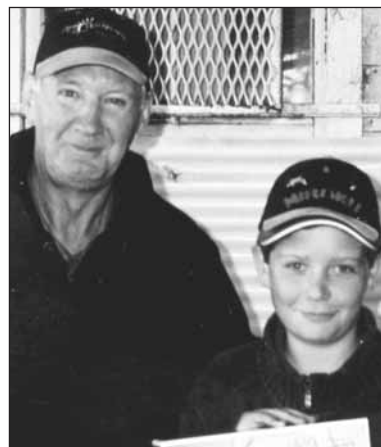

The third event was the H.F. Hand Constructors Handicap Championship and with the only possible shot all day first place went to Tony Cramp 25/25. Following a shoot off B. McKinnon was second 25/26, third to Brad Roe 24/26, fourth Rex Lehman 23/25 and following a five way shoot off fifth place went to Nick Xenos 29/33.

The fourth and last event was the Port Batteries 15 Pair Double Rise Championship with Nick Xenos first overall with 27/30 closely followed by AA grade winner Lionel Finlay 26/30 from B. McKinnon 25/30. In A grade Jeff Lowndes took the prize 21/30 from Robert Clarke 20/30, B grade was Jennifer Smith our only lady shooter 23/30 with Andrew McWhirter holding to second 19/34 and C grade T. Clarke took first with 13/30 from J. Papadatos 12/30.

Following the last event all the scores were added to work out the High Gun winners and it was not hard to pick the Overall with Port Macquarie member Brett McKinnon having a great day finishing on 147/155 in what could only be called very ordinary conditions. Nick Xenos 149/167 from New South Wales Club took AA grade after a shoot off with Lionel Finlay. Kempsey member Paul Pritchard 131/155 held on to A grade, Tony Cramp from Port Macquarie 127/155 was the B grade winner and our only Junior shooter Tom Clarke from Cessnock Club won the C grade 103/155.

The High Gun prizes were sponsored by Winchester Olin Australia and NSW Business Sales. As with every shoot there are always thank you's and with ours it is no different. Firstly to the sponsors of the four events and the High Gun's with these the shoot would not get off the ground. To Megan and Alana in the office and to all the committee and volunteers a job well done. Finally to the travelling shooters we hope to see you all in August '07.

"Wangaratta's Daryl Hunt overcame very poor shooting conditions to emerge the Golden Gun Continental Champion after defeating Alan Cole of Numurkah fame on a score of 39/40.

The Golden Gun Championship is an annual event conducted at the Euroa Clay Target Club and is supported by the hard working club secretary Rob "Stackie" Stackhouse. Also on the program was a trophy handicap and just 2 shooters qualified for the final on 19/20 (Conditions were really poor) and local stalwart, Laurie Fitzpatrick only had to break 3 targets to overcome Leigh Fitzgerald for a well deserved win.

# Popular August Shoot at Echuca

Located north central Victoria on the Murray River

Two rounds of Olympic Trap mixed with two rounds of standard trap events were enough to entice nine squads of competitors to Echuca Clay Target Club for their August shoot. Probably the sunny, calm and warmer weather was a factor for the large number of shooters attending, but it is obvious that the much more difficult international discipline of Olympic Trap has become more popular among all shooters over recent years. Ten or more years ago half of the shooters at a shoot would nominate for this event, now it actually attracts the shooters to attend, and everyone nominates. Most likely the success of our Australian, Olympic Trap shooters have had an influence over the popularity of this discipline.

OA & AA Olympic Trap Terry Walls

With only one Olympic Trap layout available, and two rounds to get through, the office staff was under pressure right from the start. Fortunately the early start was adhered to, getting under way shortly after 11.00am and keeping pressure on the competitors to back up and be ready. The four events were completed, and finalised, ready for presentations by 4.30pm. The fact that the final Olympic Trap event was a Graded Cash Divide, needing no shoot off, certainly helped in the time factor.

Terry Walls, a Yarra-wonga member was the first of the Overall winners, taking out event 1, 25 Target

Olympic Trap Championship, after a one target shoot off giving him the Overall Sash and AA 1st trophy on a 24/26 score. A local member recently returned from living in Queensland, Anthony Bradshaw (Tony), who after a lengthy shoot off, dispensed all others to take out the Overall Sash and AA 1st trophy in event 2 the 20 Target Points Score Championship, with a 153/153 score. Well-shot Tony!

Event 3, the 20 Target Double Barrel Championship shot off a back mark of 18 metres, saw another local member see out all others in a shoot off, Craig Fitzpatrick managed to hit 39 targets out of 39 to win the Overall Sash, and AA grade 1st trophy. Yes, good shooting Craig!

The full results for the competition are as follows. Event 1, 25 tgt Trench, OA & AA 1st T Walls 24/26, AA 2nd Jamie Elliott 22/25, A 1st Steve Atkins 23/25, A 2nd C Fitzgerald 22/25, B 1st Rob Viney 23/26, B 2nd Ron Traill 22/25, C 1st Geoff Walls 23/26, C 2nd Michael Harbor 22/25.

Finally the shooters that collected money in the last event, a 25 Target Graded Cash Divide Trench competition were AA grade I Holschier 20/25, A, M Hannigan 20/25, A, P Calandro 19/25, B, R Viney 22/25, B, A Everitt 20/25, C, W Harbor 19/25, C, Ron Cugley 19/25.

Competition and presentations were all concluded by 5.00pm, giving all travellers ample time to get home in daylight, after an excellent and very enjoyable day of competition trap shooting. The Echuca Clay Target Club thanked all who attended and all who helped on the day.

approx 160 kms from Perth

Glenn O'Brien won the coveted High Gun sash, badge and trophy at the Narrogin Clay Target Club's two-day carnival held in July. O'Brien shot well over the two-days and survived a marathon shoot-off to win the final event The Narrogin Cup.

Trevor Morris (left) did the best of the shooters on Saturday, winning two out of the three overall sashes up for grabs on the day. He is pictured here being congratulated on his wins by NCTC president Dane Sieber.

At the end of the first 25 targets, double barrel, some 25 shooters had recorded the possible score. The resulting shoot-off for overall winner and the minor grade placings lasted so long that the lights had to be turned on to complete the event, as dusk fell. O'Brien ended up win ning with a score of 87/87.

Shoot-offs were needed to decide all six of the carnival's events, as ideal weather conditions helped many shooters score well. The carnival is well supported by shooters from around WA, with competitors travelling from as far away as Geraldton, Kalgoorlie, Esperance, Augusta, Albany, Perth and all points in between to shoot. Saturday's events attracted 95 shooters, while 106 turned out to compete on Sunday.

Trevor Morris, a shooter from the W.A. Gun Club did the best in Saturday's events, winning two out of the three overall sashes. Geoff

Owen Playle (centre) was one of Narrogin's successful club members, winning prizes in five out the six events. He is pictured here with Darrell (left) and Helen Wiese after winning B Grade in the Yarranabee sponsored 25 targets double barrel event

Geoff Faulkes won the Summit event

Dane Sieber, winner of the overall High Gun sash, badge and trophy and the coveted Narrogin Cup

Faulkes, a shooter from Albany took out the third event. On Sunday, Terry Hearn won event four, Brett Kuser event five and O'Brien event six. Of Narrogin's own club members, Owen Playle shot well, placing in five out of the six events and advancing from C Grade to B Grade. A total of 10 Narrogin club members took home prizes over the weekend.

At the conclusion of the carnival Narrogin club president, Dane Sieber thanked all the shooters and the club's sponsors for their support. "No carnival would be successful with the generous support of our sponsors and on behalf of the club I thank them for all their support," he said. "To the shooters, I congratulate you on some fantastic shooting and thank you for supporting our carnival". "Next year is the 50th anniversary of the club and I would like to invite you all back to help us celebrate this special milestone".

The World Championships this year was programmed with the Women competing on separate days from the men and with official training days added in meant the whole tournament was extraordinarily long. Consequently the departures for the different disciplines were staggered to avoid lengthy stays before and after competition. The Juniors however departed as a group from Sydney with Gleniss to meet up in Singapore with the senior trap men. From day one when Brendan's gun went missing between Canberra and Sydney and the Juniors barely making their flight due to the drama of chasing up the gun, you would not have

thought it could have started any worse. Little did we know what lay ahead.

After meeting up in Singapore the two groups finally landed in Zagreb some 32 hours later via Amsterdam. One gun missing in Sydney was nothing compared to nine guns lost in Zagreb. Two days later, numerous trips to the airport phone calls back to Australia, Singapore and Amsterdam the official trap training day arrived and we still had no guns for the Juniors or Russell. We

borrowed guns from some locals and other competitors but it was very much a case of trying to make do with adjustments made as much as could be. Finally mid afternoon on the official training day Gleniss and Nick Sullivan received the call that the guns had turned up. We managed only one round with our own guns but the important thing was they had arrived in time for the competition. The issue of travelling overseas with firearms is becoming more difficult and at one stage rumour has it that there were 300

firearms (pistol, rifle and shotgun) missing on one particular day of this combined World Championships.

Our hotel was the Westin, a highly rated establishment that was conveniently located a short walk from the main city square. It was well appointed with a gym and pool for Nick Sanders our Sports Scientist to conduct his recovery sessions every day. The only problem was that for the first 4 days the air-conditioning was not working making it difficult with the 30-deg temperatures.

The shooting complex consisted of five superimposed trap and skeet ranges and a background that was bare dirt out to about 20m then green grass to 100m where a corn field was planted. For most of the tournament the weather was great with temperatures in the low 30's, bright sunshine and very little wind.

Russell and Adam shot brilliantly on the first day to post 74/75 and only the 22's first up on day two cost them both a possible spot in the final. They both actually finished in equal 8th place but were counted back to 13th and 14th respectively. Such is the closeness of the competition at this level. Russell's performance is all the more meritorious considering he had no practice at all in Zagreb before the event as his guns were lost until the day of competition. Michael's 21 in the first round made his task all the more difficult but he is a strong competitor and will bounce back better than ever.

It was a good effort from Daniel in his first major competition. He got stronger as the event progressed and wasn't overawed by the occasion. Brendan started very well but failed to keep the momentum going and capitalise on such a good start. Unfortunately Matt never found his rhythm and timing although he showed glimpses of his real ability.

Unfortunately after a great start from Michelle she faded out of contention. Considering this was her first World Championships she showed signs of having what it takes and a bright future is predicted for her at this level. After two rounds Stacy was well placed to secure a berth in the final but a substandard last round cost her dearly. Suzy struggled throughout the event and never came close to performing at the level we all know she is capable of.

Congratulations to the evergreen Susan Nattrass who at the tender age of fifty something showed her younger more fancied counterparts that age is no barrier to success.

# Premier Teams Event - Round Three

## Wonthaggi - V.C.T.A. South East Zone

Ninety minutes south east of Melbourne, Vic.

One hundred and three shooters attended on a day with no wind. This is not a Type-O, there really was no wind, in fact it was a nice day, all day.

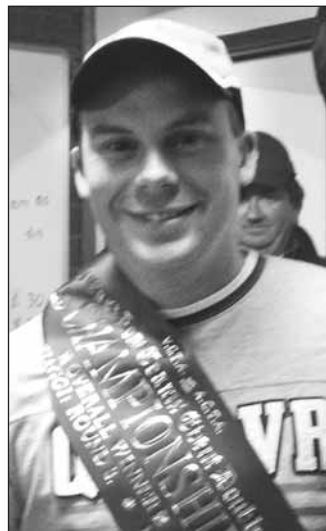

The Handicap was shot first with only two possibles Neil Rowley and Nathan McDonnell and after only a few targets that's the order in which they finished. Mike Hutchins had to go a lot further to collect third from the field of seventeen that shot one down. Back Marker was John Rowe and Junior Front Marker was Craig Bell.

At the half way mark of the team's section Werribee had the top spot covered with 117 from Morwell on 113 next best. In the Juniors Cerberus was 44 just in front of Wonthaggi on 42.

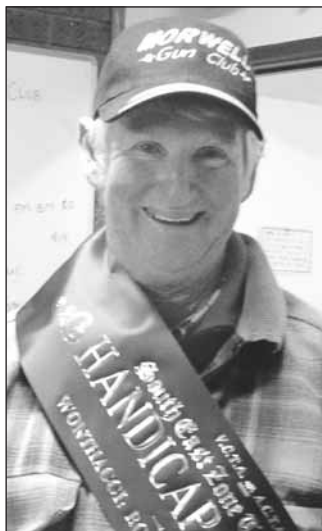

Event two was the Double Barrel and this was to show how good the conditions really were, with thirty-five

possibles and this took some time to sort out. But when the dust had settled and the sunset, Neil Rundle took the Overall.

Neil Rowley ("Who's not a good shot": a quote from the D/B O/A winner.) took the High Gun and Julie Rowley won the Ladies High Gun.

The Werribee Teams one point down in the D/B, increased their lead to eight targets over Morwell and Cerberus. The Junior teams section was taken out by Cerberus, who maintained their two target lead over the all girl Wonthaggi team.

A big day and a very well run shoot.

Special thanks go to Rod and Eslyn Johns who looked after the kitchen and also the trappers who trapped for the first time did a god job.

See you next year - 2007.

# ANNUAL MID-YEAR SHOOT AT DARNICK GUN CLUB

3hrs east of Broken Hill, NSW

The Darnick Gun Club held its annual Mid Year Shoot on Friday 30th June and Saturday 1st July. 54 Shooters braved the wet and muddy roads (most of which were closed) to come and compete in the 6 event program. Shooters travelled from clubs as far away as Orange, Junee, Yarrowonga, Hay, Nurmurkah, Werribee, Castlemaine, Camel Hill, Benalla, Mildura, Maryborough, Patchewollock, Pooncarie and Menindee.

Thirty-two shooters arrived on Friday afternoon to set up camp and compete in the 1st Event of the program which kicked off after a delicious BBQ Darnick Style! The 1st Event was the Gates Goats 25 Target Twilight Shoot Graded Cash Divide. No shooters were able to shoot the actual possible and only 5 shooters over all walked away with the cash. These were: AA W Storer 24/25, A G Viney 23/25, B J Plum and R Roughan 23/25 and B Taylor in C Grade with 23/25. Many of the shooters and visitors stayed on after the shoot swapping shooting stories whilst having a few "refreshments" around the fire.

Saturday morning saw everyone up and about nice and early, with a BBQ Brekkie and lots of coffee to get us all going before the day's events started.

The First event up for the day was the Griffin Pest Management 10 Target Eye Opener Cash Divide. 18 shooters shot the possible in this event taking away \$12 each in prize money.

Event 3 of the program, Star Point Groceries 15 Target Points Score, saw some great scores posted with shoot offs for 1st and 2nd in both AA and A Grades.

Event 4, Quality Wool 25 Target Double Barrel Championship also saw some great scores and shoot offs needed in all 4 Grades to determine winners!

The Landmark Shield Team Shoot was shot in conjunction with Event 5 20 Target Single Barrel Championship. The Team Shoot was won by Jack Johnson, B Blake, C Langridge, J Gemmill and D Dean with a score of 87/100. The single barrel event proved to be the toughest of the day and only needed shoot offs in 3 Grades for 2nd places.

Event 6 and last event for the weekend saw shooters competing for a Championship Sash in the Elders 15 Target Continental, with T Hicks (AA) N Watts (A) A Patten (B) and A Carmichael (C) taking home the sashes.

Kitchen Staff- (l-r) Leanne Johnson, Gerrie Carmichael, Jackie Johnson, Cheryl Johnson, Wenda Johnson and Phylis Carmichael

# Psychological Skills for Shooting

by Michael Kruger-Davis

## DO I REALLY NEED HELP FROM MY LEFT HAND?

(Author's note: this article is written from the right hand perspective; left handers reverse.)

One of the bonuses of writing these articles, has been the feedback from fellow shooters. Over the past couple of months I have had several phone calls and letters, following the article on freezing on the trigger. That subject seemed to generate the greatest discussion for some time. One shooter sent me a copy of the American Journal "Trap & Field" and copies of previous articles from that journal. As I read through the magazine, I came across an article by Phil Kiner called: "Does your right hand know what your left hand is doing." After a quick read of the article, I thought that was interesting and proceeded to forget about what I had read (or at least I thought I did).

Several weeks later I was asked to run a mental skills segment at a coach's accreditation clinic being run by the NSWCTA. During the clinic, I was able to go out onto the tracks and observe some shooters and the coaches in action. One of the participants decided to shoot in the hope that I could watch what was happening, and if possible, correct the problem. The problem that the shooter perceived was that as he swung the gun and pulled the trigger, the end of the barrel would 'jump or flick' to the right. This was a new gun and the shooter was worried that there was something wrong with the gun. I watched and watched for several shots and then noticed what he was talking about; as the gun was fired, it gave a little lurch. I watched some more and saw it happen again. Trying to think what might have caused this, I remembered the Phil Kiner article I had read some weeks before.

Kiner argues that the left (front or forend hand) is directly responsible for missed targets, mistaken perception of what is really happening, and misleading optical illusions that confuse us. Why is the front hand problematic? The answer, according to Kiner, has to do with total lock time. By this he means the time it takes from when your brain sends the command to your finger to pull the trigger until the trigger actually trips, together with the time it takes for the shot to leave the barrel after the trigger has been pulled.

What happens is that your brain has figured out that there is time to "correct" the shot after the command to pull the trigger has been sent. By this he means that subconsciously the shooter has figured out that a quick flip of the front hand and the barrel can be moved from the position it was in when the fire command was given, to somewhere else by the time the shot leaves the barrel.

The logic behind this behaviour is due to a mistaken belief that if the barrel is slung very quickly it will cause the shot string to spray like water from a hose. This myth has been busted by the use of frame-advancing high speed cameras. The shot appears to be contained as a very small clump when it leaves the barrel regardless of whether the barrels are moving or motionless. Once out of the barrel the shot starts spreading. Having the left hand give a quick push or pull of the barrels won't help spray the shot.

Geometry also causes the illusion that the shot can be sprayed. Geometry causes centimetres at the muzzle to be converted to metres at the target. Because this is an easily understood concept, it is logical to think that a small push will effect a greater change out at the target where it is needed.

Lock time creates an illusion because we cannot actually tell when the shot is leaving the barrel. As a result we do not actually know where the barrel was pointing when the command to pull the trigger was given. Here the left hand tries to help and pushes or pulls the gun to where we think it should be.

Finally, the left hand can get in the road because it causes us to hit the panic button. Anytime you do not see the target "normally"; such

as if you are not visually aware when you call pull and the target gets the jump on you. In this situation the target appears smaller and faster, so it is logical that you have to shoot fast or the target will be missed. This need to shoot fast is panic stations and all this does it destroy your natural timing and makes you jab at the target.

Whilst the subject matter of Kiner's article seemed logical and commonsensical, it wasn't until a visit to Kevin Wright, that I realised, that what I was reading was so important for shooting. I had gone to Ballarat to have Kevin "fit" my new gun to me. Whilst he did some minor adjustments to the stock, what he did was make a major adjustment to way I hold my gun. By moving my right hand down, I was able to now have greater control of the gun; in fact I was able to pick it up and mount it with one hand. What this does is put the control back to where it should be; with the right hand, which is in line with your dominant eye and the barrels. Holding the gun this way, means that the left hand didn't have to "help", because I could drive the gun properly.

This has big implications for coaches, especially Juniors, because if they are taught correctly the first time then the left hand may never have to do any more than what it should be doing: supporting the gun.

3. Eagles E AUS 64 + 2 (23 22 19)  
7 Skinner C AUS 62 + 1 (20 20 22)

What a great effort from Emma! Bronze in a shoot off with the girl from the USA. All of which was held up by a hailstorm that came out of the blue. One minute it was 32 deg and sunny the next it was pouring with rain and hailstones. One of the trap layouts went completely under water. Did this faze little Emma? Not one bit. Out she went for the shoot off (Single Barrel) like a seasoned campaigner and promptly came back with the bronze medal. Congratulations on a well deserved medal Em.

Catherine also performed well on her first major international event and considering she is only 16 we can look forward to bigger things from her in the future.

## Men's Double Trap

2. Hu B CHN 142 + 47 = 189

21. Turner T AUS 133 (46 41 46)  
31. Trembath C AUS 129 (42 40 47)

What a great final by the Russian Fokeev. A 50 anytime is a huge effort, but in the final of the World Championship to win the gold is exceptional. Russell shot two great rounds to only miss the final by two targets. The second round cost him but it certainly highlights the fact that he is still highly competitive and can hold his own at the elite level of the sport. Tom & Craig never really found their rhythm and timing that is so critical in double trap although they did put in some respectable rounds.

16. Signorotto B AUS 120 (43 35 42)  
24. White M AUS 109 (37 35 37)

Nik's was a fair effort to finish in seventh place after a poor start to be only three targets away from the shoot off for the bronze medal. Blair put in a couple of reasonable rounds while Michael unfortunately struggled through out the event.

## Men's Skeet

1. Ineshin A EST 123 + 25 = 148  
2. Shomin V RUS 122 + 25 = 147 + 8  
3. Brovold T NOR 122 + 25 = 147 + 7

32. Barton G AUS 119 (25 23 24 23 24)  
44. Barton C AUS 117 (21 24 24 24 24)

The standard of skeet under the new rules has certainly risen with 122 the entry score and only one target separating all six finalists. George started well with a 25 then struggled to maintain consistency while Clive started poorly then shot consistent 24's.

## Women's Skeet

1. Avetisyan E RUS 71 + 24 = 95  
2. Cainero C ITA 71 + 23 = 94 + 4  
3. Bartekova D SVK 71 + 23 = 94 + 3  
4. Spada K ITA 70 + 23 = 93 + 2  
5. Neal B USA 70 + 23 = 93 + 1  
6. Smotek C USA 72 + 20 = 92  
10. Rahman N AUS 69 (23 23 23)  
24. Mark L AUS 66 (22 22 22)  
26. Reeves C AUS 66 (20 25 21)

As with the men the women's standard in skeet has also risen. Natalia shot well for her 69 to only miss the shoot off for the final by one, Lauryn shot below her best to record three 22's while Cherie put in an encouraging round of 25.

In terms of results this World Championships was not up to the level of past events. Many countries have improved their standing in the ranking's so it is now up to us to rise to the challenge and regain our position as one of the top few ISSF nations in the world.

The Junior team was one of the best I have travelled with and their dedication, preparation and behaviour was first class. We trust the experience will stand them in good stead in the future for, as we all know the juniors of today are the teams of tomorrow.

Many thanks must go out to the people who assisted to overcome the many obstacles and dramas that faced this team. To Gleniss, Nick Sullivan, Nick Sanders, Darien and Valeriy, thank you all so much for your efforts to keep things under control and moving smoothly.

Traralgon hosted its first teams event since joining into the event in recent years.

1st H'cap Todd Malone

Winning Team Nepean

Under bright sunny conditions with ninety shooters and fifteen teams the action commenced on time over three lay outs, one of which was very new. The first event was the twenty five target Handicap and this produced seven possibles, Todd Malone was the eventual winner 51/51 from Leon Howell 50/51 and Burnie Stokes third

40/41. Back Marker was Wayne Parks 24/25 with Craig Bell the Junior Front Marker 25/29.

At the halfway point of the teams section Nepean had jumped to a clear lead with a 119/125. This was well in front of the pack.

The Double Barrel event produced sixteen possibles and in the end, the Overall went to Zone Vice President Lynne Curtis who

had let Tony Psalia back in, just near the end and with an unconvincing second barrel the win went to Lynne the second time Tony faulted.

Nepean's 120/125 in the D/B was enough to stay in front of second placed Werribee who came in with an almost clean second half but still fell short by five targets.

## Echuca Clay Target Club Fifth Sunday Shoot

Echuca Clay Target Club held a two-event day on Sunday the 30th of July, with a 75 target District Champion of Champions Championship, and a 50 target Graded Cash Divide Skeet event. A mild, clear, windless day was thrown in for good measure, the attraction was enough to bring 6 full squads of shooters to compete for a place on the winners list.

Being a fifth Sunday shoot, the committee were very pleased to see the program was good enough to attract 36 shooters, and that several were travellers from well outside the usual radius of attendance. Also the scores were excellent, for a mixed target event as is the Champion of Champions.

Local member Geoff Ervin demonstrated to all how its done, dropping only two points out of 125 to take out the Overall Win and A grade trophy. Geoff has been shooting very well of late and this weekend has moved to AA grade in DTL, and also moved up a grade in Skeet. Also shooting well and posting the highest score in the Skeet was visiting shooter Geoff Charleson with a 47/50 score which gave him first in A grade.

Full results for the shoot are as follows. 75 Target Champion of Champions, Overall & A, G Ervin 123/125, A 2nd Buddy Morris 122/125, AA 1st Steve Atkins

122/125, AA 2nd Rob Viney 118/125, B 1st Peter Sing 112/125, B 2nd not contested, C 1st Brent McMinn 118/125, C 2nd Ryan McMinn 114/125.

50 Target Skeet, A grade 1st Geoff Charleson 47/50, A 2nd Tony Bradshaw 41/50, B 1st John Pola 46/50, B 2nd Laurie Gee, Peter Sing, Howard Hawking, all on 45/50, C 1st Ian Phillips, Ron Traill, both on 45/50.

With a 125 targets to get through, the shoot ran very smoothly, resulting in the shoot and presentations being all over well before 5.00pm, pleasing all, especially those who had to travel any distance.

Dear Your Say

I refer to Mike Swale's response (July 2006) to Ron Russell's letter (April 2006) "lower grade shooters, paying the same nomination fee as AA grade shooters, are entitled to the same cash / trophy as the AA grade shooter. It's called equality."

If the shooter numbers in each grade were equal, he would be right. In reality, the numbers in each grade are not equal, certainly at the clubs and shoots that I attend. Here we have a serious imbalance, with 70 - 80% of the shooters being in A and AA grade. Last weekend, I went to a shoot of 100 targets, noms \$51, with only 27 shooters due to a clashing event. The shooter figures for this were:

Grade	Nos	%age	Average (over 6 Shoots)
AA	12	44.5	42
A	10	37	31
B	3	11	19
C	2	7.5	9

Please don't tell me that it is fair and equitable to pay equal prizes to each grade in this example. You have to agree that A and AA grade subsidise the other grades.

If we say that shooters are divided into grades in order to make the competition fairer, then it must follow that the prize money contributed by each grade should be shared by the shooters of that grade, who are deemed to be of equal standing.

With a prize pool at this event of \$550.80 (assuming no concessions for Veterans or Juniors), Mike Swale would have us pay \$137.70 to each grade, with \$82.62 for First and \$55.08 for Second, based on the usual 60 / 40 split.

If this prize pool was split on a Graded Cash Divide basis, this is how the figures work out:

Grade	Nos	Pool	First	Second
AA	12	244.80	147.00	98.00
A	10	204.00	122.00	82.00
B	3	61.20	61.00	Nil
C	2	55.80	56.00	Nil

So which is the fair way?

You get back what you put in.

The winner in AA has to work a bit harder than the C grader too!

This Graded Cash Divide method also avoids Ron Russell's arbitrary percentage division between the grades.

With a system of Graded Cash Divide, each grade competes for the prize pool contributed by that grade. What can be fairer than that!

Dear Your Say

Spent 39 years as a garbage collector. Well, not strictly speaking. I was really a walloper, jack, demon, pig, flatfoot; take your pick. Doesn't matter much as garbos and operational cops do basically the same thing. Heard a hell of a lot of distinctly non harmonious versions of events during my time. One thing constantly re enforced was there is always two sides to any story and on some occasions three. First blokes version; other blokes version and the facts.

I note the ACTS News over the years has been occasionally used as a forum for discontent, grievance and outright attack. It is perhaps prudent not to target individuals or distinctly identifiable groups to let off steam, as without exception, there will be those for and against. The end result can lead to vitriol between all concerned. It's pointless to seek comments from members who are unaware of all the relative facts regarding a grievance or issue. Nothing wrong with a phone call to resolve a problem.

The vast majority of letters on 'Your Say' regarding rules, grading, refereeing, items of technical interest, whatever, have been informative and thought provoking. Probably leading to changes for the better in some cases.

Believe me, there are a lot of anti gun lobby groups out there, including a percentage of very high ranking police. I don't doubt for a minute in forthcoming years there will be further stringent restrictions and controls implemented and designed to achieve further reductions of civilian firearm possession and use. The usual catalysts; the actions of some deranged individual far removed from the clay scene or lobby pressure on politicians. A recent victory by the anti's lobby is the duck ban in Queensland based on ridiculous statistics highlighted by the media claiming 90% of ducks shot die a lingering death. Not with the blokes I have shot with.

We are probably lucky a clay doesn't squawk when hit with pellets. Must confess I do my best not to hurt them some days.

Though a shooter for 54 years I am reasonably new to the Clay scene and enjoy it immensely. Clay shooters I have met have been either; helpful, a hindrance, jokers, non jokers, fat, skinny, tall, short, very short, drinkers, non drinkers and eagle eyed juniors. A wide cross section of the community and without exception good people. Diametrically opposed to former clients.

The shooting news will at various times be scanned by individuals and organisations with agendas far removed from that of members. It is worthy to bear in mind any chinks in unity may be exploited further down the track. Cohesion is a key factor in prolonging the sport.

# It's Your Call

No. 10

By  
**Bill McCarthy**

We often hear of confusion from both shooters and in some cases, Referees regarding No Targets and Lost Targets in double rise events. Some interesting scenarios are worth looking at:

As the Referee in a double rise event, you observe that a shooter fails to shoot at a legal pair of targets. He raises his hand to indicate a malfunction. You ask him to test fire the gun (once only) Rule GRTS14.

On inspection of the gun you observe that the shooter has failed to load a cartridge in either chamber. What do you rule?

## ITS YOUR CALL

*If you rule Lost Target on the first barrel only, you would be quite correct. Your next call is for the shooter to shoot a second pair to determine the result of the second barrel only. It is important that you inform the shooter that he is required to fire in the direction of the first target with his first barrel.*

*Some would argue that both targets should be lost. However, if we look at Rule 1.10 (b)*

## INSURANCE INFO

Dear Sir

A query has arisen re the issue of insurance cover (accident etc) for persons we pay to load the carousels on our trap machines, currently these are young non shooting teenagers that are not members of ACTA.

Would they be covered as Range Staff? (as described in the red handbook)

If not your advice on what we should do in respect of appropriate cover for these workers

Thanks for your assistance

**Mal**

**Secretary, Callide Dawson Clay Target Club Inc.**

Mal

The Association covers all members for Personal Accident Insurance whilst acting for or on behalf of the club and/or association, this includes trappers, voluntary workers and range staff. However, in some states Workers Compensation Laws define some of the work carried out by people who receive a nominal amount of money as workers under the act. Our recommendation is that all clubs should take out a minimum cover policy with their local Work Cover office in case an injured member is defined as a worker under their State Workers Compensation Act.

It is better to play safe

**Robert G Low**

**Managing Director, SSAA Insurance Brokers Pty Ltd**

*We note a principle is established regarding oversight or neglect on the first barrel. While there is no specific instruction about the second barrel, the shooter in this case cannot be judged on his lack of a cartridge in the second barrel. If this was the intention of the rule then it would have been clearly stated.*

*I am grateful to the assistance of our Rules Chairman and his committee for their ongoing advice and encouragement with this project.*

## It's Your Call Reply

Attn: Mr. Bill McCarthy

I cannot accept the premise that because a competitor has fired at the first target of a pair that he or she has accepted the pair. My main objection is because the competitor has only looked at the first target and fired at it he or she then has to look for the second target, decide if it is legal or not and then fire at it. I feel that the result of the first shot should count and, because of the problem with the refusal rule being vague to say the least, my call would be result of the first shot to count and shoot a proof pair for the result of the second. I would agree with your lost and lost call if several second targets were refused and I thought that the second targets were legal. Under your ruling in "Your Call" if the second target was a complete target but not a legal target in relation to flight and distance, he or she would have to shoot at it. Rule 17.A. states a shooter may refuse to shoot at any target he considers to be illegal.

**Regards,**

**Peter D. Carlon**

**Member No 25339**

**Qualified A.C.T.A. Referee, Trap and Skeet**

*My thanks go to Peter and Carmel for their inquiry regarding the acceptance of a pair of targets in double rise shooting. See It's Your Call August 2006.*

*To take this situation one step at a time, let us look at Rule 1.09(g) as it is written: clearly, if you shoot at an illegal target as the first target in a Double Rise event and the second target is legal you are deemed to have accepted the pair. The judgement as to the second target is not necessarily one you have made in this case. The rule clearly states that this is the situation if the second target is legal, not thought to be or perhaps legal but is in fact legal. There are other circumstances where you may not have to accept the second target and an example is given in the article.*

*If the second target is not legal then a different situation has arisen.*

*Under the Refusal Rule we have a different set of circumstances. If you refuse a target which is deemed to be perfectly legal, then the same result would apply. ie lost target. There is no automatic right under GRTS 17 given to any shooter to refuse a legal target unless there are other circumstances. In this case we are talking simply about a single double rise circumstance.*

*In your inquiry, you state that the article says in part "that if the second target was a complete target but not a legal target in relation to flight and distance, he or she would have to shoot at it" ... I cannot find that statement in the article. We refer only to legal target in all instances.*

*Your argument, which has merit, seems to be about whether or not the rule should exist rather than what the rule states. I can only commend you further for writing your concerns so that further explanation can be given in the limited space available.*

## VALE FLO HEDGER

Alexandria Gun Club members joined her family and friends at a farewell service for Flo who died early August. Flo in her 94th year, widowed for 29 years with the passing of Manse, was matriarch of the club during Manse's shooting career together with her four sons, two of which are still members today.

Right up until the last few years Flo kept a keen interest in the club and her special love was the "Aces" shooting from the back marks in handicaps.

Flow is pictured here in 1978 with son Ron handing the Manse Hedger Memorial trophy to a much younger Peter McNair.

The club still operates from Ron and Marion's property "Footrot Flats".

# Sunshine Coast Winter Carnival

Located one hour north of Brisbane

The Sunshine Coast Clay Target Club of Caloundra Queensland held its Winter Carnival two-day shoot over the weekend of 15th and 16th July 2006. ## Level 1 Coaching Course

Over the July weekend 29th and 30th the NSWCTA ran one of their ongoing Level 1 coaching accreditation courses at the National ground in Wagga Wagga in a drive to get a few more coaches registered throughout the State. Presently there is only something like 60 registered coaches and many of those are no longer actively in the sport and as such David Coleman is busy trying to get as many active shooters as possible up to Level 1 status and beyond.

If you think that the course would be as dry as a chip, then think again. Anyone from a novice to a forty year veteran will get quite a lot out of this course which will help them be a better shot individually as well as being able to better help others.

With quite a bit of practical shooting and video techniques employed you really can see where you go wrong, what to fix, how to identify problems in stance, set up, posture, gun mount, gun fit, trigger finger positioning and grip, follow through etc.

David Coleman with Michael Kruger-Davis doing the psychological bits (still can't get the Two hump camel out of my mind) ran an often amusing anecdotal course heavy on practical application and not too heavy on the "theory" side.

In attendance where Peter Munro, Don Sullivan, Don Power, Rick Mathers, Dereck McLaughlin, John Petherbridge, Chris Levitzke, Rob Collicoat and Matt Patmore.

Every club should have a registered coach, and more than one would be handy particularly if you want to have Juniors at your club and who doesn't. In many ways it is already an "old man's sport" as John Petherbridge said during the course, no kids, no future.

We had a great group, the discussions were spirited, the debates cordial, excellent BBQ, good presenters who didn't put us to sleep. If you get the opportunity, then attend. It will probably make you a better shot, if nothing else. If you want a course in your neck of the woods then ring the NSWCTA or ring David Coleman direct.

# School Students Shoot at Echuca

Overall winner Kyle Bateman

Team

The Victorian North East Zone, School Students Trapshooting Championships held at Echuca Clay Target Club on the 10th of August 2006, could only be described as being a very successful event. 170 Students participated in perfect weather. The clubs grounds were immaculate on the day and all that was needed was for the event to run smoothly, as it did. Most of the clubs committee was there to help the North East Zone members ensure a good competition was enjoyed by all shooters.

Using six traps with two visits of ten targets, shot single barrel and the shooting starting on time, all 170 competitors had shot at their twenty targets and sorted out the shoot off of the different classes, by the early time of 1.30pm. The overall winner after a shoot off of 10 targets was Kyle Bateman with the very good score of 18/20 plus 9/10. Kyle takes his Sash and the win back to his Weeroona College in Bendigo, good shooting Kyle. Senior Boy winner was Bradley Harbor from Numurkah Secondary College; Senior Girl was Melanie Kirley from F.C.J. College Benalla, Junior Girl was April Thompson from Echuca College, Junior Boy was Nicholas Waldhauser from Gisborne Secondary College. After a count back of scores shot, the successful team was from the Eaglehawk Secondary College, being James Hipwell 15, Terry Dempsey 17, Rhys Hamilton 17, Luke Farthing 13, totalling 62/80, well shot Team members!

With Zone secretary Russell Felmingham & President Ronn Traill calling up the winners & place-getters it was Anthony Post from "Winchester" who presented the Students with their Medallions and the Overall Sash to Kyle Bateman. Anthony was thanked, by the Zone committee, for the sponsorship, and the help, of "Winchester" in running these School Students events. Everybody was on his or her way home before 2.00pm, after a very successful shoot. Full results are as follows.

## Just for a LAUGH

*People were in their pews talking at church.*

*Suddenly, Satan appeared at the front of the church.*

*Everyone started screaming and running for the front entrance, trampling each other in a frantic effort to get away from evil incarnate.*

*Soon everyone had exited the church except for one elderly gentleman who sat calmly in his pew without moving, seeming oblivious to the fact that God's ultimate enemy was in his presence.*

*So Satan walked up to the old man and said. "Don't you know who I am?"*

*The man replied, "Yep, sure do."*

*"Aren't you afraid of me?" Satan asked. "Nope, sure ain't." said the man.*

*"Don't you realize I can kill you with a word?" asked Satan.*

*"Don't doubt it for a minute," returned the old man, in an even tone.*

*"Did you know that I could cause you profound horrifying, AGONY for all eternity?" persisted Satan.*

*"Yep," was the calm reply.*

*"And you're still not afraid?" asked Satan.*

*"Nope" said the old man.*

*More than a little perturbed, Satan asked, "Well, why aren't you afraid of me?"*

*The man calmly replied,*

*Been married to your sister for 48 years.*
